Weakened Vitality IMPOVERISHED BLOOD.

Read what Ayer's Sarsaparilla did
for the Rev. Z. P. Wilds, a well-
known city missionary in New York
and brother of the late eminent
Judge Wilds:
"I was for many years a sufferer
from boils and other eruptions of a
like nature, caused by the impover-
ished state of my blood. My appe-
tite was poor and my system a good
deal run down. Knowing the value
of Ayer's Sarsaparilla, by observa-
tion of the good it had done to others,
I began taking it. My

Appetite Improved
almost from the first dose; then my
general health improved, and now it
is excellent. I feel a hundred per-
cent stronger, and I attribute this
result to Ayer's Sarsaparilla, which
I recommend with all confidence as
the best blood medicine ever
devised."

For all disorders resulting from
poor or corrupted blood and general
debility, take

EWA FREE KINDERGARTEN

**BUILDING PROVIDED BY THE
PLANTATION COMPANY.**
Excursion for the Opening Ceremon-
ies—Formal Presentation of the
Building to the Association.

An excursion was given to the
directors of the Free Kindergarten
Association by the directors of the
Ewa Plantation Company on Sat-
urday. Members of the Board of
Education and editors of the daily
papers were invited along. The
occasion was the opening of a
kindergarten on the plantation
above named for which the com-
pany has erected a building and
will pay the running expenses.

For the comfort of the party
the directors' parlor car of the O.
R. & L. Co. was attached to the
morning train. To give appro-
priate interest to the opening of
the school, a class of ten children
from the Japanese kindergarten
in town, in charge of their teach-
er, Miss Kellogg, was among the
excursionists. Dressed in
kimonos no two alike but each
more variegated than a rainbow,
this exhibition class presented a
wonderfully picturesque appear-
ance. It only took a slight hint
to start them singing their school
songs, and in every way they
were as merry as kittens.

In the party were Dr. and Mrs.
C. M. Hyde, Prof. and Mrs. W.
D. Alexander, Dr. and Mrs. Loose
of Iowa, U. S., J. B. Atherton and
wife, Mrs. Fanny Stockbridge,
Mrs. T. H. Hobron, Mrs. F. R.
Day, Mrs. B. F. Dillingham, Mrs.
H. N. Castle, Mrs. O. H. Gulick,
Mrs. Selfridge, Miss Margaret
Hopper, Miss Laurence, Miss
Buckie, Miss Kellogg, W. A.
Bowen and wife, Mrs. Scott,
wife of the editor of the Chicago
Times-Herald, A. T. Atkinson of
the Star, J. T. Stackler of the Ad-
vertiser and the BULLETIN'S re-
presentative.

Arrived at Ewa station, the
party was conducted across a neat
new park, set out with young trees
and flower beds, to the kinder-
garten schoolhouse. It is a neat
wooden structure in cottage ar-
chitecture, situated on the chapel
compound and fronting in line
with that edifice. Passing through
a 6x9 porch the main room is en-
tered, its dimensions being 24x30
and its furniture including little
chairs for the infant pupils. A
lanai on the right hand side, 12x24,
opens from the main room by
folding doors. Opposite the en-
trance is a door to the rear, which,
besides two double windows in
front, two single ones in rear and
the same in the end, gives with
the other openings mentioned
abundance of air and light. The
floor is painted a cardinal hue,
with diagrams in black presum-
ably to aid in class formations.

Chairs were provided for the
party, and when all were seated
the exercises began. For the oc-
casion an upright piano from Mr.
Lowrie's house had been placed in
the class room. It is to have an
instrument of its own in the near
future.

Mr. Lowrie delivered a brief
opening address, expressing his
great pleasure at meeting so
many friends at the opening of
the plantation kindergarten. He
hoped that the result of this
school might be so satisfactory
that it would encourage
other plantation companies to
follow the example. He wished
it understood at the outset, before
the building was formally turned
over, that the manager of the
plantation company must be con-
sulted in all financial affairs of the
school, as well as have control, as
to approval of the appointment
of teachers. The matter of board-
ing outsiders on the plantation
had always been a difficult one,
and he thought that when possi-
ble teachers should be selected
from among the people on the
place. He thought the directors
of the company deserved the op-

portunity of extending the hospi-
talities of the plantation to the
visitors.

