WEDNESDAY, APRIL 13, 1887.

AN OBSERVATORY.

Professor Alexander, of the Government Survey, has favored us with the perusal of a circular from Mr. Edward C. Pickering, Director of Harvard College Observatory.

BON VOYAGE.

With truth, as well as propriety, the desire may be expressed, as that of foreigners and native subjects of Their Majesties alike, that Queen Kapiolani may have a happy and prosperous journey wherever she goes.

A QUERY.

If the local doctor on Lahaina thinks he has a case of small-pox on hand and the Honolulu doctors think it is only chicken pox, why do not the Board of Health send a commission of medical men to diagnose the case, as well as the experienced and capable officer sent to manage the quarantine?

SUPREME COURT.

April Term.

Judge McCully presiding. The King vs Ah Chiu, Akiona and Tong Hoy, assault and battery, was on yesterday before a foreign jury.

AT CHAMBERS.

Before Chief Justice Judd. Probate. In the matter of the estate of John O. Davies; it was ordered that the will be admitted to probate and that letters testamentary be issued to Robert Lewers without bond.

Bankruptcy. On the petition of James W. Kahaleanu, that he be adjudged a bankrupt, the hearing is continued to the 19th and the Marshal is to notify Manuel C. Correa, of Waimea, Kauai, a secured creditor, to prove his claim on that date.

5000 feet of entirely new designs of moulding have just been received per Australia by Messrs. King Bros.

WEDNESDAY, APRIL 13, 1887.

LOCAL NEWS.

The mail despatched by the Australia for San Francisco was 2,981 letters and 829 papers.

Subject at the Bethel Union prayer-meeting this evening: "The Christian's confidence."—Phil. i, 6.

A two-story store and dwelling is being put up by Chinese on the corner of Queen and Punchbowl streets.

His Majesty has appointed Miss Anne Hamlin Parke a Knight Companion of the Royal Order of Kapiolani.

"Manliness in religion" is the topic at Fort Street Church prayer-meeting to-night, the text being 1 Corinthians xvi, 13.

A native man was arrested yesterday afternoon, and his bail fixed at \$100, for assault and battery on a native woman.

Mr. T. S. Southwick emigrates by the barkentine Planter to-day, intending to dwell in Los Angeles, Cal., and we hope his lines will fall in pleasant places and that he may have a goodly heritage.

The Government Gazette was issued on Monday, incorrectly dated April 12th. Yesterday a fresh edition was issued, with the figure corrected and the addition of the notice regarding the Queen's tour quoted elsewhere.

Mr. A. Herring, a half-caste Hawaiian, whose untaught skill the writer has had the pleasure of describing on different occasions to the public, left for Europe yesterday to be trained under master engravers as a Hawaiian Government pupil.

Word was telephoned to the Station last evening that a Chinaman was found intruding on the premises of Hon. Sam. Parker. Two mounted police just setting out on their rounds were ordered to go to the place. They found that Mr. Parker's servants had caught the Chinaman in the harness room. He said he went there to sleep. A charge of vagrancy was entered against him at the Station on locking him up.

When the Kaimiloa was hauled up on the Marine Railway and her shaft examined, it was found that the trouble was a broken key—a seeming trifle, yet requiring a good deal of work to remedy. The propeller has gone to the Iron Works to have the key way enlarged, and, although desirable to have the shaft sent there also, that would involve great labor and expense, as the shaft is boxed in and covered by the ward room.

The Queen's Trip.

The Government Gazette, in announcing Her Majesty's foreign tour, says: "The Royal party will proceed to Washington and call on the President of the United States; and on arrival in London Her Majesty will present the congratulations of His Majesty and the Hawaiian people to Her Majesty Queen Victoria on the occasion of the celebration of the jubilee of Her Britannic Majesty's accession to the throne of Great Britain. Col. James H. Boyd will attend Her Majesty as aid-de-camp."

Last Quarter's Exports.

The sugar exported during the first quarter of this year amounted to 66,286,845 pounds, as compared with 67,975,279 pounds the first quarter of 1886, a decrease of 1,688,434 pounds. Of rice 2,288,400 pounds have been exported the past quarter, an increase of 849,850 pounds over the corresponding period last year; bananas, 12,931 bunches, a decrease of 471; coffee, 1,500 pounds, a decrease of 2,364 pounds; sheepskins, 1,800, a decrease of 1,310; awa, 1,936 pounds, an increase of 1,071 pounds; tallow, none, a decrease of 15,885 pounds; wool, none, a decrease of 73,180 pounds; other products about even. Total value of exports during the quarter ended March 31st, 1887, was \$2,930,358.69.

SIDE LIGHTS.

A superb shepherd dog and first-rate watcher, bred in Chili, may be bought reasonably at the Fort Street Shooting Gallery.

Received at the Club House per S. S. Australia: Fresh salmon, cauliflower, celery, oysters frozen, apples, figs, etc., all on the daily bill of fare.

Messrs. King Bros. are the largest importers of artists' materials, pictures, picture moldings, etc., in this Kingdom and still continue to keep their prices to suit the times.

Smoke the Havana Cheroots, to be found at C. J. McCarthy's.

A fresh supply of the famous John Wicland Philadelphia Beer has been received at the Criterion Saloon, Fort Street.

THE ROYAL TOUR.

A Notable Steamship Departure.

Yesterday the whole town was agog with anticipation of the remarkable event of Her Majesty Queen Kapiolani for the first time in her life leaving her native land for a tour abroad, the first stage of her journey being the formidable appearing one of an ocean voyage of over two thousand miles. That a very popular Princess, sister of the King, and her husband of foreign birth but domestic distinction, General Dominis, besides several other personages of rank, including the universally esteemed King's Chamberlain, Hon. C. P. Iaukea, were going away with Her Majesty, gave a broader but it is doubtful if a deeper amount of interest in the occasion. The promised general military display was not performed, and it was not needed. Indeed the guard of honor very properly on hand at the departure of the royal party were only pardoned for being in the way of the curious multitude on the very account of the propriety of their presence. Apart from the departure of the illustrious company referred to, there was that of a very large number of prominent members of the community, and many more less conspicuous but all the same highly esteemed of their neighbors. Therefore, there would have been a very great throng on the wharf of people to take leave of relatives and friends even if the Queen and her immediate companions were not going. As it was, however, an unprecedented jam of people of all nationalities, ages, sexes and conditions took place on the Oceanic Steamship Company's wharf, the multitude having begun to flock there an hour or more before the advertised hour of departure. Of course the Royal Hawaiian Band was there. Such a blunder as having Professor Berger and his harmonious athletes absent would have been inconceivable, and they played soul-stirring airs in the best of their manner that has long since beggared the versatility of reporters to adequately eulogize.

