AMERICAN LETTER.

SAN FRANCISCO, JAN. 11, 1892.

WASHINGTON NOTES.

Among the 336 bills introduced in
the Senate Jan. 5th with still a dozen
States to hear from, were twenty-
eight tariff bills, thirteen pension
bills and seven Constitutional amend-
ments providing for the election of
Senators by popular vote. The tariff
bills aimed to abolish the duties on
grain, bags, binding twine, sugar,
molasses, wool, coal, iron ore, etc., to
repeal the retaliatory sections of the
McKinley law, abolishing sugar
bounties, and put on the free list all
articles controlled by trusts.

Among the large number of papers
presented and referred, was one from
the Chamber of Commerce, Seattle,
Wash., praying Congress by more
liberal appropriations to enable the
War and Navy Departments to place
the country in a thorough condition
of defense.

The question of allowing the Mexi-
can troops to enter United States ter-
ritory in pursuit of Garza and his
band has been informally presented to
the Secretary of State and it was
one of the topics of discussion at the
Cabinet meeting, Friday. Senator
Romero, the Mexican Minister, said
to Secretary Blaine in an interview:
"The Mexican authorities are hamper-
ed somewhat in their operations
against the insurrectionists by the
habit of the latter in seeking shelter
in United States territory." The
Mexican Government will soon make
a formal application for the privilege
referred to.

The advocates of the white metal
declare they will not rest until its
free coinage is secured.

None of the officers of the Depart-
ment of State have any knowledge
of any agreement made by this Gov-
ernment with that of Italy to pay in-
demnity on account of the New
Orleans affair as reported by an Eng-
lish correspondent at Rome. The
subject interrupted last spring by the
recall of the Italian minister has
never been re-opened.

FOREIGN AFFAIRS.

Advices from Paris say, "The ac-
tion of the Government, now that
Bulgaria in effect has refused to
grant its demands, is eagerly await-
ed. An exchange of notes between
the powers is actively proceeding.
It is stated that Bulgaria sent copies
of her reply to the French demands,
to England, Austria, Italy and Ger-
many. The note expresses the hope
that France will be actuated by feel-
ings of justice, that she will recon-
sider her decision and that she will
again establish friendly relations with
Bulgaria. It is pointed out that
Bulgaria must give some sort of sat-
isfaction to prevent France from be-
ing humiliated.

The troubles existing in the Tan-
gier district of Morocco and the de-
spatching by the British government
of two warships to protect British
interests in Tangier, have awakened
the feeling in some quarters that
England has the intention of adding
to her territory by forcible acquisi-
tion that part of the Sultan of Mo-
rocco's dominion. Already reports
come from Tangier which state that
the British Minister has warned the
Governor that if he cannot guarantee
the safety of the city against rebel
tribes the sailors will be landed from
the British warships. This is taken
by alarmists to mean aggressions on
the part of the British, and the "Sic-
le" demands that the Government
despatch the entire French Mediter-
ranean squadron to Tangier to prevent
the British from carrying out any de-
signs of an aggressive character they
may have formed.

The newspapers in Rome state that
Italy will send a warship to Tangier
to protect Italian interests.

The Khedive of Egypt is dead.
Said to have died of a gripe, al-
though it is now rumored that he
came to his death under suspicious
circumstances and it is possible he
was poisoned. The political situa-
tion is calm to all appearances, but
complications are none the less ap-
prehended. Many persons at Cairo
distrust the probable influence of
England on the young Prince, and
consider it advisable that some im-
partial adviser, not an Englishman,
be placed near his person, and that
some constitutional combination be
sought with a view to English evacua-
tion of the country. The ascension
of Prince Abbas, the eldest son of
the late Khedive, to the throne of
Egypt was announced Saturday.

News from Madrid says: "Sat-
urday night a band of Anarchists, from
the country surrounding Xeres, made
an attack on that place, intending
to pillage the town. The gendarmes
heard of the affair and the Anarch-
ists were surprised to find a strong
force awaiting them. They made a
desperate attack upon the gendarmes
and the fight continued until morn-
ing, when the cavalry took charge
and succeeded in capturing a major-
ity. Several were killed.

Advices from Berlin state that the
Reichstag next week will debate a
bill for the repression of drunken-
ness. The Ministers consider the
proposals with disfavor. The fate of
the measure in the Reichstag is
doubtful. The Conservatives and
National Liberals will support the

bill, while the Freisinnige and So-
cialist parties will oppose it mainly
because its provisions invest the pub-
lic authorities with exceptional
powers of interference in the private
life of citizens. The Emperor will
open the Landtag in person next
Thursday.

