THE AUDIENCE LIKED IT.
"The song that touched their hearts" is as old as the hills, almost. The leading man in "The Dazzler" combination, which has just closed a successful engagement, made a big hit every night with his bicycle song. He never failed to bring down the house when he reached the verse telling about the good qualities of the Sterling bicycles. The audiences were all ready to hear a good word said about these wheels, and heartily encored the singer each night. The song was at least as much of a hit as the Sterling wheels have always been. MAUI MURDERERS TO HANG

SUPREME COURT SO DECIDES THIS MORNING.
Sakata Killed His Wife and Child, While Yoshida Stabbed to Death the Woman he Loved.

The Supreme Court decided this morning that the two Maui murderers must hang.
Yoshida, one of the condemned men, was convicted at the December term of the Maui circuit court. On the morning of November 4, last, he approached the home of Irie, a Japanese sugar laborer, at Lahaina, and attacked Irie's wife, Oyatsu. Yoshida was a lover of the woman, who would have nothing to do with him at this time. He stabbed her a number of times in the back and breast, inflicting fatal wounds.
Sagata Tsunikiichi was also convicted of murder in the first degree in the Maui circuit court for the killing of his wife and child. From the evidence it seems that his wife left his home at Wailuku on July 21st last in company with her child, presumably to go to the doctor to have a tooth pulled. They failed to return at night and the next morning Sagata went to Keota's house in Waikapu where he found his wife and child, in company with Keota and another Japanese. Sagata called them out of the house and immediately stabbed his wife to death. He then cut the child's throat from ear to ear. During the trial there was strong evidence to show that Sagata had endeavored to sell his wife to a friend for \$75, and that she ran away to escape being sold.

GOLD FOUND IN LABRADOR.
A dispatch from Halifax, N. S., says: Representatives of a Canadian and American company, who visited Labrador for the purpose of erecting saw-mills, report that that country contains deposits of gold of great richness and is destined to become a great mining country. There exists strong evidence that gold is to be obtained in quantities equalled only by the deposits of the Klondike. In fact, it is asserted that the deposits in Labrador are on the same range as those of the Klondike. Preliminary arrangements for a gold seeking expedition, which is to start by vessel in the spring, have already been made.

TO LICENSE OPIUM TRADE

SENATOR BROWN'S BILL CAUSES DISCUSSION.
Is Vigorously Opposed by Senator Waterhouse and Others, but Passes First Reading—Other Bills.

The Senate gave up most of the session this morning to debate on Senator Brown's opium bill.
A recess was then taken until 1:30 o'clock to consider the appropriation bills.
The opium bill is practically the same which was introduced two years ago. It provides for a license for the island of Oahu for the sum of \$20,000; Kauai, \$10,000; Hawaii, \$15,000; Maui, to include the three smaller islands, \$15,000. Each license will be good for one year.
Senator Waterhouse at once moved that the bill be rejected, and supported his motion in a vigorous speech. He was glad the Senator had introduced his bill thus early in the session. He believed that the Senate would show to the world that it was consistent on this subject. One of the first acts of the Provisional Government was to repeal the opium licensing act. To pass this act at this time would be to throw down a prop which we can ill afford to do at this time.
He read extracts from the Marshal's report recommending the licensing of opium, commenting on the arguments there advanced. Comparing the Marshal's statements as to the difficulty of enforcing the opium prohibition law and those to the effect that other prohibitory laws, as those against the Chinese gambling, were more effectively enforced, he said it simply showed that the several departments of the government were not working together. The Police department, the Board of Health and the Customs department were not acting in harmony. If they would get together, there might be a different result.

Senator Brown defended his bill. The current price of opium in the Islands was such a small advance on the prices in Hong Kong and California as showed that there was plenty of it in the country. It could only get into the country by smuggling. As the tax provided by the bill the price would be a little in advance of what it is at the present time. So that there would be no probability of any great increase in the use of the drug.
One great objection always urged against licensing opium was that of sentiment regarding the Hawaiians. This sentiment did not extend to the people of any other race among whom there are those addicted to the habit. But there was no probability that use of opium would increase among the Hawaiians, because they could get all they wanted now. On the other hand, the demoralization of the sustains service, the police, marshal's and sheriff's forces due to the temptation of smuggling was worse than the evils feared from licensing opium. It was current talk that only a few weeks ago a vessel from Victoria landed a quantity of opium on one of the Islands, and the deputy sheriff helped land it.

Senator Baldwin opposing the bill said that in balancing the evils of smuggling which the present law created, against those feared from licensing the traffic, he believed the evils of smuggling were the least, because they could be corrected. This bill was something more than a bill to tax opium. It was a bill to license its sale, and to establish public opium joints. He believed past experience showed that the use of opium increased among the Hawaiians when it could be easily and publicly procured. He therefore felt that the bill was inexpedient.

