VOL. XII. NO. 2320 HONOLULU, TERRITORY OF HAWAII, FRIDAY, DECEMBER 5, 1902 PRICE 5 CENTS.

SAYS SHE WAS UNDER A HOUSE

Maggie Place Makes Her Appearance On Street.

CLAIMS SHE WAS IN CUSTODY OF CHILTON

WAS THREE MONTHS IN A CELLAR—H. CHILTON ARRESTED ON CHARGE OF KIDNAPING.

Maggie Place, the young part-Hawaiian girl who has been successfully hidden away for three months despite the efforts of the police to find her, and causing her old mother terrible fear and mental anguish, was finally found in the street this morning by Mrs. Place and young H. Chilton was immediately arrested on the charge of kidnapping.

It will be remembered that about three months ago young Chilton and Maggie Place were arrested on a charge of fornication, Mrs. Place swearing to the complaint. Chilton appeared in the Police Court, but Miss Place, although the case was continued from time to time, never put in an appearance.

The prosecution and even Judge Wilcox himself at the time, intimated that the girl was being hidden away by Chilton but all the efforts on the part of the police to locate the missing girl were unsuccessful. After the case had been continued a great number of times, the prosecution finally entered a nolle prosequi and the matter was apparently dropped.

In the meantime, the girl's mother continued by all the means she could to locate the missing girl. Rumors about her whereabouts were numerous, Kalihi especially being given as the place where the girl was hidden, but the rumors on being traced out led to no result.

One can imagine Mrs. Peace's astonishment and joy when this morning she met her daughter on Fort street. The old lady immediately rushed up to her long lost daughter and conducted her to the police station where the young girl told the story of how she was threatened with her life by her lover had been hidden in the cellar of his father's house on Miller street near Beretania, in close proximity to the very center of the city.

Miss Maggie Peace is a comely three-quarter white girl about fourteen years of age. Some time ago, she met young Chilton and apparently became fascinated with him. After they had been acquainted for some time, the Police Court affair occurred, followed by the girl's mysterious disappearance. Despite the search of the officers and the distracted mother, she was not found.

Judge Wilcox advised young Chilton to induce his father to let the girl appear. Chilton Sr., was apparently much put out by this statement and at the time threatened to intigate a suit on account of it, but he never did so.

Maggie Place this morning told High Sheriff Brown that she had been hidden in the cellar under the Chilton house during the entire time of her absence.

She was well supplied with food and other necessities of life but was not allowed to leave the place. She states that young Chilton threatened that he would blow her brains out if she ever dared to leave her place of imprisonment and so impressed was the young girl with his threats that she never dared disobey him and resigned herself patiently to her fate.

Finally, this morning, the young man, who had evidently grown tired of the girl, went to and told her that she could leave the place. He told her further that he wanted her to go out on the principal thoroughfares of the city and show herself to people in order that she might be seen and placed in custody by the police.

How the girl met her mother on Fort street and was taken by her to the police station, has been told. Young Chilton was arrested immediately this forenoon on the charge of kidnapping. The punishment for this crime is a severe one, being two years' imprisonment at hard labor, or $500 fine or both in the discretion of the court. Chilton's bail was put by the High Sheriff

Honolulu's First Cable

Honolulu, represented by a crowd, witnessed its first underground electric cable laying this forenoon. It was part of the great event, longed for by Hawaii the past twenty years, of submarine telegraphic communication with the outside world. Session after session in that period the Legislature voted long-term subsidies up to $20,000 a year for the boon that now it obtains free of cost.

Governor Dole visited the scene of initial operations in King street at the Young building. He asked intelligent questions of the experts directing the work. Robert Lewers, W. W. Hall, Senator Dickey, Andrew Brown, W. E. Brown, D. G. Camarinos, W. M. Minton, H. C. Austin, John Lucas and other citizens, together with reporters, were among the curious throng.

Thomas Trebell, conduit engineer of the Pacific States Teelgraph and Telephone Company, directed the operations of laying. L. G. Martin, representing the Okonite Manufacturing Company of New York which made the land cable now being laid, was present to supervise the splicing by a staff of skilled workmen. J. D. Gains, superintendent of the Pacific Commercial Cable Company's station in Honolulu, also watched the operations.

Mention was made in this paper some days ago of the laying of the conduits to receive the cable, which was supervised by M. G. King, a civil engineer. These are galvanized iron pipes connecting with manholes at irregular distances apart, the first link being from the Young building to Alakea street. The cable was brought to the starting point upon a dray. There were two spools, each containing a half-mile length and weighing 7,000 pounds, which were prepared for the unreeling by being raised upon standards fitted with bushing to engage their spindles. As stated in the former mention of the conduits, a wire was laid within the pipes. The first thing done this morning was to draw a stout hawser of hemp through the first section of pipe by means of the wire. To the ends of the two cables one end of the hawser was shackled with wires and a deadeye, the fastenings being wrapped with gunny sack cloth to prevent scratching. At the next manhole the rope was passed with three or four turns around the shaft of a double-crank windlass. Four men were placed at the cranks, with a fifth to take care of the rope. Two men tended each spool, two more saw to the even paying in of the cables, while a skilled mechanic did duty in the manhole. It took less than ten minutes to lay the first section of more than 200 feet. The tension was sufficient to keep the cables perfectly taut.

One of the land cables is for the service between here and San Francisco, the other for that between here and Manila relayed at Guam. They are distinguished apart, for purposes of repairing any faults that may occur in either, by one of them having a slight ridge in the lead covering while the other has a perfectly smooth surface.

Mr. Tebell stated to a Bulletin reporter that the laying of the land line to Sans Souci, where the submarine cable landing station is situated, would be completed within two weeks. The distance is five miles. At every manhole the cable is cut and the ends of the sections spliced within a leaden jacket, which makes the joint hermetically sealed.

ASSOCIATION GAMES

FIRST OF SERIES TO BE PLAYED TOMORROW

SHEARWATER MEN WILL COMPETE AGAINST ALL HONOLULUS—TO BE NINE REGULAR LEAGUE GAMES.

The Hawaiian Association Football League has met and arranged a series of games for the season of 1902-1903, which will begin tomorrow and last until February 28. The first game will be between the All Honolulus and a team from the H. M. S. Shearwater, now in port. There are to be nine regular games, the others to be merely exhibition contests. On the 13th inst. there is to be a friendly match indulged in by men from all the teams, and on January 17 and February 28 there will be matches between the Scotland and all Honolulu teams. Following is a complete schedule of games as arranged by the League:

ISAAC NOAR, CANDIDATE

The following has been offered the Bulletin with a request for publication:

"Since the announcement of Mr. Isaac Noar's candidacy, his friends have flocked to his side and his boom is rapidly increasing.

"Mr. Noar appreciates the sacrifice it is necessary for him to make to accept the position, if tendered him, but has decided that in view of the hard work his friends are doing for him and the enthusiasm with which his candidacy was greeted, that he would be wrong to allow his private interests to stand in the way of the Public Good, and has filed his application for the position with the Governor and the Republican Central Committee, which latter it is understood are unanimously in his favor, believing it to be the best solution of the deadlock which now exists."

