A BEAUTIFUL SHIP.

Said to be the Most Perfect Ship Ever Built on the River Clyde.

A large four-masted sailing ship, the John Ena, is being built on the Clyde by R. Duncan & Sons and will eventually be in the service of a local corporation, the San Francisco Shipping Company.

The ship is owned by John Ena, a Hawaiian, who is a large stockholder in the company. From him the new ship will be chartered, and she will run to any and every port where she can get a profitable cargo.

The circumstance which makes this vessel of unusual interest to every one connected with shipping is the fact that she is acknowledged by those who know to be the most perfect ship ever built on the Clyde.

Her dimensions are as follows: Length, 312 feet, width 48 feet, depth of hold 25 feet, registered tonnage 2600 tons, carrying capacity about 4500 tons dead weight. Besides being fitted with all the most modern improvements in hull and spars, she will have patent direct-acting steam windlasses, patent topsail and topgallant halyard winches for fore, main, and mizzen masts, and patent friction steam winch with multitubular upright boiler.

The spars, which are particularly lofty, being 220 feet from keel to truck, are constructed of the finest Siemens-Martin steel. The jigger-mast, being constructed in one length, looks a very clear pole of 200 feet without a break. All the blocks are fitted with patent brass roller bushes. The steering gear is of unusual strength, the screw which moves the tiller being 6½ inches in diameter.

The cabins have been fitted up in a most substantial and elaborate style, the after or dining saloon being paneled in birdseye maple, mahogany, teak and oak. All the fittings are of fumigated oak and upholstered in Russia leather, with silk damask curtains over all the windows and berths. The skylights above have artistically embossed panes of plate glass and ornamental flower-stands, which give a most refreshing appearance to the saloon. The forward, or parlor, saloon is a very handsome apartment, with a fireplace at the forward end, which has a highly polished gray marble mantelpiece, with inlaid encaustic tiles. This is surmounted by an ornamental overmantel in oak, having thirteen mirrors with beveled edges, giving a very fine effect to the whole cabin. The paneling in this saloon is in very rich and highly polished oak and mahogany, with carved teakwood capitals. Besides being lighted from a large and highly finished skylight, this saloon has four polished brass sidelights in the fore end.

The other apartments in the cabin, such as captain's room, guests' room, bathroom, pantry and officers' rooms are all fitted up in dark mahogany and handsomely upholstered in morocco leather. The floors are all covered with linoleum, over which are laid rich Brussels carpets and Mecca rugs. The John Ena has been specially designed for the lumber trade and is fitted with bow ports, which are quite a novelty in steel ships.

Captain Charles Schnauer is now in command of the vessel and will bring her out here. The only article of American manufacture in her entire make-up is the steam winch and its boiler. This was made by a San Francisco firm and sent on to the yards where she was built.—S. F. Chronicle.

IOLANI COLLEGE.

The closing exercises of Iolani College took place Thursday afternoon at 2 o'clock in the schoolhouse on the grounds. There was a large attendance, including Mr. A. T. Atkinson, Inspector-General of Schools, and Mrs. Atkinson, Mrs. Afong, T. R. Walker, British Vice-Consul; the Misses Afong, Mrs. J. S. Smithies, Miss Bertha Smithies, Mrs. Malcolm Brown, Mrs Harris, the Misses Harris, Mrs. Deverill, Rev. J. Usborne, Mrs. Fernandez, Mrs. Smith, Mrs. Sorenson, Mrs. Mossman, the Misses Mossman, F. M. English and a host of others.

The exercises consisted of a dialogue, recitations and singing. The reciting of the young collegians was good and received applause from the delighted listeners. The dialogue, "Lochiel's Warning," was nicely acted by Albert Harris and Geo. Clark of opera fame. A recitation, "Story of a Kite," delivered by ten little boys, was an amusing sketch and created roars of laughter. After the song, "Men of Harlech," Bishop Willis awarded the premiums for the year as follows:

First Class—Geo. W. Clark, Wong Ah Fook and Yin Tet; arithmetic, Sam Manu, Ten Young and Young Tong; elocution, Albert Harris.

Second Class—Chang En Kui, Chas. Siemsen, Alexander May, Chang Tai. English, Goo Tang.

Third Class—Paalua E. Hatfield, J. S. Smithies, Jr., William Ah Heen and John Kellet.

Fourth Class—Edward Deverill, Ed. Fernandez, John Andersen, Afong Ah Heen.

Fifth Class—Percy Deverill, C. F. Jenkins, Richard C. Searle.

The college has about fifty boarders at present. The tutors are Rt. Rev. Alfred Willis, D. D., principal, and Masters John Bush and John R. Bush. Athletic sports followed the exercises.

