BUSINESS TRANSACTED BY CHAMBER OF COMMERCE

The Kauai Chamber of Commerce met in regular session in the court house at Waimea Thursday afternoon, President Avery in the chair.

Minutes of the previous regular meeting were read and approved. Chas. H. Wilcox, for the special committee appointed to interview the Inter-Island S. N. Company on the subject of better steamship facilities for the Waimea side of the

island made a verbal report in which he stated that two meetings had been held at Honolulu on the subject, but that prospects for better service in the near future were not good, the principal reasons being the very large expense of running the steamer Kilauea and the probable lack of sufficient business to make her pay.

SPORTS PROGRAM PLANNED FOR THE GLORIOUS FOURTH

Captain Morrow, regimental athletic officer of the Fourth Infantry, last week prepared the following for the preliminaries and the big events on July Fourth:

Lihue, June 13, 1916.

The following program of events for the military tournament to take place at Lihue, Kauai, on July 4th, 1916, is submitted for consideration and suggestions:

Official Program will be furnished on Tuesday, June 27, 1916. It is proposed to hold two preliminary events, one on June 18th at Kealia and on the 25th of June at Lihue Park for the purpose of eliminating the poor class of athletes and getting things in condition generally.

Each captain is requested to fill in names of competing men on a specially prepared list of events with instructions attached.

It is suggested that a short parade and review be held previous to the beginning of the company drills.

The following is the list of events in the morning:

1. Company competitive drill: Each battalion will be represented by two companies; time allowed for each company, 15 minutes. Company movements will be given later. The first company of 1st Battalion has to be ready at 9:30 A. M. Second company of same battalion to follow at 9:45 and prizes to be announced later.

2. Squad competitive drills: One full squad from each company will participate in this event. Squad movements given later. Prizes to be announced later.

After completing competitive squad drill an appropriate speech will close the morning events.

IN THE AFTERNOON

1. Wall Scaling: 3 teams, one from each battalion, 8 men to a team, will compete, 15 minutes allowed for entire event. N. G. H. Uniform: Service, no hats or coats, no arms or equipment to be carried, stiff soled shoes, gymnasium shoes not permitted. Squad form 40 ft. from wall and finishes 40ft. beyond wall; wall to be 10ft. and 10ft. and 1st. Time from pistol (Continued on page 7)

OLIVER CHANGES BASE

Upon his return from Honolulu about ten days ago, Manager "Dick" Oliver notified the owners of the Waimea hotel that he would be leaving shortly to take the management of Schuman Carriage Co's business in that town. The resignation of the manager has been accepted, but Mr. Oliver has consented to stay with the hotel until a suitable successor can be found.

C. W. Spitz states in regard to the matter that the name of the successor to Mr. Oliver is not yet known, but that he will be a thorough hotel man.

Charged With Murder

In connection with the case of the murder of one Lorenzo Tondo, Filipino, at Camp 2, Makaweli, occurring on the night of June 6 and reported in last week's issue of this paper, the police have arrested Manuel Oniero and Hermogines Blase and have charged them with the crime.

Their cases will be taken up by the grand jury at the July term.

The murder was a brutal one and much feeling on account of it has been aroused, particularly in the Filipino community.

Port Allen Shipping

The steamship Mexican will arrive at Port Allen tomorrow morning from Honolulu and the coast. It is understood that she will have

FAREWELL TEA FOR KOLOA TEACHERS

A most delightful farewell afternoon tea was given by Mrs. A. H. Waterhouse, of Koloa, for Miss L. E. Glen and Miss Barbara Morrison on the afternoon of Tuesday, the thirteenth. As usual in such events the term "tea" was a euphemistic misnomer for a most attractive round-up of beautiful decorations, delicious viands, and vivacious repartee. The setting was a dream in yellow; yellow Golden Shower, yellow butterflies floating down from a trellis of green, yellow leis knotted with generous bows of yellow illusion, and yellow decorated place cards. There were some thirty guests, and even Solomon in all his glory was not arrayed like unto them.

Miss Glen and Miss Morrison have been teaching in the Koloa public schools, and now depart for their homes in southern California, not to return. During their stay they have endeared themselves to all who were fortunate enough to know them.

very little freight. After loading 42,000 bags of sugar she will sail for the other islands to complete her cargo.

The schooner Marston will finish discharging her cargo of coal during today and will sail for the Sound.

SEVEN TYPHOID CASES ARE FOUND

Children Near Nawiliwili Develop The Disease---A Cleanup Wanted

Seven new cases of typhoid fever have developed in the past few days in the Nawiliwili neighborhood.

All are children. Five are children of a Japanese named Matsuda and two are children of Joseph I, mail driver on the Hanalei route. All have been taken to the Lihue hospital where they are being treated.

The Matsuda and I houses are on the left side of the road coming from Nawiliwili toward Lihue, and are backed by the rice field. They are just outside of the more thickly populated section of the town.

Two cases appearing a few months ago not far away on the Grove Farm road enlisted much concern, and the presence now of cases by wholesale has created genuine alarm. The medical authorities feel that the source of infection must be gone after at once and vigorously, and steps to that end will be taken without delay.

Inasmuch as typhoid fever is not contagious in the ordinary sense, quarantine is not called for. The fight is against the source of infection, which, in the present case, is probably on the premises from which the cases have been removed or in the neighboring rice field.

SMALL BLAZE AT FAIRVIEW HOTEL

During the dinner hour at Hotel Lihue Wednesday evening there was an alarm of fire, and the guests rushed out to find the blaze in one of the cottages back of the main building. About that time Major Rice and the staff of the hotel appeared on the scene, armed with Pyrene extinguishers. The fire was out in a few seconds.

When first discovered the fire had burned away a mosquito net and had enveloped the bed in one of the rooms. The walls were also being charred. A few minutes more and the building would have been in flames.

The cause of the fire is unknown, but general circumstances point to a man, a cigarette and carelessness.

NEAR MURDER IN MAKAWELI CAMP

Last Wednesday night at Camp 14, Makaweli, a Filipino named Lorenzo Owen chased after another Filipino named Damiano Ocbania and practically cut off one of his hands with a huge knife which he was wielding.

The assailant was in liquor, and a quarrel of small consequence developed into the murderous attack. The hand was left banging and had to be amputated by a surgeon.

Owen was arrested and has been charged temporarily with assault with a weapon obviously and eminently dangerous to life. The case will come before the grand jury.

In this case law-abiding Filipinos of the neighborhood were of much assistance to the police in assembling facts.