Attorney General Smith hoped the bill would not be acted on hastily as it was a matter that must come up, and ought to be treated honestly. He did not think a license of a very high amount ought to be levied. If a man were obliged to pay \$20,000 for a license, he would have to do a very big business to make any money. Under the last license act the licensee had agents in every village and district striving to increase the sale of opium. So that while admitting the evils of the present situation, he believed the best way of dealing with it would be to place a duty on the importation and permit its free sale or sale at low rates of license.

Senator Hoeking said that one reason why the present law was not better enforced was that on many of the plantations, the police received no encouragement and were in some cases actually hindered in their searches among the Chinese for opium.
Senator Waterhouse replied warmly to the Attorney General. He expressed surprise that he should urge that the bill go to a committee. "The great difficulty," he said, "with our government at the present time is its want of policy. The Senate can transact its own business without the interference of the Ministers. We are not mere ministerial servants."
Senator McCandless expressed the belief that the licensing of opium will actually decrease its use. Something ought to be done with the question, for if annexation came, opium would come in free and they would be wholly without regulations.

Minister Damon spoke opposing the bill on moral grounds.
Senator Waterhouse's motion to reject the bill was lost by the following vote: Ayes, Kauhane, Lyman, Northrup, Waterhouse, Rice—5. Noes, Hol-

stein, Hoeking, Baldwin, Brown, McCandless, Schmidt, Wright and Wilcox—8.
Senator Brown gave notice of his intention to introduce "An act authorizing the issuance of Royal Patents or conveyance for land in Kapiolani park in the District of Kona, Island of Oahu held under lease from the Kapiolani Park Association."
Senator Brown also presented Senate bill No. 8, to amend the act to extend certain streets in the District of Honolulu. It was passed first reading and ordered printed. It provides that the Executive Council may extend any of the following streets after requiring the damages and betterments to be appraised: Fort, Kukui, Vineyard, Kunkini, Bates, Pensacola, Milliani, Queen and Young streets.
Senator Brown also presented Senate bill No. 9, to amend an act to further promote the construction of railways on the Island of Oahu. It extends the time for completing the railway five years, to November 2, 1903, and the period of the exclusive franchise to September 11, 1918. The bill passed first reading and was ordered to be printed.

MORE LAND UNDER LEASE

MACFARLANE GETS PENHALLOW PROPERTY.
Hotel Front will Likely be Changed to Beretania Street—Dr. McGrew's Figures Too High.

The Macfarlanes succeeded this morning in securing a long lease from Henry Waterhouse of the Penhallo property, adjoining the hotel grounds on the Beretania street front. This gives the hotel a frontage of almost the entire block on Beretania street, and may result in a change of plans that will place the main entrance to the hotel on Beretania street.
A good price was offered Mr. Waterhouse for the Penhallo place, but he declined to sell, preferring to give a 20 year lease on reasonable terms. The Macfarlanes have not yet been able to secure the McGrew corner, at Beretania and Alakea streets, at what they consider a reasonable figure, but so far as that is concerned it does not interfere with their plans.
It is likely now that the remodelled hotel will front either on Beretania or Alakea streets. Could Beretania be widened at once there would be no doubt that the main entrance would be built on that street, but the management cannot wait on the government. The property just leased has on it a number of cottages which will be partially rebuilt, and fitted out to accommodate guests of the hotel.
Work on all sides is being pushed ahead as rapidly as possible as there is an increasing demand for more room, which must be filled.

CENTRAL UNION DATES.
The Glensers will meet in the parlors of the church this afternoon. Topic "Bak and Pomape."
Tomorrow afternoon occurs the meeting of the Woman's Board. Topic "Missionary Martyrs and Heroes," by Mrs. R. W. Andrews. Report of Chinese work.

THE HUNTERS RETURN.
Bagged a Number of Pheasants at Wahiawa.
The hunters were out Saturday and Sunday for the last shoot at the pheasants this season.

A party whose personnel included Charles Brown, H. W. Whitney, Jr., William Lanz, George Robertson, William Cunningham and E. McNerny, bagged forty pheasants in the Wahiawa district. They reported plover as very scarce.

J. M. Dowsett and E. T. Spalding enjoyed a successful shoot in the Leliehua district.

A few months ago Mr. Bryan Every of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. For sale by all druggists and dealers. WHAT SAILOR MEN TALK OF

CAPT. McDONALD GETS STEAMER HELENE.

Lehua to be Laid Up—Changes to be Made—Escaped From the Babcock—News and Gossip.

The Inca is receiving the Makee's cargo.
The Archer is discharging cargo at the Pacific Mail wharf.
The Noeau and Waialeale are alongside the Hitechock discharging sugar.
The Mokoli'i arrived yesterday, with 500 bags of Olowalu sugar, which is going into the Zealandia.
The Geneva is on her way from Lahaui to Hilo, to load sugar at the latter port for San Francisco.

The Hawaii came down yesterday to have her forward winch repaired, leaving the Kilauea Hou to do her work.
The American ship George Stetson, now discharging New York freight at San Francisco, will load sugar at Hilo for New York.
The schooner Alice Cooke has hauled down to the Inter Island wharf, where she is taking sugar from the Hall and Mikahala.

