FIVE CARS OFF THE TRACK

ACCIDENT ON OAHU RAILWAY AT MAUNALUA.

A Turned Rail was the Cause—No One was Hurt and Very Little Damage Done.

The afternoon passenger special of the Oahu Railway was wrecked at Maunualua yesterday afternoon, at a few minutes of 5 o'clock.

Five cars were derailed. Two of these were the passenger coaches, fairly filled with people. Fortunately no one was hurt, a good shaking up being the sum and total of their experience.

The train left Ewa at 3:30 and was due at Maunualua just an hour later. When opposite the Maunualua well, a mile or so from Maunualua station, a turned rail threw the engine and the train off the track.

The train was going at a good rate of speed and ran along over the ties and rocks for some little distance before the engine could bring his engine to a standstill. Very little damage was done to the train, but the track was torn up so completely that it is difficult to explain how it was done. Superintendent George Dennison was a passenger on the train and a gang of workmen under his direction soon had the derailed cars on the track again. The damage to the track was quickly repaired and the road was open for traffic this morning.

MANY HUNDRED FEET LAID.

Two thousand feet of rail had been laid on the Maunualua extension of the Oahu railway up to this morning. This carries the track to the first bridge outside of Waiwae. The biggest bridge on the extension is four miles out of Waiwae.

WILL BUILD ITS OWN CARS.

Latest Enterprise of the Oahu Railway—Car Shops and Mills.

Things are lively about the Oahu railway yards. A gang of workmen are well started on the new car shops and planing mill. Hereafter the railway company will construct its own cars and rolling stock. The iron work will all be imported. This latest enterprise on the part of Mr. Dillingham and the railway will give employment to a good number of workmen.

MISS WILDER'S NEW HOME.

A Beautiful Cottage at the Beach is Just Completed.

The house built by Mrs. Wilder for her daughter, Miss Helen Wilder, at Waikiki beach, was completed yesterday, and Miss Wilder will move into her new home next week. The house is a model for this climate, fitted out in modern style throughout, with every convenience. The bedrooms are big and airy, with dressing and bath rooms attached, and the living room, which is 20x30 feet, is light and well ventilated. The makai side is taken up with a lanai 20x30 feet, from which a grand view of the ocean can be had. An annex connected with the main building by a latticed alley, contains the kitchen and bath houses.

The interior work is in white pine, finished in oil. Special attention has been paid to painting, with excellent results. The carpenter work was all done by John Oudekirk, and the painting by Riley. The new house is on the old beach road, between the Davies and Young places. The stable which is modern and a handsome affair, is situated on the mauka side, across the road.

WILL LOSE HIS ARM.

A Japanese was brought from Hoolapa, in Kona, on the last steamer and placed in the Queen's Hospital. While hunting goats the Japanese accidentally shot himself in the arm with an old rifle. The arm will be amputated.

When you cannot sleep for coughing take Chamberlain's Cough Remedy. It always gives prompt relief. It is most excellent for colds, too, as it aids expectoration, relieves the lungs and prevents any tendency toward pneumonia. For sale by all druggists and dealers. A BIG SACRIFICE.

This week in Ladies and Children's trimmed hats, toques, bonnets and turbans, at N. S. Sachs.

WANT ISLAND STEAMERS

KLONDIKERS HARD PRESSED FOR CARRIERS.

Offers to Charter or Purchase Vessels of the Inter Island Company—Fleet at High Figures.

In spite of the large number of the steamships engaged for the Klondike trade next spring, small steamers are in great demand on the Coast just at present. So urgent is the demand that offers have been made to charter or buy outright the steamers of the Inter Island company. Letters were received in the last mail from responsible people in San Francisco containing most flattering offers, but, of course, made no impression on the owners of the Inter Island fleet.

During the past few years a large number of steam schooners, similar in build to the steamer Hawaii, have been constructed on the Coast and placed in the coasting trade. They are light of draft and big carriers, and have all proved very useful in the Klondike trade. All of these steamers have been snapped up long ago, and more are under construction in the various yards, but will not be completed in time to participate in the opening this spring.

The steamers used in the Island trade would be just the thing for the Klondikers, and it is not to be wondered that enterprising San Francisco people made a bid for them. But they probably did not understand the situation here. The fact of the matter is that there are scarcely enough steamers in commission here now to handle the sugar crop as rapidly as it ought to be handled. The Wilder company is hastening the work on the new steamer Maui, now nearing completion in San Francisco. The Inter Island company is really a steamer short through the loss of the Kaia, and will at an early date order a larger and finer vessel.

Meanwhile the sugar ships are lying idle in the harbor. The rough weather that has prevailed for the past few weeks has delayed materially the movement of the crop. While the offers from the Coast are very tempting, there is no possibility that they will be accepted.

NOTHING IN THE KICK.