FILIPINO WOMAN SLASHED TO DEATH

At about 8:30 o'clock Tuesday morning in Camp 4, Makaweli, a Filipino woman named Emilia Blancaflor was literally cut to pieces with a knife, said to have been in the hands of a man named Braulio Gomez, with whom she was living.

Gomez had been sick and was in a bad mood. It is claimed by the police that he accused the woman of neglecting him. Just before the tragedy the woman had taken a walk and, returning sat on the steps of the house. Gomez came out of the house with a huge knife. The woman realized her danger and ran away but was caught and slashed to death. Neighbors notified the police and arrest followed. Gomez has been charged with murder and the case will be taken up by the grand jury at its next session.

BATTALION DRILL AT KEALIA SUNDAY

The second battalion, Fourth Infantry, composed of Companies E and F, of Kealia, and G and H, of Homesteads and Eleele, under command of Major W. D. McBryde, had highly interesting drill and maneuvers on the flat near the Kapaa cannery Sunday afternoon, beginning at 2 o'clock. The Fourth Infantry band (Kapaa) was in attendance. Quite a large number of people, in autos and otherwise, from the neighborhood and from all parts of the island, lined the field. Many officers of other battalions were also in attendance, in uniform, adding to the martial aspect of the scene.

Colonel Broadbent was the reviewing officer, he being accompanied by members of his staff. There was first inspection, next review and then drill of the battalion as a whole under Lieutenant Horner. The program concluded with an exhibition drill by Captain Kopke's company, of Kealia, during which the movements included in the program for competitive drill on July Fourth were gone through with.

The battalion made a very fine showing, indicating hard work on the part of the officers and diligence on the part of the men.

The companies from Homesteads and Eleele were moved to and from Kealia in five big trucks.

TENNIS EVENING PLEASING AFFAIR

The tennis entertainment given last Friday evening at the Lihue Social hall was well attended by a very appreciative audience, among whom were a goodly number of people from other parts of the island.

Mrs. Lindemann opened the affair with a very entertaining feature, "Potpourri from Don Juan", followed by a farce entitled "Mr. Bob". Mrs. William Henry Rice sang "I hear a Thrush at Eve" most charmingly, and in concluding the program Mr. Danielson rendered the Aria from "L'arlesienne" in very pleasing manner.

Dancing followed, music of a high order being supplied by the Nawiliwili stringed orchestra.

TODAY'S AND LATEST NEWS BY WIRELESS

Sugar, 6.21.

Honolulu—Word from Tokio is to the effect that Art Smith, the American aviator, is now considered to be the greatest man in the world. The Japanese at first pelted him with stones, but now load him with medals. He will return home the most idolized man that ever visited the Mikado's realm.

Ewa Plantation Company has declared an extra dividend of two per cent, which will be paid in addition to the regular monthly dividend. The total to be paid out will be \$150,000.

Money Needed By City

The proposed bond issue is inadequate to road needs. The city engineer will present to the supervisors an estimate that far exceeds \$750,000. Water and sewer works require large amounts. The belt road proposition alone would take more than one million dollars to carry out.

Wilson Will Start The Muss

Washington—President Wilson will rebuke President Carranza, of Mexico, in a curt note. The ultimatum will be of such a character as to cause war or bring about an understanding and peace.

The Carranza note to Wilson is regarded as most insulting. In it Americans are blamed for the troubles and the motives of the United States in the punitive expeditions are questioned.

Mexicans Begin Trouble

San Diego—One Mexican State begins war and Yaquis are detained. Reports to Admiral Winslow indicate that there was an encounter on the coast in which one American was wounded and two taken prisoners.

Pershing Going Ahead

Despite Mexican threats, Pershing is going ahead.

Disposition Of National Guard

The National Guard will not be sent to the front except as they may be needed by General Funston. Guardsmen of every State are now mobilized and drilling for field work.

Guaymas—Posters are being put up in all Mexican cities calling the people to arms against the United States. Authorities are reported to have ordered the arrest and imprisonment of all Americans.

Refugees are trying to reach the U. S. cruisers Glacier and Cleveland. All foreigners are fleeing from the warlike conditions.

Carranza Soldiers Active

El Paso—Six thousand Carranza soldiers are reported to be between Nuevo Laredo and Lampa.

American Consul J. H. Johnson, of Matamoros, arrived at Brownsville yesterday.

President Working On Note

Washington—President Wilson is preparing his note to the de facto government of Mexico. War seems imminent and the President is moving with that eventuality in view. All demands and claims set forth in the note of Carranza will be ignored utterly.

FINE CONCERT BY KAMEHAMEHA BOYS

The concert and social held in the Lihue Social hall last Wednesday evening by the Lihue Hawaiian Sunday School turned out to be a grand re-union of all the Kamehameha students on Kauai.

The affair was held in honor of George Andrus, of the Kamehameha school faculty, who came here in the interest of the local Y. M. C. A. As a result of the school spirit awakened at this gathering the Kamehameha alumni are planning to make the occasion an annual affair.

The program was of an impromptu nature and for this reason seemed to be all the more enjoyed. Some of the old "Kam" boys saw their classmates for the first time since leaving school years ago. They all remembered the old school songs and delighted the audience with their singing.

The committee that worked up the concert was headed by A. G. Kaulukou, Mrs. Anna C. Wilcox, Hon. W. H. Rice, Mrs. W. H. Rice and Chas. F. Loomis were the other members.

The Kamehameha representatives present were: Messrs. Kakeleiki, Wm. Werner, Sam Amalu, J. L. Huddy, S. W. Meheula, Lono, J. Kealoha, Sam Kaahu, von Ekekele, A. Gandall, Ernest Fountain, Ernest L. Manase, Harry Oponui, John Makanani, Wm. Ellis, Jr., A. G. Kaulukou, Ed. Mitchell, William Wright, Wm. Waialeale, Luther Waiamau, Richard Oliver, Solomon Kaiawe, Andrew Richmond.

Enjoyable Card Party

Captain and Mrs. G. B. Leavitt, of Eleele, gave a most enjoyable progressive pedro party on Saturday evening, the tenth. When the playing was over, Mrs. Roendahl and Miss Resor held highest ladies' score, and in cutting for the prize, the former won a lovely framed picture. The consolation prize for the ladies was a silk tan and was given to Mrs. Morse.

Among the gentlemen, Mr. Roendahl moved right along and won first prize, a late book. Mr. Morse, Mr. Miller, and Mr. Pilkinton cut for consolation prize, a pretty shaving pad falling to Mr. Miller.

