SAILORS VS. SAILORS

The all-conquering Amphitrites have been challenged by a team from the torpedo boat destroyers Virago and Sparrowhawk and the encounter takes places tomorrow afternoon at Makiki at 4:15. The members of the local team admit that they have been beaten by better men, but "the lively little lads in navy blue" from the wee boats want to test the mettle of their comrades from the cruiser. A sharp tussle and first-class "socker" will be witnessed.

The following will be the line-up:

Amphitrite	Virago and Sparrowhawk
Goal.	
Arrowsmith	Nicol
Backs.	
McLaughlin	Essex
A. J. Ward	Creighton

NO FEARS FOR WHITNEY

A rumor was circulated on the waterfront this morning that the ship Emily F. Whitney had arrived at Kahului yesterday. As no news to this effect has been received by Alexander & Baldwin, the agents of the Whitney, it is pretty certain that the rumor is unfounded.

The Emily F. Whitney is now out over twenty days on her run from this port for Kahului. The distance from this port to Kahului is only eighty-seven miles, but despite the fact that the time taken by the Whitney to make this short run may seem entirely out of proportion, very little, if any, anxiety is felt in shipping circles about the safety of the vessel, as she is now probably beating up to windward, a task which with a square-rigged ship in ballast is a slow and laborious one.

PHOTOGRAPHER'S FLUID AS DETECTIVE AGENCY

An amusing capture of a petty thief took place in the office of a big local firm a day or two ago. One of the firm's clerks noticed that small change was continually disappearing from the pocket of his coat, which he kept hanging on a rack during working hours. He accordingly asked for permission to move his desk close to that of the head clerk, which was granted. From this place he had a view of his coat. The other clerks, who thought that he had been moved to be right under the eye of the head clerk, guyed him a good bit about it, but one man kept quiet and bided his time. Finally his patience was rewarded. He saw the door near where his coat was hanging, open, but the door obscured his view of the coat as well as the person who had entered. The clerk made a dash for the door just in time to hear the intruder scamper upstairs. The clerk followed him and saw him bolt into the lavatory. Here the clerk found the fellow busy washing his hands. The wily clerk had filled his change pocket with a photographer's preparation that clung to the thief's fingers with dogged persistency. The offender, a Portuguese boy employed by the firm, could do nothing but confess, whereupon the clerical sleuth led him with the glue still on his fingers to the head of the firm who summarily discharged the culprit.

MAY DAY CONCERT.

The band gave a fine concert on the Capitol grounds this morning in honor of May Day. The boys began playing previous to 10 o'clock and kept up the music until after 11:30. Several Hawaiian songs were given by the bands boys and the two lady soloists. There was a very large crowd in attendance, among those present being several carloads of kindergarten children dressed in their best Sunday clothes. There were no regular May Day exercises such as those of two years ago the children contenting themselves with gamboling about on the green

WHAT'S THE MATTER WITH FIRE CLAIMS

What has become of the fire claims payment? This query is becoming a very general one in the community. Not from any fear that anyone is running off with the coin, but rather from a desire to get things moving that the money may get into circulation. The general impression prevails that there isc a blockade somewhere along the line. The money has been here several weeks reposing in the vaults of the First National Bank. The bank can't distribute the money however much it might wish to do so. The claimants can't break through and steal. Everybody wants the money. They can't get it. And the ywant to know the reason why.

"I can't understand why there is not more 'doing' towards paying out this money," remarked a prominent business man this morning. "The money is here but it might as well be in Washington so far as doing any good to the people. The community needs the money. The individual claimants need the money, but here we are tied up and as far as the public is concerned the money might as well be in a show case on exhibition. The people are like the poor little waif of the street looking in at a store window on Christmas night. Lots of good things are in sight but it doesn't do the poor kid any good.

"I confess I don't know where the fault lies for the delay, if fault there is, but I can't see good reason for the delay. This money is a relief fund, but it is mighty slow in granting relief. The whole business seems to be hung up somewhere between the Governor, the Secretary and the United States Treasury Agent. Representative Vida's resolution in the House the other day had the effect of making the Governor and Secretary's office get busy for a time. Now the whole thing appears to have lapsed. The people want the coin, if claimants won't take the bonds we'll have to do the next best thing, but the United States gold coin is here, a million dollars of it, and it ought to be put in circulation.

"I am not in the inner circle of Territorial authority but I know something about the sentiment of the people, and I can assure you that it is up to somebody to get to work and do the strenuous business act in getting this million dollars in circulation, if the demands of the people are to be properly met."

Treasury Agent MacLennan was seen this morning and asked as to the status of the fire claims and what the chances were for a payment of the money to the claimants. He was busy working on this very thing at the time and stated that he could not say. It had not yet been decided.

MR. PRATT ON BONDS

Editor Evening Bulletin:—As having a bearing upon the matter of the sale, at par, of the $326,000 fire claims bonds, that will enable the agent of the Treasury to make a disbursement of the money appropriated by Congress so that claimants may receive immediate payment in full for the claims, I beg to refer to a portion of a conversation between myself and Hon. James M. Robinson, member of Congress from Indiana and of the Committee on Territories, who drafted and made a favorable report of this committee upon the bill granting relief to Hawaii, when the matter of increasing the rate of interest on the bonds from 4 per cent. to 5 was being considered (the bill having already passed at the former rate), in order to make the bonds more attractive to investors.

He said, "Mr. Pratt, you cannot, the Territory of Hawaii cannot, afford to go back again to Congress at this session upon so small and insignificant a proposition as asking Congress to increase the interest rate on the fire claims bonds 1 per cent. These bonds with their tax exemptions and bearing as they do the direct authorization of Congress, which differentiates them from all other Territorial bonds, makes them an excellent security and safe investment, and I have no doubt that your business people locally, now that they have been greatly relieved from taxation by the generous contribution made by Congress, will have sufficient patriotism and civic pride and business interest to see that this bond issue is taken at par. Personally, while I feel very friendly towards you and the Territory of Hawaii, I cannot advise you to attempt to increase the rate of interest on those bonds, nor would I stand for a moment favoring such a measure."

Respectfully,
JOSEPH G. PRATT.

IROQUOIS IS GOING TO MIDWAY

The following telegram was received this morning at the Naval station:

Washington, D. C., May 1.

"Commandant Naval Station, Honolulu.

"Pond and two officers sail for Honolulu next steamer. Have Iroquois ready to sail for Midway on their arrival.

"DARLING."

Captain Pond, who is mentioned in the cablegram, is well known here, he having lived here for several years while in command of the U. S. S. Iroquois. It is not known at the local Naval Station for just what purpose the Iroquois is to be sent to Midway but there can hardly be any doubt that it is for some purpose in connection with the landing of the cable on that island.

Captain Pond and the two officers with him are expected to arrive here in the Alameda, which is due May 8. The Iroquois will therefore probably sail for Midway May 9.

