EDITORIAL ARTICLES.

Late Election News.

When the Australia left San Francisco, the Presidential Election was at its height and the election of Cleveland and Thurman was assured. The result will probably be received in this city by the Alameda due the 24th, unless a sailing vessel arrives in the meantime.

ONE POINT TO BE GAINED.

One point, and that not an insignificant one, to be gained by the construction of the projected railroad to Pearl Harbor, is the bringing within easy reach of Honolulu a most desirable locality for country residences, for persons whose regular occupations are in the capital city. There is probably no place on the islands, certainly not within ten or fifteen miles of Honolulu, which presents the same advantages for private residence as the district of Pearl Harbor. Here is a beautiful sheet of land-locked water, safe in all weathers for boating, etc. The surrounding country is open to the healthful trade winds, which most of the year exercise a cooling effect on the atmosphere. Unoccupied land is abundant. The whole population of Honolulu might be transferred to its shores without taking up one tithe of the land on which nobody now lives. With a railroad connecting that district with the city, it would be within reach of the means of many of our business people and others to locate their country residences there, to which to retire at the close of the day's duties, for rest and recreation. Thirty or forty minutes' quiet travel by rail would take one from here to there. No doubt the completion of the road will be followed by the springing up of many pleasant homes in that district, now so sparsely populated. For this reason, in addition to many others, its completion will be hailed with joy.

A PUBLIC HOLIDAY.

To-morrow, the 16th, will be the King's birthday. His Majesty is fifty-two years of age, and is in the 15th year of his reign. The day is proclaimed as a public holiday. The Government offices, the public schools, etc., will be closed, and also most business establishments. The BULLETIN office will shut up, too; so there will be no issue of the paper to-morrow. God Save the King.

GIVE THEM A GOOD RECEPTION.

On Saturday the 24th instant the steamship Alameda will be due from San Francisco, en route for Australia. Special interest attaches to this trip of the Alameda, on account of her bringing the American baseballers. We understand that it has been arranged for the steamer to arrive here in the morning and remain the whole day, in order to give the people of Honolulu an opportunity of seeing an exhibition of baseball by these experts. The baseball players will number about two dozen, but they will be accompanied by a greater number of tourists, increasing the entire party to about seventy-five. Six or eight newspaper correspondents, representing over forty prominent American newspapers, will be in the company.

It is superfluous to suggest that it is the duty of our local baseball men and the citizens generally, to do their best to make the short stay of this party at Honolulu as enjoyable as possible. No doubt, it will be done. There is no community in America, or any where else, which takes a greater interest in baseball than this community, and we confidently expect that the American teams will be received here with whole-souled cordiality and hospitality. It may not be amiss to suggest that the time in which to make preparations is short, and therefore delay is not to be tolerated.

One effect of the flying visit of these people to our shores will be to make Honolulu better known abroad. Just fancy, between forty and fifty of the great newspapers of the United States being represented. To be sure, these representatives cannot see or learn much of the country in one short day; but they will certainly write the impressions of that day, and those impressions will be read by millions of people. Moreover, their impressions will be largely regulated by their reception and treatment.

A NECESSITY EMPHASIZED BY AN ACCIDENT.

An accident occurred on Wednesday at the King street bridge, over the Nuuanu stream, near its mouth, which emphasizes the necessity of placing that crossing in a safer condition, with as little delay as possible. The bridge when unobstructed afforded a very little more than sufficient space to admit of two carriages passing each other; but for a long period past, reaching up to the present, the tramway rails have been laid along the centre of the bridge, projecting several inches above the surface. The accident referred to was caused by one of these projecting rails dishing the wheels of a private carriage, while crossing the bridge at a slow pace. There were three little children, besides the gentleman who was driving, in the vehicle at the time. The horse was a remarkably quiet one, and was readily brought to a standstill when the accident occurred; otherwise serious injury would probably have resulted to the occupants of the carriage.

Now, why should this menace to public safety be allowed to remain week after week on one of the most used thoroughfares in the city? A few cartloads of metal would raise the road-bed to the regulation grade and remove the danger.

It might be further asked, why has not the bridge been widened according to the plan decided upon? A good many weeks ago the piles were driven and the mason work at each side of the stream completed; but there operations ceased. No doubt, there are other public works pressing for attention, and everything cannot be done at once. But considering the immense daily traffic over that bridge, this may be put down at least as one of the pressing public works. Besides, a great part of the work was done weeks, if not months, ago. So long however as the undertaking remains at its present stage, it can be of no possible benefit to the public. Better to have bestowed the labor and money where they would have been beneficial.

HAWAIIAN EXHIBIT AT MELBOURNE.

A letter from Mr. Henry H. Williams, Hawaiian Commissioner to the Melbourne Exhibition, conveys the information that he has established a Hawaiian court at the exhibition, in which the articles sent from here by the Government and by private parties are displayed. Mr. Williams says that his little exhibit has attracted a surprising amount of attention, and that it is seldom without interested and enquiring visitors. All utter exclamations of surprise at the evidences of advanced civilization, as shown by the photographs of our public buildings, etc. The exhibit seems to have had the effect of inducing quite a number of persons intending

to visit Europe by the Suez route to change their minds, and go by the way of Honolulu. They so expressed themselves to our commissioner.

Mr. Williams is demonstrative in praise of the treatment he has received from the exhibition officials and everybody he has met. He has a free pass over all the railroad lines, and is enjoying the sights and society immensely—has splendid health, and is getting fat. It may be added that the colony of Victoria, in which the exhibition is being held, is Mr. Williams' native land, although he left it when very young. "The Town and Country Journal" of Oct. 27th, a Sydney paper, contains a complimentary notice of the Hawaiian exhibit, specially mentioning the articles sent by the King.

It is a great pity that this rare opportunity of advertising these islands was not made better use of by our people. Instead of the very insignificant showing effected, we might have done something more creditable to the country, and it would have been profitable to have done so. We want increased travel this way, and a great opportunity to accomplish that wish has been allowed to pass but little used. There is an immense amount of travel between Australia and Europe, by the Suez and Atlantic routes, a considerable portion of which might easily be diverted this way.

CORRESPONDENCE.

THE CAUSE OF TROUBLE.

COPY OF SIR SACKVILLE WEST'S LETTER.

Following is a copy of the letter written by the British Minister at Washington which has caused such a stir in American affairs: This letter was addressed to C. F. Murchison, a resident of Panama, Cal.

BEVERLY, MASS.,
13, Sept. 1888.

Private.
SIR—I am in receipt of your letter of the 4th inst., and beg to say that I fully appreciate the difficulty in which you find yourself in casting your vote. You are probably aware that any political party which openly favored the Mother Country at the present moment would lose popularity, and that the party in power is fully aware of this fact. That party however, I believe still desirous of maintaining friendly relations with Great Britain and is still as desirous of settling all questions with Canada which have been unfortunately re-opened since the rejection of the treaty by the Republican majority in the Senate, and by the President's message, to which you allude. All allowances must, therefore, be made for the political situation as regards the Presidential election thus created. It is, however, impossible to predict the course which President Cleveland may pursue in the matter of retaliation should he be elected; but there is every reason to believe that, while upholding the position he has taken, he will manifest a spirit of conciliation in dealing with the question involved in his message. I inclose an article from the New York "Times" of August 22d, and remain, yours faithfully,
L. S. SACKVILLE WEST,
British Minister.

LANTANA.
EDITOR BULLETIN:—Unless the Government (and that very soon) do something—this very beautiful (?) plant will ruin the whole place, and properties that are now paying heavy assessments will be hardly able to be found, and as to the owners they may clear away, so that they can get in to their premises, but when inside will not know what street they live on, as all along the Government roads this fine plant does so well, that 8 or 9 feet is nothing for it, if only assisted by a fence or wall.