Those present were: Mr. and Mrs. H. H. Brodie, Mr. and Mrs. E. A. Creevey, Mr. and Mrs. Carl Roendahl, Mr. and Mrs. C. A. Alexander, Mr. and Mrs. J. I. Silva, Mr. and Mrs. E. B. Morse, Mrs. Wm. Hastie, Misses J. Hastie, E. Hastie, M. Resor, R. Johnson, G. Pillar, Messrs. Moler, Pillar, Robbins, Miller, Pilkinton, Eby, Dillingham, and Capt. Rind of the S. S. Hyades.

Mr. Lydgate Away

Mr. Lydgate left by the Kinau on Saturday to participate in the closing exercises of Punahou, and in the seventy-fifth anniversary of the college, in which he will represent the American Board, under whose auspices the institution was founded. Following this celebration he will go to Hilo to attend the annual convention of the churches, meeting there June 25. There will be no services in Lihue Union church until his return early in July.

Chamber Of Commerce

(Continued from page 1.)
committee appointed to secure a trophy for the National Guard competition on July Fourth, reported that the trophy would be on hand at the time.

A request of Alexander Hume Ford that Kauai furnish an exhibit for an exposition he is arranging on the second floor of the Castle & Cooke building in Honolulu as referred to the Exhibits Committee for such action as it might deem desirable.

The subject of a member of the Hawaii Promotion Committee, to take the place of Mr. Cyril O. Smith, whose term of office expires at the end of the current month, was taken up. The consensus of opinion seemed to be that while the services of Mr. Smith had been most excellent and satisfactory, better results might be obtained by having a resident of Kauai on the committee, even though he might not be able to attend all meetings. The members of the committee of the Board of Supervisors on the same subject were present in the room, and the chair appointed Messrs. Hans Isenberg, of Lihue, C. B. Hofgaard, of Waimea, and R. L. Hughes, of Elele, to meet them. The joint committee conferred and reported back the choice of Major Wm. Henry Rice.

Major Rice was elected by unanimous vote.

Mr. Lydgate explained an advertising plan of a Mr. Hodges, recently here as the representative of the Sunset Magazine, and Messrs. Broadbent, Hofgaard, Avery and others spoke in favor of the idea. Colonel Broadbent finally moved that the Chamber appropriate the sum of \$80 toward the special number of the magazine, members to send in lists of names of persons to whom they wished copies of the publication sent. This motion was seconded by Mr. Rohrig and carried.

Mr. Isenberg brought up the matter of the failure of the Department of Education to reappoint Mr. and Mrs. H. C. Brown to a school on Kauai, and characterized the move as most unusual. He paid a high tribute to the efficiency of the Browns, and declared that they had had no warning or notification that they would be dropped from the list of teachers. In his opinion the severest possible punishment had been dealt them and without any cause which had been sufficiently well explained. He had talked with a great many people about the matter and the unanimous opinion seemed to be that a great wrong had been done Mr. and Mrs. Brown.

Mr. Isenberg went on to say that the whole school system was faulty in that it gave too much power to the superintendent, and, moreover, permitted the employment in that important position of men who were not trained in educational work. It was an unworkable system. The superintendent of education should be a man graduated in the work and thoroughly up-to-date in all its

intricate details. It was a great mistake to have it otherwise. He thought the Chamber should ask the next Legislature to amend the law to conform to those ideas. The speaker had been a practical teacher for many years. He wanted to see more normal graduates in the schools. Again, he wanted to see more respect shown for teachers, as was not being done in the case of the Browns. Otherwise self-respecting teachers would be driven from the profession. He recommended that the Chamber appoint a committee to take the matter up with the next Legislature.

Judge Hofgaard said that he agreed in the main with the previous speaker but that he had no fault to find with the Department of Education or the superintendent. He did not think that the Chamber should take up the fight of the Browns at all. It was a matter entirely between the Browns and the Department.

Mr. J. K. Farley remarked that the Chamber took an interest in the matter of his reappointment to be tax assessor, and he appreciated the courtesy very much.

Colonel Broadbent thought it was entirely proper for the Chamber to deal with the matter. The scope of the Chamber was wide, taking in everything for the public welfare; and certainly the schools had a just claim for consideration. There were always objections to schemes, said the Colonel, the tendency of which was to take power away from Honolulu.

Major Rice moved that a committee of five be appointed to look thoroughly into the matter and report back to the Chamber with recommendations.

Colonel Broadbent amended to make the committee three members. The mover withdrew his former motion in favor of a committee of three, that committee to consist of the present educational committee of the Chamber.

Colonel Broadbent wanted to handle the question at once. There were members present, perhaps, who knew all the facts and it should be possible to settle the question without referring to a committee, which would probably mean a postponement to the next meeting of the Chamber, two months hence.

Mr. Wishard, to meet the point raised, moved that the committee report back as soon as ready to a special meeting of the Chamber which should be called for that purpose.

This motion carried, which referred the question to Messrs. T. Brandt, A. H. Waterhouse and K. Hofmann, members of the Educational Committee.

Mr. Isenberg brought up the matter again of a committee to go before the Legislature in the interest of a change in the department system.

Mr. Lydgate moved that the Legislative and Educational committees be appointed as such a committee. Carried.

Mr. F. C. Loomis was elected to membership.

CORRESPONDENCE

THE GARDEN ISLAND has received the following letter from E. A. Knudsen, commissioner of education for Kauai, together with a copy of a self-explanatory letter from one Yamamoto, with the request that the same be published:

Kekaha, Kauai, June 15th., 1916.
EDITOR GARDEN ISLAND:

In the Advertiser of June 6th. I see that a correspondent from Lihue makes the following statement:

"A committee called upon Commissioner Eric Knudsen but received little satisfaction."

Who the writer is I do not know, but whoever she may be, she has been badly informed, for I am sure the committee received a great deal of satisfaction.

The committee in the first place announced themselves as a committee representing the Mokihana Club—and told me that since the appointment of teachers had been published all the teachers on the island of Kauai were trembling in their shoes and that they particularly feared for — and they wished to be assured that the Department did not contemplate firing her as she was a great favorite in. — I assured them that as far as I knew the Department had no intention of "firing" her. Surely that was satisfactory.

They told me that it was the duty of a commissioner before any appointments were made to consult all the leading men of Lihue. I assured them that there were so many prominent men in Lihue that such a task would be difficult, but that I would try and do better in the future.

Also satisfactory, I should say. They demanded that the Browns should be reinstated somewhere immediately, basing their demand on the presumption that the Browns had never been "warned."

I assured them that the Browns had been amply warned, but that I would take the matter up again with the Department which I promptly did. Also satisfactory.