A traveling man who chanced to be in the store of E. V. Wood, at McKees Rocks, Pa., says while he was waiting to see Mr. Wood, a little girl came in with an empty bottle labeled Chamberlain's Pain Balm and said: "Mamma wants another bottle of that medicine; she says it is the best medicine for rheumatism she ever used." 50 cent bottles for sale by all dealers. Benson, Smith & Co., Agents.

Messrs. King Bros. are showing a fine line of Bamboo and other style Parlor Easels, Wall Brackets and Window Cornices at prices to meet the times.

BY AUTHORITY.

In the Supreme Court of the Hawaiian Islands.

ORDER.

By virtue of the authority in me vested by the Constitution and the statutes of this Kingdom, and deeming it essential to the promotion of justice, I do hereby order that the regular term of the Third Judicial Circuit to be held at Wiaohinu, Kau, Hawaii, on the first Thursday of September, 1892, be hereby postponed until THURSDAY, the eighth day of said September, 1892, at 9 o'clock a. m.

L. S. Witness my hand and the seal of the said Supreme Court at Honolulu this 29th day of July, 1892.

A. F. JUDD,
Chief Justice Supreme Court.

Attest: HENRY SMITH,
Clerk Supreme Court.

NOTICE TO MARINERS.

During the process of deepening the channel at the entrance to Honolulu harbor the Dredger will be in operation night and day. At night there will be a danger signal placed on the forward derrick of Dredger about 30 feet above sea level, which can be seen by all vessels approaching the harbor.

The signal consists of three red lights and a white light as in the diagram, the red lights being about 3 feet apart with the white light in the center.	Red * White * Red	* * *

All steamers crossing the bar will stop at a safe distance from the Dredger and give one blast of their whistle which will be answered by a single blast from the Dredger, to be followed by three blasts from the Dredger when the passage is clear and they can proceed.

The Tug will be on hand when not otherwise engaged to assist sailing craft in passing the Dredger when necessary.

C. N. SPENCER,
Minister of the Interior.
Interior Office, March 9, 1892.

THE

Daily Bulletin

Pledged to neither Sect nor Party, But established for the benefit of all.

FRIDAY, JULY 29, 1892.

As Monday is a public holiday, and the BULLETIN'S mechanical staff needs time to arrange the new office, there will be no issue of this paper on that day. When our new plant is in thorough working order, we shall endeavor to make ample amends for the omission.

While it is absolutely necessary to adopt extreme retrenchment in public expenditures, it is doubtful if all the pruning of appropriations by the Legislature is of a wise order of economy. For one instance reference may be made to the abolition of the Water Works Bureau, it being amalgamated with the Bureau of Public Works. The Superintendent of Public Works is as busy an official, and his duties of as great importance, as any that can be named. Besides, he is often called away to distant parts of the group. The Superintendent of Water Works has had to hold himself in readiness for duty at all hours of the day and night. In times of drought his duties are exceedingly onerous and his burden of responsibility by no means light. It might have been proper to reduce his clerical staff and his incidentals, but no clerk of any bureau can fulfill the functions of the abolished office. Members of the Legislature should make themselves thoroughly acquainted with all sides of the matter before the third reading of the Appropriation Bill.

BOTH COUNTRIES HURT.

The evidence is plain enough that the United States has suffered in its trade with these islands, by the action of the sugar clauses of the McKinley Act, correspondingly with the heavy loss sustained from the same cause by this country. A recent issue of the San Francisco Examiner gives comparative statistics of the trade between that port and the Hawaiian Islands which are very emphatic in their showing. The article is as follows:

The merchandise exports from this port to the Hawaiian Islands during the past six months, compared with the same time in 1891, were as follows:

Months.	1892.	1891.
January	$228,237	$472,508
February	237,152	284,412
March	281,641	330,767
April	227,039	326,513
May	210,524	415,824
June	143,702	370,971
Total	$1,328,295	$2,200,995

There has been a comparative decrease in exports this year of $872,700. The total for the past six months is the smallest for a long time. During the first half of 1890 the exports were valued at $2,252,410, against $1,632,453 in 1889, and $1,438,407 in 1888.

The import values have been as follows:

Months.	1892.	1891.
January	$ 160,095	$1,197,041
February	687,902	1,355,888
March	1,201,889	3,784,312
April	1,145,670	1,227,373
May	1,311,075	496,897
June	1,166,162	1,190,220
Total	$5,672,793	$9,251,731

Showing a comparative decrease this year of $3,578,938. During the same period in 1890 the imports were $7,742,232, against $9,503,045 in 1889, and $7,864,054 in 1888.

