SUMMER SESSION ANNOUNCEMENT

1927

JULY 5—AUGUST 2

Published Quarterly by the

UNIVERSITY OF HAWAII
Honolulu

(Entered as second class mail matter at the Post Office at Honolulu, T. H., Nov. 14, 1921, according to Act of Congress of August 24, 1912)
The Summer School Calendar
1927

Registration............................Saturday, July 2, 8 to 12 A.M.

Registration............................Tuesday, July 5, 8 A.M. to 4 P.M.

Instruction begins.....................Wednesday, July 6.

Instruction ends........................Tuesday, August 2.
Summer Session

HONOLULU, 1927

OFFICERS OF ADMINISTRATION AND INSTRUCTION

DAVID L. CRAWFORD, President of the University.

THAYNE M. LIVESAY, Director of the Summer Session.

HELEN B. MacNEIL, Registrar of the University.

GERALD R. KINNEAR, Treasurer of the University.

MARY P. PRINGLE, Associate Librarian.

ADEN, MARTIN, R., Member of the Staff of the Advertiser Publishing Company, Honolulu.

COX, CATHARINE E. B. (MRS.), A. B., Director of the Hawaiian Academy of Arts, Honolulu.
    A. B., Bryn Mawr, 1889.

COXEN, JAMES R., M. S., Director of Vocational Education, Territory of Hawaii.
    B. S., Kansas State Agricultural College, 1907;
    M. S., University of Wisconsin, 1920.

DAHL, ANNA VON BALZER, Assistant Professor of Textiles and Design, University of Hawaii.
    Formerly head of the Vienna School of Costume Designing, San Francisco.

GAY, MAY K., A. M., Instructor in Physical Education for Women, University of Hawaii.
    A. B., University of Hawaii, 1923;
    A. M., Columbia, 1925.
KEMP, WILLIAM W., Ph. D., Professor of Education; Dean of the School of Education, University of California.
A. B., Stanford, 1898; Ph. D., Columbia, 1912.

KLUM, OTTO, Professor of Physical Education; Director of Athletics, University of Hawaii.
Student, Oregon Agricultural College; University of California.

KUYKENDALL, RALPH S., A. M., Instructor in History, University of Hawaii.
A. B., College of the Pacific, 1910;
A. M., University of California, 1918.

LEE, SHAO CHANG, A. M., Professor of Chinese Language and History, University of Hawaii.
Graduate Canton Christian College, Canton, China, 1911;
Graduate Tsing Hua College, Peking, China, 1913;
A. B., Yale, 1917; A. M., Columbia, 1918.

LEEBRICK, KARL C., Ph. D., Professor of History and Political Science, University of Hawaii.
B. S., 1911; M. S., 1913; Ph. D., 1917, University of California.

LIVESAY, THAYNE M., A. M., Professor of Education and Psychology; Director of the Summer Session, University of Hawaii.
A. B., Pacific University, 1917; A. M., University of Washington, 1921; Stanford, 1921-24.

LUM, KALFRED D., Ph. D., Instructor in History and Political Science, University of Hawaii.
A. B., University of Hawaii, 1922; A. M., Columbia, 1923; Ph. D., New York University, 1926.

NYLANDER, TOWNE, A. M., Formerly Instructor in the Department of Economics, Princeton University.

ORR, EDNA J., A. M., Home Economics, Kamehameha Schools, Honolulu. Formerly member of faculties at University of Nebraska, and the Ypsilanti State Normal College.
POPE, WILLIS T., Sc. D., Horticulturist, U. S. Agricultural Experiment Station, Honolulu.
B. S., Kansas Agricultural College, 1898; M. S., University of California, 1916; Sc. D., University of Hawaii, 1926.

PORTEUS, STANLEY D., Professor of Clinical Psychology; Director of the Psychological Clinic, University of Hawaii.
Lecturer Experimental Education, University of Melbourne, 1916; Research Scholar Anatomy Department, University of Melbourne, 1918; Director, Research Laboratory, Vineland, N. J., 1919-1925.

SCOTT, GEORGE G., Ph. D., Professor of Biology, College of the City of New York.
A. B., 1898; A. M., 1899, Williams; Ph. D., Columbia, 1913.

SMITH, WILLIAM A., Ph. D., Assistant Professor of Education, University of California, Southern Branch.
A. B., Willamette University; A. M., University of Washington; Ph. D., University of Chicago.