The Czar of Russia is determined
to stamp out all creeds not in ac-
cordance with the orthodox church.
He has issued an official order clos-
ing the Catholic churches at Vedis-
lay and Buzki. Others will follow.

There was an attempt to wreck
Dublin Castle, the official residence
of Earl Zeland, Viceroy of Ireland,
last week. The castle is badly dam-
aged. There is but little doubt but
that the explosion was the deliberate
work of some person or persons who
desired to do as much damage as
possible to the Chief Secretary's
office. The entire force of the city
is ferreting about Dublin and the
force of Scotland yard has been sent
for. All the recent arrivals from
England are being watched and
travelers from the United States have
again fallen under the ban of the
police suspicion. Should the explo-
sion turn out to be the work of the
Fenian Brotherhood it is believed
that it will do great injury to home
rule prospects.

A graduate of Oxford University
has been arrested for bombarding
the House of Commons with a re-
volver. He claims to be an anarchist
and wanted to show his contempt for
the House of Commons.

CABLE AND COMMERCE.

The work of surveying a course
from here to the Hawaiian Islands is
almost completed. The United States
surveying steamer Albatross arrived
in port Dec. 30th and reported a
practicable route had been found.
The soundings varied in depth from
2000 to 3186 fathoms, the latter be-
ing obtained in latitude 31.54, longi-
tude 136.44. At Waikiki a suitable
landing was found for the Hawaiian
end of the cable, and then the Alba-
tross started on a survey of the re-
turn route. This was made on a
rhumb line course, and was contin-
ued for about 800 miles, when coal
gave out and she was compelled to
come in for more fuel. The Alba-
tross will return to her work next
week.

The S. F. Examiner asks: "What
can be done this year that will most
benefit San Francisco?" Among the
numerous replies is one from Mars-
den Manson, Chief Engineer of State
Harbor Commissioners, that shows
that he has a level head. He ad-
vises, "Development of Ocean Traf-
fic." He tells them to stop praying
for the railroad to give them relief
and go to work with the spirit of men
in earnest. Have a fleet of fine
steamers and let the line extend to
Australian ports. He calls to mind
that the Sandwich Islands have com-
mercially become a colony of San
Francisco to which San Francisco
annually ships many hundreds of
thousands of dollars' worth of ma-
chinery, agricultural implements and
farm products," etc. It is a wise
suggestion.

The Pacific Mail Steamship Com-
pany will soon issue 5 percent bonds
to build new steamers.

GENERAL INTEREST.

According to a special from Chi-
cago, Gardner S. Chapin of the
Chicago wholesale liquor firm of
Chapin & Gore, who has a fine resi-
dence at Santa Barbara, Cal., has
revived the story of a proposed
American Monte Carlo on an island
off the California Coast. He says
that an organization has been effec-
ted for the establishment of such an
institution, and that the capital of
\$10,000,000 has been fully subscribed,
he himself being interested. Pre-
parations for fitting it up will be
made as soon as they can get the is-
land. Both the United States and
Mexico claim the island, and while
the Mexican Government would not
hesitate to lease the land for such a
purpose our Government would not.
Walter Maxwell, I. L. Polk, a broth-
er-in-law of Maxwell's, John T. Gaf-
fey, a member of the California State
Board of Equalization, and Michael
C. McDonald of Chicago are said to
be in the scheme. Walter S. Max-
well upon being interviewed says the
whole thing is false and the gentle-
man named are quite indignant that
their names should be used. Others
claim that there is truth in the
rumor.

Neil Sims and Laura and Beatrice
Sims, brother and daughters of Bob
Sims, closed the dark chapter in the
Sims family at Alabama, Jan. 6th,
when they were lynched by a posse
searching for Neil Sims, who was
wanted for murder. They resisted
with the result before-mentioned.

Over 100 people lost their lives in
a mine explosion at McAllister, I. T.,
last Thursday, about half of the men
escaped. One climbed
400 feet with a broken leg.

Gen. Ben Butler has had an at-
tachment of \$50,000 placed upon his
property by Estes & Lauriat of Bos-
ton, for libel.

Music lovers should not forget the concert of the Kamehameha Glee Club at the Opera House on Thursday evening. This is the only choral organization that maintains itself in constant readiness to entertain the community. Consisting of native Hawaiian boys under daily training the club should be encouraged by generous patronage.

Our American letter contains much matter of interest. It is pleasing to hear that the report of the survey steamer Albatross shows that a practicable cable route has been found, with a good landing place on this side at Waikiki. The introduction of tariff bills in the Senate, including one to abolish the sugar bounty, means nothing. There will be no change of policy on the tariff question at this session of Congress.