The great falling off in the import value this year is due mainly to the smaller quantity of sugar received as shown by the following comparative statement:

Six Months.	Pounds.	Value.
1892	194,199,629	$5,384,566
1891	216,173,538	8,996,660
1890	156,934,231	7,382,526
1889	181,792,626	9,188,119
1888	161,492,754	7,519,656

There has been a decrease of $3,612,094 this year in the value of sugar. The quantity received, however, was larger than for the corresponding period in the given years, with the exception of 1891. The removal of the duty last year on imports from other countries caused a drop in prices of the raw material, hence the apparent discrepancy this year in the value of imports from the Hawaiian Islands. The cheapening of Hawaii's staple product has in turn lessened her purchasing power, as shown by the large falling off in exports from here.

The decrease of nearly $900,000 in the exports from San Francisco does not tell the whole story of the loss sustained by our friends over there. A large amount would have to be added, to get at the full figure, for the falling off in the profits of shipping that trades out of San Francisco with these islands. Without considering these incidental matters, however, the face of the returns shows the comparative loss to be greater on the side of San Francisco. The imports there from these islands fell off in the first six months of this year 38.6 percent, compared with the same period of 1891; while the exports of San Francisco to these islands fell off 39.6 percent in the same time. It would be strange if anybody in San Francisco should venture to contend that the interests of that port are not largely identical with the interests of these islands commercially speaking.

TOBACCO.

Cultivation and Preparation for Market.

BY JUDSON POPENOE, OF MONTGOMERY COUNTY, OHIO.

(*Continued.*)

Cutting and Housing.—As a general rule tobacco should be cut in about two weeks from topping, at which time the leaves assume a spotted appearance and appear to have filled up thicker; double up the leaf and press it together with the thumb and finger, and, if ready to cut, the leaf where pressed will break crisp and short. Do not let your tobacco get over-ripe or it will cure up yellow and spotted; it is better to cut too soon than too late. Take a hatchet or short corn-knife, grasp the stalk with the left hand, bend it well to the left, so as to expose the lower part of the stalk, strike with the knife just at the surface of the ground, let the stalk drop on over the ground without doubling the leaves under, and leave it to wilt. The usual practice is to worm and sucker while the dew is on in the morning and as soon as the dew is off to commence cutting. There are some who advocate cutting in the afternoon, say three o'clock; let it wilt and lie out until the dew is off next day, and take it in before the sun gets hot enough to burn it. I prefer the first plan, because a heavy dew may fall on the tobacco, and next day be cloudy, leaving the tobacco wet and unpleasant to handle. After cutting allow the tobacco to wilt long enough to make the leaves tough, so that they can be handled without tearing. Great care is now necessary to keep the tobacco from sun-burning; cutting should be commenced as soon as the dew is off, and all that is cut should be housed by eleven o'clock, unless it is cloudy; from eleven to two o'clock the direct rays of the sun on the tobacco, after it is cut, will burn the leaves in twenty minutes; after two, as a general thing, there is no danger of such burning, the sun's rays not striking direct on the tobacco. Have a wagon at hand, with stiff boards, twelve feet long, laid on the running gears; as soon as the tobacco is wilted so that it can be handled without breaking, commence loading on both sides of the wagon on the front end, lapping the tobacco the same as loading fodder, keeping the butts out on both sides—build about two feet high, and so on until loaded.

WHAT DOES A SPUR DO FOR A HORSE?

Your horse is weak and weary with a long day's journey. You have ridden him since early morning. Impatient to reach a shelter for the night, you drive the spur into his panting sides. He leaps forward, and for a time trots onward rapidly. What did the spur do for him? Did it give him strength? If so, why feed him? If not, what made him go faster? Here is a short personal statement which a man makes. Try and see if you can see any likeness between the two cases.

He says: "Up to August, 1885, I was a strong, healthy man. At that time I began to feel tired, dull and heavy, with a faint, dizzy sensation as if I should tumble down any minute. I could not imagine what was coming over me. There was a bad taste in my mouth, my breath was bad, and my mouth would often fill with an offensive slimy matter. My appetite was poor, and after eating I suffered great pain, and wind would roll all over me. I had much pain at the stomach, and was sick every morning, and threw up a great deal of phlegm. I also had a pain like the thrust of a knife cutting me between the shoulders and low down in the back at the kidneys. When at work I got tired in five minutes, and had to stand and rest.

