

PRICE IS FOR RUSSIANS ONLY

THE KAUAI LAND APPRAISEMENT WILL NEVER BE MADE PUBLIC UNLESS THE MOLOKANS' DEAL IS CARRIED THROUGH—VALUATION IS SATISFACTORILY LOW, BUT IS NOT TO BE TAKEN AS BASIS FOR ORDINARY OFFER.

The price put upon the Kauai lands for Molokans will never be made public unless there is a satisfactory agreement between Castle and Spaulding under which the Molokans will come here. The appraisers agreed upon a price that is stated by Land Commissioner Pratt to be satisfactory to the Russians, but it is based upon the proposition that the land is for these desirable settlers, and is not regarded

either by the appraisers or the land commissioner, as a valuation to be taken as settling the price at which the government would offer the land ordinarily.

"The matter awaits settlement by Mr. Spaulding with Mr. Castle," said the land commissioner. "Mr. Spaulding controls the land for another 18 months, under his lease, and he may do what he pleases. After that the shoe will be on the other foot."

CATHOLICS TO HAVE AN ORPHAN ASYLUM

BISHOP LIBERT HAS SECURED A PIECE OF LAND IN KALIHU VALLEY FOR A SITE FOR THE PROPOSED INSTITUTION—PRESENTED MATTER AT MEETING OF FEDERATION OF CATHOLIC SOCIETIES LAST SUNDAY.

The Catholics are going to have an orphan asylum. Before Bishop Libert left for his visit to Europe last summer the matter of the establishment of an orphan asylum was under consideration. After his return from his trip abroad the matter was again taken up for consideration, and a meeting of the Federation of Catholic Societies was held on Sunday evening, December 17.

At that meeting the matter was presented for consideration. Bishop Libert there announced that he had been successful in acquiring a piece of land,

about 6.12 acres in extent, in Kalihu valley, for use as a site for the proposed asylum. Within a few days the necessary papers would, he said, be drawn up for the transfer of the land. The land in question is located mauka of Allan Herbert's place in Kalihu valley.

The erection of the houses will be the next matter for discussion. It was thought best to wait until after the land had been secured, before proceeding with the discussion of the means for the erection of the buildings.

Vast Volcano Eruption Continues On Island Savaii

SAMOAN VOLCANO REPORTED BY S. S. VENTURA TO BE MORE ACTIVE NOW THAN ANY TIME SINCE THE OUTBREAK—VAST FLOW OF LAVA MAKING ITS WAY INTO THE SEA—BIG MOUNTAIN CREATED.

The big volcano of Savaii of the Samoan group is more active now than at any time since its outbreak months ago. Advice received today by the S. S. Ventura tell of the progress of the outbreak.

Lava is being thrown 1,200 feet into

the air at times and a vast stream of lava measuring twelve miles in width, is running toward the sea. Since the outbreak began the lava has created a range of mountains nearly 3,000 feet in height, and has covered an area of 30 square miles.

LOBBY NOT DIGNIFIED

IDEA OF SENDING DELEGATES TO WORK AT WASHINGTON MAY BE ABANDONED—SENTIMENT DEVELOPING IN FAVOR OF MERELY PLACING THE MATTER BEFORE THE PROPER COMMITTEES AND LEAVING IT TO REGULAR REPRESENTATIVES.

No lobby at all at Washington, and no press work, is the latest idea in connection with the proposed agitation for legislation wanted by Hawaii from Congress. It is thought by some of those in charge of the proposition, that Hawaii should stand on her "dignity" and merely present her claims to the Congressional committees in charge and then gracefully retire from the scene and await results. To remain and work, aside from the working the delegate and Hatch will do, is regarded as undignified.

Another reason for abandoning the idea of a persistent campaign for the desired legislation is that some of the men who are the most desired as delegates are not willing to go if they are to be asked to remain any length of time in Washington. Some of those who are regarded as the best men will not agree to a long stay.

The new plan, it is believed, will encounter a good deal of discussion if offered to the Chamber of Commerce and

merchants' Association. It is claimed by some that a persistent effort is needed to work the proposition through and attention is called to cases of American cities which have sent delegations of forty or fifty to get appropriations they wanted for public buildings. If the matter is merely presented in committee and then dropped, it is claimed by some, it will be more than the representatives on the spot can do to keep it alive and up in the race with the many other propositions which will be more strongly pushed forward.

Collector Chamberlain in talking of the scheme recalled all effort of his home town in Iowa to get a bill through Congress. "We sent fifty delegates to Washington," he said, "and got so that a member of Congress couldn't turn round without running into the proposition. And we got what we wanted."

REMARKABLE RACE FOR POSSESSION

EXTRAORDINARY SITUATION CREATED BY EFFORTS TO APPEAL A LOCAL CASE TO WASHINGTON—POSSESSION OF LAND THAT IS ABSOLUTELY ESSENTIAL TO PIONEER MILL DEPENDANT UPON THE SPEED OF OVERLAND MAILS.

The last hours of an exciting struggle for a small piece of land whose control involves the very power of Pioneer Mill to keep going ended in a victory of Mose Meheula over the plantation, and his attorney, C. W. Ashford, hastened to Maui on the first steamer, to get possession for his client. Somewhere a train is rushing across the continent carrying papers which would stop Meheula by means of a cable order from the United States Supreme Court. But Ashford will get to Maui before the train gets to Washington, and it remains to be seen what he will do. According to the affidavits of counsel for the plantation, his possession of the land means that the mill cannot be run, except, of course, upon such terms as the owner of the land may dictate.

The extraordinary situation is the outcome of one of the most remarkable legal battles ever fought here. Mose Meheula was awarded the lands by decisions of all the courts of Hawaii. Then the Pioneer Mill Company decided to take advantage of a new provision of law and appeal to Washington, but at every point they found the way blocked. First Justice Hartwell, who was asked for a writ of error, held that he had no jurisdiction to issue it.

Then the whole court agreed with him. Next Kinney, McCannahan & Cooper secured from Judge Kopekai, who heard the case, a writ to delay the writ of prohibition. It was promptly set aside. The attorneys for their next move secured from Kopekai an injunction, restraining Meheula from taking possession until the Washington court took hold. It was held to be without the law, and promptly dissolved.

The final move was the one which was settled this morning. The attorneys for the Pioneer Mill Company asked the Supreme Court to stay its notice of decision, to the Circuit Court, long enough to allow the appeal to be perfected, and when the court met this morning to hear the case, it was only a matter of 48 hours. After hearing from Kinney and Derby on one side and Ashford on the other, the court decided that it had no power to interfere. Its original decision is therefore in effect and Meheula is supposed to have the right to take the land.

Before announcing the decision this morning, Justice Hartwell, acting as chief justice, asked if any cable to Washington had been done. Derby replied that two cables had been sent, but the court there could not act with-

CONGRESS WILL SPEND THE MONEY

IN CASE HAWAII GETS THE REFUND OF SEVENTY-FIVE PER CENT OF HER TAXES, THE MONEY WILL BE APPROPRIATED BY THE FEDERAL BODY—DISCUSSION ON STILL AS TO THE DELEGATION TO WASHINGTON.

"Supposing," says the committee to itself "supposing for the sake of argument, that Hawaii does succeed in presenting her claim to Congress in favorable light, and supposing again, that Congress grants her 75 per cent of the revenues derived here—in whose hands will be left the expenditure of the funds thus placed to her credit?" Having propounded this question to itself the committee admitted that it did not know the answer, so it sought the counsel of the solver of riddles, Governor Carter, this morning.

