LESSONS IN Drawing and Painting.

Published in the Hawaiian Islands for the Benefit of All. MONDAY, JULY 30, 1894.

This year deposits in the banks are returnable as usual on the assessment blanks, but are not taxable against the depositors.

J. E. Bush has resumed the publication of an English edition of Ka Leo o ka Lahui, to champion the cause of "legitimate, good and stable government."

Nobody of any sense believes other than that the United Press and Chronicle correspondence about an attempt on the part of royalists to buy the support of republicans was another of the many fakes issued on the revolutionary behalf since January 17, 1893.

HARD ON THE JUDGES.

There are many interesting things in the Hawaiian correspondence laid before Congress in connection with the controversy over our affairs.

Under her extreme notions of sovereign authority and the influence of her bad advisers, the Queen is trying to force the resignation of the Ministers and to get a cabinet composed of her tools.

On April 4 Mr. Stevens tells of his disappointment in the action of the Supreme Court, and mildly sets two of them down as being enemies of the reform movement.

Contrary to what seems to be the plain terms of the Constitution and to the opinions of framers of that document, as well as of the principal lawyers here, a majority of the supreme judges decided that the cabinet of Kalakaua ceased to have legal existence at his death.

Mr. Stevens gives a "confidential" account of the political situation under date of May 21, 1892, in which he represents the majority of the Supreme Court as virtually unmindful of their solemn obligations of office.

THE UNDERIGNED HEREBY gives notice that he has been duly appointed by the Circuit Court, First Circuit, of the Hawaiian Islands, Administrator of the Estate of Joseph N. C. Gilman, late of Honolulu deceased, and all debts due by said deceased, whether secured by mortgage or otherwise, must be presented to the undersigned duly authenticated within six months from date hereof or they shall be forever barred, and all persons claiming to the said Estate are hereby notified to pay the same immediately.

they should be under the influence of "an era of good feeling" in rendering an opinion upon a solemn matter.

"In a mistaken hour, immediately after the death of the late King, a majority of the judges in an era of good feeling, knowing that the Queen was importunate to select a Cabinet of her own, gave a decision of policy, that she had the right to remove the Cabinet then existing and select her own, in the exceptional case of the death of the sovereign, though the most level-headed judge—an American, McCully, recently deceased—gave a counter opinion in accordance with the plain terms of the Constitution, for the exclusive right of the Legislature to remove the Ministers is the vital and essential provision of the Constitution, made in 1887, so intended by the men now living here, who placed it in the Constitution, and so regarded by the principal lawyers here.

My boy was taken with a disease resembling bloody flux. The first thing I thought of was Chamberlain's Colic, Cholera and Diarrhoea Remedy. Two doses of it settled the matter and cured him sound and well.

LADIES' COLUMN.

The shoe dealers must be doing a good business, judging from the amount of Hosiery we are selling, for nearly all the barefoots in town have taken advantage of our stock and prices, while there is a suspicion that the more extensive buyers intend to lay in a stock for future use—it's all right, we bought them to sell and knew you could not resist the temptation.

Hawaiian Hardware Co., Ltd

Saturday, July 28, 1894. There is a hole out near the government quarry at Kamoliili containing an inexhaustible supply of pure sparkling fluid, sufficient to meet the demands of all Honolulu.

It will be seen at a glance that this is a much higher grade of water than we are now getting from either Nuuanu or Makiki, and we believe the government could take no wiser course than to run pipes from the pool to the city mains only a mile distant.

If this is a charitable government it will be done if for no other reason than to relieve the Superintendent of the Water Works of the severe mental strain caused by his attempt to figure out a way to give the people more water and less earth.

For a consideration we believe he can be approached and an arrangement entered into whereby all water difficulties could be obviated.

THEY HAD NO LIGHT.

Arrest of One Who Arrested Others for Supposed Road Offenses.

