PROTECT THE SEALS.

Bill Now Before Congress Designed to That Effect.

WASHINGTON, December 8 .- The Senate Committee on Foreign Relations today authorized a favorable report upon a bill prohibiting pelagic sealing by the people of the United States. The bill is a joint production of the State and the Treasury Departments, and its passage is asked upon the ground that with such a law upon of the Government and the Planters' the statute books, the Administration will be in better position than at present to ask that other governments prohibit pelegic sealing. The bill received the affirmative votes of all the committee of the Planters' organiza- Senators present, but its provisions highest esteem as typical publicist on practically uninhabited. Quebec was the canal a total of \$275,000,000. A were discussed at considerable length.

The bill was reported to the Senate with the Cabinet. President Dole has later in the day. The first section of it and fidelity of such men as Senators taken a sharp personal interest in the is as follows: "That no citizen of the Foraker and Davis that the backbone matter. Messrs. Hackfeld and Giffard United States and no person owing have devoted much time to the study duty or obedience to the laws and treaof forestry conditions and needs ties of the United States, nor any person belonging to or on board a vessel It is due to Doctor Walter Maxwell of the United States shall kill, capture to say that he is the father of this or hunt at any time or in any manner movement that promises to be so far whatever any fur seal in the waters of reaching and beneficial and that places the Pacific ocean north of the 35th de-Hawaii in equal rank with much older gree of north latitude, and including

> AFTER THE CANAL. Whispered That England Has a Wish For It.

> WASHINGTON, December 3 .- Con-

nama on the Pacific, 54 miles. All conservative estimate is that the canal is about one-third finished, but with the new machinery on hand it is said the remainder of the work can be completed for \$150,000,000.

The report is that a force adequate to finish the project in from seven to 10 years will be put to work. During the next 60 days a committee is to investigate the progress of affairs, and an effort will be made to get more money to continue operations. The canal is practically completed from Colon to Bajeo, 14 miles, but this is the least expensive part. The great difficulty is in passing the Calebria ridge. The width of the canal will be 160 feet at the top and 72 feet at the bottom, except through the ridge, where it will be 78 feet wide at the top and 29 feet at the bottom.

# **FAMOUS TEACHERS**

Col. Francis W. Parker and Wife for Summer School.

### AT THE HEAD OF THE LIST

Principal of Chicago Normal School. A Writer and Trainer of Wide Repute-Mrs. Parker

During the 1898 term of the Summer School here, the teachers of the Islands will have the fine privilege of insuruction by Col. Francis W. Parker and Mrs. Frances Stuart Parker.

This arrangement has been made by Inspector General Townsend. There is Mrs. Parkerrefused between a score and half a hundred other offers. Their desire to visit the country, coupled with the insistence of Mr. Townsend won Pythias' hall. It was a so-called the day for the teachers of the Repub- "Poverty Party." The judges declared the day for the teachers of the Repub-

Colonel Parker has been in education work since a very young man, exceptime for the time he was in the Civil ner. Dancing followed.

In 1872, Colonel Parker entered King William's University at Berlin, where he spent two and one-half years in the study of Psychology, Philosophy, History and Pedagogics. Under a private teacher he took a two years' course in the Hegelian philosophy. During his sucutions he traveled over the continent, visiting schools and studying the art, geography and history of the various nations visited. He returned to America in 1875.

He was elected Superintendent of Schools of Quincy, Massachusetts, and began his work April 20th, 1875. Colonel Parker was exceedingly fortunate to his position in Quincy, the town had never before had a susprintendent of schools, but had one of the best and strongest of school boards that was ever elected. John Quincy Adams, Charles Francis Adams, and James H Sinds were the principal members They put the school and teachers entirely under Colonel Parker's direction and supported him in a very hearty

and earnest way.

In entering upon his work in Quincy, Colonel Parker had no notion of making any particular changes or of opposing in any way the general work then done in the New England States He simply tried to apply well-known principles and to train his teachers. The result is well known; during the period of three years of 187-9-80, over Down visitors inspected the schools of invitation and an inducement for a Quincy. Charles Francis Adams wrote visit to the Islands by R. E. Furnow two pamphlets in regard to the work Chief of the Division of Forestry of the seried that he was introducing nothing ture. Messrs, W. M. Giffard and Docwas simply appliying carrying out, the tor Maxwell, who with J. F. Hackof the past.-Comenius Pestalozzi and commission on forestry, had been in Frochel. Macfarlane was born in Hawaii and has been in the commercial world here since he was but a lad. He is connected with the Hawaiian hotel, Macfarlane & Company, and the Union Feed Company. E. D. Tenney is an officer of Castle & Cooke and Ewa plantation, and one of the live young business men of the country. Henry Waterhouse is the head of the Waterhouse Investment Company and has large plantation, land and other business interests in Hawaii. He was brought

P. C. JONES.

here by his father when yet an infant. T. May is at the head of the old grocery house of T. May & Comany, and is a wealthy kamaaina. C. Bosse is connected with the big importing and shipping house of Hackfeld & Company.