F. J. Lowrey, J. A. Kennedy, L. T. Peck, W. W. Harris and F. W. Macfarlane comprising the committee which is looking after likely men to go to Washington to press Hawaiian interests, called at the Capitol this morning to get information on the point as above stated. The Governor was asked as to the scope of the bill introduced into Congress by Delegate Kuhio as to whether the bill provided that

the funds should be returned to the Territorial treasurer or not. Governor Carter is reported to have replied that while he had no direct knowledge of the wording of the bill introduced, it would probably contain a proviso that the money would be spent as appropriated by Congress and not at the initiative of the Territory.

The sense of the committee, as expressed at a subsequent meeting, was that the work of the delegation should confine itself to appearing before the committee of each house and then withdrawing, so that six weeks, at the outside would be the absence necessitated. The carrying on of the work could then be left to the Hawaiian representatives permanently stationed in Washington. It has been found, as a matter of fact that the men whom it would be the most advisable to send, could not possibly go if the stay should be protracted.

The committee will meet at 9 o'clock tomorrow morning to further discuss the many questions before it.

Directory Swindler Came To Grief In Arizona

LOUIS MARKS, WHO TRIED TO FLEECE LOCAL PEOPLE IN SOME MAINLAND PUBLICATION GETS AFOUL OF THE LAWS FOR FORGERY AND IS SENTENCED TO FIVE YEARS IMPRISONMENT IN THE YUMA, ARIZONA, PENITENTIARY.

Another hot air confidence man who tried to beguile the people of Honolulu has come to grief. His name is Louis A. Marks and he is now doing time in the Arizona penitentiary. Marks visited Honolulu about a year ago pretending to represent some commercial publication of the mainland. F. M. Husted, the directory man, was in Honolulu at the time and he, in effect, declared Marks to be a fakir. It is not known whether Marks succeeded in swindling any local people in his scheme, although such was his evident desire.

The following regarding Marks' career after he left Honolulu is taken from the last number of The American Banker:

The Protective Committee of the American Bankers' Association has just been advised in a report from Pinkerton's National Detective Agency, of the sentence to five years' imprisonment for forgery in the Yuma, Ariz., Penitentiary of Louis A. Marks, alias Chas. L. Bartholomy, alias Geo. L. Harvey, alias Gus L. Henderson, alias Gordon L. Harrison, alias Emil C. Rowan, who, from September, 1904, until the time of his capture, November 1, 1905, in Bisbee, Ariz., circulated many worthless checks and drafts.

Marks had at one time been a traveling salesman for New York firms, and in this way became acquainted in various hotels throughout the United States. During the summer of 1905 he began to operate more extensively, pretending to be a traveling adjuster of the American Car & Foundry Co., New York City. He mailed letters to himself to hotels he intended victimizing. These letters purported to be instructions from the American Car & Foundry Co., enclosing one of the bogus drafts to his order. Upon arriving at a hotel, Marks, operating under one of the aliases given, would immediately inquire for mail and a letter containing the worthless draft would be delivered to him, which he would open in the presence of the hotel employees, express delight at having received it, stating that he had been looking for it for several days. These letters were on writing paper to imitate the paper of the American Car & Foundry Co., and containing instructions about investigations to be made.

When about to leave the hotel, he would tender one of these worthless drafts in payment of his bill, and through hotel keepers frequently identified at banks, where he obtained the amount the draft represented. He operated most frequently under a name like G. L. Henderson and carried a watch charm with the initials G. L. H. upon it, having the same initials in his hat, partially confirming the identifications made by many of the persons victimized.

The circulation of these worthless checks and bogus drafts drawn on and purporting to be issued by members of the American Bankers' Association were a source of great annoyance to them, and on August 5, 1905, by the direction of the Protective Committee, a special bulletin fully describing Marks, his methods and worthless paper circulated by him was sent to members of the American Bankers' Association in the territory. It was considered Marks might operate. One of these circulars was received by the Miners & Merchants' Bank (member), Bisbee, Ariz. On November 1 Emil C. Rowan, claiming to be a traveling salesman, appearing at this bank with a draft purporting to be issued by the First National Bank of San Francisco, Cal., payable to his order for \$251, to the Chemical National Bank, New York, and bearing the forged signature of James K. Lynch, cashier.

As soon as this draft was presented the officials of the Merchants & Miners' Bank suspected that this was the forger, bogus draft and check operator referred to in Pinkerton's special bulletin received by them in August, and Rowan was detained for some time at the paying teller's window, while the circular and American Bankers' Association bulletins were examined, and on comparing the handwriting of the forger Marks' appearing in the bulletin and comparing the presenter's description with the description of Marks, it was decided that Rowan was the much wanted forger, and caused his arrest. Marks subsequently admitted having passed worthless checks and drafts in the following cities, obtaining the amounts shown below:

Arizona—Douglas, \$284; Tucson, \$304. Arkansas—Texarkana, \$150. California—Los Angeles, \$100; Los Angeles, \$150; Los Angeles, \$45; San Diego, \$65. Colorado—Denver, \$150. Indian Territory—Chickasha, \$150. Kansas—Arkansas City, \$65; Cawker City, \$45; Ellsworth, \$150; Gaylord, \$65; Great Bend, \$150; Larned, \$150; Lyons, \$150; Marysville, \$75; McPherson, \$35; Sabetha, \$75; Sedgewick, \$45; Seneca, \$65; Smith Centre, \$75; Sterling, \$150; Wamego, \$90; Wellington, \$45. Missouri—St. Joseph, \$3. Oklahoma—Blackell, \$65; Anadarko, \$150; El Reno, \$150. Pennsylvania—

PARADISE HAS A FINE NUMBER

CHRISTMAS EDITION OF HAWAII'S MAGAZINE IS A CREDIT TO ITSELF AND THE ISLANDS.

That excellent periodical, the Paradise of the Pacific, has achieved many successes but it has quite surpassed itself in the present December Holiday number which has just issued from the press, gleaming in gold.

Not alone is the success one for the Paradise of the Pacific, for it is also a triumph for Hawaii. That so remarkably fine a piece of work can be turned out there in the middle of the Pacific will certainly prove a surprise to those interested in things mechanical on the mainland. The value of the pictorial work will be appreciated by every person with an eye to beauty and the letter-press must leave itself to be judged with a pretty sure sense of a favorable verdict.

Perhaps to Hawaiians the most interesting feature of the magazine will be the descriptions of scenes already familiar and those of the statistical turn of mind will find pleasure in looking over the weather record for the year, kept with rare accuracy by W. R. Castle. Reports of all kinds are incorporated in the work, but possibly there will be found interest in the purely poetical and fictional portion of the book.

It turns from grave to gay, from lively to severe and there is in it a regular symposium of the different men of the pen in Honolulu.

Altogether the holiday number is the ideal book for Hawaiian people to send away to the bleak east, to the frozen north, to the far ends of the earth, in fact—after they have secured copies for themselves.

COLLECTING SEWER RATES.

Deputy Attorney General Milverton has charge of the work of collecting delinquent sewer rates, and will bring a large number of suits in the district courts. The aggregate to be collected is about \$14,000 all in small sums.

CHRISTMAS EVE MASS.

Mass will be celebrated at St. Augustine's chapel, Waikiki, at midnight Christmas eve. Miss Rhodes will have charge of the musical program and Mr. Mott will be organist.

NO OPIUM IN CHAMBERLAIN'S COUGH REMEDY.