The American ship Iroquois is expected hourly from San Francisco. She is twelve days out today. She will load here for New York.
The barkentine John Smith, which discharged a cargo of Newcastle coal at Kahului last week, is expected here today, to load sugar for San Francisco.

Captain Bill Williams says he is willing to plant on his new island all the cocoanut palms and watermelon vines that are donated. He would call the place Annexation Island.

The steamer Claudine arrived yesterday with 8831 bags of sugar, 30 head of cattle, and a large miscellaneous cargo. She is discharging her cargo at the Ingard wharf.

The five-masted schooner Inca, Capt. Bekholm, with 1,500 tons of sugar, will probably get away by the end of next week. She will take the first consignment of sugar for the new refinery near Contra Costa.

The S. S. Gaelic, due here from San Francisco, on Wednesday, is confidently expected tomorrow night. The S. S. Mariposa is also due from San Francisco on Wednesday, but may be delayed several days on account of the English mails.

The Helene came off the marine railway on Saturday, and will sail for Hawaii ports this afternoon. On the way up she will load sugar at way ports to be delivered to the Roderick Dhu.

Captain McDonald of the Hawaii has been transferred to the command of the Helene, which, it is understood, will replace the Hawaii in the trade along the coast of the Big Island. The Hawaii will also remain in that trade, as, since Brewer's ships have commenced loading the output of four plantations at Hilo, there is enough work for the two big vessels to do. Captain Andrews of the Lehua will take the Hawaii up to Hilo, where he will turn her over to Captain Weir of the Kilauea Hou, himself assuming command of the latter vessel. By this arrangement the Lehua will be laid up.

One poor fellow escaped from the Babcock on the eve of her departure. He was one of the men who had deserted from the Tillie E. Starbuck while she was in port, and when seized by the police a fortnight ago was employed as a well borer at Ewa. He was seized, thrown into jail and forced to ship on the Babcock, but he proved too sharp for his captors. Although the ship was guarded like a prison hulk, he managed to clamber over the side on Saturday night, and swam ashore. He cannot be found now, but Harbor Officer Evans says he will soon have him. The Babcock sailed Saturday afternoon.

ARRIVALS.

WHEEL, WILLOW AND BALL

THE RACES AT CYCLOMERE ARE EXCITING.

Bilmartin and Jones Divide Honors—Punahou Win at Baseball—The Cricketers—Citizens Guard Shoot.

There was good lively racing at Cyclomere on Saturday evening. A time limit of 1:45 was placed on the two-thirds mile amateur event. After two attempts, the riders were told that they were to come in under the time limit in the third attempt or else the race would be thrown out. They were given distinct instructions by the referee in the presence of the three judges that each rider must do his share of the pacing and in the event of the race being won by a rider who had failed to do his right share of pacing, the race would be given to the second man, providing he had honestly earned his place.

In the third start there were only three competitors, the others having dropped out. Damon led a swift pace for the first lap, when Treadway took the pace and kept it until the home stretch. King finished a half length ahead of Damon. The judges unanimously decided to give the race to Damon, for the reason that King had not paced at all.

King filed his protest to the decision and announced that he would allow none of his men to ride on Cyclomere until the decision was reversed. The decision, however, is final, and Damon will be given the prize.

It was necessary for the professionals to make two attempts for the one mile event as a time limit of 2:35 had been placed on the race. Allan Jones finally won in 2:30. Bilmartin came in second and Sylvia third.

Bilmartin won the two-thirds professional in 1:31. He was the only scratch man; the bunch of riders having started off from forty to eighty yards ahead of him.

Henry Giles won the first, third and fourth laps in the one and two third mile lap race. Damon took the second and last laps. The time was 4:11-3-5. George Martin and Fred Damon were given the oval trophies for the best one-third mile exhibitions, professional and amateur.

PUNAHOU WON.

The Punahous won over the Kamehamehas in the first of a series of base ball games played on Makiki park, on Saturday afternoon. The score was 20 to 10. A return game will be played Saturday.

THE CRICKETERS.

Capt. Herbert's team of cricketers defeated Vice Capt. Maekintosh's men in Saturday's game by a score of 74 to 73.

CRABBE'S TEAM WON.

The match shoot between the Citizens Guard companies captained by Clarence Crabbe and Ed Hingley, resulted as follows:

Capt. Crabbe 41, Maybe 38, O. C. 55, Charles Wells 42, S. A. Green 57, Storey 41, E. H. Green 38, James Torbert 42, "Pop" Atkinson 39, T. Carpenter 38—391.

Capt. Hingley 41, Desha 39, W. Campbell 34, W. Gahan 40, G. Lucas 34, E. Remen 34, C. Everett 42, V. Fagaros 44, W. Evans 32, Capt. Bennet 26—366.

RIVER MOVED HIS FARM.

A Peculiar Land Suit in Missouri Just Ended.