This bank will be the only corporation in that line of business here. It is chartered under a special act of the Legislature. This law differs very much from the ordinary corporation enactment. Its requirements are numerous and comprehensive. It was necessary to complete the organization of the company before the charter was solicited from the Government. Then there was careful search to satisfy all that every requirement of the details of the law had been followed. There are a number yet to be observed. These include the counting of the money by the Minister of the Interior. Captain King will find quite a little job for himself some morning in the near future. The capital stock of the Bank of Hawaii, Limited, is \$400,000 of which 300,000 is to be paid in at once.

P. C. Jones is father of the plan for another bank for the city and has been giving the project much attention for a number of months. It was necessary for him to make one trip to the Coast. This resulted in establishing correspondence relations with Wells Fargo.

Not the Queen.

Although the P. M. S. S. China made a very quick trip across from Yokohama, she has by no means made the best record when it is a mere matter of speed, on the Pacific ocean. On July 1, 1897, the Empress of Japan made 441 knots on the trip from Vancouver to Yokohama, and the whole voyage was made in 10 days, 3 hours and 39 minutes. The average throughout the trip HOLLISTER DRUG COMPANY was 17.57 knots, this after six years'

The fastest day on the last trip of the China to this port was 427

At H. I. J. M.'s Legation

Mr. Shimamura, the Japanese Minister was affable as usual Friday, when an Advertiser representative calied at the Legation on Nuuanu avenue and Kaukini road. The diplomat had received a very bulky package of dispatches from Tokio. Much of the correspondence related to the "affair" pending between this Government and Japan. Mr. Shimamura said his advices were lengthy and that it would be a matter of two weeks before he would have ready a communication for the Foreign Office here.

# KAUAI

Road Accident to a Business Man of Honolulu.

Japanese Engage in a Stabbing Affray-Trip of the S. S. Hall. Rough Channel Weather.

(Special Correspondence).

On Monday, Mr. von Hamm of Honolulu, who is on business bent here, was thrown to the ground and severely bruised, while driving from Koloa to Libue. He had a span of horses and, the animals becoming frightened, ran away. Mr. von Hamm was unable to manage them and the carriage, striking a hillock, was capsized, throwing

A shocking tragedy took place at Anaholo on Thursday morning and once more Japanese were concerned. Nakamoto stabbed his mistress in 12 different places. His rival then stepped in and stabbed Nakamoto through the left lung just above the heart as well as in other places. To complete the job he tried to cut his own throat but failed, people arriving on the spot before he could make much progress.

Jealously is said to be the cause of the whole affair. The woman will recover, but it is feared that Nakamoto will die. The rival was found late Friday afternoon, he having made his escape in the excitement.

Nakamoto had been employed as a private detective on the Police force. Following is the report of the W. G. Hall which arrived from Kauai ports on Saturday morning: 16,000 bags of sugar left on Kauai, Steamer Ke Au Hou at Hanalei with 400 bags of paddy as well as all the Kalikiwai freight left aboard. Steamer James Makee also at Hanalei with about 240 bags of Kilauea sugar on board. Steamer Mikahala has about 2,400 bags of Koloa plantation sugar. At 4:45 p. m. Saturday, the Mikahala was loading sugar at Ahukini. She reports rough weather, 400 bags of sugar on board and taking only 20 bags in each boat. Liable to stop work at any moment. A heavy N. E. swell was running along the coast of Kauai. Rough weather at Kilauea, Kalihiwai, Hanamaulu and Nawiliwili. Crossing the channel had E. N. E. winds. Hanamaulu mill will start grinding soon after Christmas.

Frank Davey made the photo of the Bishop Memorial Chapel from which the Advertiser's illustration is copied

# Ayer's Sarsaparilla.

. . .