There is not the least danger in giving Chamberlain's Cough Remedy to small children as it contains no opium or other harmful drug. CHRISTMAS IN A DRUG STORE

For the Ladies

The ladies have learned the wisdom of purchasing their gifts in time to avoid the eleventh-hour rush. Early buying is more comfortable, the service better, and the assortment to choose from larger.

We have this year MANICURE SETS, BRUSH AND COMB SETS, MIRRORS, PERFUME ATOMIZERS, WORK BOXES, GLOVE BOXES, TOILET CASES, FINE PERFUMES, TOILET WATERS, FANCY TOILET SOAPS, PHOTOGRAPH ALBUMS, KODAKS, COLORED HAWAIIAN CALENDARS, Etc.

For the Men

We have often been told by ladies that "it is so hard to buy presents for men." We have demonstrated often that it is not hard in our store. Men like gifts combining usefulness and convenience. We have a large list of articles that will touch a man's heart. Among them are:

SHAVING SETS, MILITARY BRUSHES, HAT BRUSHES, TRAVELING SETS, WHISK GILLET RAZOR, STROPS, SHAVING BRUSHES, SMOKING SETS, COLLAR BOXES, CUFF BOXES, Etc.

PINKHAM SAYS TO MATTHEWMAN

BOARD OF HEALTH'S PRESIDENT
RETURNS HIS COMPLIMENTS TO
KAILUA'S BENCH ORNAMENT.

The following reply has been forwarded by the Board of Health to Judge Matthewman in reply to his letter:

Honolulu, Hawaii, Dec. 18, 1935.
Judge J. A. Matthewman, Kailua, Hawaii.

Sir: Your favor of 11th inst. at hand. The Board and its agents are familiar with Section 1122 Revised Laws. Its execution involves publicity, humiliation, and opens an opportunity for injurious and infinite gossip. The Board believes voluntary and private consent for examination at Honolulu would obviate the distressing features of legal procedure. In fact, no publicity is necessary any more than that involved in consulting a private physician.

As to between voluntary humanitarian methods and technical legal methods this Board will at all times instruct its agents and use its influence that the former prevail over the latter and only resort to the latter when forced to do so.

I am not aware that informing you of the policy and opinion of the Board constitutes either advice or interference. I am,

Respectfully,
(Signed) L. E. PINKHAM,
President, Board of Health.

Marks lived high while his criminal operations continued. He made two trips to Europe and crossed the continent twice, and also made a trip to the Hawaiian Islands. He is wanted in a number of cities, the authorities of which will lodge warrants for him with the Arizona authorities. His photograph was identified in New York as a traveling salesman for a glove firm. He had obtained employment under a fictitious name, obtaining from them \$500 worth of goods and also swindled them out of \$275 expense money under false pretenses. The American Bankers' Association are to be congratulated upon the capture and imprisonment of this swindler.

PAYMENTS WITHHELD.

Auditor Fisher has held up payments on the L. M. Whitehouse contract for Nuuanu reservoir, on the grounds that there is not enough cash in the loan fund to fulfill the contract, as he claims is required by law. The attorney general, governor and superintendent of public works, all differ with Auditor Fisher's view of the law, but he will not make the payments without settling the matter in court. A ruling will probably be secured from the Supreme court.

DISASTROUS EXECUTION.

William Henry, High Sheriff, returned execution for \$275.14% and interest in the suit of William O. Smith vs. John Richardson et al, as wholly unsatisfactory. The sale last Saturday realized \$40.50, but the expenses were \$43.35 and the High Sheriff collected \$3.10 from the plaintiff to square the account.

AUTOMOBILE BURNED.

An automobile in Lewis' stables on King street near Punchbowl caught fire last night by the gasoline becoming ignited. The machine was damaged considerably, one wheel being burned off. The fire department responded to the alarm of fire at 10:45 p. m. from box 25 corner of King and Punchbowl streets.

THE ENGINEERS.
The Honolulu Engineering Association met last evening at Haaleale lawn for their regular monthly meeting, A. Gartley presiding.
H. P. Wood, Secretary of the Hawaii Promotion Committee, read an interesting paper on "Engineering a Boom," and President Gartley read a paper prepared by J. N. S. Williams of Puuene, on "First Aid to an Injured Irrigation Pump."

"Why are people so eager for fame?" "Because," answered Senator Sorghum "in the majority of instances, fame is one of the most profitable forms of advertising."

A PERMANENT TOPIC.
Free trade? Indeed I like it not. It would be bad beyond a doubt. For if there were no tariff, what would statesmen have to talk about?

ADVERTISING HIMSELF.

ONE MAN'S WISDOM.
"Say," said the stranger, as he climbed into the chair "cut my hair with the clippers, please."
"Very well, sir," rejoined the tonsorial artist. "Training for a prize fight?"
"No," answered the man in the chair. "Pardon me," said the barber, "but I imagined—"
"Cut out your imagination," interrupted the victim. "I'm going to be married tomorrow. That's all."

The Electric Nursery....

Fancy a dark or dimly lighted nursery for grapes or roses or ferns. A gardener would refuse to be responsible for his plants if he could not have plenty of light. He wouldn't consider food and care enough for his fragrant children, and physicians have decided that light is just as necessary for the healthy growth of a baby, as for a rose. Sunlight, of course, in the daytime, but for use at twilight and in the early morning and nights when the little human flower is ill, there should always be at hand floods of electric light, a flowing, health giving light to be had without a second's delay.

We shall be happy to answer any questions relative to wiring your house that you may be pleased to ask.

Carter And The Legislature

not secure favorable congressional action.

The demand for annual sessions of parliament was one of the ringing cries of the reformers in the struggle in England for constitutional liberty and against the despotism and encroachments of the Kings. So eloquent were the arguments made in favor of this that there grew up a sort of belief that annual sessions of the legislative body was an essential of liberty. Without such frequent sessions it was firmly believed by many that freedom from the encroachments of the executive was impossible.

This belief was firmly impressed on the liberty loving spirit of the age at the time when most of the colonies that afterwards became the United States, were organized and came to self governing status. So we find that at the time of the American Revolution and later, when the Constitution of the United States was framed and adopted, that annual sessions of the legislature were the rule. Many of the original states have continued the practice, notably the New England states, and most notably there, probably, Massachusetts, where Governors, too, are elected annually.

But as the fear of encroachment by the executive passed away, the belief in the absolute necessity of annual sessions of the legislature for the maintenance of liberty, began to crumble. Other considerations began to have weight. In some of the more sparsely settled of the newly organized commonwealths, the inconveniences of annual sessions, when members had to come great distances, began to be felt, and for this reason biennial sessions were introduced in many states. Later, gross corruption in legislative bodies, was frankly seized on as a reason for having as few sessions of the legislature as possible. The argument was that it seemed impossible to avoid corruption, and rank favoritism in legislatures, therefore, the frequency of the meetings of such bodies must be reduced, as such as possible, so as to reduce the opportunities for public plunder.

There were doubtless other influences at work but these were two of the most potent, and finally brought it about that biennial legislative sessions became the rule rather than the exception.