The latest freak of the treacherous Missouri river is to remove an entire farm of eighty acres from Boone county, on the north side of the river, to Cole county, on the south side. The farm was owned by Ed. Murphy, of Ashland, and was originally located near the town of Wilton. By a change in the meander of the river the land was cut away and reformed in Cole county, near Marion.

Here George M. Butcher claimed the land in dispute by reason that it was land accreted, or made to the land he owned on the river bank on the Cole county side of the river, and as the newly made land advanced out from his original bank, his possession followed, and covered the newly made land, hence his possession was first, or prior in time to that of Murphy. Murphy brought suit for the land and was awarded it.—St. Louis Dispatch.

The Manufacturing Harness Co.

Goods in the lines here mentioned, to wit:

Ladies' Driving Whips, a large assortment; Select Assortment of Trimmings for fine made harness. Leather, direct from the tannery, such as has never before been imported to Honolulu.

Horse Boots of all descriptions, Hoods, Sheets, Salt Sacks, Blanket Pins, Hobbles, in fact everything pertaining to race track outfits—for the glorious 17th of March, do you mind?

Cable Trace Chains, Hames and Collars, etc., for our plantation friends. An inspection of these goods is respectfully invited by all wanting anything in these lines. There is enough to occupy your attention until the next Australia arrives, when we shall have more to say about the completion of this season's magnificent importation. We wish you to make your own selection of Hardware and Trimmings for the Harness you order made.

IN THE FUTURE.

The necessity of the "now," which was urged by the New York Sun, and to which attention was called last Saturday, which is borne in upon one the more one thinks on the question, does not seem to strike President Dole, if he is rightly quoted in the New York Herald of January 24th last. In this interview he is made to say that in case of the deferring of the annexation question by the United States Senate "everything will go on as usual awaiting future action by that body."

In this sentiment a majority of the prominent leaders of the annexation movement on these Islands do not agree, for in the event of annexation not being granted at this session, the anti-annexation party would grow in strength. There are always waverers about any cause, men who lightly move from side to side, ever hoping to come in on the winning wave. If annexation is not granted at this session the annexation cause will have, for the moment, received a serious defeat, and the waverers would go over en masse. The conditions might become what are foreshadowed by Miss Humphries, who recently published in Harper's Weekly, an interview with an anti-annexation coffee planter.

The political leaders (political in the true sense) of the annexation party here, view the future of the Republic with the gravest apprehension and realize that the policy of their opponents is delay, hoping in 1899 to overthrow the present system of government not with bullets but with ballots. It has been with great care and at considerable sacrifice that a republican form of government has been built up here. But there are many who, for various reasons, would prefer the monarchy. A section of the Hawaiians are in earnest for the Republic, a section are equally in earnest for the monarchy, and between these extremes is a large mass which will accept either with perfect equanimity.

In 1899 the terms of the President, the entire Senate and the House will expire. Then will come the opportunity of the anti-annexationists. If we do not get annexation at this session, however much those, who are annexationists to the back bone, may be satisfied that another strong pull might land us where we want to be, the cause will be weakened sufficiently to be furiously attacked.

Let us see what will be arrayed against us. There will be the large plantation interests and influence of Davies & Co., and Spreckels & Co., throughout the Islands; the Hawaiian anti-annexation party, because of the failure of the treaty at this session, will be able to galvanize the moderates into active opposition, and these will be joined by such disappointed elements as may be drawn from the annexation ranks on national or other questions. This will be a formidable array, and is not likely to leave "everything will go on as usual awaiting action" by the Senate of the United States.

Such a coalition of elements would stand a very fair chance of success. The Hawaiians would be worked upon and drilled to register, and for the time there would be a sweeping majority. The first act, if such a party got into power, would be the withdrawal of the treaty by the new President from before the new Legislature with the full acquiescence of that body, and it would not be long before the baleful shadow of returning royalty would appear across our sunlit isles.

Of course this would lead to civil strife. This party would not hold together long. It is just this civil strife which would be put an end to by annexation. This country has a population made up of such antagonistic elements that left to itself it will always be in hot water. Annexation will give us peace at home and safety from all domineering from abroad. With the success of such a party as suggested above, American influence upon these Islands would be at a discount, and that of some other powerful country would become dominant and seat itself at the gates of San Francisco. The fabric so laboriously built up by the United States Secretaries of State, by United States Senators and by the descendants of United States citizens,

would come tumbling to the ground, and another will reap the harvest that was ripe for the sickle.

Viewing things in this light was it any wonder that the New York Sun said "Now" and that the voices of all true republicans echo the word.

A GOOD PROSPECT.

The success of the boring for water at Kealia, Kauai, shows how the scientists may be wrong at times. It is well known that scientific opinion was asked upon this point some years ago, and that reply was received that precluded any hope of an artesian flow on the plantation. Practice against theory has proved that water flows abundantly and is of superior quality to any that can be obtained in the vicinity, and that it will, since it is so pure, be invaluable to the diffusion plant in the mill.