COOPER TESTS PROVISIONS OF COUNTY LAW

At a meeting of the Executive Council this morning H. E. Cooper, Superintendent of Public Works, raised a legal issue between himself, officially, and the Board of Public Institutions, created by the oCunty Act. Mr. Cooper, after the meeting, dictated the following statement of the proceedings to a Bulletin reporter:

"Believing that it is for the best interests of the people that the legal questions arising from the passage of the County Act should be determined at an early date, I gave formal notice of my objections to certain clauses so far as they affect the Department of Public Works.

1. To the acquisition and control of the Board of Public Institutions over the harbors, wharves, landings, buoys, etc., claiming that the same were placed under the control and management of the Territory of Hawaii by the Organic Act.

2. That the Legislature had no power to change the form of government. That the Organic Act provided for the three divisions of government—executive, legislative and judicial—and assigned certain duties powers and responsibilities to different departments and to different parts of each department.

3. That while the duties of officials may be modified by the Territorial Legislature, the property vested in the control and custody of an official cannot be transferred or placed under the control of any other officer or branch of the Government.

4. That the public property ceded and transferred to the United States by the Republic of Hawaii under the joint resolution of annexation is to remain in the possession, use and control of the Government of the Territory of Hawaii as constituted by the Organic Act, and cannot be transferred to any other form of government not recognized or established by the Organic Act.

5. That the power to form county and municipal government granted by the Organic Act does not give the power to transfer any property of the United States transferred by the Organic Act to the control and use of the Territory.

The Superintendent of Public Works was requested to place in writing the substance of his objections, with the idea that an agreed case may be made out between the Board of Public Institutions and the Superintendent of Public Works. So many important questions are involved, especially in the passage of appropriations, it seems desirable to have the legal questions, so far as may be, decided at once if possible."

Important Reasons

WHY HERRING-HALL-MARVIN SAFE CO.'S SAFES AND LOCKS ARE THE BEST

The concrete filling makes these safes absolutely Fire-Proof and positively Damp-Proof. The solid angle corners add greatly to their security in time of fire, and form the only solid corners made. The patent BOLT-WORK is superior to any in use, and does not require constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them eve failed to preserve its contents perfectly. They make safes for County Treasurers, County Recorders, County Clerks, Jewelers, Hotels, Residences, Churches and Corporations. We have a Large Assortment of Safes on hand and will be pleased to show same.

A HEAVY LEAD.

There is nothing more beautiful than Nature. Man has never painted, sketched or builded from any other model than Nature's own. The delicate tints of the masterpiece have their origin in the color chart of Nature; the tracings of the drawing follow the curves and angles laid down by Nature's law; whatever the temple or the shrine, its outline, conformation, its shades, primarily found birth in the works of Nature. Man attempts to create the perfect, but all his material is drawn from the unlimited stores held by Nature.

While we cannot attain absolute perfection in this day, it is our duty to approach the perfect as nearly as our best-directed efforts will permit. In every line there is a leader and the Douglas Patent Closet leads its own particular class of wares.

POLICE AND SAILORS

The rifle and revolver shoot between the Amphitrite and the police sharpshooters, took place yesterday afternoon on the Kakaako range. The sailors came out victorious in the revolver shoot, being 18 points ahead of the police. The police on the other hand beat the sailors with the rifle by one point. The scores were as follows:

NEW RECORD-BREAKER STEAMER

Berlin, April 14.—Emperor William's eyes and those of the whole German shipping world are centered on the great 6-decker, Kaiser Wilhelm II, which left Bremerhaven on its maiden voyage to New York at noon today. His Majesty shares the hope of the owners that his namesake will prove the swiftest liner afloat and be the first to cross the Atlantic under five days. The result of the trial trip from Stettin to Swinemunde a week ago was kept secret, but it was learned today that the leviathan easily accomplished the contract speed of 23 1-2 knots.

The North German Lloyd officials say that no attempt will be made to push the new vessel on its initial passage, yet if it should encounter fair weather they hint that it is likely to do sensational things. At any rate they are very confident that before the season is very old the Kaiser William II will break the trans-Atlantic speed record now held by the Deutschland. Among the distinguished passengers on board are Theodore Lewald, the German Commissioner to the St. Louis Exposition, and Privy Councilor Schlutow, general manager of the Vulcan Ship Works.

NEW BOARD OF HEALTH.

The Board of Health held a special meeting yesterday afternoon to consider its status under the new law. This requires that the president be appointed as such by the Governor and that the appointive members of the board consist of four laymen and two physicians. Governor Dole having referred the choice of president to the Board it nominated Dr. C. B. Cooper, who had resigned the office on the passage of the bill. Dr. W. L. Moore and E. A. Mott-Smith had also resigned as members and the Board nominated in their places, for the Governor to appoint, A. Gartley and L. E. Pinkham. The Attorney General remains ex officio a member, so that the reorganized Board of Health will probably be composed as follows:

Dr. C. B. Cooper, president; Dr. W. H. Mays, Attorney General Lorrin Andrews, Fred C. Smith, Mark P. Robinson, A. Gartley and L. E. Pinkham.

Y. W. C. A. GYMNASTICS.

The gymnastic exhibition of the Y. W. C. A. will take place in the gymnasium of the Y. M. C. A. this evening, beginning at 7:30 o'clock. All members participating are expected to be present at 7:15 o'clock. Tickets will be 50 cents for adults and 25 for children. These will be on sale at the entrance. The following program has been arranged:

1. Grand March—All Classes.
2. Wands, Dumb-bell Drill. Fancy March—Children's Class.
3. Barbell Drill, Indian Clubs, Ball Drill—Ladies' Class.
4. Barbell Drill—Miss Bacon.
5. Dumb-bell Drill, Fancy March—Ladies' Class.
6. Basketball—Reds vs. Whites.

Y.M.C.A. ANNIVERSARY

The Y. M. C. A. hall was crowded last night, the event being the celebration of the thirty-fourth anniversary of the organization of the association in Honolulu. The exercises began with a prayer by Rev. W. D. Westervelt, followed by a quartet of male voices, next came the annual report of Henry C. Brown, secretary, followed by a report by Treasurer Charles H. Atherton, showing a most gratifying financial condition. A string quartet composed of B. L. Marx, W. A. Love, Arthur Davies and O. E. Wall played a fine selection and then came the report of Physical Director Fred C. Young, showing a great increase in interest on the part of the boys and young men in the work of his department. Rev. E. S. Muckley had a few things to say about the "Boys" and then Dr. Wood presented the report of the Educational Committee. W. W. Hall read the minutes of the first meeting of the Association, held in Honolulu, on April 30, 1869. The minutes showed ten members present at that meeting, four of whom were on the platform at last evening's meeting, and eight of whom are still living.

Governor Dole having found it impossible to be present at the meeting, he was represented by Attorney General Andrews, who spoke of the Y. M. C. A. as a power for good.

Stanley Livingston sang a solo and then the exercises closed with a benediction by Rev. W. D. Westervelt.

SAILORS WALKED ALL AROUND HONOLULUS

The Amphitrite Association football team beat the Honolulu yesterday by a score of 2 to 0 and demonstrated their ability to walk all around the local aggregation. It might have been different had one of the regular teams of the city played against the visitors for it is team work that invariably counts and the local players yesterday were picked from various teams and had never played together.