A. B., University of Hawaii, 1923; A. M., Stanford, 1927.

WEEBER, LORLE S. (MRS.), Ph. D., Psychologist, Kamehameha Schools, Honolulu; formerly Research Assistant Professor in the Iowa Child Welfare Research Station, State University of Iowa.
A. B., 1912, A. M., 1913, Bryn Mawr; Ph. D., Columbia, 1916.

WILEY, ROSS B., Ph. D., Acting Director of Education, Territorial Normal School, Honolulu.
A. B., Oklahoma City College, 1914; A. M., 1925, Ph. D., 1926, University of California.

WISE, JOHN H., Professor of Hawaiian Language, University of Hawaii.
BRIEF HISTORY OF THE UNIVERSITY

The University of Hawaii is a land grant institution receiving the usual federal support, with the larger part of its revenue, however, derived from the Territorial Government. The Institution was established in 1907 as a College of Agriculture and Mechanic Arts, and in 1920 became the University of Hawaii by an enlargement of its scope of work. The University is organized in two colleges, the College of Arts and Sciences, and the College of Applied Science. From the usual small beginning the institution has grown to a total enrollment of 1059 students for the academic year 1926-27.

PURPOSE OF THE SUMMER SESSION

For a number of years there has been an increasing demand for a Summer Session at the University of Hawaii, especially from teachers in the Territory who desire to improve themselves by advanced study at a cost more reasonable than that involved by the necessity of going to the mainland. This year (1927) a start is being attempted on the basis of a tuition fee to cover the expenses of the session. In general the work offered in the Summer Session will meet the needs of several groups of students—undergraduates who wish to take extra work or work not offered in the regular session; graduate students who are candidates for advanced degrees; teachers or school administrators who need advanced training or who are candidates for degrees; and others who for various reasons wish to take advantage of the special courses.

ADVANTAGES OF A SUMMER SESSION IN HONOLULU

The location of the University of Hawaii in Honolulu offers a unique opportunity to combine study and recreation. As compared with most places on the mainland the Summer temperature is very favorable for purposes of study, as the thermometer seldom reaches above 80 degrees, and the nights are cool and agreeable. Hawaii is justly famous for its swimming and the situation of the University makes it possible to reach the beach at Waikiki in a few minutes either by street car or automobile. The University also provides excellent recreational facilities in a swimming pool, tennis courts, etc. Week end excursions and picnics are easily arranged to scenic spots of world fame near Honolulu. In addition the opportunity is offered to hear lectures by men of International prominence who attend the Institute of Pacific Relations meeting in Honolulu in July.
EXPENSES

Registration Fee—A general registration fee of $25.00 will be charged to each student registering for the Summer Session. (In certain cases where students wish to register for only one course they will be allowed to do so at a cost of $15.00.) This applies to all students registering, whether residents of the Territory or not, and whether registering for credit or not.

Board and Room—A limited number of rooms are available in both the men’s and women’s dormitories at the rate of $20.00 for the session. Board may be obtained at the University cafeteria at the rate of $10.00 per week or $40.00 for the session. Board and room together may be obtained at the rate of $60.00 for the session. The cafeteria will be able to serve lunch to those who live off the campus at the usual rates for cafeteria meals. Those who desire rooms in the University dormitories should make reservations at the earliest possible moment. Such requests should be addressed to Mr. Gerald R. Kinnear, Treasurer of the University.

REGISTRATION

Registration will take place on Saturday, July 2, during the hours of 8 to 12 A.M., and on Tuesday, July 5, during the hours of 8 A.M. to 4 P.M. All who can do so are urged to register on Saturday, July 2. Registration will be conducted in Hawaii Hall, the University Administration building.

Credits—Students registering for university credits will be required to do the full amount of work in each course, and pass all examinations in a satisfactory manner. Six credit hours of work will ordinarily be the maximum registration.

Auditors—Any mature individual, with the approval of the Director and the instructor concerned, upon payment of the registration fee, may enroll as an auditor in the desired courses. However, in no case will such persons be allowed to take the final examination in any course or receive credit therefor.

No one will be permitted to attend courses regularly unless he is duly registered for credit or as an auditor.