But the lesson at Kealia is one that should be taken to heart by other places. Molokai and Lanai only await the vivifying touch of capital and energy to show that the theorists are wrong and that water can be obtained there, which will make the barren lowlands bring forth their increase, and yield a living to the laborer, and a profit to the capitalist. There is little doubt but that the same conditions occur on both these Islands. The high mountain mass is there, the rainfall is there, and the reef is there. Given these and there is every reason to think that the water will come bubbling up when it is tapped.

According to the reply of the Minister of Interior 6,485 Asiatic laborers were introduced into this country under a bond from their employers, that 648 European or American laborers should be introduced. According to the report of the Board of Immigration 119 such laborers have been introduced, leaving 528 which should have been introduced and which have not been. It will be in order for the Minister of the Interior, one of these days, to explain what course he has taken with regard to the good and sufficient bonds.

FROM COL. RICHARDSON.

Throws Light on the Popular Word "Aloha."

Col. G. F. Richardson, master of transportation of the Southern Pacific company, who with Mrs. Richardson spent several weeks in Hawaii the present winter, upon returning to San Francisco gave an interesting interview to a Chronicle reporter. Col. Richardson says that while here he learned that the word "Aloha" all of the following salutations: "How are you?" "Good morning!" "Good evening!" "Call again!" "Hello!" "Good bye!" "Were you seasick?" "Call again!" "Thank you!" "Merry Christmas!" "Shoot the Hat!" "Yes, we want to be annexed!" "Here's looking at you!" "Much obliged." "Same to you and many of them." "Have one with me!" "How are the folks?" "Rats!" "What's the limit?" "Is it hot enough for you?" "You don't say so?" "Well, well!"

Mr. Ward L. Smith of Fredericks-town, Mo., was troubled with chronic diarrhoea for over thirty years. He had become fully satisfied that it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America, but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first helped him and its continued use cured him. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

Timely Topics.

February 18, 1898.

The advisability of spending half a million dollars for a sewerage system for the city of Honolulu is being earnestly considered by those in authority, but some time must elapse before it can be completed, should it be decided upon. The recent heavy storms, as you have noticed, has made our drinking water very impure. It needs filtering. We have what you want in the

NATURAL STONE WATER FILTER.

They come in four sizes, 6, 7, 8, and 9 quarts, and can be recommended. They do their work perfectly, and make your drinking water absolutely pure. A good plan is to filter it into one of our lined

WATER COOLERS,

we carry in three sizes, from the small one, suitable for families, to the large size, suitable for hotels and steamers.

While looking after the sanitary conditions of your surroundings, let us suggest another excellent improvement. The

ROBERTS' OZONATOR.

This disinfecting apparatus is doubtless the most perfect in the market. It requires little space, and sells at \$5, including a tin of fluid.

With these sanitary improvements you will escape the dangers from germs and bacteria, and with very little expense.

Refrigerators.

\$7.50 to \$75.

Something that is absolutely necessary in this climate if economy with the table is in question.

Why do we

sell so many GURNEY CLEANABLE REFRIGERATORS? We have just received another carload of them, which makes 300 within a year.

Where do they all go?

Because

you can now have ten pounds of ice a day for \$3 a month, which used to cost you \$4.50

And because

you can now buy a GURNEY CLEANABLE REFRIGERATOR for a fourth less than you could buy one of an inferior make a little while ago.

Also,

you can rent of us one of these for a moderate monthly payment, and if you keep it up for six months the Refrigerator is yours.

In substance,

we have done the lion's share to put a necessity, and a first class one at that, within the reach of all, and we are doing our whole trading on the same business principles.

DEAR SIR: The Secretary Disc Plow I purchased from you is giving us satisfaction. We are using it to plow under a crop of lupins. They are three feet high and very thick. Your plow turns them completely under, at the same time plowing the land fourteen inches deep.

I feel satisfied that with this plow the draft for the same quantity and depth of work is as six to eight. That is, with the old plow, to do the same work, it takes eight good mules; with your plow it takes only six, and they are less tired at night.

Please send me another plow by the first schooner leaving for this.

You are at liberty to use this in any way you may see fit.

COFFEE LAND FOR SALE IN THE CELEBRATED COFFEE DISTRICT OF KONA, HAWAII.

2064 Acres at Kolo and Olelomoana,
1135 Acres at Kaohe.

The Land of Kaohe is only five and one-half miles, and the Land of Kolo and Olelomoana only six miles, from Hookena, and are reached by a good carriage road which has just been completed. They each have their own landing, which can be reached and utilized at no very great expense.

The lands are covered by a magnificent forest of koa, ohia, kukui and other indigenous trees, and the greater portion of them is splendid COFFEE LAND. There are now SEVENTY-EIGHT ACRES OF GROWING COFFEE upon Kolo and Olelomoana.