MAY BE RIFLE MATCH

Among the officers and the crew of the British war vessel Shearwater, which is at present in port are quite a number of crack rifle shots. Gunner Pook, for instance, is one of the champion shots of the British Navy, he having won numerous prizes and medals at various shooting contests in different parts of the globe. The last one in which he took part was at Victoria, B. C. He secured the first prize although there were a number of excellent shots among the local riflemen.

The Shearwater people are quite anxious to get up a rifle competition with some local team to prove their powers.

Deputy Sheriff Chillingworth was spoken to about the matter this morn. He at once expressed his desire to arrange a contest of this kind and said it was his intention to get up a team from among the local riflemen, which team could contest with the Shearwater men under the name of the All-Honolulus.

The doors of the Opera House will be opened at 3 o'clock Sunday afternoon for the Elks' Memorial and the services will begin promptly at 3:30 o'clock. There will not be a minute's delay and all those who intend to go are asked to be in the house before the commencement of the services so that there will be no disturbance whatever.

SAVAII IS ALL RIGHT

A letter dated November 23 from H. J. Moors, formerly well known here as interested in the Gilbert Island trade with Claus Spreckels and now at Apia, Samoa, says:

"A surveyor has been down on Savaii measuring land for the past six weeks. He has been up in the bush near where the volcano has burst out. He does not think much of the volcano but says the accompanying earthquakes shook him up some. He is pursuing his surveys just the same to within six or seven miles of the crater. No disturbance was felt on the south side of Savaii the earthquakes being all local and confined to the north side."

WRIGHT IN DEFAULT.

Deputy Attorney General Cathcart has filed a motion for default in the civil suit of the Territory against Wm. H. Wright personally and as Treasurer of the Territory, for recovery of the amount of his defalcation. The usual certificates of summons not served and appearance not made are appended to the motion.

Since 1858 the number of lunatics in Scotland has increased by 180 per cent, while the population increase has been only 49 per cent.

Mitchell Congratulates Kuhio

Committee on Coast Defenses,
United States Senate,
Washington D. C.,
November 15, 1902.

Honorable Jonah Kuhio Kalanianaole, Delegate to Congress-elect, Honolulu, Hawaii.

My Dear Prince Cupid:—You do not know how very much gratified I am personally to learn of your election to Congress, and I hasten to extend my most cordial congratulations to your and your good wife, the Princess.

You and the Republican party have certainly won a great victory, and it has created quite a sensation in the Mainland. You will be received with open arms by the Republican majority in the House and Senate and, I am quite sure, by reason of your affiliations with the party in power, you will be able to accomplish much for your Territory.

I am,
Yours very sincerely
JOHN H. MITCHELL.

SIR ROBERT BOND, PREMIER OF NEWFOUNDLAND.

In negotiating a reciprocity treaty with the United States Sir Robert Bond premier of Newfoundland, brings to successful termination efforts which were begun twelve years ago. The treaty will be presented to congress for ratification early in the coming session.

PEOPLE ON THE NIPPON

The Toyo Kisen Kaisha steamship Nippon Maru arrived from the Orient last night at about 6 o'clock. She had an uneventful trip from Yokohama with fine weather, but a heavy swell.

Among her through passengers is P. H. Ashmead, an engineer who has been employed in building the Brice Syndicate's railroad from Hankow to Canton.

Mrs. Hayward Hayes is a Danish lady, the wife of the Surgeon General of the Siamese navy.

E. W. Poor, U. S. N., returns from duty as paymaster's clerk on U. S. S. Kentucky.

Captain D. N. P. Soltan is a Russian army officer who goes from duty at Vladivostok to a post in Turkistan.

Edward Barrett is a mining man. W. J. Schroth and J. Becker are tea merchants, and L. W. Smith has been engaged in the canning industry in Siberia.

The Nippon Maru brought 900 tons of freight for this port and has a large cargo for San Francisco. She left Honolulu this forenoon at 11 o'clock.

KONA PLANTATION

The sale of the Kona plantation which has been so extensively advertised, has been indefinitely postponed, there being no bidders. When seen about the matter this forenoon, Judge Humphreys, who represents Bishop & Co., bondholders, stated that he was not surprised to hear of the postponement since he knew there were no bidders.

It is rumored that Jacob Coerper has offered to advance the money for the present needs of the plantation and that, in the meantime, he will make another visit to the Mainland to secure funds for the purchase outright of the sugar estate.

It is further rumored that this action on the part of Coerper has been brought about by the bright prospects of the Kona-Kau railway, work on which has already started. When this is once started and the sugar from the mill can be transported to the wharf in quick order and at a much reduced rate, it is believed that both the plantation and the railroad will boom.

Richard H. Trent is making up a party to visit the volcano over on Hawaii during the Christmas holidays, and consessions have been secured from the steamship companies and the hotels interested that will enable him to book a limited number of people for the trip at greatly reduced prices.

H. P. EAKIN GETS CALIFORNIA CHARTER

GUNST-EAKIN CIGAR CO. WITH LARGE CAPITAL WILL OCCUPY NEW O'NEIL BUILDING.

The Gunst-Eakin Cigar Co. of California is the latest to enter the local field. During his recent trip to the Coast H. P. Eakin, associated with him in the new company, members of the well known firm of M. A. Gunst & Co. of San Francisco, as follows: M. H. Esberg, H. L. Lachman, F. L. Gadsby and A. A. Pomer.

Articles of incorporation filed show that the company was formed for the following purposes:

"To engage in, conduct and carry on the business of wholesale and retail cigars, tobacco and smokers' materials in the Territory of Hawaii and to import the same. To manufacture, buy and sell cigars and smokers' articles in the said Territory and generally to deal in all kinds of merchandise.

"To buy, sell, mortgage, lease and generally deal in real estate, to borrow and lend money, purchase stocks and bonds in other corporations; to operate, conduct and manage stores in the Territory of Hawaii; to buy, own, mortgage, pledge, hypothecate and otherwise deal in personal property of all kinds, character and description.

The term for which said corporation shall exist shall be fifty years. That the number of directors or trustees of said corporation shall be five."

The directors for the first term and until the regular eelction are as above named with H. P. Eakin as manager.

The capital stock is $50,000, divided into 500 shares of one hundred dollars par valuation.

The Gunst-Eakin Co. will deal in all the goods handled by the M. A. Gunst Co. of San Francisco, which is enabled to buy the output of whole factories and has lately started a factory of its own in New York where a new brand of clear Havana known as the "Van Dyke" is being made.

The new O'Neil building, now in process of erection at the corner of Fort and King streets, has been leased by the company for a term of years and will be occupied not later than July 1 of the new year.

McCANDLESS TO COAST

J. A. McCandless left hurriedly in the steamer Hongkong Maru yesterday noon, having agreed previously with the steamship people here to pay the $200 penalty which the steamers of foreign lines are made to hand over whenever they take a passenger from this port direct.

