2nd Degree Murder
Faced By Yeung

Yeung, customs guard, was accused of second-degree murder.

It is alleged that Yeung, while on duty at Hilo on July 28, shot and killed a native on the waterfront.

CLASS BEGUN AT YWCA BY ATTENDEES

REGULAR CLASS IN DOMESTIC SCIENCE

BY NEXT WEEK

Twenty-six of the thirty-three members of the Young Women's Christian Association in Hawaii had attended a class in domestic science. The class was taught by Mrs. J. H. French.

MRS. MARGARET HODGES

BROUGHT TO CHILDREN

At a meeting yesterday, Margaret Hodges, a member of the Young Women's Christian Association, brought to the children of the club the message of the holiday of the 4th of July.

The Character of Dick's debts.

Julie paused and glanced at Lori. "What's wrong?"

"Oh, nothing," Lori replied. "Just keeping them, though they're not really needed at the moment."

Julie nodded. "I understand. It's just that things have changed since we last spoke."

"I know," Lori said. "But we have to be careful, Julie. Dick's debts are mounting up."

TOMORROW IN THIS PAPER.

"We have to be careful," Julie said. "But we have to act quickly."

"I agree," Lori said. "We have to find a way to help Dick out."

"I have an idea," Julie said. "I think we should talk to Jim about it."

"I agree," Lori said. "Jim is the only one who can help us."

"I'll talk to him," Julie said. "I'll make sure that we get the help that Dick needs."

"I'll help you," Lori said. "We have to work together to make things right."

MOUNTAIN—Largest locomotive ever built is shown on route from American Locomotive Works of Schenectady, N. Y., to Cheyenne, Wyo. It cost $5,000,000 and will go to work over Baskett.

Celebrating Great Grape Crop

Jackie McRae makes a pretty picture as she helps a band of growers to plant a few rows of new grape vines. She is wearing a white dress and is holding a white rose in her hand.

The huge grape crop this season is expected to bring in a record harvest. The growers are very pleased with the results of their efforts.

JUNE 25, 1941

The picture shows a group of growers planting grape vines in the vineyard. They are all dressed in white and are holding white roses in their hands. The vineyard is surrounded by a wall and there is a lot of activity going on. The growers are busy digging holes and planting the vines. They are all very happy and are working very hard.
**BIOGRAPHY**

**WILBUR L. CROSS**

**PIERRE de CHAMBRUN**

The Marquis Pierre de Chambrun, eldest son of Count Charles Adolph de Chambrun, was born in Paris, June 11, 1860. He was a graduate-student of Lafayette through the Revolutionary hero's daughter, Virginia, Marquis de Lafayette.

Count Adolph de Chambrun sat on the platform beside his friend Charles Sumner, and heard Abraham Lincoln deliver his second inaugural address. Such a good impression did Count Charles make that his government decided to keep him in America, and for the next 25 years he acted as legal councillor to the French Embassy in Washington where he was a distinguished figure in public society.

Pierre de Chambrun was educated in France and America. He married Margaret Rives Nichols, of Cincinnati. The Marquis was bilingual and was widely known as an assiduous Latif of Lafayette.

In 1889 he became a member of the bar of the District of Columbia and later he sat in the French Senate after a career in the Chamber of Deputies.

His second brother was the Gen. Count Abbe de Chambrun, who married another Cincinnatian... Clara Longworth, well known Shakespearean authority and sister of the late Nicholas Longworth, one-time Speaker of the House of Representatives.

The youngest brother of the marquis was Count Louis' Charles Pineton de Chambrun, one-time French Ambassador at Rome, who, like his brother Abbelet, was born in Washington, D. C.

The marquis had three children... a daughter, Miss Mary Pineto, married to the Prince Edmond Ropelli, Count Jean-Pierre de Chambrun, who married Alice Girard, and Count Gilbert de Chambrun, who at one time was attache at the Vatican.

Girls Write Love Letters on Plant's Time

CARLISLE, Eng. (UP)—Not only do the girls at a well-known biscuit manufacturing firm in Carlisle stop work once a week to write love letters... their employers encourage them.

The job is one part of the plan by the welfare department of the firm to help workers keep in touch with their friends in the armed forces.

The girls do part of their courting during working hours, but the letters they write must be in the form of the girls.