Of course, it may be said well, why don't you keep it clear of your premises? The tax-payers don't propose to do the work the Government should do—I mean on the public roads. The "plains" that a few years ago did not have any lantana growing on it, now is getting covered fast. Large vacant lots now grow it as if it were a valuable crop

—said lots being unoccupied and uncared for prostrate by this article by means of birds, etc., all over the plains where I write from; and having lived there over 18 years. I know a little of what I am talking or writing about. But it is needless for me to describe how it is spreading, not only on the plains, but everywhere; and a stitch in time may save nine.

Now I will make a suggestion, and suggestions were very popular in dear Walter's time, not my suggestions but his:
Let the Government by its Minister give due notice "by the power in him vested," that a month, say after date of said notice, if any house or lot owner on the plains, and anywhere else, as he likes, has not cleared his said lot of every plant of lantana growing on it, it will be done for him, and he charged and also fined \$10 first offense, \$50 the second, and so on till he takes an interest in the said work or he will lose his capital in finding it.
But, and a very large but, the Government must do its part—and do it well—for after all we pay for it, and send out squads of men on every street and cut down, dig up or otherwise destroy this real curse to the place; pile up, dry and burn, and send an officer round to see that it is done—some of those Captains perhaps, if they are not too busy?

This may seem a very funny article—amusing I mean; but I think hundreds will bear me out. It is very serious. Of course, coming from me, it will be taken no notice of, but I know of some who suffered thousands of dollars damage, who could speak if they liked. Of course, we cannot prevent lantana spreading over the country, etc., but let us do so when we can in and around the city and suburbs.
Some years ago a firm in this city sent down to Kaula, to a gentleman there, a box or two of this fine plant, for him to plant and make a hedge around his garden, etc., as something very fine, etc. He did so—in the innocence of his heart, and in a few years the doves and pigeons had carried it all over his place, to the almost ruin of it as a cattle ranch. As I had the pleasure of stopping there a few weeks I saw and heard all about it direct from the gentleman, who was E. Krull Esq., of Keala, where Col. Z. S. Spalding's plantation now is, who may know if he has any on his lands or not; although for sugar-raising land, where you can plow it up, it may not be so bad.
I have always heard what a grand power is the press, and so it may be in politics; but I think it could use its power to more advantage if it would leave them alone and attend to local or home affairs. I suppose after that I had better stop, but I only meant to ask your editorship to support by your more able pen this humble article.
KILA,
Hono. Nov. 9, 1888.

would not think the California beet sugar industry troubled him much. The next meeting of the Literary Club, will be held at Grove Ranch, at the residence of Honest Lowrie, on the 16th of the present month. Messrs. Hall, Charley and Dickey have been appointed a committee of arrangements, and these parties being adepts at the business, we expect a roaring programme. The fact of the meeting being held at Mr. Lowrie's residence enhances the anticipated pleasure, as many societies, literaries, and other entertainments, held at that place on former occasions, have all been declared par excellence.

Mr. Castle and his two young sons, are domiciled at the residence of Mr. H. B. Bailey. Here, under the kind care of Mr. & Mrs. B., noted for their generous hospitality, Mr. Castle is enjoying himself immensely. He has thrown aside all political cares, and has given himself up to simple enjoyment.
It is funny to hear this grave and dignified President of the greatest Legislature that ever assembled in your city, tell of his adventures of two days' stay at Olinda, on Haleakala, coming out of the thorny blackberry bushes at Olinda, etc.

Mr. Castle looks like a man who had said something his wife did not exactly relish. Then to hear him tell about his cooking, I imagine he thinks because he helped to cook Gibson's goose, that he is perfect in his culinary knowledge.
I have suggested to him the idea of writing a cook book. Cooking Made Easy, by Ah C. Price 50 cents only. A few copies to be found at Hewitt's. No Chinese need apply.
By the way the Minister of the Interior is expected to-day.

If these two Reform giants meet here and settle their little differences on the Chinese question, they will probably make Haleakala howl. Come on, Lorrin, plenty of room, and we won't charge you any licence for the circus.
Grove Ranch, Hamakua, Paia, will soon commence grinding. Lots of smoke to-day. Don't know whether Mother Pele is on another spree, or whether it is Major Cornwell of Waikapu.

Waikuku and Waiehe will soon be to the front again, making sugar. Lively times for Maui. The liveliest island of the group.
At an election held at Makawao yesterday, Cleveland was elected.

"Coming events cast their shadows before," and "Nip" is still in the lead.
The Foreign Church at Sunny Side is fast approaching completion. It is a splendid structure, and is built with all the modern ideas of convenience. The people are proud of this fine church, and are loud in their expressions of gratitude to Mr. Baldwin, who has mainly been instrumental in its building.

Splendid weather—everybody full of joy, I mean.
With same good wishes to the BULLETIN, I remain,
Yours truly,
Ah Jim.
Kula, Maui, Nov. 7, 1888.

LETTER FROM MAKAWAO.

EDITOR BULLETIN:—The friendly face of the BULLETIN is again before us. Always welcome. But we patient and long-suffering people in the outer districts are sorry to see so many murmurs and complaints from the sore-heads.

It seems to me it is near time this tempest in a tea pot subsided. It seems to us hard to understand why these mules (there goes that pen again), men, should kick so hard against an administration, which, to say the least of it, is so far superior to the last regime. Forbear, Oh! ye sore-heads.
As well might one of your brother donkeys try to kick down one of the Egyptian pyramids, as for you to try by your feeble writings to overthrow the present party of Reform. Come, shake hands, and let the political waters be still. Let us pull together for the common weal of this Paradise of the Pacific.

This Reform cherry is too small for two bites, so let us swallow it whole, believing it to be the sweetest morsel yet presented for our taste. The country is good enough, and so is this honest Reform Government, if you Mar-Plots would only think so. Selah.
The brig John D. Spreckels, has just arrived in Kaula, 13 days from Frisco. She brings 50 head of Merino and Southwens sheep. These animals were purchased in California for Hon. H. P. Baldwin, for his Haleakala ranch. Mr. B. will introduce new breeds of horses, cattle, and other stock pertaining to ranch business.

Now that Mr. Baldwin has assisted in reforming, the Government ranch, he proposes to pay some attention to his own affairs, and reform some matters in this direction. The "Big Elephant" at Spreckelsville is grinding away, making about one hundred tons of sugar daily. To judge from the saccharine smile on Morrison's face, one

matters does not bid fair to interest the majority of the readers of the BULLETIN, nor would controversy, so conducted, be productive of any good. It would appear rather a profanation of what is most sacred to the consciences of men, and of course, would throw very little valuable light on the point of issue. Hence I think it best that we shall cease further boring the public with our dispute.
If the term *neo*, applied to the various Protestant denominations, is offensive, I frankly declare that no offense was intended.
The "Friend" finds fault also with the Catholic priests for endeavoring to bring the Portuguese children to St. Louis' College, rather than have them at the new school on School street. Some of his remarks seemed to insinuate that those Catholic priests were accused of acting against the intention of the Board of Education. I gladly accept his word that he meant no such thing, and I am pleased that the "Friend" is not in the confidence of the Board. Without personal ill feeling, I give him my Aloha.
HERMAN,
Nov. 11, 1888. Bishop of Oloa.

NEWS ARTICLES.

WAILUKU NOTES.
Several welcome showers of rain have changed the aspect of the country, and gladdened the hearts of the planters.
On the night of the 8th at a few minutes before 6 o'clock quite a prolonged shock of earthquake was felt here. The vibrations were from east to west and lasted about four seconds. No damage is reported to have been done, although the shock was severe enough to stop several clocks on different parts of the Islands.
The Waikuku Racing Association have been untiring in their endeavors to have a fine programme of races on the 16th, and judging from the entries already made their efforts will be successful.