From end to end of the steamship, except small spaces at stem and stern, where navigating impedimenta prevented, the upper deck was packed with outgoing passengers and, up to the signal for going ashore, their friends having last greetings with them. Many of the former were fairly stooping under the weight of leis and wreaths piled upon their persons. The sound of innumerable voices was impressive, almost drowning the band music, while native women kept up an incessant singing of farewell mele. Smiles and tears struggled for the mastery on many faces, sometimes one and again the other manifestation of feeling prevailing. On the whole, it was a laughing crowd on both ship and shore, and this character was helped by many attempts, more or less successful, at sallies of wit between the goers and the stayers.

Within a few moments after 12 o'clock the guard of honor, composed of the Household Guards, King's Own and Prince's Own, counter-marched through the dense mass opposite where the royal party stood on the ship, His Majesty and other leave-takers came ashore, and the gangway was drawn.

Then the huge and heavily freighted steamship slowly swung out, getting pointed out the channel as the multitude of two thousand or so melted away into the town. The King, Finance Minister Kanoa, Attorney General Rosa, United States Minister Resident Merrill and wife, Hon. Sam. Parker, Col. W. H. Cornwell and many other ladies and gentlemen went on board the Government tug Eleu, to accompany the departing steamer a little piece outside the reef. They were regaled with music from native guitar players and vocalists. The tug turned at or near the Spar buoy and returned. The Australia had also the company out of Hon. John A. Cummins' steamer J. A. Cummins, that had its departure for Waimanalo timed for the purpose and was handsomely dressed in flags for the occasion. As the Australia was passing out of the harbor royal salutes were fired from the shore battery and from the guns of the British man-of-war Caroline. Then whistle salutes were exchanged, when the pilot was leaving the Australia, between that vessel and the two small steamers named, and as the tug taking His Majesty back left the steamship taking his spouse away, the latter dipped the Hawaiian flag, the salute being returned by the Eleu.

It may be added that festivities were kept up at the Palace all the night previous to the Queen's departure. The singing of native bands could be heard a great distance in all directions. Decorations were conferred on the gentlemen accompanying Her Majesty, and gold and silver medals bestowed upon thirty of the King's servants yesterday morning.

GENERAL BUSINESS AGENCY.—No. 38 Merchant street.

Bell Telephone 348. P. O. Box 415.

Shipping Notes.

Oceanic S. S. Australia took away 26,934 bags sugar, shipped, 17,271 by W. G. Irwin & Co., 4,636 by H. A. Widemann, 2,397 by C. Afong, 750 by Hyman Brothers, 980 by M. Phillips & Co.; 150 bundles sugar cane, 797 bales green hides, 43 dry hides, 16 bundles skins, 1,413 bags rice, 2,766 bunches bananas, 2 cases merchandise, 1 bag coin, 3 packages express matter. Value: Foreign produce, \$937.50; domestic produce, \$153,246.32.

French bark Julie, Captain Clavey, arrived yesterday, 53 days from Newcastle, N. S. W., with 738 tons coal to Wilder & Co.

Bark Saranac will probably sail to-day for San Francisco, with about 1,800 tons of sugar.

Barkentine Planter sails at noon to-day for San Francisco, with about 980 tons sugar and rice, and 500 bunches bananas.

Schooner Caterina, reported yesterday, brought 400 bags sugar.

Sugar is piling up at a prodigious rate in the warehouses along the water front, and arrivals of shipping to take it away are eagerly desired.

It is reported on good authority that Captain J. Phillips, master of the brig Allie Rowe, has been given command of the bark Kalakaua, up to San Francisco, and that Mr. Tomlinson, formerly chief officer of the brigantine Claus Spreckels, will be master of the Allie Rowe, up for Hongkong.

Bark Caibarien, Perkins, arrived yesterday, 18 days from San Francisco, consigned to Castle & Cooke, with general merchandise. Reports fine weather and moderate trades most of the passage.

The Astronomical Survey.

Mr. E. D. Preston, of the United States Coast Survey, accompanied by Mr. Wm. A. Wall, of the Hawaiian Government Survey, went to Hawaii by the steamer Kinau last evening. On that island Mr. Preston and his assistant will establish four latitude stations, at the four corners as it were, namely, Kohala in the north, Hilo in the east, South Point in the south and Kaalua in the west. This work will probably take from four to six weeks. After that the surveyors will return to Honolulu and prepare for a similar expedition to Maui. They will probably travel overland from Hilo, where they began operations on Hawaii, to South Point, and thus may obtain observations of the country which may be of scientific value.

Mr. Preston received six months' leave of absence in this country, but at the lapse of three months finds that half the work given him is not done. Accordingly by yesterday's mail he wrote to headquarters for an extension of his leave. Mr. Preston was delighted with the "garden isle" of Kauai, where he recently established latitude stations. There are good roads on that island, while every prospect pleases and the climate is luxurious. When he had cordially uttered all these things, the second whistle sounded and the reporter had to say good-bye.

Improvements.

A marked improvement has been made on the Oahu College premises at Punahou. The old adobe building, mauka of the college, has been removed and on its site rises a neat and tasteful piece of architecture in the shape of a two-story wooden building, with "swell front" and hipped roof. The new building adds greatly to the appearance of the whole place. The ground dimensions of the main building are 30 feet by 20 feet with wings 15 feet by 30 feet. The new house is for the use of the Principal and his family and the lady teachers. The lower flat contains the principal's study, the parlor and sleeping rooms. The upper flat is occupied by the lady teachers. The builders were Messrs. Rhoads & Greene, and the work and finish are excellent in every respect. The cost of the building was about \$6,000. The friends of the institution are to be congratulated on this accession to the college architecture.

Runaway.

A horse hitched to a baggage express belonging to Mr. N. F. Burgess, while standing for a load of trunks at the Palace yesterday morning, was frightened by the falling of a trunk. Starting on a run it first knocked over an intoxicated native in the yard, hurting the man on the side; then dashing through the gate the horse ran down Hotel to Maunakea street, past the Fish Market up Queen and along Fort, stopping at the Oceanic wharf. That was where the animal was going to be driven anyway, but owing to its impetuosity in starting it arrived at destination without its load. Besides the hurt to the native the only harm done was a little damage to the seat of the wagon.

On the first of January, 1887, the assets of the Mutual Life Insurance Co. were \$114,181,963.24. Now is the time to insure. S. G. Wilder, agent.