ADMISSION REQUIREMENTS

Students registering for university credit in the Summer Session must meet the same entrance standards as required for the regular session. In general, these requirements will apply to four groups of students.
(a) **Graduate Students.** Graduates of institutions other than the University of Hawaii will be required to submit evidence of the satisfactory completion of the usual four year course. Such evidence will usually take the form of a transcript of record as issued by the registrar, showing the courses pursued, the character of the work done, and a statement showing that a degree has been granted. For the purposes of the Summer session, a diploma from a recognized institution will admit a student to graduate standing.

(b) **Undergraduate Students with Advanced Standing.** As in the case of graduate students, undergraduates who have done work in institutions other than the University of Hawaii must present a transcript of record showing the courses pursued, the character of the work done, and a statement of honorable dismissal.

(c) **Undergraduates Entering a University for the First Time.** High school graduates matriculating for the first time, must meet the regular university requirements governing the admission of Freshmen. This involves—

1. A satisfactory performance in the Psychological Examination given to all first year students. (Tests given in May each year.)
2. The presentation of a secondary school record showing that the candidate has completed 15 units of work in approved subjects. These 15 units must include 3 units of English and 2 of Mathematics.
3. A recommendation from the Principal, or other responsible official of the secondary school concerned, upon the official form as sent out by the university.

(d) **Unclassified Students.** Certain persons who, for various reasons, are unable to meet the above requirements, but who show evidence of being capable of profiting from university work will be allowed to register as unclassified students.

---

**NOTE:** In order to allow sufficient time for examination, all records as mentioned above should be in the hands of the Director of the Summer Session by June 20 at the latest.
DEGREES

BACCALAUREATE DEGREES

On satisfactory completion of a regular course in the College of Applied Science a student is granted the degree of Bachelor of Science (B. S.), the diploma designating the course which has been pursued. The degree of Bachelor of Arts (B. A.) is granted upon the satisfactory completion of a regular course in the College of Arts and Sciences.

The University of Hawaii will permit the substitution of the first year in an approved professional school for the fourth year of the University course; and will, upon the satisfactory completion of three years of a University course and one year in an approved professional school, grant the degree of B. S. or B. A., according to the course pursued.

Candidates presenting advanced credits from other institutions will be required to do, as a minimum, the equivalent of a year's work in residence at the University of Hawaii in order to receive a Bachelor's degree.

ADVANCED DEGREES

Special attention is directed to the unusual advantages of Hawaii for research in botany, entomology, marine zoology, and certain phases of geology. The great variations of elevation, rainfall, and temperature to be found within short distances provide remarkable conditions for ecological studies. The presence of active and extinct volcanoes, lava flows of many ages, and unique conditions of erosion provide numerous interesting geological problems. The character of the population and the geographical situation of the Hawaiian Islands make this a field of exceptional interest for work in the social sciences, especially in education, psychology, and sociology.

Advanced students from other institutions and investigators desiring to study special problems, are invited to make use of the facilities of the University of Hawaii for study and research.

The advanced degree of Master of Science (M. S.) or Master of Arts (M. A.) will be granted to Bachelors on the satisfactory completion of advanced work for which their previous education has laid the necessary foundation.

The student must also present an acceptable thesis and pass the required examinations.
The degree of Civil Engineer (C.E.) will be granted to those who have received the degree of B.S. in Civil Engineering at this institution, upon the completion of two years of practical experience in their chosen profession, the presentation of a satisfactory paper upon some topic of interest connected with their work, the completion of assigned problems, and the passing of the required examinations.

To be accepted as a candidate for an advanced degree, the applicant must be a graduate of the University of Hawaii or of some other institution of equal standing. The application should be made in writing to the Committee on Graduate Work not later than October 1 and should be accompanied by transcript of record issued by the institution from which the applicant has received his bachelor's degree. In case the amount of undergraduate work is deemed insufficient, the applicant, if accepted, may be required to take other undergraduate courses.

A full time graduate student must ordinarily work under the direction of a special committee for at least a year in residence. In certain departments of the University, four Summer sessions will be accepted in lieu of the year's residence requirement, two of which must be spent at the University of Hawaii. Thus a student may register at the University of Hawaii for the first Summer session, go somewhere else for two sessions, and then return for the fourth session and complete the residence requirement. Part time graduate students, teachers, etc., will, ordinarily, be required to offer at least two academic years of work, together with full time work in one summer vacation (preferably the intervening one) under the direction of the University of Hawaii; or to offer not less than three academic years of work, not including work in the summer vacation, before receiving a master's degree. It is expected that the work done for the master's degree will require at least 1600 actual working hours.