The result of the Presidential election in Waikuku was a victory for the democrats by a vote of 23 to 19.
In pursuance of a call, quite a large gathering of the representative men of Waikuku was had at the Court House last night, to arrange for the reception and entertainment of His Majesty here next week. Major W. H. Cornwell presided and Mr. Norrie acted as secretary; four committees were appointed to whom were entrusted the arrangement of the reception.

Last night a fire occurred in one of the fields of cane belonging to the Waiehe Sugar Co., but was put out before much damage was done. The cause of the fire is unknown, but is supposed to have originated by some one smoking in the field.
Waikuku, Nov. 10, 1888. N.

DEATH OF MR. A. J. CAMPBELL.

It is with regret that we chronicle the death of Mr. A. J. Campbell which took place at 2:30 yesterday afternoon, the results of injuries received by a fall one week ago into a cellar at Messrs. E. O. Hall & Son's store. The deceased was a native of Magilligan, County Derry, Ireland, and came to the islands in 1854. He carried on the business of merchant tailor for many years. He will be much missed from St. Andrew's Cathedral, the services of which he attended regularly. He leaves a widow, one daughter and three sons to mourn his loss. The funeral takes place at 4 o'clock this afternoon from his late residence Nuuanu avenue, the Rev. George Wallace conducting the service.
—Nov. 14.

THE BASEBALLISTS.

One of the events of the year will be the visit of the two leading baseball teams to Honolulu. Mr. Geo. W. Smith received a letter from Mr. A. G. Spalding, manager of the Australian trip, which gives particulars of what will be done on arrival. Mr. H. H. Simpson one of the players is now in Honolulu and this afternoon will commence practising with a local team. He will pitch for them. The Alameda will arrive here early on the morning of the 24th and at 1 o'clock in the afternoon the Chicago and All-Americans will play an exhibition game. After that one of the two teams will play a game with the local team. Six or seven newspaper men will come with the teams and as they represent forty-five of the leading American newspapers it will be seen by this that the country will get considerable free advertising, as these writers have instructions to give the fullest accounts of the trip. When the subscription list goes round it is hoped every one will give liberally.
—Nov. 14.

S. S. AUSTRALIA.
The Australia arrived at her dock at 2:20 o'clock this afternoon with 1563 tons of freight, gold coin valued at \$100,000, 75 cabin and 28 steerage passengers. Left San Francisco on the 6th at 2 p. m., and experienced to the 7th N. W., winds, rough sea and cloudy weather. From 8th to 13th, light trades, smooth sea and fine weather.—Nov. 13th.

THE WHALING FLEET.

The whole of the whalers reported imprisoned in the ice succeeded in getting out. On October 22nd a northwest gale sprung up which broke up the ice and allowed the whalers to get out into the open sea. Following is the catch for the season: Thrasher 5 whales, Abram Barker 2, Lagoda 1, Little Ohio 1, Triton 0, Bounding Billow 2, Helen Mar 0, Wanderer 0, Francis Palmer 0, schooner J. A. Hamilton 1, Alton 1, Belvidere 7, Lucretia 2, Balaena 12, Beluga (September 28th) 10, Grampus 3, Jesse H. Freeman 3, Narwhal 7, Orca 16, Andrew Hicks 7, Eliza 7, William Bayliss 7, Mars 7, Lancer (September 25th) 6, Hunter 8, Sea Breeze 7, J. P. West 3, Ohio 2nd 3, Hidalgo 3, Rosario 6, Ocean 7 and the Reindeer 3.

FUNERAL OBSEQUIES.

The funeral of the late Alex. J. Campbell, took place yesterday at the family residence, Nuuanu avenue. The Rev. Geo. Wallace conducted the service and members of the choir of the second congregation of St. Andrew's Cathedral sang two hymns. There was a large attendance of friends and many beautiful floral offerings. The pall bearers were Messrs. T. May, S. Roth, E. W. Jordan, M. McInerney, and McColgan. The remains were interred in the Nuuanu cemetery.—Nov. 16.

LIQUOR SMUGGLERS.

Three Japanese belonging to the crew of the Takasago Maru were arrested yesterday with a quantity of gin in possession. They were taken to the Station House and charged with smuggling the liquor. In the Police Court this morning they pleaded guilty. Capt. Brown told Judge Dayton that he had considerable drunkenness on board during the voyage from Yokohama and could not find where the liquor came from. He hoped the three men would be severely punished as it was entirely against the rules of his ship for the crew to have liquor.

SOMETHING NEW.

Early next week Mr. J. P. Bowen will open his new lunchrooms adjoining the Pantheon, on Hotel street. It has been fitted up in an elegant manner regardless of expense. The front room will be used for the sale of tobacco, cigars, soda water and milk shakes. Adjoining this is the luncheon room with a marble top counter thirty feet long, with a small aquarium in the center. Off the luncheon room is the dining hall a most commodious place. In rear are reading and billiard rooms. Mr. A. J. Smith for two years and a half chief cook on the Alameda has been specially engaged to preside over the culinary department, which means that the lunches to be served will be of the very best quality. A range is now being put in of improved pattern. Due notice will be given of opening day.

BAND CONCERT AT THE HAWAIIAN HOTEL.

According to his usual custom, Mr. Graham, manager of the Hawaiian Hotel, made every requisite preparation for the accommodation and comfort of visitors to the band concert at that hotel, last night. The customary illumination of variegated Chinese and Japanese lanterns and incandescent electric light supplemented that of the "Queen of Night." Hundreds of visitors thronged the hotel balconies and grounds, among whom were many of the Swiftsure, the Alert, and the Cormorant people.
The concert was by the Hawaiian and the Swiftsure bands. The first named led with two selections, and was followed with two pieces by the latter. The Hawaiian boys then sang several popular native songs, after which the two bands unite, and played together. Mr. Berg, our own bandmaster, and Mr. Leeby, bandmaster of the Swiftsure, attending in the leadership. It is well known that nothing complimentary can be said of the performances of the Hawaiian band, and last night's productions of the Swiftsure band also merited the highest encomiums.—Nov. 15.

The Czar and Czarina were injured in the recent accident.
The Bank of England loses \$71,000 on bills with forged indorsements.

AGAINST TRUSTS.

Tammany Society Opposed to their Formation and Existence.

Committee Report Submitted.

At a meeting of the Tammany Society last evening twelve new members were elected, including Joseph Franklin, an ex-Assemblyman and a Republican member of the Legislature four years ago. C. A. Buckley was added to the Committee on Trusts. Members of the society volunteered to guard the polls on the night of the election and the subsequent night. Speeches were made by Joseph Naphthaly, A. J. Clunie, Joseph Franklin and others. Mr. Franklin assigned as his reasons for leaving the Republican party and joining the Democratic, the action of Grover Cleveland in signing the Chinese Exclusion bill, and the failure of the Republican Administration to provide any remedy for the evils of Mongolian immigration. The Committee on Trusts submitted their report, which was unanimously adopted. The committee were authorized to employ counsel and to commence action through the Attorney-General of the State forthwith. The report of the committee was as follows:

To the President, Officers and Members of Tammany Society, San Francisco, Gentlemen:

The undersigned, appointed at a meeting of Tammany Society on September 26th last as a committee to investigate the workings of the Sugar Trust in this State, to ascertain the name of any Californian corporation belonging to said Trust, and the advisability of the Society taking action to counteract the injurious effects of planting the trust system on this Coast, beg leave to submit the following report:

The following extract taken from the report of the Investigating Committee of the State of New York, gives the history of the formation of the Trust, or, as it calls itself, "The Sugar Refineries Company," its objects and the manner of its workings:

