AN ACT

TO CONSOLIDATE AND AMEND THE LAW ENTITLED "AN ACT TO
FACILITATE THE ACQUIRING AND SETTLEMENT OF HOMESTEADS,"
OTHERWISE KNOWN AS THE "HOMESTEAD ACT."

Be it Enacted by the Queen and the Legislature of the Hawaiian
Kingdom:

SECTION 1. That the Minister of the Interior is hereby
authorized to cause portions of the public lands which are
suitable for the purpose, and not at the time held by any
person under lease from the Government, to be surveyed and
laid out in lots not over twenty and not less than two acres
in extent in dry or kula land, and not over two acres in extent
in wet or kalo land, with convenient roads in connection
therewith which shall not lead into the gulches. Provided,
however, that in the Districts of Kahikini and Kipahulu,
Maui, and Kau, Kona and Puna, Hawaii, such lots may not be
more than one hundred acres in area.

SECTION 2. Upon the completion of any such survey the
Minister of the Interior shall appoint three appraisers, one of
whom shall be the surveyor who has laid out the land, and
the other two residents of the district in which such land is
situated, who shall examine the lots so laid out and appraise
the same in their discretion at reasonable market rate, and
shall report their appraisments to the Minister of the Interior
by a written statement signed by at least two of the said ap-
praisers. Provided, however, that if by reason of the location
of the land so surveyed it is difficult to obtain appraisers,
or the smallness of the area will raise the proportionate
cost of such appraisal above a reasonable amount, then
and in such case, the Minister of the Interior, the surveyor
who surveyed such land, and the Surveyor-General, may make
such appraisal.

The Minister of the Interior shall thereupon publish a notice
in the Hawaiian language, and if he deem advisable, in
any other language in which newspapers in the Kingdom are
published, which notice shall be in substance as follows:

"HOMESTEAD NOTICE.

"..... lots have been set apart at
in the District of Island of for
the purpose of conveying to such persons as may wish to ac-
quire homesteads upon which to live. The surveys can be
examined at the office of the Interior Department by intend-
ing purchasers, who may also examine the lots as laid out on
the ground upon application to or
of said district appraisers, who will point them out, and who
shall be entitled to a fee of one dollar for such service from
the party or parties applying. Any person of full age who
may desire to acquire any of the said lots shall apply in writ-
ing to the Minister of the Interior, stating the number of the
lot chosen, and shall thereupon attend at the office of the
Minister of the Interior, if such application is accepted and
the proper papers signed and delivered. No one will be al-
lowed to acquire more than one lot; provided, however, that
persons will be allowed to acquire two lots where one of them
is kula land only, and one of them is wet or kalo land only.

".....
"Minister of the Interior."

SECTION 3. Upon receiving written application for any of
said lots, the same shall be filed with the date of their receipt.
In case two or more persons apply for the same lot, the one
whose application is first received, if he is a resident of the
district in which the lots are laid out, shall have the preced-
ence; provided, however, that if he should not attend in per-
son or by attorney at the office of the Minister of the Interior
within one week from the time of the receipt of his applica-
tion, the second one applying shall have the precedence of all
others in the same manner, and so on as to other applicants.
Upon considering the respective applications the Minister of
the Interior shall grant the same upon the payment by the
applicant of the quarter-yearly rent or interest in advance, as
provided by the written agreement between the Minister of
the Interior and the applicant, as hereinafter set forth, and
the execution by the applicant together with the Minister of
the Interior, of such written agreement in duplicate, and
shall deliver to such applicant one of such duplicates, duly
stamped, which shall entitle him to the immediate possession
of the lot or lots of land therein described, according to the
covenants and stipulations thereof, and which shall be admitted
as evidence without further proof in all courts of the King-
dom; such agreements shall be in substance as follows:

"..... Minister of the Interior, on behalf of
the Hawaiian Government, the party of the first part, and
..... of Island of the party of the second
part, agree as follows: "The party of the first part agrees to
sell, and the party of the second part agrees to purchase, the
lot numbered upon the survey of land under the
Homestead Act, Number in the District of
Island of including an area of acres in ten
years from this date, at the price of dollars.