Some of the party returned to
town in the two o'clock train, the
remainder waiting for the evening
train, so as to further explore the
vast estate.

ON SUNDAY LABOR.
Employers Largely to Blame for
Much Work That is Done.
EDITOR BULLETIN:—I have read
with interest the explanation
given by the Attorney-General of
the reasons which have induced
the government to issue an order
compelling steamship compa-
nies to obey the Sunday law and
agree with all that he advances.
But I would suggest that the gov-
ernment go a step further and
serve notice on some of the whole-
sale houses here which make a
practice of working their
clerks on Sunday. I do not
refer to occasional instances
where the presence of a steamer
in port makes certain work nec-
essary, but to those houses whose
clerks have to report regularly for
duty every Sunday morning. If
it is against the law to unload a
vessel on Sunday it is surely
against the same law to pack
goods behind closed iron doors,
as is often done. Let the law be
applied to all and give the poor
clerk a chance to rest at least one
day in the week. OBSERVER.

Farewell Presentation.
A large number of the officers
and men of the National Guard
met in the drill shed on Saturday
evening and presented Colonel
McLean with a gold watch, chain
and locket on the occasion of his
departure by the Doric. Presenta-
tion speeches were made by Cap-
tain T. B. Murray and Sergeant
Stammore, while Colonel McLean
made a suitable reply. Remarks
were also made by Captains Zieg-
ler, McCarthy, Paul Smith and
others and general good feeling
prevailed.

At the Butte.
The first of the three matches
arranged between the police and
Company B. was shot on Saturday
at the Kakaako range. The sol-
diers won by a score of 414 to 388.

In the match between Compan-
ies F and G. the regulars won by
the score of 408 to 398.

LATE JAPANESE ITEMS

**THE FUNERAL OF THE EMPRESS
TO COST 800,000 YEN.**

Attaches of the Japanese Consulate in
Bombay Attacked by the Plague
—Bank Manager Resigns.

The following additional items
have been culled from exchanges
brought by the Doric last Satur-
day:
The U. S. men-of-war Yorktown
and Detroit, both from Shanghai,
have arrived at Nagasaki.

Messages of condolence on the
death of the Empress Dowager
have been received by His Majes-
ty from the Sovereigns and Presi-
dents of all the Treaty Powers.

Mr. Yokura, Manager of the
Bank of Japan, has tendered his
resignation on account of age and
it has been accepted by the Min-
ister of Finance.

The authorities having decided
to disburse 800,000 yen for the
funeral of the Empress-Dowager,
a bill for the same has been
brought forward in the diet.

The Japanese Government con-
templates reducing the number of
troops stationed at Wei hai wei,
pending the total payment of the
indemnity by China, by one bat-
talion of infantry by May next.

The plague in Bombay, which,
with all its virulence, has not at-
tacked foreign residents, seems,
according to an official telegram
received on the 14th, to have in-
vaded the Japanese Consulate, and
foreigners employed in the Con-
sulate are suffering from the dread
malady. A curious fact is that
innumerable rats die from the
plague every day.

JOHN D. HOLT RESIGNS.
Another Vacancy in the Office of the
Postal Savings Bank.
This morning John D. Holt,
for a number of years employed
in the Postal Savings Bank, for-
warded his resignation to the
Postmaster-General in a commu-
nication of which the following
is a copy:

To J. MORT OAT, Esq., Post-
master-General.
Dear Sir:—I hereby tender this
my resignation as Clerk of the
Postal Savings Bank, over which
you are by law its manager.

Thanking you for the confidence
reposed in me during the past, I
remain,
Very respectfully yours,
JOHN D. HOLT.
February 8, 1897.

While Mr. Holt assigns no
reason in the above letter for his
resignation, it is understood
among his friends that he feels
that the government ignores the
claim of Hawaiians in favor of its
white supporters, and they point
to the fact that since his stay in
the Postal Savings Bank he has
twice failed to receive that prom-
otion which his long service mer-
ited, in both instances white men
having been appointed over his
head.

