THE UNIVERSITY OF HAWAII

The University of Hawaii was established by act of the Territorial Legislature in 1907. It is a land-grant university, and bears the same relation to the Territory that state universities bear to their states. It draws about one-half its financial support from Territorial appropriations. Although the University has never received a grant of land, such as was provided for the similar colleges of the states by the original Morrill Act of 1862, it benefits by the Second Morrill Act of 1890. It is open to all who are qualified, regardless of sex, color, or nationality.

The University of Hawaii has a fully accredited standing in the Association of American Universities. Students may transfer to other American and European universities on the same basis as may students of the foremost American universities. Students may also transfer to the leading Oriental universities.

ORGANIZATION

The University comprises a College of Applied Science, a College of Arts and Sciences, a Teachers College, a graduate division which includes the Graduate School of Tropical Agriculture, the Oriental Institute, and several non-academic units.

ADULT EDUCATION DIVISION

The Adult Education Division is comprised of credit and non-credit courses offered afternoons, evenings, and Saturday mornings, off-campus courses, correspondence courses, University lectures, radio education, visual education, and a play loan service.

The courses offered in the afternoon, evening, and on Saturdays are primarily for the benefit of adults who cannot attend at other times. Regular members of the University faculty and a few other instructors in special fields comprise the teaching staff. All Adult Education Division credit courses give full residence credit. They should not be confused with non-credit courses or off-campus credit courses, also offered by the Adult Education Division. While each regular credit course carries general university credit, the acceptability of such credit toward a degree, i.e., B.A., B.S., Ed.B., M.A., etc., depends on the policy and requirements of the particular college concerned or of the Committee on Graduate Study.

Extension courses offering university credit are given in class centers throughout the Territory.

It is the policy of the Adult Education Division to offer educational advantages not only to persons seeking a college degree, but to all classes of society, and to lend encouragement to every worthwhile program of adult education undertaken in the Territory in the interest of the public welfare. Non-credit courses, both on and off the campus, are announced from time to time. Any individual or group interested in this type of service may apply to the Director of the Adult Education Division.

Service clubs, women's clubs, teachers' organizations, schools and similar organizations may procure speakers for special occasions through the lecture service. By special arrangement, an entire series by one lecturer may be obtained. Lectures and entertainments of public interest are given throughout the year in Farrington Hall, and, whenever possible, such lectures are broadcast for the enjoyment of those in outlying districts.

Some courses offering university credit and short series of lectures on popular subjects are broadcast by radio for the benefit of those who cannot take advantage of the courses and lectures on the campus.
The visual education service assists teachers in the correct use of all types of visual aids and to distribute such material as films, film strips, glass slides, and stereographs to schools, churches, and other educational agencies throughout the Territory.

The play loan service assists schools and amateur theatrical groups in the selection of material suitable for school or community entertainment. Plays are lent free of charge for inspection purposes.

ADMISSION

Part-time students who take work for credit applicable to degrees are put into one of the following groups: (1) Unclassified students, (2) Graduate students, (3) Extension students. Students who enroll in courses which offer university credit, but who are not eligible for or not interested in earning such credit, are classified as (4) Special students and (5) Auditors.

ADMISSION OF UNCLASSIFIED STUDENTS

Mature persons, ordinarily only those at least 21 years of age, who present satisfactory evidence of their ability to carry on the work desired, may register as Unclassified students and may take a limited program of courses. Persons less than 21 years of age may be admitted as Unclassified students provided they are able fully to meet the entrance requirements for regular Freshman standing but desire to carry only a limited program of courses not leading toward a bachelor's degree.

Persons of some maturity who have had experience that manifestly prepares them for college work may be given entrance credit for such work. What forms of work will be given credit and how many credits will be granted cannot be stated in advance; each case is considered individually.

Admission as an Unclassified student is in no case permitted as a means of avoiding compliance with the requirements laid down for regular students.

ADMISSION OF GRADUATE STUDENTS

For information concerning the admission of Graduate students see pages 50 and 75 of the regular University of Hawaii Catalog, 1937-1938, and the Catalog of Graduate Study.

ADMISSION OF EXTENSION STUDENTS

Rules on admission of Extension students in courses for credit off the campus are the same as those applicable to Unclassified students.

Credits gained in extension courses conducted by the University of Hawaii may be applied towards the bachelor's degree, but not more than 25 per cent of the total credits required to be earned in the University for the degree may be extension course credits, and such credits are not counted as fulfilling the residence requirement.

ADMISSION OF SPECIAL STUDENTS

Qualified persons who are unable or who do not care to meet the regular University entrance requirements may be admitted to certain undergraduate courses as Special students. Special students attend classes and take part in the courses for which they are registered, but they do not receive university credit for the work done.

ADMISSION OF AUDITORS

Auditors are persons who attend certain undergraduate courses as listeners. They do not participate in classroom discussion, are not expected to do work prescribed for Unclassified and Special students, and do not receive
credit. Persons desiring the privilege of attending classes as Auditors should apply to the Registrar at the time of registration. If the application is granted, the Auditor will be issued an auditor's card, which must be signed by the Director of the Adult Education Division. Auditors pay the regular course fees.

REGISTRATION DATES FOR COURSES ON THE CAMPUS

Part-time students of all classifications may register in Hawaii Hall from 1 to 4 p.m. September 27 to October 1, inclusive, from 7:15 to 9 p.m. September 27 and 28, and from 8 a.m. to noon Saturday, October 2.

Any part-time student enrolling in courses after 12 o'clock noon on October 2 must pay a late registration fee of $1.

Instruction will begin Monday, September 27.

The University reserves the right to withdraw any course because of insufficient enrollment or for any other valid reason.

REGISTRATION FOR EXTENSION COURSES

Off-campus extension courses begin earlier in the fall and close earlier in the spring than do other university courses. This enables elementary and secondary school teachers enrolled in extension courses to close their university work when they close their school terms.

Registration will be conducted during the week September 13-18 by the instructor in charge at the time, day, and place indicated in published announcements.

The day set for registration is not in all cases the same day of the week as for class meetings throughout the semester.

The official semester covers 18 weeks. The work of the first semester must be completed by February 12, 1938, and the work of the second semester by June 18, 1938.

No registration for credit is permitted after the third meeting of any class.

TUITION AND FEES

Part-time students, including Unclassified, Graduate, Extension, Special students and Auditors, who take a program of fewer than 10 credit hours pay a tuition fee of $5 a credit hour.

No refunds will be made after October 9 on campus courses or after October 2 on extension courses. Before these dates changes of schedule or withdrawals may be made without penalty or forfeiture.

All fees must be paid as part of registration. No registration card will be finally accepted until it is endorsed to show payment.

Laboratory and special course fees are stated in the description of courses.
COURSES OF STUDY

Courses numbered from 100 to 199 are designed for students of Freshman and Sophomore (i.e., lower division) standing. Those numbered from 200 to 299 are open to Junior and Senior (upper division) students and graduate students. Courses numbered 300 and above are open to graduate students only, except that specially qualified Seniors may be admitted upon consent of the instructor.

AGRICULTURE

300 Research Work
Henke and Agricultural Staff
Situated in a climate where out-of-doors experimental work can be carried on the year round, Hawaii affords ideal opportunities for research in tropical agriculture. First and second semesters. Hours and credits to be arranged.

ANTHROPOLOGY