They accused the Department of acting in a ruthless way in transferring a young teacher named Yamamoto to Honolulu "much against his will", and that in consenting to his transfer I, as Commissioner of Kauai, had "had the wool pulled over my eyes."

As the ladies of the committee represent quite a number of people in Lihue, I ask you also to publish Mr. Yamamoto's letter, in the hands of the Department, which will show that the Department is not a juggernaut but is attempting to help and assist all young and able teachers and make their employment not only profitable but pleasant. It will also show the ladies of the committee that a vast amount of wool is be-

ATHLETES TO HAVE TRYOUT PROGRAM

Captain Morrow, regimental athletic officer, announces that after the battalion inspection and review in Lihue next Sunday afternoon, which starts at 1 o'clock, the athletes selected from the various battalions to compete on July Fourth will practice a part of the program set for that date. It is desired that men from each battalion be present, and Captain Morrow hopes that battalion and company commanders will assist to that end.

The following numbers of the official program will be gone over next Sunday:

2. Running race half mile.
4. Shotput 16 lbs.
5. 100 yds dash.
6. Running high jump.
7. Shoe race.
8. Carrying wounded without litter.
9. 220 yds. Race.
10. Running broad jump.
11. Rope climb.
12. Centipede race.
13. Baseball throw.
14. Relay race.
15. Sack race.
16. Tug of War.

Honolulu, T. H.

Dear Sir:

My intimate friend, Shinchi Ishii, told me last week that you had asked him to inquire of me whether I would accept a place in your school. I did not give him my decision just then because I had already sent in my application blank to the department with different plans for the future and for other reasons.

I have carefully gone over the matter and have decided to accept a position under your principal ship. I am eager to see your new shop just now. Please arrange the matter of my transfer with the department officials and I sincerely hope that I would be appointed.

No doubt there would be some talk about my leaving here especially on account of the shortage of assistant vocational instructors on this island.

Please inform me the character of the work you have planned for the shop next term.

I would very much like to hear more from you in regard to this matter and thanking you for the honor and opportunity conferred on me, I remain, I am,

Sincerely yours,
(Sgd.) CLIFTON H. YAMAMOTO.

KAUAI HORSE IS VICTOR IN FINALS

The race which was run over at Honolulu between Spalding's Skyscraper, of Kealia, and Dutch Parrot, Harry Baldwin's Maui horse, resulted in victory for the Kauai entry. The Honolulu Advertiser gives the following account of the deciding event:

A match race was run at Kapiolani Park yesterday morning, between Skyscraper and Dutch Parrot, at six furlongs.

Dutch Parrot won the fourth race on Monday, after Skyscraper had romped to the wire ahead of his field, in a false start.

A cup was dependent upon the race and Harry Baldwin very sportingly offered to race Jimmy Spalding again over the same distance, as there was some dissatisfaction over the start which his mare, Dutch Parrot, received in the actual race.

In the race yesterday Dutch Parrot and Skyscraper made a neck and neck race of it for the first half, when the Kauai gelding drew ahead to win by a matter of lengths.

Quite a crowd of members of the club and not a few of the hoi polloi went out to the track to see the race run.

Summary:
1. M. Spalding b g Skyscraper, a, 120 (J. Reis) 1
Col. H. A. Baldwin's br m Dutch Parrot, 4, 128 (Rollins) 2
Start, good Time, 1:19 2-5.
The horses raced neck and neck to the quarter pole, where Parrot faltered, and Skyscraper drew away, to win hollowly by eight lengths. Dutch Parrot pulled up lame.

First Sewing Machine

In an early number of the Friend, of May 1859, we find an interesting notice of the arrival of the earliest sewing machine on these Islands. The editor had made a careful, though somewhat skeptical study of the merits of the sewing machine from all available information, and had finally come to the conclusion to risk it, but that the best was the only kind that it was safe to order, since he was 18,000 miles away from any chance of repair.

The machine finally came, by way of the Horn, and proved to be a wonder of ingenuity and efficiency. With such ease and facility did it work that the editor declared that he could do the family sewing and write his editorials at the same time. Strange to say the machines were no more expensive then than they are now, \$100 for the best make, though no doubt they were much simpler than they are now, and \$100 meant a good deal more then than now.

VILLA BANDITS WHO RAIDED COLUMBUS, CAUGHT BY AMERICAN SOLDIERS (Passed by Censor).

Villa bandits, part of the band that attacked Columbus, who were caught in the mountains of Mexico by soldiers of the American forces, being guarded in the camp near Namiquipa. These sombered and blanketed Mexicans appear harmless and inoffensive seated as they are with their serapes gathered around them, but given a horse and rifle they change into blood-thirsty bandits bent on plunder and killing.

TUESDAY JUNE 20

The War With Mexico

War with Mexico, which Americans have had warmed over for breakfast every morning for ten or twelve years, seems at last to be a reality. It is next to impossible that a compromise can now be effected, for America has already stood the limit of insults from the brigand government and people of the southern republic; and no matter what Wilson may think or try to do it is doubtful that the people of the United States will stand for any further delay in clearing out the reign of anarchy along the border. The next move of an overt character on the part of Mexico will so stir the people of America that the government will find itself as powerless to hold back as did the peace-loving McKinley in 1898—even should it wish to do so.

That the United States will be able in time to establish peace in Mexico no one outside of Mexico itself, perhaps, doubts; but the war will be no such easy task as was met with in the case of Spain in 1898. The Mexicans are probably the hardest and most experienced bushwhackers on earth today, and that will doubtless be their method of warfare. In a conflict with them more Americans will bite the dust in a single battle than were killed in the entire war with Spain, and the total loss in men in the first few months of war will be such as to stir the nation to as great activity as followed the first battle of Bull Run, July 21, 1861. It is easily possible that an additional army of a half million men will have to be raised and sent into Mexico before the situation can be gotten in hand.

The direct effect of the war upon us here will doubtless be small, unless, indeed, some other country should act ugly as a result of it. It is quite probable that a portion, at least, of the regular army on Oahu will be ordered to Mexico and in that case portions, or maybe all, of the National Guard regiments in the outer islands may be taken to Schofield and Fort Shafter. That would hardly be done, however, unless danger from some other source than Mexico threatened.

The President's Peace Proposals

The recent utterances of President Wilson regarding peace in Europe and a combination of nations for the preservation of peace thereafter in the world resulted in scarcely any comment regarding the first section of the proposal but a very great deal, in magazines and newspapers throughout the United States, in respect to the second part of the suggestion. The reason for this may have been that the President outlined no plan for bringing about peace in Europe, and the country felt that there was little use in further discussing a task which seems so unpromising as yet.