Ka Leo betrays the badness of the Liberal cause by the use of an infamous argument. It says in effect if that party be not supported at the polls, discontent and disaffection will continue rife for an indefinite period. As these evils have existed in the past chiefly from the factitious agency of Bush & Co., the sentiment in question implies nothing but that the firm will continue the unpatriotic business if the people do not buy them off by placing all power and patronage in their hands.

The Hawaii Holomua comes out with an English page, to promote the campaign of the National Reform party. Some of its points are well elaborated. It, however, displayed the conceit of freshmen journalists in the first number by an ill-considered fling at the BULLETIN. Campaign sheets have a peculiar advantage in their practical irresponsibility, but, to prevent their doing more harm than good to the cause they support, they should be watched against the intrusion upon their pages of the blundering scribbles of inflated marplots.

The letter of "Nob Hill" draws attention to a serious menace to life and property in the situation of the powder magazine in a populous part of the town. It might have been isolated enough a few years ago, but the Government sold home sites close to it which are now built on and inhabited. The complaint published in this issue is part of the outcome of a private canvassing of the subject by residents of the locality, as is also a petition that now lies at this office for signatures praying the Minister of the Interior to have the magazine removed with the least possible delay. There are hundreds of people within dangerous neighborhood to the magazine, and every head of a household so concerned should sign the petition.

A PUBLIC MENACE.

EDITOR BULLETIN:—Are the residents of the newly populated slopes of Punchbowl aware of the dangerous proximity of the powder magazine to their homes. I am told there are forty tons of dynamite, black powder and other explosives stored there, and an explosion would mean death and destruction all over the plains. Please get up a petition to the Government to have the magazine removed without delay and allow it to remain at your office for signature. Urgent action must be taken on this matter at once—not "mahope." Non HILL.

COURT NOTES.

Chu Gem, the Chinese merchant, was acquitted of bribing a Customs official yesterday, by a foreign jury.

On account of important witnesses in a civil suit in the Supreme Court having to leave to-day, a mixed jury was called at noon and a civil case is on trial this afternoon.

The Chinaman Ah Kim, charged with assault with intent to commit rape, was found guilty by a foreign jury to-day. Judge Dole sentenced Ah Kim to three years' imprisonment at hard labor, and to pay \$1 fine and costs of Court. A. Rosa assisted the prosecution; A. P. Peterson for the defendant. Another case against the prisoner is pending.

QUESTIONS ON REGISTRATION.

The Cabinet instructed by the Supreme Court.

The Cabinet have submitted the following questions to the Justices of the Supreme Court for their opinion: 1.—Under the Election Law of 1890, Chap. 86, Sect. 44, it is provided that the Inspectors of Election shall receive the "application of any person desiring to have his name entered on the electoral roll or voting list," etc.

Ques. 1.—Is it requisite that a person duly qualified must apply in person for registration or can he under the law send a written application (containing of course his qualifications) to the Inspectors, and thereby cause his name to be registered, if the Inspectors are satisfied of the truth of such application and do not require an oath?

Ques. 2.—Is it necessary to appear personally before the Inspectors of Election to apply for registration as a voter, or can he make application in writing?

Ques. 3.—Can such voter on election day have the assistance of the presiding officer of the Inspectors of Election to mark his ballot, or is he confined to the explanation of the Inspectors as to the mode of voting?

S. PARKER, C. N. SPENCER, W. A. WHITING.

SYLLABUS OF REPLY.

Section 44 of the election law of 1890 requires that the person wishing to register as a voter must appear in person before the inspectors.

Sections 55 and 56 of the said law permit the Minister of the Interior, in having the ballots printed, to insert after the foreign name of the candidate, the Hawaiian version of such name.

Sections 63 and 72 of said law do not permit the inspectors of election to assist a voter who can neither read nor write in marking his ballot.

The text of the reply was that inability to read and write is not a physical disability and physical disabilities are the only ones that allow the possessor of them to request the assistance of one of the inspectors in marking his ballot.

GENEROUS OFFER FROM ENGLAND.

EDITOR BULLETIN:—Will you kindly allow me space to make known a very generous offer of a lady in England, in a letter to me received this day, through Rev. H. H. Gowen, as follows:

"DEAR SIR,—I understand from Mr. Gowen that you are acquainted with the Mattei remedies, and have written on the subject in the Honolulu newspapers.

"As Father Muller appears to have been so successful in treating leprosy with these medicines, would it not be possible to start a small hospital at Molokai for the same treatment?

"I will gladly give fifty pounds to help you to start this scheme and when started I will give twenty-five pounds a year, for five years toward the maintenance of a nurse.

"As I am only a private individual with no position or influence that would advance this work, I prefer that my name should not appear.