Mr. McCandless is bound for Seatle, Washington, and not for Washington, D. C. J. S. McCandless, was seen this afternoon with reference ao the trip of his brother and he stated that the reasons for his going were purely of a business nature. The McCandless Brothers own coal mines in the State of Washington and it is on business in connection with these that takes Mr. McCandless away.

DAVIS GETS FEE WITH A ROAST

Appeal Dismissed With Regret By Supreme Court.

CHIEF JUSTICE FREAR WRITES SEVERE OPINION

CONSIDERS THE ATTORNEY WANTED TO REPRESENT TWO SIDES OF CASE AT ONCE.

Chief Justice Frear is author of a unanimous opinion of the Supreme Court in the case of Libana de Nobrega vs. Sylvano de Nobrega. It is an appeal from the order of Judge Gear awarding $1000 counsel fee to George A. Davis out of the $5000 alimony decreed, by direction of the Supreme Court as reduction from $10,000, to the libellant in the divorce case above entitled. The reduction mentioned was a second one, the original award being one-half of the libelee's real estate.

Mr. Davis moved that the appeal be dismissed on the ground that it was taken through other counsel without a change of counsel of record. In passing the Supreme Court says the appeal was signed by Mrs. Nobrega in person. Mr. Davis also argued that the fee was not excessive. The court comments severely on his reference to professional ethics, saying in effect that his claim amounted to that of the right to represent two sides of a case at once. The interest of counsel in this matter was adverse to that of his client.

The court is obliged, however, to dismiss the appeal because no appeal lies in divorce cases. The appropriate method of redress would have been by exception or writ of error. "It is to be regretted," the opinion says, "that the case is not properly before us, as there is so much that would seem at first glance to be questionable in the matter."

Andrews & Andrade for the appellant; Davis in person.

REED FOUND GUILTY

The trial of William Reed for assault with a dangerous weapon, which began before Judge De Bolt yesterday afternoon, concluded with a verdict of guilty, with exceptions noted by Mr. Thompson for defendant, and sentence to six months at hard labor with payment of costs besides. The jury consisted of Geo. Fern, L. J. Nahora Hipa, J. Oswald Lutted, Lot P. Fernandez, Caesar Vieira, Warren Bogle, Henry Hickey, A. K. Viera, Wm. L. Peterson, J. D. Cockett, B. S. Gregory and John Makaena.

In the case of Cheong Kwai, convicted of assault upon a woman with a deadly weapon, L. Andrews accepted a pro forma denial of new trial and noted exceptions. Bail was fixed at $1,500.

Mr. Robertson called attention to the improper appearance on the calendar of Yamane for liquor selling. The man paid his fine in the District Court the day after conviction. The case was accordingly stricken off.

This afternoon Alphonse Abreu goes on his trial for illicit liquor selling. E. A. Douthitt for prosecution; J. M Vivas for defendant.

Before Judge Robinson, a motion for the court to direct a verdict for defendants is being argued in the case of S. Ahmi vs. Annie Waller et al. To the numerous array of counsel stated yesterday is to be added the name of C. W. Ashford for the plaintiff.

About 16,000,000 tons of freight are annually carried on the Ohio river, which has a length of 1,000 miles from Pittsburg to Cairo.

News comes from Boston that a painting by Titian, dated 1543, has been found there in a shopkeeper's cellar.

KENNARD HAS GONE

James Kennard, better known as the "St. Paul Kid," who has been a star of some meagre brilliancy in the pugilistic firmament here for the past few weeks, ended his comlet-like career in this city Wednesday, quietly leaving the sunny skies of Hawaii nei in the Sierra for San Francisco.

Some of Jimmy's friends around town, are wearing long faces. They claim that the pugilish has "touched" them for various amounts, running from $15 to $125 by giving them checks on the bank which are not worth the paper they are written on as they are refused, for the reason that there are no funds there to Kennard's cerdit. Kennard is known to have had a bank deposit of about $250 but he drew that out of the bank just previous to his departure.

The police, however, have not been notified of any of these alleged frauds and have consequently taken no action in the matter.

A rumor that a telegram would be taken by the Ventura to Fanning Island and sent from there to San Francisco, to hold Kennard, is unfounded. High Sheriff Brown stating positively yesterday that no such action had been taken by the department.

DISEASED CATTLE

Washington, Nov. 27.—Secretary of Agriculture Wilson today issued a sweeping order directed to the managers and agents of railroads and transportation companies of the United States, stockmen and others, notifying them of the establishment of a quarantine on cattle, sheep and other ruminants and swine in the New England States and prohibiting the exportation of such animals from the port of Boston until further orders.

Recent investigations in the Department of Agriculture disclosed the fact that what is known as foot and mouth disease exists to an alarming extent in Connecticut, Rhode Island, Massachusetts and Vermont. The expert of the department, Dr. Mohler; Dr. Leonard Pearson, of the University of Pennsylvania, and Dr. James Law, of Cornell, investigated the infected districts and united in a recommendation that, in order to prevent the spread of the disease, a quarantine should immediately be established.

Secretary Wilson said that this is the most serious matter the department has to handle for some time, but that all the resources of the department would be employed in stamping out the disease. He declared that if it should spread west of the Hudson river it would be nothing short of a national calamity.

HUSTIS WILL INQUIRE.

W. A. Hustis, special commissioner of the Treasury Department to investigate the needs of Hawaii in the matter of public buildings, was one of the arrivals in the Ventura. He will inquire into the needs of this city as to public buildings, learn the wishes of the people as to sites and then go to Hilo, there to undertake the same work.

Besides this, Mr. Hustis will inquire into the needs of the Islands in the lighthouse service. He will look into the system as he travels. He will also secure the views of the bankers as to the recoinage of Hawaiian silver so as to be able to make a report to Leslie M. Shaw, Secretary of the Treasury.

Mr. Hustis called on Governor Dole and Secretary Cooper yesterday. He also saw the Postmaster and Collector of the Port. Mr. Hustis will go to Hilo week after next. It is his hope to leave the country in time to make his report so that it may reach Congress upon its reconvening after the holidays.

FIRE CLAIM WARRANTS.

Two thousand fire claim warrants will be given out next Monday, if the plans of Acting Audtor Meyers are carried out. Warrants to the number mentioned have been made out and all now required is the signature of the Auditor. The warrants are only for 10 per cent of the total amount of the Fire Claims Commission. It is probable that the entire 7000 warrants will be ready for distribution by next week. The total payment will be about $147,000 of which sum $140,000 was recently received from the United States Treasury as interest on bonds paid by the Territory.

SHEARWATER'S BOATS.

The executive officer of the Shearwater has arranged the following schedule for the arrival and departure of the man-of-war's boats at Brewer's wharf, for the convenience of the people.

Leaving ship—6:30 a. m., 9:30 a. m., 10:30 a. m., 11:30 a. m., 1:30 p. m., 3:30 p. m., 5 p. m., 6:40 p. m., 9:10 p. m.

Arriving at wharf approximately—7:30 a. m., 9:45 a. m., depends on mail, probably 10:10 a. m., 11:45 a. m., 1:45 p. m., 3:45 p. m., 5:20 p. m., 7 p. m., 9:30 p. m.

Boats may not call at wharf on all these times, as there may be no occasion for them to go.