Four Horse Teams Can Drive Well Over the New Pali Road.

Complaint has been made by a rancher on the other side of the Pali that some of the turns in the new road are so sharp that a four horse team cannot haul a load around them. Contractor Whitehouse laughs at the assertion, although if there were any such faults, it would be the engineer's who surveyed the route and not his. "Why, a man who could not drive a four-in-hand over that road," Mr. Whitehouse said this morning, "is not competent to handle horses. I'll do it myself at any time on any kind of a wagon, or just for the fun of the thing. The fact of the matter is that some people will kick, no matter how much the government does for them. Here the taxpayers have put up for a splendid road for the accommodation of a few people who will not pay enough taxes in their lives to make up for the outlay. Now these same people, I suppose, are mad because the government will not build an electric railroad over the Pali, and give them free passes over the line."

FINE PICTURES.

Five water color paintings, the property of C. A. Brown, are on exhibition in the window of the Pacific Hardware Company. They are the work of J. D. Hunting, a Boston artist. Two represent sunset views, the coloring being very fine. The pictures are of exceptional merit and are well worth stopping to look at.

MAKES HER POSITION CLEAR.

Japan Does Not Intend to Annex the Hawaiian Islands.

The Japanese Minister called at the State Department in Washington recently to present a communication from his government, stating that it had never thought of annexing Hawaii, nor had it any objection to its annexation by the United States, but it did intend to insist that the Japanese in Hawaii and any other Japanese who chose to go there, should be accorded all the rights secured to them by the treaty between Japan and Hawaii.

THE SOCIETY WILL FLOURISH.

There has just been organized at Hokena, Hawaii, a Young People's Society of Christian Endeavor. Mrs. T. K. R. Anala is president, Mrs. G. Waiu vice president, Miss Cornelia K. Kaelale secretary, Mrs. M. Keonau treasurer and Mr. Anala director. Among those who are greatly interested in the society are Pali Naope, Hattie Kanwe, Henrietta Kapo and Mary Ann Kahanoku.

KAULIKE BARGAIN COUNTERS.

Positively a great reduction on all sales for the next two weeks, commencing Saturday, January 15th. The present stock must go. A splendid lot of goods which arrived too late for the holiday trade, to be sold below cost. No. 18 Hotel street, near Fort street.

THE HARBOR IS DISCUSSED

CABINET MAKES ITS POSITION CLEAR.

Only a Two Hundred Wharf Being Built—Further Improvements Will be Left With the Legislature.

Chairman P. C. Jones and six other committeemen chosen at the Chamber of Commerce meeting yesterday to investigate into the harbor improvements now under way, were closeted with the Cabinet this forenoon.

The grievances of the Oahu Railway Company were fully stated by General Manager Dillingham at the Chamber of Commerce meeting. Mr. Dillingham was also present at today's conference. Chairman Jones of the committee explained that they had been delegated by the Chamber of Commerce to ascertain the Government's true position in the matter. An interview with Attorney General Smith was published in The Star, was the only information that had come from the government on the matter.

The Ministers discussed the situation thoroughly. One Minister sized up the general proposition in a nutshell as follows: "Whether the right of eminent domain on the part of the government, that is, the right to take private properties for public purposes, is superior to the right of the Oahu Railway Company to take public lands for private uses."

The Chamber of Commerce committeemen were told by the Cabinet that there was a misapprehension in the matter. The government had only authorized the construction of a 200 foot wharf running from Limekin point to Sorenson's. This extension would accommodate the present demand for wharfage room. At a future time the government had decided to recommend still further extension from Sorenson's to Sumner Island. This, however, would come up before the Legislature for determination.

In the meantime the suit of the Oahu Railway Company against the Republic of Hawaii, would be settled in the courts, where it is now pending.

The committeemen announced that it had been their impression that the 600 foot wharf would now be built and to learn from the Cabinet that such was not the case was a surprise to them. They did not want to interfere with the courts. The report of the committee will probably be submitted to the Chamber of Commerce at a meeting to be held this week.

THEY WILL RACE.

Following are the entries to the Cyclomere races on Saturday evening:

Exhibition third-mile, flying start.

First—Mile open (novice), one heat, with time limit. Entries: Jos. Smith, Nigel Jackson, G. A. Bower, W. H. Cornwell, Jr., M. V. Souza, R. N. Halstead, Tom Treadway.

Second—Half-mile open, professional, with time limit. Entries: George Martin, John Sylva, D. Whitman, Allan Jones, D. G. Sylvester, H. Terrill.

Third—Two-mile handicap, amateur. First heat: F. B. Damon, scratch; Arthur Giles, 50 yards; J. Gilman, 70 yards; C. C. Aiken, 80 yards; T. J. Higgins, Jr., 80 yards.