"It is further agreed that the party of the second part may
take immediate possession of the said premises and hold the
same, as hereinafter provided, for the term of ten years with-
out being subject to the payment of taxes therefor, and shall
within one year from this date build a dwelling-house upon
the said lot (in case two lots are taken, describe the lot of
kula land by number), and begin to occupy the same, and
shall continue to use the same as his residence for the term
of three years thereafter, and shall within three years from
this date enclose the said lot (in case two lots are taken, de-
scribe the lot of kula land by number) with a substantial fence,
and shall pay quarterly in advance dollars (a sum rep-
resenting the quarterly interest of the said purchase price at
five per cent. per annum) to the party of the first part, and at
the end of the said term shall pay in full the said
dollars (the purchase price), or any part of the same that shall
at that time remain unpaid, or shall deliver a mortgage of the
premises to secure the said sum or such unpaid balance at
his own expense, for a term not less than one year nor more
than ten years, as the party of the first part shall decide, with
interest at the rate of five per cent. per annum, payable semi-
annually in advance. Upon the receipt of such sum of money,
or unpaid balance thereof, or such mortgage, the party of the
first part shall deliver to the party of the second part, or his
heirs, a Royal Patent for said premises, except as provided in
Section 6 of said Homestead Act.

"Provided, however, if the party of the second part shall
not place a dwelling-house upon the said premises, and begin
to use the same as a dwelling-house one year from this date,
or shall not continue to live upon the said premises for the
rest of the said term of three years, or shall not fence the
said lot (in case two lots are taken, describe the lot of kula
land by number) within three years from this date with a sub-
stantial fence, or shall fail to pay the said interest as the
same shall become due, or shall not pay the said sum of
dollars (purchase price) or the unpaid balance thereof at the
end of the said ten years, or in lieu thereof deliver a mort-
gage as aforesaid to the party of the first part, these presents
shall become void, and the party of the first part may there-
upon, without notice, demand or legal process, take possession
of the said premises, with all improvements that may be there-
on, and remove the party of the second part, and all persons
claiming under him, and their effects. It is hereby further
agreed that the party of the second part, or his heirs, shall
not assign this agreement, and any such assignment shall
cause this agreement to become void as hereinafter set forth.
The party of the second part may under this agreement pay
the whole or any part of said purchase price at any time at
his option before the termination of the said ten years, and
upon any such payment shall be allowed a corresponding re-
duction of the amount of the interest money hereinafter
stipulated. In case of the death of the party of the second
part before the expiration of the said ten years, all the rights
and benefits of this agreement shall vest in his heirs accord-
ing to law, subject to their completion of the performance of
the stipulations thereof to be performed by the party of the
second part.

"Nothing in this agreement is to be construed as giving
the party of the second part any right to impound live stock
trespassing on the said premises until he shall have fenced
the said lot as required by this agreement."

SECTION 4. No person having a lot of land under this Act
shall be permitted to cut and sell ohia, koa, bread-fruit and
fruit-bearing ohia trees growing upon such land, except only
so far as he may require the land for immediate cultivation.

SECTION 5. Every person owning land under this Act shall
have the authority to demand of every other person in pos-
session of a lot under this Act, or of any one in possession of
any adjoining land in fee simple, to join in the building of a
fence, and to enter proceedings therefor according to law.

SECTION 6. The Minister of the Interior may issue a Royal
Patent for such land to the person purchasing the same, after
said party shall have built a suitable house, and shall have
enclosed the land with a fence in accordance with law, and
shall have paid the purchase price of such land together with
the interest thereon, and that two-thirds of such land shall
have been cleared and planted with fruit-bearing plants.

SECTION 7. The person receiving the land may, under this
Act, put a substitute in his stead on such land, subject to the
consent of the Minister of the Interior, upon satisfactory rea-
sons being given to him. Provided, however, that the prin-
cipal shall be responsible for all acts done by such substitute.

SECTION 8. The charges and fees of the surveyors and ap-
praisers, and other expenses required under this Act, shall be
paid from moneys in the Treasury not otherwise appropriated.
The fees of the said appraisers shall be five dollars a day a
piece.

SECTION 9. Chapter XLV. of the Laws of 1884, entitled
"An Act to facilitate the acquiring and settlement of Home-
steads, and Chapter LIV. of the Laws of 1888, entitled "An
Act to amend an Act entitled An Act to facilitate the acquir-
ing and settlement of Homesteads," and Chapter XL. of the
Laws of 1890, entitled "An Act to amend Section 3 of Chap-
ter XLV. of the Session Laws of 1884," and Chapter LXXXV.
of the Laws of 1890, entitled "An Act to amend Section 2 and
Section 3 of Chapter XLV. of the Laws of 1884, being an Act
entitled "An Act to facilitate the acquiring and settlement of
Homesteads," approved the 29th day of August, 1884, and all
laws and parts of laws in contravention herewith are hereby
repealed.

