University of Hawaii

BIBLIOGRAPHY 1944-52

EDITED BY CHARLES S. BOUSLOG

Hawai'i Univ.

BULLETIN XXXI SEPTEMBER, 1952 NO. 4
Preface

The bibliography covers the eight-year period of July 1, 1944, to June 30, 1952. Listed herein are the publications of general circulation and the noteworthy professional and scholarly activities of 329 faculty and staff members from 35 departments and offices. University publications and theses presented for advanced degrees are also given. Independent but affiliated agencies, which publish their own bibliographies, are not represented.

Because of the difficulty of obtaining information from those who have left the University, some items have probably been missed; these can be published in the next biennial issue. A few items are included which were omitted from preceding bibliographies (1939, 1943, and 1944).

Hereafter the bibliography will appear in October of each even-numbered year, as an issue of the University of Hawaii Bulletin.

Standard abbreviations are used throughout; Abbreviations Used in the Department of Agriculture for Titles of Publication, edited by Carolyn Whitlock (Washington, D.C., 1939), was followed. The only unusual abbreviations are Par. Pac., used for the regional periodical Paradise of the Pacific, and IRAC, used for the Industrial Research Advisory Council.