Second heat: Henry Giles, scratch; T. V. King, 50 yards; M. V. Souza, 70 yards; W. H. Cornwell, Jr., 100 yards; Nigel Jackson, 100 yards.

Fourth—Two mile handicap, professional. Entries: H. Terrill, Allan Jones, scratch; George Martin, J. Sylva, D. Whitman, 50 yards; D. G. Sylvester, 80 yards.

Fifth—Mile open, for boys. Entries: B. J. Rice, C. Holoua, J. Kaaka, J. Botelho, Frank Bachelor.

Exhibition third-mile, flying start, for Island amateur championship. Fred Damon, paced by K. B. Porter and C. Murray.

Three prizes will be given in the amateur events, just as in the professional races.

JAPANESE STEAMSHIPS.

The Nippon Yusen Kaisha (Japan Mail Ship Co.), carries on a larger business than many people here have any idea of. According to the official handbook just published this company runs a monthly service between Yokohama, London and Antwerp. There is a monthly service between Yokohama and Seattle. A monthly service with Australia, a like service with Bombay. There is a weekly service with Shanghai, a service every three weeks between Kobe and Vladivostok, and four weekly steamers to Newchang, Teintsin and Manila respectively. This is not a bad record for a country which fifty years ago had never heard of a steamer.

WILL BRACE UP.

New life will be instilled into Company B. Within a short time an election of a captain will be called for. Adjutant Louis Kenake of the First Battalion is wanted by most of the members to take command of the company. He has about given his consent to run. New recruits are being secured. At one time B was the banner company of the regiment.

ENGAGEMENTS.

Of the many engagements that are constantly being contracted and made public in Honolulu, none are kept so rigorously, among the sterner sex, as their engagements at the Criterion barber shop.

LEPER OUTLAW CAPTURED

KALUNA SURRENDERS TO DAVID LELEO.

Was Armed to the Teeth—He was Brought to Honolulu This Morning—Closely Guarded.

Deputy David Leleo came into the city this morning with Kaluna, the leper outlaw. He went direct to Kailua receiving station.

Executive Officer Reynolds of the Health Department will make arrangements this week to take Kaluna to visit Kana'i in order that he may settle up his affairs. He will then be taken to the Molokai settlement.

For several years Kaluna, who was formerly a cowboy in the employ of James I. Dowsett, has eluded the police authorities in the Koolau mountains. He gave them all warning that he was armed and should they pursue they would not take him alive. Kaluna who is a middle aged Hawaiian, is known to be a determined man, and for that reason no one was especially anxious to hunt him.

Not until recently has the government instituted any active campaign against Kaluna. William Henry, agent for the Board of Health at Koolau, was authorized to offer a reward for the outlaw's capture. David Leleo went to the front and succeeded in getting the drop on Kaluna. In his mountain abode, yesterday morning, Kaluna was armed with a rifle and revolver.

Only last week the man sent word to the Health Board through a friend that he would surrender peacefully if he be permitted to visit his family on Kana'i before going to the settlement. The request will be granted.

COFFEE MARKET IS DULL.

Louis Bartels is busy picking coffee on his Kona place. The Kona planters report that they are able to secure from 11 to 15 cents a pound for their coffee in Honolulu and about 19½ cents in San Francisco. The market is dull now because of an over-production.

ENTERTAINED DR. DOUGLAS.

Hugh Douglas, the popular and talented young doctor of the S. S. Moana, was entertained while the vessel was in port by his cousin, Miss Almee Mossman.

HARRY CANNON'S AFFAIRS.

The petition of Theo. H. Davies & Co. that Harry Cannon, the Palama groceryman, be adjudged a bankrupt, will be heard by Judge Stanley tomorrow morning. Davies & Co. have a claim of \$8,000 against Cannon. J. Q. Wood is representing them and Mr. Cannon appears in person.

HIS FINAL ACCOUNT.

Administrator J. M. Camara has filed his final account in the estate of J. C. Pacheco. There is due the heirs some \$600.

THE ELDREDGE ESTATE.

The estate of Charles H. Eldredge is valued at \$20,000, which is left to the widow and daughter, Miss Edith Eldredge. Mrs. Eldredge is nominated in the will, made out in 1890, as the sole executrix. Mr. Eldredge expressed a desire that his heirs continue to hold his stock in W. G. Irwin & Co.

MOTT-SMITH IS CHOSEN.

E. A. Mott-Smith has been appointed special administrator of the estate of Yoshine Shidguyo.

ADVERTISED FOR A HUSBAND.

A marriage which was brought about by an advertisement in a Chicago matrimonial paper, and which has aroused a great deal of comment among the relatives of the bride and groom, was that of Mrs. Joseph Laurier of Binghamton, N. Y., and Leroy H. Wright of San Francisco. Mrs. Laurier is an ardent admirer of the Remington bicycle and it was through the advertisement of a husband who rode a Remington that she procured her wish. Pacific Cycle and Manufacturing Company have Remingtons for rent.