"The combination known as the Sugar Trust, with a capital represented by stock certificates amounting to \$45,000,000, came into existence by virtue of an agreement dated on or about October 24, 1887, by and between the stockholders of eight sugar refineries, corporations of this and other States on the Eastern coast of the United States (one, however, was located in St. Louis), by which they agreed to surrender the stock of their several corporations to certain persons as Trustees, called the Sugar Refineries Company, and who were to hold the same for the benefit of all; and in exchange for such stock so surrendered the several stockholders so surrendering receiving stock certificates in the Sugar Refineries Company in amount at least four times the nominal value of the stock surrendered. The stock of the several corporations in the hands of the trustees called the Sugar Refineries Company, gave them the absolute control of all the refineries in the combination, and enabled the trust to run all the refineries exclusively for the profit of all, and without any competition between them. By such surrender the several corporations became the mere satellites of the trust (being the Sugar Refineries Company), and all their affairs are dominated from the central body. A system of reports containing statements of raw material purchased, refined sugar on hand the daily output of each refinery, together with the funds in the treasury, is established between the trust and its vassal corporations. The Sugar Refineries Company recommended when a refinery shall shut down and when it shall run, but at work or idle, it receives its share of the general earnings. The trust exercises absolute control of all the industry, and in its discretion takes in new corporations, which surrender their stock at a valuation agreed upon, and in turn receive certificates of stock in the Sugar Refineries Company, for which reception of new corporations the original trust agreement made full provision. It is obvious that in effect this combination, representing as it does eighty-five per cent. of the sugar refining capacity of the Atlantic coast, and all the sugar refineries in the State, can greatly affect, and for a time at least control, at once the price of the raw material, and of the refined product, and this without regard to the interest of the consumer. It appears that the price of sugar has largely advanced since the trust's formation, and no satisfactory explanation was given of the combination comprised of, of eighty-five per cent. of the sugar refineries of the Atlantic coast to put up prices."

Since the formation of "The Sugar Refineries Company," and in accordance with its original plan, numerous additional refineries have been taken into the trust, and among them the "American Sugar Refinery," a California corporation, having its factory at the northwest corner of Union and Battery streets, in this city.

This corporation was originally formed as the American Sugar Refinery, but reincorporated on the 22d day of August, 1885, as the American Sugar Refinery Company with a capital stock of \$1,000,000, divided into 10,000 shares of the par value of \$100 each, the objects and purposes of the company, as set out in its articles of incorporation, being "to carry on the business of sugar refining; to purchase, sell, manufacture and deal in sugars and the products thereof; to purchase, sell, hire, lease, maintain and operate sugar refineries and refining works; to purchase, sell, hire and lease such lands as are requisite or convenient for carrying on the sugar refining business; to purchase, sell, construct and maintain buildings, machinery, tools and other articles and materials necessary or useful in said business; to purchase and hold or sell shares of the capital stock of other corporations, and generally to do and perform all other acts and things necessary or useful or auxiliary to the main objects of the company as above set forth."

About the 1st of March, 1888, the "American Sugar Refinery Company" amalgamated with "The Sugar Refineries Company," surrendering to the latter its entire capital stock and taking in lieu thereof certificates issued by said "The Sugar Refineries Company," of the face value of one and a quarter millions of dollars. Since that time the "American Sugar Refinery Company" has been under the exclusive control of "The Sugar Refineries Company," (which is not a corporation but an association of Eastern capitalists), the supply, as well as the price of the sugar of the California Company, being regulated entirely by the trust managers. The American Sugar Refinery Company has failed to carry out the purposes for which it was incorporated, has surrendered the entire control of its properties to outside parties, has ceased to maintain its identity, and has become part and parcel of an unlawful combination to decrease the supply and increase the price of a necessary article of domestic consumption.

Carrying out the views of the society in undertaking this investigation into the workings of the sugar trust, your committee has also examined into the present legal status of said American Sugar Refinery, which we understand is the only California corporation belonging to the said trust, and to that end have examined the opinion of the Attorney-General of the State of New York, rendered in re the North River Sugar Refinery Company and in re the Sugar Refineries Company, on the 29th day of June last, and have also consulted with the Hon. G. A. Johnson, the Attorney-General of the State of California, and now report to this society, after such investigation, that in the judgment of your committee the American Sugar Refinery, by becoming amalgamated with the Sugar Refineries Company, has committed an illegal act, and that in a proper action in the Courts in the State a forfeiture of its charter will be decreed.

Your committee suggests that the Tammany Society of San Francisco take immediate steps to have the Attorney-General commence a proper action against said California corporation for the forfeiture of its franchise, and for damages, and to that end make provision for the necessary costs and retain counsel to assist the Attorney-General in such prosecution.

Your obedient servants,
R. B. MITCHELL,
C. L. ACKERMAN,
P. F. DUNNE,
Committee.

Dated October 24, 1888.
—[Alta California, Oct. 25.]

EXCURSION PARTY.

A FINE DAY AND A PLEASANT TIME.

Hon. M. P. Robinson, owner of the little stern wheel steamer Ewa, having placed that craft at the disposal of Mr. B. F. Dillingham, the latter gentleman issued, on Monday last, informal invitations to a number of ladies and gentlemen to constitute, on the following day, an excursion party to Pearl River.

At 7 o'clock on Tuesday morning the gathering at Brewer's wharf, the point of embarkation, began; and by 8 o'clock all were on board, and the little steamer started.

The party consisted of Hon. M. P. Robinson; Mr. and Mrs. B. F. Dillingham; U. S. Minister Resident Geo. W. Merrill and Mrs. Merrill; U. S. Consul-General Putnam and Miss Putnam; Judge McCully and Mrs. McCully; Dr. Lowell Smith; Rev. S. E. Bishop and Mrs. Bishop; Hon. W. D. Alexander; Lieut. Moore, of the U. S. S. Alert, and Mrs. Moore; Lieut. Crawford, of the Alert; Capt. Acland, of the British Navy; Messrs. J. T. Arundel, H. Bishop, Imlach, and Neill, of England; Mr. Klugel; Mr. and Mrs. W. W. Hall; Mr. and Mrs. F. W. Damon; Mr. and Mrs. F. Austin; Mrs. J. M. Damon; Mr. J. F. Brown; Mrs. E. C. Damon; Mrs. J. J. M. Whitney; Mrs. W. C. Merritt; Mrs. E. R. Hendry; Mrs. A. Lyons; Miss M. Beckwith; Mr. D. Logan, of the "Advertiser"; W. Hill, of the BULLETIN; and several little Misses.

The day was delightfully fine throughout, the sea smooth, and just sufficient breeze to be pleasant. The little steamer glided out of the harbor and passed near B. M. S. Swiftsure, where that vessel is lying at anchor, giving an excellent view of the marine monster. About an hour's steaming over a gentle swell, enough only to remind the excursionists that they were on the sea, brought the party to the entrance of Pearl Harbor. The bar passed, the water was perfectly still, the slight swell outside not affecting it in the least. Several of the company, although old residents in the kingdom, stated that this was the first time they had been on the waters of Pearl Harbor.

The steamer made about as straight a course as she could towards the country residence of Mr. C. A. Brown, which is near the head of one of the numerous bays. Mr. Brown came off in a boat and joined the party, remaining the rest of the day, until the Ewa started for home, when he returned to his boat and pulled for home also.

The steamer kept on the move until about midday, running into bays, rounding headlands, etc., for the purpose of showing the charming surroundings of Pearl Harbor to the excursionists. At noon the vessel moored to the shore at an uninhabited spot, and everybody stepped directly from her deck on to the dry land, without the aid of boats or any other bother, bearing with them the refreshments provided for the occasion. The shade of algaroba trees was abundant and near at hand. Resting in this, keen appetites, sharpened by the sea air, were appeased; and of the fragments, when all had eaten to their satisfaction, there was enough taken up and carried back to the vessel to feed quite a multitude.

After refreshment, cruising around the harbor, to nooks and corners not previously visited, was resumed, until a little past 3 o'clock p. m., when the Ewa's nose was directed towards Honolulu.

