THE UNIVERSITY OF HAWAII is located in Honolulu, on the island of Oahu. Established in 1907, the University became a State University in 1959 when Hawaii joined the Union as the fiftieth state. It is a federal land-grant institution, sharing in benefits from the Second Morrill Act of 1890, the Nelson Amendment of 1907, and subsequent legislation. The University has seven colleges: the College of Arts and Sciences, the College of Business Administration, the College of Education, the College of Engineering, the College of General Studies, the College of Nursing, and the College of Tropical Agriculture.

In addition to the bachelor's degree, the University offers graduate work leading to the master's degree in agricultural economics, agricultural engineering, agronomy, animal science, anthropology, art, Asian studies, biochemistry, botany, business administration, chemistry, civil engineering, drama and theatre, economics, education, electrical engineering, English, entomology, food science, French, geology, genetics, geography, government, history, horticulture, Japanese, mathematics, meteorology, microbiology, music, nutrition, overseas operations, Pacific Islands studies, philosophy, physics, poultry science, psychology, social work, sociology, soil science, speech, teaching of English as a second language, and zoology; and to the Ph.D. degree in biochemistry, botany (limited to specialization in plant physiology), chemistry, entomology, genetics, history (limited to specializations in history of Eastern Asia and of the Pacific), psychology, soil science, and zoology. There are over 500 instructional faculty members and many staff members engaged in full-time research.

The University of Hawaii is accredited by the Western College Association. Its classes are open to all academically qualified men and women, regardless of race, nationality, or religion. It has chapters of the national honor societies Phi Beta Kappa (liberal arts and sciences), Phi Kappa Phi (general scholarship), Sigma Xi (sciences), Pi Gamma Mu (social sciences), Phi Delta Kappa (education), Sigma Pi Sigma (physics), Omicron Delta Kappa (scholarship and leadership in activities), Chi Epsilon (civil engineering), and Delta Sigma Rho (forensics).

LIBRARY. The University Library, named after Gregg M. Sinclair, contains over 332,000 bound volumes and over 851,000 unbound pieces; and subscribes to 4,589 current periodicals and other continuations. Besides a well-rounded general collection, there are the following special collections: Government Publications, Teachers College Collection, Maps and Microfilm, the Hawaiian Collection, and the Oriental Collection with more than 91,000 volumes in Chinese, Japanese, and Korean. The reference and general reading room contains about 14,623 reference books and the current numbers of 1,914 periodicals and mainland newspapers. The Library is exceptionally strong in materials relating to the Far East and to the Pacific Ocean area.
ADMISSION. Persons wishing to take courses for credit must present satisfactory evidence of ability to do university work. Graduate and undergraduate students in good standing at colleges or universities other than the University of Hawaii may submit either a transcript of their college records or a special printed certificate properly filled out by the Registrar or Dean of their institution. Copies of this certificate may be obtained from the office of the Dean of Summer Session. One is enclosed with each Summer Session catalogue sent to a person outside Hawaii. High school graduates who have been accepted for matriculation in an accredited college or university may submit the aforementioned certificate. Teachers in service may have the certificate signed and their degrees verified by their superintendent or comparable supervising official.

AUDITORS. Mature persons who wish to attend certain classes regularly, without taking examinations or receiving grades or credit, may do so by registering as auditors and paying the regular tuition fees. Auditors are not permitted to participate in class discussions or recitations or to use laboratory or studio equipment and materials. They are not subject to late registration fees. For the schedule of refunds, see Refunds.

VISITORS' TICKETS. Since the summer session provides an opportunity to hear classroom lectures given by many distinguished professors in various fields, Visitors' Tickets are available to adults who would like to visit different, unspecified lecture classes without examination or credit. These tickets may be purchased for $40.00 at the business office. The Visitor's Ticket must be shown upon demand and entitles the bearer to attend any classroom lecture if there is an available seat, except certain classes specifically designated for Institute members. Visitors are not to participate in classroom discussions or recitations or examinations, or to use laboratory or studio equipment and materials. A visitor's ticket may be cancelled, without refund, if these conditions are violated.

VETERANS. The University of Hawaii is authorized to enroll veterans under Public Laws 550, 634, and 894. Students registering for the first time under these Laws should bring with them their Certificate for Education and Training.