The S. C. Allen is back again to the Irmgard wharf, where she is working inward cargo.

The R. M. S. Warrimoo is due from the Colonies tomorrow. She will be the last steamer to the coast until the 3rd prox.

A lot of sugar stored on the Inter Island wharf was hauled in scows to the bark R. P. Rithet in the stream this morning.

So great is the demand for steamers to carry freight and passengers to the Klondike that shippers have sought to charter or buy Inter Island boats.

The Andrew Welch, after five days of waiting, secured a berth at Brewer's wharf this morning and at once commenced discharging her inward cargo.

The bark Diamond Head, which arrived yesterday from the Sound, with ties and shingles, has secured a berth at the railroad wharf and is now discharging.

The U. S. S. Baltimore will go to sea for target practice on the 24th, according to the present arrangement. She is all ready for the trip and will remain out only about a week.

The Helene has not yet put in an appearance, but is rather expected today. She was last heard from on the 14th, when she had succeeded in getting rid of a portion of her freight.

Much sport was made over the ark shape of the barkentine Encore, while she was in port, but Captain Panno was willing to bet, before he sailed yesterday, that he would beat the British bark Fredale, which had five hours start of him, to San Francisco. He has an idea that the Encore can sail.

Dr. M. J. Rosenau, United States quarantine officer at San Francisco, has received instructions from Washington authorizing him to refuse certificate of pratique to vessels which cross the quarantine line, or permit pilots and others to go ashore, before inspection by the federal quarantine officer. This is the result of Dr. Rosenau's correspondence recently in the case of the Mary Dodge and the Andrew Welch for violating the above rules.

Reports from the scene of the Kaala wreck this morning say that one-half of the broken steamer has been now thrown up on the beach through the action of the waves. It is fit only for firewood, but it contains the engine, which was supposed to have been buried in the sand at the bottom. Hope is expressed that the engine may yet be saved, although it will probably be in a demolished condition. Captain Mosher is still on the ground, looking after the company's interests. The sea is still running high over the reef. The steamer Waialeale will probably be put on the Kahuku run for the present. She has been in there several times and is light enough of draft to clear the reef in good weather. The company will really be short a steamer, particularly as the sugar is piling up and many vessels are now waiting for it.

BRITISH NAVAL EXPENDITURE.

In an article referring to the Naval Expenditure and Mercantile Marine of various countries, the London Times says: "We thus have the maritime trade of the United Kingdom estimated at £822,158,000; that of India at £116,451,095; that of the self governing colonies at £194,195,168, and that of other colonies at £175,000,000.

But in order to arrive at the total value of British maritime interests we must still add some very large sums, of which no account is taken either in the present return or in any of its predecessors. Thus £100,000,000 at least must be added for the value of the shipping, estimated at over 10,000,000 tons.

Again it is well known that a large portion of the maritime commerce of other nations is carried in British ships, and is to a large extent owned by British merchants in transit. The value of this item was estimated in 1894 by a correspondent, who criticized the return of that year in our columns, at not less than £350,000,000; and the same correspondent pointed out that the value of securities and other marketable documents annually carried to and fro in British ships could not be less than £250,000,000.

Adding all these items together we find that the total value of British maritime interests must, on the basis adopted in the present return, be estimated at not less than £2,000,000,000 all told. We have now to compare this stupendous figure with those relating to other countries as given in the return.

We find that the aggregate value of the imports and exports by sea of the principal maritime power of the New World amounts to less than £1,000,000 and even if we add 50 per cent to this total in respect of the elements of value corresponding to those which, as we have shown, are neglected in the returns for the British Empire, we still get a figure less by over 25 per cent than that which represents the maritime interests of the latter.

Not smoother is the sea of glass. Oft heard about in Bible class—Than one from Charles Molteno's place With a newly shaven face. On Merchant street, "Just as of yore," He'll cut your hair La Pompadour.

Baking powder at 25 cents or 30 cents a pound never ought to have been sold, because good baking powder is cheaper—does more for the money.

CONTRACT LABOR.

The question of contract labor is one which our planters and those whose interests lie in sugar plantations must face. An article published in these columns a couple of days ago outlined the possible legislation upon this point. Contract labor with a penal penalty has to cease on the Islands, and the sooner the matter is realized the better. Like any other great change brought about in an industry there are those who will object simply from conservative dislike to change. Then of course there are those who foresee that under a change of labor their gains will not be so large.