SECTION 10. This Act shall take effect from and after the
date of its approval.

Approved this 9th day of January, A. D. 1893.

Pledged to neither Sect nor Party, But Established for the Benefit of All. MONDAY, JAN. 30, 1893.

The reckless removals of officials to make room for relatives of Councilors and prominent supporters of the revolution is not gaining good feeling for the Provisional Government but the reverse.

As our people are keenly interested in the project of a canal between the Atlantic and the Pacific, the letter of Captain William L. Merry reproduced from our San Francisco namesake will be read with avidity.

A vigorous protest by the San Francisco Bulletin against a movement to have the Geary Chinese restriction act repealed is published in this issue. The remarks on the shallowness of the arguments of the pro-Chinese party in the United States apply equally well to a considerable clique in these islands, whose false religious benevolence and spurious sentiments of universal brotherhood claim a sacrifice of the interests of their own kith and kin.

The Advertiser gratuitously insults Mr. C. Sneyd-Kynnersley of Kohala, its own correspondent, by insinuating that, while he signs his proper name to his letter in that paper, he gets his views duplicated under anonymous cover in this paper.

The New York Sun is a great paper. What is more it is a great Democratic paper. For the past two months it has had a special correspondent examining into the feeling amongst Canadians in favor of annexation to the United States.

Of course, we might conquer Canada, as we did California. But we do not wish to conquer her. We do not want her, unless she comes to us of her own free will. But how, as a matter of constitutional and international law, can the Dominion, or the provinces which compose it, come to us, except as Texas did; that is to say, by first establishing independence, and thus acquiring the right to apply for admission to the Union through the voice of national or provincial conventions, supplementing the application with the exhibition of State Constitutions?

This is thoroughly true Democratic and American sentiment on the subject. What then can our rulers

KEEP COOL.

The Advertiser would show more discretion on behalf of the Provisional Government if it avoided strong language against those who do not believe that two wrongs make a right. Its adoption of the term "the enemy," accompanied by insulting recriminations, toward people who deplore the perpetuation of brute force government in these islands may in the near future be a source of humiliation to itself and its masters.

Uncle Sam's Disposition.

In the Liberator of January 28 is the following: "The new navy has not been built and manned for the perpetuation of monarchical forms and the protection of monarchical monarchies throughout the world."

A NEW LAWSUIT ON HAND.

Or, Parody on Ta-Ra-Ra-Boom-De-Ray.

Now there is a man with a great big gall, if you look at him he'll commence to bawl. He had some shirts and wanted them fixed but without the money he could not do it.

Johnson the Shirt Man.

Johnson the Shirt Maker is at the corner of King and Alakea streets, where he makes all kinds of Shirts to order and guarantees a fit. It don't cost any more to have your shirts made to order than you pay for your old store and factory made goods.

N. B.—No Bluffs taken in Payment for Shirts.

For pains in the chest there is nothing better than a flannel cloth saturated with Chamberlain's Pain Balm and bound on over the seat of pain. It will produce a counter irritation without blistering, and is not so disagreeable as mustard; in fact is much superior to any plaster on account of its pain-relieving qualities.

The article of special convenience in every household and office throughout the islands, and the most acceptable to send to friends abroad—because it deals only with facts and figures—is a copy of the Hawaiian Annual for 1893. Price, 75 cents each, or 85 cents mailed abroad.

"Tom says he is coming down to spend some time with us. He is a rival, sarcastically—"Spend what? That can't be Tom."—Ez.

"Why should we say to Satan, 'Get thee behind me!'" asked the teacher. "So that we shall get ahead of him," returned the bright boy.—Pack.

The Daily Bulletin is delivered by carriers for 50 cents per month.

The effort that is being made at the East to secure the repeal or modification of the Geary Act can scarcely be considered with patience. It is urged along mostly by a lot of cranks who have no knowledge whatever of the facts of the case.

The sympathies of these pseudo-philanthropists always cluster around some distant race of barbarians, and the lower they are in the scale of humanity and the more debased they are in their habits the more earnestly they plead for them, at the expense of civilization.

The Chinese laborers imported into this country come under contracts to labor and service for long periods, and the Six Companies see to it that they do not get out till their contracts have been fulfilled.