The sailors played as they would probably fight were they to be placed in close quarters by an enemy. They massed in their plays and there was always a man where the ball was. They were quick and alert and never waited for a ball to roll along on the ground before giving it an impetus in a new direction.

The local players did some good individual playing but when it came to team work, they were lost. The Amphitrite men just simply kept the ball in their half of the field all the while. Catton, goal keeper for the Honolulus, was responsible for the first goal. It was an easy one and should have been stopped but the young man went the wrong way about it and so the sailors scored. A goal keeper in Association football must be a man who is a veteran at the game and knows all of the tricks used to get the ball between the two goal posts. It is the most responsible position on the field.

The Honolulus had the ball between the goal posts at one time during the first half but the score was disallowed on account of an off-side play.

During the first half, Mr. Beardmore was hurt in a scrimmage by one of the men on his own side. It was two or three minutes before he could rise from the ground.

No scores were made in the second half.

The teams were as follows:

Amphitrite.	Honolulu.
G.	
Sproat	A. A. Catton
B.	
Parker	S. Beardmore
Wright	R. Anderson
H.	
Scott	McGill
Haskins	A. Guild
Davidson	R. Churton
F.	
Peggs	Simpson
Kendrick	Birkmyre
Liley	Lansdale
Clarridge	R. R. Catton
Wester	J. A. Catton
Linesmen.	
Dougless	J. Anderson

Referee—J. W. Waldron.

On Saturday afternoon there will be a game between a team from the torpedo-boat destroyers and the local players.

SALON LACKS ORIGINALITY.

A cable to the New York Sun from Paris says: This was varnishing day at the salon of the National Society of Fine Arts. The general opinion is that the exhibition is below the average, though, as often happens in such cases, it is relieved by a few works of remarkable merit.

Eugene Burnaud's "Jesus Resting at Bethany," a curiously strange example of the impressionist school, deserves chief mention. If it were hung in a church it might easily pass as the work of an ancient master, so reverential is the treatment. Christ is represented as sitting slumbering, with his clasped hands resting on a table on which there is a loaf of bread. Martha and Mary are seen approaching, the former bearing a basket of fruit, while Mary's hand stays her further approach, fearing Christ will be awakened. The color, drawing and craftsmanship are faultless, and the execution truly remarkable.

Sargent's portrait of the Misses Hunter is delightful, the pose and finish of the work attracting general notice. The general note of the exhibition is repetition and lack of originality, daring and new ideas, which have been eclipsed by color schemes.

A few years ago trouble in the Orient would have given rise to a request from Uncle Sam for some other nation's warships to look after his interests. The assembling of American warships at Yokohama is a demonstration to the American people that it pays to have a good sized navy.

One of the first steps of the Republicans of the House was to nominate a Home Ruler for Speaker.—Advertiser.

This statement displays what the morning press calls almost human intelligence. The Republicans responsible for a Home Rule Speaker of the House were seven bolters from the Republican House caucus.

Despite all the talk about waste of money the Judges of the First Circuit Court freely go on record in notifying the Legislature that the work of the courts can only be done by proper assistance being supplied. Which all goes to show that the talk was political "guff" and the judges know their business.

Early in the legislative session the morning press had much to say of a "small office struggling unavailingly with a large job" and now it sets up a howl because the Bulletin did a good share of the legislative printing because of the Bulletin's ability to handle the work promptly and accurately. Really the various windings of the morning press in expressing its desire that the Bulletin shall not do business are past finding out, and finally serve no other purpose than adding to the fund of public amusement.

Governor Dole is said to have failed to sign the St. Louis Commission resolution because the Organic Act requires the Governor to appoint all Territorial boards. Whether the interpretation of the Organic Act is right or not the practically unanimous vote given the resolution clearly defines the desire of the Legislature irrespective of party lines. The Governor can easily and should properly carry out the spirit of the resolution by accepting the plan outlined when naming the Commission which will represent Hawaii at the Fair. This scheme is eminently fair and would assure the steadfast support of all elements for the St. Louis exhibit.

WARNING TO RANCHERS AND FARMERS

By JNO. M. HORNER.

As I see public attention is being directed to the injury done and being done by suffering the lantana to multiply and spread over large and useful parts of these Islands, rendering such parts so encumbered by the lantana useless to man, and I see plans are formulating and money expended for its destruction or at least against its further spreading, I wish to direct the attention of those interested to two plants, one of which is equal to the lantana in encumbering the ground to the exclusion of all useful plants, and, by the sharp, strong thorns, prevent all four-footed animals from entering the land or maintaining even a path through them. One multiplies by its seed as rapidly as the lantana; the other more rapidly, as it multiplies by both seed and roots. The first is the Canadian thistle, which grows from six to eight feet high and four to five inches at the butt. It seeds and dies within one year's time. It entered our pastures from the east end of Mauna Kea. At first we did not fear it, knowing nothing and hearing nothing about it. For some years heretofore we have waged a feeble war against its spreading; but it has continued to spread until 1,000 acres of our pasture has been monopolized in one field, and as much more scattered over the upper part of the ranch, and it is spreading over adjoining ranches with like rapidity.

We are now waging a more vigorous war against it than heretofore. We now have fourteen men working at them, and if they are kept at it until it seeds, they cannot more than check them. All ranches on this Island will surely be afflicted by it, and if they let it run on, their pasture land will be as surely taken from them as though it was covered by lantana. We hear it has reached Maui.

The other plant is the imported raspberry. It was imported here for the berries it was supposed to yield. It has no worth as a berry plant; but its seeds are distributed over the forests and pastures by the birds. After the seed starts it require no more seeding or care to cause it to multiply, as in a few years it will multiply from the roots to cover acres of ground. On account of its multiplying from the roots, we consider it a more expensive plant to be rid of then either the lantana or thistle, as it spreads more rapidly and no stock, horses, cattle, sheep or hogs will attempt to go through it, and no grass or weeds can hold against it.

We warn all owners of land to beware of it and destroy the first plant that shows itself on their land.

The Government should also brace up against this pest before it is too late, as no settler or rancher would ever buy or lease land covered by it. If the Government takes no action, in a few years it will have no good land for sale or lease. Even many of the homesteaders in Hamakua must look sharp after their possessions, particularly those who have left their homesteads after erecting comfortable houses upon them and fencing them, then gone down to the plantations to work. They are wanting to sell, having abandoned all idea of trying to get a living by cultivating their homesteads. One was heard to say when being asked why he had left his homestead, "If I could have realized sixty cents per day by cultivating my homestead I should not have left."

Let me say to those wanting to sell, they must be sure to keep the lantana, the thistle and the raspberry from taking possession of their lands. The Kukaiau plantation has expended considerable money the past two years to prevent this raspberry from taking possession of the lower part of their ranch, some twenty-five workmen having worked at least four months at it. The same land has to be gone over several times before the plant is subdued because of the vitality of the roots.