Ex-patrolman Wagner and another white man were arrested by Officer Sam Stone on Saturday night. Stone, who was on horseback, was making the rounds of the different beats, between 11 and 12 o'clock, when, at the corner of King and Punaluani streets, Wagner and companion came dashing along in a brake without a light. They were halted by the officer, when Wagner whipped up the horse and drove on at a furious gallop. Stone gave chase and caught them near South street. Wagner tried to intimidate the officer, but Stone was obstinate. The men were ordered to alight and were marched to the station. Captain Langley advised them to be careful and not travel without a light in the future, and then dismissed them. Wagner lost his billet on the mounted patrol for holding up driving parties on all sorts of pretexts.

HORSE RACE OFF.

Mr. Cornwall Wants to Sell and Not Race His Stock.

The challenge of the owners of the trotter Nevada to the owner of Johnny Hayward for a mile race, best three in five, has not been accepted, and consequently there will not be any race. W. H. Cornwall, owner of Johnny Hayward, arrived in town by the steamer Claudine yesterday morning from Maui. When seen this afternoon by a Bulletin reporter, in regard to the challenge, Mr. Cornwall said: "I will take no notice of it. I have no business interests on the other islands to attend to, and I am trying to get rid of my animals. If I can sell Johnny Hayward I will do so."

An Unseasonable Visitor.

Manuel J. Silva, an assistant in the Union saloon, sleeps in an upper room in rear of the place, reached by outside stairs. He went to bed there at 9:30 Sunday night. At 2 o'clock in the morning he heard a man coming up the stairs, and soon descried him entering the room. The intruder advanced toward Manuel's bed and peered through the mosquito bars. Manuel hailed to Joe Andrade, a boy sleeping in a room across the yard. At this alarm the stranger ran away. Nothing was missed from the premises.

Baseball on Saturday.

The Kunaui and Lively baseball teams played a match game on the League grounds Saturday afternoon. The ground stand was fairly filled, no charge for admission being made. The game, which was for \$20 and a baseball outfit, was won by the Kunaui, by a score of 12 to 4. A return match will probably be made, providing the league clubs do not resume the series.

He died on Friday morning while the steamer was off Nihaui. Courtney returned on board from ashore and, after spitting blood, expired. Captain Haglund had the body conveyed to Waimea, where it was buried. Deceased was born at Martha's Vineyard, Mass., and was about 52 years of age.

B. F. Ehlers & Co. report that since they started their "ladies' board" in this paper, they had heard it a hundred times—not from people who had dealt with them for years but new trade that has come in for bargains: "Why, we always thought that you sold such a high class of goods that your prices must be high." To these customers they have replied that, as they buy direct of manufacturers for cash, they are satisfied with a smaller profit than most dealers.

EXCURSION BY SEA.

Admiral Walker and Party Leave for Pearl Harbor.

The yachts Helene and Hawaii left with an excursion party for Pearl harbor this forenoon. As there was a stiff breeze blowing at the time both yachts went down flying. The yacht Hawaii had a new flag at her mast head. It consisted of red and white stripes with a blue star in the center. The excursion party included Admiral Walker, President Dole, W. G. Irwin, C. P. Laukon, L. A. Thurston, H. Waterhouse and Fred. Whitney. The party will return this evening.

IT WAS A FAILURE.

The Lads Don't Seem to Know How to Play the Game.

The hare and hounds chase by the Amateur Athletic Club on Saturday afternoon was not very successful. Louis Singer and James Spencer were the hares. They left the corner of Fort and King streets shortly about 5:25 o'clock, and were followed four minutes later by the hounds, T. Pryce leading. The hares returned about 6:28 o'clock minus bags, the paper having given out near the Y. M. C. A. The pack dropped in one by one, and nearly all had a kick coming. Gumpier claimed he caught Singer near the Union Feed Co., and others claimed that the trail was imperfect in several places. Still another complained that false trails had been laid by a third party. The whole chase was unsatisfactory.

