SAVING THE GAINSBOROUGH.

At 2 P.M. Sunday the wrecked bark was successfully pulled off the beach by the tug Eleu—The above represents her as she appeared passing the lighthouse in tow of the tug.

[Sketched by an Advertiser Artist.]

GAINSBOROUGH SAFE IN HARBOR.

Pulled Off the Reef by the Eleu Sunday Afternoon.

GOOD PURCHASE FOR OWNERS.

Working Against Difficulties—Satisfactory Results of the Efforts of Captains Ward and Calway—Will be Docked Today—But Little Damage to Hull—To be Repaired.

The bark Gainsborough from Newcastle, N. S. W., which went on the reef opposite the lookout station at Diamond Head on the morning of August 29, was safely taken off at 2 p. m. yesterday and towed to a point near the railway wharf where she now lies. After the wreck was bought by Allen & Robinson Captain Thompson of the bark S. C. Allen was given an interest in her to take her from her position. He sent schooners to the vicinity and removed a lot of her cargo of coal between decks, but he had to leave with his vessel for the coast and he transferred his interest to Captain Calway, late of the Waimanalo. Captain Calway continued in the same plan and when about 350 tons of the cargo had been taken out of her the Amelia, Captain Ward, arrived in port. As the captain has had experience in this line of work Mr. Allen sent him out to the wreck with the request that he examine her position and give his opinion of her condition.

On his return Captain Ward reported that the work was all right, but that it could be accomplished quicker by the use of an engine and pump. This suggestion was carried out by securing the necessary articles from the Oahu Railway Co. With much difficulty they were put on board, but the fire box in the engine was so small and the defects in the pump so numerous that it was four days before the pump could do much. When it was in order a six-inch stream of water was forced out of the pipes and in a few hours the twenty-one feet of water in the hold had lowered a foot. As the vessel had listed to starboard and the water was coming over Captain Ward ordered the hatches battened down so as to keep out all the water possible.

When sufficient water was taken out the vessel swung round on an even keel and the men were set at work throwing coal overboard so as to make her as light as possible. Seventy tons only were lost in this way, but the loss was a profit in other ways, as it enabled the owners to get the vessel off in much quicker time. Yesterday morning the between decks was free from water and all that was in the vessel was in the lower hold. Captain Ward went ashore and telephoned the owners that he believed the vessel could be pulled off at high tide, and at 10:20 the tug went out, reaching there an hour later. Lines were fastened on the stern of the Gainsborough and the tug started. The vessel moved about a foot and then sank down and

it was some little time before another attempt was made. This time the movement was scarcely perceptible, but the natives on the wreck felt it and sent up a shout. A few minutes later the vessel was in deep water, floating like a duck. She slipped two anchors and a hawser, but these were of little consequence compared with the valuable vessel. They were given to the Luka as a prize and there is no doubt they will be picked up.

The damage to the Gainsborough is slight. Captains Ward and Calway believe the only hole in her is in the bow, just forward of her water-tight compartment, and this fact made it possible to save the vessel. When Calway boarded her he closed the sluice opening from the hold into the compartment, and this prevented more water coming into the hold. It was an easy matter to pump the water out so long as the amount going into the vessel was that which passed through the hatches.

Captain Ward stated last night that the hole in the bow was the only serious injury to the ship. She bumped on the rocks for a time, but not long enough to do more than bend one or two of her plates. The bulwarks on the port side were washed away and that on the starboard side was torn away by Captain Ward's instructions, in order that the discharging of her cargo might be facilitated.

When the vessel was brought into the harbor she was towed over by the railway wharf and anchored. She was making very little water, and it was not deemed necessary to have the pumps work except at intervals during the night. Today she will be docked and the 900 tons of coal in her hold will be discharged. A diver will probably go down this morning and ascertain the extent of her injuries, and when her cargo is removed the Gainsborough will be put on the marine railway and repaired.

The Gainsborough is an iron bark, built in London thirty years ago. Her dimensions are: Length over all, 230 feet; gross tonnage, 1,039; net, 974. When she went on the reef she was in charge of Captain McPhail, who had been master of her for the past twelve years. Before abandoning his vessel he consulted some of the most experienced seamen at this port, and acting upon their opinions he turned the wreck over to the Marshal and it was sold a day or two after at auction. There were few bidders and it was knocked down to Allen & Robinson for \$1,825. Marcus Colburn put in a claim for salvage, but it was not allowed.

It is difficult to get the exact value of the vessel, but it is variously estimated at from fifteen to twenty thousand dollars. He saved cargo of 1,200 tons of coal may be put down at \$6,000, and this will probably pay the expense of bringing her into port and making all the repairs necessary on the vessel. It is conceded by every one that Allen & Robinson made a good buy.

Detective Kaapa and a posse raided a gambling joint on Maunakea street last night and caught eleven natives and one Chinaman indulging in the game of Russian War. They will have a hearing today.