KONA ORPHANAGE.

There are forty-four children in the Kona Orphanage. Anyone wishing to send them a juvenile book, a toy, a game, a garment or some candy, may leave the same at the office of the Associated Charities, 1146 Alakea street; where it will be carefully packed and shipped in a Christmas box for the Orphanage.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box; 25 cents.

THE STOCKYARDS FIRE

CONTRACTOR SMITH PRESENTS HIS CASE

ANSWERING THE COMPLAINT OF MATERIALMEN HE CLAIMS BALANCE STILL DUE HIM.

M. L. Smith, co-defendant of the Honolulu Stockyards Company in the suit of Lewers & Cooke for $4724.09, has filed an answer for himself. He admits having received from the plaintiff a large quantity of material to be used in the erection of a building for the Honolulu Stockyards Company, but has not sufficient information to admit that the items are correct in the notice of lien or to admit that the amount claimed is owing to the plaintiff. All allegations not specially admitted are denied and for a further answer to the complaint the defendant alleges:

That on August 21, 1901, while the Honolulu Stockyards Company was in occupation and possession of the building, it was partly destroyed by fire that communicated from the company's stable. That at the time of the burning of the building had been substantially completed. That the destruction of the stable made it impossible for this defendant to finish the building according to contract, and that after the fire the Honolulu Stockyards Company notified him that it did not desire to have the building completed. That the services, labor and material furnished by this defendant in the construction of the building are of the value of $17,000, of which the Honolulu Stockyards Company has paid $12,500 on account and still owes $4500.

Wherefore this defendant prays judgment that he be dismissed from the court with his costs.

REFINED SUGAR ADVANCE

New York, Nov. 20.—Another advance of 10 cents on a hundred pounds was announced by the local sugar refining interests today, bringing the list price for granulated sugar to 4.65 cents a pound. The American Sugar Refining Company also advanced the price of granulated sugar in the Missouri river district 25 cents on the hundred pounds, or to 4½ cents a pound.

The withdrawal of a large part of the beet sugar from the market and the elimination to a large extent of the competition from that source is understood to have been responsible for the advance. The move is regarded in sugar circles as indicative of the practical ending of the rate war between the cane and beet sugar interests.

SEGREGATING SEXES.

Chicago, Nov. 20.—Segregation is to be inaugurated at the University of Chicago with the beginning of the new year, just after the Christmas vacation. The first official announcement of the exact date has just been made by Prof. Harry P. Judson, dean of the graduate schools.

The application of the idea is to be gradual in each of the junior college courses, for which thirty or more students register. The class will be divded on the basis of sex. Thirty is the limit set by the university authorities for the number of students in any class, and in consequence many of the required courses always have to be taught in two or more sections. When segregation is introduced into these courses 60 per cent of the junior college classes will be affected. Eventually the segregated classes will be conducted in different buildings.

He Shaved His Way Around the World

Chicago, Nov. 24.—J. F. Anderson, a young Californian, who has achieved fame by making a five years' tour of the world and earning his own way en route, is in Chicago making arrangements for publishing his book of travels. Anderson made his trip entirely independent of outside asistance. Previous to leaving California, in the spring of 1897, he learned the barber's trade and almost literally shaved his way around the world.

One year—1897—was spent in traveling from Mexico to Canada; the next year he went from Puget sound to New York. In these trips he covered 6000 miles with a team and light wagon, camping out at night. In 1899 he traveled from the Lakes to the Gulf on a wheel, 3700 miles. In 1900 he went from this country to Palestine, via Great Britain, France, Italy, Greece and Turkey. He walked 500 miles through the Holy Land. Last year he traversed Asia Minor, camping out, and Egypt, India, China, Japan and the Philippines. He has been on his travels a barber, cook, bridge builder in Egypt, porter in a Japanese hotel, typewriter and salesman in India, courier and guide in Jerusalem and hotel runner in Greece.

He Got 15 Cents For $3500 Honesty

Chicago, Nov. 21.—In a pair of shoes left in his shop to be repaired Axel Sorenson, a crippled shoemaker of Evanston, found $3500 today. The money was in possession of Sorenson for just two hours, when the owner returned, saying: "I think I lost a little package in here." On describing the pocket book in which the money was contained, Sorenson returned the property and for his reward was paid 15 cents for the work in repairing the shoes.

Sorenson was busy when a well-known resident of Evanston entered the shop, and, tossing him a pair of shoes, which were wrapped in a newspaper, asked that the heels be straightened. Half an hour went by and Sorenson opened the package and a well filled pocket book fell on the floor. Picking it up Sorenson found $3500 in bills. There was no card in the book and Sorenson failed to get the name of the man who left the shoes. However, he knew him by sight, and when he returned with the story of "dropped a little package," the shoemaker asked if it was money. The owner was pleased at finding his money, so pleased, in fact, that he told the story of how he came to put the pocket book in the shoe and paid his bill of 15 cents.

"GALAZIL" EXPLOSIVE.

Vienna, Nov. 26.—"Galazit" is the name of an extraordinary powerful explosive with which the Government is experimenting. The explosive is a discovery of two Roumanians of Galatz, an engineer named Demetriade and a chemist named Jones. In the course of the experiments a cartridge exploded in a barrel of water threw spray twenty feet high; another exploded in the stump of an old tree buried several feet underground blew the stump to splinters and tore a great hole in the earth.

Great results in the way of shattering iron were obtained by the inventors and the Government experts regard the new explosive as boding ill to all existing naval and military defensive materials. It is claimed that galazit can be transported without risk and produced at low cost.

CANAL TREATY HELD UP

COLOMBIA IS PLAYING GAME FOR DELAYS

RESULT WILL STIMULATE NEGOTIATIONS FOR NICARAGUA ROUTE—CUBAN RECIPROCITY.

Washington, Nov. 25. — The Cabinet meeting today was devoted almost exclusively to the consideration of the status of the reciprocity treaty with Cuba and the canal treaty with Colombia. The hitches that have occurred in the negotiations were discussed, as were also the prospects of settlement.

Secretary Hay, while presenting the subject of the canal negotiations, was not able to report that any progress had been made during the past week. In fact, it appears that the negotiations have come to a dead stop, and while no such thing as an ultimatum has passed, the precise situation may be described in the statement that the Colombian Minister here, Concha, has distinctly informed the State Department that he cannot, in behalf of his Government, accept the last proposition of the United States as a basis for a canal treaty. The State Department has already let it be known that it has come to the end of its concessions, so the chances of a renewal of the negotiations in the near future are not very bright.

This state of affairs will stimulate the negotiations with Nicaragua and Costa Rica for the alternate route, but it now appears that the diplomatic representaives of those countries are not disposed to allow themselves to be used to coerce Colombia, and therefore are desirous of remaining in the background until it shall be clearly established that no treaty can be made between Colombia and the United States.