The course lay out King to Richards, down to Queen, out Queen down to the waterfront, round to Fort, out Queen to Punaluani, up to School, down School, Robinson's Lane, yards, etc., out to Nuuanu, down Vineyard to the river, through the river and several yards out to King, down King to Chinese wash house, through them to Beretania, down Nuuanu, along Hotel to Y. M. C. A., and from there to the starting point. The hares were out 1 hour and 20 minutes and the hounds struggled in after them in the following order: D. Crosier, Im. Iosec, behind hares; L. Beardmore, R. Knight, T. Gompers, 2m.; P. Price and J. Thompson, 4m.; W. Prestidge, W. Lyle and T. White, 5m.; W. Bolster, 6m.

Mikahala Admiralty Case—That Alleged Fraudulent Deed.

The Inter-Island Steam Navigation Company has answered the libel of the Hawaiian Sugar Company. Its answer, signed by W. E. Godfrey, president, alleges that the cause of the sinking of the schooner Mary E. Foster by the steamer Mikahala, both belonging to the same company, was the changing of the schooner's course suddenly when the vessels were approaching each other. F. M. Hatch is proctor for the libellee company.

Judge Cooper is hearing the Kala-kau-Mahelona alleged fraudulent deed case again this afternoon.

A NEW RIFLE CORPS

They Provide Their Own Medal for the Best Shot.

The sharpshooters of the police force, which include the captains of the watches, have subscribed for a medal to be shot for, the winner to have the highest score in two out of three matches. Two matches have already been fired off. Captain Hokeno won one with a score of 40 out of a possible 50, and Lieut. Kane the other by making 39 this morning. Another match will take place on Wednesday next when, if either of the above-mentioned officers win, the medal will be his.

A number of the sharpshooters are kept in the Police Station all the time, apparently doing nothing but eat and sleep at the tax-payers' expense. These men are stationed there in case of emergency. Having no patrol or other active exercise to perform they decided to put up this medal to give them some real interest in life.

When moving into our present home I found a bottle of Chamberlain's Pain Balm left by a former tenant. On the label I found the statement that it was good for cuts and burns. I can testify to the truth of this. Nothing is all my experience has found its equal for treating blisters or burns. F. E. Barnett, manager, La Sauer Sentinel, Le Sueur, Minn. Pain Balm is also a sure cure for rheumatism. For sale by Benson, Smith & Co., Agents for the Hawaiian Islands.

DESERPTION OF A CABIN BOY.

Gets an Advance and Leaves Captain Dabel in the Lurch

The four-masted schooner Aloha left for San Francisco on Saturday last, minus the cabin boy. The boy had drawn his full wages the day previous and on Saturday morning he went to Captain Dabel and asked him for a little advance money, as he wanted to help his sister, who he said was in need. The captain gave him the money. Captain Dabel intended to get to sea before noon, and as the boy did not show up, he went ashore to the U. S. Consulate and had an order for the boy's arrest made out. He was finally found and taken aboard. Shortly before the sails were bent the same lad jumped on the railing of the schooner in full view of the mate and crew and got into Captain Patterson's boat and came ashore. The police and crew thought the boy had come ashore for something for the steward. However, the lad never returned and the Aloha left without a cabin boy.

A Midnight Blaze.

Shortly after midnight Sunday an alarm for a fire in Printer's lane was rung. The fire department promptly responded and after no little trouble quenched a blaze in a two-story building. The house is owned by Mrs. K. Anahu. The upper story was occupied by her and family, while in the lower part lodged a native man. The fire originated in the part occupied by the latter and considerable damage was done before the blaze was extinguished. The upper story was uninjured and Mrs. Anahu and neighbor thank their stars that there was hardly any wind blowing at the time.