Girls are sent to each of the men by their former workmates. In the parlors are love letters from their girls in the factory.

The Colorado governor put up his Peak against Texas' Big Head Peak. Colorado lost, 42-7.

One writer above the 10,000-foot elevation mark... goes to Texas.

Three years later Coloradoans admit they're ready to pay off if Texas wants to collect.

Now it has been estimated that will cost $15,000,000 or more... plus freight... to make the transfer.

The job could be completed in 40 years, to be exact in 40 years.

Although the $13,000,000 outlay would have to be paid by Texas, the state would get enough granite to pave all Texas roads, in round figures that's $20,000,000 cubic yards of rock.

An expert said it would take a "lot of dynamite." By a "lot" he means as much as is used in the United States in a 60-year period... as much it would take a 50-car train five years and four months to haul the explosives.

Only the combined equipment of all Colorado contractors working day and night... with no time off for breakdowns... moving 250,000 yards of earth daily, could complete the back in 15 miles to Texas.

It was conceded that the Texans would need to employ an explosives expert said it would take "a lot of dynamite." By a "lot" he means as much as is used in the United States in a 60-year period... as much it would take a 50-car train five years and four months to haul the explosives.

Only the combined equipment of all Colorado contractors working day and night... with no time off for breakdowns... moving 250,000 yards of earth daily, could complete the back in 15 miles to Texas.

The geophysicist said that the new drilling tool had a "double-edged" value, the patient receiving metal work in less time and also getting "in more comfortable accommodation," as well as the tool's being able to work in an "open country, from the top to the bottom of the mine shaft, without the slightest interruptions of the usual pain."

**GOLFS GLORY BOYS**

REDHITHS HAVE BEST TEAM EVER TO COME OUT OF THAT DISTRICT, MUCH EXPECTED

Slated to Take on Strong CIO Gridders in First Tussle This Sunday, Costa, Jinho and Kuramato are Mentors

As the baseball fascist season nears its opening, close followers of the sport are picking the Waikeana Mill team this year.

It is known that the strongest collection of baseball players ever assembled in the Kapolei High School district will do battle in these years. The team will play in the National League, and will show for the first time among the district teams.

In the opening contest, this team will meet the Boston Pats, with whom they have arranged for a five-game series.

Other Players

Especially welcomed returns are those of the Boston players--George Lehman and Jack, who returned for Waikeana Mill last year. Jack will be a great favorite of the Boston fans.

The final contest of the day will be played against the Chicago Cubs, with whom the Boston Pats have arranged a series of five games.

The majority of the players are expected to be present on opening day, which will be held on the new field at the Waikeana Mill.

No one will be left out of a well-balanced team that may fit any first class outfit in district play.

Call for SCHELLEY

and treat yourself, and your guests at the whiskey bottle.

**THE FLAVORS**

National Champions Are Tennis Victors

Los Angeles, Sept. 24--Tennis enthusiasts were present for the opening of the Western Pacific tennis tournament.

The majority of the players are expected to be present on opening day, which will be held on the new field at the Waikeana Mill.

No one will be left out of a well-balanced team that may fit any first class outfit in district play.

MICKS COAST TRIP ALL SET

NEEDS ONLY THE APPROVAL OF STUDENT BODY, TWO VOTES TO COME OUT OF THAT DISTRICT

Ralph C. Edwards has won so many marksmanship medals that he is considered a real expert.

"All you need to be a good marksman is a willingness to try," Edwards said. "If you are willing to take the time to practice and study your hand, you can become an expert marksman."

Japan’s Another Nut to Crack

NARROW AIR SPACE—It seems there wasn’t enough space in the air when Lucille Brown of El Dorado, cab pilot, and Edward Robertson of Prescott both wanted to land at Conway, Ark., at about the same time. So this is what happened when they picked same spot. Neither was hurt.
Newest, Deadliest Heavy Bomber Tests Wings

Uncle Sam's newest, most deadly heavy bomber, B-17, tests its wings in maiden flight over England. It is more maneuverable than the B-18, it has more gun places in tail and on top, is more powerful than the B-18. Its improved Flying Fortress model, internally popular with British, is to be built at Home Office. Air Ministry officials are said to praise the B-17 as the finest heavy bomber yet produced.

In short range battle, the B-17 has proved to be a powerful weapon, with its speed, range and armament.
