JAPAN ENVOY IS EXPECTED IN CAPITOL TODAY

WASHINGTON, Nov. 15—Saburo Kurusu, special Japanese envoy to Washington, is expected to arrive today at 1:00 p.m. He will bring the message by which Premier Hojo had informed the Allies that the Japanese government had decided to ask for peace discussions with the United States. The Japanese government announced that it was willing to negotiate as a basis for the peace and for the future relationship between the two nations.

GB ADMITS THE SINKING OF ARK ROYAL

SAYS SWEDISH SHIP, THEN SAILED, THEN THE DUCK

LONDON, Nov. 15—The British Air Ministry's official statement today about the recent sinking of the British battle-cruiser "Ark Royal" was that the ship had been sunk by a German submarine. The statement said that the "Ark Royal" had been attacked by a German submarine, which had fired a torpedo at the ship and then escaped. The "Ark Royal" was later sighted by a British cruiser, which had fired a second torpedo at the submarine and forced it to surface.

According to the statement, the "Ark Royal" was a ship of the British皇家 Navy, and its sinking was a significant blow to the British war effort. The ship had been involved in several major battles during the war, and its loss was a great loss to the British Navy.

U.S. GENERALS TO NEAR EAST AS ADVISORS

WILL ACT AS MILITARY ADVISORS TO BRITISH FORCES

MANILA, Nov. 15—General Douglas MacArthur, the American general in charge of the Philippine Islands, has been appointed to serve as a military advisor to the British forces in the Near East. This appointment is seen as a step towards improving the alliance between the United States and the United Kingdom in the war against Japan.

Mr. Roosevelt's trip to Wargs springs was postponed and will be rescheduled for a meeting with the Japanese envoy. He himself arrived in Washington today, according to a dispatch received at the White House.

The death of the "Ark Royal" was a major event of the war, and its loss was felt throughout the world. The British and the Americans both expressed their condolences and offered their aid in the war effort.

A. HOSIDIE IS CHOSEN CHAIRMAN OF WAIKEA PTA

The Waikea school PTA held its first meeting of the year yesterday, with the election of Mr. A. Hosidie as chairman. Mr. Hosidie, a well-known community leader, has been active in the school PTA for many years, and his election is expected to bring renewed energy and focus to the organization.

The meeting was attended by a large number of parents and teachers, who showed their support for the new chairman and the PTA's ongoing efforts to improve the school.

RUSKANS CLAIM VICTORIES IN FIVE EASTERN SECTORS

Kiev, November 15 — The Russian front has been a scene of intense fighting, with the Red Army making significant advances in several sectors. In the eastern sector, the Red Army has taken several key cities and towns, including the strategic town of Zaporozhye.

The Red Army has also made progress in the southern sector, with the capture of the major port of Odessa. In the north, the Red Army has advanced towards the Black Sea, and in the west, towards the Baltic. The Russian military has been making steady progress, and the strategic importance of these victories cannot be overstated.

GRANDMOM FOR DELINQUENTS—Misses Kiyoko Matsuo, Takie Komuro

Those present at the party last night, which was held in honor of Misses Kiyoko Matsuo, Takie Komuro, and Saburo Kurusu, Japanese ace fighter pilots, were greatly touched by the sacrifices that these young men have made for their country.

Miss Matsuo and Miss Komuro are both graduates of the Imperial University of Tokyo, and have been active in the military since the outbreak of the war. They have both shown a great deal of bravery and courage in their service, and their dedication to their country is admired by all.

The party was hosted by the Japanese community in Honolulu, and was attended by a large number of friends and relatives of the airmen.

With a view to distributing the gifts to the children, leaders in the American community have decided to hold a rally in support of the Japanese community.

Takahashi to succeed in Hilo—Mr. L. Maxwell, enroute to Near East

Teruichi Takahashi of the Hilo cal tennis fraternity, will on Sunday at the Japanese tennis club. Mr. Takahashi, who is a well-known tennis player, will participate in the tournament.

The tournament is expected to attract a large number of participants, and will be a great opportunity for the Japanese community to come together and celebrate their culture.
Jane Andrews was a vivacious young woman, but her beauty and charm were not enough to change the minds of those who believed that women didn’t belong in the navy. "How about it, Sam?" she asked her friend, "Do you think I’m too good to be a navy wife?"

Sam looked at her seriously. "Jane, I don’t think you’re good enough to be anything except a navy wife. You’re too young and too sensitive for anything else."

Jane was tempted to laugh, but instead she sat down and began to think about what Sam had said. She had always been brought up to believe that women were not meant to be in the navy. She had never really thought about it before, but now she realized that she must make a decision.

She ran her fingers through her tightly waved hair, loosening it. "I’ve made up my mind," she said. "I’m going to join the navy."

Sam looked at her in surprise. "You? A navy wife? But what about the other women? Don’t you think you’re too good for that?"

Jane shook her head. "No, Sam. I think I’m just right. I’ve been brought up to believe that women are not meant for anything but being good wives and mothers. But I don’t believe that anymore. I want to be a part of something important."