FIRE CLAIMS PAYMENT.

What's delaying the fire claims money? is a very general question these days. Treasury Agent McLennan has said that he will pay the money as soon as the properly signed schedule is received from the Governor and the bond question is decided; if claimants would not take the bonds he would proceed to pay out the million dollars in coin on a pro rata basis. A few of the largest claimants have signified their willingness to take a proper proportion of the bonds and the Governor's schedule was said to be finished by the typewriters early in the week.

The payment of the claims seems to be tied up between the Governor's schedule and the bonds. Meanwhile the claimants want their money.

Just where the blockade on the bonds exists has not been made public if it is known. The public has been advised that Bishop & Co. one of the largest claimants is ready to take bonds and there the matter seems to have stopped. A meeting of possible bond-taking claimants has been proposed but nothing has thus far come of it. The whole matter seems to lack an aggressive leadership from the Territorial headquarters to which the people naturally look for initiative action. Certainly a meeting of claimants cannot be secured by desultory talk that something ought to be done. If the Territory cannot whip this phase of the question into businesslike shape, it is up to the business community to take a hand and see if its influence can raise the apparent blockade. Treasury Agent McLennan is ready to act. Everybody seems willing, but results are lacking.

As implied in Commissioner Pratt's communication, this Territory cannot afford to let the bond issue go begging. Some may consider one per cent to be a high price to pay for patriotism, but this Territory will make a mighty poor showing if it cannot go this far toward meeting the liberality of the United States Congress. The Bulletin agrees that it is about time for the Territory or business bodies to take definite action which will pull the fire claims affairs out of the doldrums and set the wheels of payment in motion.

ANCIENT AND MODERN REPORTING.

[New York Sun.]

In old times there was three ways to report testimony, the verbatim, the sketch and the summary. Let us give an example:

"John Smith sworn and examined by Mr. Jones:

"Q. What is your business?

"A. I am a carpenter.

"Q. How long have you worked at your trade?

"A. I have worked at my trade for twenty years.

"Q. Do you know the defendant?

"A. I do.

"Q. How long have you known him?

"A. I have known him for the past ten years."

So much for the verbatim. Now for the sketch:

"John Smith on being sworn said he was a carpenter. He worked at his trade for twenty years and knew the defendant for ten years."

And the summary:

"John Smith, a carpenter, knew defendant for ten years."

The yellow fever, however, has evolved a new style of reporting:

"John Smith, a tall and angularly formed fellow with bushy red hair and flaming whiskers, was sworn. He kissed the Book with a resounding smack, adjusted his green necktie, sat down in the witness chair, ran his right hand through his ruby locks, crossed his legs, which were closely incased in blue and white trousers of the latest cut, and then looked straight into the eyes of Counsellor Jones. In solemn tones the latter asked him his business. 'I am a carpenter,' was the humble reply made in a clear and high-pitched voice that was heard distinctly in the remotest corner of the court room.

"'How long have you been a carpenter?' ask Mr. Jones with a threatening look in his left eye. "I have been a carpenter, sir,' said the witness with great dignity and fully appreciating the importance of the question, 'during the past twenty years.' Then Mr. Jones drew himself up to his fullest height, and extending his right arm at an angle of forty-five degrees he brought it down again swiftly until his huge fist struck the table with a horrible dull thud. 'Do you know the defendant?' he shouted in thunderous tones. 'I do,' was the reply, made in accents pitched in a high key which contrasted strangely with the cavernous tones of the learned counsel. Then Mr. Jones with flashing eyes and clenched fist coiled himself up like a serpent and hissed, "How long have you known him?' 'Ten years,' was the answer tossed back to the lawyer with lightning-like rapidity."

Well, this method of reporting may be very beautiful, but it makes rather tiresome reading, and in these days when few citizens can afford the luxury of reading themselves to sleep, blatherskite reports of murder trials are very much avoided.

KISSED CABMAN; WON WAGER.

New York, April 20.—One kiss and a fervent hug administered to a cabman by a daintily gowned young woman who had just stepped out of the Waldorf-Astoria on Sunday night decided a bet and caused much talk inside the hotel and out of it.

Miss Elizabeth Trask of St. Louis had been dining in the Waldorf with three men, and another woman. She remarked that she was proud to say she never took a dare.

"I'll wager a box of gloves to a case of wine," said Frank Fuller, one of the party, "that you are afraid to kiss the cabman."

The girl closed the bargain by instantly arising from her place at the table. "Show me the cabman," she said. The party adjourned to the sidewalk and Fuller called a cabman from his seat. Miss Trask threw her arms around the cabby's neck and kissed him. Then Fuller gave him a big tip. Miss Trask and her party then got into the carriage and departed. After it was all over, the man who was kissed said to another cabby, "Pinch me; I can't believe it."

THE BRIDE'S DREAM.

A Honolulu bride has written to her friend as follows:

Dear Elsie:—In your last letter you wanted to know where we spent the honeymoon and whether we went to the coast? No indeed we never left the Islands. We went to Hilo for a few days and had a lovely time, but I was glad to get back to dear old Honolulu. We have had the cottage all fixed up and you wouldn't know it. You remember that southeast room, where the sun poured in all day; you know we called it the oven on account of it being so hot; well you should see it. It's simply a dream and too lovely for anything, so cool and restful. The ceiling is done in a cloud effect, and the walls papered with the cutest blue and silver paper you ever saw, and a dado of darker blue burlap with a conventional design picked out in silver. When we went away we just left the cottage in the hands of Messrs. Sharp & Wise, the painters. Harold calls them the Wizards of the Paint Brush, and their charges are so reasonable too. Mother has just called, so I'll post this and write you later on and tell you all the news.

Your dear friend,
MRS. HAROLD DELMA.

LONG COURT CALENDAR

NICE POINT RAISED ABOUT THE OPENING

CIVIL JURY SUMMONED FOR HALF AN HOUR BEFORE THE CRIMINAL JURY.

The calendar for the May term of the Circuit Court of the First Circuit, to open on Monday next, has been issued in exceedingly neat and convenient form. It was printed by the Bulletin Publishing Company. Judge Robinson will preside at the term, charging the grand jury on Monday morning next. Judge De Bolt will hold jury trials of civil cases. A separate jury panel for each court has been summoned.

There is a total of 354 cases on the calendar. Of these 47 are criminal and 51 jury waived cases, leaving 256 civil cases for trial by jury. The criminal cases entered are continuances from the previous term and appeals from the District Court, therefore will be increased by as many indictments as the grand jury may present.

Judge De Bolt has had his jury summoned to appear at 9:30, half an hour before Judge Robinson's jury has been summoned to appear. It is a nice question as to whether Judge De Bolt can legally open court in term before the term has been opened by the presiding judge thereof.

Kimura, under death sentence for murder, is given ten more days from April 30 within which to file his bill of exceptions.

Joseph Seward by his attorneys, Leon M. Strauss and E. A. C. Long, denies every allegation in the nature of cause in the lebel for divorce brought by his wife, Mary Rosa Seward.