It would simply be the poetry of justice, if some of the maladies which follow in the wake of the Chinese should lay hold of them, but nobody in the more prosaic walks of life would wish that they should be overtaken by small-pox or leprosy.

Besides, and this fact should be brought to the front, namely, if there be 150,000 Chinese in this country now, as they allege, two-thirds of them are criminals. They have sneaked into this country in violation of law.

The Chinese brought down registration upon themselves. They have refused to obey. Congress is, therefore, to be impertinently back down before the Mongol. It is conceded, we presume, that all other classes must render obedience to the law.

The success of Chamberlain's Cough Remedy in effecting a speedy cure of colds, croup and whooping cough has brought it into great demand. Messrs. Pontius & Son, of Cameron, Ohio, say that it has gained a reputation second to none in that vicinity.

Saturday, Jan. 28, 1893.

When it is considered that the present government moved in without giving the departing tenants a chance to clean house, matters have progressed smoothly and without any serious inconvenience to anyone except, perhaps, the man who thought he must be on the street after the limit of time just because martial law made his presence at home after 9:30 P. M. compulsory.

There are few places in the world where such care is given the laws as in Honolulu. This fact makes garden hose a necessity. We keep many different brands, some cheap some expensive, and it is not hard for you to guess which we sell the most of. But ordinarily the cheapest is not always the best.

LOCAL AND GENERAL NEWS.

The band will play at Emma Square this evening. Two natives have been arrested for malicious injury.

The U.S. cruiser Boston is flying the Japanese flag to-day. Diamond Head, 3 p.m.—Weather, cloudy; wind, fresh northeast.

The Scottish Thistle Club will meet as usual this evening at 8 p.m. The men from the Japanese warship Kon-go were around town to-day.

Three cases of drunkenness were disposed of in the District Court this morning. It is reported that a Constitution for the Republic of Hawaii is in the hands of the printers.

The steamer Pele returned yesterday without any sugar from Makaweli, the new sugar plantation. Nine natives, including an ex-governor of the police force, were arrested on Saturday for indulging in the cha.

Hon. John E. Bush intends to leave for the States, if he can settle his business affairs in time, by Wednesday's steamer. Hon. Paul Neumann and Prince David Kawananakoa will leave here for Washington by the steamer Australia on Wednesday.

The Japanese training ship Kon-go saluted the Hawaiian flag Saturday afternoon and was answered from the shore battery. The Japanese Consul paid an official visit to the Kon-go on Saturday afternoon, receiving the usual salute of seven guns when leaving.

Captain Tashiro of the Japanese man-of-war Kon-go and the Japanese Consul paid an official visit to Governor Cleghorn this afternoon. A cold wave passed over the island of Kaula on Friday night last. The cold was so severe that blankets were used and many had to build a fire.

A young native girl rolled down Punchbowl yesterday afternoon and was somewhat seriously injured. She was taken to the Queen's Hospital. Mrs. R. Hudson and Miss Hudson, of Sydney, relatives of Mr. and Mrs. R. Lishman, will leave on the S.S. Australia on Wednesday for the States.

The Government having called for a report of all arms and ammunition in private hands, a long list of weapons and cartridges has already been entered in a book at headquarters. No little trouble was encountered on Saturday by the new Government to find sufficient men who understand how to handle the guns at the shore battery, to respond to the Kon-go's salutation.

The Japanese steamer Yamashiro Maru with a small consignment of labor immigrants is due to-day according to arrangements, but the Board of Immigration did not receive the usual cable notice of her sailing. Mrs. Lucy, daughter of Mr. H.S. Tregloan, merchant tailor of this city, will return to San Francisco on the S.S. Australia on Wednesday next, after a brief sojourn in Honolulu. Mrs. Lucy was formerly Miss Carrie Tregloan.

One of the "drei hundred" members of Company A boasted on Saturday that they could sweep out the whole town if they wanted to. Such blatant talk from a "national guardsman" is calculated to restore sweet harmony in the community. In addition to the list published the other day the following have been booked to leave by the S.S. Australia on Wednesday: W. J. Rickard, Miss Tregloan, Mrs. Lucy and child, J. H. Malone, Mrs. R. Hudson, Miss Hudson and A. J. Ivers.