Visiting London Financiers.
Messrs. McCulloch and Weber,
who dropped off the steamer Ala-
meda to await the departure of the
steamer Australia, are members
of the London Stock Exchange,
who, during their brief stay, are
looking into the question of in-
vestments in the Hawaiian sugar
industry. Through the courtesy
of Mr. Lowrie, they joined the ex-
cursion party on Saturday, for the
run through the fields and a visit
to the great irrigation works at
Ewa.

On today's Kinau the Pacific
Hardware Co. have received a
fresh supply of Prof. Henshaw's
Platotype and Sepia prints.
Send some of them to your friends
for a New Year's reminder.

IN THE HIGHER COURTS

**DAMAGE SUIT OF LEONARD VS.
MCLENNAN ON TRIAL.**

Sentence of a Lottery Man Confir-
med—Consent of Defendants in an
Equity Suit for Partition.

Ah Fat, who appealed for miti-
gation of sentence for maintaining
lottery, had the sentence of the
lower court—a fine of \$100—con-
firmed by Judge Carter.

The Hawaiian jury, before
Judge Carter, is trying Bipi for
selling liquor at Maunaloa with-
out license. E. P. Dole for the
Republic; S. K. Kane for defend-
ant.

H. Leonard vs. D. McLennan,
damages, is on trial before Judge
Perry by the following jury: J. G.
Spencer, Thos. Wall, B. F. Beard-
more, H. G. Waity, B. W. Cath-
cart, C. R. Dement, W. Temple-
ton, W. R. Sims, A. Larnach, O.
C. Swain, F. J. Turner and F. J.
Kruger. The damages are claimed
on account of alleged malpractice
by defendant in treating plaintiff
for rheumatism in the feet. Kin-
ney & Ballou for plaintiff; P.
Neumann and Thurston & Stanley
for defendant.

J. Q. Wood, attorney for de-
fendants, has filed a motion to
place Frank Telles vs. Albert and
Sarah Trask on the calendar for
the February term.

Certain of the defendants in
John T. Baker vs. Young Hee and
others have filed consent to a pub-
lic sale of the lands involved.

Judge Carter has confirmed the
administrator's sale of property
belonging to the estate of the late
Q. Fernandes, at public auction,
to J. W. Pratt for \$1600.

The Cricket Match.
The Honolulu cricket team won
an easy victory over the team
from the British cruiser Icarus on
Saturday afternoon. The naval
men went out for 31 runs, and the
home team scored. Another in-
ning was started, but there was
not time to play it out. Captain
Hatfield of the Honolulu team
made a "hat"—that is, bowled
down three wickets with three suc-
cessive balls—for the second time
in his record with the present
Honolulu cricket club. The first
time was in a match with H. B.
M. S. Champion's team some
years ago. A. St. M. Mackintosh
did not perform that feat, but he
took more wickets than the cap-
tain.

Drs. Maybe and Mustbe.

You choose the old doctor before the young one. Why? Because you don't want to entrust your life in inexperienced hands. True, the young doctor *may* be experienced. But the old doctor *must* be. You take no chances with Dr. Maybe, when Dr. Mustbe is in reach. Same with medicines as with medicine makers—the long-tried remedy has your confidence. You prefer experience to experiment—when you are concerned. The new remedy *may* be good—but let somebody else prove it. The old remedy *must* be good—judged on its record of cures. Just one more reason for choosing AYER'S Sarsaparilla in preference to any other. It has been the standard household sarsaparilla for half a century. Its record inspires confidence—50 years of cures. If others *may* be good, Ayer's Sarsaparilla *must* be. You take no chances when you take AYER'S Sarsaparilla.

HE WAS A GENTLEMAN.

How Jim Sanders Reported of His Vow Never to Be Taken Alive.

When the sheriff went over from Golden Hill to Lucky Valley after Jim Sanders, who was wanted for shooting Dan Williams in a quarrel over a game of cards, he didn't even take a gun along. He found his man in a saloon and asked him to step up and take a drink. Jim complied, but kept a hand on his gun. When they had drunk, they sat down, and the sheriff told three or four funny stories. By and by the puzzled Jim broke out with:

"See here, Joe, did you come over after me?"