Return of summons has been made in the case of Chau Kai vs. Wm. C. Achi and wife, in which the plaintiff claims $525 for the release of a mortgage on land sold to him by defendants.

The deferred points in the damage suit of R. M. Fuller vs. Rapid Transit Co. are being heard by Judge Robinson.

The Fowler steam plow cas eis still on before Judge De Bolt.

W. O. Smith, guardian of Annie Hall a minor, has rendered his final account showing receipts of $1603.03, payments of $182 and balance of $1421.03. The inventory shows an undivided half interest in about 6 ¼ acres of land at Aala, Honolulu, a piece of taro land at Hauhaukoi, balance of $200 on a promissory note and the cash balance in guardian's account above stated.

DOLE ON AMPHITRITE.

Governor Dole and his staff, accompanied by several ladies and gentlemen, called aboard the cruiser Amphitrite yesterday afternoon and a salute of seventeen guns was fired from the Amphion. Consul Hoare was also in the party, the members of which were very courteously received by Captain Windham and the officers of the Amphitrite. Upon the departure of the Governor, the Amphion fired a salute and was answered by the saluting battery at the Naval Station.

The after deck of the big Amphitrite was covered over with flags, the American and Hawaiian being prominent. It was on this deck that the visitors were received. Among those present besides Governor Dole were: Mrs. Dole, Consul and Miss Hoare, Prince and Princess Kalanianaole, Sir Somers Vine, Captain and Mrs. A. G. Hawes and Col. Soper.

CAUSE FOR DIVORCE.

Los Angeles, April 16.—When his dear wife tore his shirt off his back and hit him on the face with a bowl of mush, he thought that was a good place to quit and left his happy home. His family troubles were told in Judge Trask's court today. His name is E. D. Barbour. He was artist and architect in New York before he came here a year ago. His spouse was a woman doctor. When he married her she was a widow from North Carolina, with $10,000, and she got the idea that he had married her for her money. She proceeded to make life interesting for Barbour.

She started in on his table manners. One day he went to reach for cheese before cheese time and she called him an ignorant hog and hit him with a plate of biscuits. But the time when she settled Barbour was one day when he was superintending the construction of a large building in New York. She went around to see him and he didn't talk up to the scratch. She grabbed him by the scruff of the neck and tore his collar off. The shirt parted with a screeching zip of a tear. His coat gave way with a gutteral sound. Then he fled wildly down the street in sight of his forty terrified workmen, the woman in full cry after him. Then he moved to Los Angeles. On another occasion he went home at night after the hour and she threw a bowl of gruel in his face.

Judge Trask granted him a divorce.

WOMEN TO RUN A PAPER.

Incorporation papers were filed at Spirngfield, Ill., April 16 for the Chicago Daily Bulletin, a 1-cent afternoon newspaper, which will be owned and edited by women. It is said that the entire $100,000 of capital stock has been subscribed for.

Dr. Mabel E. Bowen will be managing editor, Dr. Frances Dickinson business manager, and Mrs. Alice S. Blount will be editorial writer. These three women are also the incorporators and directors. The first issue will appear May 15th. There will be but one edition, and that at 5 o'clock.

The sporting editor will be a woman and will come from New York. Her name has not been made public. Races, baseball and football games will be reported by women. All of the crime and police news will be reported by a woman, who will look to the medical side of each case. The cartoonist will also be a woman. There will be about six men on the staff, while the remainder will be women. A few of the copyreaders will be men. Twice a week there will be a supplement for men.

MISS JANET NEWLANDS TO WED.

Washington, April 15.—The wedding of Miss Edith Newlands, daughter of Senator Newlands of Nevada, to Chas. H. L. Johnston of Southboro, Mass., which occurred here yesterday at "Woodley," was followed today by the announcement of the engagement of Senator Newlands' second daughter, Miss Janet, to the groom's brother, Dr. William Johnston, son of the late Dr. W. A. Johnston of this city. Like his brother, Dr. Johnston is a graduate of Harvard.

DOLDRUM DAYS.

Everyone knows what Doldrum Days are, when the air seems thickened, the atmosphere muggy, appetites fail and general interest declines. It is then, or rather now, with the weather we are having, that the average man finds out that his liver is torpid and looks around for a remedy.

The remedy lies within reach. Laughter, or the art of cacchination, is a known stimulator of the digestive organs and a healer of minor troubles. The diaphragm lifts, the lungs expand, the muscles stretch and the blood goes coursing through the veins with an added zest, the quick circulation acting like the removal of a temporary dam in a stream.

Laughter is furnished in three doses at the Orpheum this evening with the performance of a "Bachelor's Honeymoon" and a cure is guaranteed, "Cinderella" is announced for the matinee tomorrow afternoon.

CAMP M'KINLEY NOTES.

Sergeant Egan, who has been for a long time stationed at Camp McKinley with the Artillery, leaves for Manila in the transport Sumner, he having received by the last steamer from the Coast papers promoting him to be an ordnance sergant. Egan took his examination last year and has been waiting patiently ever since for advices regarding the result.

On Monday next will begin the range target shooting by the soldiers of Camp McKinley at the range on the slopes of Diamond Head.

CHARITY FUNDS IN SALARIES.

Chicago, April 15.—Sharp criticism of the expense of conducting Chicago's charities and equally severe condemnation of the city's inadequate facilities for caring for sick children were meted out with an unsparing hand by Dr. John B. Murphy at a conference of the Children's Hospital Society, held this afternoon before the Chicago Women's Club.

"From 30 to 64 per cent. of the money contributed to Chicago organizations for charitable purposes is spent upon salaries and expenses," said Dr. Murphy. One well-known institution which receives $300,000 a year, spends $119,000 of this sum in salaries. Another, which has contributions amounting to $116,000, spends $44,000 for salaries and administration expenses. Others, which receive respectively $77,000 and $65,000, pay out for these purposes $17,000 and $20,000.

"The sole institution which appears to be an exception to this rule is the United Hebrew Charities. This organization received last year collections amounting to $156,000, and spent by $4,241 of this amount in salaries and expenses."

Dr. Murphy's criticism was uttered in an appeal for funds which he made on behalf of the Children's Hospital Society. The speaker stated that the only expenses of this institution were the stenographer's salary and $16 per month for room rent. He said that under economical administration the cost of giving a sick child proper medical treatment could be reduced to $3.50 a week.

Senator Morgan, voluminous talker that he is, does not prepare his speeches beforehand, and he does not dictate his ideas to a stenographer. What he does write out in the way of notes he does himself and in long hand. Recently a Senator asked the Alabaman how long he had been training for a fight against the Panama Canal. "For seventy-nine years," he replied, with some show of indignation.

Senate Committee Report On Public Land Administration

Following is the report of the Committee on Public Lands, etc., presented to the Senate Tuesday:

"Senate Chamber, Honolulu, T. H., April 27, 1903.

"Hon. Clarence L. Crabbe, President of the Senate.