In general, work for the master's degrees may not be done in absentia. Graduates of the University of Hawaii, however, may be allowed to do work in absentia if the problem under investigation is of such a nature as to require it. The privilege of doing work in absentia may be granted under similar conditions to graduates of other institutions who have completed one full year of part time work or one semester of full time work at the University of Hawaii.

Work of advanced grade done at institutions other than the University of Hawaii may be accepted as fulfilling part of the requirements for the master's degrees, provided that the amount of work done at the University of Hawaii shall be equal to at least one-half of the total work required. The amount of credit
to be allowed for work done elsewhere will be determined by the Committee on Graduate Work after examination of the transcript of record of the candidate.

As a rule, lower division courses will not be accepted for credit toward the advanced degree. In general, upper division courses may be taken for credit toward the advanced degree, some for full credit, others for partial credit, the amount to be determined by the Committee on Graduate Work.

A matriculation fee of five dollars is required of all candidates for advanced degrees.

Candidates should signify their intention of continuing their candidacy by registration at the beginning of each year. Candidates enrolled in regular undergraduate classes should register at the beginning of each semester.

The advanced work may be restricted to one subject only, or to a major and a minor, or to a major and two minors; but at least one-half of the work must be in the major, and the minors must be so correlated with the major as to satisfy the Committee on Graduate Work that the candidate is working with a definite purpose.

The general subject of the thesis, together with the written approval of the chairman of the committee in charge, must be furnished to the Committee on Graduate Work not later than December 1st of the collegiate year in which the degree is to be taken.

The completed thesis must be presented to the Committee on Graduate Work at least one week before the date set for the candidate’s examination, and must win the Committee’s approval as demonstrating the candidate’s ability both to do original work and also to present the results of that work in creditable form. The thesis, accompanied by the written approval of the chairman of the candidate’s committee, will be returned for use in the examination or for binding. Before the candidate is granted a degree, a typewritten copy of the thesis on pages 8½x11 inches in size, bearing the written approval of the professor in charge of the candidacy, must be deposited in the Library as the permanent property of the University, together with a fee sufficient to pay for binding.

The examination for the degree will be conducted by the committee in charge of the candidate’s work, and may be either written or oral, or both written and oral. It shall be open to all members of the faculty. Requests for examinations should be made in writing to the Committee on Graduate Work not later than April 15, and the Committee will announce the time and place of examination not later than May 1.

SPECIAL TOURS BY MATSON NAVIGATION COMPANY

SIX WEEK TOURS—Four Weeks in Hawaii

Tour 103—Group A $164.00  
Group B $172.00  
Group C $210.00  
Group D $303.00  
Group E $395.00

SEVEN WEEK TOURS—Five Weeks in Hawaii

Tour 104—Group A $183.50  
Group B $192.50  
Group C $241.00  
Group D $356.50  
Group E $472.00

EIGHT WEEK TOURS—Six Weeks in Hawaii

Tour 105—Group A $202.50  
Group B $215.00  
Group C $272.00  
Group D $410.00  
Group E $549.00

TEN WEEK TOURS—Eight Weeks in Hawaii

Tour 106—Group A $219.00  
Group B $232.50  
Group C $298.50  
Group D $456.50  
Group E $615.00

These tours are divided into five groups: group A tours will be housed at less pretentious hotels. It should be borne in mind however that these hotels are first class in every respect. Group B tours will use cottages, accommodating four, six, eight or ten people. Full hotel service with meals will be rendered by native servants. The cuisine will be of an excellent quality. Group C tours will be accommodated at the Seaside Hotel and cottages. Group D tours will find the MOANA HOTEL worthy of the high reputation earned through many years of catering to thousands of distinguished guests. Members of group E tours stay at the new ROYAL HAWAIIAN HOTEL, considered to be the finest in the world. This distinction between the various hotels used for the members of the tours is the only one that exists. In every other respect the accommodations are the same, regardless of the price paid. To obtain the full inclusive price of the tour add the price of the steamship fare (in most cases a minimum of $110.00 each way) to the price quoted for the tours.

Summer Session

Courses of Instruction*

ART

S100. Freehand Drawing. Freehand perspective; drawing in outline and in light and shade from ornamental forms, natural objects, in pencil and charcoal; composition; memory sketching. 2 credits  
Mr. Aden.