SCHEDULE CHANGES. The University reserves the right to make changes in faculty assignments and in time schedules, to cancel any course that does not draw adequate registration, and to set maximum limits for enrollment in certain classes. A final mimeographed schedule of courses, including changes made after the publication of the catalogue, will be available at registration time.
STUDENT PROGRAMS. Undergraduate students in the six-week summer session are ordinarily limited to a maximum program of six credit hours. In exceptional cases, seven credit hours may be carried if approved by the appropriate college dean or by the Dean of Summer Session. Eight credit hours may be carried only if the student needs that number to complete his requirements for a bachelor's degree or a certificate, and only upon the approval of his college dean or of the Dean of Summer Session. During the postsession, student programs are limited to four credit hours. Courses being taken concurrently in the College of General Studies are included in computation of total credits carried.

Undergraduate students are urged to consult their departmental chairman prior to registration time for advice as to their summer courses. Faculty advisers will be available on registration day, June 25, as indicated in the registration instructions that will be issued to students on that day.

Students taking the intensive five-week courses in language, history, and business are advised not to register for more than one or two additional credits without first consulting their instructors.

Graduate students may carry seven credits during the six-week session. The approval of the Dean of the Graduate School is necessary for any heavier course load. The Graduate School Bulletin lists courses acceptable for graduate credit.

REGISTRATION. Registration for the six-week summer session and the first five-week term will take place on Monday, June 25, between 7:45 a.m. and 4:00 p.m. Students are to go to Rooms 150 and 152 in Bilger Hall where they will be issued registration materials according to the following time schedules: those whose last names begin with the letters N through S, at or after 7:45 a.m.; T through Z, at or after 9:30 a.m.; A through E, at or after 11:15 a.m.; F through J, at or after 1:00 p.m.; and K through M at or after 2:45 p.m.

Registration procedures will be detailed in printed instructions distributed to students at the foregoing times. After finally submitting all required forms and cards to the Records Office in Bachman Hall on Monday, June 25, students may either wait for their fee slips and pay their fees at the Business Office on the same day or come back to do so on the following day. If fees are not paid by these students before 4:00 p.m. on Tuesday, June 26, however, the late registration fee of $5.00 will be assessed. Students who pay their fees by check will be assessed the late registration fee of $5.00 if the check is not honored by the bank concerned. (See Tuition and Fees.)

Students registering for the second five-week term will be issued the requisite materials at the Records Office in Bachman Hall between 10:00 a.m. and 11:30 a.m. on Monday, July 30, without alphabetical time groupings.

Registration for the postsession will take place on Friday, August 3, between 1:00 p.m. and 4:00 p.m. Students will be issued registration materials at the Records Office in Bachman Hall without alphabetical time groupings.

LATE REGISTRATION. On June 26 and June 27, students may register for six-week or five-week courses only with the consent of the appropriate dean; and on June 28 and June 29 only with the approval of both the dean and the instructor concerned. From July 2, students may not register for credit but may
be admitted as auditors with the consent of the Dean of Summer Session.

During the second five-week term, late registration will be permitted on July 31 and August 1 only with the approval of the appropriate dean, and on August 2 and August 3 only with the approval of both the dean and the instructor concerned. From August 6, students may not register for credit, but may be admitted as auditors with the consent of the Dean of Summer Session.

During the postsession, late registration will be permitted on August 6 and August 7 only with the approval of the Dean of Summer Session and the instructor concerned. From August 8, students may not register for credit but may be admitted as auditors with the consent of the Dean of Summer Session.

For courses starting at other times, late registration and other rules will be set by the Dean of Summer Session, in general accordance with the patterns for the six-week summer session.

TUITION AND FEES. The registration fee is $5.00. The tuition fee is $10.00 per credit hour and must be paid by all persons who register for courses either for credit or as auditors. There is no additional charge for nonresidents. Laboratory and other fees are charged for certain courses, as stated in this catalogue or in the mimeographed schedule of courses issued at registration time. An activity-and-health fee of $2.00 must be paid by all students taking courses that begin on or before July 9, 1962.