"The philosopher who says" is going to do some more saying. Just read these prices and compare them with other advertisements of a like nature. 'Tis useless for us to declare every day a Clearance Sale. You know better. No house can sell goods at a loss continually. You, however, will not give us the blues by buying every piece of goods in our store at the prices we intend to quote you. I have Gingham (no need to tell you they are not shoddy; you know it), 13 yards for \$1. You don't have to come any special day to buy our Colored All-wool Dress Goods. You have always paid 75c. for these goods, never less than 50c. We are now selling them at 45c. and the more you buy the better. I must have room for my new fall stock. We have a full line of Scotch Gingham. These goods have been selling in Honolulu at 25c.; going and most all gone at my place for 19c. Our Victoria Lawns, which are of the very finest quality (these are the best value ever offered), 10 yards for 50c. You will find nothing but cold fact in this column, but it is to your advantage to buy from merchants who give the most goods for the least money. I am offering my White Lawns and Muslin at 10c., French Satens, former price 50c., going at 25c., and my Figured Swiss Muslin at the same figure. And your boys, the pride of their mother's heart, no excuse for their being shabby after reading these prices. Suits \$10 reduced to \$4.50; \$6 Suits for \$2.50; \$3.50 Suits for \$1; just think of it—a complete suit for \$1. These are unheard of bargains and as our stock is as limited as it is fine, an early call will be to your advantage. Yours for business, J. J. EGAN.

Hood's Cures

Even When Called Incurable

Terrible Scurvy—Sciatic Rheumatism

Mr. Arthur Simon of Galatia, Ohio.

"They said I was incurable, the doctors did, but the result has proven that Hood's Sarsaparilla was able to cure. I had Sciatic Rheumatism and was confined to my bed six months. Three physicians did not help me at all."

I Was Given Up to Die

When I was in this terrible condition, unable to move head or feet, I began to take Hood's Sarsaparilla. The first bottle had a little effect, and while taking the second, I gained so rapidly that I could sit up in my chair. My system had been so run down by other medicine, that it took me quite a while to re-operate. By the time I had taken four bottles of Hood's Sarsaparilla I could walk around, and now, as I have taken six bottles, I am cured and can do a good day's work. I do not feel I can praise

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS

THE UNDERSIGNED HAVE BEEN APPOINTED SOLE AGENTS FOR these SHREDDERS and are now prepared to receive orders. The great advantages to be derived from the use of the NATIONAL CANE SHREDDER are thoroughly established and acknowledged by Planters generally.

The large number of Planters using them in the United States, Cuba, Argentine Republic, Peru, Australia and elsewhere, bear witness to the above claim.

The use of the SHREDDER very largely augments the quantity of cane mill can grind (25 to 50%), also the extraction of juice (5 to 12%).

It is a great safeguard, making known at once the presence of any pieces of iron, stakes from cars, or anything which would be liable to damage the mill, and allowing ample time to remove same before damaging the mill.

The SHREDDER is very strongly made, and from the manner of its operation it cuts or tears these pieces of wood or iron without often breaking the SHREDDER; and if anything breaks, it is simply some of the knives or cutters, which can be quickly and economically replaced. The SHREDDER, as its name indicates, tears the cane into shreds of varying lengths, perfectly opening it and allowing the mill to thoroughly press out the juices without requiring the immense extra power necessary to grind or crush the whole cane.

The SHREDDER spreads the shredded cane uniformly and evenly to the mill rolls, and does away with the necessity of spreading the bagasse by hand between the mills, where regrinding is in use. No greater amount of boiler capacity is required to operate the SHREDDER than that which was sufficient for the mill, for the above reasons. We furnish full working drawings for the installation of our SHREDDERS, enabling any competent engineer to successfully install and start them.

In ordering SHREDDERS from us, please send small sketch, showing the diameter and width of the mill rolls with which SHREDDERS is to be connected, also the side (either right or left hand as you face the delivery side of the mill), upon which the mill engine is located, also the height from floor line to center of front mill shaft, and distance center this shaft to front end of bed plate. These SHREDDERS are now being used by the Hilo Sugar Co. and Hilo Mill, Kohala, where they are giving great satisfaction.