Sam was silent for a moment, then he nodded. "All right, Jane. Go ahead. I’ll support you all the way."

Jane was overjoyed. "Thank you, Sam. You’re the best friend a girl could have."

CALHOUD VACCINATION FOR BANG'S DISEASE CONTROL

Mang's disease, contagious abortion or brucellosis of cattle is probably the most serious disease confronted by local veterinary practitioners and is also a problem in the cattle industry. Such a disease is naturally more serious when cattle are closely confined as is the case in the Island of Hawaii, where by itself or fog or agglutination test furnishes quite a satisfactory method of finding the reactors so that they can be eliminated entirely. This does not give any protection or immunity to the herd. In fact, a clean herd is more susceptible to the disease than one in which a certain amount of natural immunity may have been built up. In herds where there is considerable chance of contact with animals which may be carriers it is highly desirable to immunize the animals against this disease.

The Bureau of Animal Industry has been working on this problem for many years in the United States Department of Agriculture laboratories in Beltsville, Maryland, and in cooperation with farmers. They have developed a vac- cine strain as shown in which the disease may be vaccinated. The following table brought out by the Bureau of Animal Industry and various state experiment stations are to be noted:

1. Calfhood vaccination for Bang's disease gives a high protection. 2. In very few animals vaccinated as the vaccine will not react with the animal's own tissues. 3. A herd test is not a useful test. 4. The herd test does not give a 100% assurance of a clean herd. 5. A clean herd is more susceptible to the disease than one in which a certain amount of natural immunity may have been built up. In herds where there is considerable chance of contact with animals which may be carriers it is highly desirable to immunize the animals against this disease.

The Honolulu AAU swimmers announced that the 1942 AAU indoor swimming championship will definitely be held on Maui, home of the AAU National men's outdoor championship team.

Having produced swimming champions of world prominence, it is only a fitting and proper gesture by the AAU committee to make the Valley Isle sponsor the indoor championship which Maui has asked for.

For the past several years, swimming enthusiasts of Maui have required to dig out thousands of dollars annually in order to send their teams to the mainland and to Honolulu for the National and National meets. It is only natural that they would want to see their champions perform against the territory's best and maybe a few imported champions to their own generation.

The University of Hawaii is already planning to send a big and strong team to Maui for the indoor AAU which will be held sometime during April or May. Such well-known former Muani swimmers as Jones Balcom, Takahiti Hirose and Chuck Hesse of KCC have already promised balancing the national individual medley and breaststroke champion, while Hirose is the 100-meter man. Others gained American honor will remain for showing in the distance races in the recent national outdoor meet.

The University is also planning to send their hand over for the sprinters and they are already figuring some men in which they will be able to win money for the trip.

THE 1941 season of the Commercial basketball league was brought to a close last Thursday night when KMC defeated Hilo Iron Works to cop the runner-up position of the league. As expected by all the Commercial appellate officials, the Hilo Electric Light team whipped the little league without the title even under the struggle from the other teams. It was only a matter of who was going to cop the runner-up position from the very beginning.

With an array of senior league stars on their roster, Hilo Electric Light were making a bid to win the title and was expected to force an extra period. However, all of their opponents are in all of their games there were no other teams who demonstrated any weaknesses. It was only a matter of how small the score would be.

Because of the powerful Hilo entry in the Commercial division, the season was considered a big success, the title being conferred on the Hilo Iron Works.

WRESTLING

Prothro Remains

Philadelphia, Nov. 15—President George N. of the West Chamber of Commerce will announce today that Hilo Sanei at the state wrestling championships at the Young Men's Christian Association in the young man's division for 1942. The President is a member of the Philadelphia for 1942.

"Doc Prothro is still managing the Philadelphia a big success for the sport."

CIVIL DEFENSE

Records Up

For approval

Bill Smith Jr., Leiah A. with TWENTY NEW

New York, Nov. 15—Twenty records set by Ira Smith, will now be on display at the Ambassador Athletic Union's football game to be played today at Philadelphia over three hours.

A total of 133 new marks will be for the AAU amateur class.

Tombstone champions Adolph Maloney marks in marks which will be considered a big success.

The men's track events will have the most number of records with a total of 88 new marks coming up, while the women's events scored 46 and the masters scored 37. Male marks are all occupied in the 220 and 440 yards events.

In the 220 and 440 yard events, the men will try to top the International Swimming federation marks with new marks. If the men's marks hold, they will be considered a big success.

The event will be held Thursday and Friday, and the men will have a hard time to fill, with the score going up to 1,000 manager.

Woodrow Wilson is the man selected to fill the vacant manager.

Additional league

Greater Smallness
A small enough league to fill the course every game.

Greater Comfort
A league where the men have the comfort of the home running track.

Greater Opportunity
A league where the chances will be at all times, with all the marksmen doing well.

Greater Economy
A league where the players will have enough money to buy a sewing machine.

Greater Education
A league that allows the players to go to school while playing.
