LATE NEWS.

We print a full page supplement of the ADVERTISER with the world's ing on the space reserved in our reguand the public will appreciate this effort to keep abreast of the times in general and local intelligence.

The news is important in many respects. The Central American war appears to be developing into a very serious business, which may lead to international complications outside the Central American States. England has her hands full, however, and does not care to interfere, although if the report be true that an English ship was fired on at Colon, active intervention may become imperative. The United States Government only intends to use moral suasion, but 3 00 this will not go any great length in deterring Barrios from pursuing his policy of headstrong ambition.

Riel, the half-breed, is again on the war path in Manitoba, and is backed by Indians and half-castes like himself. They are well armed, and number over two thousand men, but have no artillery. It is a very serious business for the colonists in the far northwest, who are practically deof the harbor department, but this | prised to learn that the Irish Fenian | Lieutenant Governor of Punjaub, with would have to be made good from to the rebels. The Indian cavalry were routed, and the army was in retreat, when Irish sabers changed the fortunes of the day, and converted a disaster into a dear-bought victory. It is very evident that the British will have to fight their way, inch by inch, through the desert to Khartoum. The fight in question has been disastrous in so far that it has paralysed the transport system, 1,000 camels, besides horses, having been slaughtered by the Arabs. Lord Wolseley has gone into summer quarters at Dongola, and ordered the abandonment of Korti, and the concentration of his troops. The Mahdi's adherents declare that the retreat of the British to-day the wives of the soldiers atwill be cut off, but as they do not tempted to secure attention to their

LONDON, March 31st,-Sir Stafford Northcote, in the House of Commons this afternoon, asked the Government if anything further had been received from Russia concerning the Afghan negotiations. The Marquis of Hartington replied by refusing to give any information, and in explaining the reason therefor, he assured the House that he was not using any mere conventional phrase and was not inspired by any wish to evade discussion when he stated that the Government deprecated in the strongest terms all attempts to induce the Ministers to enter into any detailed statement at the present time.

NEW YORK, March 31st. - The war between France and China is affecting the tea trade. Prices are low at present, but the stock in the city is 3,500,000 pounds less than at the same time last year. / Importers seem willing to hold what they have. Formosa, which furnishes two-thirds of the Oolong teas brought into this country, is cut off, and the entrance to Feechow, an important station, is filled with torpedoes. Several tea firms were interviewed yesterday, but they seemed at a loss to determine what course the market would take.

The wounded Two officers and 26 men of the British and one officer and 10 men of the Indian or tingent. The infantry behaved with

steadiness. The number of rebels is

estimated at 4,000. The rabel loss is not known, but the heavy engagement lasted five hours. The Arabs carried off all their dead and wounded. Numbers of Osman Dinga's men are deserting. The Arabs maintained a steady rifle fire, retiring slowly from each position held by them and avoiding close quarters." The Indian troops charged the Arabs' position, but were outflanked by an unsuspected body of Arabs, who succeeded in getting behind their lines. The Indians found themselves between two fires and fled. They were closely pressed by the Arabs, who hamstrung their horses and speared the riders. The Bengalese fell back in confusion upon the English infan-try and the Guards, who had been formed in a hollow square, and the square leisurely retired, while Arabs were yelling that they had regained their lost position. The artillery came to the rescue, and a brisk fire of

small shot from the machine guns and shells from the Krupp field mortars drove the Arabs from their positions. The marines maintained steady firing but the honors of the day are due to the Irish Lan-cers, who changed the tide of battle by a desperate charge and retrieved the fortunes of General Graham's command when they seemed almost hopeless. The Guards were perfectly cool, joking among themselves until the moment of charge. The rebels showed admirable courage, but appeared bewildered. The British followed the fleeing Arabs, pouring a hot fire at every point and never allowing them time to concentrate. The rebels contested the ground inch by inch Our attack was scattered and irregular, with a brisk fusillade in all directions and the artiflery shelling the enemy from various positions. General Graham telegraphs to General Wolseley that the re-sult of operations has been to establish a strong position commanding the Hasheen valley and protecting the right flank of the line of communication in the ensuing operations against Tamai. All portions of the force, he says, worked admirably and gal-lantly on very difficult ground, covered with high thorn bushes and occupied by an agile and determined enemy, thus showing the troops were able to master the Arabs in any position The total loss of the British was 11 killed and 49 wounded. The British troops have returned to this point. Osman Dinga sent re-enforcements, numbering 1,000, to Hasheen on Thursday night to assist in opposing the British. The rebels have returned to Berti and Shukuk pass and are fortifying those places. The name of the new prophet is El Santaosi. The latter has accused El Mahdi of disobeying the Koran. Ferry represented that the Government would request a credit of 40,000,000 francs on account of military operations in China. Ferry at once moved for the appointment of a committee to examine and report upon this credit, and he demanded that the motion be given priority. The Riel Uprising.

Winnipeo, April 1st.—The Stonies and Crees joined the other bands yesterday in the attack on Battleford. They killed James Payne and George Applegarth, farm instructors, and two settlers, and burned a large number of settlers' houses. All the buildings in Battleford were pillaged and burned. It is supposed that Big Bear's band and the Fort Pitt Indians will also join in the rebellion. Big Bear, with 800 warriors, is with Riel, who, it is now said, has 2,000 armed men, but no field pieces. It is not known when Middleton will order the advance of the troops.
