The United States may claim that it is interested in the welfare of its citizens, but it is not always the case. The British Empire, for instance, is often criticized for its treatment of its colonies. In the case of Japan, the British Empire has been accused of exploiting its resources and its people for its own benefit.

JAPAN STILL HAS HOPE OF BETTER US-JAPAN AMITY

Tokyo, Nov. 13.—The Imperial Japanese Government has expressed the hope that the United States will continue to assist Japan in achieving better relations with the United States.

“Through learning we obtain ideals which dominate and shape our conduct,” said the Japanese Ambassador, “and the ideals we acquire from our education are the basis of our conduct in life.”

Each country has its own ideals, and the United States has its own ideals. These ideals are often in conflict, and it is up to the leaders of each country to work towards a solution that is fair to all.

**Faillless Plane Makes 200 Flights, Interests U.S. Army**

A small group of pilots and mechanics were gathered around a small airplane, their eyes fixed on the craft as it was being prepared for another flight. The plane, a small two-seater, was sleek and well maintained, ready for its next mission.

The pilots, dressed in their flight suits, were engaged in the final checks of the aircraft. They were discussing the flight plan, making sure everything was in order for their next mission. The mechanics, dressed in their white overalls, were busy making last-minute repairs and adjustments.

The atmosphere was one of purpose and determination. The pilots and mechanics were focused on their task, ready to take on any challenge that came their way. The plane was a symbol of their dedication and their commitment to their mission.