THE JUBILEE CELEBRATION.

1837—1887.

The exercises of Monday afternoon at Punahou, on the grounds of Oahu College, and reported in yesterday's HERALD, up to the hour of 7 o'clock p. m., were resumed at that hour in the parlors of the Domestic Hall, prayer being offered by Mr. Bennett.

A paper by the Hon. S. N. Castle was read by his son, Hon. W. R. Castle, presenting a comprehensive and interesting historical sketch, reciting particular features in and incidents of Hawaiian progress during the past sixty-seven years. On the 7th of January, 1822, the first printing was done; August 11th of the same year, the first Christian marriage took place; and in February, 1823, a Sabbath observance law was passed. On the 26th of May, 1857, the writer of the paper, on behalf of the American Bible Society, presented the King Kamehameha IV., with a Bible, bound in dark Morocco, with gilt finish and enclosed in a rose-wood box, accompanied with an address. His Majesty's reply was highly appreciative in its terms, and from a literary point of view, was a masterpiece of felicitous expression.

A paper by Mrs. A. S. Cooke gave an interesting account of the 116 days' voyage of the "Mary Frazier" from Boston to Honolulu, in '37, the appearance of the place, location and subsequent operations of the new band.

Mr. E. Bailey of Wailuku, Maui, read an ably prepared paper descriptive of pioneer educational work. As a conclusion, he presented a series of questions which, to his own mind, remain unanswered, the last four of which are local in their application, and read: What would be the present condition of the Hawaiian Islands had it been left to commerce to convert them? Has the power acquired by the people through civilization and Christianity been used by them for more good or evil? Does true manliness exist in the Hawaiian race to the extent we hoped? Are rulers who are a terror to good works instead of evil works, rulers at all in the scriptural sense?

Mrs. L. Lyons' memoir of the reinforcement of 1837 was read by Mr. C. J. Lyons.

Professor Merritt read a paper on the work of Mr. Edward Johnson.

An account by Mrs. M. S. Rice of "ten years at Punahou," the ten years commencing in 1844, was the last read of the historical papers. The paper is valuable as illustrative of progress, the "Punahou in the days of her poverty, not an inviting place with its simplest of buildings on which economy forbade any adornment," compared with that of today, being calculated to awaken and intensify feelings of gratitude towards those who by cash and encouragement have made it one of the choicest spots on the island.

The jubilee celebration exercises concluded with the reading of a letter from the Rev. Judson Smith.

All the papers read will probably be published in full, in pamphlet form.

A New Departure.

Mr. L. B. Kerr having, after disappointments by two or three steamers, obtained his stock of goods personally selected on his recent visit to England, makes regular announcement thereof to his former patrons and the public. It is truly an immense stock, in quantity and variety, as anyone can see upon looking in at the familiar stand. Mr. Kerr has also secured the services of Mr. J. S. Martin, a cutter of experience in the best shops of New York, Philadelphia and San Francisco. His place may, therefore, well claim general inspection and its full share of public patronage.

Street Incident.

A policeman stationed on the corner of Fort and Hotel street insisted on a Woodlawn Dairy driver hitching up his horses when he stopped to make deliveries. The driver in vain protested that the team were secured by the brake, and threatened to complain of the policeman to Judge Dayton. The dispute ended, so far as concerned the spot where it originated, by the policeman ordering the driver to mount his seat, and then springing up beside him the officer made him drive off to the Station. In a few minutes the milk wagon was driven up the street again without the policeman's assistance.

Hon. Sam. Parker tossed a Hawaiian dollar from the tug Eleu to Mr. B. F. Dillingham on the deck of the Australia, when the vessels were some distance apart out in the channel. The departing voyager caught the coin and kept it for good luck.

While a lot of black pigs, with Chinese labels in their ears, were being dumped from drays on to the lower deck of the Kinau, one fell overboard. It swam gallantly round the bow of the boat and was rescued from drowning for another fate.

BUSINESS ITEMS.

No hand-book excels the Hawaiian Almanac and Annual for reliable statistical and general information relating to these Islands. Price 50 cents.

SHIPPING INTELLIGENCE.

ARRIVALS.

TUESDAY, April 12. Bark Julie, from Newcastle, N. S. W. Bark Caibarien, Perkins, from San Francisco.

DEPARTURES.

W. C. PARKE, Temporary Administrator Estate of Wong Kim, deceased. Honolulu, April 7, 1887.

**A BUREAU FOR PUFFS.**

HOW PEOPLE ARE SUPPLIED WITH NEWS ABOUT THEMSELVES.

Authors, Actors and Statesmen Paying Men to Read for Them—Gould, Field and Vanderbilt—Laws and Statistics. Some Curious Orders.

Every editor knows the man whose attention has just been called to an article in the paper. He is very numerous. Doubtless editors have long wondered if there were not some people in the world who devoted their time to calling the attention of authors to newspaper articles. Perhaps this first suggested to a New York journalist the idea of establishing a bureau for the accommodation of persons who desire to have their attention called to what the newspapers say about them. At all events he did start such a concern and it is now running in full blast. He employed men to read the papers, for folks who don't have a very high opinion of the press never look at the papers and don't care what the papers say about them, and these men keep a lot of boys on the jump all day pasting and mailing the clippings. The list of subscribers is long and includes people in every profession and line of business. The bureau receives all the daily, weekly and monthly publications of this country and the principal papers of foreign countries, and the readers go through about 2,000 every day.

**ACTORS AND AUTHORS.**

Actors, of course, are patrons of the bureau, and although they are notoriously vain their vanity has a business side. Newspaper fame is a part of their stock in trade, and notices have an actual value to them. The more an actor is talked about the better his chances of getting engagements. And then an actor wants to know what the critics say of his work in order to be able to correct his faults. If he brings out a new play it is important that he should know how it is received. Artists, who are peculiarly sensitive to criticism, want all the notice of their pictures and information about sales, exhibitions, galleries and new collections. Authors are liberal patrons of the bureau. Some of them want personal notices and criticisms, but most of them want articles on topics useful to them in compiling new books.

A great many congressmen discover through the bureau how their votes, speeches and bills have affected public opinion in their districts. Foreign ministers get important information about the countries to which they are accredited, trade relations, etc. During the Cutting imbroglio, Senor Don Romero, Mexican minister, was supplied with 1,800 articles on the affair, and so obtained a complete epitome of American, English and French newspaper opinions which were very valuable to him. The civil service commission is a good customer and gets much interesting reading matter, not always of a gratifying nature.