One of the statements of fact in connection with the Panama route which has been brought to the attention of the State Department is that the original canal concessions will expire in 1904 and it has been suggested that the Colombian Government has that fact in mind and is disposed to refrain from making a treaty now, in the expectation that the franchise will lapse and it thus may be in a position to build the canal itself or to sell a new concession. Such a course would raise a very serious question between the Colombian Government, the Panama Canal Company, the French Government and the Government of the United States as to whether or not a supplementary decree extending the concession ten years from 1904 was valid.

President Roosevelt laid before the Cabinet his annual message to Congress in completed form. It was sent to the printer today. Most of the features of the document were familiar to the members of the Cabinet, and only such parts of the message as had not been considered previously were read in full. All the members were present, except Secretary Root.

Brune Case Suit In Oakland Court

Oakland, Nov. 25.—Alice E. Brune, the six-months-old daughter of Alfred E. Brune and wife, has, through the intervention and assistance of her aunt, Mrs. Martha Berger, succeeded in blocking the efforts of her parents to have a guardian appointed to represent her in litigation over property in Hawaii valued at about $100,000.

While a contest was pending in this county over the application for the appointment of A. G. Hagedorn, who was nominated by the parents as guardian of the child's estate, the aunt secured the appointment of H. A. Bigelow, an attorney at Honolulu, as guardian-at-law to represent her little niece's interests in the litigation.

Mrs. Brune was formerly Miss Alice A. Weidemann, daughter of the late Consul Weidemann, who received extensive grants of crown lands from the late King Kalakaua for services rendered. Prior to marriage Mrs. Brune inherited a large part of the land, and she conveyed it in trust to J. M. Dowsett. According to the trust, she was to receive the income from the property, and after her death it was to go to her children.

Recently Mrs. Brune and her husband began suit in Honolulu against Dowsett to set aside the trust. Mrs. Berger, the aunt, is opposing the action to protect the interests of the child. She claims Mrs. Brune is acting under the influence of her husband in the matter.

Brune is a son of Dr. Brune of San Francisco. He is at present completing his education at the State University.

FRIDAY.....DECEMBER 5, 1902.

With four cent sugar and the cable for Christmas presents Hawaii has gdoo reason to be cheery during the holiday season.

It is really difficult to understand how Addicks of Delaware with his purportedly corrupt methods furnishes a parallel case with the political situation in Hawaii.

People, who, fretting over the delays in making up the appointment slate should bear in mind that it is far better to smooth out the wrinkles at the outset than to fight over the appointments after they are made.

The sensation Kuhio's election created on the Mainland is the kind that produces a more kindly feeling toward this Territory in Congress and serves to increase confidence in Hawaii's ability to properly govern itself.

According to the latest statistics the Mainland football season has resulted in ten deaths from injuries received in the game. Unfortunately there are no comparative figures from which to determine whether the game is becoming a more serious factor in decreasing the population.

A Russian report tells of a number of Siberian convicts who refuse to take food until they are more humanely treated. If this incident is a fair representation of the mental balance of Russia's average convict, it is no wonder that tales of horror come from Siberian wilds.

Senators of an inquiring state of mind should be allowed to investigate the Secretary's office to their hearts content. As citizens they are entitled to see public records and become intimately acquainted with all the details of the office. This paper has yet to learn of any public officer who objects to having his office affairs searched from cellar to garret.

Carrie Nation occasionally reminds the people she is still on earth by smashing a few wine glasses and talking in stentorian tones from the rostrum of a street ash barrel. There was a time when Carrie was taken somewhat seriously but since she began to tour the country with a salaried manager she has taken a place on the public stage along with the bearded lady and similar freaks.

The arrival of a Federal representative to investigate local demands for public buildings should put the business organizations on their mettle to vigorously assist in setting forth the local necessities. Hilo is already on record as ready to give the government a site for a new postoffice, custom house or any other building the Federal departments will erect. Honolulu cannot do better than to follow a good example.

No question of color can possibly arise among thoughtful party men in the appointment of Treasurer or any other officer of our government. The basis of Prince Kuhio's stand for the appointment of a Hawaiian-American to the Treasurership is understood to be upon the broad plane which gives proper recognition to an element of the party which furnished a strong if not the largest vote in the recent election. It is full time that reference to color lines was dropped, particularly in the Republican ranks. Flings if insinuation which serve to misrepresent the motives of prominent party men stir up more ill will in a day than can be smoothed over in two years.

The jacking up which the Chamber of Commerce has given the Weedon lecture tour means that our business men are getting down to the necessary business basis in promoting tourist travel. Weedon's lectures appear to be all right but he seems to fail in getting in touch with the traveling public. It is pleasant to have people who cannot afford to travel instructed in the beauties of our climate and country. No doubt a great deal of good is done in combatting false impressions concerning the Territory. What is particularly desired at this time, however, is speedy results. Our business men cannot afford to bank on the probability of Y. M. C. A. audiences getting rich and then recalling what they have heard on Hawaii as an interesting place to visit. Weedon's tour to be successful from the local standpoint must be centered more on people of means. If this class cannot be reached through the medium of lectures our business men will have to put their money in more effective channels. Results count.

It is sometimes pleasant to learn that Hawaii is not the only place where politics are conducted on narrow lines. The last political contest in the Thirteenth Congressional District of Ohio was decided on the important issue of bustles—the ladies' wearing apparel which Mrs. Cleveland is held responsible for side-tracking. A. H. Jackson Republican, and former bustle manufacturer overcame a Democratic majority of 6000 with the argument that Mrs. Cleveland's edict against the bustle during her husband's first administration, destroyed the bustle manufacturing industry. Norton, the Democratic candidate, besides placing confidence in the refusal of the people to be misled by the bustle issue, maintained that Mrs. Cleveland was right. That's where Norton made his mistake and the wire bustle was triumphant in the Thirteenth District of the Presidential State.

While Germany is naturally happy over King Oscar's decision in the Samoan affair, the American Government is getting no balm for its wounded feelings from the press. The New York Sun says of the result: "The extraordinary decision of King Oscar of Sweden in the matter of the Samoan controversy referred to him for arbitration forms a fitting and most artistic end to a chapter of blunders. This country cannot kick against the judgment it has invoked. It cannot rail against the court to which it has voluntarily resorted. It can only prepare to pay by-and-by the more or less heavy bill of costs implied in Oscar's findings, and at the same time summon its sense of humor to the aid of its philosophy for a few minutes of profitable retrospection."

Americans returning from Cuba tell a most distressing story of industrial conditions, but British representatives report to their Government that Cuba is enjoying a fair degree of prosperity. Considering the selfish motive behind both reports, the result of national competition for Cuban trade the people are yet without the real truth of the situation.

New York courts are busy deciding whether a school teacher by getting married voluntarily resigns her place in the public schools. It probably depends on whether her husband is able to support her.

H. P. BALDWIN GOES TO MAUI IN IROQUOIS

The Iroquois left for Kahului last night with Senator H. P. Baldwin aboard. Mr. Baldwin goes partly on account of business and partly for the purpose of seeing Judge A. N. Kepoikai with reference to the Treasurership.

When the name of the judge was mentioned yesterday for the position and it was proposed to the Governor, there seemed to be some doubt expressed as to the probable attitude of Kepoikai. It is well known that his friends wanted him for the Circuit Judgeship of Maui and if he is of the same opinion himself, his acceptance of the Treasurership might upset his plans to a considerable degree.