As a matter of fact most of the states of the union now have biennial legislative sessions. But during the past few years there has appeared a tendency to examine again the grounds on which the frequency of legislative sessions is based, with the result that something of the old feeling that annual sessions are a bulwark of public safety is beginning to be felt again. The argument that less frequent sessions reduce the opportunities for graft and corruption is losing its force. It is seen that grafters and corruption are not affected by the ordinary rules of time and place; that less frequent sessions of the legislature do not reduce either the opportunities nor the amount of corruption, but in fact have a tendency to increase them. This is for the reason that the legislative power, the direct participation of the people in government, being, as it were, in abeyance for so much of the time, and for long intervals, of necessity, functions which are properly legislative are thrown upon or are seized by the executive. This is in its nature usurpation and tends to create toleration of ideas that do not nicely discriminate in either political or moral ethics. The belief is growing that the old feeling of the necessity of frequent sessions of the legislature for the preservation of civil liberty, had some foundation, though it may not have had just the foundation that the fathers believed. Or perhaps the adjustment of conditions differs in different generations.

The late David Dudley Field was one of first and the most influential men, in late years, to urge the principle of annual sessions of the legislature. This he did in his address as President of the American Bar Association at its meeting in Chicago about fifteen years ago. He has been followed by others, and though the subject cannot be said to be one that has become a dominating one, it is a subject on which a good deal of thought is being expended and on which a large number of eminent men and great thinkers have come to a conclusion at variance with present day practice.

Governor Carter in his recommendation, does not enter into the academic discussion of the theme in its general aspects, but applies his argument to the situation here. Nevertheless, he is in line with a widespread, though as yet not very pronounced tendency.

The Eruption In Savaii

such as we are familiar with on the Island of Hawaii, rather than a volcanic eruption such as we picture from the eruptions of Vesuvius. It seems also certain from the descriptions that it is largely an aa flow, similar in kind to the outbreak of Mauna Loa in 1899, rather than a pahoehoe flow similar to that of the lava flow that so seriously threatened Hilo in 1881.

The building up of great cones and even mountains, which, after they are formed, are carried miles by a slow but continuous motion, points it out as an aa flow. No one who has ever seen the phenomena of an aa flow on a large scale can fail to recognize the description.

According to the accounts brought by the Ventura this morning, which are in entire accord with previous accounts, the lava flow has already covered an area of thirty square miles, which is probably greater than the area covered by the lava flow from Mauna Loa in 1881. The stream of lava is said to be twelve miles wide. It has created a range of mountains, some of which are said to be 3,000 feet high, though this of course is merely conjecture, or at least estimate. But the statement that lava is being thrown at times 1,200 feet into the air, is the most remarkable of all. Making allowance in this for overestimate, still the phenomenon is wonderful and the effect must be altogether over-powering.

The German government of Samoa has done something in the way of scientific study of this outbreak, though the resources of that colony are limited, and all that ought to be done in this direction has not been possible. It is surprising that other governments have not sent trained scientific observers there to make observations. New Zealand is not so far distant, has ample means, and an intelligent spirit in governmental affairs, and has doubtless heard of the magnitude and felt the importance of the outbreak. It might also be expected that the United States Coast and Geodetic Survey would have taken up the matter.

Is it not within the scope and field of the Bishop Museum to send observers there to report, on the subject? And could that institution add greater lustre to its achievements than by sending a properly equipped expedition to Savaii?

The recommendation of Governor Carter that the Territorial Act be so amended as to provide for annual sessions of the legislature, instead of biennial sessions, is one that is quite likely to attract considerable attention, even if it does

An officer of the Chicago is quoted as saying that conditions here are unsatisfactory for target practice, and that the proper place for practice is in smooth waters off the Los Angeles coast. Is it to be presumed that when a war breaks out the American navy will send a message to the enemy, "Come to the Los Angeles coast and fight?"

Governor Carter and Senator Linc McCandless ought to settle the matter with six ounce gloves, Marquis of Queensbury rules, then everyone would understand it.

One excellent way for people to avoid being shocked at the hula postal cards is not to look at them.

A Russian manifesto has granted the Russian soldier an increase of pay. Instead of getting two and a half cents a month he may now get two and three-quarters, that is if the colonel does not get there first.

Imagination cannot picture what would happen if that devil city, the Chinese Shanghai, were able to organize its forces sufficiently to pour over into the French settlement and thence into the Municipal Corporation. Fortunately there is no chance of anything of the sort happening. The present outbreak will probably result in further concessions to the foreigners.

Perhaps it is worth while to note that the interesting article on the Banana Industry in Governor Carter's report, by a leading banana grower, states that the lack of transportation facilities is one of the principal difficulties to be contended with. It appears, however, that money is being made by the growers even though a lot of fruit rots for lack of steamers to carry it.

Judging by the rioting and violence in Shanghai, it looks as though Lorrin Andrews hadn't settled the boycott yet.

Every man admires the woman of whom it is said she "spoils" her husband.

The average man thinks about the worst thing in the world is a doctor's bill, until he meets an undertaker's.

Do the right thing by all of your friends, and you haven't anything but the core of the apple left.

When a man does something to disgust his wife she can put a lot of scorn into the expression: "Isn't that a man for you?"

The average married woman doesn't know so very much about hope, but she is wonderfully long on patience.

PRINCESS PAUHAH WAS REMEMBERED

(Continued from page one).

keen was the desire of the scholars to carry out the program in its entirety that the decision was made to go ahead. Six special cars were used to carry the Kamehameha party and the Royal Hawaiian band to the Mausoleum. The trip took longer than might have been expected for the heavy grade on Nuuanu and the slippery condition of the tracks rendered locomotion difficult.

Arrived at the Royal cemetery the scholars paraded, despite the driving rain. There were fifty-one girls, sixty one small boys and a hundred and thirty big boys, the latter being split up into two companies under command of their own officers.

Principal Horne was there as were the following lady teachers: Misses Lemon (Acting Principal Girls Department), Robinson, Knapp, Lawrence, Church, Harrison, Yoch Thomas (2), Baker, and Smith; Messrs. W. Clark, S. L. Livingstone, Ira Eskew, W. D. Barlow, E. O. Hall and Rev. J. L. Hopwood, Chaplain.

The band under command of Captain Berger took up its position at the gate of the cemetery and to the strains of "Safe in the Arms of Jesus" the procession wound slowly in.

Among those who were present to watch the whole service were Her Majesty Queen Liliuokalani who was in a carriage with Governor Cloghlin but on account of the inclement weather, did not alight. The Imperial Chinese Consul Hon. Chang Tso Fan with Madame Chang was also there. A notable and much interested spectator was the Ven. Archbishop Jeffers of Little Rock, Arkansas. Another was Rev. Dr. A. H. Briggs of San Francisco.

The services took place before the beautiful red granite sarcophagus which marks the resting place of all of the Kamehamehas but the first of the line. The ancient tabu sticks in front were flowers wreathed. There repose the remains of the Princess Pauahi and to the right, the larger girls marched, the smaller girls took their position on the left. The small boys formed up immediately in front and behind them were the two companies of big boys with the school ensign between them.

The services opening with the singing of "Pauahi, Ke Alii" by all of the scholars led by S. L. Livingstone. Never was the song sung under more impressive circumstances. Beside the grave of the noble woman who endowed the schools, the ones now benefiting from her thought stood bareheaded in the rain and sang their song:

"Blest type of womanhood, So true,
So pure, so good,
Thy praise we sing: Thy praise we sing;
For bounteous gifts and free, In all
around we see,
Of what God gave to thee, Full hearts
we bring.

Chorus.
"Pauahi Keali, Loyally we bend to thee,
Queen of our hearts: Queen of our hearts,
Aloha loud resound, From all these
hills around
Where thy name is found, Where
still thou art.