A student's registration is not complete until all fees have been paid, and will be automatically cancelled if all fees are not paid by 4:00 p.m. of the day following his submission of registration cards. A penalty fee of $5.00 will be charged any student who does not complete his registration on time and any student who applies for registration between June 27 and June 29, the period during which late registration for credit may be permitted. The late registration fee of $5.00 will also be charged for the second five-week term on July 31–August 3, and for the postsession on August 6–7. There is a charge of $2.00 for any change in registration after the initial registration unless waived for good cause by a college dean or the Dean of Summer Session. Fines for violating campus parking rules and library fines must be paid promptly. Students are expected to learn the parking and library rules.

REFUNDS. A student in good standing who withdraws from courses in the six-week summer session or the first five-week term may obtain a 60 per cent refund of tuition and laboratory fees until 4:00 p.m. Thursday, June 28, and a 20 per cent refund thereafter until 4:00 p.m. Tuesday, July 3. After July 3, no refunds will be made.

During the second five-week term a student may obtain a 60 per cent refund until 4:00 p.m. Thursday, August 2, and a 20 per cent refund thereafter until 4:00 p.m. Tuesday, August 7, after which there will be no refunds.

During the postsession a student may obtain a 60 per cent refund until 4:00 p.m. Wednesday, August 8, and a 20 per cent refund thereafter until 4:00 p.m. Friday, August 10, after which there will be no refunds.

No part of the $2.00 activity-and-health fee, the $5.00 registration fee, or the $40.00 Visitor's Ticket is subject to refund.
PERSONAL CHECKS. Personal checks will be accepted for payment of summer session tuition and fees only when the amount of the check does not exceed the amount due from the student. Students who pay their fees by check will be assessed the late registration fee of $5.00 if the check is not honored by the bank concerned.

GRADES AND EXAMINATIONS. Final examinations are given in all courses unless other methods of grading are authorized by the Dean of Summer Session. The final examination is given at the last scheduled meeting of the class. Unless satisfactory arrangements have been made with the instructor in advance, absence from the final examination will be counted as "0" (zero) in computing the grade for the course. Students must complete all the work and examinations required by their instructors, attend classes regularly until the end of each course, and hand in all assignments by that time. No part of the work may be continued beyond the end of the session or term.

The grading system is the same as in the regular sessions: A, excellent; B, good; C, fair; D, barely passing; F, failure. The grade "I" (incomplete) is not normally used in summer session.

WITHDRAWALS. To withdraw from a course a student must obtain a withdrawal form at the appropriate dean's office and have it properly filled with all necessary signatures. The effective date of withdrawal is the date recorded by the Business Office. A student who stops attending a course without going through the foregoing procedure receives an F (failure) in the course. During the first five days of instruction in any session or term a formal withdrawal is marked W on the student's record. Thereafter, and prior to the last five days of instruction in the session or term, a formal withdrawal is marked W if the student's work was of passing grade; otherwise it is marked F. No withdrawals from courses are permitted during the last five days of instruction.

TRANSCRIPTS. A student who requests the Office of Admissions and Records to send a transcript of his work to another institution is not required to pay for the first copy but is charged $1.00 for each subsequent copy. If a student's records indicate an indebtedness to the University, such as unpaid library or parking fines and the like, his transcript will carry the following notation: "Denied further registration. See Discipline file."

SCHOLARSHIPS. Except for fellowships offered by the various summer institutes (see pp. 17–19), no scholarship is available during the summer session.
COURSES ON ASIA AND THE PACIFIC. In addition to standard courses comparable to those given at other American universities, there are many distinctive offerings not generally available elsewhere. In the field of Asian and Pacific studies, for instance, the following courses are being offered:

- American Studies: Honolulu: A Perspective on American Civilization.
- Anthropology: Peoples of the South Seas; the Ryukyus; Folk Literature of the Far East.
- Art: Arts of the Pacific; Elements of Chinese Brush Painting; Chinese Painting.
- Asian Studies: Institute on Asian Studies; Study Tour of the Orient.
- Asian and Pacific Languages: Chinese; Hawaiian; Indonesian; Japanese; Korean; Sanskrit; Thai.
- Education: Comparative Education: Southeast Asia; Workshop: International Education, Japan.
- English: Literature of the Pacific.
- Geography: Geography of the Pacific Islands.
- History: Maritime History of China Prior to 1600; Diplomatic History of China Since 1842; Southeast Asia; Cultural History of China; History of Thought in Japan; Japan Since 1868; India, Pakistan, and Ceylon; Cultural History of Central Asia; the United States in the Pacific; History of the Hawaiian Islands.
- Home Economics: Costumes of Asia; Foods of the Pacific.
- Philosophy: Introduction to Indian Philosophy; The Vedanta Philosophy; Zen Buddhist Philosophy; Contemporary Asian Thought.
- Religion: The Living Religions of Hawaii; Asian Contributions to Christian Theology.
- Science: Geology and Volcanoes of the Hawaiian Islands.
- Sociology: Community Forces in Hawaii; People and Institutions of China; People and Institutions of Japan; Race Relations in the Pacific; Hawaii and Its People.