Jay Gould is profoundly indifferent to newspaper talk and has the slightest desire to see what is said about him. But his partner, Washington E. Connor, is a subscriber, and if the little king of Wall street does not know everything that is said by the press and public speakers about him and his doings it is because he can't read. Cyrus W. Field has his attention called to articles that interest him and doubtless has accumulated a mass of valuable information about movements, revolutionary history, dynamite, and patriotism. When William H. Vanderbilt died the bureau furnished to the family 5,000 obituaries and editorials on the millionaire, and, strange to say, there were no rough or ill-natured ones in the lot, which must have been pleasant surprise to the family.

**LAWYERS AND STATISTICIANS.**

City, state and national departments are supplied with decisions, new laws, statistics, comments, etc., and legal reports and other matters relating to practice are furnished to a long list of lawyers. Railway corporations are supposed to be impervious to public opinion, but all the principal lines are down on the books for "newspaper attacks." Legislation and everything affecting the railroad business. With most of the subscribers it is pure business. Manufacturers, contractors and builders want to know where work in their line is contemplated and what improvements are made in methods of doing work. A wine dealer wants to know in advance about big gatherings, like the Old Fellows' conventions, public banquets, small receptions and weddings, so that he may get in ahead of other dealers and supply the champagne. If the king of Dahomey thinks of reorganizing his army some manufacturer of rifles wants to hear about it in time to send an agent over there with samples of guns.

After the Charleston earthquake Maj. Powell, of the United States geological survey, wrote to the bureau: "Clip all criticisms, theories and opinions of value touching the recent earthquake." Two other subscribers, one a famous astronomer, telegraphed to the bureau to add "earthquake theories" to their previous orders, and a queer collection of crankisms he must have got. One subscriber wanted all death notices promptly, and located himself near the bureau to get them as soon as printed in city papers. As soon as he got a death notice he would rush around and try to sell a new kind of mourning card to the bereaved relatives. An enterprising undertaker also subscribes for death notices.

**SOME CURIOUS ORDERS.**

The bureau gets some very curious orders, of which the following are examples: "Curious surgical operations," "The intelligence of dogs," "Fashion articles describing new dresses on the stage or at balls, or describing the styles of new buttons introduced," "Bank robberies," "Socialistic fomentations which may lead to riots," "All libel suits," "Appearance of cholera and contagious diseases," "Utah legislation and Mormonism," "Large forest fires," "Woman's suffrage," "Love, courtship and marriage," "Engagements of prominent society people," "Liquor traffic on the Congo and Niger or any part of Africa," "Impure water supply of cities and towns," "Railway development in China," "Chess," "Precious stones," "Water filtration," "Amateur acting," "Bartholdi's Liberty," "Countdowns" and "Grindstones."

Such a bureau is the whispering gallery of journalism. The obscure country paper edifies its readers with a slashing editorial on grinding railway monopolists, and when the editor takes his summer vacation and writes to the superintendent of a big road for a pass all over the country he wonders why he doesn't get it. The explanation is that the president of that road has had his attention called to everything said about his company in the public press.—New York Cor. Philadelphia Times.

**General Advertisements.**

**The Equitable Column.**

**THE EQUITABLE**

**Life Assurance Society**

OF THE UNITED STATES.

Total Assets, Dec. 31, '86, \$75,510,472.76

Total Liabilities, including legal Reserve on all existing policies (4 per cent Standard) \$59,154,597.00

Total Undivided Surplus over Four per cent Reserve, - - \$16,355,875.76

Of which the proportion contributed (as computed) by Policies in general class, is \$ 5,728,761.76

Of which the proportion contributed (as computed) by Policies in Tontine class, is 10,627,114.00

Upon the New York State Standard of 4 1/2 per cent interest, the Surplus is as computed, \$20,495,175.76.

New Assurance written in 1886, \$111,540,203

Total Outstanding Assurance, \$411,779,098

Increase of Premium Income, \$2,810,475.40

Increase of Surplus (Four per cent basis), - - - \$2,409,636.63

Increase of Assets, - - - \$8,957,085.26

In actual Surplus (namely the excess of accumulated funds over liabilities) in Premium Income; in the amount of Assurance in force on its books, the Equitable Life Assurance Society of the United States exceeds every other life assurance company, and may be justly regarded as the largest and strongest life assurance organization in the World.

**EXAMPLE**

Of Policy No. 67,389. Life. Issued Jan. 22, 1872, on the life of W. H. C. Date of expiration Jan. 22, 1887. Amount of Policy, \$10,000. Tontine Period, 15 years. Age 53. Annual Premium, \$543.10.

Total premiums paid in 15 years, - \$8,146.50

**1. CASH VALUE,**

Consisting of Reserve, \$3,856.30 and Surplus, 4,199.80

\$9,056.10

**2. PAID-UP VALUE.** - - - \$13,050.00

If the policy-holder select this settlement, as the paid-up value is larger than the original amount of assurance, a satisfactory certificate of good health must be furnished, or the excess must be drawn on a cash basis.

**3. CASH SURPLUS.** - - - \$5,199.80

Under this settlement, the policy holder withdraws the surplus in cash, and retains the original policy, continuing the payment of premiums, less annual dividends.

Three other options are available under this Policy.

The policies with 10-year Tontine periods do not show results as satisfactory as those above given. Policies with 20-year periods, on the other hand, will show much larger results than those with 15-year periods; but for purposes of illustration the 15-year policies—those of the intermediate period—are given as fair illustrations.

The longer period of accumulation which the 20-year policies enjoy renders them the most desirable for those who, seeking absolute protection at the lowest "Life" rate, desire also the largest returns in case they live:

Hence the Best Free Tontine "Ordinary Life" Policy is One with a **TWENTY-YEAR TONTINE PERIOD**

The Free Tontine Policy of the Equitable Life Assurance Society is unrestricted after one year, incontestable after two years, and is then PAYABLE in the event of death, immediately upon the receipt of satisfactory proof of death.

It guarantees a full share of the surplus earned, and being issued by a Society holding a Larger Surplus than any other Assurance Company,

May be expected to show larger profits than the policies of any other company.

WEDNESDAY, APRIL 13, 1887.

AN OBSERVATORY.