"Waal, I thought you might want to jog along back with me," was the reply.

"Not much. I'll never be taken alive."

"Then that settles it. Let's hev another drink."

They drank again, and the official told a very funny story about a tender-foot's experience in Golden City. Jim laughed as loudly as the others, but presently grew serious and said:

"Say, Joe, you can't take me alive."

"Waal, we won't worry about that, Jim," was the reply. "Let's hev another nip and then a game of cards."

The game lasted until the sheriff had lost about \$20. Then he ordered drinks and sang a song. When the song was finished, he said to Sanders:

"Jim, hev'n't I made things pleasant fur you today?"

"You hev, Joe, and no mistake."

"Treated you like a gentleman—hev'n't I?"

"You certainly hev."

"That's my way of doin things. Now I want you to treat me like a gentleman. Go back to Golden City with me?"

"But I shot Dan Williams over thar."

"Of course you did."

"And they want to hang me."

"Of course they do, but that's nothin to me. I didn't make the laws. I was sent out arter you, and I want to take you back. I could hev sneaked in and got the drop on you, but I knowed 'twould hurt your pride. Hev'n't I bin tender with you, Jim?"

"You hev, Joe; but I don't want to be hung."

"I s'pose not, but see how nice I've used you. Would any other sheriff hev done it?"

"No, I reckon not."

"Of course not, and if you are hung won't I lose the job and make it as easy as possible? Just come right along to oblige me, Jim."

"Would it be a great favor to you?"

"It would, and it would show me that you was a gentleman to boot. I'm a gentleman myself, and I kin appreciate a gentleman."

"Waal, Joe," said Jim, after a moment's thought, "I did say I wouldn't go, and I did think I didn't want to be hung, but to oblige you and to show these critters that I know what good manners is I'll go along with you."

And ten days later Mr. Sanders attended a necktie social and was left behind when the others started for home.—Dallas News.

"I live in a town," said the bewhiskered man, who was tilted back in the hotel chair smoking a rank cigar, "where a father, two sons and an uncle, all members of the same family, ran for office at the last election."

My hair was coming out at such a rate as led me to believe that I would soon become bald. After using the oil to five weeks this ceased entirely; none whatever is now falling out. Telephone Improvement.
 The London Times has published an interesting article on the Apostoloff telephone—an automatic device by which an exchange with, say, 10,000 subscribers, can be readily manipulated, within a small space, and by very few attendants. In the central station each subscriber is represented by a piece of apparatus contained in a box a few inches high, which is connected by an ordinary metallic circuit to the telephone in his house or office. Ordinary telephones are used with the addition of a small piece of apparatus termed a "transmitter" or "manipulator." The face of this transmitter is pierced with three little window or apertures, in two of which numerals appear and in the third certain service indications. Suppose a subscriber wishes to speak with No. 1795. He presses a button under the left hand aperture until the numeral 17 appear. He then does the same to a button under the right hand window until 95 appears. These two operations have produced corresponding movements in the instrument that represents him at the central station. The positive currents sent by the left hand button have passed through a polarized relay, and caused a local battery to send 17 successive currents through an electromagnet which has moved a travelling switch step by step past 16 contacts, each representing a group of 100 subscribers, until it has stopped on the 17th of the row. The negative currents have in the same way moved a second travelling switch till it is in connection with the 95th contact of the other row. The subscriber now presses another button, which causes the words "Ring up" to appear in the middle aperture.

Novel Window Screen.
 A beautiful novelty for a window screen is made of silk bolting cloth. This is intended to hang close to the window, and upon its transparent surface may be painted a broad effect in water colors, embodying a border of conventional design, using alternately salmon pink, blue, india red, tawny or foxy brown and gray, outlining in long stitches of silk in appropriate colors. Inside of this border may be worked a design in water lilies, with foliage painted and worked in silks, the water suggested by broad touches of gray blue, with an occasional gleam of silver thread. These are but suggestions of what may be done with this species of screens, as there are many elegant materials and combinations of color, but all depend for their beauty on the artistic make up and the rare qualities of their embroidery.—Decorator and Furnisher.