"I kept on with my work, however, for some time as best I could, for I had a wife and family depending upon me. But it was a hard and tedious task, as even stooping made me cry out with pain. After a while I grew so weak I could scarcely crawl about, and was compelled to give up my employment. When I ventured out of doors I felt so dizzy that I had frequently to stop and rest for fear of falling, and was so bad that people would think I was in drink, and I had often to call at a chemist's and get a draught to help me home. I tried herbs and other medicines, and was attended by a doctor, but I got no better. In this dead-and-alive way I lingered on until April, 1890, when my wife got an almanac from the druggist, and I read of a case of a railway guard at Manchester, who had been cured by a medicine called Mother Seigel's Curative Syrup after the doctors had given him up. So I wrote to him, and he replied that it had cured him and would do me good. Upon this I got a bottle, and after a few doses I felt better, and by keeping on using it I was soon all right and back at my work, and have been well ever since. When I feel any signs of stomach disorder a few doses set me right directly. I feel very grateful for the great benefit I have received, and wish others who may be ill to know of it; as, if I had known of Mother Seigel's Syrup at the outset I would have been saved over four years' suffering. I have lived in Birkdale fifteen years, and if any one writes to me I shall be glad to reply.

(Signed) "THOMAS SPERRIN,
"Kitchen Range Setter,
"28, Stamford Road,
"Birkdale, Southport."

Now, where is the likeness between Mr. Sperrin's experience and our illustration about the horse? It is this: The horse gains no new strength from the application of the spur. Of course we all see that he cannot. But the pain arouses him and makes a draft on his reserved nervous power—with a corresponding degree of exhaustion to follow. This is always Nature's way. She gives nothing for nothing. All must be paid for. Look back at Mr. Sperrin's statement where he says: "I kept on at my work, for I had a wife and family depending on me." That was his spur. It was work or worse with him, as it is with most of us. But he had to pay for laboring when he was unable, by having to give up work altogether, and what the end would have been had not Seigel's Syrup come to the rescue nobody can say. Possibly the saddest thing we can think of. Any way this triumphant medicine saved him, and he can work now without a spur.

If the reader also has indigestion and dyspepsia, with its painful and alarming consequences and symptoms, or knows of another who has, he will be able to treat himself or advise his friend.

For San Francisco.

The Fine Barkentine

"PLANTER"

CAPT. DOW.

Will sail for the above port on AUGUST 2, 1892.

SHIPPING NOTES.

The steamer Kilauea Hou returned from her first trip to Molokai this morning.

The Hawaiian ship Helen Brewer, is about due from Glasgow, being 117 days out to-day.

The steamer James Makee will leave on Monday for Hamakua in place of the Waialeale laid up.

The Hawaiian bark R P Rithet from Cardiff for Honolulu was spoken in latitude 44 deg 30 S, longitude 62 deg 30 W on May 12th.

The American barkentine Wrestler arrived this morning from Newcastle, N S W, via Sydney, coal laden, and is docked at the P M S S wharf.

The Swedish bark Nanna which put into this port on her way from Newcastle, N S W, to Juneau, Alaska, has arrived at her destination.

The Danish bark J J Lotz after undergoing a general overhauling on the Marine Railway, has come down and was succeeded by the James Makee this afternoon.

BORN.

SMITH—In Honolulu, July 29th, to the wife of Thomas Smith, a son.

PUBLIC CONCERT.

The Royal Hawaiian Military Band will give a concert this afternoon at Emma Square, commencing at 4:30 o'clock. The following is the program:

March—Defilir.....Cook
Overture—Bandit Tricks.....Suppe
Selection—Lucia.....Donizetti
Fantasia—Awakening of the Lion.....Kontzky
Waltz—The Syrens.....Waldteufel
Polka—A Good Kiss.....Coote
Hawaii Ponoi.

OLD RAGS WANTED.

Clean white rags suitable for bandages are wanted for use at the Bishop Home and the Boys' Home, Leper Settlement, Molokai. Ring up 281 Mutual telephone and they will be sent for, or leave the same at the office of the Board of Health or at J. T. Waterhouse's, Queen street.

LOCAL AND GENERAL NEWS.

DIAMOND HEAD, 3 p. m.—Weather clear, wind fresh northeast.

THE band will give its regular afternoon concert at Emma Square today.

THE opera in Hawaiian this evening is for the benefit of Kawaiahao church.

THE Honolulu and Hawaiis will cross bats on the diamond this afternoon. A good game is expected.

THE yacht race to Hanauma which was to have taken place on Monday has been postponed to the 6th inst.

THE large mercantile houses will observe Restoration day (Monday) by giving their employees a half holiday.

COL. S. Norris has been awarded $1300 damages in his suit against Emily de Herblay by a foreign jury.

THE first opera ever given in the Hawaiian language is something that no lover of music should miss. Opera House this evening.

POLICE Justice William Foster is confined to his home with indisposition, consequently there was no session of the Police Court to-day.