Cleanse your blood with Ayer's Sarsaparilla-the most thoroughly reliable alterative ever compounded. For scrofula, boils, ulcers, sores, carbuncles, pimples, blotches, and all disorders originating in vitiated blood, this medicine is a specific. Ayer's Sarsaparilla is equally beneficial as a remedy for catarrh, rheumatism, and rheumatic gout. As a Tonic, it assists the process of digestion, stimulates the sluggish liver, strengthens the nerves, and builds up the body when debilitated by excessive fatigue or wasting illness. Physicians everywhere consider Ayer's Sarsaparilla the best. It is a skilfully-prepared combination of the most powerful alteratives and tonics. No other blood-purifier gives equal satisfaction or is so universally

## POLYNESIAN NAVIGATION.

Mr. S. Percy Smith in his several very interesting addresses on the origin and migration of the Polynesian races, insists that the inhabitants of islands lying some thousands of miles apart, frequently visited each other in canoes. The question arises at once, how did these early navigators lay and keep their courses, without the compass? What did they have? If they steered by the stars, how

ment for navigation was used, why have the people of every one f these Islands lost all memory or suggestion of it? Such an instrument would be far in advance of the tools in common use. The fact that all of these disconnected communities, have no remembrance

Assuming that our argument is correct, the "drift"theory alone as failure in the banana crop. accounts for the spread of the Polynesian race. The present genthem, floating on these Islands.

suggests that the early Polynesians had the wonderful instinct of 'orientattion;" that they reached these Islands just as the plovers from Alaska find them. Assumng this to be correct, a very disressing problem is at once solved.

### THE JAPANESE MATTER.

When President McKinley says in his message that: "the questions which have arisen between Japan and Hawaii by reason of the treatment of Japanese laborers emigrating to the Islands under the Hawaiian - Japanese convention of 1888, are in a satisfactory stage of settlement by negotiation," he makes a curious error. All of the correspondence between the Governments of Hawaii and Japan, makes little reference to the Conconvention regulated immigration to these Islands, and provided that seen is never to be forgotten. the planters "went behind" the Convention and secured laborers in another way, and the Japanese emigration companies also "went most excellent flavor. behind" the Convention. Both Governments stood aside and ignored it.

The chief point now made by Japan, in the dispute is, not that the Convention had been abandoneach in Mexican money, or from \$60 to \$75. With land at \$8 per acre and clearing and preparing at \$7 more BALL. This is a decided Smith in the belief that there made by our own Government is, were many long voyages made in that we have the "inalienable" right to violate it, under certain conditions. The arbitrator must have \$1,000, less the highest figuresdecide the question.

The curious inaccuracy of the President's message seems to indi- for land, preparing, plants and all. cate that the State Department has not very carefully studied the case. There is no special reason that it upon. But the historical error re-

### PROFITABLE BANANAS.

An Investment Which Brings in Remarkable Returns.

For persons of small capital, and all hose who desire a quick return for their investments, there is probably no crop that will serve their purposes show that this medior suggestion of instruments, is like bananas. As a business banana almost conclusive that there were growing is extremely profitable, re- patronage to a greater extent than any quiring a small outlay of capital and other proprietary medicine. This is begiving quick and entirely reliable and sure returns. There is no such thing

The most important feature in ba nana raising is a location near the coast or navigable river, where there eration has seen several drifts of are cheap and certain transportation Japanese junks, with people upon facilities. Land suitable for the purpose can be had in Mexico at from \$5 to \$8 per acre Mexican money, which The Advertiser's office cat, who figures must be divided by two to rehas an inquiring turn of mind, which will raise bananas to perfection duce them to a gold standard. Land can be had at from \$1 to \$1.50 per acre only it is not available, as it is not near the coast or upon a navigable birds and fishes, the sense of stream; but a choice location handy to transportation facilities would warrant paying \$25 or even more per acre. The Islands of Cozumel and Ruitan, one on the coast of Yucatan, the other on the coast of Honduras, are engaged

extensively in banana raising, which is largely the support of the inhabitants. Land on either of these islands or similarly situated, with a good port for loading, should outvalue land on the mainland. In Honduras, Nicaragua or Costa Rica favorable locations can be found at lower figures than the price of Mexican land. Bananas are not as perishable as

pineapples, mangoes and some other tropical fruit. They bear transportation well, but a few days nearer the market makes quite a difference, not only in freight, but from the fact that the bananas then can be allowed to mature more. One does not have to cut them quite so green, and, therefore they attain a better flavor, ripen more evenly and give a more desirable and salable product.