"Ever thy spirit dear, dwell in thy people here
Thou lovest so well, Thou lovest so well,
Every influence grand, In youth of this
bright land
A joyous loving band—Most richly
dwell.

The smallest girls and boys stepped forward, eight of them in all, and commenced the decoration of the grave. The decorations were simple, but beautiful in their simplicity. Fern leaves were first placed over the entire surface and then the royal lily, the puahala and some marigolds and chrysanthemums were strewn above these.

This duty having been accomplished the program continued as a surprise to those who were uninitiated for the little lady suddenly broke into unison with "The Earth is the Lord's and the Fullness Thereof" and recited the well known psalm the small girls alternating.

Seldom indeed has the message of the psalmist been given more

HURRYING HOME FOR CHRISTMAS

STEAMER VENTURA WILL MAKE
A SHORT STAY IN THIS PORT—
HAS SMALL CROWD ABOARD.

But for the last three days of her voyage, the S. S. Ventura would have had a perfect weather trip from the Colonies to this port. She left Sydney December 4, Auckland, December 8 and Pago Pago, December 12, the time from Sydney being 15 days, 11 hours and 13 minutes. On December 16 she met a head wind and sea that remained with her until she reached Oahu early this morning.

She brought a small amount of imports to this port and has only a fair sized cargo of through freight. The vessel passed the S. S. Sierra on December 9 two days out of Auckland. The vessels passed very close to each other, so close in fact, that persons could be recognized from either vessel. None of the Oceanic vessels had ever passed so close before.

Among the passengers arriving for Honolulu, there were four altogether, was Mrs. E. Lyle, a relative of Captain Lyle of this city.

Among the through passengers is Miss Jessie McLaughlin the Scottish singer, who with her husband, is returning from a successful concert tour of the Colonies. They are returning to their home in Scotland. They will first tour the States and Canada, in company with J. McLinden the cellist.

E. A. Weinberg an Australian mining engineer is going to San Francisco on business, accompanied by his wife.

R. Tudor is a well known hotel manager having properties in Europe, Australia and New Zealand. He is going to California on a visit.

Major S. R. Timson is a retired British army officer on a tour of America.

E. Venala is an Italian whose home is in Rome. He is touring the world. L. Glockner is a mining engineer and manager. He is going to America after a successful career in Australia.

The Ventura will take only a small sized crowd of passengers from Honolulu for San Francisco, among them being the members of the Westminster Glee and Concert Party. She is scheduled to sail at 2 p. m. today from the Oceanic wharf. Every effort is being made to rush her away on time, as Captain Hayward is desirous of making Christmas Day ashore. She takes about 4,000 bunches of bananas from Honolulu.

TRANSPORT DIX ARRIVED TODAY

The transport Dix arrived today from Nagasaki with 4,000 tons of coal for the local army depot quartermaster. She had an uneventful passage to this port. The vessel will be here 5 days, discharging cargo and will depart for Seattle to take stock, forage and lumber to the Philippines for the cavalry and artillery services.

Impressively. Then, taking verse by verse in turn, the bigger and the smaller girls, ranged as they were on either side of the tomb repeated the last chapter of the Proverbs from the tenth verse, "The Perfect Woman."

The deeper voices of the big boys then rang out giving the school pledge "In the Presence of the Ashes of Our Alii." The song "Only Remember" was sung by all of the scholars and the girls rendered "Pauahi Alii" in excellently modulated voices.

This concluded the program and the scholars and spectators filed out of the cemetery grounds to the air of "The Sweet Bye-and-Bye" followed by "Nearer My God To Thee."

They returned to the city and thence out King street to the schools by their special cars.

"It was one of the most beautiful and impressive ceremonies that I ever saw" commented Archbishop Jeffers on the conclusion "I am glad that it rained as it did. It seemed that all of the elements had joined in sorrowing over the death of a woman who must indeed have been royal."

Rules For Parole Of Prisoners

REGULATIONS UNDER WHICH
CONVICTS MAY BE RELEASED
BEFORE SENTENCES EXPIRES.

Governor Carter yesterday approved the regulations adopted by Prisoner Commissioners Lowrey, Ross and Wodehouse, after consultations with Attorney General Peters and High Sheriff Henry, for the parole of prisoners. The regulations are in substance as follows:

1. Any person who is now or may hereafter be confined in any jail or prison within the First Judicial Circuit of the Territory of Hawaii, except those persons hereinafter excepted who have served the minimum term provided by law for the crime, for which he has been convicted, may be paroled by the Governor for the remainder of his term upon the written recommendation of the Board of Prison Inspectors for the said First Judicial Circuit and be allowed to go under parole outside the buildings and enclosures of such jail or prison.

2. No parole shall in any event be granted to any person convicted of murder in the first or second degree, or to any felon who has been convicted in any jurisdiction of a felony other than that for which he is being punished.

11. Upon the consideration by the board of applications for parole, the Board may examine witnesses under oath and the chairman of the board is authorized to administer an oath to any such witness.

12. In determining the question of a parole of a prisoner the Board will consider his conduct, history, career and character, but will not be governed by outside influence.

13. No prisoner able to work shall be paroled until suitable employment has been guaranteed him by responsible parties. Any person guaranteeing suitable employment to a prisoner to be paroled shall execute and sign and file with the Board the following agreement and undertaking in writing:

In the matter of..... Prisoner No.....
An applicant for Parole.
Application No.....
Offense of which convicted.....
The undersigned hereby agrees and undertakes to employ.....
at.....
at a salary of..... per..... and retain him in such employment under the following conditions:

1. That he will not discharge the said prisoner from employment unless upon..... days previous notice of his intention so to do to the Board of Prison Inspectors for the First Judicial Circuit.

2. That he will immediately upon the end of employment of said prisoner notify the said board thereof.

3. That upon the failure of said prisoner to in any respect comply with the rules and regulations relating to parole of prisoners he will notify said Board thereof.

4. Take a friendly interest in said paroled prisoner, counsel and direct him in that which is good and promptly report to said Board any unnecessary absence from work, any tendency to low and evil associations and see that said paroled prisoner forwards his report monthly and at the time designated as required by the rules and regulations of paroled prisoners.

15. No paroled prisoner shall change his place of employment except by permission of the Board.

16. Every person on parole is required to report personally or in writing to the warden or keeper of the prison or jail in which he has been confined, within the first week of each month.

17. The monthly report of paroled prisoners if in writing shall substantially state whether the paroled prisoner has been constantly at work during the preceding month and if not why not; how much he has earned; together with a general statement as to his surroundings and prospects, which report must be endorsed by his employer or some other suitable citizen designated by the Board. Such prisoner as cannot write the English language may make his report in the language with which he is familiar. Prisoners unable to write shall cause a report to be written by some other person on their behalf, the same to be approved by their employer or other person designated by the board.

18. Any person when on parole upon the recommendation of the Board of Prison Inspectors for the First Judicial Circuit shall be and remain in the legal custody and under the control of said Board, subject to all rules and regulations made by such Board and further subject to be taken back to the prison or jail from which he has been released at any time until the expiration of the term for which he was sentenced.

19. Unauthorized change of employment, or failure on the part of the paroled prisoner to conduct himself honestly and lawfully, to avoid evil associations and to abstain from the use of intoxicating liquors, will be deemed a violation of the parole and will render him liable to be reimprisoned.