The excursionists not only enjoyed the very pleasant cruise, but were also extremely delighted with the variegated land aspects presented to view. To those of the party who were there for the first time the sight was naturally more entrancing and impressive than to those to whom it was familiar. Pearl Harbor, with its innumerable nooks and bays, its islands, peninsulas, etc., is really a beautiful place. In spots, banana plots, cocoanut and mango groves, rice plantations and comfortable looking residences nestle right down to the water's edge. The uncultivated lands, and indeed places where there is but little soil on the coral rock, are covered with algaroba trees and other greenery. Considering its natural attractiveness and its nearness to Honolulu, one cannot help feeling surprised that so few excursion parties ever go there.

After a pleasant run back, over as smooth a sea as that of the morning, the steamer moored at Brewer's wharf at 4:30 p. m. Some of the gentlemen who had spent most of the day in the sun on the upper deck had very ruddy countenances, but they were as happy as sandboys all the same. The entire company landed, after day's real and quiet pleasure, over which not a ripple had passed through any mishap, with feelings of gratitude to Mr. Robinson and Mr. Dillingham.

The Pope has received a gift of a million of dollars from India and Australia.

The Czar's visit to the Crimea has added significant interest to the Eastern question.

The marriage of Prince Alexander of Battenberg to Princess Victoria of Germany will probably take place at Windsor.

There was an explosion in a mine at Lockhann, Pa., Nov. 4th, 16 persons were killed.

BOOKED TO LEAVE.

The following are booked to leave, at the office of Messrs. W. G. Irwin & Co.:

BY THE AUSTRALIA, NOV. 20TH.
T. H. Hobron and wife, Miss Gray, Hon. A. Jaeger and wife, Miss E. E. Chaffee, A. Young, Jr., A. S. Wilcox, G. N. Wilcox, Miss Hughes, Chas. A. King, W. F. C. Hasson, E. A. Denicke, M. Hyman and child, Albert Strauch.

FOR THE COLONIES:—
BY THE ALAMEDA NOV. 24TH.
Mrs. Adrienne Dudoit and Albert C. Thorne.

PLEASURE AND CHARITY.

The saloon passengers by the Alameda, from the colonies, contributed \$90 to the funds of the California Women's Hospital on the arrival of that steamer yesterday. The presentation was made to Mrs. A. N. Towne, President of that worthy charity, by John D. Spreckels, to whom the passengers intrusted the selection of the charitable institution to which the money should be given.

The passengers on the voyage conceived the idea of contributing fancy work, photos and pictures, and establishing a bazaar in the Social Hall, the articles to be sold by auction before landing at San Francisco, and the proceeds to be given to some charitable institution in this city. The sale took place in the Social Hall with the above result. Miss Nellie Ferrin of the London Gaiety Company, the members of which are returning to England from a successful tour in the colonies, was very zealous in getting up fancy work. Photos of everybody on board were taken by a gentleman amateur, and Mr. Story contributed several clever water-colors, among which was an imaginary picture of his own funeral.

It is needless to say that the time on shipboard passed pleasantly, and the passengers generally speak in praise of the ship and officers and the equable weather throughout. To show their appreciation of the popular commander, Captain Morse, they presented him with a purse of \$250 on arrival at port, which, like a dutiful husband, he handed to Mrs. Morse for safe-keeping.—[S. F. Examiner of Oct. 26, 1888.]

A WONDERFUL TROUPE.

THE SILBONS' PERFORMANCE AT THE OPERA HOUSE.

Despite the heavy rain Thursday there was a very good audience present at the Hawaiian Opera House in the evening to witness the first performance by the Gaylord and Silbons troupe. Without doubt it is the finest company of its kind that has ever visited Honolulu, some of the acts done being startling in the extreme, but all performed with the greatest ease and precision. The programme opened with a pantomime entitled, "Rendezvous, or love in all corners," which kept the audience in one continued roar of laughter from beginning to end. Next appeared four of the Silbons with a very clever performance on two rings and for which they were loudly applauded. The Dale brothers appeared in a double capacity during the evening, first as acrobats when they presented some most difficult feats, and next as clowns. In the latter capacity they were exceedingly clever and at the same time comical, keeping the audience in good humor. They did all sorts of tricks with large and small balls, knives, plates and hats. One of them from the balcony threw five hats which were all planted on the head of the other who was on the stage. They were deservedly applauded. Moulton and Dashway's performance on the three fixed bars was something entirely new, and should be seen to be appreciated. It is almost impossible to describe what these two men did. One of them weight 215 pounds, but his movements are wonderfully quick and his skill very great. They were recalled three times. Edwardo's walking on a tight wire was neat and gracefully done.

But "the" event of the evening was the trapeze performance by the five Silbons. Three of them went through a series of difficult movements on trapezes fixed just inside of the proscenium. Another occupied a trapeze a few feet below and while hanging from it by the legs, caught Walter Silbon, who swung from a trapeze near the balcony, by the hands, the feat drawing forth tumultuous applause. The second time it was done Walter turned a double somersault in the air before being caught. It may well be termed "the greatest aerial act in the world." Ida Victoria gave a recitation "Shoe black," and a pantomimic novelty "The three rivals" closed the evening's entertainment. Friday evening the performance was repeated and was up to the standard of the previous evening. The audience was a good one and testified its appreciation by repeated bursts of applause.

This evening the company appears again and should be rewarded with a bumper house, their performance warranting nothing less. Reserved seats can be obtained at L. J. Levey's salesroom.

The condition of the King of the Netherlands is critical.

The Sackville West letter has created intense excitement in England. The letter is to be placed before parliament.

AQUATIC NOTES.

H. C. Searle beat Peter Kemp by twenty lengths, in the race for the championship of the world, October 27th. Kemp had no show at all. On the 29th, at Sydney, Kemp beat Neil Matterson, in a race for \$1000 a side.

ACCIDENT.

By the W. G. Hall news was received of a terrible accident which took place at Honokaa, Hawaii, on the 7th. A native was fishing with giant powder, when his right hand was blown off, the left hand was injured and his breast and face were hurt. He was not expected to live.

THE MARIPOSA.

The R. M. S. Mariposa arrived rather unexpectedly in port at 11 o'clock Friday morning. Captain Hayward was in command and fine weather was experienced the whole of the trip. She had two steerage passengers for the port and 23 cabin and 72 steerage in transit. The Mariposa resumed her voyage early this morning.

A SURPRISE TO MR. SCHMIDT.

H. W. Schmidt, Esq., of the firm of Messrs. Hackfeld & Co., and Consul for Norway and Sweden, received a surprise at his residence on Beretania street, yesterday morning. It became known to the Portuguese brass band that the 16th was the 42nd anniversary of Mr. Schmidt's birth, and the band decided to show its regard for that gentleman by giving him a little music, which lasted from 9 o'clock a. m. to about 11:30. Mr. Schmidt was taken completely by surprise, not having had the slightest intimation of what was coming. This is the first appearance of the Portuguese band since its reorganization. It plays very well.

MALIBTOA'S RETURN.

The North German Lloyd's steamer Nurnberg arrived at Adelaide, October 24th, from Bremen, via Southampton. At the latter port Malibtoa and the two chiefs who were deported from Samoa by the orders of the German Government, and subsequently released, were transhipped to a German warship, which will convey them back to Apia. An English passenger by the Nurnberg states that Malibtoa was shamefully treated on board the steamer. He and the chiefs were berthed in the fore-castle, and were not allowed to converse with the other passengers. He adds that Malibtoa was deeply depressed, and appeared to be heart-broken. It is uncertain whether the deposed king will be returned to Apia.

SPECIAL TARGET PRACTICE.