"I have not been without experience of the benefits derived from these remedies, in cases of illness that have been given up by the medical profession.

"I remain, Yours truly, W. H. BARNES. Honolulu, Jan. 19, 1892.

A MORNING BLAZE.

About 7:45 o'clock this morning an alarm of fire was rung from China Engine Co., No. 5. A few seconds later the bell tower alarm pealed forth acquainting the city that there was a blaze near the water front.

Hurrying to that quarter the firemen found a fire in Wm. G. Irwin & Co.'s warehouse, below the Union Iron Works. The building is a corrugated iron one, and being away from any other structure there was no danger of the fire spreading. Engine Company No. 1 was quickly on the scene and a flood of water was thrown on the burning part of the building. The promptness of the firemen soon put the fire under control and it was shortly extinguished. The damage to the building was slight, but some of its contents were burnt.

CORRECTION BY DR. WOOD.

EDITOR BULLETIN:—Will you kindly correct an erroneous statement made in your paper last evening. I did not state to anyone that I had found anything in the stomach of Keoman. In fact the stomach was removed entire and was not opened until this morning, when the contents were turned over to the Marshal. C. B. Wood. Honolulu, Jan. 19, 1892.

ARE YOUR CHILDREN SUBJECT TO CROUP.

As a preventive and cure for croup, Chamberlain's Cough Remedy has no rival. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. There is not the least danger in giving it to children, as it contains no injurious substance. For sale at 50 cents per bottle by all dealers. Benson, Smith & Co., agents.

"German Syrup"

For Coughs & Colds.

John F. Jones, Edom, Tex., writes: I have used German Syrup for the past six years, for Sore Throat, Cough, Colds, Pains in the Chest and Lungs, and let me say to anyone wanting such a medicine—German Syrup is the best.

B.W. Baldwin, Carnesville, Tenn., writes: I have used your German Syrup in my family, and find it the best medicine I ever tried for coughs and colds. I recommend it to everyone for these troubles.

R. Schmalhausen, Druggist, of Charleston, Ill., writes: After trying scores of prescriptions and preparations I had on my files and shelves without relief for a very severe cold, which had settled on my lungs, I tried your German Syrup. It gave me immediate relief and a permanent cure.

Has it ever occurred to you what a desirable and acceptable present a picture makes? If not lend us your ear for a moment until we explain. In the first place everyone enjoys looking at a pretty picture; it not only serves to beautify the home, but appeals to one's better feelings and forms excellent food for thought, which nothing else can give, and if the subject be well chosen, serves as a silent lecturer for good. One need not confine himself to any particular style as the assortment of both styles and subjects is unlimited and almost any fancy can be gratified.

A picture has the peculiar power of stamping its image upon the minds of all who may see it, and in many cases leaves a life-long impression.

When making your rounds of shopping drop in at King Bros., on Hotel street, and see what they have to offer in this line, if for no other purpose than to enjoy what is to be seen.

A CANDIDATE'S VIEWS.

Address of Mr. E. Lindemann to the Electors of Kauai.

Mr. E. Lindemann responds to a numerously preferred request to stand as a candidate for Noble on Kauai with the following circular letter to each of the electors on that island:

SIR:—Persons, who are not satisfied with the nominee of the Reform party, have petitioned me to run for Noble, and having consented I now ask you to vote for me.

I do not properly belong to any party, am absolutely independent of the good will of any sugar-planter or Government officer, have my own ideas about the fitness of things, and these ideas agree quite closely with the platform adopted by the Mechanics' Union and National Reform party:

PLATFORM OF THE NATIONAL PARTY.
ARTICLE 1.—We shall support measures perpetuating the independence of the Hawaiian Islands as a Kingdom under the rule of a born Alii of the soil in opposition to any other form of Government.

ART. 2.—That there may be no undue depression in the internal commerce and agricultural pursuits now existing, and that encouragement tending to promote the culture of fruits on areas of unused lands be increased, we shall support a new Commercial Treaty with the United States of America, but not on the principle of annexation or by ceding any portion of our territories.

ART. 3.—As the underlying principle of the National party is the protection to and representation of the working men in the affairs of the government, therefore, all measures for the advantage of the working classes must be promoted, and such as might be subversive to their rights and interests must be opposed; whilst recognizing at the same time that capital and labor must go hand in hand, or one or the other suffer.

ART. 4.—The amendments passed at the last session of the legislature mark the attitude of the National party as to the fundamental law of the Kingdom. This party stands pledged to support all such amendments which may commend themselves to the intelligence of the party.

ART. 5.—It is possible that other amendments may be necessary, and the action of the party at the last legislature must be taken as an expression of their future intentions.