20. These rules and regulations shall not be construed to in any sense operate to release any prisoner paroled but simply as a term granted to such prisoner to go without the enclosure of the prison or jail in which he has been confined, and while so at large he shall be deemed to be still serving out the sentence imposed upon him by the court and shall be entitled to commutation the same as if he were confined in prison, but in the event of his parole

"DAVID GARRICK" A FINE PERFORMANCE

A FINE OLD COMEDY DELIGHT—
FULLY PLAYED BY THE BUHLER COMPANY AT ORPHEUM.

"David Garrick," the comedy played by Buhler and his company at the Orpheum last night is the gem of the entire season so far.

The play is just the right length and after seeing it one leaves the theater with a satisfied feeling and a taste for more.

As a vehicle for the exhibition of the talent of the various members of the company there could have been no happier selection of a play. Richard Buhler was at his best. His rendition of the character of David Garrick, the actor, was magnificent, and his acting in the scene where he pretends to be drunk in order to disenchant his lady love was as fine a bit of comedy work as was ever seen in Honolulu.

Harry Earl, as Squire Crivy, was an able second to Buhler. He also has a drunken scene. And he certainly acted drunk. Earl is always good in any line of character.

Henry Auerbach, the clever little comedian brought down the house as the stuttering Mr. Smith, while Tom Lowell and Rupert Drum as Jones and Brown were also good.

Mr. Place, the new man of the company, was up to the mark as Mr. Ingot, the father.

Mrs. Smith was ably handled by Miss Louise Orendorf while as Aramantia Brown, Tess Wharton was alike funny in acting and make-up. Miss Brenda Fowler looked lovely and acted charmingly as Ada Ingot.

The dainty little comedian Juliette Chandler introduced a new specialty which was the best she has yet done and needless to say brought down the house.

The play will be repeated to-night and tomorrow night and should draw well. It is a play to produce contentment and laughter, and will certainly drive away dull care.

MILITARY FUNERAL FOR LATE DR. LEWIS

IMPRESSIVE SERVICES HELD ON
BOARD THE FLAGSHIP THIS
MORNING.

The funeral services over the remains of the late Dr. O. Lewis, medical inspector, and first surgeon of the Pacific Squadron, were held this morning aboard the cruiser Chicago.

The services were conducted according to the navy regulations, the deceased being given full military honors. The body was taken to the flagship this morning, the Union Jack and ensign of the vessel being placed at half-mast. The casket was draped with the union jack. Services were conducted by Rev. Father J. C. Bolssel of the Catholic Church. After the conclusion of the ceremonies aboard the flagship, the escort consisting of a company of marines from the Chicago, a company of marines from the local barracks and two companies of blue jackets from the vessel formed under the command of Commander W. P. White the executive officer of the Chicago. The escort presented arms on the deck of the vessel, as the remains were carried ashore. The pall-bearers were: C. J. Badger, U. S. N., Commander of the Chicago; Pay Inspector T. H. Hicks, U. S. N., of the Chicago; Lieut. Commander F. W. Bartlett, U. S. N., of the Chicago; Lieut. Commander A. P. Niblack, U. S. N., Captain of the Navy Yard; Major V. H. Fuller, U. S. M. C., Commander of the Marine Barracks and Lieut. Commander A. S. Halstead, U. S. N., of the Chicago.

The following was the order of march: flagstaff band, Chicago marines, barack marines, blue jackets, Father James, the bearer, pall bearers, body bearers and the mourners consisting of Rear Admiral Goodrich and various officers of the vessel and Captain H. W. Lyon the commandant of the local naval station and army officers. The procession marched up Richard street to King, then Waikiki to the Catholic cemetery where the remains were placed in a vault. The following formed the body bearers: Chief Boatwain's Mate Miner, Hospital Steward Kellars, Chief Yeoman Settle, Chief Yeoman Smith, Chief Yeoman S. H. Peters, Chief Electrician Faloner, Chief Electrician W. F. Peters, First Machinist's Mate Foster and First Water Tender Coffee.

After the service at the vault the entire battalion fired three volleys, after which the ship's bugler sounded "taps" at the door of the vault. The escort then returned to the vessel.

H. H. Williams the undertaker, will attend to forwarding the remains to San Francisco by the S. S. Ventura this afternoon.

being recalled by the Board, the time while so at large shall be deemed not to have been served.

21. Whenever satisfied that a paroled prisoner has violated any of these rules and regulations or whenever the Board is satisfied that for any reason such paroled prisoner should be retaken and reimprisoned, a written order by the Board certified to by its secretary shall be made.

LUMBER VESSEL ARRIVED.

The barkentine Kikikita, Captain Cutler, arrived this morning 25 days from Port Gamble with a cargo of lumber. She was sighted yesterday afternoon.

REMARKABLE RACE FOR POSSESSION

(Continued from page one).

out the certified record, which was on the way and due in Washington tomorrow.

"Have you instructed the clerk of the United States Supreme Court to cable to this court if a writ of error is issued?" asked Hartwell.

Derby replied that this had been done.

Hartwell then announced the decision of himself, Justice Wilder and Judge De Bolt, that the court here had no further powers in the case.

As soon as the decision was given Ashford packed a grip and started for Maui, where the last scenes of the long fight are to be enacted, unless the attorneys for the other side can evolve a new scheme. On the excellent theory that possession is nine points of the law, he proposes to put his client in possession, and then it will be up to Pioneer Mill Company to oust him if it can.

In arguing the case Kinney declared that the attitude of the court deprived clients of their right under the recent amendment of the Organic Act, to an appeal to Washington. He said it was a matter of far greater importance than the issues of the case at bar. The court, however, has all along held that the case had passed beyond its jurisdiction, and that it had no power to take further steps to prevent carrying out of its judgment.

A cable may be received at any time from Washington, announcing the issuance of a writ of error. This will place the case in the jurisdiction of the higher court. If it does not arrive within twenty-four hours, however, Ashford will probably have secured a writ of possession from Judge Kepoiki, and that will mean that Meheula will be in possession of the land.

Energy, Ambition, Cheerfulness, Strength, a Splendid Appetite, and Perfect Health

may be secured by all who follow the example of the young lady who gives this testimonial:

"Every spring, for years, I used to have intolerable headaches and total loss of energy, so that the season which should be welcomed by me was a dread; for, as the warm, pleasant days arrived, they brought to me lassitude and pain. A friend advised me to take

Ayer's Sarsaparilla

I commenced using it and have not had since then the first symptom of headache. My appetite is splendid, and I perform my duties with a cheerfulness and energy that surprise myself. I take pleasure in telling all my friends of the merit of Ayer's Sarsaparilla, and the happy results of its use."

There are many imitation Sarsaparillas. Be sure you get "AYER'S."

The following is the correspondence between Governor Carter and Senator McCandless in regard to the petitions filed with the Governor asking for the expenditure of the entire amount appropriated by the loan fund act:

December 9, 1905.
Senator L. L. McCandless, Honolulu.

Dear Sir: Your favor of December 6th, with its six enclosures, at hand. I have examined the petitions carefully. The first one, with 101 names, from the District of Koolau, asks for a loan expenditure of \$30,000.00.

The second is a petition from the District of Koolau, with 386 names, asking for the expenditure of \$5,000 of Loan Funds.

The three petitions from the District of Ewa and Waianae are similar, bearing 209 signatures, and asking for an expenditure of \$28,800 of Loan Funds.

The last petition, from the District of Kona (Honolulu), has 242 names, and asks for an expenditure of \$894,200 of Loan Funds.