The Hawaiian Rifle Association held a special target practice at the King street range on Friday. The day was not one of the best for shooting. As usual Johnny Rothwell came well to the fore. Following is the result:—

MATCH NO. 1.
Open to all comers; 200, 500 and 600 yards. First prize 30 per cent of receipts; 2d, 20 per cent; 3d, 10 per cent. Military rifle, 6 lbs. pull, 7 shots at each distance.
J. Rothwell—
200 yards: 4 3 5 5 5 5—32
500 yards: 5 5 2 5 5 3—30
600 yards: 2 3 2 4 3 2—19—81

F. Hustace—
200 yards: 4 4 5 4 4 4—30
500 yards: 5 0 3 4 5 2—21
600 yards: 4 4 4 4 3 4—26—77

C. H. Nicoll—
200 yards: 3 4 4 3 5 3—27
500 yards: 5 4 2 4 3 5—26
600 yards: 4 2 5 2 3 0—19—72

C. Hustace, Jr.—
200 yards: 3 2 3 3 4 3—23
500 yards: 4 4 5 4 4 4—26
600 yards: 4 0 4 3 2 0—17—69

J. W. Pratt—
200 yards: 4 4 4 4 4 4—27
500 yards: 5 4 3 3 4 4—26
600 yards: 4 3 3 2 0 0—12—65

MATCH NO. 2.
Open to all comers; ten shots at 200 yards. First prize, 30 per cent of receipts; second, 20 per cent; third, 10 per cent. Conditions of first match.
J. Rothwell... 44 5 4 5 4 4 5 5—44
Frank Hustace... 4 5 4 4 5 4 5 4—44
J. H. Fisher... 5 3 4 5 5 4 5 4—44
C. H. Nicoll... 5 4 4 4 4 5 5 4—43
W. E. Wall... 3 4 4 4 4 4 3 4—37
C. Hustace, Jr... 3 3 3 4 4 4 4 3—36
J. W. Pratt... 3 3 3 4 4 3 4 3—35
George E. Howe... 2 3 2 3 3 4 5 4 2 3—35
V. J. Fagerroos... 2 0 3 2 3 5 4 3 3—25

The first three take the prizes in the order given above, the score being judged by Creedmoor rules.

MATCH NO. 3.
Citizens' Match: Open to all comers, except J. Brodie, J. Rothwell, C. B. Wilson, F. Hustace, J. H. Fisher, W. C. King, C. H. Nicoll, J. W. Pratt, C. W. Ashford, F. J. Higgins, and E. Hingley. Five shots each at 200 yards. First prize, 20 per cent; second, 15 per cent; third, 10 per cent; and six prizes of 5 per cent of receipts. Any rifles; no air-set triggers or telescopes allowed.
W. E. Wall... 4 5 5 4 4—22
T. W. Hobron... 4 4 4 4 4—20
E. G. Schuman... 4 4 4 3 5—20
J. Good, Jr... 3 4 4 4 4—19
W. B. McGubbin... 3 4 3 4 4—18
M. M. Taylor... 2 3 3 4 4—16
A. L. Selsan... 3 3 3 4 4—16
C. Hustace, Jr... 3 3 3 4 4—15
H. S. Townsend... 2 2 2 4 4—14

FAREWELL.

There was a "sound of revelry by night," at the residence of S. B. Rose, Secretary of Wilder's Steamship Co., last Thursday evening; the mirth, music and dancing being only part of an enjoyable farewell dinner given in honor of Mr. and Mrs. A. D. Thomas, of St. Louis, who sailed for home per steamer Mariposa. Mr. Thomas is special travelling agent for the Mutual Life Insurance Co. of New York, and has largely increased the popularity of that excellent old company during his visit on the Islands.

ENGINE CO. NO. 1'S BALL.

The ball given at the Honolulu Rifles Armory last evening by Honolulu Engine Company No. 1 was a successful affair in every way. The interior of the building was beautifully decorated with flowers, flags, evergreens and colored lanterns. At one end of the hall was a stack of new hose, on the top of which was a floral design, and in the background trumpets, hats, axes, belts, etc. The whole effect was extremely unique. A detachment of the Royal Hawaiian Band was stationed half-way down the hall on one side and played for dancing. The reception committee were very attentive to those who attended, and Mr. Robert More made a capital floor manager. The programme contained fourteen dances. Refreshments were served during the evening by Mr. F. Horn, the well known caterer, and they were as might be expected of the very best kind. Dancing was kept up with spirit until after midnight.

SAMOA.

THE COUNTRY STILL IN AN UNSETTLED CONDITION.

There was nothing in the way of exciting news from Samoa by the Mariposa. No satisfactory settlement has so far been made. Mataafa is still King. The U. S. S. Nipsic had not arrived. The vessels at Apia when the mail left were the U. S. S. Adams, H. B. M. S. Lizard and H. I. G. M. S. Adler.

A meeting of foreign residents was held October 24th, to take action on an event which occurred the previous evening viz: A native boat and European houses being fired into by boats from the German man-of-war Adler. The following resolution was unanimously adopted:

Resolved, That this meeting protests against the high-handed outrage committed last night by an armed boat from the German man-of-war by firing upon defenceless Samoans, and into the houses of foreign residents within the neutral territory. That a committee be appointed to wait upon the British and American Consuls with the copy of the resolution, urging the necessity of immediate action being taken to prevent the recurrence of similar outrages. The committee to consist of Messrs. Maben, Carruthers, Moors, Paul, Fletcher and Krause.

On the 25th another meeting was held when the committee reported they had interviewed the British Consul who said he had already taken up the matter with the U. S. Consul, and the result was that life and property would be protected. The German Consul sent a letter to the committee denying that shots were fired into the town from the German boats.

During the first week in October a conference of the three powers America, England and Germany, called by Admiral Fairfax was held. Its object was the determination of neutral boundaries, within which there should be no hostilities. Captain Leary of the U. S. S. Adams discussed with the German Consul the inclusion of Mulinu Point in the neutral territory. This the German Consul would not agree to, and the matter remained unsettled for some days. Then it was brought to a head through bullets fired by the belligerent natives striking the dwelling houses of some British subjects. Admiral Fairfax immediately sent the British Consul, the Captain of the Calliope and Mr. Wilson to Tamasese, to warn that King of the consequences of any more firing by boats passing neutral territory. They were that the British flag would be hoisted on the British Consular flagship, and at that moment a shot would be fired in front of the offending boats, and then if the boats did not immediately haul down their sails and come up to the gunboat so that the captain could find out who they were, he would fire at and sink the boats. The three gentlemen went on shore to convey the Admiral's instructions, and asked Mr. Brandeis to be allowed to see Tamasese. He replied that he would answer them himself on Tamasese's behalf, as he represented the King. This was, however, declined, and the three gentlemen were introduced to Tamasese. They stated the Admiral's wishes and intentions, and then retired. In the same evening a proclamation in Samoan was printed, and posted on the next day, defining certain boundaries as neutral territory and prohibiting the use of arms by natives in such boundaries, signed by Tamasese and Braadics.

Hon. Michael Henry Herbert, has been appointed British Charge d'Affairs at Washington. Lord Sackville returns to England immediately on leave of absence. It is understood the Government will allow his case to rest until after the Presidential election.

PAHALA NOTES.

We had a lively earthquake here last Thursday evening, at 6:40 o'clock. No damage was done, but it was a lively reminder of the powers at work so close at hand. Pahala mill is kept very busy and the cane all over the plantation is looking exceedingly well. It has been a very favorable year for cane growing, rain having fallen at intervals during the whole of it. Pahala, Kau, Nov. 14, 1888.

AUSTRALIAN MAILS.

A dispatch from London, dated October 24th says: The Canadian Government is willing to grant a subsidy of £25,000 for a fortnightly Australian mail service, and £15,000 for a monthly one. Mr. Raikes, Postmaster-General, has expressed himself favorably to the delivery of mails at Vancouver instead of at San Francisco.

MOLOKAI NOTES.