Last night there was another inadvertent shot from a sentry's rifle to break the quiet of the night. Reports of the incident differ. One is that a footguard fired by mistake at a mounted patrolman, another that the man on horseback discharged his weapon by accident. A good joke is going the rounds about a gentleman who while going down to work at 4 o'clock in the morning was stopped by several Portuguese and German guards. In a fit of humor the workman pulled out a piece of blank paper and in every instance was greeted with "all right, pass on!" Finally he came to an intelligent guard who made him dig up the right pass which he kept in a different pocket.

A sturdy Chinaman gave an exhibition of agility and strength on the grounds of Mr. John Angus, Punchbowl street, this afternoon. He climbed a cocoanut tree to a height of thirty to forty feet, resting on the bare trunk several times, and then holding on with one hand he plucked with the other 25 or 30 nuts. Some of the stems being tough much exertion was required to break them, and it was wonderful how the man held on while doing the work.

"For the past two or three years I have been subject to cramping pains in the stomach," says Mr. W. A. Baldwin, a hardware merchant of Booneville, Dallas Co., Iowa. "I have tried a number of different remedies; the best one being Chamberlain's Colic, Cholera and Diarrhoea Remedy. One or two doses of it always cures me." Sold by all dealers. MAUI MEMORANDA.

Rare Minstrel Entertainment by Wailuku Amateurs—Remarkable Improvement at Spreckelsville Mill.

The long promised entertainment of the Wailuku Amateur Minstrels occurred last Friday evening, the 27th inst., and proved very successful. Shortly after 8 o'clock the curtain rose on the stage in the schoolhouse, which was tastefully decorated with birds' nest ferns and a profusion of flags, kindly loaned for the occasion by Mr. A. F. Hopke, U. S. Consular Agent, and Capt. Christensen of the brigantine J. D. Spreckels. Upon the stage were seated, in a semi-circle, the very sable artists responding to such euphonious names as Brudder Iao, Brudder Kalepolepo, Brudder Kahului, Brudder Makawae, etc., with Mr. Mati as middleman. The show was very creditable from an amateur standpoint, Brudder Bones (Mr. M. T. Lyons) and Brudder Iao (Mr. Geo. Groves) deserving especial mention. Mr. Lyons in particular acted his role with considerable nerve and abandon and displayed a latent comic talent, which frequently sent the audience into fits of laughter, and was the mainstay of the troupe.

There were several clever local hits and some good songs, solos and choruses, which concluded the first part of the program. The second part was initiated by a very amusing and humorous "scientific" lecture on "leap years," by Mr. E. B. Carley. An oboe solo by Mr. Thos. Rochford was appreciated by the audience, also a vocal solo by Mr. Maxwell, guitar accompaniment. A ludicrous interlude "on the train" followed, then "Moriarity" sung with esprit by Mr. Groves, the performance concluding with a local farce, "At the Wailuku Hotel the Night after Election," which set the risibles of the audience in motion, the different parts being cleverly acted by Mr. Severin and the fat Dutchman, Mr. M. T. Lyons as the mischievous "darker," Mr. Jno. Maguire as the "sassy" Irishman, Mr. Ben Lyons as the landlord and Mr. W. T. Robinson as the "lone unprotected female."

The indefatigable Mr. Biven, "genial friend Ned," was the musical conductor and director-in-chief of the evening, and as usual outdid himself, playing as well as ever with an injured thumb bound up in a rag. Financially the entertainment was a howling success, the spacious schoolhouse being packed with people from all parts of East Maui, the train bringing quite a number of the Makawae and Spreckelsville people. The net proceeds will probably amount to some \$150 and be given to the native church, the hospital or some charitable or religious institution.

The boys deserve credit and encouragement for their brave effort, and when they repeat the entertainment, which they expect to do in a couple of months, it is hoped they may see their labors crowned with equal success. Mr. A. R. Laws, bookkeeper of the Haiku Sugar Co., breathed his last on Monday evening, the 23rd inst. The funeral, which took place Wednesday forenoon from the Paia Foreign Church, was largely attended by most of the prominent residents of Makawae, who had learned to love and esteem the deceased gentleman for his many sterling qualities.

The brigantine Jno. D. Spreckels, Capt. Christensen, arrived last Sunday, the 22nd inst., 16 1/2 days from San Francisco, with a cargo of merchandise and fertilizer. She will leave next Wednesday with a full load of sugar for J. D. Spreckels & Bros. The bark Alden Besse, Capt. C. S. Fries, leaves to-day with about 1250 tons of sugar, valued at \$62,568.73, from Hawaiian Commercial & Sugar Co., Paia Plantation and Haiku Sugar Co.