I am somewhat surprised to learn that these petitions do not bear on the question which you have raised as to the wisdom of the Territory's borrowing more than \$750,000 at this time. I had supposed that these petitions would be to the effect that the signers considered it wise for the Territory to borrow the whole \$1,377,000 provided for in the Loan Appropriation as passed by the last legislature, and that they also desired that the Executive should carry out every appropriation for which the "Loan Bill" provides up to the full amounts mentioned.

Every resident of any district desires to have money expended in his district, and is perfectly willing to sign a petition therefor. But the question is broader and more comprehensive than these petitions indicate. It involves the wisdom of a further indebtedness, the Territory's ability to pay, the fact of which many citizens are probably not aware; that the Territory will, with the small amount of bonds issued, be paying nearly \$500 a day interest.

The situation is exceptional because of the changes that took place in adopting and putting into practice a county form of government.

In this connection, I enclose you copy of a message sent by me to the Legislature on May 29th last, which possibly you may have forgotten.

I had also supposed that the petitions would bear out and were intended to enforce the statement forwarded by yourself and five other members of the last legislature to the President at Washington in which you claim that the \$750,000 of bonds which the Territory is about to sell in New York have never received legislative consideration or approval, and through which you have endeavored to mislead the public into the belief that I was acting in defiance of the Legislature; that there was no authority of law for the issuance of these bonds, and that the people of the Territory did not approve of the attitude I had taken in the matter.

You and those who signed the petition with you must be aware of the fact that there has never been a loan appropriation made by the Legislature under which it has been possible to expend every dollar appropriated, and that no Legislature expects to do more than set the limits within which the executive is to act.

You are, of course, not aware of the number of people that have come to the trouble to let me know that they support the attitude I have taken, and that statements convince me that it is not by any means certain that the people of Hawaii are in disagreement with my action. I have sufficient confidence in them to believe that they are too intelligent to be led astray by your statement. They know too well my attitude in relation to such matters, and that in any difference between the Legislature and the Executive, the power rests absolutely with the representatives of the people.

Very sincerely yours,
(Signed) G. R. CARTER,
Governor.

Inclosure.
A Message to the Legislature of the Territory of Hawaii.—Recognizing the desire of so large a number of the out-of-town members to close this session of the Legislature in time to allow them to take the outgoing steamers the early part of the week, I have signed Senate Bill No. 3, entitled "An Act Making Special Appropriations for the Use of the Government of the Territory of Hawaii during the Two Years which will end with the Thirtieth day of June, A. D. 1907," commonly known as the Loan Bill," as I find it impossible in the limited time to intelligently segregate these items which, in view of the proposed county system of government, should properly be expenditures on the part of the counties rather than the Territory; and also to secure the information necessary in deciding what other items are essential to the welfare of the Territory and, in view of our financial condition, advisable.

I have already sounded a note of warning, and called your attention to the rapidly with which our public debt has increased, and I am of the opinion that the amount of appropriations carried in this bill are excessive, and reserve the question of their expenditure until they can be thoroughly examined.

G. R. CARTER,
Governor.
Executive Chamber, May 29th, 1905.

Honolulu, T. H. December 16, 1905.
Hon. George R. Carter, Governor of the Territory of Hawaii, Honolulu, Oahu.

Dear Sir: Your communication of the 9th inst. was received by me on December 15th. In reply to the same I would ask you to please note that the amounts mentioned by the several districts correspond with the items appropriated for such districts by the Legislature and approved by the Governor.

Your supposition as to what the character of the petitions might be does not alter the same. Your remark "that every resident of any district desires to have money expended in his district and is perfectly willing to sign a petition therefor" is wholly inapplicable to this case. The people are asking the executive for the appropriations with which to carry out the improvements in their several districts—appropriations secured for them by their representatives in the Legislature and are taxpayers as you and I are taxpayers. We have every reason to believe that they realize the responsibility of the Territory's indebtedness and its ability to pay as did the Legislature when the Loan Bill was authorized or as did the Executive when he recommended by message to the Legislature a loan of \$1,100,000.

You speak of the County form of government as affecting the situation. I fail to see that. The responsibility rests with the people as before the County Act went into effect, and you will please recall that the County Act was passed during the regular session of the Legislature, at least 30 days prior to the passage of the Loan Bill, a work of the extra session.

Your message to the Legislature, informing same that you had approved the Loan Bill, has, in nowise, been forgotten by me. In this message you remark "recognizing a desire of so large a number of the out-of-town members to close this session of the Legislature in time to allow them to take the outgoing steamers the early part of the week" and reserve the question of their expenditure (meaning Loan Appropriations) until they can be thoroughly examined." Let me ask what authority you have for making any such reservation? The Organic Act reads: "If he (the Governor) approves it, he shall sign it, and it shall become a law"—outgoing steamers not even being mentioned. This Loan Bill having been passed by such a large majority of both houses gives us every reason to believe that had you vetoed same, your veto would have been overridden as was your veto of the County Act. Had you at that time considered yourself privileged to modify the Loan Bill, why get behind such a message except to prevent the Legislature from overriding a veto?

Your second supposition as to the petitions. Referring to the \$750,000.00 bond issue, I still contend that the Executive has usurped the power of the Legislature in ignoring the Loan Bill of \$1,377,000.00, passed at last session, by sitting and substituting a loan of \$750,000.00, and I have not endeavored to mislead the public. These are facts. I thank you for the term "in defiance of the Legislature."

I agree with you that no Legislature expects to do more than set the limit within which the Executive is to act but would add that no Executive is expected to change that limit.

No doubt a number of people support the attitude you have taken but you must be aware that a great many people differ from you, and because they differ from you is no proof of lack of intelligence on their part. At least give the people credit for having sufficient intelligence to judge for themselves as to whether the judgment of one man should prevail as against the judgment of the Legislature.

In conclusion let me say that the petitions of the people yet remain unanswered.

Yours truly,
L. L. McCANDLESS.

AN AUTHORITY O. K.
I've heard Wagner rendered
By the most expensive bands;
I've seen ovals tendered
While the public clapped its hands.
Them chords—when some one strikes 'em,
Seem to jar the neighborhood;
But wife, she says she likes 'em,
So I guess they're purty good.

Of Browning I'm suspicious.
For Brown I don't care;
I don't like foreign dishes
Upon my bill o' fare.
Chrysanthemums look woolly
An' frazzled to my sight.
But wife approves 'em fully,
So I reckon they're all right.

LIVONIA IN REVOLT.

ST. PETERSBURG, December 19.—The insurgents in Livonia have wrecked a military train carrying re-enforcements en route to Riga. They attacked the survivors of the catastrophe, half of whom surrendered. The southern part of Livonia is in complete possession of the insurgents. In order to escape annihilation the Czar's troops are being concentrated at Riga, Witau and Libau where they are actually on the defensive. The Governor is frantically urging assistance. The labor leaders at Kieff have been arrested. A manifesto is ready granting the soldiers increased pay and improvements in the service.

WEEKLY CROP BULLETIN

For the Week Ending December 16, 1905.
Local Office, U. S. Weather Bureau,
Honolulu, T. H., December 18, 1905.

GENERAL SUMMARY.

The weather of the past week has been unsettled and showery, with high winds and very low temperatures. Rather heavy rains have occurred in the north Hilo, Hamakua and north Kohala districts of Hawaii, windward Maui, and the leeward portion of west Maui.