In suggesting, however, the participation of America in a combination of nations to prevent war in the future the President proposed a radical and startling departure from the traditional policy of the United States. The admonition of George Washington to the nation whose independence he had done so much to establish was: "Avoid entangling alliances;" and that caution has been religiously borne in mind by our country ever since. Of course this would really be an alliance of a new kind—surely not of the sort in the mind of The Father Of His Country at the time of his famous utterance. But it would mean the end of American isolation and aloofness from the affairs of other nations. We would no longer attend to our own business alone, as we have done in the past, but the affairs of Europe, of Asia and of other continents would become our affairs, and we would be forced, whether we wished to or not, to take a hand therein.

The Monroe Doctrine, which America has maintained for nearly a hundred years, would become an absurdity, for surely the United States could not expect to maintain it and at the same time interfere in the squabbles and troubles and problems of Europe and Asia. It would be a case of one thing or the other right from the jump, and once such a combination were entered into the Monroe Doctrine would have to go.

We are quite aware that opinions on the mainland regarding this latter proposal of the President is divided, great Republican editors taking opposite views one from the other and Democratic papers likewise varying in their expressions. Our opinion is that the President has proposed something that the American people, when once they understand it thoroughly, will not endorse.

The Case Of The Browns

By stretching a point and assuming that the "Brown case" was of sufficient magnitude and importance to engage the time and attention of a staid and practical business body like the Chamber of Commerce, we would like to say that in referring the whole matter to a committee for full investigation and report the proper course was taken. There has been a great deal of talk about this case, and many contradictory reports have been flying around. The Chamber of Commerce has acted hastily on propositions before, and on at least one occasion in the past eighteen months erred on account of not being in possession of all the facts when motions or resolutions were adopted. Mistakes of that sort are costly, for the reason that they lessen confidence in the clear judgment and wisdom of the Chamber, and militate against its power and usefulness; and we feel quite pleased that the pace for a new and sounder policy has been set.

In pursuing its investigations we would like to say that the place for the committee's work is at Honolulu. As we understand the matter, what is wanted is the reason [or reasons, as the case may be] for the elimination by the Department of Education of the Browns from the list of school teachers of this island. Some of the facts may be in the possession of persons here, but dribbles will not satisfy. Let the committee go to the fountain head. The facts are presumably all there, and it is reasonable to suppose that the Department would supply a duly qualified committee, such as the one that has been appointed, with all the information it may require. Entirely too much personal feeling over this matter has been developed and shown to leave much room for hope that anything like correct conclusions are possible from a purely local investigation, and now that the Chamber has gone so far as to take the subject up, let us have the basic facts.

Our School System

Criticism of the administrative part of the educational system of Hawaii will come as a severe jolt to our lawmakers and to a great many other people who for years have held quite the opposite opinion. Comparisons with other States show that, for ten or fifteen years at least, Hawaii has had nothing to say in the matter of results from her schools. Surely the general system has been a good one or the results which are to be noted at every hand would have been impossible.

Before the present system was put into effect practically all of the business of the department was conducted from Honolulu. The outer islands had nothing to say in regard to their schools. Since then each island has been given a commissioner whose duty it is to represent the schools of his island in the department. A travelling inspector, representing the department direct, visits the schools of the outer districts much as was required of the superintendent years ago; while the superintendent also duplicates the tours of the superintendents of those former times. In addition to all this, each island has a supervising principal, the duties of whom are well understood.

Taking it all in all, the system seems to be a very good one. Objection to an official, or officials, having its administration in charge should not be levelled at the system itself, unless, indeed, that system is directly and absolutely responsible for incompetents in office

which has not been shown. Criticism of the judgment of the appointing power might be in order, but that opens into a wider range of the subject.

However, we want the best, whatever it is; and if the committee of the Chamber of Commerce appointed to interview the next Legislature on the subject succeeds in bringing forth a better system than we now have their services will undoubtedly be appreciated throughout the Islands.

Filipinoes And The N. G. H.

Sheriff Rice States to THE GARDEN ISLAND that no member of the National Guard was directly or indirectly involved in the Filipino homicides which jarred this community a few days ago. He states further that, on the other hand, Filipino members of the Guard were the first to step forward and volunteer assistance to the police department in bringing the accused men within reach of the law, and that their services in working up evidence has been most valuable.

These statements are interesting, for they bear out information obtained by this paper sometime ago to the effect that the National Guard had done much to bring out the better points of Filipino character. Joining the Guard seems to have definitely aligned the Filipinos in the plantations on the side of law and order, and when once in the companies they not only behave themselves but encourage others to do so.

We do not know what observations, if any, have been made on the other islands along this line, nor have we any positive assurance that the good influence of the Guard on the habits of the Filipino will continue; but certainly an excellent start seems to have been made.

The Warrior Candidate

Our likes, dislikes and opinions in these Islands regarding the presidential election cut about as much ice as the views of a salamander on the European war, for which reason we seldom bore our readers with them. The Mexican crisis, however, constrains us to refer to the position of Mr. Roosevelt as rather unique just now. Should war come (which is now next to a certainty) the United States would almost without doubt lose a lot of men at the start. The American people would be immensely wrought up over it. And who would get the blame? Wilson, of course.

Mr. Hughes is not a fighting man. He is of a judicial turn of mind, much as was Taft and, if you please, as is Wilson.

Roosevelt, on the other hand, has the reputation of being a soldier and a fighter. See the point?

THE COMMISSION appointed to draft a constitution and laws to make of the Civic Convention a permanent institution has adopted a plan which will meet the situation admirably. It is a combination of the ideas of Messrs. E. N. Deyo, of Hilo, and Raymond C. Brown, of Honolulu, to whom quite all the credit for the hard work is due. While the plan is all right, the question still lingers as to whether or not the Civic Convention should be formally organized and ribbed about with hard and fast laws. Undoubtedly a number of delegates to the forthcoming convention in Hilo will oppose the whole scheme, and will argue that much of the success of the affair in the past has been due to its spontaneous and unbridled character; although it must be admitted that that condition of things cannot go on indefinitely. We confess that we are still *kanalua* on the proposition, although perfectly satisfied with the constitution and laws prepared by the commission, if permanent organization is to be finally decided upon.

KAUAI SCORED BIG when the Board of Supervisors and Chamber of Commerce obtained the consent of Major Wm. Henry Rice to serve as the member of the Hawaii Promotion Committee from this island. Major Rice is far and away the best available man the island could possibly have in the committee, and the only reason he was not sought out before was the supposition that, owing to quite heavy official and private business responsibilities, he would not have the time to spare for this important public duty. Kauai has had excellent service from the two predecessors of Major Rice, but they have both labored under the disadvantage of not being residents of the island and as a consequence not able to be at all times in close touch with its ideas and wishes.