"Sir:—Your standing Committee on Public Lands, Internal Improvements, Agriculture, etc., having had under consideration a report from the special session of the Senate of this Legislature relative to the Territorial Land Bureau, begs leave now to communicate with this body upon the subject. Your committee finds and believes that the land laws of Hawaii are as a whole admirably adapted to conditions within the Territory and contain a number of features that show a distinct advance upon land legislation elsewhere. The provision in our law whereby communities or associations of settlers or small farmers are enabled to secure lands of the best agricultural character upon most reasonable terms is an excellent one and one calculated to steadily increase a population that will assist very materially in the development and upbuilding of the Territory. On account of the large amount or volume of the leasing feature of the administration of the land laws, and for other reasons, we believe that there should be added early to the force in the land office an expert accountant.

"There was brought to the attention of your committee a number of complaints to the effect that there had been not a few cases of serious and vexatious delays in the delivery of patents to claimants who had complied with all required conditions. This is a matter which should be remedied at once. The explanation of the Commissioner is that he has been hampered in his work by lack of sufficient office force. We believe that neither effort nor expense should be spared in providing claimants with proper titles and with every incentive to settle upon and improve lands.

"We find that there are on record many cases of wrong descriptions of lands through errors in surveys. As a matter of fact in recent years many errors have been made in surveying and plotting lots and before patents can issue it will be necessary to have resurveys. Some of the most glaring mistakes have been made in the Olaa district. We believe that some limit should be specified in the issuance of patents calling for so many acres of land 'more or less,' as we find that in some instances this variation of 'more or less' has been over 100 per cent.

"Your committee felt that it was necessary to have a thorough examination of the books, accounts, etc., of the land office at Honolulu and employed a competent expert of the city for the work. The audit and examination ... been finished and the reports ... with a considerable amount of ..., following up a large number of ... and showing fully a number of transactions about which there had been complaint or question.

"We find that the land office has been administered honestly and industriously by the present incumbent, but that in the matter of keeping its records a thorough organization is imperatively demanded. The office force was reduced by the Legislature two years ago, and this in the face of the rapid increase of the business of the bureau, which is growing daily and which has quite outstripped the old system of accounts. We find that all the transactions of the office have been brought before the 'Governor's Council' for consideration before consummation and that in all cases the conclusions of the 'Governor's Council' have been followed. On the advice of your committee the head of the bureau caused to be settled up a number of outstanding lease accounts and secured a more thorough understanding of a number of arguments.

"It is the opinion and recommendation of your committee, as intimated above that this important office should be properly equipped in every way, and that without unnecessary delay. Not only should the clerical force be somewhat increased, but there should be installed a modern system of accounting, checking, etc., whereby it would be a simple, quick and easy thing at any time to learn any and all of the particulars relative to each lease and to all of the public lands of the Territory.

"Respectfully submitted,
"L. L. M'CANDLESS,
"J. D. PARIS,
"J. B. KAOHI,
"Committee."

This report was received so late in the session that the only thing that could be done, by way of giving recognition of the committee's labors, was to order it spread upon the records.

FREE TRADE DOOMED.

A cable to the New York Tribune from London, dated April 18th, says: Canada's decision to impose a surtax equaling one-third the present duty on German goods is considered by the majority of people here a practical attempt to deal with the great tariff question. The Globe winds up a sensible and sympathetic leader on the subject with the remark: "By this time it must be beginning to dawn on Teutonic statesmen that it is a much mistaken policy to attempt to intimidate and bully British colonists."

There are evident signs of relief among Tory writers over the discovery that the Canadians are prepared to stand up against Germany, even if the British Ministers take ideas with due humility from Berlin on the Venezuelan question, and possibly, also, on Mesopotamia. The Dominion Government is regarded as having acted with deliberation and not impulsively, as Germany has had ample warning from Ottawa against the application of coercive principles.

Stock Exchange men found plenty of time yesterday to discuss the situation and the opinion was freely expressed that if Canada found it would pay to adopt protective measures, public opinion in the mother country would be greatly influenced, and the doom of the so-called British free trade would be brought appreciably nearer.

EDUCATIONAL DEGREE.

A bachelor's degree for two years' work is to be granted by the University of Chicago. It is to be called the Degree of Bachelor of Education and is to be given for two years of strictly professional work in the line of pedagogical preparation. Students are to be admitted to this special course for teachers either from the junior colleges at the university or from certain approved high schools.

Schlitz

AFTER AN HEIRESS.

Armed with documents to verify his claim to nobility, Marquis Arthur De Mayo Durrazzo of Naples, Italy, has come to New York with the avowed intention of marrying an American heiress, and in evidence of his earnestness recently advertised to this effect.

The Marquis thinks New York is the Mecca for heiresses.

"There is more money in New York than in all Europe," he said when asked why he came to New York instead of going to some other large city.

"You see," said the Marquis, "I am young, and would like a young and beautiful bride with the large dowry. So I come here to find it. American girls are beautiful beyond all others."

Asked if $100,000 would be a fair dowry, he said, "It would do, but it is not much return for the honor my title brings. My family is nearly 650 years old and has large estates near Naples."

Passports from Naples, signed by the Mayor, say that "Arthur, Marquis Durazzo, is of good moral character and the son of Francois, Marquis of Durazzo, a wealthy man of Naples."

CENTURY-OLD CLAIM.

After four generations of Christophers had fought and waited sixty years or more for their share of the spoliation claims' award growing out of the desultory naval warfare between this country and France in 1801, Mrs. Mary Christopher, a widow, whose home is in Brooklyn, and her son, Thomas Y. J. Christopher, are assured by their lawyers that they will soon receive from Washington at least $17,000 as their share of the award.

Their claim is based on the capture in 1801 by the French of the ship Ganges, owned in part by Vermilyia Christopher, a prominent ship owner and merchant in this city.

When France sold Louisiana to the United States one of the stipulations was that $3,750,000 of the purchase money was to be set aside to pay the spoliation claims. The son of Vermilyia Christopher put in a claim for a share of this fund because of the Ganges, and the fight has descended to his grandson, who, with his mother, is assured by the lawyers that they soon will receive at least $17,000.

DISSATISFIED WITH CORNERS.

Chicago, April 17.—The constant manipulation of the grain markets by leading operators is causing much dissatisfaction among the members of the Board of Trade for the reason, it is claimed, that such tactics not only serve to drive much business away from the smaller dealers, but have a tendency at all times to destroy the legitimate position of values. It is reported that a number of dealers have organized a combination to fight the millionaire promoters of "corners" and "pools," by means of which prices are unduly influenced, but careful inquiry today failed to disclose the existence of any such association. That the directors of the Board should take some action to prevent manipulation of the markets is the opinion held by the leading men on change.

The Armour forces apparently were little daunted by all the talk against their position in the wheat market, and went right along supporting prices.

At Niagara Falls 35,000 horsepower is used in twenty different electrical processes for producing metals and chemicals.