The names of fourteen drunks Saturday night filled up the police blatter. Daily Advertiser 75 cents a month, delivered by carrier.

SUDDEN DEATH OF JUDGE S. L. AUSTIN.

Expires at Waimea while on His Way to Court.

END OF AN HONORED LIFE.

A Resident of the Islands for Nearly Twenty Years—His Long Term as Judge—Respected by all—Remains Sent to Hilo—Candidates Mentioned for the Vacant Judgeship, Etc.

The Ke Au Hou arriving on Saturday morning brought down news of the unexpected death of S. L. Austin.

THE LATE JUDGE AUSTIN.

Judge of the third and fourth circuit at Waimea, Hawaii, on Friday morning last.

The late jurist was on his way to attend a term of court at Kau and was resting at Waimea preparatory to taking the long hot ride across the lava beds. He has not been in good health of late, but his ailment was nothing more than is common with men of his advanced years. He complained of feeling unwell on Thursday night and told his daughter, who was traveling with him, that he would retire early. He grew worse in the night and the next day at eleven he died.

The fact was communicated to his family and Sheriff Hitchcock in Hilo and arrangements were made to have the Kinaiu stop for the remains and take them to Hilo. Deputy Sheriff Yates was instructed to go to Honolulu and communicate the fact of the death to the executive and the Chief Justice. A

meeting of the executive was called at once and it was decided to request Antone Rosa to proceed to Hawaii by the steamer W. G. Hall and sit as judge. It is understood that Mr. Rosa yielded reluctantly and will leave on Tuesday.

The dead jurist was born in Buffalo, New York, in April, 1825, and came to Hawaii when quite a young man. On his arrival in Hilo he entered a mercantile house as clerk, at the same time pursuing his studies in law. In 1852 he was admitted to practice in the courts of Hawaii by the Supreme Court. In May, 1887, he was appointed judge of the Kohala circuit. In 1891, under the new law, which required one judge for the Third and Fourth Circuit, Judge Austin was again appointed. His brother, James W. Austin, was a resident of the islands in the early 50's and for a year was second associate justice of the Supreme Court, a position which he resigned on account of ill health. His death abroad, was recorded a year ago. Another brother was Jonathan Austin at one time a cabinet minister during the monarchy. His sister is the wife of Rev. O. H. Gullick and resides in Honolulu.

Judge Austin leaves a wife and six children. Mrs. Austin is visiting four of her sons who reside in California, One son, Herbert, and a daughter, Hattie, reside in Hilo and the funeral will be under their charge as Mrs. Austin will not return for several weeks.

The death of Judge Austin marks an epoch in the political history on the big island, because in the appointment of a successor the executive is placed between two huge fires. Hilo has its candidates from each political faction and Honolulu lawyers will press the claims of others, but with the recognition Hilo will claim for the big island, it is reasonable to suppose the plum will go there.

From the fact that Antone Rosa has received the temporary appointment unsought against Gardner Wilder, a resident of Hilo who is a possible candidate now visiting here, it may be possible that the action of the executive in appointing a Honolulu lawyer may be endorsed by President Dole and the position given to Mr. Rosa permanently.

Both Senators Lyman and Holstein are out of the race according to the new law which provides that Senators cannot be appointed to other positions during the term for which they are elected. D. H. Hitchcock would probably not accept the place if it was offered him, owing to his failing health. Gilbert F. Little, the most prominent and successful lawyer in Hilo, would probably decline for the reason that his practice pays him better than the judgeship. The permanent appointment will not be made until the president returns to Honolulu, and perhaps not until after the Hawaii term closes.

In 1855 there was a fire in Constantinople which destroyed 2,800 buildings, shops and bazaars.

Safe Deposit Boxes

WE HAVE A FEW MORE BOXES
in our Safe Deposit Vault which are
not yet rented. There are four sizes,
varying in price from \$12 to \$30 per
year. Any private papers left in
these boxes are perfectly safe, as the
vaults are fire-proof and are fitted with
time locks, which makes them absolutely
burglar-proof. There are two
keys to each box, both of which are
given to the party renting box, and
should these keys be stolen they
would be useless to bearer, as he could
not open the box without our master-
key being first inserted.

Parties leaving the Islands for their
summer vacations will find it a con-
venient place to leave any valuables.
Boxes can be rented by the month or
year as desired. Apply to

MISS BALDWIN IS NOW MRS. WEDDICK

Wedding Ceremony at Haiku on
Wednesday Last.

THEY WILL RESIDE AT EWA.

Professors Koebele and Perkins at Haleakala.
Drought Injures Maui's Only Coffee Plan-
tation—Census Taking Brings Out Some
Amusing Incidents—Another Engagement.

MAUI, Oct. 3.—The wedding of Win-
fred Morris Baldwin and Dr. John
Weddick was the pretty occurrence of
Wednesday evening, September 30th,
at Glenside, Haiku, the beautiful resi-
dence of the bride's parents. The pre-
vailing tone of the interior decoration
was pink. Pink roses, begonias and
other flowers of a ruddy tint were ar-
ranged in most lavish profusion. Dainty
rosebuds attached to satin ribbons
were pendant from the large green can-
opy under which the bridal party
stood.