When slavery was abolished in the Southern States it was claimed that the States would be ruined. Yet nothing of the kind occurred. There is an ample supply of labor, and labor will even at times overstock the market, and have to seek work elsewhere, the area of cultivation has increased and manufacturing industries have been added. Within the last seven years the increase of cotton mills in the South has been enormous. In 1890 there were 254 mills, in 1897 there were 483; in increase of 229. The total spindles increased from 1,712,930 to 4,105,667, and looms from 39,231 to 103,298, a gain of 1,392,737 and of 64,067 respectively, and the Southern States today are more prosperous than they ever were, and have brighter prospects before them.

In Russia a radical change was made by the abolition of serfdom, and all agricultural industry, it was predicted, would be ruined. The contrary has proved to be the fact, and Russia has not only increased her agricultural resources, but she has spread out into manufacturing industries which were undreamed of.

Thus radical changes in labor do not bring about the disastrous results that many would have people think. With us in Hawaii the transition has, in a great measure, set in. Many laborers on the plantations are working without contracts, and quit work or change their locations as it suits them. But laborers as a rule stay where they are well off and well treated. Constantly changing is expensive, and the object of the laborer is to save money, and he does that by sticking to his work. The advantage of plantation work over work on fruit farms is that the plantation work is steady throughout the year. It is not a rush for a thousand laborers today, and then cutting down to three or four hundred in three months' time.

Many of our planters are not favorable to contract labor, which is neither slave labor nor serfdom, as often stigmatized, and it is well known that the co-operative system is strongly desired by some who are willing to sacrifice some money in order to carry it through. With the many objections urged against the system, in view of the fact that it is used against us abroad, to our own detriment, and remembering that the system of contract labor is not looked upon with favor by all planters, it does seem that a bill should be introduced into the Legislature abolishing the objectionable system upon lines somewhat similar to those suggested in these columns a couple of days ago.

NO FROST.

The recent frost in Florida and Louisiana has not inflicted material damage on the cane, says the Louisiana Planter, though the pine apple crop was reduced fifty per cent and the banana crop was practically ruined. We should be very thankful here that no such trouble ever comes upon us. The Islands are peculiarly fortunate. We have both the advantages of the temperate and the tropical zones and have none of their disadvantages.

We have no frosts, as occur at times in sub-tropical countries, to destroy our fruit crops, and then again we have no fevers to contend against and the many ills which come of living on the coasts of Central America, of tropical Africa, or of the West India Islands. The Islands are healthy in the extreme and instances of longevity are numerous. Man can work here in the fields even though he be sprung from the Caucasian race. No better instance of this could be seen than at Olua. There are many white men there who do a hard day's labor on their plantations week in and week

out and who do not suffer from their work in the least.

The writer has known an Englishman on the Island of Maui who for several years carried on a farm and dairy. He used to help in the milking, worked his own plow, getting up at 4 o'clock to harness his own team, and coming home again after a hard day's work, a tired, but a thoroughly healthy man. And he was no common laborer, but a well educated, polished man of the world. It might have seemed as if everything was against him, but he pulled through well, and it may be said was healthier when he walked between the stiffs of his plow, then he is now with many thousands a year to spend, and no hard work to do.

This country in point of fact, need not depend on Asiatic labor for its progress and success. The work is hard and trying, but it is no harder or more trying than work at midsummer in the temperate zone.

The full possibilities of Hawaii are only just beginning to be understood. The more they are understood the better they will be appreciated and the finer will be the population that will eventually make its home in our midst.

CRIMINAL CODE OF ALASKA.

The commission appointed to revise the criminal code of the United States in the partial report which it will make to the President and Congress, will present a proposed code for criminal justice in Alaska. The commission is authorized to do this in the act which creates it, as territorial laws are also United States laws. At present the laws of Oregon are made applicable to Alaska, and these will be revised, codified and amended by the commission to suit present conditions, and will be submitted as a partial report for the basis of legislation by Congress.

A SPASM OF SENSE.

Now, let's have a short spasm of common sense. If people who have been chronically sick are so soon and so easily cured by our preparation, why were they not cured by some of the medicines they took before? Because medicines are like novels and songs; once in a while a good one hits on tons of poor ones. But what is

WAMPOLE'S

PREPARATION,

made of that it should do what others cannot? The answer is simple and straight. It contains the nutritive properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry Bark, combined in a new and scientific way. It isn't a lot of incongruous ingredients shaken together, but chemically united, so as to make one thing of unprecedented potency. It is pleasant to the palate as honey and cures Fevers, Scrofula, Rheumatism, Stomach troubles, Bowel Complaints and Debility, by expelling the deadly disease germs and filling the blood with rich and healthy elements such as nature requires. Try it and see what a remedy that is abreast of the age, can do for you. It is a substitute for solid food. There is nourishment in a single sup, for every dose is effective. You cannot be disappointed in it. Sold by chemists everywhere.

for which we are the exclusive agents for the Hawaiian Islands.