ART. 6.—Our candidates shall be pledged to make some of the public officers of the Kingdom elective, excepting Cabinet Ministers, the higher Judiciary, members of the Privy Council, representatives to foreign countries, and officers of the royal guard of the Queen.

ART. 7.—We favor strict economy in the expenditure of the public revenues, but not to such a degree as to delay or prevent the carrying on of necessary internal improvements.

ART. 8.—Our party considers the improvement of Honolulu harbor as paramount in importance to any public work, and pledges its candidates to further that work by liberal appropriations, and demands of the Administration the steady continuation and swift completion of the undertaking.

ART. 9.—As next in importance, being also of a like nature, our party favors repairs and extensions of landings, roads and bridges throughout the Kingdom, considering all revenues spent in that behalf as well spent.

ART. 10.—Our party demands that all work and material needed by the Government shall be procured within the kingdom so far as practicable.

ART. 11.—We favor the continuance of unremitting service in the care of the health of the people, especially the health of the native Hawaiian people who have become victims of leprosy; therefore, measures whereby the most improved methods of treatment known here and in foreign lands tending to alleviate the condition of lepers, or to cure that portion of our unfortunate fellow citizens, shall become our aims. Measures shall be undertaken for the benefit of those suspected of having leprosy; time shall be given them before they are entirely segregated, wherein they may be given the benefit of medical treatment, and inducements be offered those seeking to try these remedies. Measures to further improve the condition of affairs at the Settlement for lepers on Molokai shall have our support, and to ward off other things now endangering the health of the people at large.

ART. 12.—Our party has been true to its promise to secure the restriction of Chinese immigration and to prevent Chinese competition against white and native working men and mechanics. We endorse the policy of restriction as wise and beneficial, and require our candidates to maintain legislation supporting that policy, and to strengthen it by amendatory enactments if necessary.

ART. 13.—We favor and require our candidates to make such revisions and modifications of the laws governing the assessment and collection of internal taxes as will meet the changed industrial conditions of the kingdom and the exigencies of the times, and thereby secure a just distribution of the burden of taxation.

ART. 14.—The improvement of methods for the general education of the people will claim the attention of the party. If the suffrage is to be extended it is essential that voters should be educated and intelligent men.

ART. 15.—The admirable work done by the higher schools under the Board of Education, so ably furthered by the St. Louis and Kamehameha schools, is fitting a class of worthy

Hawaiians as teachers for district schools, and it may be desirable to modify the policy of the board so far as to make places for Hawaiian teachers.

To Art. 9 I would add, that scows and wharfs should be free. If the latter have been built by private parties, the state should repay to them such a ratio of their expenses as the public use bears to the private use.

I would also regulate the charges of public carriers. If they contract to carry a large amount of freight for \$1 per ton, they should not be allowed to charge more than \$1.25 per ton for a smaller amount offered to them, and if less than one ton at the rate of \$1.50 per ton.

ART. 12 reads quite smoothly, but its object is very difficult to accomplish. Should the full Court uphold the opinion of Judge Doe declaring the law passed by the last Legislature unconstitutional, we will stand before the old dilemma. We need sugar plantations; the plantations need cheap field hands. After some years these men are contract free and then how can we prevent them from competing with the skilled labor of white men and natives! How would it do to create guilds, trade unions with legal sanction, the members only of which would have the privilege to do certain kinds of work, and the power through their elected heads to accept as new members only accomplished workmen? I would like to hear your opinions about this (or other matters as well), and promise to give them thorough consideration. Perhaps we may come to a practical result in that way.

One of these days I will come around to your place and hope then to make your personal acquaintance and have a talk with you about all matters needing the attention of the next legislature.

One thing more: Unless you see that you are registered as voter for Representative you will be deprived of such right by a blunder of the Minister of Interior. Register and please vote for measures, not for men. The nominees of the Planters' or Reform Party will sacrifice the interest of everybody else for the benefit of a few plantation owners. Do not understand this advice as given in jealousy against our sugar planters. We need them, we have to do anything possible to make sugar planting pay, only we have to defend our own interest against unreasonable greed.

Hoping that my principles may have your approval and that you will give me your vote, I remain,
Respectfully yours,
E. LINDEMANN.

CARBOLINEUM AVENARIUS.

A preservative against rotting, decay, fungus, etc., of wood and stone. Will preserve any kind of wood above or under ground or water and prolong its life at least 100 percent. Will keep off all sorts of insects, vermin or other enemies of wood. Will prevent rats and mice gnawing wood coated with it. Will force all moisture out of wood without closing the pores. Will prevent shingles, coated with it, from rotting, cracking or warping. Will prevent rope treated with it from rotting, causing it to remain pliable and excellent for coating. Tenodes will not attack timber coated with it. Carbolineum Avenarius does not contain acids or poisonous ingredients injurious to the fibres of wood.