INSTITUTE ON ASIAN STUDIES. The success of previous Summer Institutes in 1959, 1960, and 1961 has shown clearly the wide interest in Asia that has developed in recent years. Since many persons whose professional calling makes it desirable for them to respond to this new field of study have available only the summer to do so, an intensive course has proven the most effective answer to this need. The Fourth Summer Institute on Asian Studies will feature a program for teachers, military and civilian government service people, journal-
ists, and business people as well as regular graduate students wishing a general introduction to the life, customs, and institutions of Asia. Candidates should be graduates of a four-year college or university, or, with special permission, persons of such experience and/or special interests as to constitute equivalent preparation, or students of senior standing in college.

In association with the Fourth Summer Institute on Asian Studies, the East-West Center is offering 102 scholarships. Insofar as available and qualified applicants warrant, two of these will be awarded in each of the fifty states of the Union and Washington, D. C. The awards will cover full tuition expenses as well as $100 to be given to each scholarship holder at registration time to help defray travel expenses. Scholarship awards will be made to elementary, high school, and college in-service teachers, and school administrators as well as librarians.

The 1962 Institute will have the same general format as in previous years including a lecture series, panel discussions, special programs of lecture-demonstrations, music and dance as well as Asian films, informal Asian dinners and opportunities for informal discussions with persons of special competence in the areas of interest. Among the participants in 1962 will be: Dr. Wing-tsit Chan, professor of philosophy at Dartmouth College; Dr. William P. Lebra, assistant professor of anthropology at the University of Pittsburgh and East-West Center Senior Scholar; Professor Chia-Pin Liang, professor of history at Tunghai University, in Taiwan; Dr. Lawrence Olson, member of the American Universities Field Staff; Dr. S. K. Saksena, professor of philosophy at the University of Hawaii and former head of the department of philosophy and psychology at the University of Saugar, in India; Mr. R. Calvin Scollon, Executive Secretary, Pacific and Asian Affairs Council; and Dr. Keizo Yoneyama, professor of sociology at Keio University, in Japan.

Membership fee is $80.00. This covers tuition for six credits, the registration fee, the activity-and-health fee, printed materials, field trips, Asian dinners, and other special programs. Persons desiring to enroll in the Institute should write at once to the Director, Dr. John A. White, University of Hawaii, Honolulu 14, Hawaii. The applications are due by April 1, 1962, for East-West Center Scholarships and, for others, by June 1, 1962.

INSTITUTE OF AMERICAN STUDIES. Many secondary school teachers in the fields of history, social studies, and literature have felt a need for renewed study of the American past, in order to refresh their recollections, keep abreast of new findings, and achieve greater insight into the meaning for our times of the American experience. An intensive summer institute for twenty teachers was held in 1961 and proved successful. With the continuing financial support of the Coe Foundation, 25 fellowships carrying stipends of $300 each will be awarded to qualified applicants for the Second Summer Institute of American Studies.

The central theme for the Second Summer Institute will be: The American Response to Industrialism. Fellows will be required to elect one of two alternative graduate seminars, one dealing with the social and cultural response to the problems of industrial society, the other with the political and economic response.
For the two basic courses to be given in this Institute, see page 51. Application blanks may be obtained by writing to the Director, Dr. Herbert F. Margulies, Department of History, University of Hawaii, Honolulu 14, Hawaii.

INSTITUTE FOR SCIENCE AND MATHEMATICS TEACHERS. The present crisis in science has been dramatically highlighted by recent events on the international scene. The important role of secondary school teachers in motivating our young people to choose scientific and mathematical careers has been recognized. To assist teachers in fulfilling this role, and improving their subject matter competence, the National Science Foundation has made a grant to the University of Hawaii to conduct a Summer Institute. The director of the Institute is Dr. Harry Zeitlin, Associate Professor of Chemistry.