The necessity for a good pipe covering when steam has to be transmitted any distance is well known by all who use steam for power. By using this covering on your pipes a saving of 20 per cent in fuel is guaranteed. This is a big item and should be well considered. One hundred pounds of plaster will cover 100 square feet of surface one-half inch thick. It is no experiment. It has been tested and recommended by the great railroads and manufacturers of the Pacific Coast.

One of the best indorsements is from a home company, as the following letter will show:

HAWAIIAN HARDWARE CO., LTD.:
Gentlemen—We have used the products of the "ANTI-CALORIC COMPANY" on the boiler of the "Waialeale" and have found them first class, and so easy to manipulate that the services of a plasterer were not needed to make a neat and substantial job.

Prompt Payment of a Big Sum

December 4th Rouse, Hazard & Co. mailed their attorney at Chicago a draft for \$17,810.96, payable to the Western Wheel Works, that being the amount which had been in litigation between the two companies for several years. The ability of Rouse, Hazard & Co. to forward this large sum just at this season of the year, when the pay rolls and other expenses of bicycle manufacturers are very large, and receipts very small, is certainly a most convincing evidence of the solvency of one of the oldest bicycle concerns in the United States. Of the manufacturers and jobbers of bicycles who were in business when Rouse, Hazard & Co. entered that line, more than eighteen years ago, the number that still exist can be counted on the fingers of one hand. Rouse, Hazard & Co. report that their present prospects are the brightest of any time during all the years they have been in business. They now have bona fide orders from gilt edged concerns for a larger number of machines than they ever had orders for at any one time.

The next Australia will bring us a full line of these wheels. They will have more than their share of up-to-date features, and will make up the most elegant line of 1898 wheels that will be seen here this year. We shall also receive a line of Kensington's. It will pay you to wait.

MAY BUILD A NEW HOTEL

T. K. JAMES IS REMOVING THE SNOW COTTAGE.

He Declines, However to Discuss His Plans—Denies That He will Build a New Hotel.

A force of workmen is engaged in dismantling the Snow cottage, adjoining the hotel on Hotel street, and T. K. James, the present owner, has advertised the cottage for sale and immediate removal—two facts that have excited the curiosity of the public. When Mr. James was asked this afternoon what improvements he proposes to make on the place, however, he declined to satisfy public curiosity. "I am not going to build a hotel that I know of," remarked Mr. James. "Indeed I have no plans to discuss now. I do not know what I shall do with the property, nor shall I know for a week yet. Had the circus come along a fortnight later, I should have leased the place to them for a show ground. I am removing the cottage because it is of no use to me. Perhaps I may build there, but I have no plans at the present time."

Further than that Mr. James would say nothing, but the gossips have it that he will build a first class hotel on the site of the present cottage. He has ample backing and the property is large enough to accommodate a large building. Of course, the unwillingness of Mr. James to talk makes it impossible to make any positive statements, but the mere fact that he is a hotel man, with plenty of cash, and came here to build a hotel, speaks volumes.

CURE FOR DIZZINESS.

A Physician Talks Upon This Important Point.

Now that the elevator has become such an important instrument in connection with our civilized life, and so many thousands are using it every day, and as a goodly proportion of the number are troubled with a sense of dizziness whenever they attempt its use, allow me to bring to the attention of your readers a remedy which is as efficacious as it is simple of application.

Believing the cause of this sensation of dizziness to rest with the circulatory and not with the nervous system, the writer some years ago tried the effect of simply inhaling a breath just before the elevator started (either up or down, and holding his breath for a few seconds till the elevator got well under way, and to his great pleasure no dizziness occurred.

The explanation is very simple. The maintenance of the inflated condition of the lungs renders tense the system of blood vessels throughout the whole body, thus preventing the extra fullness of the blood vessels of the veins which otherwise occurs when a sudden movement is downward, and vice versa, that of vacuity of the blood vessels of the cranial cavity when the sudden movement of the body is in an upward direction.

Shadow of Herself

Stomach Was Too Weak to Retain Food

A Complete Cure Effected by Hood's Sarsaparilla

Now Enjoying the Best of Health, With Digestion Perfect.

"My mother was subject to sick headaches and indigestion for over a year. She was unable to stand for any length of time, and was obliged to stay in a dark room as she could not bear the light. She had no appetite whatever and her stomach was so weak she could not retain what food she did eat. She also had severe pains in her head. She suffered so much that she became but the shadow of herself. One day I happened to read a testimonial about Hood's Sarsaparilla. It

Sounded So Truthful

I persuaded her to try this medicine. Before finishing the first bottle there was an improvement in her condition. She no longer threw up her food and her headache was not so severe. She took in all four bottles of Hood's Sarsaparilla and several boxes of Hood's Pills and regained her weight. She is now enjoying the best of health. Her digestion is good and she can eat almost anything she wishes. She is 42 years old and says she feels as well as when she was 16. Hood's Sarsaparilla made a complete cure in her case."