The banana is not a tree, but rather an herb, more after the character of Indian corn than a tree. Each sprout matures in a year, produces a bunch of bananas and is cut down. There are few people who have not seen in some vention of 1886 (not 1888). That hot house the banana plant, with its long, bread, green leaves, and admired such a thing? Or, better its beauty; but a banana grove once

should supply them. After a while the large yellow and the red are most

In India there is a small, short variety, known as the "cheena chumpa,"

alluvial land, and does well on quite clearing and preparing the soil.

to 1,500 banana plants, costing \$5 en more. Taking the lowest figures we count of excellence of location has cost

on an outlay of \$100 you have made a profit of \$900, and, having your for a few minutes and the cleared land on hand, with sprouts result is a beautiful cup of tea from the roots of the old plants sufficient to plant three or four more acres should, after arbitration was agreed you may raise another 1,000 bunches on the same acre at the end of another These figures may surprise farmers

in the temperate zone, and those who are thinking of investing in a banana farm may doubt them, but they are mention a beautiful Solid below the practical or practicable figures, providing there are no losses from failure of transportation facilities. Generally, these do not fail. In many places the local market will consum much of the crop, as the natives are great eaters of bananas.

Bananas are cheap food in the temperate zone at present prices, but if they were one-half less there would certainly be double the consumption, many patterns and prices. of money in them.-Philadelphia Rec-

### Tells the Story.

All advertisements of Hood's Sarsaparilla, like Hood's Sarsaparilla itself, are honest. We have never deceived the public, and this with its superlative medicinal merit, is why the people have abiding confidence in it, and buy Hood's Sarsaparilla almost to the exclusion of all others.

Customers Want Hood's.

"We order Hood's Sarsaparilla in large quantities and it is the only blood purifier which a druggist can buy in large quantities without risk. It is selling very rapidly and customers who buy it once are sure to call for Hood's the next time. We believe Hood's Sarsaparilla must possess true merit in order to retain its popularity. Its sales exceed all similar preparations and its praises are often heard." L. SOMMER & SON, Springfield, Illinois. Thousands of druggists say the same.

## SENTENCED TO DEATH.

alty April 11.

Kapea and Kaio must hang some time between 8 o'clock a. m. and noon on April 11, 1898. Judge Perry so sentenced them in the Circuit Court yester morning. The prisoners exhibited no more emotion when sentence was imposed than during their long trial. and Governor Cleghorn, Marshal and Their counsel, A. G. M. Robertson, objected to the pronouncing of sentence on the ground that more than 48 hours has elapsed since the verdict of guilty was rendered. This delay, he argued was occasioned in no way by the defendants.

His objections were overruled and

The prisoners were told to stand and pea, have been convicted by a jury of your countrymen of the crime of murder in the first degree, one of the most dreadful crimes which can be committed by a human being; and you, Kaio, have been convicted by a jury of your accessory before the fact to the crime of murder in the first degree. Your mitted by Kapea. It is now my duty sentence which the Legislature has prescribed."

## A New Teacher.

A teacher lately placed in one of the prominent schools of the city sent to a business man the report that a son of the down town citizen was misbehaving and would have to change his ways. The father replied that he supas for himself he had troubles of his own, but that at home his boy gave him no annoyance by his conduct. Another father whose daughter was reportvery easily contracted, and if left to not at all surprised, as the young lady at work on a measure and that it would was always very quiet and very obedient at home.

# Baldwin's Popular Perfumes

Every lady appreciates, most men as well, a nice article of Perfumery. We have all of Baldwin's Specialties which are simply par excellence. Lalla Roohk, Queen Bess, Snow Bells and Olive Blossom, are as fine as made.

000

These goods are new and are popular and fancy. Can and take a look at them. We want you to see the line before making your purchases for Christmas gifts.

000

We import these goods direct from the manufacturers and in style and price can satisfy YOU.

000

Our time is yours when you visit our store.

# Exercises at Kamehameha's New Place of Worship

### KEYS CIVEN TO THE TRUSTEES

Address by S. M. Damon for the Donor-Prayers and Music. Sermon by Rev. Parker.

At the Dedicatory Services of the Biolese Memorial Chapel, the scholars and teachers filled the whole body of the building

Opposits the chair, at the west end of the transept, sat the invited guests, mostly officials connected with the Board of Education, and a few representative Hawalians, the Princess Katelani, Mrs. Haileica, Mrs. Concy Mrs. S. C. Allen, Mrs. T. B. Foster, Mrs. George Beckley, Mrs. C. A. Brown and others.

On the platform were the Trustees and Principals of the Kamehameha Schools, Professor Alexander, President Hosmer, Inspector General H. S. Townsend, and the clergymen who were to take part in the exercises.

er who was to furnish the pipes, the kindly consented to arrange for a pub. pupils for his second gift.