Information for Tourists.
 A passenger by the last Colonial steamer was met on the dock by a Milesian American friend, who resides in Honolulu. As the pair waited to have the newcomer's gripsack scrawled over with chalk marks by the Customs Inspector at the gate the stranger remarked to his friend "Do you 'ave much rain 'ere?" RAINIER me boy, gallons of it, just come up to the Anchor Saloon where they keep it always, clear and cool. We'll just be in time for lunch too and that's the only place in town where they serve it up in proper style with a glass of RAINIER BEER to equilibrialize the solids.—They went!

MONDAY, FEB. 8, 1897.

Ewa Plantation Company rather spoils the old saying that "corporations have no souls." Its starting of a free kindergarten on the estate is a refreshing instance of benevolence on the part of a money-making concern. It is all very well for Mr. Atherton to claim that the future increase of dividends was in view, but the public will likely prefer to regard this as a happy after thought. All the same, it is a consideration well worthy of being a cause of reflection to other planting companies. There is no doubt that institutions for the cultivation of intelligence and good manners have a strong reflex action upon every community in which they are established. They promote a mutual respect between employers and employed for the rights of each other, besides enhancing the value of the labor through brightened mentality and improved conduct generally.

Hon. Paul Isenberg has concluded a visit to his once adopted home, which has resulted in a great addition to the sugar industry in this island of Oahu. Nobody can point a detracting finger at him on the score of his being a non resident, when, in addition to the immense interests he already owns in the country, he takes the leading part in establishing another vast sugar estate to increase the wealth producing capacity of the group. The confidence thus shown by such an acknowledged master of affairs in the future of the islands—no matter for the haze that screens their political destiny—cannot but have a powerfully beneficial effect all along the line of Hawaiian progress.

Thanks to the colonial governments whose liberality gives the chief maintenance to two steamer lines between their countries and the Pacific Coast of North America. Honolulu is likely to have a regular fortnightly mail service to the American continent and Europe entirely apart from the local San Francisco steamer and the two great Chinese lines. When the third steamer is put on the C. A. S. Line, in two or three months, this arrangement is promised. It will with the other mail services mentioned give us weekly mail communication, at least on the average.

As the result of several meetings of bicycle enthusiasts, convened to discuss the advisability of purchasing from Charles Dusky ground for a bicycle track at Ke walo, the following committee was selected to float the stock and execute other preliminaries: Alfred W. Carter, chairman, W. F. Allen, A. B. Wood, Oscar White and W. W. Harris. Now everybody is waiting for the committee to move in the matter. Prompt action will secure the track in time for opening the ensuing season.

Oahu is going to be a heavy loser for every year it has to wait for the extension of the railway the rest of the way around the island. It has three large new plantations to show for the part of the line constructed, and there is no doubt that an equal degree of development would speedily follow the completion of the road.

It is very pleasing to notice that the Anglican Church Chronicle advocates a "hospital for incurables, especially for consumptive patients," in its issue of even date with that of the BULLETIN in which practically the same thing was urged. Keep the ball rolling.

Evidence is accumulating that the San Francisco Chronicle, in

its antagonism to annexation and everything Hawaiian, does not represent the public opinion of the people of the Pacific Coast.

THE FIRE HALL CONTRACT AWARD.

EDITOR BULLETIN: As there are many conflicting rumors and statements in circulation in reference to the awarding of the contract for the new Fire Hall, it is due to the public and the Government itself that an official explanation be publicly given at the earliest opportunity. Few are willing to credit the statement made in a daily paper recognized as an official organ, that the contract was given to a contractor whose bid for the work was nearly \$2000 higher than several others under him simply because he offered a sample of stone pronounced to be better than the samples submitted by his competitors. I shall not, in the absence of an official explanation, discuss the merits of the case, or at least I feel that the Cabinet should be given a reasonable time to make a statement. In countries where the members of the government are required to give an account of their stewardship to parliament once a year, and to the people every four or five years, taxpayers have not as a rule much cause for suspicion or to fear that the public business is not being conducted on strictly business lines, but under existing conditions in this country it is not to be expected that the taxpayers will view with implicit confidence any action of the executive involving a large expenditure of money that does not bear on the face of it entire absence of questionable circumstances.