The bricked-in boilers at Spreckelsville do excellent work since the improvement was made, and the mills turn out a big lot of sugar, besides furnishing more trash than can possibly be consumed as fuel, without burning a single pound of coal. It is estimated that the daily output will reach 120 to 130 tons of sugar, a respectable quantity for one plantation. MAUI.

KAUAIANA. News Received Quietly—Items of Local Happening. There is nothing of any importance to note since last communication. The accident to the steamer James Makee caused some little anxiety, as it was thought her detention might be due to political difficulties in Honolulu. Otherwise the change in the Government has created no excitement, and one would suppose nothing uncommon had occurred. Heated political discussions are eschewed by all parties.

Saturday, Jan. 21st, the following officers were elected for the ensuing term by Kealia Lodge, No. 5, Knights of Pythias: Wm. Blaisdell, sitting P. C. E. J. G. Bryant, C. C. Adam Lindsay, V. C. Geo. H. Fairchild, P. James H. Makee, M. of Ex. S. G. King, M. of F. & K. of R. & S. B. S. Horner, M. of A. S. W. Holme, G. G. C. N. Grime, O. G.

This lodge is quite active and is in a flourishing condition financially and otherwise. The mill at Kealia is running on smoothly and the warehouse at Kapaa is choked up with sugar, owing to the accident to the James Makee. Chief Engineer Wm. Eassie is visiting Makaweli, only for a brief period, however. His Excellency Governor and Mrs. Rice favored us with a visit. We were pleased to greet Mr. E. R. Hendry, the genial manager of the Hawaiian Hardware Co., and his friend Mr. Fisher, from the United States. They were on a business trip with pleasure on the side.

Weather clear and cool and considerable sickness. Among those in our midst we regret to mention three members of the Lindsay family—father, mother and youngest daughter, Miss Lizzie, the latter being critically ill with high malarial fever. Mrs. H. Z. Austin has got as far as Honolulu with her sick charge, Miss Kate Ritchie, but has been compelled to lay over in order to allow Miss Ritchie to recover from the ill effects of the sea trip from Maui. They are expected home by next Makee. Kealia, Jan. 28, 1893.

REMOVAL OF SHERIFF HAYSELDEN.

Action that Causes Great Dissatisfaction on Maui. EDITOR BULLETIN:—The news received by the steamer last Wednesday that Mr. F. H. Hayselden, who was recently appointed Sheriff of Maui, had been removed from office, and that Mr. Andrews, Deputy Sheriff of Makawae, had been instructed to take charge of the office, has caused general dissatisfaction on Maui.

Mr. Hayselden has, during his brief office, by his unflinching courage, discretion and business tact, succeeded in winning the esteem and respect of all his subordinates, as well as of everybody with whom he has come in contact, no matter what their political color; he has readily adapted himself to the requirements and routine of his office, for which he is by nature well qualified, and his many friends deeply regret his removal, which they think unjust, imprudent and impolitic.

It is understood that this removal has been effected on the strength of rumors, which have been carried to the ears of the powers that be, to the effect that Mr. Hayselden has repeatedly and publicly expressed himself opposed to the present administration and hostile to the recent political coup d'etat, in fact that he has urged the natives to resistance.

This is an absolute untruth; for Mr. Hayselden has not in any way expressed his views on the burning question of the day (except discussing the events in a general way, in a private circle of friends)—far less incited to opposition or rebellion against the existing order of things. If he has been removed on such idle rumors, without first ascertaining their truth, a serious mistake has been committed; or it is possible that he has been politically headed to gratify an old personal grudge, or because he happens to be the son-in-law of the late Mr. Gibson? If this be the case, then it would indeed be a disgrace to the country, and a blot on the escutcheon of the Reform party. All party animosity or friction should be carefully avoided at the present time, when everything is at high tension, and if the Provisional Government would consider their own and the country's true interests, they should be extremely careful in making any changes; for nothing serves better to antagonize and alienate even their own adherents, than the arbitrary decapitation of an efficient officer without very grave and cogent reasons. I am, and always have been, a staunch adherent of the principles of the Reform party, but I certainly do not endorse the policy of vindictiveness, revenge or "to the victor belong the spoils," which seems to have inspired this official act. As for Mr. Hayselden's successor, the appointment is probably only temporary, for Mr. Andrews, though possessed of many excellent qualities, has not the experience or, for the matter of that, savoir faire requisite to properly discharge the functions of his office, the importance and responsibility of which increases every day with the population and progress of the island; if the matter were put to a popular vote, it is safe to assert that Mr. Hayselden would be elected by an overwhelming majority and it is the earnest desire of all right-minded citizens to see Mr. Hayselden restored to his office. A TRUE REFORMER.