TOMORROW, July 31st, is Restoration Day. The day will be observed the following day, however, and all Government offices will be closed.

MRS. J. Ailau left on the steamer Kinau yesterday afternoon for Hilo on her regular annual jaunt in search of Hawaiian curious and handiwork.

BILLY EMERSON the minstrel and his friends were entertained by Hon. J. A. Cummins at his residence at Pawaa. Mr. Emerson is still the same old "stick."

PROF. F. A. Hosmer and wife, with others of the faculty, and students, of Oahu College are expected to return from Hawaii on the next trip of the steamer Kinau.

CAPTAIN Paul has had another barkentine built for the Hawaiian trade. She will be called the Hilo, and will be commanded by Capt. Le Ballister, formerly of the Rosario.

DON'T forget the opera "Crusaders" by the Ahahui Mele Nocau Hawaii, at the Opera House this evening. A full rehearsal was had last evening, when everything went off satisfactorily, so a good entertainment may be expected.

THE sailors and marines of H. B M. S. Champion will attend the 9:45 o'clock service at St. Andrew's Cathedral, Sunday morning. Special music will be rendered by the choir. The day will be the twelfth anniversary of Mr. Wray Taylor as organist in St. Andrew's.

VIRGINIA de Medeiros, the little Portuguese boy who was run over by a tramcar on Nuuanu street near the Empire Saloon on January 23d, through his guardian, Agostinho de Medeiros, has brought suit for $5000 against the Hawaiian Tramways Co. (Ltd.). The suit is being heard in the Supreme Court by a foreign jury this afternoon.

THE Paramatta River Steam Co. of Sydney, have announced their intention to give $1250 prize money for a professional sculling handicap to be rowed on the Paramatta river in September. This prize will be increased by donations. The crack scullers Stansbury, Sullivan, Kemp, McLean, Neilson, together with the best scullers from the adjoining colonies, have signified their intentions of competing for the prize.

MR. Barnfield's picture of Esquimalt harbor with fine British warships at anchor, is now on view in the Pacific Hardware Company's window. Mr. Barnfield made his original sketch while there two years ago. H. B. M. S. Warspite shows her huge proportions in comparison with some of the smaller ships, among which is H. B. M. S. Champion. The picture is in oil, admirably executed, and is well worth attention, erpecially of those famil'ar with the scene. Mr. Barnfield is to be congratulated on giving us another valuable work from his brush.

THE LEGISLATURE.

FIFTY-THIRD DAY.

SATURDAY, July 30, 1892.

Morning Session.

Assembly was called to order for prayer at 10 o'clock, President Walker in the chair. At 10:10 the minutes of the previous day's meeting were read and were approved.

Noble Williams from the Printing Committee reported as printed Bills Nos. 140 to 146 inclusive.

Noble J. M. Horner from a special committee having consideration of Bill 78, relative to the Hawaiian Banking Act, reported that they did not offer any amendment nor comment on the passage or indefinite postponement of the said Bill. The committee consider that the Bill was of such importance that they recommend that the Assembly consider it in the Committee of the Whole. On motion the report was tabled for consideration with the Bill on August 9th.

Noble Williams from a minority committee appointed to examine into the workings of the dredger reported as follows:

A minority of your committee appointed to examine into and report upon the dredging plant now at work upon the Bar at the entrance to the harbor deem it necessary, considering the Bill that comes up for its third reading this day, to present a preliminary statement in the absence of the chairman of your committee, and have the honor to report as follows:

We visited the dredger yesterday afternoon and found it working smoothly; the Superintendent, Mr. L. C. Young, showed us over the vessel and it was very apparent that good and satisfactory work was being carried on. We also had certain soundings taken at a few points in the track of the dredger, and we find that about one-half of the channel has been dredged to a depth varying from 30 to 32 feet at mean tide. We also visited the sand dump on the Kakaako flats and found that a quantity of sand from the Bar estimated at from 20,000 to 22,000 cubic yards has already been deposited inside the retaining walls and the dredges was now delivering sand on this place at the rate of about 900 cubic yards per 24 hours.

We have also carefully considered the contract documents respecting the matter and find therein no cause for complaint against the executive of this Government, everything apparently being in order.

We find that the monees expended by the Government in the two contracts for dredging plant and cutting the channel through the bar are as follows:

On account of the dredger plant:
Amount of contract, $65,000.
Amount paid on contract as per contract 75 percent of total price, $48,750.
Balance due contractors when dredge is accepted and turned over as per contract 25 percent, $16,250.

On account of dredging the channel:
Amount of contract, $42,000.
June 30, paid on account as per contract per month of June work done on bar, $3500.
Balance due as the work progresses, $45,500.