INSTITUTE IN RADIATION BIOLOGY FOR HIGH SCHOOL AND COLLEGE TEACHERS. A Summer Institute for a maximum of twenty teachers will be held on campus, under grants from the U.S. Atomic Energy Commission and the National Science Foundation. Among other objectives, this Institute will seek to improve the subject-matter competence of the enrollees in their biology classes, particularly in the techniques and applications of isotopes in biological materials. For the three basic courses to be given in the Institute, see page 52. The Director of the Institute is Dr. Sidney C. Hsiao, Professor of Zoology.

COUNSELING AND GUIDANCE TRAINING INSTITUTE. There is a general need for upgrading the quality of counseling in the secondary schools in Hawaii, especially with regard to counseling able students. In order to meet this need, a Summer Institute is being conducted under a National Defense Education Act contract. For the basic course to be given in the Institute, see page 52. The Director of the Institute is Dr. Francis E. Clark, Professor of Education. Deadline for application is March 1, 1962.

STUDY TOUR TO THE ORIENT. June 28–August 14. A tour of the Orient, preceded by a week of campus lectures and other programs, will be offered during the summer, with Dr. Robert B. Stauffer, Associate Professor of Government, as educational director (see Asian Studies S 620). Dr. Stauffer has taught courses in Far Eastern Politics. The tour includes Japan, Okinawa, Taiwan, Philippines, Thailand, Malaya (including Penang and Kuala Lumpur), Singapore, and Hong Kong (including Macao). Travel arrangements will be handled by Mrs. Ruth Rittmeister, manager of the International Travel Service of Honolulu. Inquiries about the Orient Tour should be directed to Dr. Robert B. Stauffer, University of Hawaii, Honolulu 14, Hawaii.

STUDY TOUR TO EUROPE. June 25–August 5. A tour of Europe, preceded by a week of campus lectures and other programs, will be offered during the summer, with Dr. Carleton Green, Professor of English, as educational director (see European Studies S 620). Dr. Green has taught courses in English and European Literature. The tour includes Holland, Denmark, Germany, Austria, Italy, Switzerland, France, and England. Travel arrangements will be handled by Mrs. Ruth Rittmeister, manager of the International Travel Service of Honolulu.
Inquiries about the European Tour should be addressed to Dr. Carleton Green, University of Hawaii, Honolulu 14; Hawaii.

SUMMER WORKSHOP IN INTERNATIONAL EDUCATION: JAPAN. June 22–August 4. A summer workshop in international education will be offered to students, teachers, and professional people interested in gaining a first-hand experience in depth of Japanese education and culture, with Dr. Ronald S. Anderson, Professor of Education, University of Hawaii, and Dr. Claude A. Eggertsen, Professor of Education, University of Michigan, as workshop leaders (see Education S 763). The workshop will make its headquarters on the campus of the International Christian University at Mitaka, Tokyo, in the heartland of Japan. Weekends can be devoted to sightseeing at such picturesque spots as Nikko, Kamakura, and the five lakes of Fujiyama, all within easy travelling distance of the campus. Travel arrangements will be handled by Mrs. Ruth Rittmeister, manager of the International Travel Service of Honolulu. Inquiries about the workshop should be directed to Dr. Ronald S. Anderson, University of Hawaii, Honolulu 14, Hawaii.

EXTRACURRICULAR ACTIVITIES

UNIVERSITY PROGRAM. An extensive program of educational and recreational extracurricular events is sponsored by the University in conjunction with the summer session. The program includes evening public lectures by some of the visiting professors and the annual summer play. Other popular features of the program have been guided tours of the cosmopolitan city of Honolulu, and of Oriental temples and shrines, the Bishop Museum, the great naval base at Pearl Harbor, a sugar plantation and its mill, and a pineapple field and cannery. Perennial favorites have been craft sessions in lauhala weaving, flower arrangement, and the making of coconut hats, zabuton cushions, leis, and seed jewelry; glass-bottom boat rides over the Coral Gardens of Kaneohe Bay; catamaran rides off the beach at Waikiki; evening programs of Hawaiian legends and dances; an International Night program of the costumes, dances and music of old Hawaii, China, Japan, Korea, and the Philippines; and a social Aloha Dance. Coffee Hours also have been sponsored. Details of the summer program for 1962 will be printed in Summer Salute, a special publication distributed at the beginning of the summer session.