Prices and further particulars may be had by applying to

M. Turpin's Inventions for Slaughtering Human Beings.

The new inventions which M. Turpin, the inventor of melinite, is reported to have made consists of a mitrailouise and shell, says a late Paris despatch. The former is provided with automatic means of transport, and can be moved in any direction, and is capable of discharging with great rapidity twenty thousand projectiles, covering a surface of 2000 square metres. The loading is also automatic, and is effected by means of an electric motor. The second invention is stated to be an explosive shell emitting suffocating fumes. An experiment with the powder is stated to have been made recently at Brussels. Two hundred rabbits were shut in a room in which a small quantity of the powder was ignited, and they all died instantaneously. The Libre Parole says that two German generals negotiated with M. Turpin on the 25th inst., and that the Emperor has conferred on the inventor the title of Chief Engineer for Armaments. A letter from Brussels to the journal says that M. Turpin was for some time in negotiation with a Belgian manufacturing company which was going to take out the necessary patents and bring out the invention. Everything was ready for settlement, when two days ago the German Minister at Brussels asked Turpin if he would first see an agent of the German Government. He consented, and two days later two colonels of the Emperor's staff arrived, and negotiations were commenced.

COMPOSITE ATHLETIC FEAT.

Remarkable Performance by a British Bluejacket.

John Hullett, one of the sailors of H. M. S. Curacoa, performed a feat of endurance near the Vaisigano bridge last Wednesday which is deserving of mention. He had locked himself to, within an hour and ten minutes, complete the following: Ring 100 quoits at 11 yards, run a half a mile, walk the same distance, go-as-you-please half-mile carrying 56 pounds, pick up singly and deposit in a basket 25 stones placed one yard apart, row one mile, and swim half a mile. Much interest was manifested in the event, and a lot of betting amongst the ships crew resulted. Hullett was successful in accomplishing the task and was loudly cheered upon its completion. The following are the times for the different features of the contest: Ringing 100 quoits at 11 yards, 18 minutes; run half a mile, 3 minutes 30 seconds; walking half a mile, 5 minutes 30 seconds; go-as-you-please half a mile, carrying 56 pounds, 5 minutes 30 seconds; pick up and place singly in a basket 25 stones deposited one yard apart, 3 minutes 30 seconds; row one mile, 15 minutes; swim half a mile, 22 minutes; total, 1 hour 7 minutes 30 seconds.—Samoa Herald.

Kenneth Bazemore had the good fortune to receive a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when three members of his family were sick with dysentery. This one small bottle cured them all and he had some left which he gave to Geo. W. Baker, a prominent merchant of the place, Lewiston, N. C., and it cured him of the same complaint. When troubled with dysentery, diarrhoea, colic or cholera morbus, give this remedy a trial and you will be more than pleased with the result. The praise that naturally follows its introduction and use has made it very popular. 25 and 50 cent bottles for sale by Benson, Smith & Co., Agents for the Hawaiian Islands.

McChesney and Hawkins may have trouble over their soap deal, but everything is serene at N. Broham's. He still continues to do business at his old stand on Bethel street, and has enough soft soap on hand to wash the entire P. O. off the island.

LUCOL :-

IS THE

BEST

PAINT

OIL!

The following testimonial has been received from a prominent plantation owner and manager:

HONOLULU, H. I., May 29, 1904

PACIFIC HARDWARE CO. L'D., HONOLULU.

Gentlemen:—

You ask my opinion of Lucol as a Paint Oil.

I have experimented with Lucol Oil for outside and inside work, also on iron work, painting my vacuum pan, machinery and centrifugals, with it and the result has been most satisfactory. It dries harder, makes a better finish, goes farther and is more satisfactory in every way than linseed oil.

Certain paint work which was always sticky with linseed oil, dried hard when Lucol Oil was used.

Yours truly,

ADW. DENNIS.

Direction for Use.

Use LUCOL in every respect in the same manner as you would linseed oil, with the single exception that you may add fully one-quarter more LUCOL to the same quantity of pigment than you would of linseed.

In using metallic, Venetian red, the ochres, and other dry pigments, it is advisable to mix up the paint at least one day before it is to be used, then add a third more LUCOL and the paint will be found to cover well and have a good gloss.

NEVER USE JAPANS.

Where hard surfaces such as boards, steps, etc., are required use litharge only, never use Japans.