Mr. C. B. Reynolds, the new superintendent at the leper settlement, came down from there this morning. He has prepared the "Bishop Home" and three sisters now occupy it, and are pleased with the arrangements. The reservoir and 830 feet of water pipe were totally carried away on the 8th inst. It is understood that the reservoir was carried away by a cloud burst at the head of Waikolu Valley, as the water washed away a bridge which was over 18 feet high and 70 feet long. The water at present is being brought to the settlement in carts. To-day the lepers will have a temporary supply through a one-inch pipe. It is expected that a spring on one side of the mountain will have to be utilized. Within a month the work will be completed.

THE PROPOSED PACIFIC CABLE.

Sir Julius Vogel was interviewed in London, October 27th, by a representative of the Sydney Telegraph in regard to the Pacific Cable, with the following result:

Sir Julius is unfavorable to the constructing of a cable from Vancouver to the colonies, when a much shorter route could be obtained from a point south of San Francisco. To talk of carrying the line through British territory solely was absurd, and would offer special inducement for a hostile power to cut it in time of war. He doubts whether capitalists could be found to carry out the project, and believes his own scheme would recommend itself in preference.

Reports credit Sir Julius with having under way a huge financial scheme for purchasing the present cable to Australia, and constructing one from America.

A BRILLIANT WEDDING.

The following account of the marriage of Mr. Hatch to Miss Hawes, is from the San Francisco "Alta":

The residence of Col. and Mrs. A. G. Hawes was the scene of a lovely wedding last Wednesday evening, the contracting parties being Miss Alice Hawes and Frank M. Hatch of Honolulu. The residence was beautifully decorated with flowers and ferns by Miss Mary Bates. The wedding bower was of course in the bay window of the drawing room, where a pretty background was formed of clusters of yellow chrysanthemums and ferns laid against the curtains. Overhead were three large wreaths of yellow and russet-colored chrysanthemums suspended by loops and streamers of narrow gold and red colored silk. The wooden mantel at the side was set with tall sprays of ferns and masses of chrysanthemums, fringed with umbrella grass and encompassed by bands of yellow silk. In addition to all of this were numerous handsome baskets of roses and other flowers which had been sent as gifts from friends.

At 8:30 o'clock the parlors were filled with guests, and as the orchestra played the wedding march the bridal party appeared. Mr. James D. Phelan and Mr. Harry Durbrow held back the silken ribbons, making an avenue through which they walked.

Miss Mamie Josselyn and Master Alexander G. Hawes, Jr., led the way, followed by the maid of honor, Miss Jessie Kaufmann, and the bride who was escorted by her father. The groom and his best man Mr. Chas. Deering, of Honolulu, had preceded them with the minister, Rev. Hiram W. Beers, of Trinity Church. The ceremony was very impressive, and was followed by the sincere congratulations of all present. The remainder of the evening was devoted to dancing and the enjoyment of an elaborate supper. The happy couple were well remembered in the way of presents, all of which were elegant and costly. Mr. and Mrs. Hatch have gone to Europe to travel until next June, when they will go to Honolulu to reside permanently.

The bride looked lovely in a beautiful toilet of white brocaded sarab, made with a long court train and trimmed elaborately with cascades of point lace. A filmy veil of white tulle fell to the end of the train from the coiffure, and was confined in place by an elegant diamond star. At her corsage was a diamond pin, and she carried a hand bouquet of Niphetos roses.

The first section of the Trans-African Railway has been commenced.

NAALEHU, HAWAII, NOTES.

An earthquake, the heaviest shock felt here since that of January, 1857, occurred on the 8th instant, at 6:10 o'clock in the evening. A short tremor, then an explosion resembling that of the bursting of a canon instantly followed. The vibrations seemed from the north-east to south-west, or nearly so. Aside from a little damage done to things tossed from shelves and the throwing down of stone walls, no damage was done. A second shock, a light one, was felt at 3 o'clock the following morning, since which time things in this line have remained in a quiescent state.

It is one hundred years since the discovery of these Islands. They have withstood during those long years many severe shocks from the conflicting elements within them and although showing many terror inspiring scars, yet survive. This ought to satisfy timid people who visit them that there is no danger of being swallowed up, for the probability is that these rock-ribbed islands, cradled amid billows of fire, will continue to live in the arms of the ocean for ages to come, with their lava furrowed brows still wreathed with the rainbow of promise, and with mother nature herself still watching over these her restless and too fiery tempered offspring.

THE LATE FATHER GREGORY.

Following is a brief notice of the Rev. Father Gregory Archambour of the Roman Catholic Mission, who died at Kakaako, Honolulu, on the 12th inst.:

The Reverend Father Gregory Archambour was born in France on the 27th of November, 1819. He came to the Islands in 1848, and arrived at Honolulu on the 28th of April. Sent by his superiors to the Island of Hawaii, he remained there several years, during which he attended to the spiritual wants of the people of both districts of Kohala and Hamakua, having to walk and carry on his back a little chapel-box containing all that was necessary to celebrate, everywhere he had to go, the holy sacrifice of the mass.

From Hawaii he passed to the Island of Maui in 1855. It is there that his apostolical zeal and christian charity were unbounded, when, during the raging of the small pox, he was seen going all around Koolau, Haena, Kipahulu, Kaupo and Kahikini, discharging with remarkable activity towards the poor victims of the plague the sacred duties of his holy ministry, attending also their corporeal wants, even to burying the dead.

He is the servant to whom his Lord has said: "Well done thou good and faithful servant, because thou hast been faithful over a few things; I will set thee over many things; enter thou into the joy of thy Lord."—(St. Matthew xxv, 23.)

SUPREME COURT.

BEFORE DOLE, J.

William R. Chilton and Henry Bradley vs. Lorrin A. Thurston. Petition for writ of mandamus. Hearing ordered by Mr. Justice Dole on Oct. 30, 1888, for respondent to show cause why a retail liquor license should not be issued by him to petitioners. Respondent interposing a demurrer, same is argued and decision reserved thereon. A. S. Hartwell and C. Brown for petitioners; Attorney-General C. W. Ashford for respondent.

In re bankruptcy of Raposa & Co. of Makapuu, Kauai. Petition of J. G. Faria of Honolulu, Oahu, to have them adjudged bankrupts. Return Day. Respondents file answer and upon their oral motion for a hearing this date, 1:30 p. m. is appointed as the time. V. V. Ashford for petitioner; P. Neumann for respondent.

BEFORE PRESTON, J.

Monday, Nov. 5th. In probate estate H. K. Pahu. Continued from October 15. W. O. Smith, guardian, for the heirs. Ordered that the final account of S. B. Dole, former guardian, be approved, he discharged, and his bond cancelled.

In probate, estate of Charles Brenig, deceased. Continued from October 29th. This was an application filed by Hon. S. B. Dole for probate of the will executed some ten years ago in the upper story of the store on the corner of Fort and Merchant streets, then occupied by Ira Richardson as a boot and shoe store, the upper part being then occupied as a law office by Mr. Dole, all of which have been demolished and replaced by a portion of the Campbell Block. The application was resisted by the widow and a relative claiming as next of kin of a reputed son of the deceased—the son being supposed to be in the American navy. The Court after hearing the evidence of the widow, Arthur W. Richardson, (subscribing witness), S. B. Dole and C. Brown, ordered that the will be admitted and that letters issue to S. B. Dole as executor under bond of \$11,000. The value of the estate is put down at \$85,800 for real estate, and \$10,700 personal property consisting of cash and investments. The amount of \$4,000 is devised to Edward P. Adams, and the rest and residue of the property both real and personal to Samuel M. Damon, subject to the widow's dower.

The deceased deeded to his wife all his property in San Francisco which cost him \$13,000. The wife gets one third of his real estate here and an actual one third of cash in hand. Taken altogether the widow will be in receipt of an income of about \$200 a month.

An appeal to a jury was noted by the widow and Samuel Maikai, contestants. C. Brown appeared for proponent, V. V. Ashford for the widow, and Chas. L. Carter for Samuel Maikai.