ACTIVITY AND HEALTH FEE. A fee of $2.00 is charged all students registered in the six-week summer session or the first five-week term.

A Summer Session Activity Cards entitle students to attend or participate in the various extracurricular events sponsored by the University, as described in the foregoing section. For certain trips an additional fee is charged to help defray the cost of transportation and lunches. Activity Cards may be purchased, upon approval of the Director of Student Activities, by summer session faculty members and by spouses or children (over 18 years of age) of these faculty members or of summer session students.
B. The Student Health Service is available at the campus dispensary where two graduate nurses and a half-time physician will be on duty to help students with medical and/or health problems. Services will be available from 7:45 a.m. to 4:30 p.m. daily Monday through Friday. Physical examinations which are required for participation in certain physical education classes are provided by the Health Service at no additional cost to the student. The Health Service also provides medical care for minor illnesses and accidents, first-aid care for emergency cases, other examinations as indicated, and any health counselling that is needed or desired. The Student Health Service is an out-patient clinic service only. There are no provisions for hospitalization or bed care. Any student who needs medical attention beyond that which the University can reasonably give should make his own arrangements with a private physician.

HEMENWAY HALL. Hemenway Hall, the college union building, is available each morning, Monday through Friday. Its services include daily Carnegie Concerts, current periodicals and local newspapers, table games and ping-pong. Lounges and meeting rooms, a barbershop, and the University cafeteria are also located in this building. A snack bar is available in an adjoining building.

SUMMER PLAY. The University Summer Theatre will present, on July 27, 28, and August 3, 4, Federico Garcia Lorca's dance-drama Yerma. Premiered in 1934, Yerma is one of the most unusual and interesting of the famous Spanish poet-playwright's works.

Tryouts for the production will be held in Farrington Hall on Monday and Tuesday, June 25 and 26, from 2 to 4 p.m. All students are eligible and may, if desired, receive academic credit for participation by registering for Theatre Workshop (Drama S 250).

Summer Session students are admitted free to the performances upon presentation of their activities cards. Seating will be reserved; curtain time for all performances will be 8:30 p.m. The play will be performed at Farrington Hall and the box office will be open for sales and reservations on Monday, July 23.

OF INTEREST TO VISITORS. Honolulu is a cosmopolitan metropolis of over 400,000 people representing nearly all parts of the world. The numerous shops offering exotic wares from everywhere, the quaint atmosphere of Chinatown, the lovely residential districts, and the beach areas with their sand, surfboards, and catamarans are always of special interest to visitors. In Honolulu are the famed Bernice P. Bishop Museum, the Honolulu Academy of Arts, the Queen Emma Museum, and the only erstwhile royal palace on American soil, Iolani Palace. There are various Buddhist, Shinto, Confucian, and Taoist temples and shrines that are favorites with picture-taking visitors.

There is a wide variety of restaurants featuring Hawaiian, Oriental, Latin American, and European cuisines. There are many movie theatres, including drive-ins, three television and thirteen radio stations, free public concerts by the Royal Hawaiian Band, open air exhibits of their paintings by local artists, botanical gardens and arboretums, the extensive Honolulu Zoo, the Aquarium at Waikiki Beach operated by the University, and other attractions to suit diverse tastes.
HOUSING INFORMATION

CRITICAL SHORTAGE. Admission to the University is made without reference to the availability of housing. Shortage of suitable accommodations for students is, indeed, a major problem. The University of Hawaii is largely a nonresident campus. It has dormitory accommodations for only 80 men and 284 women in the 1962 summer session. It is in a crowded and growing metropolis with much competition for housing from service personnel and their dependents, tourists and local residents, as well as students. It does not have any appreciable number of large rooming or boarding houses or apartments nearby. Rooms available to students are scattered throughout Honolulu and only a few are within walking distance of the campus. These rooms are neither inspected nor supervised by the University.

CAMPUS HOUSING. To be eligible for any University of Hawaii Residence Hall, a student must be registered for at least three credits in lecture courses. (Courses audited and certain applied courses do not meet this requirement.)