Purchasers can pay part cash and the balance of the purchase money, with interest, secured by mortgage on the property. Warranty Deeds of the lots will be given; the property to be free from all incumbrances. No charge for drawing deeds or taking acknowledgments to the same. Stamps on the deeds to be paid for by the purchasers. The above lands will be sold in lots to suit purchasers. For particulars apply to

A MAUI CHINAMAN HANGS HIMSELF TO A TREE.

Was in the employ of Ah Mi at Makenu—Sheriff Baldwin held a Coroner's Inquest.

Sheriff Baldwin of Maui, who reached the city yesterday to attend to some business in court, brings news of a suicide near Makenu.

The suicide is a Chinaman named Ah Wa. Sheriff Baldwin went to Makenu himself to make the investigation. He found the unfortunate man hanging from a willow tree, about three-quarters of a mile back from the sea shore. He had been dead some little time before being discovered.

A coroner's inquest was held and very little evidence could be brought to light. It appears that Ah Wa was in very poor health and that he became tired of life. At least this was the conclusion reached by Sheriff Baldwin's jury.

Ah Wa was in the employ of Ah Mi, the wealthy Maui rice planter.

SETTLED OUT OF COURT.

The \$10,000 damage suit brought by Ah Mi, the Maui rice planter, against Sheriff Baldwin and Deputy King was settled out of court today. Ah Mi received 150.

DAMAGE CASES DROPPED.

The jury acting under the instructions of Judge Perry returned a verdict for the defendant today in the damage cases of Nakamura and five other Japanese against the Mahee Sugar Company.

SOMETHING ABOUT EGGS.

When in doubt about the freshness of eggs they should be tested in a brine made of ten ounces of water and one of salt. Put the eggs in this and the good ones will sink and the bad ones float. The best way to keep eggs fresh is to cover them with fresh lard, or with beeswax dissolved in warm olive oil; one part of wax to two of oil is the proper proportion.

Eggs with light colored shells usually have a light colored yolk, and often in delicate cookery there is a preference for them; in custards and yellow sponge cake on the contrary, the darker the yolk the better. Boiled eggs are better for not being boiled at all; dropped into boiling water and set off the stove for five minutes they are more evenly cooked than when boiled, a process that means the whole or part of it must be hard if the yolk is to be cooked at all, besides which the flavor is more delicate—more like a poached egg. An omelet should not be salted till just as it is to be folded over in the pan; salt put in when it is beaten toughens it and keeps it from rising as much as it otherwise would.

TEMPERATURE.

Some scientists now hold that above the altitude of 12,000 feet from the sea level the temperature decreases about one degree for every rise of 350 feet.

MERCHANTS' EXCHANGE.

No expense has been spared in fitting up the Merchants' Exchange saloon, and it is a very attractive place. Mr. Shaw gives his personal attention to all details, so that customers are sure of getting pure liquors. Enterprise beer is handled here, fresh by every steamer. Your patronage solicited.

RACE PROGRAM

FOR MARCH 17, 1898.

Following is a complete list of the races scheduled:

Third Race—Club Stables purse, \$75. For trotters and pacers.

Fourth Race—Seattle Brewing Company's purse, \$50. Half mile dash, free for all.

Fifth Race—Hawaiian Bicycle Company's purse, \$15. Mile dash for amateurs, to beat 2:35 or no race.

Sixth Race—Union Feed Company's purse, \$50. Three-fourths mile dash, free for all.

Seventh Race—Enterprise Brewing Company's purse, \$100. Free for all trotting and pacing race. Mile heats, best three in five.

Eighth Race—Fashion Stables Company's purse, \$100. Running race, mile dash, free for all.

Ninth Race—Manufacturing Harness Company's purse, \$25. Gentlemen's driving race for road horses, to be driven by the owners.

Tenth Race—City Shoeing Shop purse, \$75. 2:30 for trotters and pacers, mile heats, best two in three.

National Trotting Rules to govern all harness races and Pacific Coast Blood Horse Rules to govern all running Races.

Judges for the day are: Capt. A. N. Tripp, Theo. Hoffman, Capt. J. C. Cluney.

Starter: C. B. Wilson.
Races to commence at 1 p. m. sharp.
PER COMMITTEE.

Hood's

Cure Liver Ills Pills

Hood's Pills are as peculiar and as pleasant, in comparison with all others, as is Hood's Sarsaparilla.

To compound a pill which shall be pleasant to take, shall not be coated with what by age becomes insoluble, and which shall be just that mild stimulant to the liver and bowels which shall help Nature to restore her disordered functions—that is the problem for the pharmacist.

It is easy to purge, but that is not what is wanted. A mild but sure and un-

CURE

disturbing cathartic will set Nature to going, and relieve the head, the stomach, the liver and all the organs of the body from the evils of a clogged drainage.

The Liver is the gateway between the stomach and the organs which the stomach purveys for. Stop up the gate and death quickly ensues. Burden it with obstructions and a thousand ills result.

Hood's Pills CURE Liver Ills, sick headache, biliousness, indigestion, nausea, constipation, without purging, without pain, without violence.

Everybody at sometime needs them. Everybody should keep them on hand at all times for emergencies.