BEFORE DOLE, J.

Tuesday, Nov. 6th. In re Raposa & Co. of Makapuu, Kauai, alleged bankrupts. Petition of J. G. Faria of Honolulu, a creditor that they be adjudged bankrupts. Continued from yesterday. Stipulation for a discontinuance is allowed. V. V. Ashford for petitioner; no appearance of or for respondents.

In re guardianship of Emelia Kahalele, a minor. Petition of D. L. Naone to be appointed guardian of the minor. Ordered that letters of guardianship of the property only be issued to petitioner under \$200, that the custody of the minor remain with the grandmother until the further order of the Court. W. O. Smith for petitioner; Petitioner, minor et al.

BEFORE JUDD, C. J.

Wednesday, Nov. 7th. In re bankruptcy of Geo. D. Freeth of Honolulu, Oahu. Hearing appointed on Oct. 24th, 1888, for proof of claims and election of assignee. Seven claims proved amounting to \$990.65. C. L. Carter for bankrupt; bankrupt in person. H. A. P. Carter vs. Knaikaula. Petition for foreclosure of mortgage. Hearing continued from 31st. Further continued to 14th inst. C. L. Carter for plaintiff; no appearance of or for defendant.

BEFORE PRESTON, J.

Friday, Nov. 9th. Estate of J. F. O. Banning. Ordered that the second account of W. F. Allen, administrator with the will annexed, be approved. Receipts, \$4,744.70; payments, \$603.70; balance, \$4,141. The administrator reported \$129,900 of the estate money invested with good security, at an average of 7 per cent. interest, and \$12,960.79 in cash on hand. All the interest as collected is paid Mrs. C. H. Banning under the terms of the will.

BEFORE PRESTON, J.

Monday, Nov. 12th. In probate estate Alexander McDuff. Ordered that the accounts of Henry Waterhouse and John T. Waterhouse, Jr., as executors and guardians under the will, be approved and that they be discharged from both trusts. The balance of \$841.23 in the hands of trustees at discharge is handed over to the sole heir, Sarah McDuff Mutch, wife of Wm. Mutch. W. O. Smith for petitioners. Estate Manuel Vincent, Jr., administrator. Ordered that letters of administration issue to John F. Hackfeld under \$8,000 bond. C. L. Carter for petitioner.

BEFORE DOLE, J.

Tuesday, Nov. 13th. Wm. R. Chilton and Henry Bradley vs. Lorrin A. Thurston Minister of Interior. Petition for a writ of mandamus. Hearing appointed yesterday. Continued until tomorrow. A. S. Hartwell for petitioner; Attorney-General C. W. Ashford for respondent.

BEFORE PRESTON, J.

Wednesday, Nov. 14. In admiralty. G. W. Macfarlane & Co. vs. bark H. Hackfeld. Libel for damages against the above-named vessel, on account of two casks of claret broached and damaged on the voyage from Liverpool. The vessel and apparel, etc., were attached on the 13th by order of the Court. It was agreed at the hearing that the depositions of Capt. Wolters and Theodor Torgensen should be taken before Wm. Foster, Clerk of Court, for use in further proceedings. Return day was fixed as December 4th. At the hearing to-day these depositions were filed, in which Capt. Wolters admits that two out of four casks of claret were not landed in good order; one having been bored, he supposed, by stevedores in Liverpool, as they were stowed where his crew could not reach them during the voyage, the other being gnawed into by rats, against which precautions had been taken on board. Upon Capt. Wolters as principal, and H. Hackfeld & Co. as sureties, filing a conditional bond approved by libellant, the Court ordered that the Marshal release the vessel. Paul Neumann for libellant; J. M. Monsarrat for libelee.

BEFORE DOLE, J.

Chilton and Bradley vs. Minister of the Interior. Hearing continued from previous days, on petition for mandamus to compel respondent to issue retail liquor license to one of petitioners. Hearing concluded and decision reserved. A. S. Hartwell for petitioners; Attorney-General C. W. Ashford for respondent.

SELECTIONS.

JOLLY GOOD LUCK.
"Did you know," said a cunning Gentle to a Jew, "that they hang Jews and jackasses together in Portland?" "Indeed!" retorted Solomon, "den it ish vell dot you and I ish not dere."

A HARD CASE.
"And are you really so badly broke, my friend?" he said, as he entered the tramp a penny. "Broke?" was the bitter response. "I'm as badly broken as the Ten Commandments."

A HAPPY PAIR.
"Oh, yes! we have lots of fun together. Well, you see, my wife, when she gets into a passion, is in the habit of throwing at me anything that comes in her way. Every time she hits me she is pleased, and every time she misses I am pleased; and thus we are never short of amusement."

FACTS AND NEWS.
The coffee trees grow generally between 20° S. and 20° N. Two young women have opened a drug store in Buffalo. There are said to be a million persons now studying Volapuk. There is no known antidote of chloride of potash poisoning. Forty million persons enter and leave New York every year.

IS MARRIAGE A FAILURE?
Amsterdam claims to have become the chief European tobacco market on account of the fine quality of the Sumatra tobacco which is brought there. American cigar manufacturers are said to be specially eager to get this tobacco. Sumatra sent to Holland in 1887 138,000 bales, worth about \$18,000,000, of which \$5,800,000 worth was purchased by American buyers.

CAUSES OF DYSPEPSIA.
A distinguished physician lately announced that one reason why so many people have the dyspepsia in this city is because they have no sympathy at the table. They eat alone at restaurants, and devour their food like wild beasts, instead of sitting at the table with their families where their sympathy would be called into helpful activity, and where they would eat like human beings. There may be something in this idea. At any rate, it would be no harm to test it.—[N. J. Ledger.]

A BIGGER TELESCOPE THAN OLD LICK'S.

Alvan Clark, the manufacturer of the great Lick Telescope lens, received a letter from the President of the University of Southern California, located at Los Angeles, last week, asking for information as to a 40-inch lens, and intimating that an order for telescope to eclipse that at the Lick Observatory would soon be sent. In reply Mr. Clark says he can make such a lens if he can obtain glass of the proper size, and that the cost would be between \$400,000 and \$500,000.—[Boston Traveller.]

U. S. NAVAL CHANGES.

Past Assistant Master L. C. Kerr, detached from the Dolphin, has been ordered to settle accounts and place himself on waiting orders. Assistant Paymaster James H. Chapman having received orders to relieve him and join the dispatch-boat and temporary flagship of Rear Admiral Kimberley. Chief Engineer A. S. Greene has been ordered to the Mohican, and Chief Engineer Robert L. Harris detached from her for duty in connection with the construction of the Monadnock's machinery.

SHAKESPEARE'S ADVICE TO GIRLS.

Shakespeare's advice to girls about the selection of a husband is the best in print, without excepting poor Richard and Hannah Moore. "Dear Kate, take a fellow of plain and uncoined constancy, for he, perchance, must do thee right, because he had not the gift to woo in other places; for these fellows of infinite tongue, that can rhyme themselves into ladies' favors, they do always reason themselves out again. What a speaker is but a prater; a rhyme is but a ballad. A good leg will fall; a straight back will stoop; a black beard will turn white; a curled pate will grow bald; a full eye will wax hollow; but a good heart, Kate, is the sun and moon, or rather the sun, and not the moon, for it shines and never changes, but keeps its course truly."—[Omaha Herald.]

Arabs arriving at Zanzibar, have brought direct news of Stanley the explorer. His health was good.

A musical manager of New York named Dorish has written to Lord Sackville offering him \$2000 a week to hold two levees of two hours' duration for one week or two if preferred. He will also pay the expenses of his lordship and suite while here.

The London Times people claim they know where the Phoenix Park knives were bought, and are confident of their ability to prove that the purchaser was a member of the Parliamentary party.