Facilities and costs:
- Frear Hall: for undergraduate and graduate women under 25 years of age. Capacity: 144 in double rooms. $80.00 per occupant for the session.
- John A. Johnson Hall, Building B (during summer session only): for graduate women over 25 years of age. Capacity: 116 in double rooms. $80.00 per occupant for the session.
- Hale Laulima: for graduate women over 45 years of age. Capacity: 18 single, 3 double rooms. Single, $120.00; double, $80.00 per occupant, for the session.
- John A. Johnson Hall, Building A: for undergraduate and graduate men. Capacity: 80 in double rooms. $80.00 per occupant for the session.

Request for application blanks should be addressed to the Director of Student Residences, 126 Bachman Hall, University of Hawaii, Honolulu 14, Hawaii.

None of the residence halls provides food service of any type. See information on "Meals" below.

There are no facilities on campus for married students.

Dormitory facilities are not available during the postsession.

OFF-CAMPUS HOUSING. The Office of Off-Campus Housing in Bachman Hall maintains an information file on rooming houses, rooms in private homes and occasional apartments but does not mail out any of this information. It gives all possible assistance in locating suitable accommodations after the student arrives. Negotiations with off-campus landlords must be handled directly by the student. But students arriving in Honolulu without housing reservations are invited to come to the Office of Off-Campus Housing for general information and current listings of available accommodations.

Women Students: Most landlords seem to prefer to rent to men students, feeling perhaps that fewer responsibilities are involved. Most women students, 18 to 35, have had to turn to apartments listed in the want-ads of local papers. For women
students over 35, there are some listings of rooms in private homes and apart­
ments to share with others; rates in such apartments are usually $65.00 per
person per month and up.

Men Students: The Y.M.C.A. operates a dormitory for men adjacent to the
University campus. For information, write to the Director, Charles Atherton
House, 1810 University Avenue, Honolulu 14, Hawaii.

The scarcity of available apartments that is experienced during the academic
year is more acute during the summer because of the six-month leases required
by many landlords. Very few nonluxury apartments have silver, linen, and china.

Students who want apartment-type accommodations should be prepared to pay
a minimum of $20 per person per week, in groups of at least two, usually three
or four. Rooms in private homes range between $35.00 and $50.00 per person
per month. There are occasional listings for less, but these are "few and far
between."

The foregoing does not apply to the Waikiki area where hotel rates prevail;
the minimum daily rates are $5.00 each in a double; $6.00 in a single. Actually,
most rooms are at least $6.00 to $7.50 per person in a double.

Inquiries concerning hotels should be directed to the Hawaii Hotel Associa­
tion, 2051 Kalakaua Avenue, Honolulu, Hawaii. Their service is information only,
which includes such items as type of accommodation, cost, location, etc.

MEALS. The University cafeteria serves breakfast, lunch and dinner, Monday
through Saturday, not including holidays. The average cost is $2.80 per day.
Students take meals on Sundays and holidays at restaurants in the vicinity of the
University or in Waikiki or downtown Honolulu. Meal hours at the University
cafeteria are as follows: 7:00-7:30 light breakfast (coffee, rolls, juice); 7:30-8:30
breakfast; 11:00-1:15 lunch; 5:15-6:15 dinner.

ADDITIONAL INFORMATION

TRANSPORTATION. Air service on regular schedules between continental
United States and Hawaii is provided by United Air Lines, Pan-American World
Airways, and Northwest Air Lines. Canada and Hawaii are linked by Canadian
Pacific Air Lines and Qantas Airways. Steamship service is provided by Matson
Navigation Company and the American President Lines, among others.

The University is located on a Honolulu Rapid Transit bus line that can
take one to the center of town. There are connecting bus lines to the Waikiki
Beach area. Fares are five tickets for $1.00, or 25¢ cash. During the period of
the summer session, special shuttle bus service between the University and
the Waikiki district is available at certain hours.

The major outer islands, Hawaii, Maui, and Kauai, are easily reached by
Aloha Airlines and Hawaiian Airlines which have many daily flights.