Professor Alexander, of the Government Survey, has favored us with the perusal of a circular from Mr. Edward C. Pickering, Director of Harvard College Observatory. Those in charge of the Observatory are looking about for a suitable site for a station. It appears that by the will of the late Uriah A. Boyden, property, the present value of which exceeds \$230,000, was left in trust for the purpose of astronomical research, "at such an elevation as to be free, so far as practicable, from the impediments to accurate observations now existing, owing to atmospheric influences." The Trustees of the Fund have transferred the property to the President and fellows of Harvard College. The object of the circular is to elicit information relative to climate, accessibility, altitude, and geographical position of points which may be supposed suitable. A location in the southern hemisphere will be preferable for various reasons, one of which is that "the southern stars invisible in Europe and the United States have been less observed than the northern stars, and by the aid of a southern station the investigations undertaken at Cambridge can be extended upon a uniform system to all parts of the sky." There is no doubt that Professor Alexander will be able to show that the Hawaiian Islands are fully qualified to fulfill some, if not all, of the required conditions.

BON VOYAGE.

With truth, as well as propriety, the desire may be expressed, as that of foreigners and native subjects of Their Majesties alike, that Queen Kapiolani may have a happy and prosperous journey wherever she goes, complete enjoyment wherever she tarries, together with a safe return home, benefited in every way by her travels; likewise her royal sister and all their party.

A QUERY.

If the local doctor on Lahaina thinks he has a case of small-pox on hand and the Honolulu doctors think it is only chicken pox, why do not the Board of Health send a commission of medical men to diagnose the case, as well as the experienced and capable officer sent to manage the quarantine?

SUPREME COURT.

April Term.

Judge McCully presiding. The King vs. Ah Chin, Akiona and Tong Hoy, assault and battery, was on yesterday before a foreign jury. Mr. A. P. Peterson, Deputy Attorney General, for the Crown; Dare and Hatch for defendants.

AT CHAMBERS.

Before Chief Justice Judd. Probate. In the matter of the estate of John O. Davies; it was ordered that the will be admitted to probate and that letters testamentary be issued to Robert Lewers without bond.

Bankruptcy. On the petition of James W. Kahaleanu, that he be adjudged a bankrupt, the hearing is continued to the 19th and the Marshal is to notify Manuel C. Correa, of Waimea, Kauai, a secured creditor, to prove his claim on that date. The petition and schedules exhibit the petitioner to have been doing business at Waimea, Kauai, that he is indebted to divers persons in the sum of \$512.91 and to Manuel C. Correa in the sum of \$1,900 on a note signed by the bankrupt and his wife, and which is secured by a mortgage on his wife's real estate and carriage.

WEDNESDAY, APRIL 13, 1887.

LOCAL NEWS.

The mail despatched by the Australia for San Francisco was 2,981 letters and 829 papers.

Subject at the Bethel Union prayer-meeting this evening: "The Christian's confidence."—Phil. i, 6.

A two-story store and dwelling is being put up by Chinese on the corner of Queen and Punchbowl streets.

His Majesty has appointed Miss Anne Hamlin Parke a Knight Companion of the Royal Order of Kapiolani.

"Manliness in religion" is the topic at Fort Street Church prayer-meeting to-night, the text being 1 Corinthians xvi, 13.

A native man was arrested yesterday afternoon, and his bail fixed at \$100, for assault and battery on a native woman.

Mr. T. S. Southwick emigrates by the barkentine Planter to-day, intending to dwell in Los Angeles, Cal., and we hope his lines will fall in pleasant places and that he may have a goodly heritage.

The Government Gazette was issued on Monday, incorrectly dated April 12th. Yesterday a fresh edition was issued, with the figure corrected and the addition of the notice regarding the Queen's tour quoted elsewhere.

Mr. A. Herring, a half-caste Hawaiian, whose untaught skill the writer has had the pleasure of describing on different occasions to the public, left for Europe yesterday to be trained under master engravers as a Hawaiian Government pupil.

Word was telephoned to the Station last evening that a Chinaman was found intruding on the premises of Hon. Sam. Parker. Two mounted police just setting out on their rounds were ordered to go to the place. They found that Mr. Parker's servants had caught the Chinaman in the harness room. He said he went there to sleep. A charge of vagrancy was entered against him at the Station on locking him up.

When the Kaimiloa was hauled up on the Marine Railway and her shaft examined, it was found that the trouble was a broken key—a seeming trifle, yet requiring a good deal of work to remedy. The propeller has gone to the Iron Works to have the key way enlarged, and, although desirable to have the shaft sent there also, that would involve great labor and expense, as the shaft is boxed in and covered by the ward room.

The Queen's Trip.

The Government Gazette, in announcing Her Majesty's foreign tour, says: "The Royal party will proceed to Washington and call on the President of the United States; and on arrival in London Her Majesty will present the congratulations of His Majesty and the Hawaiian people to Her Majesty Queen Victoria on the occasion of the celebration of the jubilee of Her Britannic Majesty's accession to the throne of Great Britain. Col. James H. Boyd will attend Her Majesty as aid-de-camp."

Last Quarter's Exports.

The sugar exported during the first quarter of this year amounted to 66,286,845 pounds, as compared with 67,975,279 pounds the first quarter of 1886, a decrease of 1,688,434 pounds. Of rice 2,288,400 pounds have been exported the past quarter, an increase of 840,850 pounds over the corresponding period last year; bananas, 12,931 bunches, a decrease of 471; coffee, 1,500 pounds, a decrease of 2,364 pounds; sheepskins, 1,800, a decrease of 1,310; awa, 1,936 pounds, an increase of 1,071 pounds; tallow, none, a decrease of 15,885 pounds; wool, none, a decrease of 73,180 pounds; other products about even. Total value of exports during the quarter ended March 31st, 1887, was \$2,930,358.69.

SIDE LIGHTS.

A superb shepherd dog and first-rate watcher, bred in Chili, may be bought reasonably at the Fort Street Shooting Gallery.

Received at the Club House per S. S. Australia: Fresh salmon, cauliflower, celery, oysters frozen, apples, figs, etc., all on the daily bill of fare.

Messrs. King Bros. are the largest importers of artists' materials, pictures, picture mouldings, etc., in this Kingdom and still continue to keep their prices to suit the times.

Smoke the Havana Cheroots, to be found at C. J. McCarthy's.

A fresh supply of the famous John Wieland Philadelphia Beer has been received at the Criterion Saloon, Fort street.

THE ROYAL TOUR.

A Notable Steamship Departure.