The following is an extract from the London "Building World": "The directors of the Palatine Railways say made at the shortest notice. Furniture Store at No. 90 Nuuanu street, oppo. Ah Hee's. 302 3m

Two boards cut from one and the same piece of pine, one of which for the sake of experiment was painted with Carbolineum Avenarius, and the other left unpainted, were buried, and after a lapse of three years dug up and examined. The result was, that the wood to which the Carbolineum Avenarius had been applied showed no signs of decay, whilst the other was found to be in a rotting condition."

As a wood preservative it has no equal.

Counsel for Larsen, Peterson and Neumann, noted an appeal. FOR CONSTIPATION. Use Horsford's Acid Phosphate.

ASHFORD AGGRESSIVE

There was a large gathering of Portuguese residents of the Third District at the Royal School yesterday evening. Public notice that Mr. T. W. Ashford, National Liberal candidate for Representative, was going to discuss Mr. B. F. Dillingham, candidate of the Sons of Hawaii in the same District, and the Oahu Railway, brought many residents of other Districts to the spot. Registration was going on in a front schoolroom, while the speaking was done from the town side veranda.

The registering business held a large proportion of people away from the voices of the orators. Mr. J. M. Camara, Jr., translated the English discourse into fluent Portuguese. Mr. C. W. Ashford, introduced by Hon. A. Marques, was the first speaker. In opening he claimed the National Liberal was the party of the poor man, its principles based on his welfare.

Only a few of them could vote for Nobles because they were poor, and he could not see the justice of one man voting for six and another for only one. Mr. Dillingham was personally esteemed by the speaker, but was sailing under false colors. He came before them without any declaration of principles, as the nominee of a few native lawyers constituting the party of the Sons of Hawaii. Their only principles were that Hawaiians should have everything under the Government, which the speaker did not believe in.

Still Dillingham was no more a Hawaiian than he was, but was to be dictated to by the missionaries. Those people had held control ever since they came here, and what had they done for the workmen? The Portuguese knew that all they had got since coming here was wrung from the missionaries. They sweated but had not got enough. Dillingham came before them with promises of work to Portuguese. The Government had voted money for his railroad, and he took it and hired Chinese. The very first thing he did was to give a contract to 200 Chinese. He got a grant from the Cabinet of half the harbor. The speaker was in the Cabinet and had the grant reduced from a greater one to that passed.

Dillingham was the little wheel of a company known as the Hawaiian Construction Company. He had two partners in it, but had not put five cents into its capital. They paid 22 to 50 cents a cubic yard for filling up land, and charged up \$1 a cubic yard. Portuguese and native laborers were left out and the contract was given to Chinese. If Dillingham was sent to parliament he would work for his own interests. He would draw the people's taxes and put all in his pocket except the 25 cents he would pay the Chinese for building the railroad.

Mr. Ashford said he was offered \$500 worth of stock when in the Cabinet for services he rendered in the Legislature and in the Cabinet. He said no to Mr. Dillingham. For what he had done as a public officer he took no private rewards. That day he went into the Interior Office to examine the stock held by the Oahu Railway and Land Co. He found five shares of Oahu Railway stock credited to one of his late colleagues, who would thus share in the bounty of his friend Mr. Dillingham. There was only one of his late colleagues at present in politics and that was Mr. Thurston who was running in Maui, who expected an easy election there with the assistance of his missionary friends. He would not pretend to say at the present time how much those five shares of stock influenced Mr. Thurston in granting away half the harbor to his friend Mr. Dillingham.

He found Mr. Dillingham credited with \$354,000 of stock on which he had not paid one cent of cash. He found another of his near relatives credited with \$25,000 of stock. Each of his children and all of his relatives were credited with stock, and he ventured to say that not one cent had been paid of all that total of \$400,000 of stock. Proceeding, the speaker said Dillingham was not satisfied with getting the railroad free of taxes but wanted everything in sight. He was under the thumb of capitalists and would have to do what they told him. Dillingham would vote for flooding the country with East India coolies, who Marsden said would work for 15 cents a day. The Ewa plantation in which he was interested, it was claimed, could only succeed by cheap Japanese labor. Vote for Dillingham if they wanted to have thousands of Japanese coming with smallpox. He was a good hand at promises. The missionaries have played the game of promises before.