SPANISH SUGAR TRUST

Consul General Lay at Barcelona reports to the State Department as follows on the development of a Spanish Sugar Trust:

After the loss of the island of Cuba, attention was turned to the possibility of producing beet sugar on an extensive scale in Spain. The prospect of a lucrative investment attracted capital, and large factories were erected and wide tracts of country were devoted to the cultivation of the beet. Overproduction quickly ensued, and stocks of sugar have been accumulating year by year, with little probability of any improvement in the condition of the trade or chance of the surplus being disposed of in foreign markets. Manufacturers of cane and beet sugar have, therefore, decided to endeavor to form a trust to control the production and regulate the sale of sugar in this country. Negotiations have been going on for some months, but thus far with no tangible result, although according to the latest reports 90 per cent of the sugar manufacturers have joined the combination.

It is feared by many that the ultimate aim may be the securing of a monopoly for the sale of sugar, in return for a yearly payment to the State, as it is argued that the success of the trust depends entirely upon some such security against future tariff alterations. It is this fear that has aroused a widespread opposition to the proposal, and strong protests are being sent to Madrid from all parts of Spain. The manufacturers of products into which sugar largely enters are especially interested in preventing the price from being increased, and the general public, who now pay the equivalent of about 10 cents per pound for ordinary loaf sugar, do not view with favor a scheme which will probably result in enhancing the cost of this article. On the other hand, those who are working for the formation of the trust maintain that their object is not to increase but to cheapen the cost of sugar by selling direct to the consumers. They point out that while the public is paying 140 to 150 pesetas ($19.99 to $21.42) per 100 kilograms (220.46 pounds), the dealers are buying from the mills at 95 to 100 pesetas ($13.56 to $14.28), and that the large margin of profit here shown might be divided between the trust and the public. Foreign sugar under the present tariff costs here 120 pesetas ($17.13) per 100 kilograms, but the trust, they say, would be able to advantageously supply the consumer at the price of 115 pesetas ($16.42).

APRIL BREAKS RECORD.

New York, April 18.—This month is expected to break all records for immigration at this port. At the close of today's business 64,000 aliens had passed Ellis Island in eighteen days. Those scheduled for the remainder of this month indicate that the total for April will exceed 90,000.

May last year, with 82,000 immigrants, is the record month at the island. Reports from European sailing ports indicate that more than 100,000 aliens will arrive next month.

So Many People are Exposed to rain, cold and storms, that it is necessary that they should have something to counteract the effects. A mixture of a teaspoonful of PAIN-KILLER in water sweetened, will stimulate the system and ward off any possibility of cold. It has been used for sixty years all over the world, and millions testify to its sterling worth. There is but one Pain-Killer, Perry Davis' Price 25c and 50c.

Curious Arithmetical Results.

The following interesting table recently appeared in "Success":

123456789	times	9	plus	10	equals	1111111111
123456789	times	18	plus	20	equals	2222222222
123456789	times	27	plus	30	equals	3333333333
123456789	times	36	plus	40	equals	4444444444
123456789	times	45	plus	50	equals	5555555555
123456789	times	54	plus	60	equals	6666666666
123456789	times	63	plus	70	equals	7777777777
123456789	times	72	plus	80	equals	8888888888
123456789	times	81	plus	90	equals	9999999999

This table is still more interesting, when it is noticed that each multiplier is divisible by 9, and that, when the figures of each answer are added together and the added number is subtracted, the answer is 0. For example, the sum 1,111,111,111 is 10; 10 minus 10 to 0.

Fully as curious results will be found in other combinations of figures, for instance:

20 GALS. OF SHERWIN-WILLIAMS MIXED PAINT AT $2 EQUALS $40.

Subtract from this the figure 40 and you will arrive at the exact number of "troubles" you will have as a result of using the best mixed paint made.

SENATE.

(Continued from Page 1.)

Senator Isenberg moved to refer the item to the Public Lands Committee. Carried.

On motion of Senator Achi the item of $15,000 for landings on Molokai was reduced to $1000, as $5000 was appropriated for Kalaupapa breakwater in a special bill at the regular session.

Conference Committee.

Chairman Knudsen appeared in the chamber at the head of a committee from the House of Representatives, to meet one from the Senate in accordance with the latter's concurrent resolution of the first day, for the purpose of arranging the order of work on the different appropriation bills.

President Crabbe informed the House Committee that the Senate had not yet been notified of the passage of its resolution by the House. Whenever so notified the Senate committee would meet that of the House.

President Crabbe suggested that Senators of the respective islands should nominate members of the committee so that each island would be represented. The Senate preferred to leave the appointments with the President, who thereupon appointed the following:

Senators Dickey, Kalauokalani, Achi, Woods and Wilcox.

The House shortly afterward notified the Senate of its passage of the resolution and the appointment of these members of the conference committee:

Representatives Knudsen, Vida, Aylett, Pulua and Andrade.

A recess of 15 minutes was declared to permit the holding of the conference.

Two New Bills.

Senator McCandless in the meantime had introduced the following two bills, which passed first reading:

1. An Act authorizing the issue of $2,228,000 of bonds of the Territory of Hawaii and defining the purposes to which the proceeds thereof should be applied.

2. An Act appropriating money for the immediate uses of different departments.

Conference Report.

The committee returned after an absence of 45 minutes.

Senator Dickey made an oral report, saying Senator Achi had been appointed chairman of the joint committee, and an agreement had been made on division of work. The current expense appropriations were to be made into two bills, one for six and the other eighteen months.

Senator Achi reported orally that the conference agreed the Senate should take the unpaid bills and the salary appropriations, dividing the latter into six month and eighteen month periods, while the House would take the loan and current expense bills.

The reports were accepted.

Session Expenses.

On motion of Senator Kalue, the bill appropriating $5000 for the expenses of the extra session was taken up. It passed second reading, to be read a third time tomorrow.

Unpaid Bills.

On motion of Senator McCandless, the bill appropriating money to liquidate unpaid bills of the Government was read a second time.

Senator Dickey, after the reading, called attention to messages from the Executive requesting the addition of certain items.

Senator McCandless moved the insertion of the following items:

Olaa Sugar Co., school house and dwelling house, $3500.

Oahu Sugar Co., teacher's dwelling house, $1153.25.

Miss A. Z. Hadley, repairs to cottage, $357.57.

Carried.

Senator Kalue asked an explanation of the item of $273.50 for "miscellaneous."

Senator Paris, chairman of the Public Expenditures Committee, thought it was composed of items for the Tax Office.

The item was referred to that committee for an itemized report.

President Crabbe asked whether a certain item for the Inter-Island Steam Navigation Co. was in the bill. He was informed that if not it could be inserted on second reading.

The bill passed, to be read a third time tomorrow.

Organic Act Limit.

Senator Achi presented the following concurrent resolution:

"Resolved, by the Senate, the House of Representatives concurring, That the appropriations under the Loan Bill shall be kept within the amount allowed by the Organic Act.

"Resolved, further, That, after deducting from the total loan allowed for two years the appropriations made in the bill as introduced for Territorial improvements, the balance of the Loan Appropriation Bill be apportioned among the several counties and referred to four joint committees to be composed of the Senators and Representatives from the several Senatorial districts."

Carried.

Petition from Judges.