Yesterday the whole town was agog with anticipation of the remarkable event of Her Majesty Queen Kapiolani for the first time in her life leaving her native land for a tour abroad, the first stage of her journey being the formidable appearing one of an ocean voyage of over two thousand miles. That a very popular Princess, sister of the King, and her husband of foreign birth but domestic distinction, General Dominis, besides several other personages of rank, including the universally esteemed King's Chamberlain, Hon. C. P. Iaukea, were going away with Her Majesty, gave a broader but it is doubtful if a deeper amount of interest in the occasion. The promised general military display was not performed, and it was not needed. Indeed the guard of honor very properly on hand at the departure of the royal party were only pardoned for being in the way of the curious multitude on the very account of the propriety of their presence. Apart from the departure of the illustrious company referred to, there was that of a very large number of prominent members of the community, and many more less conspicuous but all the same highly esteemed of their neighbors. Therefore, there would have been a very great throng on the wharf of people to take leave of relatives and friends even if the Queen and her immediate companions were not going. As it was, however, an unprecedented jam of people of all nationalities, ages, sexes and conditions took place on the Oceanic Steamship Company's wharf, the multitude having begun to flock there an hour or more before the advertised hour of departure. Of course the Royal Hawaiian Band was there. Such a blunder as having Professor Berger and his harmonious athletes absent would have been inconceivable, and they played soul-stirring airs in the best of their manner that has long since beggared the versatility of reporters to adequately eulogize.

From end to end of the steamship, except small spaces at stem and stern, where navigating impedimenta prevented, the upper deck was packed with outgoing passengers and, up to the signal for going ashore, their friends having last greetings with them. Many of the former were fairly stooping under the weight of leis and wreaths piled upon their persons. The sound of innumerable voices was impressive, almost drowning the band music, while native women kept up an incessant singing of farewell meles. Smiles and tears struggled for the mastery on many faces, sometimes one and again the other manifestation of feeling prevailing. On the whole, it was a laughing crowd on both ship and shore, and this character was helped by many attempts, more or less successful, at sallies of wit between the goers and the stayers.

Within a few moments after 12 o'clock the guard of honor, composed of the Household Guards, King's Own and Prince's Own, countermarched through the dense mass opposite where the royal party stood on the ship, His Majesty and other leave-takers came ashore, and the gangway was drawn. Then the huge and heavily freighted steamship slowly swung out, getting pointed out the channel as the multitude of two thousand or so melted away into the town. The King, Finance Minister Kanoa, Attorney General Rosa, United States Minister Resident Merrill and wife, Hon. Sam. Parker, Col. W. H. Cornwell and many other ladies and gentlemen went on board the Government tug Eleu, to accompany the departing steamer a little piece outside the reef. They were regaled with music from native guitar players and vocalists. The tug turned at or near the Spar buoy and returned. The Australia had also the company out of Hon. John A. Cummins' steamer J. A. Cummins, that had its departure for Waimanalo timed for the purpose and was handsomely dressed in flags for the occasion. As the Australia was passing out of the harbor royal salutes were fired from the shore battery and from the guns of the British man-of-war Caroline. Then whistle salutes were exchanged, when the pilot was leaving the Australia, between that vessel and the two small steamers named, and as the tug taking His Majesty back left the steamship taking his spouse away, the latter dipped the Hawaiian flag, the salute being returned by the Eleu.

It may be added that festivities were kept up at the Palace all the night previous to the Queen's departure. The singing of native bands could be heard a great distance in all directions. Decorations were conferred on the gentlemen accompanying Her Majesty, and gold and silver medals bestowed upon thirty of the King's servants yesterday morning.

Chas. T. Gulick—Notary Public.

Records searched, abstract of title furnished, and conveyances drawn on short notice. COLLECTION AGENCY.—Mr. John Good, Jr., authorized collector. EMPLOYMENT AGENCY.—Mr. F. Marcos, special agent. GENERAL BUSINESS AGENCY.—No. 38 Merchant street. Bell Telephone 348. P. O. Box 415.

Shipping Notes.

Oceanic S. S. Australia took away 26,034 bags sugar, shipped, 17,271 by W. G. Irwin & Co., 4,636 by H. A. Widemann, 2,397 by C. Afong, 750 by Hyman Brothers, 980 by M. Phillips & Co.; 150 bundles sugar cane, 797 bales green hides, 43 dry hides, 16 bundles skins, 1,413 bags rice, 2,760 bunches bananas, 2 cases merchandise, 1 bag coin, 3 packages express matter. Value: Foreign produce, \$937.50; domestic produce, \$153,246.32.

French bark Julie, Captain Clavey, arrived yesterday, 53 days from Newcastle, N. S. W., with 738 tons coal to Wilder & Co.

Bark Saranac will probably sail to-day for San Francisco, with about 1,800 tons of sugar.

Barkentine Planter sails at noon to-day for San Francisco, with about 980 tons sugar and rice, and 500 bunches bananas.

Schooner Caterina, reported yesterday, brought 400 bags sugar.

Sugar is piling up at a prodigious rate in the warehouses along the water front, and arrivals of shipping to take it away are eagerly desired.

It is reported on good authority that Captain J. Phillips, master of the brig Allie Rowe, has been given command of the bark Kalakaua, up for San Francisco, and that Mr. Tomlinson, formerly chief officer of the brigantine Claus Spreckels, will be master of the Allie Rowe, up for Hongkong.

The Astronomical Survey.

Mr. E. D. Preston, of the United States Coast Survey, accompanied by Mr. Wm. A. Wall, of the Hawaiian Government Survey, went to Hawaii by the steamer Kinau last evening. On that island Mr. Preston and his assistant will establish four latitude stations, at the four corners as it were, namely, Kohala in the north, Hilo in the east, South Point in the south and Kailua in the west. This work will probably take from four to six weeks. After that the surveyors will return to Honolulu and prepare for a similar expedition to Maui. They will probably travel overland from Hilo, where they begin operations on Hawaii, to South Point, and thus may obtain observations of the country which may be of scientific value.

Mr. Preston received six months' leave of absence in this country, but at the lapse of three months finds that half the work given him is not done. Accordingly by yesterday's mail he wrote to headquarters for an extension of his leave. Mr. Preston was delighted with the "garden isle" of Kauai, where he recently established latitude stations. There are good roads on that island, while every prospect pleases and the climate is luxurious. When he had cordially uttered all these things, the second whistle sounded and the reporter had to say good-bye.

Improvements.

A marked improvement has been made on the Oahu College premises at Punahou. The old adobe building, mauka of the college, has been removed and on its site rises a neat and tasteful piece of architecture in the shape of a two-story wooden building, with "swell front" and hipped roof. The new building adds greatly to the appearance of the whole place. The ground dimensions of the main building are 30 feet by 20 feet with wings 15 feet by 30 feet. The new house is for the use of the Principal and his family and the lady teachers. The lower flat contains the principal's study, the parlor and sleeping rooms. The upper flat is occupied by the lady teachers. The builders were Messrs. Rhoads & Greene, and the work and finish are excellent in every respect. The cost of the building was about \$6,000. The friends of the institution are to be congratulated on this accession to the college architecture.