STUDY TOURS TO HAWAII. Each year, various travel agencies bring
to Hawaii many hundreds of students whom they have enrolled as members
of their study or tour groups. One or two of these agencies have resorted to
promotional advertising that seems to imply some official connection with the University of Hawaii. However, NO TRAVEL AGENCY OR PERSON HAS EVER BEEN AUTHORIZED TO REPRESENT THE UNIVERSITY OF HAWAII IN RECRUITING STUDENTS FOR TOURS TO HAWAII. Furthermore, no travel agency operates on or from the university campus. It should be understood, of course, that the University of Hawaii welcomes all qualified students, whether they come by themselves or in organized groups, and that no special treatment is accorded anyone because of membership in a tour group. The University of Hawaii acknowledges with pleasure the fact that the International Travel Service of Honolulu, through its manager, Mrs. Ruth Rittmeister, has arranged certain overseas study tours at the request of the summer session office, in each case starting from the campus and with a member of our resident faculty in charge.

DRIVERS' LICENSES. Mainland visitors with valid drivers' licenses are permitted to drive in Hawaii for 90 days following arrival after which they must obtain Hawaiian licenses. However, if the driver is under 20 years of age, he or she must file a Parental Consent form with the Honolulu Police Department. This form may be obtained at police headquarters in Honolulu. A duly notarized statement signed by the driver's parents may be submitted for consideration by the Honolulu Police Department in lieu of this form. A driver under 20 years of age is otherwise liable to arrest.

New students bringing cars to the campus should obtain a copy of the University's rules on driving and parking.

PART-TIME EMPLOYMENT OPPORTUNITIES. Persons planning to attend the summer session are advised that there are very few opportunities for part-time employment during the summer period. Students should, therefore, plan to meet their summer session financial obligations without relying on part-time employment. Students from other states would be well advised to anticipate that living costs in Hawaii may be appreciably higher, and make appropriate financial preparations accordingly.

CLASSROOM ATTIRE. One of the pleasant features of summer sessions in Hawaii is that professors and students are generally attired somewhat more informally than during the fall and spring semesters, and colorful "Aloha" shirts and Hawaiian dresses make the campus one of the most picturesque to be seen anywhere. It need hardly be stated, of course, that the canons of good taste do exclude abbreviated shorts, swimming suits, and the like from normal classroom wear.

HILO CENTER SUMMER SESSION. A few summer courses are offered at the University of Hawaii Hilo Campus, located in the town of Hilo, on the island of Hawaii, some 200 miles from Honolulu. The courses are intended primarily for residents of the island of Hawaii.
Courses Offered

Courses numbered 100 to 199 are intended primarily for freshmen and sophomores. Those numbered 200 to 599 are intended primarily for juniors and seniors. Although these courses are open to graduate students, only those numbered from 400 to 599 carry graduate credit. Courses numbered 600 to 799 are primarily for graduate students. The number of semester credit hours carried by each course is listed in parentheses immediately after the title of the course.

During the regular six-week session most classes will be held according to the following schedule:

American Studies

S 450 PERSPECTIVES ON AMERICAN DEMOCRACY (2)  
Kennedy

Aspects of American character that have come to focus in such intellectual conflicts as Puritanism, transcendentalism, the gospel of wealth, pragmatism, social Darwinism, education for democracy.
Daily 7:45-8:35

S 467 ARTS OF THE AMERICAN CITY (2)  
Hazard

The dynamism of American urban life exhibited through architecture, planning, elite culture, popular entertainment in a series of eight vignettes, from colonial Williamsburg to modern Honolulu. Slides, films, lectures.
Daily 10:10-12:00

S 468 HONOLULU: A PERSPECTIVE ON AMERICAN CIVILIZATION (2)  
Hazard

A study of Honolulu from four approaches—the exterior landscape of architecture and city planning; the interior landscape of design and decoration; the elite arts of music, painting, and sculpture; and the popular arts of journalism and entertainment. In each case, emphasis would be on the reflective analysis of local examples. For example, elite culture would include visits to the Honolulu Academy of Arts; popular arts would be studied, in part, through visits to local newspapers and broadcasting stations. Prerequisite: American Studies 467 or consent of instructor.
July 16-August 3.
Daily 10:10-12:00
Anthropology

S 150 INTRODUCTION TO ANTHROPOLOGY (3) Maretski
Man's biological evolution; archaeological history from the Stone to the Iron Age; patterned lifeways of tribal and folk societies throughout the world.