AN INVESTIGATION made by officials of California into the farming prospects in that state to which Portuguese of these Islands have been recently sent by a Honolulu agent has resulted in an official report which shows that the land offered the prospective settlers is of little or no value for agricultural or kindred purposes. In the opinion of the California officials the whole scheme was to get the Portuguese into the district, where they would be stranded and would be forced to work as laborers in neighboring sections of California for established plantations. In the light of this information it is gratifying that not very many Kauai Portuguese accepted the bait offered them sometime ago.

TEN CASES of typhoid fever in the same locality near Nawiliwili in the course of a few months indicates an established source of infection in that immediate vicinity. If efforts were made upon the discovery of the first two cases to eradicate the cause, it is plain that those efforts were not successful; and very energetic measures are now called for. It is reasonable to suppose that the infected area is now greatly enlarged and a general clean-up of the district may be necessary. Typhoid has never proved a serious matter on Kauai in the past, but it is one of those diseases that must be stamped out before it has time to get a fair start.

THE RETIREMENT of Captain Richard N. Oliver from the management of the Waimea hotel, after seven years of conspicuous service there, is a matter of general concern and regret. Much of the success of the Waimea hotel has been due to the personal activities of the manager and his popularity with the travelling public. Not only the Waimea section but the entire island will wish for Captain Oliver even greater success in the automobile business which he will take up at the first of the coming month.

THE SPECTACLE of more than a hundred thousand National Guardsmen responding immediately to the President's call to arms must have been a great surprise to Dictator Carranza, of Mexico, who had been led to suppose that the United States had no army to speak of. The latest official reports show that Mexico has only 86,000 men equipped and ready for service, and these are scattered. America's first card on the table is probably a rather startling trump below the Rio Grande.

CITIZENS ARE themselves responsible for bad governmental systems and laws. The remedy is at the polls. We have primaries soon and voters with ideas for the betterment of conditions should have an understanding with candidates before they are balloted for. The practice of neglecting the primaries and complaining afterward is not a good one.

THE MAN RESPONSIBLE for the old roof on the county building sends word that there was nothing the matter with it. We are quite ready to admit that there was nothing the matter with it except that it leaked, and some of the people having offices on the second floor were mean enough to object to being washed out once in a while.

THE AMATEUR THEATRICALS and kindred entertainments which Lihue has recently been enjoying from an interesting and happy departure. The change from the regular order of things has been healthful, and we are hopeful of another season of the same when the Summer vacation is over.

CLEAN UP the infected district near Nawiliwili. If the health authorities require men or money, either or both should be speedily forthcoming. Typhoid fever, which is very nearly epidemic, can be stamped out there only by removing the cause.

THE SECOND BATTALION of the Fourth Infantry made a fine showing at Kapaa Sunday, and Major McBryde has every reason to feel satisfied with the work of his companies after so few months of training.

A MAJORITY of the homicide and murderous assault cases we have had among Filipino laborers lately were probably taken into the camps in jugs.

Galveston—The government of the Mexican State of Yucatan has issued a proclamation ordering all Americans out of the country and declaring that a state of war exists between the United States and Mexico, this according to passengers who arrived here today from the port of Progreso. Americans and other foreigners are going aboard an American gunboat lying in the port of Progreso and there is great excitement there.

100,000 Guardsmen Respond

Washington—One hundred thousand National Guardsmen at the least are mobilizing today in the face of the gravest national call for duty since the Spanish-American war.

President Wilson's call yesterday to the militia of every State for border service put into full swing the mobilization of Guardsmen in forty-five States. The call for three others (Arizona, New Mexico and Texas) was issued a number of weeks ago, after the Columbus raid, and those troops are now on the border.

Lansing Too Busy To Talk

An official of the Mexican Embassy left a communication at the State Department today for Secretary Lansing. The contents of the note have not been divulged.

Dr. Elihu Arredondo, the Mexican Ambassador, made a request at the Department for a conference with Secretary Lansing but to the request Lansing replied that he was too busy.

CRISCO

For Frying—For Shortening
—For Cake Making

Frying

There is no smoke nor odor. Fried foods are free from the taste of grease. They now are tasty and crisp. They are made more digestible, for Crisco is all vegetable. The same Crisco can be used to fry fish, onions, doughnuts, etc., merely by straining out the food particles after each frying.

Shortening

Crisco gives pastry a new flakiness and digestibility. Crisco always is of the same freshness and consistency. It's uniform quality makes for uniform results.

Cake Making

Crisco gives richness at smaller cost. It brings cake-making back to popularity. Butter bills are reduced and cakes stay fresh and moist longer.

Has a very Creamy Lather as a result of scientific Soap-making. Does not waste.

MODES OF TRAVEL

The following record of tonnage of the Missionary vessels of bygone days may surprise our readers in these days of mammoth ocean liners and palatial accommodations.

The "Thaddens," which

brought out the first Missionaries round the Horn, was a Brig of 242 tons, and she carried 45 people. The first "Morning Star" was a little thing of only 39 tons, about the size of an ordinary fishing sampan, and was brought round the Horn by Capt. Hunnewell, the founder of the firm of Brewer and Co. Even this experienced navigator was hesitant about making so hazardous a trip in so tiny a vessel. She carried a crew all told of only five men.

The second "Morning Star" was 156 tons, and the third 207 tons; not much more than half the size of the "James Makee."

The famous "Mayflower" was only 180 tons and she carried 100 passengers.

WAR WITH MEXICO BEGINS

Washington—The President yesterday ordered the entire National Guard of the United States to the Mexican border to relieve the regulars so that the latter may proceed to attack in Mexico.

Mexico has begun war without declaring war.

Brigadier-General Pershing, commanding the American forces in Mexico, sent to pursue Villa, was heard from last night after the President had called out the National Guard. The General says that conditions are very tense but that he is prepared for eventualities.

As a matter of fact, however, Pershing's situation is very serious. He is many miles in Mexico with a force of less than 5,000 men, while the Mexican general in position to attack him has an army of between 50,000 and 60,000.

While a state of war exists on the part of the Carranzaistas, President Wilson states that the United States government has no intentions in the present drastic move but to protect Americans and chase bandits away from the border.

The government of Mexico has taken the action of Wilson as a declaration of war, and a state of actual war exists along the Rio Grande section of the border without war having actually been declared.

Mexicans are committing hostile acts all along the border and preparations for war are to be noted everywhere.