The Liberal party was pledged to promote the interests of the workmen. They had no sugar warehouses nor plantations, but were friendly to all interests. They said the laborer must be able to feed, clothe and educate his family. Scores of Portuguese were out of work and others on low wages. They were willing to work if they could get enough to feed their families. What prospect was there for them if the country was to be flooded with coolies? They would have to leave their cottages on Punchbowl and go to California, as hundreds had done within the past few years. The storekeepers would suffer with them. When there was plenty of work for labor, the stores prospered. The Liberals desired to reduce the taxes. A man who paid \$5 paid enough until he owned \$1000 of property. They proposed to make laws whereby the officers of the law could not take away all a poor man had for debt. It was intended to divide the public lands into homesteads. At present the Government set them up in such large blocks that

poor men couldn't reach them. Dillingham had done nothing toward giving them land, and the missionaries backing him were land-grabbers themselves, from whom they could expect nothing. They also intended to have the Crown lands divided into homesteads, paying the Queen a money compensation. She paid only \$1 for the lands around Punchbowl, and how much did they have to pay for their small patches? If they wanted lands they must vote for the Liberal party. Mr. Ashford concluded by repeating his party's claim to be friendly to the sugar interests while opposing their unjust treatment of the working classes, warning the voters of the evils they would invite by voting for his opponent, and requesting their votes for himself.

Mr. E. B. Thomas, candidate for Nobles, was introduced by Mr. Ashford and said: Gentlemen,—It affords me great pleasure this evening to come before you. I do not come before you as a professional speaker, but I come before you as a hewer of wood and a drawer of water. I think I am pretty well known amongst the Portuguese voters of this kingdom. I have had Portuguese workmen with me for fourteen years. I have had the honor of being nominated on the Hawaiian National Liberal ticket and I thank them for the honor. I am a mechanic and I want to tell you how the Mechanics' Union did not want to nominate me. They did not want to send a man to the Legislature used to labor. No, but they wanted to send literary men to the Legislature. I am nominated to be sent to the Legislature to inculcate the principles of your platform—you can all see it in the newspapers. What object had the Mechanics' Union in nominating two lawyers to the Legislature? And two lawyers who were in the Legislature before. And what did they do in the Legislature? They did what has partly caused the present state of the country. I ask to be sent to the Legislature to see that good laws are passed for the benefit of the poor man. The plantation interests must be looked into—you cannot bankrupt hundreds of thousands of dollars invested in them—but when they admit thousands of laborers into this country they are doing what is wrong. If it is necessary to have cheap labor let them bring them here for the purpose they are required for, and not let them compete with the labor already here. There are hundreds of thousands of acres of virgin soil in this kingdom which has never been broken by the plow, and why do not the Government cut it up into homesteads and give it to poor men, and keep them from going to California as they have been doing for many years? I believe this is the first time that a mechanic pure and simple, aspiring to go to the Legislature, has ever addressed you, and if you want laws for the good of the poor man I ask you to vote for me. One thing that should be done by the Legislature is internal improvements. Why do not the Government build wharfs and have the harbor dredged? Within a few years the Nicaragua Canal will be dug, and it will send a great deal of business here. We do not want them to have Chinese labor coming here to compete with other men. I ask you did any country ever achieve greatness by the introduction of the Chinese? No. What did they do in the United States? California had to pass a constitutional amendment turning them all back.

Mr. Camara gave an address of his own in the vernacular of the special auditors, after which Mr. Marques read the party platform in the same language.

R. M. S. S. MONOWAI. Arrived at 4:30 a. m., Union S. S. Company's R. M. S. Monowai, 3500 tons, M. Carey commander, from San Francisco. Owing to delay in arrival of the English mail at San Francisco, the Monowai did not get away till 4:30 p. m. on the 12th inst. five days late. Experienced fresh south and south-east winds with high swell, and made a very quick run of 6 days, 11 hours, arriving as above.

The Monowai left the harbor at 12:15 o'clock p. m. to-day. She took four passengers from this port and had in transit about seventy. Her departure was witnessed by few. The band played previous to her sailing, the selections by the boys being unusually fine. A case of English ginger ale was given to the musicians by those on board and was duly appreciated.

THE I. I. S. N. COMPANY. Several changes have been made among the commanders of the Inter-Island Steam Navigation Company's steamers. Through the illness of Captain Freeman, purser A. C. Simerson will take command of the W. G. Hall; Captain Campbell of the Mikahala, a long-trying and trustworthy employee in the company, has been promoted to Dock Superintendent. Captain Chaney of the Waialeale takes the position made vacant by Captain Campbell's promotion; Captain Smythe of the Pele takes command of the Waialeale and Mate Chas. Peterson of the Pele will command that steamer.