The following communication was read:

"Honolulu, April 30, 1903.

"To the Senate of the Territory of Hawaii.

"Gentlemen:—During the regular session of your body we addressed a communication to Senator Cecil Brown chairman of the Judiciary Committee, asking that you insert a provision in the Appropriation Bill for three stenographers for the Circuit Court of the First Circuit, as well as three clerks and three bailiffs, one of each to be appointed by each Judge.

Since then a bill has been passed expressly authorizing the Judges to hold separate sessions of the court at the same time, it evidently being the desire of the Legislature to facilitate the trial of causes in this circuit. To accomplish this end it is absolutely essential that each Judge be provided with a stenographer and other officers necessary to constitute a court.

We wish to state in this connection that despite our utmost efforts to clear the calendar during the last two terms of this court, the number of civil cases pending has been constantly increasing, and it is necessary that all three Judges shall hold court at the same time in order to clear the calendar, and this can only be done by providing each Judge with a full corps of officers.

"We would therefore respectfully urge you to provide in the Appropriation Bill for such officers, that is: three stenographers, three bailiffs and three clerks, one of each to be appointed by the First, Second and Third Judges respectively.

"We beg to remain, yours truly,

"J. T. DE BOLT,
"First Judge, etc.
"GEO. D. GEAR,
"Second Judge, etc.
"W. J. ROBINSON,
"Third Judge, etc."

On motion of Senator Isenberg, the communication was referred to the Judiciary Committee.

After a vote of thanks to the officers, moved by Senator Isenberg, for copies of photographs of the Senate grouped, the Senate adjourned at 12 o'clock for the day.

TO FIGHT FOR MACEDONIA.

Rome, April 20.—Ricciotti Garibaldi, leader of the Italian volunteers in Greece during the war with Turkey, has received letters from almost every country in the world from men who volunteer to join his expedition to free Macedonia from Turkey. These offers include the formation of a battalion of yeomanry and cavalry in South Africa. Many offers to volunteer have been received from the United States. Proposals for assistance also have been received, including an enthusiastic letter from Countess Hortense de Nicolai, vice president of the Woman's National Alliance for Peace.

It is rumored, however, to be Signor Garibaldi's opinion that no serious rising in the Balkans is possible this year.

HOUSE.

(Continued from Page 1.)

have in their hands which had not been presented during the regular session.

The clerk read a communication from the Senate submitting the concurrent resolution of Senator Dickey providing for a conference committee on the appropriation bills. The resolution was adopted.

Speaker announced the following House Committee: Messrs. Knudsen, Aylett, Vida, Pulua and Andrade.

Mr. Beckley announced that it might be well to adjourn until Monday in order that the committee might have time to work, see the Governor with reference to a disposition of the work between the Senate and House, and allow the clerk time to insert in the bill the amounts mentioned in various resolutions adopted by the House and others that the conference committee might decide to insert.

Mr. Chillingworth stated that in the bill relating to the drawing and empaneling of jurors in the Advertiser, the so-called official publication, published this morning, there was a mistake. The paper gave $2 as the daily pay of jurors. He remembered distinctly when this measure was up before the House. The amount was made $3. The bill went to the Senate and this was cut to $2. A conference committee was appointed and the compromise of $2.50 with 10 cents mileage was agreed on and adopted by both Houses. Mr. Chillingworth said he wanted to know if the mistake had been made by the Advertiser or had gone to the Governor in that state.

The stenographer was asked what he had on the matter and, upon his reply that he would have to look up his notes, Mr. Chillingworth said he would allow the matter to go over for a while.

The following communication from Attorney General Andrews was read:

"Upon consultation with the High Sheriff, I find that in lieu of the $1,200 asked for as an emergency appropriation, and which I understand has been incorporated in the Senate Appropriation Bill, the Police Department of this Territory will require an emergency appropriation of $3,000 to properly carry on its work until June 30.

"The expenses of the various Islands have greatly increased within the last six months, and although every attempt at economy has been used, with unpaid bills for March and April, we have less than $900 of the appropriation for the last two years unexpended, and it is absolutely necessary that the amount mentioned be added thereto, or the Department will be placed in the very awkward position of being unable to carry on its work with two large criminal calendars for the Islands of Oahu and Maui for May and June of this year. Both the High Sheriff and myself will be only too glad to lay further facts before your Honorable Body if you require further information. Respectfully,

"LORRIN ANDREWS,
"Attorney General."

This communication was referred to the House Conference Committee.

Mr. Pulua introduced a bill providing for the expenses of the extra session and for the payment of unpaid bills of the Legislature. Under suspension of rules, the bill was read first time by title and referred to the Printing Committee.

Speaker Beckley announced that unless changes were suggested before Monday, the committees of the House would remain the same as during the regular session.

The Conference Committee having returned from a meeting with a like committee of the Senate, Mr. Knudsen, chairman, announced that there would be a meeting of the committee during the afternoon. He then asked that the House adjourn until Monday in order to give the committee time to work.

The House then adjourned until 10 o'clock on Monday morning next.

BISHOP CAN COOK, COBBLE AND MEND CLOTHES.

A cable to the New York World from London says: The Right Rev. Sheepshanks, Bishop of Norwich, startled a women's meeting this week by announcing: "If any ladies here want lessons in simple cookery—how to make flapjacks or cook bacon — let them come to me and I will teach them. It has been said of a certain King that he was fit to be King because he had blacked his own boots. Taking that reasoning, I am more fit to be Bishop than any one here, because I have cobbled my own boots and mended my own breeches."

These remarks were made in the course of an address, the theme of which was that the maintaining of happiness depends upon inward feeling. Bishop Sheepshanks' experiences referred to were gained while he was chaplain to the Bishop of Columbia from 1859 to 1867. His training as cook he may have acquired in the bringing up of his large family of ten sons and seven daughters, twelve of whom—six boys and as many girls—are still living. The Bishop is 69 years old.

LACKAYE TO STAR IN "THE PIT".

New York, April 21.—After being in comparative obscurity for some time as the leading man in support of stars, Wilton Lackaye will again have a place in the theatrical firmament. William A. Brady will star him in "The Pit," a dramatization of Frank Norris' novel. Channing Pollock is writing the play. After Lackaye returns from the Pacific Coast, whither he will go in support of Amelia Bingham during her tour, he will take up the duties of star.

Pollock is said to have the dramatization of "The Pit" well under way, and it will be ready for rehearsals about the middle of the summer. It is thought that Lackaye will have one of his best opportunities in this production if the play comes up to the story.

Later on it is Brady's intention to present Lackaye in Shakespearean plays. Lackaye was last seen here as a star at the Garden Theater six years ago in "Dr. Belgraff." He had then but recently had his great success as Svengali, and he elected to take what advantage he could of this by impersonating another hypnotist. "Dr. Belgraff" was a failure.

George Sanger, the English circus and menagerie man, started his show with a trick pony which he purchased for $40. That was a good many years ago, for Mr. Sanger is now 75, rich, and the owner of a circus and menagerie worth over half a million.