S280. Some Comparisons of Eastern and Western Art. Chief characteristics of the Great Periods of Chinese Classical Art; Chinese influence in Japan; Japan's individual development; some study of eminent Japanese artists; the influence of the Orient on modern art. 2 credits.  
Mrs. Cox.

BOTANY

S250. Fruits and Flowers of Hawaii. This course will deal with the principal fruits and flowers of Hawaii such as the Banana, Avocado, Papaya, Breadfruit, Guava, Pohal; the various nuts, Hibiscus, Begonias, Amaryllis, Lillies, etc. Lectures, field excursions, and laboratory demonstrations. 2 credits.  
Dr. Pope.

ECONOMICS

S150. Elements of Economics. An introductory course covering production; consumption; value and price; business organization and distribution. 2 credits.  
Mr. Nylander.

EDUCATION

S250. Educational Measurements. A study of the construction and practical application of the standardized tests in the various fields, and a critical evaluation of their uses for the administrator, supervisor, and classroom teacher. Practice in the scoring of papers and the tabulating of results. Simple graphical and statistical methods introduced and developed as needed. 2 credits.  
Mr. Spencer.

*NOTE: Other courses may be organized where there is sufficient demand at the time of registration. Also the University reserves the right to withdraw certain courses in case the registration is insufficient.
S251. PRINCIPLES OF SECONDARY EDUCATION. The sociological and psychological principles fundamental to the present organization, administration, and selection of subject matter of the secondary school. The nature of the adolescent; the objectives of secondary education; junior and senior high school organization and relations; curriculum organization of the secondary school; and adapting secondary instruction to individual differences are some of the major topics considered.

2 credits.  
Professor Livesay.

S252. PRINCIPLES OF TEACHING. A treatment of the application of psychological principles to classroom procedure. Consideration will be given to such problems as pupil diagnosis; motivation; lesson planning; discipline; teaching pupils to think; testing; classroom economy; and supervised study.

2 credits.  
Mr. Spencer.

S254. PHILOSOPHY OF EDUCATION. It will be the aim of this course to develop a set of basic beliefs concerning the school, methods of teaching, and the curriculum, which will furnish reliable guidance for thought and practice in education.

2 credits.  
Dr. Wiley.

S255. THE ADMINISTRATION OF PUBLIC EDUCATION IN THE UNITED STATES. This course will deal with the administration of education through federal, state, and county agencies. Topics to be considered are: the inter-relations of functions of these agencies; support of education by the federal government; the evolution and present status of administrative units; modern methods of financing public schools; the state in relation to the training and certification of teachers; and the state in relation to the child.

2 credits.  
Dr. Kemp.

S256. THE JUNIOR HIGH SCHOOL CURRICULUM. This course will deal in a critical and constructive manner with the selection and arrangement of materials for junior high school courses of study, and with the organization of appropriate curricula.

2 credits.  
Dr. Smith.

S257. VOCATIONAL EDUCATION AND GUIDANCE. This course will deal with some of the problems pertaining to vocational education and vocational guidance in the public schools. The aims of pre-vocational and vocational education will be discussed and a study will be made of trade, agricultural, evening, part-time and other types of schools used for such education.

Considerable attention will be given to various phases of vocational guidance and an attempt made to plan some guidance work which may be effectively given in the schools of Hawaii.

2 credits.  
Mr. Cozen.
ENGLISH

S230. Contemporary Literature. An examination of the ideas and attitudes of recent writers in English regarding the meaning and significance of life. A considerable number of poems, novels, and plays will be read and discussed with attention directed to the criticism of life presented rather than to form and style. Though no effort will be made to trace "influences," frequent comparisons will be made to the views of earlier English and American writers. 2 credits.

HAWAIIAN

S100. Hawaiian Language. On account of the unevenness in background of students of Hawaiian this course will provide for both beginning and advanced students. Beginning students will cover use of articles, simple prepositions, nouns, verbs, adjectives, pronouns, personal pronouns, and have practice in sentence building and easy translation. More advanced students will study pronouns, personal pronouns, syntax, sentence building, and more difficult translation.

2 credits. Professor Wise.

HISTORY

S176. History of the Hawaiian Islands. A general course covering the history of the Hawaiian people since the discovery by Europeans—with preliminary lectures on earlier Hawaiian culture—to the present day. Political, industrial, and racial development will be especially stressed.