Contract stipulates that "payments are to be made monthly on the first of each month in the proportion that the said work bears to the entire contract."

Respecting the manner in which the contract for the dredging plant has been carried out by the contractors as to capacity of machine and time of delivery, we reserve our judgment until an inspection by the full committee shall have taken place.

J. N. S. Williams, temporary chairman, W. C. Wilder. Report accepted.

Rep. Nawahi offered a resolution to the effect that Government employees holding more than one position and for which the combined salaries are over $2000 per annum be compelled to relinquish some of the positions.

On motion the resolution was referred to a special committee consisting of Reps. Kamauoha, Nawahi, Smith, A. Horner and Noble Macfarlane.

Rep. White read for the first time a bill authorizing the Minister of Finance to establish bonded warehouses.

Noble W. Y. Horner read for the first time bills (1), restricting Chinese immigration. (2) Requiring persons engaged in trading or mechanical occupations to be licensed.

Rep. Kaluna offered a resolution that $1000 be appropriated for the improvement of roads leading to homesteads at Kula, Maui. Referred to Committee on Public Lands.

On motion of Rep. Smith the vote approving the report of the Committee of the Whole on items in the Appropriation Bill was re-considered and Rep. Smith then moved that the item relative to pay of Secretary of the Board of Immigration be re-referred to the Committee of the Whole. With this amendment the report of the Committee was again, on motion, adopted.

The Special Order of the Day took precedence of the Unfinished Business and Bill 155, to appropriate $20,000 for the furthering of the dredging of Honolulu harbor, was read a third time and with the report thereon was passed.

Bill No. 33A, relating to duties, came up under unfinished business and, with but little argument intervening, action was taken on the several items as follows:

Clothing, ready made and wearing apparel of every description, made up in whole or in part, ten percent. Clothing, manufactured in and imported from China, ready made and wearing apparel of every description, made up in whole or in part, twenty-five percent. Chinese provisions and general merchandise, twenty-five percent. All three items were re-referred to the Committee on Ways and Means.

Carriages of all descriptions, twenty-five percent.

Hats and caps, not otherwise provided for, ten percent.

Linens and all manufactures of which flax, grasscloth or a similar material shall form the principal part, ten percent.

Fans of all kinds, twenty-five percent.

Edgings, artificial flowers and fancy feathers, twenty-five percent.

Embroideries of all kinds, twenty-five percent.

Crockery and glassware of every description, ten percent.

The following passed:

Drugs and medicines, patent and other, ten percent.

Furniture of all kinds, if upholstered or carved, manufactured in whole or in part, ten percent.

Millinery goods, beads, bonnets, buttons, corsets, collars, sleeves and cuffs, ten percent.

Gloves and mitts not otherwise provided for, twenty-five percent.

Gimps for clothing, ten percent.

Hoopskirts, ten percent.

Hooks and eyes, ten percent.

Insertions, laces and lace goods of all descriptions, twenty-five percent.

Ribbons not otherwise provided for, ten percent.

Silver plate, plated ware or gilt ware, twenty-five percent.

Britannia ware and fancy metal ware, twenty-five percent.

Matches of all kinds, ten percent.

Cigarettes and all descriptions of paper cigars, twenty-five percent.

Jewelry and all descriptions of metal, glass or stone beads, twenty-five percent.

Paintings, pictures, engravings, statuary, twenty-five percent.

On bronzes, ornamental work of metal, stone, marble, plaster of Paris or alabaster and all imitations thereof, ten percent.

Perfumery, other than that which pays a spirits duty, powders, hair, tooth, nail and other toilet brushes, twenty-five percent.

Soaps, ten per cent.

Pipes (smoking), pipe stems, bowls and fixtures and cigar holders, twenty-five per cent.

Candies, twenty-five per cent.

Candles, ten per cent.

Toys, ten per cent.

Fire arms, twenty-five per cent.

Ammunition and powder, not otherwise provided for, twenty-five per cent.

Blasting powder, ten per cent.

Fireworks and fire-crackers, twenty-five per cent.

Watches and clocks in whole or in part, ten per cent.

Playing cards, ten per cent.

At 12 further consideration was deferred. The Minister of the Interior announced that it had pleased Her Majesty to sign Bill No. 155 appropriating $20,000 for the continuation of the work of dredging Honolulu Harbor bar.

At 12:02 the Assembly adjourned.

SUNDAY SERVICES.

ST. ANDREW'S CATHEDRAL.

The services of the cathedral congregation, Seventh Sunday after Trinity, will be as follows: Holy Communion 6:30 a. m.; morning prayer, 11 a. m.; Hawaiian evensong 3:30 p. m.; evensong and sermon 7:30 p. m. All are invited.