Before assuring your life, or investing your money, examine the Twenty-Year Tontine Policies of The Equitable Life Assurance Society of the U. S. Policies maturing in 1891 realize cash returns to the owners, of amounts varying from 120 to 176 per cent. of the money paid in, besides the advantage of the Assurance during the whole period of twenty years. The following is one of many actual cases maturing this year:

Endowment Policy No. 64,925. Amount, \$5,000
Issued in 1871, at age 27. Total Premiums Paid, \$4,798.
Premium, \$239.90.

RESULTS

at End of Tontine Period in 1891:

Cash Surrender Value, \$8,449.45

(Equal to \$176.10 for each \$100 paid in premiums, which is equivalent to a return of all premiums paid, with interest at 7 1/2 per cent. per annum.) Or, in lieu of cash,

A Paid-up Life Policy for \$19,470

(Equal to \$405.80 for each \$100 paid in premiums.) Or,

A Life Annuity of \$633.55.

a sincere apology to the United States for the unfortunate and deplorable attack upon the Baltimore sailors on October last. The apology is to be unqualified in character. The other matters which have been in dispute between Chile and the United States are speedily to be considered by the new administration. The correspondent also learns from semi-official sources, that the reason the Santiago police are kept in the vicinity of the American Legation is that the Intendente of the city is receiving letters daily containing threats to burn and sack the Legation. He also asserts that it is no secret that those who cherish ideas of war between the United States and Chile are the friends of Balmaceda.

THE HEIR APPARENT.

A Boston despatch says: "It is expected that the Princess Victoria of Hawaii will early in the spring leave England, where she has been at school for the past three years, and coming to Boston, will enter Wellesley College to finish her education."

NAVAL NOTES.

The United States cruiser Charleston arrived at San Diego last Thursday afternoon and anchored alongside of the San Francisco. Admiral Brown and Captain Remy seem to know nothing about the future movements of the vessels. They positively deny that they know anything as to the intentions of the Government in ordering the vessels here. An officer on the Charleston says: "I do not know anything about the Chilean question. Our orders on leaving Honolulu were to proceed to San Diego, take coal and meet the cruiser San Francisco, which would have ammunition on board for us."

A naval officer on the U. S. S. Iroquois, now at Apia, Samoa, has received a private letter giving the particulars of an attack on a boat's crew of American sailors by the natives of Samoa. A party of natives headed by a man named Scanlon, attacked a party of sailors from the Iroquois, breaking the arm of one of the sailors and injuring several others. They subsequently attacked the gig's crew which was on shore waiting for the Captain, and seriously injured one of the men. It was an unprovoked assault. No action was taken toward redress by the officers of the Iroquois.

The Navy Department has agreed to send the sailing ship Constellation, now at Annapolis, which was formerly used to carry food to the starving people at Ireland, to Russia with breadstuffs contributed in this country for the relief of the famine sufferers.

ARMY AND NAVY BUDGET.

The New York Herald says that the discovery has just been made by Mr. Price, Haytian Minister to the United States, of a revolutionary movement, having for its object the overthrow of President Hyppolyte of Hayti. It is reported that the revolutionary party has fitted out in this country a man-of-war equipped with all the appliances of modern warfare, which is intended to be used by Haytian political exiles in Jamaica to capture Port-au-Prince and establish a new government. Minister Price has denounced the revolutionary movement to the Government at Washington, and it is expected that the detective machinery of the State Department will be set in motion for the capture of the man-of-war and arrest of the agents here.

News from Guthrie (Oklahoma) states that six hundred Indians from the tribes of the Otoes, Iowas, Kawas and Paweas are indulging in ghost dances at Red Rock in the Cherokee strip. The whole tribe of Pawnees is dancing a short distance from Red Rock. The latter brought \$1000 worth of presents to the Messiah. The ghost dances indicate no good to anyone and may possibly be the forerunner of an Indian war.

It is understood that a man-of-war will be permanently stationed in San Diego harbor. This is the result of a conference between the army and navy departments.

The Cheyenne Indians are making trouble in Montana and a massacre is feared. The young bucks are well armed, each having a rifle, two revolvers and two belts of ammunition. They are buying all the powder obtainable, paying as high as \$2 a pound. Three troops of cavalry and one company of infantry have arrived upon the scene and are building permanent barracks.

POLLY LARKIN.

THERE IS NONE BETTER.
Dr. R. L. St. John of Howland, Putnam county, Missouri, takes especial pleasure in recommending Chamberlain's Cough Remedy, because he knows it to be reliable. He has used it in his practice for several years, and says there is none better. It is especially valuable for colds and as a preventive and cure for croup. This most excellent medicine is for sale by all dealers. Benson, Smith & Co., agents.