2 credits. Professor Leebrick and Mr. Kuykendall.

S254. The Teaching of History. A course intended for teachers of history and civics. A study will be made of teaching methods and of the content of courses now offered. A number of selected texts will be analyzed, and some time will be given to the problem of teaching Hawaiian history.

2 credits. Professor Leebrick.

S261. Recent European History. A study of the history of Europe from 1890 to the present time, the background of the World War, its conduct and effects, and an analysis of the present situation in European states will be stressed.

2 credits. Professor Leebrick.
S291. CHINESE CIVILIZATION. This course will consider such topics as the origin of the Chinese people; the development of Chinese culture; some social habits and customs; sports and amusements; economic life; marriage laws and customs; the family system; political, educational, and religious institutions; and China's contribution to the World. Lectures and assigned readings. 2 credits. Professor Lee.

HOUSEHOLD ART

S101. DRESSMAKING AND DESIGNING. This course gives practical training in the application of line, dark and light, color harmony, and texture to costumes for different individuals and purposes. Drafting of patterns is taught. All designing is done by modeling on dress forms. Original work is required. Lectures, discussions and laboratory work. Prerequisites (if credit is desired): Art 100, and H. A. 100; prerequisite or parallel: Art 110. Fee $3.50. 2 credits. Assistant Professor Dahl.

S200. MILLINERY. The construction and trimming of hats, beginning with the use of foundation materials; making of wire and willow frames; copying from models and pictures; original designs. Fee $3.50. 2 credits. Assistant Professor Dahl.

HOUSEHOLD SCIENCE

S152. FEEDING THE FAMILY. A study of meal planning with regard to cost and suitability. A typical family with young children from two to sixteen years and adults of various ages will be the unit for which meals will be planned and executed. Three lectures and two laboratories per week. Fee $2.00. 2 credits. Miss Orr.

PHYSICAL EDUCATION

S274. PHYSICAL EDUCATION FOR MEN. This course will deal with football, basketball, baseball, track, mass games, and play supervision. Particular attention will be given to individual differences in reaction to athletic situations in view of the situation in Hawaii. 2 credits. Coach Klu"n.

S254. PHYSICAL EDUCATION FOR WOMEN. This course will be concerned with games of low organization and with team games. Relay, file, opposed line, circle games, basketball, volleyball, and baseball. 2 credits. Miss Gay.
POLITICAL SCIENCE

S254. INTERNATIONAL RELATIONS. A general survey of international organizations, including the League of Nations and the Permanent Court of International Justice, and of the manner in which international relations are conducted. Current problems will be studied and interpreted.

2 credits. Professor Leebriak, Dr. Lum and special lecturers.

PSYCHOLOGY

S250. PSYCHOLOGY FOR TEACHERS. The aim of this course will be to show what psychological principles are fundamental to modern classroom procedure. Consideration will be given to such topics as native endowment, individual differences, habit formation, the role of instincts in education, the influence of nurture, transfer of training, etc.

2 credits. Professor Livesay.

S252. RACIAL PSYCHOLOGY. This course will deal primarily with comparisons of the educational, social, mental, and industrial status of the various racial groups in Hawaii. The subject matter of these lectures will be taken from investigations already completed or in progress which relate to the reality and nature of racial differences as influenced by heredity and environment.

2 credits. Professor Porteus.

S253. MENTAL MEASUREMENTS. A survey of the place of mental measurement in education, its use in classifying pupils, and in diagnosing, and teaching, together with demonstrations in the use of standard tests. 2 credits. Dr. Weeber.

ZOOLOGY

S200. MARINE ECOLOGY. A study of the relationship of marine organisms to their environment. Life associations will be observed on a coral reef, and the responses of animals to various stimuli in their surroundings will be tested. Lectures, laboratory and field work. Fee $2.00.

2 credits. Dr. Scott.

**Advance Registration Blank**

*(Fill out and mail to Director, Summer Session, University of Hawaii, Honolulu, T. H.)*

High schools attended, with dates of attendance and graduation.

Normal Schools, colleges or Universities attended, with date of attendance; also dates of graduation and degrees, if any.

Indicate courses *in which you wish to enroll for the coming Summer Session—by Departments and number, e. g. Education S250.*

Name

(.Last name) (First name) (Middle name)

Mail Address

*Three courses will ordinarily be the maximum registration allowed.