The best preparation for preserving, restoring, and beautifying the hair is

Ayer's Hair Vigor.

It keeps the scalp free from dandruff, heals troublesome humors, and prevents the hair from falling out. When the hair becomes dry, thin, faded, or gray, it restores the original color and texture and promotes a new and vigorous growth. Wherever used, Ayer's Hair Vigor supplants all other dressings, and becomes at once the favorite with ladies and gentlemen alike.

CALLS DOWN THE EDITOR

GODFREY L. CABOT GIVES OUT SOME HARD FACTS.

Has Failed to Hear Ex-President Cleveland's Voice Against the Present Annexation Treaty.

Godfrey L. Cabot of Boston, who has always been a true friend of Hawaii, sent the following letter to the Boston Transcript, in reply to an editorial attack upon his position on the Hawaiian Islands question:

I have read your editorial of a recent issue in which you refer so kindly and gently to my little brochure on Hawaii.

With regard to your question in what way the status of the Hawaiian government has improved since in 1893 the first treaty was withdrawn.

In the first place the provisional government of thirteen has given place to a constitutional convention of thirty-seven in which Hawaiians, English, Germans and Portuguese as well as Americans took part.

Secondly, this in its turn has given place to an elective republican government of which the upper branch is chosen once in six years and the lower branch once in two years.

Thirdly, both branches have voted unanimously in favor of annexation, and the Polynesian element is represented in both and has a clear majority in the lower house.

Fourthly, the native preachers in convention assembled have declared unanimously for annexation.

Fifthly, the Senate Committee, after a year's deliberation and hearing an enormous mass of evidence from all sides, have reported in favor of the entire legality and competence of the Hawaiian government.

Sixthly, Mr. Williams, Mr. Cleveland's appointee, who went out as a critic, has borne the highest testimony to the character, ability and integrity of the present government, and did not allow I could give other reasons.

I have not yet heard Ex-President Cleveland's voice raised against the present treaty. Moorfield Storey alleges the smallness of the electorate, but in the previous regime they could sell their votes, which they cannot do now; on the contrary they have to pay a \$5 poll tax, and as they are mostly poor and well cared for under the present government they are rather indifferent to politics.

Nevertheless, the proportion of the total population composing the electorate is larger than the proportion of Massachusetts women who voted on the question of suffrage a few years ago; four times as large, I think.

In view of these facts I do not think it is fair or candid to get up again and again in debate to allege that less than 1000 Americans are trying to steal the liberties of 100,000 people. It is unworthy of the highly honorable source from which it emanates.

Neither do I think it wise or patriotic in public debate to suggest that our best use for these Islands would be as a penal colony to which to deport our own government at Washington.

I believe that with few exceptions Congress is made up of respectable, intelligent, patriotic men, and that it is unfair to assail their character because in advancing the interests of the different parts of this large country from which they come and voicing the widely divergent views of their respective constituencies they do not reflect our opinions.

It is true that a large proportion of the laborers of these Islands were imported under contract. This will at once cease when the Islands are annexed by the conditions of the present treaty.

The sugar lands are practically all taken up, and future possibilities of expansion lie in the direction of coffee culture, commerce and manufacture.

For the last Hawaii has few natural advantages, but so has Massachusetts. I believe that annexation will result, as it always has, in the rapid increase of the Caucasian element. Why not?

I know little about San Domingo, and I suppose Congress has excellent reasons for refusing to admit it into the Union.

I believe that our past annexations have on the whole been wise and right with two exceptions, the conquests of the Mexican war and the lands of which we have dispossessed the Indians without adequate compensation. Hawaiian land has all been paid for. It is proper that we require a higher moral standard of our present legislators than that which we condone in statesmen of bygone generations, and I have tried to show that, in this case, they will stand the test.

WHEN YOU HAVE A BAD COLD. You want the best medicine that can be obtained, and that is Chamberlain's Cough Remedy.

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy is the only medicine in use that meets all of these requirements. This remedy is famous for its cures of bad colds throughout the United States and in many foreign countries. It has many rivals, but for the speedy and permanent cure of bad colds, stands without a peer and its splendid qualities are everywhere admired and praised. For sale by all druggists and dealers. Hawaiian Electric Company.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

SOME SOCIAL HAPPENINGS

MRS. HAYWOOD IS PLEASANTLY SURPRISED.

The Players in the Kilohana Art League Plays are Rehearsing—Mrs. Cooper Entertains—Other Notes.