Judge Kepoikai has interests on Maui that he must give a part of his time to if he is to run them successfully. The billet of Circuit Judge of Maui would have suited him well since he could attend to the duties connected with the office and at the same time work on his own private affairs.

It is understood today that if Judge Kepoikai will accept the position of Treasurer, he will certainly go into the office. This matter has been settled satisfactorily between the Governor, the Republican senators and the members of the executive committee who went to see Mr. Dole with reference to the matter.

The quick adjournment of yesterday afternoon was a surprise to the Home Rulers who it is understood, had a resolution to introduce relating to the Chinese fund. When Senator Baldwin moved to adjourn, Senator Kalauokaiani wanted a postponement of such action in order to introduce some new business. However, the Republicans had had some inkling of what was coming and so would not listen to the proposals from the Home Rule side.

It is not probable that any action will be taken when the Senate comes together for business tomorrow morning but that adjournment will again be taken until Monday forenoon when the list of appointments as agreed on between the Governor, the Republican Senators and the executive committee of the party will be sent in for action.

A BRUTAL ASSAULT ON A LITTLE GIRL

In the Police Court this morning the case of Maria Marques, alias Maria Martin and Maria Enestacio, alias Maria Rosa, both charged with assault and battery on Maria Wilzynski, occupied almost the entire session. Maria Wilzynski, a little Polish girl about nine years of age, was the first witness. She spoke English and told a connected story in a straightforward manner.

She stated that on Monday morning last the two defendants called her over to the kitchen of their house in Kewalo, which is close to that of her parents. She went into the kitchen, whereupon Maria Marques, an old woman, threw her down and held her while Maria Rosa, a young girl about fifteen years of age, applied chile peppers on the tender portion of her body. The poor little girl cried from pain but could do nothing. She was kept over night and the next day in the defendant's house until her mother finally came and took her home.

Judge Kaulukou asked the little girl if she knew what would be the result if she did not tell the truth.

"Yes; I die quickly," answered the witness. "My father told me that."

The little girl's mother testified that the latter had stayed at the Rosa home Monday night but as she often did that she had paid no particular attention to the fact. When, however, the next day school children told her that her little girl had not attended school, she became uneasy and fetched her little girl home. It was then that her daughter told her the same story as she had told the court.

Dr. Waterhouse testified that the condition of the little girl was produced by some irritant. Chile peppers would produce just such a condition.

Judge Kaulukou, who appeared for the defendants had both the defendants take the stand. The gist of their testimony was that on the day named the little girl had come over to their house and had used some very foul language to them. They had reprimanded her for doing so but had not injured her in any way. No other witnesses were produced by the defense.

Judge Wilcox stated that the offense was a very serious one. He found the defendants guilty and fined them $50 and costs each. An appeal was noted.

No series which has appeared in any magazine is more interesting than that which The Cosmopolitan is publishing under the title "Captains of Industry." The names of the men included in this series are not only constantly appearing in the news of the day, but their lives almost always illustrate the development of an entire art or industry. Take, for instance, those included in the November number. From Chaldean claytablets to the movable types of Gutenberg lies a period of ten thousand years. From Gutenberg to Robert Hoe the gap in processes and results is quite as broad, though in time it is only five centuries long. The scribe of Nippur probably produced one tablet an hour. Gutenberg may have finished one sheet a minute. Hoe prints with his machine, a strip of paper three feet wide on both sides at the rate of one hundred and twenty miles an hour. The life of the late W. S. Stratton, incidentally, is interwoven with the mining development of the middle West; that of James R. Keene illustrates the highest development of the Wall street speculator; that of Tom L. Johnson casts interesting sidelights on political conditions in Ohio; while the life of Ferdinand W. Roebling cannot be written without a thorough knowledge of the wonderful evolution of modern bridge building.

HE BEAT HIS WIFE

Yesterday morning the police were notified that a native woman, Kahana, was seriously ill from the effect of a beating given her by her husband on Sunday, November 23. The patrol wagon took the woman to the Queen's hospital where she is now receiving treatment.

It appears that on the Sunday named Kahana's husband, Iku-a, came home in an intoxicated condition. He got quarrelsome and started a row with his wife, finally throwing her to the floor and trampling on her. The woman got severe bruises on the back of her neck and the calf of one of her legs.

The matter was kept quiet until yesterday when inflammation in the bruises made the woman's condition so serious that the police had to be notified in order that she could be taken to the hospital for treatment. Iku-a was arrested yesterday.

The police believe there was an attempt on the part of the relatives of the native to keep the matter quiet as it was feared that in case the story should leak out, Iku-a would surely be arrested. Not until it was found that the woman was in danger of losing her life if something was not done for her, did the people in the house convey the information to Captain Parker who at once set on foot the investigation which ended in the taking of the woman to the hospital and the arrest of Iku-a, a wharf laborer.

POLO STABLES

There is something new doing in polo circles just now and if the scheme is carried out it will prove a great boon to the young men of the club who haven't sufficient means to keep two or three ponies of their own.

The proposition is to establish polo stables near the field at Moanalua where it is expected the games of the future will take place. These stables will be maintained by the polo association and there will be regular trainers and other men in charge. It is understood that Hon. S. M. Damon has already given his consent to the building of the stables on his Moanalua estate.

The ponies will be rented out to polo players desiring them at moderate rates, the money obtained by this means to be applied to the payment of the expenses of keeping up the place. Whenever a player comes from any of the other islands and feels like playing a little polo, he will not have to bring a horse along or resort to the very awkward alternative of asking a friend to loan him one. He will simply go to the stables and rent one of the horses. This will simplify matters very greatly and will bring a great many more fine polo players in to the field who cannot afford the luxury of keeping horses of their own.

Among the arrivals from the Coast in the Ventura were nine soldiers for Camp McKinley. They are now at the post on duty.

Samoan Decision and Claims of Americans

Washington, Nov. 27.—The State Department is preparing to present to King Oscar, the arbitrator of the issues between the United States and England on the one side and Germany on the other, growing out of the Samoan troubles of 1899, the second phase of the case, and finds itself in a peculiar position. The recent decision of King Oscar touched only the principle involved, namely, the liability of the United States and Great Britain for damages sustained by foreigners as a result of joint naval operations. That having been decided against the United States and Great Britain and in favor of Germany, the next step in order is to prepare and submit to the arbitrator detailed statements of the individual losses. By the terms of the arbitration treaty each of the countries concerned undertook to look after the claims of its own citizens. Thus it happens in the case of the United States that the Government is in the peculiar position of presenting to the arbitrator for payment the claims of a number of American citizens after it had, through elaborate argument, presented to the arbitrator by special counsel specifically denied liability for any such claims.

German Cruisers Ready for Action

Berlin, Nov. 27.—Three additional cruisers, the Niobe, Ariadne and Amazone, have been ordered to leave Kiel and proceed to Venezuela. Telegraphic instructions were sent to the Navy Department yesterday evening ordering their immediate fitting out and orders for the necessary supplies of ammunition and other equipment have been issued. It is expected that the three cruisers will be ready to sail about the middle of the week.