THE SHERIFF. The sale of land at Wailuku by Mr. Henry Smith, Clerk of the Judiciary, was confirmed at Chambers to-day. The scarcity of hearings these days gives the court clerks time to make up the business for the approaching jury term.

In court notes the other day mention was made of a work in the Law Library dated in 1712. That one proves to be not in it for antiquity, alongside of one found in the same place, 270 years old. It is the "Attorney's Academy," dated 1623. By the steamer Australia Mr. Henry Smith, Clerk, has received the new seals for the courts required under the change of system. As the order only went forward by last trip up of that steamer, its execution has been decidedly prompt. Seals for the Circuit Courts other than the First are duplicated, so that documents for the country Circuits can be impressed with the seal when necessary at the Department headquarters.

WAILUKU'S WELCOME.

Honors Paid to the Bishop, Their Former Esteemed Pastor. Friday night Wailuku witnessed a sight which reminded foreigners of home, and the grant torchlight processions of America. It was the arrival at Wailuku of our beloved pastor, now Rt. Rev. Gulstan Ropert Bishop of Panopolis. About half a mile from the Catholic Mission, the inhabitants of Wailuku and suburbs were assembled en masse. As the carriage, conveying His Lordship, accompanied by Rev. F. Sylvester and Rev. F. Theodor, arrived, it was actually besieged by the crowd, eager to welcome their beloved bishop on his first pastoral visit to his dear old home. It was truly a pathetic sight, many giving vent to tears of joy.

From thence the crowd formed into line, headed by the Wailuku band, and amid the glaring light of many Hawaiian torches, and a huge bonfire on the summit of the sand-hills, marched toward the church, the steeple of which was illuminated by thirty Japanese lanterns, and in the dark night appeared as a fairy air-castle.

At the entrance of the Mission premises, the Rev. priests of Maui, in simple acolytes, with incense, and about 70 little girls dressed in white crowned with wreaths, bearing bouquets of flowers, and who looked like so many fairy queens, welcomed their dear bishop and eminent guest.

Passing through two large splendor arches, upon which were four appropriate inscriptions, one of which was a well executed chromogram, and having entered the church, which was ablaze with lights, the Rt. Rev. Bishop, who was visibly affected by the loving reception, expressed in a few words his warm aloha for all his parishioners and old friends, and having given the Episcopal blessing, the singing of the Te Deum ended the ceremony.

The following day a sumptuous luau in honor of the esteemed guest was given. Sunday at 10 a. m. solemn pontifical high mass was celebrated. At 2 p. m. more than 200 received the sacrament of confirmation. The singing in the morning and afternoon was very fine.

During the week the Rt. Rev. Bishop visited Waiehe, Kahakulua and Waikapu. Everywhere the growth of the church has been beyond expectation. The tour of the Bishop is a continuous oration; the people at each place vying to surpass their neighbor in doing honor to their esteemed visitor. A FRIEND.

The Panama Scandal and the Nicaragua Canal.

EDITOR BULLETIN:—I have frequently been asked recently what effect the Panama exposure would have on the Nicaragua Canal, and our people being largely interested, it is proper that such an inquiry should receive reply. The Panama scandal is nothing new to the initiated, but it proves worse, both as to the amounts squandered and stolen and the persons implicated, than anticipated, even by parties well informed on the canal question. As early as 1880 a committee of a commercial organization in San Francisco expressed the opinion that a sea-level canal at Panama was a practical impossibility. It now turns out that when De Lesseps' engineers became aware of the fact, and changed their plan to a lock canal, in every way inferior to the Nicaragua Canal, and questionable in respect to lockage water supply, the company commenced "kite-flying" and bribery. Dingler, one of their best engineers, and personally employed on the works, now states under oath that they never expected to complete the canal for less than 2,000,000,000, or \$400,000,000, while they were asserting it would be built for \$160,000,000! The fact is, they never had an accurate survey of the work until failure of the sea-level plan forced examination. A Board of the most competent engineers in the United States had years prior reported against a ship canal at Panama and in favor of the practical and economical work at Nicaragua, this report having been made by Government officers under the Administration of General Grant.