WOULD YOU DO IT!

If to keep up with the fashion you were asked to sing a song,
Would you do it—Yes?
So would I.
If upon some current topics you were asked to come out strong,
Would you do it—Yes?
So would I.
Some think all public matters are a horrid bore, but I
Like men to have opinions they are ready to stand by,
Now if ever for your Queen and Country you were asked to die
Would you do it—Yes?
So would I.
It's time we stopped some people from decring Hawaii's purse,
Some Legislative blunderers want sending back to nurse.
Would you send them—Yes?
So would I.
The plows which turn our soil up should be light and strong and true.
If I said the "HENDRY BREAKER'S" worth more than any two,
Would you think so—Yes?
So would I.

ANHEUSER-BUSCH

BREWING ASSOCIATION,

ST. LOUIS, MO.

BREWERS OF FINE BEER EXCLUSIVELY!

— MANUFACTURED FROM —

Pure Malt and Highest Grade Hops!

☞ No Corn or Corn preparations used in place of Malt, as is done by other Eastern Breweries, in order to cheapen the cost of their Beer, and to compete with our world-renowned and justly famed article.

With the Completion of the New Brewhouse, the Brewing Capacity is the Largest of any Brewery in the World.

BREWING CAPACITY: 6 kettles every 24 hours, 6,000 Barrels, or 1,800,000 Barrels per year.

CONSUMPTION OF MATERIAL: Malt, 12,000 bushels per day—3,600,000 bushels per year. Hops: 7,500 lbs. per day—2,250,000 lbs. per year.

No Corn or Corn Preparations are used in the manufacture of the ANHEUSER-BUSCH BEER. It is, therefore, the highest priced but the most *wholesome* and really the least expensive for its *superior quality*.

• ANNUAL SHIPPING CAPACITY: **100,000,000** Bottles and **5,000,000** Kegs. •

The Anheuser-Busch Co. have carried off the highest honors and the highest class gold medals wherever they have competed. At all of the International Exhibitions, throughout the world, their Beer excelled all others.

This Company have prepared a special brand of their highest grade Beer, for the Hawaiian Islands, known as **"SPECIAL BREW,"** with a handsome label and in white bottles, which with their best **"EXPORT ANHEUSER"** in dark bottles, heretofore inported, we will now supply to the trade in quantities to suit.

G. W. MACFARLANE & CO.,

445] **Agents for the Hawaiian Islands.** [1

INSURE IN THE

Equitable Life Assurance

Society of the United States.

An Eminently Conservative and Safe Company.

FINANCIAL STRENGTH.

The consideration of first importance in judging of the condition of any financial institution (and notably of a life assurance company, the majority of whose contracts extend over long periods of years) is its *surplus strength*. The Equitable has, over and above all liabilities, a larger surplus than any other assurance company.

Assets, Dec. 31, 1891,	**$136,198,518.38**
LIABILITIES, including the Reserve on all existing Policies, (4 per cent. Standard) and Special Reserve (toward the establishment of a 3½ per cent. valuation) of $1,500,000	109,905,537.82
Surplus,	**$ 26,292,980.56**

This Surplus remains after making provision for every obligation, on a rigid calculation of *Liabilities* based on the standard prescribed by the Insurance Law of the State of New York, which assumes that Assets will be invested so as to realize interest at the rate of 4 per cent. per annum. In addition to this, in a spirit of conservatism, the Directors of the Society, on the recommendation of its Finance Committee, have set aside a Special Additional Reserve, looking towards even a more stringent and conservative future standard of valuation than the law now prescribes.

THE LEGISLATURE.

FIFTY-SECOND DAY.

FRIDAY, July 28, 1892.

Rep. Ashford favored reference to the committee on dredger. Did not believe in railroading this Bill through without examination.

Rep. Waipuilani favored reference to a committee.

Rep. Kamauoha favored the Bill passing to engrossment.

Rep. Kaunamano also favored engrossment. The Government was under contract and should pay. He considered that enough had been said on the matter and moved the previous question, but afterwards withdrew the motion.

Rep. White also believed that the Government should uphold its good name by payment of moneys due on the contract.

Minister Spencer said that he had but little to say. The dredge is a decided success, not a failure. One half of the length of the bar had already been moved. Unless the work was stopped it would be completed in 3 months and then the largest ship that floats would be able to enter the harbor of Honolulu. The work is being done intelligently and will surely be done to successful completion if allowed to continue. He agreed that it was a gigantic sucker and was doing good work in that line now.

Rep. Bush did not understand the unseemly haste with which this bill was being rushed through. There was very little in the Minister's report about the dredger. He considered that it was a failure; a great deal of towage money had been used up on it.