Runaway.

A horse hitched to a baggage express belonging to Mr. N. F. Burgess, while standing for a load of trunks at the Palace yesterday morning, was frightened by the falling of a trunk. Starting on a run it first knocked over an intoxicated native in the yard, hurrying the man on the side; then dashing through the gate the horse ran down Hotel to Maunakea street, past the Fish Market up Queen and along Fort, stopping at the Oceanic wharf. That was where the animal was going to be driven anyway, but owing to its impetuosity in starting it arrived at destination without its load. Besides the hurt to the native the only harm done was a little damage to the seat of the wagon.

On the first of January, 1887, the assets of the Mutual Life Insurance Co. were \$114,181,963.24. Now is the time to insure. S. G. Wilder, agent.

THE JUBILEE CELEBRATION.

1837—1887.

The exercises of Monday afternoon at Punahou, on the grounds of Oahu College, and reported in yesterday's HERALD, up to the hour of 7 o'clock p. m., were resumed at that hour in the parlors of the Domestic Hall, prayer being offered by Mr. Bennett.

A paper by the Hon. S. N. Castle was read by his son, Hon. W. R. Castle, presenting a comprehensive and interesting historical sketch, reciting particular features in and incidents of Hawaiian progress during the past sixty-seven years. On the 7th of January, 1822, the first printing was done; August 11th of the same year, the first Christian marriage took place, and in February, 1823, a Sabbath observance law was passed. On the 26th of May, 1857, the writer of the paper, on behalf of the American Bible Society, presented the King Kamehameha IV., with a Bible, bound in dark Morocco, with gilt finish and enclosed in a rose-wood box, accompanied with an address. His Majesty's reply was highly appreciative in its terms, and from a literary point of view, was a masterpiece of felicitous expression.

A paper by Mrs. A. S. Cooke gave an interesting account of the 116 days' voyage of the "Mary Frazier" from Boston to Honolulu, in '37, the appearance of the place, location and subsequent operations of the new band.

Mr. E. Bailey of Wailuku, Maui, read an ably prepared paper descriptive of pioneer educational work. As a conclusion, he presented a series of questions which, to his own mind, remain unanswered, the last four of which are local in their application, and read: What would be the present condition of the Hawaiian Islands had it been left to commerce to convert them? Has the power acquired by the people through civilization and Christianity been used by them for more good or evil? Does true manliness exist in the Hawaiian race to the extent we hoped? Are rulers who are a terror to good works instead of evil works, rulers at all in the scriptural sense?

Mrs. L. Lyons' memoir of the reinforcement of 1837 was read by Mr. C. J. Lyons.

Professor Merritt read a paper on the work of Mr. Edward Johnson. An account by Mrs. M. S. Rice of "ten years at Punahou," the ten years commencing in 1844, was the last read of the historical papers. The paper is valuable as illustrative of progress, the "Punahou in the days of her poverty, not an inviting place with its simplest of buildings on which economy forbade any adornment," compared with that of today, being calculated to awaken and intensify feelings of gratitude towards those who by cash and encouragement have made it one of the choicest spots on the island.

The jubilee celebration exercises concluded with the reading of a letter from the Rev. Judson Smith. All the papers read will probably be published in full, in pamphlet form.

A New Departure.

Mr. L. B. Kerr having, after disappointments by two or three steamers, obtained his stock of goods personally selected on his recent visit to England, makes regular announcement thereof to his former patrons and the public. It is truly an immense stock, in quantity and variety, as anyone can see upon looking in at the familiar stand. Mr. Kerr has also secured the services of Mr. J. S. Martin, a cutter of experience in the best shops of New York, Philadelphia and San Francisco. His place may, therefore, well claim general inspection and its full share of public patronage.

Street Incident.

A policeman stationed on the corner of Fort and Hotel street insisted on a Woodlawn Dairy driver hitching up his horses when he stopped to make deliveries. The driver in vain protested that the team were secured by the brake, and threatened to complain of the policeman to Judge Dayton. The dispute ended, so far as concerned the spot where it originated, by the policeman ordering the driver to mount his seat, and then springing up beside him the officer made him drive off to the Station. In a few minutes the milk wagon was driven up the street again without the policeman's assistance.

Hon. Sam. Parker tossed a Hawaiian dollar from the tug Eleu to Mr. B. F. Dillingham on the deck of the Australia, when the vessels were some distance apart out in the channel. The departing voyager caught the coin and kept it for good luck.

While a lot of black pigs, with Chinese labels in their ears, were being dumped from drays on to the lower deck of the Kinau, one fell overboard. It swam gallantly round the bow of the boat and was rescued from drowning for another fate.

BUSINESS ITEMS.

No hand-book excels the Hawaiian Almanac and Annual for reliable statistical and general information relating to these Islands. Price 50 cents.

SHIPPING INTELLIGENCE.

**A BUREAU FOR PUFFS.**

HOW PEOPLE ARE SUPPLIED WITH NEWS ABOUT THEMSELVES.

Authors, Actors and Statesmen Paying Men to Read for Them—Gould, Field and Vanderbilt—Laws and Statisticians. Some Curious Orders.

Every editor knows the man whose attention has just been called to an article in the paper. He is very numerous. Doubtless editors have long wondered if there were not some people in the world who devoted their time to calling the attention of authors to newspaper articles. Perhaps the first suggested to a New York journalist the idea of establishing a bureau for the accommodation of persons who desire to have their attention called to what the newspapers say about them. At all events he did start such a concern and it is now running in full blast. He employed men to read the papers, for folks who don't have a very high opinion of the press never look at the papers and don't care what the papers say about them, and these men keep a lot of boys on the jump all day pasting and mailing the clippings. The list of subscribers is long and includes people in every profession and line of business. The bureau receives all the daily, weekly and monthly publications of this country and the principal papers of foreign countries, and the readers go through about 2,000 every day.

**ACTORS AND AUTHORS.**

Actors, of course, are patrons of the bureau, and although they are notoriously vain their vanity has a business side. Newspaper fame is a part of their stock in trade, and notices have an actual value to them. The more an actor is talked about the better his chances of getting engagements. And then an actor wants to know what the critics say of his work in order to be able to correct his faults. If he brings out a new play it is important that he should know how it is received. Artists, who are peculiarly sensitive to criticism, want all the notice of their pictures and information about sales, exhibitions, galleries and new collections. Authors are liberal patrons of the bureau. Some of them want personal notices and criticisms, but most of them want articles on topics useful to them in compiling new books.