There is, in fact, no comparison between the two projects. The Nicaragua Canal Company has at its command, aside from its own surveys, which are exhaustive, such a fund of information as has never before preceded any public work of the kind. Not only has the United States surveyed the route on three occasions, but surveys as far back as 1849-50 for Vanderbilt and later for Felix Belly and associates, are available for study and examination. In locating the canal to be excavated, which is only 26 1/2 miles, the present company has itself run over 4000 miles of levels to ascertain the best locations, and, at the New York office, are borings taken out every 1000 feet, to the bottom of the canal, showing material to be excavated. In fact, I have a map at my office to show this in a limited way. The present expenditures, reaching nearly \$6,000,000, have produced results below the estimates. In fact, the units of cost made in 1872 by the United States Government Survey, are still maintained. Thus, ordinary dredging is estimated at 30 to 40 cents per cubic yard—it is being done here for 10 to 12 cents. Subaqueous rock is estimated at \$5 a cubic yard—it is being done, under Government contract at St. Mary's Canal, for \$1.75, etc. The improvements in excavating machinery and in the use of explosives during the last decade have not been considered in the estimates. Responsible Chicago contractors, Messrs. Treat & Harris, offer to build the Western division, giving ample bonds, for \$21,906,771, which is Menocof's estimate, including 25 percent contingency, and to complete this section in three years. And this will leave them a fair profit.

The Nicaragua Canal is a practicable, carefully surveyed, economical project without any unsolved problems for the civil engineer. It is situated in a healthy climate and in a productive country. It is an internal water-way, which will enjoy a large local traffic as the interior of Nicaragua develops, as well as an interoceanic canal. There has been no misrepresentation about it and today it is being scrutinized by its few enemies and its many friends in Congress and throughout the country. The very few interested or purchased parties opposing it have hard work to invent fictions against it and, fast as they are invented, they have been proven false by the light of official examination. A report of the work annually is required by law to be made under oath to the United States Government, which charters the canal company. This report is printed and accessible to all that ask for it at Washington. The expenditures have been economical and, thus far, below estimates. There is in fact no basis of comparison between the two works, either from engineering, financial or economic standpoints.

That dishonesty in France and Panama should affect the Nicaragua Canal in the United States is an absurdity, except that it should affect the practicable enterprise favorably. I have no doubt that were the Nicaragua Canal to-day presented to the people of the United States for construction under proper Government control, it would be supported by nine-tenths of the voters. That the work will never be stopped until it is completed is a certainty, and it is equally a certainty that if our Government does not act with promptness, or if our own people do not furnish the funds for construction, European money will build and control it, making us pay interest on its increased cost. At present we have the matter in our own hands, and as an American citizen and interested in the prosperity of California, I do not hesitate to assert that, if we do not now make it an American canal under American control, as recommended by General Grant, we shall commit an error for which our country will have to pay dearly in blood and treasure, for the Nicaragua Canal is a question of build, buy or fight, with the alternative of taking a back seat among the nations of the earth. In the pending bill the Government gets all it asks for; absolute ownership of eight-tenths of the stock; control of the directory and construction under its direct supervision. The Canal Company will not spend a dollar to obtain legislation. If our countrymen demand it, Congress must accede or prove false to its trust.

The following choice bit of word painting occurs in Hawthorne's Marble Faun:
"Women be they of what earthly rank they may, however gifted with intellect or genius, or endowed with awful beauty, have always some little handicraft ready to fill the tiny gap of every vacant moment. A needle is familiar to the fingers of them all. A queen, no doubt, plies it on occasion; the woman poet can use it as adroitly as her pen; the woman's eye, that has discovered a new star, turns from its glory to send the polished little instrument gleaming along the hem of her kerchief, or to darn a casual fray in her dress. And they have greatly the advantage of us in this respect. The slender thread of silk or cotton keeps them united with the small, familiar, gentle interests of life, the continually operating influences of which do so much for the health of the character, and carry off what would otherwise be a dangerous accumulation of morbid sensibility. A vast deal of human sympathy runs along this electric line, stretching from the throne to the wicker chair of the humblest seamstress, and keeping high and low in a species of communion with their kindred beings."
Housewives, while you ply the needle, have you ever reflected on the vicissitudes of life? See to it that your husbands provide for the future welfare of their families by at once applying for a Policy in the **EQUITABLE LIFE ASSURANCE SOCIETY** of the United States. No more suitable gift could be offered to you.