Minister Parker said that if it became necessary to wait for the present Appropriation Bill then the payments could not be made in time with the terms of the contract. The Government may be a little to blame, but the money should be first appropriated and blame the Government afterwards.

Noble Macfarlane did not think that there was time in which to refer to a committee. The contract was not very favorable to the contractors and they would like, probably, to throw it off their hands.

Noble Neumann was in favor of passing the bill as presented. He thought it very advisable to vote the amount first and go for the Ministers afterwards.

Noble Williams from the Committee on dredging matters reported that if the House desired it the Committee could and would report on the Bill to-morrow morning. He would amend the motion to refer to that effect and moved the previous question.

Rep. Ashford accepted the amendment and the motion to refer and to report to-morrow was put and lost. The Bill was on motion passed to engrossment and for third reading to-morrow.

Rep. Smith offered a resolution that the Committee on Accounts of the Assembly, present a report of the expenditures made up to the 31st day of July. Approved.

Noble Neumann obtained leave of absence for the afternoon and before leaving stated that there would be a meeting of the Judiciary Committee in the office of Rep. Smith at 7:30 o'clock this evening and invited all attorneys to be present.

Minister Parker presented answers to questions of Noble Dreier in re the occupation of Johnston Island by H. B. M. S. Champion, and in brief to the following effect:

(1) The Cabinet has not been officially informed of the occupation of Johnston Island, but has seen the statement as published in the newspapers.

(2) It is the impression of Her Majesty's Government that Johnston alias Cornwallis' (and Kaluna) Islands are still a portion of Her Majesty's Government.

(3) Not having any official notification of the alleged occupation the Government considered it unadvisable to enter a protest, being of the opinion that Her Britannic Majesty's Government on ascertaining the facts will withdraw their occupation without the necessity of a formal protest.

Noble Horner stated that the Committee on Ways and Means would have under consideration items relative to landings and buoys, also roads in different parts of the Kingdom and would be much pleased to have the attendance at their meeting, of any member of the House interested in those subjects, after adjournment.

On motion the Order of the Day was brought forward, bringing items in the Appropriation Bill up for discussion and President Walker appointed Rep. White to the chair.

Before any action on the bill was taken the Assembly at 11:55 took recess until 1:30.

Afternoon Session.

The committee reconvened at 1:40 p. m. and proceeded with consideration of items in the Appropriation Bill on second reading, Rep. White in the chair.

On motion the items under the head of "Permanent Settlements" were considered and the following were added, viz.:

Widow of J. E. Barnard, $600.

Widow of Kamakana Simeona, $400.

Widow of Kaulua, $400.

In the Customs Bureau a new item was added, viz.:

Pay of Collector Mahukona and Honoipo, $1440.

Items in the Department of the Interior were then considered.

Pay of Keeper Kerosene Warehouse, $2000, passed at $1500.

Items in the Department but under the sub-head of Bureau of Conveyances, were considered in connection with the report and recommendations made by the Committee on Ways and Means and were passed as follows:

Salary of Registrar, $5000.
Salary of Deputy Registrar, $4000.
Pay of Clerks, $6680.
Incidentals, $480.

The items under the division of "Bureau of Immigration" were considered and also in connection with the recommendations made by the Ways and Means Committee, the items being passed as follows:

Salary of Japanese Inspector and Interpreter, $6000.

Salary of Secretary of the Board of Immigration, was recommended by the Committee of Ways and Means to pass at $2400, but after considerable argument it passed, on recommendation of Minister Spencer, at $3600.

Incidentals of Bureau, passed as recommended by the Committee at $1500.

The subject of items under the head of Bureau of Public Works brought forward the report of the Ways and Means Committee recommending the consolidation of the department of Water Works under and with this Bureau and under the one title. The recommendations of the committee that the Department of Water Works be merged into the Bureau was adopted by the passage of the first item, viz.:

Salary of Superintendent of Public Works, Water Works and Clerk of Market, $6000.

The other items in the Bureau were passed as recommended and here presented, many of the old items of the Water Works Bureau being struck out on recommendation of the committee, the following passed as placed:

Salaries Assistants Public Works, $6000.
Incidentals Public Works, $500.
Running Expenses Water Works, $12,561.
Repairs of Reservoirs, $6000.
General Repairs, $10,000.
Laupahoehoe Water Works, $50.
Koloa, Kauai, Water Works, $200.

On motion the committee rose and Rep. White as chairman reported progress, report approved.

At 3:50 o'clock on motion the Assembly adjourned.

Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the *Saturday Review*. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and that in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. Fifty cent bottles for sale by all dealers. Benson, Smith & Co., Agents.