Liver Ills

Hood's Pills are sold by all druggists, 25 cents. Sent by mail on receipt of price, by C. I. Hood & Co., Lowell, Mass., U.S.A.

Pure, Rich Blood

is the soil in which roots life, health, strength, happiness. The soil of the blood can be drained or impoverished like any other soil, and can be fertilized and nourished in a similar way. You can get back the old spring and snap. You can enjoy labor by day and sleep by night. You can eat your food with the

Hearty Appetite

of health, if you only supply the blood with its lacking nutriment; vitalize it, or if you like, fertilize it. A large number of so called tonic remedies are disguised stimulants. Ayer's Sarsaparilla is not a stimulant but a nourishment. It feeds the blood and so enriches it, as well as purifies it. That is why physicians recommend

NEWS FROM MAUI ISLAND

WASHINGTON'S BIRTHDAY VERY QUIETLY CELEBRATED.

The Circus is Drawing Big Houses—A Complaint About the Mails—Officers to Fight a Damage Suit.

Maui, February 26, 1898.
Washington's birthday was quiet here, and the only celebration noticed was at Hamakua, where C. D. Loveland floated the star spangled banner to the breeze in honor of the foremost American.

Speckelville's big Haiku-Hama canal ditch has been dry the past week, they having taken advantage of the present surplus of water to clean the large waterway out. In the meantime the water has been running to the sea.

Miss Fearn, a trained nurse, arrived Wednesday from Scotland, to take charge of the Paia hospital, so that concern is now ready for patients.

Willison's circus arrived Wednesday on the Claudine, and has lost no time since. Wednesday night they showed at Kahului, Thursday night at Speckelville, and last night at Paia. They give a performance this afternoon and this evening at Paia again, and Monday move to Waikuku. After showing there two nights, they proceed to Lahaina on Wednesday. They exhibit on Thursday, Friday, and Saturday evenings in Lahaina, and catch a steamer direct for Hilo the following Tuesday. They have drawn good houses so far. The stormy weather has fortunately abated, and given them a fair show, and their Maui trip will no doubt be a success.

It seems time that something was being done about the constant delay in the arrival of the bulk of the mail at Hamakua on Wednesdays. It happens so often as to be more than an accident.

Sheriff Baldwin, Deputy Sheriff King and Captain of Police Kalama go to Honolulu tonight, to participate in the damage suit brought by S. Ahmi, for \$10,000, against the above officials. Hamakua store now has a fine corrugated warehouse adjoining the store building.

Kahului R. R. Co. is now lying a side track off to the new pumping station of the Paia plantation.

S. Fukuda, of the Nahiku store, is to move his family to Nahiku next week.

The barkentine Sharpshooter, Wirscheleit master, arrived yesterday, 19 days from San Francisco. She brings the first consignment of Paia plantation pumping plant.

The barkentine Behring was towed to sea today by the Claudine, en route for San Francisco, loaded with Speckelville sugar.

SEVERAL LITTLE ITEMS.

Gathered About Lahaina by the Star's Correspondent.

Lahaina, Maui, Feb. 26, 1898.
H. S. Townsend, inspector general of schools, made a flying visit to Lahaina during the week. He arrived by the Claudine on Tuesday night, and left again for Honolulu by the Noeau, on Wednesday afternoon.

Willison's circus is on Maui. Its manager was here last Thursday making arrangements to perform in Lahaina. It will show on March 4th.

Lahaina has been fortunate this week in regard to steamers from Honolulu. The Noeau came on Tuesday morning, the Mauna Loa Tuesday afternoon, the Claudine Tuesday night, the Iwani Friday morning and the Kinau Friday afternoon. Each of the boats brought a mail from Honolulu. Of course we had the Mokoli as usual, but such a small boat does not count in Lahaina.

Senator W. Y. Horner is quite ill. Dr. Armitage of Waikuku was called over to see him last Tuesday.

Another butcher shop is to be started in Lahaina next week by Sam Nowlin. His application for a license goes down to Honolulu tonight.

EARTH'S CURVATURE.
Careful measurements prove that the average curvature of the earth is 6.99 inches to the statute mile.

I have given Chamberlain's Cough Remedy a fair test and consider it one of the best medicines for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.—George E. Wolf, Clerk of Circuit Court, Fernandina, Fla. The Man Hardest to Suit

Is the man worth suiting. We take pleasure in fitting the particular man, the man who insists that his trousers must be just so; that his top coat must be just that length—the right color—and have a graceful hang. That's the chap we want—the one who sometimes find fault, because no fault can be found with our goods.

AWARDED FIRST PRIZE

Merit Wins.

One of the most attractive displays at the Mechanics' Fair this year was the one made by HILBERT BROS., Pacific Coast Agents for the Saint Louis A. B. C. Bohemian Beer. This beer was awarded FIRST PRIZE, notwithstanding it having had to compete with some of the best known brands whose names are household words. Pale and Sparkling with an excellent Hop Aroma, and renowned for its purity it makes an Ideal Family Beer. The beer is brewed from the finest growths of Bohemian Hops and the Choicest Selections of Barley by the American Brewing Company, St. Louis, Mo., whose brewing plant is conceded to be the model brewing plant of the world. The Saint Louis A. B. C. Bohemian Beer is bottled exclusively at the Brewery from stock not less than eight months old.