The usual object in calling for tenders for a public work is to guarantee the community against jobs and favoritism. Specifications setting out the quality of workmanship and material to be used are submitted for the guidance of those who desire to submit prices. If the contractor who puts in the lowest offer can give security for the faithful performance of his contract and will sign an agreement embodying the specifications, that should decide the question. It does not matter where he gets his materials so long as he complies with the working specifications.

In the case in point I cannot but believe that the Executive has been misrepresented and that a satisfactory explanation will be forthcoming. A MECHANIC.

Byes on Bills.
Among the humorous memories connected with English judges is one of Justice Byes and his horse. This eminent jurist was well known in his profession for his work on "Bills," and as this gave a fine opportunity for alliteration his associates were accustomed to bestow the name on the horse, which was but a sorry steed. "There goes Byes on Bills," they took pleasure in saying, and as the judge rode out every afternoon they indulged daily in their little joke. But the truth was that the horse had another name, known only to the master and his man, and when a too curious client inquired as to the judge's whereabouts he was told by the servant, with a clear conscience, that "master was out on Business."—Youth's Companion.

Couriers and Interpreters in Spain.
On the platform we were stopped, first by hotel touts, who told us in bad French that we must go with them, and then by interpreters, who said that they could speak German, which was of no possible use to us, or English, which we could hear was no more fluent than our Spanish, and porters, who fought to carry our bags, and customs officers, who wanted to look into them, and of course the most hideous of beggars. J. got rid of the customs officer, and we went outside to find a hotel coach for ourselves. As we did so there mounted to its front seat the most odious of the interpreters, sweet and smiling, and no doubt later at the Roma he claimed a fee for having captured us.—Elizabeth Robins Pennell in Century.

It is understood there is trouble ahead about the inscription on the watch presented to Colonel McLean on Saturday evening. On the front case was engraved the words: "First Regiment, N. G. H., to Col. R. H. McLean, Jan. 22, 1897." A prominent officer said this morning that it was not a regimental affair but only a private one, and he proposed to find out who authorized the inscription.

Mechanics' Home, corner Hotel and Nounu streets, Edging by day, week or month. Terms: 25 and 50 cents per night. \$1, and \$1.25 per week.

IS THERE A DIVISION?
The Cabinet Said to Differ on Annexation Matters.

It is currently reported about town this morning that there is a difference of opinion among the members of the Cabinet on annexation matters. While the Cabinet is a unit on annexation as a policy, it is said that two of the members of the Executive Council differ from the other three on the question whether Hawaii shall seek unconditional annexation or whether Uncle Sam shall be asked to take Hawaii into his family under certain conditions. According to street talk today President Dole, Minister King and Attorney General Smith are open advocates of the proposition to accept annexation in any form it can be obtained, while on the other hand Ministers Cooper and Damon think that the advantages Hawaii has to offer entitle it to impose certain conditions and restrictions in the event of annexation; one of these being that all Federal appointments to be made by the President of the United States for the territory of Hawaii must be from bona fide citizens of the islands.

Owing to the lateness of the hour at which the above rumor reached this office, it was impossible to see any of the Ministers concerning it.

A prominent government official who was seen about the above said he understood there had been a division in the Cabinet, but that it had been fixed up prior to the departure of General Hartwell. The dissenting portion of the Cabinet, to use his expression, had been whipped into line, but upon being asked which was the dissenting portion he said he could not say.

SUNDAY MORNING FIRE.
George Contumaces Narrowly Escapes Being Burned.

George Contumaces of the California Fruit Market had a narrow escape on Sunday morning. He has been quite ill for some time and on Saturday night he and his wife retired very early. About 1 o'clock his wife got up and warmed some milk on a coal oil stove in an adjoining room. After the milk was heated she turned the wick of the oil stove low down but did not blow out the expiring flame. After giving her husband the milk, she retired to rest again. Some minutes afterward she was awakened by the crackling of flames in the rear room and found that portion of the house on fire. She awakened her husband, who was so weak from illness and excitement that he had great difficulty in getting out of the house, and with their child and the few clothes they had on they took refuge at a neighbor's.