CABLE MEN ACCEPT

Washington, Nov. 26.—The Commercial Cable Company has filed with the Department of Justice a written acceptance of the terms and conditions on which the President has consented that it may construct a cable between the United States and the Philippines and China. The company, therefore, will now be given the privilege of using the soundings taken by the Government vessel Nero, which surveyed the Pacific ocean with the purpose of obtaining full information as to the best route for a cable between the Pacific Coast and the Philippine Islands and Asia.

SIAM GOLD BASIS.

Bangkok, Siam, Nov. 27.—The gold standard scheme for Siam has become law and the mints have been closed to the free coinage of silver. If success attends the new departure the profits arising from the minting of tycals (a Siamese coin worth 50 cents) will be set aside as a special gold reserve fund, for the purpose of establishing a gold currency.

MISS KUEHNE BEVERIDGE, WHO WILL PROBABLY RECEIVE THE COMMISSION FOR THE CECIL RHODES MONUMENT.

Miss Kuehne Beveridge, the American sculptress, is on her way to South Africa, where she has been sent on business connected with the monument which is to be erected to the memory of the late Cecil Rhodes. It is confidently expected that the commission for executing the statue will be given to Miss Beveridge.

Chicago Politician's Flim Flam Game

Chicago, Nov. 21.—That John H. Dalton, a North Side politician and saloonkeeper, swindled 28,000 newspapers in the United States and foreign countries and cleared at least $560,000 through his scheme is what United States Distict Attorneys Bethea and Morrision hope to show in the Federal Court in the next few days.

Dalton is being tried in the Federal Court on the charge of fraudulent use of the mails in the name of the "Independent Advertising Agency." While his alleged victims are numbered in thousands, the indictment shows only three names of publishers who are said to have been victimized by Dalton's advertising scheme. These complainants are A. M. Walloughby of the Greenburg, Ind., Review, A. F. Dunlap of the West Salem, O., Report and C. H. Peterson of the Wesley, Ia., News.

Former Alderman John H. Colvin and ex-United States Marshal John W. Arnold were among the first witnesses for the prescution today. The former said he was given ten shares of stock in the advertising agency in 1900, and elected president without his knowledge. Arnold testified that he also received ten shares of stock from Dalton and was made vice president without his consent. Both declared that they resigned their offices as soon as they became suspicious of Dalton's scheme.

Frederick E. Klotz, an advertising agent, testified that he resigned a good position in September, 1900, to accept a place as manager for the Independent Advertising Agency. He remained five months, and then, having learned that the methods of the concern were dishonest, resigned. He said Dalton had told him that he intended to run up advertising accounts with newspapers of $500,000 to $1,000,000. To get financial rating, he said, Dalton had started his business by putting $10,000 in the bank, and had then made his advertising contracts with the papers. At the beginning of the trial Government attorneys had twenty-two witnesses sworn.

New York's Thousands Of Deformed Children

New York, Nov. 20.—The clinic which Dr. Newton M. Shaffer is arranging for Dr. Adolph Lorenz, the Vienna specialist, at the Cornell University Medical College is already assuming proportions of which even Dr. Shaffer, who is an expert on diseases of the hip and orthopedic troubles, has not dreamed.

Dr. Shaffer said yesterday that in view of the number who had come to the Cornell dispensary in the last few days he was convinced that there were between 30,000 and 40,000 crippled children in the city, and that fully 85 per cent could be made at least able to work if their diseases were treated properly. Dr. Shaffer is surgeon in chief of the New York State Hospital for the Care of Crippled and Deformed Children.

"It is a business proposition in one way," he said. "If these children have their club feet and dislocatel limbs even partly cured they will be put in a position so that they can earn their living, or at least part of their living."

Over 200 crippled children have been examined daily at Cornell dispensary since the preparations for the clinic began.

Blanche Bates In Japanese Play

Washington, Nov. 20.—The first presentation of "The Darling of the Gods," written by David Belasco and John Luther Long occurred tonight at the National Theater. Miss Blanche Bates created the role of Yo-San. The scenery and costumes were on the gorgeous scale expected of Belasco and some of the stage effects were novel and strikingly beautiful.

The piece is designated as a drama of Japan in four acts. It has a somewhat complicated plot, dealing with a band of swordsmen who refused to obey the edict of the Emperor and were outlawed. Yo-San, daughter of the Prince of Tosan falls in love with the outlaw leader, Kara, and tries to save him. After many vicissitudes she fails, and Kara dies by his own hand. Yo-San is condemned to a thousand years of punishment. The last stage picture is of the first Celestial Heaven, where Yo-San joins her lover in immortality.

The play is filled with the mysticism of old Japan with its color and romance. Miss Bates was royally received by the big audience, her return to Washington being in the nature of a home-coming.

American Miners Become Britishers

Tacoma, Nov. 26.—Four hundred foreigners, chiefly Americans, were naturalized at Dawson during the month preceding November 15, when the registration books closed. These naturalizations were in preparation for the coming three elections in Yukon Territory. The first and most bitterly contested of all occurs next Tuesday, when the Yukon Territory will elect its first member of the Dominion Parliament, with Governor Ross and Edward Clarke in the field as candidates.

The campaign has become so warm that Americans cannot help taking sides, and have accordingly sworn allegiance to King Edward that they may vote for their favorite candidates. Among the Americans naturalized are former Mayor Orr of Tacoma and Col. Charles Reichenbach, formerly chief of staff of Washington's Governor. Later in December, the Yukon Territory will elect five members of the Territorial Council. In January Dawson will elect its second Mayor and City Council.

HIGH FREIGHT RATES.

Chicago, Nov. 20.—Fresh evidence was given today that the railroads of the entire country have decided to raise freight rates upon all commodities which, in the opinion of the management, will bear increased transportation charges.

At a meeting held in New York and attended by the representatives of trunk lines, central freight and Southern lines, it was decided to raise rates on grain and grain products on a Chicago-New York basis of 2½ cents a hundred. This includes an increase on glucose, glucose syrup, corn oil, corn syrup and other articles. Rates on dressed meats for both domestic points and export were raised 5 cents.

At Chicago a meeting of general freight agents of all Western roads was held with a view to restoring the rates which were in effect on January 1, 1902. Instructions to restore such rates as could possibly be restored were issued by the executive officials, and it is stated that they will be carried out to the letter.

SHERIFF'S SALE NOTICE.