National Guardsmen will relieve regulars on the border as rapidly as possible. California's guardsmen will be among the first to the front. Word was wired to the war department that California would have 4,000 men entrained for the border in forty-eight hours.

Officials in Washington are of the opinion that Carranza is deliberately trying to provoke war.

Pershing's force is outnumbered ten to one.

Along Arizona Border

Tucson, Arizona—A Southern Pacific railway branch in Mexico is seized by Mexican-Americans flee from the interior of Mexico while the "greasers" arm for conflict. Telegraph and telephone systems cut. American refugees from Mexico state that the Mexicans have already begun the war. Anti-American demonstrations are occurring everywhere.

At The Texas Line

El Paso—Five thousand American troops are held at Douglas, awaiting orders. Active preparations for war are going on on both sides of the border.

The Mexican branch of the Southern Pacific railway has been seized by the Mexicans.

Lower California Deserting

San Diego—News received from the territory of Lower California, a part of Mexico, indicates that she is deserting Mexico. The governor is reported as saying that his State would remain neutral.

The News At Honolulu

Honolulu—The army on Oahu and Hawaii National Guard learned yesterday of the situation on the Mexican border. It is thought that the United States regular forces here will remain. Governor Pinkham does not think that the Hawaiian regiments of National Guard are included in the President's order calling the militia to the border.

In Eastern Europe

Vienna—Austro-Hungary makes the official announcement that Czernowitz has fallen before the Russian advance, and also of the general retreat of the forces of Franz Joseph.

The Slavs are striking hard at the Carpathians. Teutonic reports are to the effect that the legions of the Czar are reversed northward of Bukovina, but this is acouted by Allies.

William Savidge Dead

Honolulu—William Savidge dies at Leahi home after a long illness. Word from San Francisco states that Judge Stuart is hot after the seat of Governor Pinkham. In a coast paper he assails the land policy of the Governor.

Sunday, June 18

Honolulu—The Ad Club has requested and received from the Mayor a detailed statement of the condition of the city's finances.

Mayor Lane proposes to celebrate Kalakaua Day in November. He says that Kalakaua did more to advertise the Islands than any other monarch, and puts the matter up to the merchants.

Mexican War Practically Certain

Washington—The government expects war with Mexico. The immediate recall of troops engaged in chasing raiders of American soil is the only assurance of peace, and as that is impossible war is believed to be a matter of only a few hours.

Fighting Already Started

Four hundred troopers under Major Edward Anderson, of the Third Cavalry, have crossed the border into Mexico twelve miles north of Matamoras and engaged in battle with a large force of Mexicans, proving to be troopers of Carranza.

Washington is thoroughly alive to the situation. No one is inclined to make light of it.

It is believed today that the National Guard of the country may be mobilized and used as border guards, leaving the regulars for actual field work.

General Funston hears of attacks on American troops and thinks the situation bad. Transportation facilities complicate matters.

The international bridge at El Paso has been blocked on the Mexican side, ostensibly to keep American troops from crossing over.

Pershing Hurls Defiance

Defiance is hurled at the Mexicans. General Pershing has notified General Funston that after Carranza officials notified him that American troops should be withdrawn he answered that as American commander he could not recognize the authority of the Mexican government as to movements of American troops.

The recalling of American consuls from various Mexican posts indicates a crisis.

Great anti-American demonstrations are taking place in Mexico.

Germans To The Rescue

London—Austria calls for assistance and Germany is sending troops. The Bulgars are also reported to be despatching two divisions to help hold the Slavs back in Bukovina. Two full Teutonic army corps are on their way to Galicia.

The Slavs are reported to be continuing their advance westward, despite all efforts of the opposing forces. Lemberg is now threatened.

Few Germans Aid Turkey

Constantinople—Few Germans are aiding the Ottomans in the war against the Allies. Less than 2300 officers and men of Teutonic origin are now wearing the Turkish uniform, and these were merely loaned by the Kaiser to assist in the defense of Constantinople. The Austrians have sent help in the shape of batteries of heavy guns with their full complement of officers and gunners.

New Harbor For Seattle

Seattle—Lake Washington canal is nearly finished. It will give to this city a fine fresh water harbor.

Mrs. Astor To Marry

Brooklyn—Mrs. Madeline Force Astor, widow of the late John Jacob Astor will be married on Monday to William Dick, a sugar refiner. By marrying the second time Mrs. Astor gives up a five million dollar income bequeathed to her by her late husband. This money will revert to Vincent Astor.

Saturday Afternoon

Petrograd—The Russians are continuing to move forward on the eastern front, north of Czernowitz. They have forced back the Austrians on the boundary between Galicia and Russian Poland and have occupied Radzilova, only sixty miles northeast of Lemberg which they abandoned when forced back by the great Teuton offensive some months ago.

What The Germans Say

Berlin—Along Stockhold and Styr rivers sectors the Russians are battling with forces under General von Linsingen. North of Przylowska General von Bothmer and his men are fighting hard with the Slavs. South of the Dreister river Austro-Hungarian troops defeated the Russian cavalry and checked their advance.

Other battles have started along the entire Volhynia front.

On The West Front

Paris—On the west front today the Germans hurled hand grenades at French positions on Avocourt front. In the region of Dead Man's Hill the bombardment rose to an intense pitch.

In the Vosges, east of Thann, the French have penetrated the first and second German lines and captured prisoners.

British Destroyer Sunk

London—The British destroyer Eden has been sunk in collision in the English channel.

Italians Take Positions

Rome—The Italians on the Isonzo front have captured Austrian positions at Malgorsetta and Monte Magari, taking 203 prisoners.

Carranza Wants War

El Paso—President Carranza, of Mexico, has thrown down the gauntlet to the United States.

This afternoon the situation is one which threatens war and it may come at any moment. The warning from General Trevino, the Carranza commander of armies in northern Mexico, to General Pershing that any move of United States troops except toward the border would be the signal for hostilities, has brought the situation sharply to a crisis.

Consuls Are Ordered Home

San Antonio—U. S. consuls in some of the Mexican cities have been ordered back to the States because of the situation. This developed today when with the arrival of Consul Hanna at Laredo, Texas. He came from Monterey and it is learned that Secretary Lansing ordered him and Consul Silliman, of Saltillo, to the American side.

No word has been received from General Pershing, who is at U. S. army headquarters in the field at Colonia Aublan. General Funston, however, has confirmed the fact that General Trevino sent the reported warning to General Pershing. Officials here are of the opinion that if Trevino actually served such a warning it was for home purposes.

German Vessels Sunk

Copenhagen—Two German steamers have been sunk in the Baltic by torpedoes. Fishermen saw them sink.