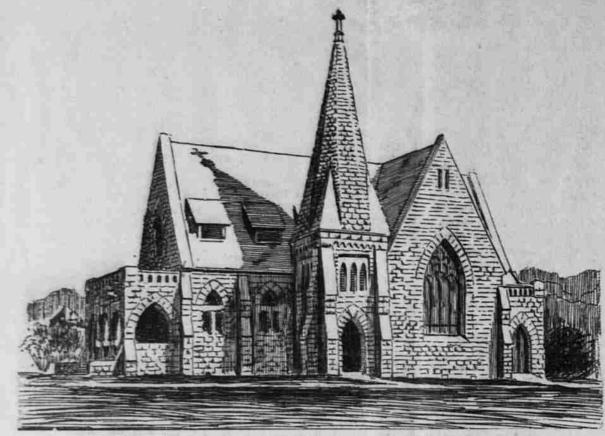

chibe taral hearty with all the appointing this was the prayer of dedication, this evening there will be a musicale. Y. M. C. A.; C. Baker, L. Makanani and by Rev. Dr. Hyde, the whole assembly carpets in fitting barmony of color, rising and joining in this act of cona prevailing tint of golden brown. The pay is light and ventilation are perfect, and mon was worthy of the occasion, and with exquisite taste, and the symbols of Cross and Bible and Palm most appropriate as is the lettering of the "Bishop Memorial Chapel."

normal equilibrium of form and func tion in health and strength

The theory of Ostsopathy may b briefly stated in the single word "obstruction." Those who believe in the system are of the fixed conviction that physical derangements are due to obstruction laming or impairing the organs. These obstructions are treated by manipulation or massage. Major operations when required are entrust-ed to selected surgeons. It is found that obstructions very often are at a considerable distance from the seat of trouble. Hence local treatment is the exception rather than the rule.

What the future of this new school may be none can essay to foretell. It is attracting not a little attention and for that reason is worth explaining.

FORT STREET.

A Model Plant is not complete with-out Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One gener-ator can furnish power to your Pump, Centrifugals, Elevators, Plows, Rail-ways and Hoists; also, furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

PANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandelliers and Electrical Goods.

All orders will be given prompt at-tention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine

# WHARF AND WAYE.

The W. G. Hall which sails for Kauai ports this afternoon will return on Saturday morning to be here for Christmas.

Following are the foreign steamers to arrive during the week: 21st-Aorangi from Vancouver and Victoria -City of Peking from San Francisco.

er. McNeil master, arrived in port yesterday morning, 151/2 days from San Francisco with 900 tons of general merchandise for F. A. Schaefer & Co., as well as S head of horses. Good weather was experienced.

West master, arrived off port yesterday morning, 21 days from San Francisco.

The ship Mary L. Cushing at New York, November 28, from Honolulu, reports, September 28, lat. 57 30 S. lon. 76 W. had a heavy gale, lasting 16 hours; for six hours vessel had lee rail washed over her fore and aft; stove two boats, flooded fore and after house smashed bulwarks and received other

damage about decks. Lewers, Goodman master, arrived in used for. port yesterday forenoon, 26 days from Port Townsend and 24 from Cape Flattery with the following cargo consigned to Lewers & Cooke: 850,827 feet lumber: 600,000 cedar shingles; 30,000 laths; 75 cedar telephone poles. The following report, was kindly furnished

by Captain Goodman: "Left Port Townsend, November 24; passed out by Cape Flattery, 8 p. m., (Semi-Weekly).

November 26. For the first 16 days, experienced a succession of hard southerly and southwest gales with occasional calm spells between-14 days out before passing south of the abroad in 1896 there were 20,360 tonight that China has ceded Kiaochan latitude of San Francisco. Since Demales and 2.20 females in Hawaii and to Germany. Whether the report be cember 13, have had moderate to fresh breezes from E. N. E. to E. S. E. with squally weather and rough sea."

### Notice to Ship Captains. U. S. Branch Hydrographic Office,

San Francisco, Cal. By communicating with the Branch Hydrographic Office in San Francisco, captains of vessels who will co-operare with the Hydrographic Office by recording the meterological observations suggested by the office, can have forwarded to them at any desired port, and free of expense, the monthly pilot charts of the North Pacific Ocean and the latest information regarding the dangers to navigation in the waters which they frequent.

Mariners are requested to report to the office dangers discovered, or any other information which can be utilined for correcting charts or sailing firections, or in the publication of the pilot charts of the North Pacific. W. S. HUGHES.

Lieutenant, United States Navy.