Under and by virtue of two certain Executions issued by Lyle A. Dickey, Second District Magistrate of Honolulu, Island of Oahu, Territory of Hawaii, on the 24th day of November, A. D. 1902, one in the matter of Wolters-Waldron Co., Ltd., vs. W. H. Kailimai et al., and one in the matter of H. Hackfeld & Co., Ltd., vs. W. H. Kailimai et al., I have, on this 28th day of November, A. D. 1902, first, in the said matter of Wolters-Waldron Co., Ltd., vs. W. H. Kailimai et al., and, second, in the said matter of H. Hackfeld & Co., Ltd., vs. W. H. Kailimai et al., levied upon, and shall offer for sale and sell at public auction, to the highest bidder, at the Police Station, Kalakaua Hale, in said Honolulu, at 12 o'clock noon of Monday, the 29th day of December, A. D. 1902, all the right, title and interest of the said W. H. Kailimai in and to the following described property, unless the balance due on the first above mentioned Execution amounting to Two Hundred and Seventeen and 38-100 Dollars, and the sum of Two Hundred and Forty-five and 69-100 Dollars due on the second above mentioned Execution, together with all interest due on said amounts, and costs and my expenses are previously paid:

All those certain premises situate in Kakaako, Honolulu, Island of Oahu, Territory of Hawaii, and more particularly described as lots 5 and 6 of F. S. Dodge's sub-division of Kakaako, being those premises leased to said W. H. Kailimai by the Estate of B. P. Bishop, deceased, on March 27th, 1899, for ten years from Jan. 1st, 1899, at an annual rental of $24 per year, said lease being recorded in the Hawaiian Registry of Conveyances in Liber 190, page 373; together with all and singular the buildings situate on said leasehold premises. A. M. BROWN,
High Sheriff, Territory of Hawaii.
Honolulu, Oahu.

Venezuela Wants

FRIENDSHIP OF

United States

Caracas, Venezuela, Saturday, Nov. 22.—President Castro, in an interview today, said: "The revolution received its death blow at La Victoria. In spite of superior number the rebels were defeated and their principal leader was compelled to seek refuge in a foreign land. The remnants of his forces under arms are unable to support each other and are being closely pursued. I receive news daily of the disintegration of Matos' followers. A campaign has been inaugurated against Barcelona and Ciudad Bolivar by a strong and seasoned army, which assures its success. By the 1st of January I am confident I shall be able to officially proclaim peace.

"Following the declaration of peace the Government will discharge its just obligations and improve its condition and reorganize the financial system of the country. Every effort will be made to attract foreign capital, which is needed to exploit the rich agricultural, commercial and industrial resources of Venezuela. We trust the United States will participate in this exploitation. There will be ample guarantees for the security of funds invested.

"Venezuela entertains cordial and sympathetic friendship for the United States, and desires the closest relations with the United States, which has already signally been opposed to the aggression of foreign powers."

"What in the name of thunder it it, then?" cried the amateur impatiently.

"The distance is too great for the time," was the old man's reply.—St Joseph, Mo., Post.

SUPPOSE

That any of the well known capitalists of your acquaintance should say to you: "I will guarantee you one thousand dollars in ten years if you will give me eighty dollars each year, and should the eighty dollars each year you give me make one thousand dollars in a little less than eight years I will also give it to you." Suppose he should say: "At the present rate of profit that I am making I will be sure to give it back in seven and three-quarters years." Suppose he should say that, "If after one year you couldn't keep up your payments he would guarantee you one thousand dollars at the end of ten years for the eighty dollars a year, you had put in. Suppose that he should say, "That if in addition the profits being made were several per cent more than enough to make this eighty dollars reach one thousand dollars in ten years, and he should say that he would guarantee you all the profits made, besides $1,000. Suppose he should offer you an annuity each year after 5 years, average each year of $183.40 or an annuity after the first 10 years for next ten years. Suppose that he should say also that he would give you all the profits over and above, at any of the above periods besides the buarantee, which at the present rate of earnings would reach the following amounts:

Cash at maturity, end of 8 years	$1,000 00
Cash at maturity, end of 10 years	1,393 10
Cash settlement 5 years after maturity	1,964 96
Cash settlement 10 years after maturity	2,771 79
Annual Annuity for 5 years after maturity	312 19
Annual Annuity for 10 years after maturity	171 38

And again, suppose he should say, "You are a pretty good friend of mine, and I will set aside a certain sum of money which will absolutely guarantee you that I will do such a thing." You would very likely listen to this offer, and if you had sufficient confidence in him would probably take it up. Why? Because you know him personally and because you have full confidence in him, and because it is more profitable than anything else you could do. You certainly can figure that the eighty dollars paid each year for ten years would be eight hundred dollars, and you should also figure that of eight hundred dollars, $400 is what is used to make the profit of $200 besides surplus (what is called average time); that is, he has the full use for ten years of a capital which equals for the full time four hundred dollars; consequently the actual margin of profit made is just one-half again as much as the capital invested, or $200 for the full time. For example, the first eighty dollars you paid would be used for ten years, the second for nine, the third eight and so on, until the last year there would be only $80 to be used for that year. Consequently the profit is larger than the example indicates at first glance.

The Phoenix Savings, Building and Loan Association is issuing a class of stock which combines all of the above features and several more. Combines in one Certificate 12 different options. These options can be taken on Certificate without changing it. They act automatically, according to the way your payments are made. In other words, you pay the money and we do the rest. It combines all of the propositions made by your friend in the example stated above and it adds to it that of not one man's guarantee, but 27 successful business men and financiers, who say emphatically as much as has been stated above, and further convincing proof of what we have had to say above is shown in the Certificate itself. It is an ironclad guarantee with guaranteed options, and all you have to do to take advantage of it is to pay from one year to ten. You can also pay monthly in place of annually, or quarterly or semi-annually. Suit your own convenience. The certificate is of such a character that the payments you make determines which option you have.

We will add that it is the only thing of the kind offered by any Company or Corporation in the West today. We will also add that it is not life insurance, but strictly a co-operative bank-ink system that offers this opportunity, but in case of death every cent is returnable to the heirs, even if it is the day after the deposit has been made with us.

The stock is non-forfeitable after one year, non-assessable and non-taxable at any time, and is protected not only by the assets of the Company (which are loaned only on first mortgage improved city or town real estate), but by an additional Reserve Fund and Surplus exceeding $100,000 paid in in cash by the managers and directors of the Company, together with a stated amount of the earnings of the same, and the ironclad law of California, which specifically states upon what we must loan and how we must loan and under whose State Board of Commissioners we are controlled. Added to this is the ability of the well-known financiers and business men (whose names are below) to handle your money and make additional profits outside of our absolutely iron clad guarantee. Under the law these profits must go to you and other stockholders at regular settlement periods.

Our Class A 60c stock is the most profitable stock on the Pacific Coast today, and once off the market never will be sold again. The above stock will take the place of it at 70c per share.

EDWARD MAY ARRIVES.

The bark Edward May arrived from San Francisco after an uneventful passage of 19 days. She was within twenty miles of Koko Head on Monday but adverse winds drove her back until this morning.

While lying off the Islands, the vessel was in company with the Archer from Tuesday morning. A heavy coal laden bark was seen Tuesday. She probably went to Kauai. The British ship Kinross went into Kahului Tuesday morning.

The May brings a full cargo of general merchandise, even her cabin being pretty well filled with freight.

EUCALYPTUS WOOD.

Eucalyptus wood is very much used in California where there are great stretches of the trees which are cut down from time to time. Those who have used it in Honolulu for fuel have found it to be excellent for the stove but there were not many who were anxious to secure the wood that had been cut from the Experiment Station land because of the great expense of hauling it to town.