Low temperatures have checked the growth of young cane, which has also suffered considerable damage in many localities from high winds. Conditions have been favorable for field operations, however, in nearly all sections, and the grinding of 1906 cane will soon become general. The rainfall in central Maui has been sufficient to permit the entire suspension of pumping for irrigation purposes. Young pineapple plants are reported generally as in good condition, and the harvesting of winter crop pines is well begun, although cold and moisture have retarded ripening somewhat during the past week. Coffee picking continues in all sections; in the Kona district of Hawaii, the yield is turning out much above the average. The plowing of rice lands is in progress. Sisal is in good condition both in central Maui and leeward Oahu. The unsettled weather of the past week has been generally favorable for pastures, although wind and low temperatures have caused some suffering among grazing stock. While farming operations in the vicinity of Makawao, Maui, have been practically suspended on account of the rainy, windy and cold weather, conditions as a whole in the Kula section have been much improved, the drought having been broken by a good downpour of rain.

MEMORIAL TO PRINCESS PAUHAH

BISHOP CHAPEL WAS LAST EVENING THE SCENE OF MOST INTERESTING SERVICES.

The usual memorial services in honor of the late Princess Bernice Pauahi Bishop were held last evening in the Bishop Memorial chapel at Kamehameha Schools. On the platform with President Perley L. Horne were J. O. Carter, representing the trustees; President Arthur P. Griffiths of Oahu College, Rev. William M. Kincaid of Central Union church, Rev. G. D. Edwards of the Christian church, Rev. W. L. Lono, Rev. John L. Hopwood of the Kamehameha schools, David L. Al and representatives from the girls' school. The Kamehameha anthem "Pauahi Ke Alii" was sung by the schools and the invocation was offered by Rev. Hopwood. President Horne made the welcoming address. Rev. Kincaid and President Griffiths also spoke. Miss Gertrude Hall sang a solo and David Al gave a scripture reading. The benediction was pronounced by Rev. Lono.

THE CASTOR BEAN CULTURE IN FIJI

EXPERIMENTS GOING ON THERE WITH SEED IMPORTED FROM HAWAII—GREAT SUCCESS.

FIJI, which like Hawaii is striving to diversify her industries, is now experimenting with the castor-bean. The Western Pacific Herald says:

Last year the Chamber of Commerce imported from Honolulu some castor oil seed in order that an experiment might be made in its cultivation in this Colony. The seed was distributed to planters, and W. H. Johnson of Tavua who came to town in the steamer Adi Keva this week, brought the first fruits of the experiment. The seed, when compared with some of the original importation from Honolulu, and also some grown in India, seems decidedly superior to both in appearance. Being full large beans of a bright 'mauve'. The ripening of oil there-in can of course only be ascertained by crushing in a proper mill. Mr. Johnson says that the plant is a prolific bearer and easily grown, and he is of opinion that it will be a very profitable crop to grow in Fiji. He intends to understand to put down a large area in castor oil. We wish him success, as new and payable industries will be the salvation of the colony, which depends entirely on its agricultural resources for its prosperity.

WARSHIP TO COLLECT THE TAXES

ONE OF NATIVE SAMOAN CHIEFS ON MANUA REFUSED TO PAY THE TAXES.

There came near being trouble in the island of Manua, Samoan group some months ago over the payment of taxes. News of the occurrence was brought this morning by the steamer Ventura.

It appears that the native chief on Manua refused, for some reason, to pay up his taxes and held out the money from the government. Conditions looked threatening so the U. S. S. Adams, the station ship at Pago Pago, Island of Tutuila, was ordered to proceed to Manua to adjust matters.

The sight of the American warship backed by a party of marines had a soothing effect upon the chief and matters were finally adjusted amicably. Conditions are generally quiet about the islands now.

CAMPBELL TAKES THE BONDS

TREASURER OF THE TERRITORY LEAVES WITH THREE QUARTERS OF A MILLION.

With the sum of \$750,000 in his valise, Treasurer Campbell today starts for the mainland to complete the sale of the new issue of Territorial bonds. The money is in bonds of the Territory, to which the treasurer has just finished affixing his signature. As duly signed and regularly issued bonds, they are negotiable papers. The Territory is responsible to the holders for \$1,000 for each of them.

Treasurer Campbell was asked by the Governor this morning to undertake the trip, as Secretary Atkinson may not be able to remain in New York or Chicago and complete the sale. It is not unlikely that this means that "Jack" is to return here in order to allow Carter to go to Washington in the interests of Hawaiian legislation.

"I might go," was the treasurer's first answer to a question as to whether he was to take today's steamer. His departure was kept almost as secret as that of a former treasurer of Hawaii who suddenly left with a lot of money, under very different circumstances. He next said that he would probably go and finally that the governor had asked him to go and, of course, he thought he had better do so.

CLOSING OF THE CHICAGO BANKS

EXTENT OF THE BUSINESS DONE BY THE INSTITUTIONS WHICH ARE NOW UNDER THE BAN.

The cable yesterday brought news of the closing by the United States Comptroller of Currency of the Chicago National Bank, the Home Savings Bank and the Equitable Trust Company. There will be no loss to depositors as other banks came to the rescue. The reason assigned for the closing was the making of unwise loans to private companies.

Some idea of the amount of business done by the concerns mentioned may be gathered from the following figures, furnished by the Bank of Hawaii: Chicago National—Deposits, \$22,855,845; capital, \$1,000,000; surplus, \$1,422,345.
Home Savings Bank—Deposits, \$4,665,000; capital, \$100,000; surplus, \$155,700.
Equitable Trust Co.—Deposits, \$4,775,043; capital, \$500,000; surplus, \$459,586.85.

YOUNG MAY BUY MALOLO

HAS SECURED AN OPTION ON THE GASOLINE SCHOONER FROM THE INTER-ISLAND CO.

Herb Young the diver, has secured an option on the gasoline schooner Malolo from the Inter-Island Steam Navigation Company, and will, in all likelihood, purchase that little vessel. It is understood that the idea in securing the craft is to enable him to secure Federal contracts for lighthouse and buoy work about the islands. The vessel is also large enough to do some towing and should Young decide to control the little craft, he might put her to such use.

KANEALII'S ELECTION IS VALID

SUPREME COURT TURNS DOWN CONTEST STARTED BY LATE C. H. WILLIS.

The Supreme Court this morning reversed Judge Hardy's decision ousting D. Kanealii from office as supervisor of Kaneohe County. The court holds that the election is valid even if the conditions required prior to election were not complied with. The suit was brought by the late C. H. Willis, Kanealii's competitor in the campaign. The syllabus says:

"The provisions of the election laws relating to nominations are mandatory in the sense that the officers to whom they apply are obliged and may be required to comply with them before election; but a failure to comply with them does not, in the absence of a provision so declaring, invalidate the election unless it prevents a fair vote. The election of a county supervisor is not

void because the signatures to the petition for his nomination were forged." The opinion of the court, by Chief Justice Frear, says:

"None of the cases that have come to our attention have gone so far as to hold that a fraudulent nomination as distinguished from a merely illegal nomination does not invalidate the election, but, on the other hand, no case, so far as we are aware, has held or intimated the contrary. It seems to us that the reason of the rule, which is based upon rights of the voters and the absence of a provision making the election void for noncompliance with the requirements for nomination, applies equally in both cases.

"The circuit judges did not find that the respondent himself was implicated in the fraud or forgery. If he was, and should be convicted, doubtless the office would be vacated or he could be ousted from it under section 18 of the Organic Act.

"The judgment appealed from is reversed."

J. D. Willard for relator; W. S. Edings for respondent.