The alarm was turned in, but by the time the department reached the house, which is situated on Liliha street between School and Kuukini, and a long distance back from the street, the roof had fallen in.

Chief Engineer Hunt investigated the affair this morning and has no doubt the fire was caused by the oil stove.

The Amusement Company.
Robert Scott, promoter of the Honolulu Amusement Company,

informs the BULLETIN that he has obtained the full number of one hundred subscribers to the stock. Next in order is a meeting of the stockholders to elect officers, especially a treasurer to take care of the thousand dollars of capital. The money will be deposited in a bank, while efforts are being made to get a good company down from the Coast, for the first season at the Opera House under the auspices of the company. Mr. Scott deserves credit for the energy he has displayed and the quick success gained for his scheme.

Poundmaster's Notice.

Notice is hereby given that one White Mare branded "A" on the left neck, black spot on knees of the fore-legs and hind legs; also one Bay Colt without brand, white spot on the forehead, two fore legs black, one left hind leg white and the left hind leg black, have been impounded in the Government Pound at Makiki, Honolulu, and if said strays are not claimed and all pound charges satisfied on or before Saturday, February 20, 1897, at 12 o'clock noon the same will be sold on that date and hour to the highest bidder. K. KEKUENE, Poundmaster, Honolulu, February 8, 1897. 528-31

HOW TO KEEP COOL IN THIS WEATHER.

During this sultry variable weather, so productive of moist shirt collars and limp neckwear, the mind naturally reverts to something cool and refreshing. It is not every one that can afford one of the handy refrigerators so much in vogue, but an ICE CHEST—which is just what its name implies—is within the reach of most people. We carry them in four sizes. They are cheap, economical, handy and durable, and we have just received a fresh invoice of them.

We have also a new consignment of the ALASKA REFRIGERATORS in five sizes, at greatly reduced prices. They are charcoal lined and are the best in the market.

We have also the NOVELTY CIRCULAR REFRIGERATOR. It is made of metal throughout, is handsomely painted, has adjustable rotary shelves which can be raised or lowered at any angle, will hold more ice and more meat or provisions than any ordinary refrigerator and takes up less room.

We have also a fresh invoice of handsome painted AGATE-LINED WATER COOLERS, suitable for hotels, offices and restaurants.

For families we have the natural stone GATE CITY FILTERS in all sizes.

The Pacific Hardware Company exhibits an orange twig with a cluster of three handsome specimens of the fruit, which average a pound each in weight. They were grown at Mark Robinson's place, Nuanu valley. It is rumored that a certain government official, who handles quite a good deal of money in the course of a month, has been suspended while his accounts are being examined. In this case there is a reported deficiency of nearly a thousand dollars. McCandless Bros. have nearly completed the last of the three wells they have been boring at Kahuku plantation. Their contracts at Paia and Ewa plantations are also nearing completion. They have just finished a new well at Kamoiiliili for Ah Hin. Two Chinese, arrested yesterday by Officer Cordes for torturing some caged rats, were found guilty of cruelty to animals this morning by Judge de la Vergne. Wa Loy was fined \$4 and costs and Wa Hop sent to jail for ten days. The case has been appealed.

W. W. DIMOND'S
In many parts of "the land of the free and the home of the brave" at this time of the year building operations are suspended, and every man has his eye on the coal dealer while watching the water pipes showing a tendency to freeze up. In Honolulu where spring is four seasons in the year, carpenters may work inside or out.
The unusual operations of the past year has had a depressing effect upon edge tools, for, like everything else, they give way with too constant use. We have, in view of the prospective demand, made a big buy of the finest grade of tools obtainable in eastern markets; they are what carpenters and machinists need all the time and when buying the best they get is that which lasts longest and obviates the necessity of "breaking in."
We have the Millers Falls Company ratchet brace, with drill attachment. The Elkin's saw file. Bailey's adjustable blade, wood and iron base planes. Steel tape measures, guaranteed to be accurate. Two-foot rules in ivory and bound with German silver Olmstead's improved mitre boxes. The "New Roger's" foot power scroll saw with drill and emery attachments. These goods are all guaranteed first-class.

Von Holt Block.