Dr. Scudder May Leave

Honolulu—Dr. Scudder may leave Central Union church to take the pulpit of the Tokio Union church. Correspondence is being had with the pastor and he is considering the matter.

Saturday, June 17

Sugar, 6.21.

Honolulu—Despite the efforts of the city fathers, a deficit faces the county, and the budget committee can find no way to make finances balance. There is talk of cutting road work and salaries of employees, but it is said that even that will not prevent a shortage.

The naval pay office will be moved to Pearl Harbor and on July first the naval wireless station will follow it. These facts came out when the Chamber of Commerce made inquiry of Admiral Boush. Information has been received from Washington that bills affecting Hawaii are being passed along by the House as fast as they can be read. Hawaiian Electric, Honolulu Gas, Public Utilities and other bills from the Islands have slipped right through without opposition from any quarter.

Democrats And Suffrage

St. Louis—The Democrats, in national convention, are working on their platform and the question of woman's suffrage has caused the first row. The first straight vote resulted in 181 1-2 votes against the plank and 888 1-2 for it. Those favoring the measure feel that it is important to the success of the party.

The Philippine policy of scuttle and a greater army and greater navy are approved.

Looks Like Mexican War

Washington—President Carranza, of Mexico, makes threat of war. General Pershing has been warned not to send out his troops in any direction in Mexico except toward the border, and in delivering this message General Trevino, of the Mexican forces, stated that any violation of these terms would be regarded as an unfriendly act, and would be the signal for war. The threat is confirmed at Washington, but it is not believed that it will affect the course of the administration on the Mexican crisis.

From The Battle Fronts

London—The Russian stern roller goes steadily on, despite opposition of Teuton foes. Fresh reports from Petrograd add to the volume of booty and numbers of prisoners taken in great westward drive.

Berlin and Vienna still claim that the slav drive has been checked. Paris officially reiterates report of successful attack on German trenches at bloody Le Mort Homme hill.

Robert Fay Sentenced

New York—Robert Fay, former lieutenant in the German army, charged with conspiracy to violate American neutrality, convicted and sentenced to serve eight years in Federal prison—has written a letter to President Wilson, asking to be deported to Germany. He says that if his life is to be wasted, he might as well waste it in his own country.

Major Gray Crosses Border

San Antonio, Texas—Major Gray led a small detachment of the 13th cavalry across the Mexican border yesterday in pursuit of bandits.

Aviator Smith Injured

Tokio—Art. Smith, the famous American aviator, was injured yesterday in a fall of five hundred feet. He may never recover the use of his right leg.

Friday Afternoon

St. Louis—More home rule for Hawaii and other territorial parts of the United States is demanded in the platform presented to the Democratic national convention today. The platform will probably be voted upon this afternoon.

Wilson's policy in the Philippines and Mexico is supported. The President is eulogized as the greatest American of his generation, and legislation enacted at his behest is upheld. Freedom of the seas by an international combination is urged.

Fight Among Laborers

San Francisco—A big fight on the Oakland waterfront this morning between union and non-union stevedores.

Shipowners claim that the demands of the strikers are unfair and a breach of faith. The side of employers is strongly set forth in a letter from President Cook. Teamsters are hauling freight handled by "scabs". The United States may bring about a settlement.

Austrians Destroy Property

Petrograd—Before abandoning Czernowitz, the Austrian stronghold, the Teutons sent their rolling stock to Liskani and destroyed all railroad tracks about the city.

The Russians, continuing their advance, have taken 100 more officers and 14,000 additional soldiers, and are driving steadily ahead.

French Gain And Lose

Berlin—Two French attacks today on the southern slope of Dead Man's Hill were unsuccessful. At first the French gained but later a counter attack drove them back.

Other Battles Reported

Paris—German attacks were made in force today southeast of Thiaumont farm, but were broken down. An attack was made on the right bank of the Meuse to hill 320, south of Caillette, but was repulsed, the Germans retiring, leaving piles of corpses.

Wudan Goes Home

Honolulu—General Wudan, leader of the Chinese nationalist party, leaves today for home and will probably take an important part in the new government of China. He suggests that Honolulu take the place of The Hague as the center for peace conferences, and points out advantages this city would have over the present meeting place.

Mrs. Olsen Dead

Mrs. Olsen, widow of the late Rev. W. B. Olsen, died at White Plains, N. Y., on June 3.

Copies of five Hawaii bills as finally passed by Congress arrived today.

The Rapid Transit Case

Argument in the Rapid Transit case will begin Monday and a final decision by the Supreme Court is expected in a few days.

Friday, June 16

Sugar, 6.05.

Honolulu—The museum to be constructed at Kilauea volcano to house volcanic specimens and data will be of reinforced concrete and will cost about \$18,000.

It Is Wilson And Marshall

St. Louis—Woodrow Wilson and Marshall are again the standard bearers of the Democratic party. One vote only was necessary to put through the cut-and-dried program of the party leaders, although delegates and spectators made quite a demonstration when the nominations were made.

Bryan Makes A Speech

When called to the platform Wm. Jennings Bryan received an ovation. He urged upon the Bourbons to forget past differences, and made a plea for victory.

Wilson Is "Glad"

Washington—When Secretary Tumulty carried to the President the news of his renomination at 1 o'clock this morning Mr. Wilson said: "I am very glad".

"THE IMMIGRANT" NEXT ATTRACTION

W. Fernandez has secured the above named film for his next programs on Kauai, places and dates being given in another column. Of this picture a Honolulu paper recently said:

"Some actress," appeared to be the consensus of opinion of the crowd which packed the Liberty theater to the doors last night to witness the Honolulu premier of Valeska Suratt, one of America's leading actresses, in "The Immigrant," a story which brings the old world to the new and fights out a battle of one of the daughters of far-away Russia, who adopts as her home "the land of the free"

And the opinion formed by the audience will not admit of contradiction. Valeska Suratt has maintained a position at the head of the profession for a number of years and her advent into the silent drama is a red-letter mark for the "new art." It is gradually calling all of them and it is probable that many others will follow in the footsteps of Suratt.

"The Immigrant" comes from the Jesse L. Lasky studio and the cast includes several old favorites. They are: Thomas Meighan, Theodore Robert, Jane Wolff, Hal Clements, Ernest Joy, Bob Fleming and Mrs. McCord.

Valeska Suratt appears in the title role Theodore Roberts as the grafter and Meighan as the second cabin passenger. The plot is cleverly worked out and ends in the complete rout of the grafter, after he has tried to wreck the life and blast the prospects of the younger man. Through the kindly offices of The Immigrant the latter scores a victory in business and in love.