A great many congressmen discover through the bureau how their votes, speeches and bills have affected public opinion in their districts. Foreign ministers get important information about the countries to which they are accredited, trade relations, etc. During the Cutting imbroglio, Senor Don Romero, Mexican minister, was supplied with 1,820 articles on the affair, and so obtained a complete epitome of American, English and French newspaper opinions which were very valuable to him. The civil service commission is a good customer and gets much interesting reading matter, not always of a gratifying nature.

Jay Gould is profoundly indifferent to newspaper talk and hasn't the slightest desire to see what is said about him. But his partner, Washington E. Connor, is a subscriber, and if the little king of Wall street does not know everything that is said by the press and public speakers about him and his doings it is because he can't read. Cyrus W. Field has his attention called to articles that interest him and doubtless has accumulated a mass of valuable information about movements, revolutionary history, dynamite and patriotism. When William H. Vanderbilt died the bureau furnished to the family 5,000 obituaries and editorials on the millionaire, and, strange to say, there were no rough or ill-natured ones in the lot, which must have been a pleasant surprise to the family.

**LAWS AND STATISTICS.**

City, state and national departments are supplied with decisions, new laws, statistics, comments, etc., and legal reports and other matters relating to practice are furnished to a long list of lawyers. Railway corporations are supposed to be impervious to public opinion, but all the principal lines are down on the books for "newspaper attacks," legislation and everything affecting the railroad business. With most of the subscribers it is pure business. Manufacturers, contractors and builders want to know where work in their line is contemplated and what improvements are made in methods of doing work. A wine dealer wants to know in advance about big gatherings, like Odd Fellows' conventions, public banquets, swell receptions and weddings, so that he may get in ahead of other dealers and supply the champagne. If the king of Dahomey thinks of reorganizing his army some manufacturer of rifles wants to hear about it in time to send an agent over there with samples of guns.

After the Charleston earthquake Maj. Powell, of the United States geological survey, wrote to the bureau: "Clip all criticisms, theories and opinions of value touching the recent earthquake." Two other subscribers, one a famous astronomer, telegraphed to the bureau to add "earthquake theories" to their previous orders, and a queer collection of crankisms he must have got. One subscriber wanted all death notices promptly, and located himself near the bureau to get them as soon as printed in city papers. As soon as he got a death notice he would rush around and try to sell a new kind of mourning card to the bereaved relatives. An enterprising undertaker also subscribes for death notices.

**SOME CURIOUS ORDERS.**

The bureau gets some very curious orders, of which the following are examples: "Curious surgical operations," "The intelligence of dogs," "Fashion articles describing new dresses on the stage or at balls, or describing the styles of new buttons introduced," "Bank robberies," "Forgeries," "Socialistic fomentations which may lead to riots," "All libel suits," "Appearance of cholera and contagious diseases," "Utah legislation and Mormonism," "Large forest fires," "Woman's suffrage," "Love, courtship and marriage," "Engagements of prominent society people," "Liquor traffic on the Congo and Niger or any part of Africa," "Impure water supply of cities and towns," "Railway development in China," "Chess," "Precious stones," "Water filtration," "Amateur acting," "Bartholdi's Liberty," "Conundrums" and "Grindstones."

Such a bureau is the whispering gallery of journalism. The obscure country paper edifies its readers with a slashing editorial on grinding railway monopolists, and when the editor takes his summer vacation and writes to the superintendent of a big road for a pass all over the country he wonders why he doesn't get it. The explanation is that the president of that road has had his attention called to everything said about his company in the public press.—New York Cor. Philadelphia Times.

**General Advertisements.**

**The Equitable Column.**

**THE EQUITABLE**

**Life Assurance Society**

OF THE UNITED STATES.

Total Assets, Dec. 31, '86, \$75,510,472.76

Total Liabilities, including legal Reserve on all existing policies (4 per cent Standard) \$59,154,597.000

Total Undivided Surplus over Four per cent Reserve, \$16,355,875.76

Of which the proportion contributed (as computed) by Policies in general class, is \$ 5,728,761.76

Of which the proportion contributed (as computed) by Policies in Tontine class, is 10,627,114.00

Upon the New York State Standard of 4 1/2 per cent interest, the Surplus is as computed, \$20,495,175.76.

New Assurance written in 1886, \$111,540.203

Total Outstanding Assurance, \$411,779.098

Increase of Premium Income, \$2,810,475.40

Increase of Surplus (Four per cent basis), \$3,409,636.63

Increase of Assets, \$8,957,085.26

In actual Surplus (namely the excess of accumulated funds over liabilities); in Premium Income; in the amount of Assurance in force on its books, the Equitable Life Assurance Society of the United States exceeds every other life assurance company, and may be justly regarded as the largest and strongest life assurance organization in the World.

**EXAMPLE**

Of Policy No. 67,389. Life. Issued Jan. 22, 1872, on the life of W. H. C. Date of expiration Jan. 22, 1887.

Amount of Policy, \$10,000. Tontine Period, 15 years. Age 53. Annual Premium, \$543.10.

Total premiums paid in 15 years, \$8,146.50

**1. CASH VALUE,**

Consisting of Reserve, \$3,856.30

and Surplus, 4,199.80

\$8,056.10

**2. PAID-UP VALUE. . . . \$13,050.00**

If the policy-holder select this settlement, as the paid-up value is larger than the original amount of assurance, a satisfactory certificate of good health must be furnished, or the excess must be drawn on a cash basis.

**3. CASH SURPLUS. . . . \$5,199.80**

Under this settlement, the policy holder withdraws the surplus in cash, and retains the original policy, continuing the payment of premiums, less annual dividends.

Three other options are available under this Policy.

The policies with 10-year Tontine periods do not show results as satisfactory as those above given. Policies with 20-year periods, on the other hand, will show much larger results than those with 15-year periods; but for purposes of illustration the 15-year policies—those of the intermediate period—are given as fair illustrations.

The longer period of accumulation which the 20-year policies enjoy renders them the most desirable for those who, seeking absolute protection at the lowest "Life" rate, desire also the largest returns in case they live:

Hence the Best Free Tontine "Ordinary Life" Policy is One with a TWENTY-YEAR TONTINE PERIOD

The Free Tontine Policy of the Equitable Life Assurance Society is unrestricted after one year, incontestable after two years, and is then PAYABLE in the event of death, immediately upon the receipt of satisfactory proofs of death.

It guarantees a full share of the surplus earned, and being issued by a Society holding a

Larger Surplus than any other Assurance Company,

May be expected to show larger profits than the policies of any other company.