Hawaiian Electric Company.
The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.
Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

GRACE OF THE LITTLE ONES

THEY PRESENT A VERY CLEVER ENTERTAINMENT.

Mrs. Gunn's Dancing Class at Independence Park Pavilion—Parents Proud of Their Children.

The little exhibition made by Mrs. Hugh Gunn's dancing classes on Saturday night was indeed a treat to many an old heart. To see the little ones tiptoeing and showing their pretty and unconscious graces was as a drop of water to a thirsty wayfarer on the world's highway. It was youth in the very best of its period. There was freshness, lack of self-consciousness, innate coquetry, without its unpleasantness of after years. The affair was a success from the start to finish and Mrs. Gunn and those who assisted her deserve great credit for their efforts. For after all dancing is one of the arts, though our ball rooms have somewhat vulgarized what was the poetry of motion a century or so ago.

Independence hall was filled with the best society people. The entertainment opened with a fancy drill by the entire class of nearly eighty little ones. Then came the butterfly dance by the little ladies, led by Doris Hayward. The waltz was very pretty, and was participated in by Marjorie Freeth, Irene Fisher, Clara Ena, Clara Williams, Ella Wright, Florence Lyons, Ada Rhodes and Linda Schaefer. The Lancers and Danish dance came next. Then Oliver Lansing very gracefully skipped the Sailor's Hornpipe in a most graceful manner. He was dressed in a white sailor suit and was obliged to go through the dance a second time before the audience would be satisfied. The tambourine dance was participated in by Ada Rhodes, Mary Freeth, Irene Fisher, Clara Williams, Edith Williams, Florence Lyons and Beatrice Castle. After this came a dance called the Lover's Quarrel, by Ada Rhodes and Oliver Lansing. Both had and lasses were exceptionally good in their parts.

The exhibition was concluded with a minuet. Twelve couples took part. Nearly all were daintily dressed in French costumes of the time of Louis XIV. There were some in costumes of other times. Undoubtedly the presentation of the Hippituan minuet was the attraction of the evening. The children were almost faultless in the execution of the numbers. Miss Zoe Atkinson is entitled to a great deal of praise for the grace and skill in which the minuet was presented, for it was she who had trained the little ones.

The couples taking part in this number were:

FIRST SET.
Wilhelmina Tenney and Cyril May. Nora Swanzy and Gerald May. Florence Lyons and Alfred Cooper. Claire Williams and Kenneth Atkinson.
SECOND SET.
Dorothy Wood and Carl Schaffer. Edna Krouse and Charles Gunn. Edith Williams and Frank Wight. Beatrice Castle and Oliver Lansing.
THIRD SET.
Marjorie Freeth and Linda Schaffer. Juanita Beckley and Vera May. Rennie Catton and Irene Fisher. Edna Gunn and Ella Wright.
HE GAVE A SUGGESTION.
Rev. Father Frear, a former resident of the Islands spoke at Central Union yesterday morning. He referred to the remarkable growth and advancement in Hawaii and attributed this largely to the work done by the missionary boards. The speaker stated that these same boards were now laboring under heavy expenses and he would suggest that they be given all the assistance possible by the people of Hawaii who are interested in the advancement of Christendom.

They are Reliable.

Saturday evening, January 29, a party of eight left the city for a trip around the Islands on bicycles. The list was made up of some of the leading wheels represented here, among them a '97 Overland Special, which is handled here by the HONOLULU BICYCLE COMPANY. The Overland was the Only Wheel in the Lot which made the round trip without trouble of any kind. OVERLANDS are the kind of wheels that take you Away from home and Bring You Back Again. By the last Australia we received a few samples of the '98 OVERLANDS. They are as much superior to the '97 product as daylight is superior to darkness, and are without exception the most beautiful models, and the highest grade wheels ever shown here for anything near the price which we shall sell them—\$65. We defy all competition, even at a much higher figure.

Nichols.

One of Lewis & Co.'s drays ran away
on Brewer's wharf this afternoon, and
the horse leaped off the dock into the
harbor. The dray caught in some of
the freight on the wharf and did not
go overboard. The driver and some
workmen on the wharf cut the horse
loose and swam him to a shallow
place near the limekiln, where he was
hauled out without injury.

On a Saturday afternoon Detective
Kaapa very cleverly effected the cap-
ture of Joe Ferreira, a "moonshiner,"
who has been under surveillance in
Pauoa valley for some time, together
with a complete okolehao distilling ap-
paratus, and eight barrels of ferment-
ed ti root ready for the boiling. De-
tective Kaapa thinks that Ferreira is
the man who has been moonshining
in the mountains for three or four
years past.