A complete surprise was given Mrs. William Haywood, wife of the American Consul General, last evening, by nearly one hundred friends. Consul Haywood was let into the secret and he spirited Mrs. Haywood away to a dinner. The people comprising the surprise party invaded the Haywood home promptly at 8 o'clock and were thoroughly prepared to receive their guest upon her arrival. The beauty of it all was that Mrs. Haywood was taken completely unawares. The ladies brought refreshments with them. Despite the disagreeable rain, dancing was enjoyed on the pavilion. The Quintette club furnished music. Among those in the party were the officers from the Baltimore, Bennington and Concord, Marshal and Mrs. A. M. Brown, Dr. and Mrs. C. B. Cooper, Mr. and Mrs. S. G. Wilder, Mr. and Mrs. Gerritt P. Wilder, Lieut. and Mrs. A. G. Winterhalter, Lieut. and Mrs. Beech, Mr. and Mrs. Tracey C. Drake of Chicago, Mr. and Mrs. L. de L. Ward, Mr. and Mrs. John S. Walker, Vice Consul and Mrs. W. P. Boyd, Mr. and Mrs. G. Richardson of San Francisco, Lieut. and Mrs. Price, Mrs. M. C. Widdfield, Mrs. Shephard of San Francisco, the Misses Bletten, Miss Wells and Miss Foster of San Francisco, the Misses Widdfield, Miss Kate Cornwell, the Misses Kate and Belle Vida, the Misses Young, Miss Rutherford and Miss Pauline Collins of Oakland, Miss Allie Wall, Miss Banks, Miss Widemann, Messrs. George Davies, James McInerney, W. H. Babbitt, Arthur Wall, Charles Hall and others.

Rehearsals begin this evening at the home of Mrs. Russell D. Walbridge for the two society plays to be presented at the opera house next month under the auspices of the Kilohana Art League.

One of the most delightful affairs given thus far in the new year was Mrs. Charles B. Cooper's "at home" on Monday afternoon. The reception was held in the large drawing room and refreshments were served on the lanai by a number of ladies. The Quintette club furnished the music.

The Misses Young will give a dancing party at their beach home very soon.

Miss Rutherford and Miss Pauline Collins, young society ladies of Oakland, who have been visiting the Youngs this winter, will return home next month. Alexander Young and daughter, Miss Nellie Young, will accompany them.

Some more engagements coming soon.

The Woodward-Richards nuptials will take place in February.

Miss M. Lewis of Oakland is visiting Miss Rika Nolte at her home in Kapioani. Miss Nolte will receive on Tuesdays.

Mr. Elisha Berry of this place says he never had anything do him so much good and give such quick relief from rheumatism as Chamberlain's Pain Balm. He was bothered greatly with shooting pains from hip to knee until he used this liniment, which afforded prompt relief. R. F. Baker, druggist, St. Paul, Ohio. For sale by all druggists and dealers. COMMISSIONER'S SALE OF VALUABLE BEACH LAND PROPERTY, SITUATE IN WAIKIKI, HONOLULU, ISLAND OF OAHU.

In compliance with an order of the Hon. W. L. Stanley, Second Judge of the Circuit Court of the First Judicial Circuit, dated December 30, 1897, and filed in the Clerk's Office of the Judiciary Department in a cause entitled M. P. Robinson and others versus Caroline J. Robinson, the undersigned as Commissioner thereunto duly appointed, will expose for sale at public auction on MONDAY, January 31, 1898, at 12 o'clock noon, at the mauka entrance to the Judiciary Building, the property known as the Robinson Beach Premises, situate on the Waikiki Beach, Waikiki side of the premises now occupied by Marshal A. M. Brown.

The property at present occupied as a dwelling by Mr. S. C. Allen, commands a fine ocean view, and has three or four cottages so grouped together as to form one large dwelling.

The apartments consist of one large sitting room, four spacious bedrooms and one large lanai, with kitchen and bath room attached, also a stable and barn. The property has all the conveniences of a homestead. Beautiful shade and hau trees abound on the lawn.

The lot measures 150 feet parallel with the mauka road, and has a depth of 300 feet from the mauka gate towards the beach, also about 150 feet sea beach frontage. Area, one acre, more or less.

Title fee simple. Terms of sale are cash, in U. S. gold. Deeds at expense of the purchaser. Sale to be subject to confirmation by the Court. For further particulars apply to the undersigned at his office in the Judiciary Building.

HENRY SMITH, Commissioner.

There is no such thing as luck; but when you advertise in The Star your business is so good that you imagine you are lucky, and it is all the same.

There are many kinds and conditions of preparations for the teeth but ALOHA TOOTH POWDER is the only one sold by druggists or dentists that is JUST AS good as

ALOHA - TOOTH - POWDER

Nothing else approaches it for cleansing the teeth or arresting decay. If used in time the expense of dentists bills will be greatly reduced, as secretions between the teeth sometimes result in hours in the dentists chair.

ALOHA TOOTH WASH

used every morning and the powder at night will keep GUMS and TEETH in a healthy condition. They have a delightful aromatic flavor which leaves the mouth refreshed.