The bride appeared most lovely in
a handsome gown of white silk and
lace, wearing the traditional veil and
bearing a bouquet of white carnations
in her hand. Miss May Baldwin in a
pretty costume of white and pink was
maid of honor, and Charles W. Bald-
win acted the part of best man. Mr.
F. E. Atwater played Mendelssohn's
wedding march.

After the solemn ceremony by Dr.
E. G. Beckwith, many hearty congratu-
lations were offered, and afterwards
there was dancing between the hours
of 10 and 12.

Among those present were Mr. and
Mrs. D. D. Baldwin, Mr. and Mrs. B. D.
Baldwin, Mr. and Mrs. F. E. Atwater,
Mrs. E. D. Baldwin, Mrs. L. M. Bald-
win, Mrs. Henry Dickinson, Mr. and
Mrs. C. H. Dickey, Mr. and Mrs. C. D.
Loveland, Dr. and Mrs. P. J. Aiken,
Mr. and Mrs. W. O. Aiken, Mr. and
Mrs. S. E. Taylor, Mr. and Mrs. Lem-
mon, Mrs. H. B. Bailey, Mr. and Mrs.
G. E. Beckwith, Mrs. Thurston, Mr.
and Mrs. G. Gilhus, Mr. and Mrs. Peter
Noa, Misses Millie Beckwith, Lucy
Hayselden, May Hayselden, Mattie
Birge, Lillian Aiken, Kate Fleming,
Nellie and Eva Smith, Kate Watson,
Ida Leonard, Nellie Crook, Messrs.
Edward Bailey, C. W. Baldwin, Willow
Baldwin, Harry A. Baldwin, Walter
Hayselden, J. J. Hair, F. S. Armstrong,
George S. Aiken, W. E. Nichol, H.
Howell, Higby, G. Wilbur and others.

Prof. Koebele and W. C. L. Perkins
are "doing" Haleakala. Their head-
quarters are near to Punniulau and they
evidently intend to make a long stay.

Ah Mi, the only coffee planter of
Kula, has recently been most unfortu-
nate. The recent drought has destroyed
about half of the 11,700 trees on his
plantation at Kamaole.

Mrs. Campbell, the wife of W. H. C.
Campbell of Waiehe plantation, died
during Sunday, September 27th. The
funeral occurred on Monday, the 28th.
She leaves five children to mourn her
loss.

Miss Mattie Birge of Mexico is the
guest of Miss Aiken of Paia.
Captain Scott of the Honolulu po-
lice force is in Wailuku in charge as
deputy sheriff, so the report is.

Deputy Sheriff King gives a luau to-
day at his residence in Makawao in
honor of his little son's birthday.

The road sprinkler in Wailuku is
run by subscription. A well known
citizen having refused to subscribe, he
now has a bit of very dusty road in
front of his residence.

There was little objection and many
mistakes made during the taking of the
census. One Kula, a native of royalist
opinions, stubbornly refused for some
time to have anything to do with the
census, believing that the foreigners
were trying to trick him into becom-
ing an annexationist. Quite a number
of Portuguese objected, believing that
the filling up of the paper meant an in-
crease of taxes.

There's more than a whisper con-
cerning another engagement in Maka-
wao, making the seventh during the
year.

Dr. and Mrs. John Weddick will de-
part this afternoon for their new
home at Ewa, Oahu.

The brigantine Lurline, J. E. Denny
master, arrived September 28th in Ka-
hului, 18 days from San Francisco.
She brought general merchandise for
the Hawaiian Commercial Company,
and as a passenger the unfortunate
Kinney, who lost both legs in a rail-
road accident at Spreckelsville not long
ago. He made the trip to the coast to
provide himself with artificial limbs.

The Lurline will sail this afternoon
with a cargo of sugar, old iron, etc.
Weather: Dry.

Chautauqua.
The C. L. S. C. is a four years' course
of reading for adults. It is in good

English, by able authors. The books—
five each year—and the required read-
ings in the Chautauquan, the monthly
organ of the circle, may be finished in
nine months by reading forty minutes
each day. Chautauqua means the high-
er education of all people, of all classes
and of all ages.

A new class will be formed in the
parlor of the Central Union Church at
2:15 p. m. today. All are welcome.

From the Apocrypha.
It is impossible to exaggerate the im-
mense indebtedness of English poetry
and Italian poetry to the Apocrypha.
The beautiful lines of Young in his
"Night Thoughts"—

But their hearts wounded, like the wounded
air,
soon close; where passed the shaft no trace is
found—

are evidently to be traced to the verse
in the "Book of Wisdom," "As when an
arrow is shot at a mark, it parteth the
air, that immediately cometh together
again, so that a man cannot know
where it went through." The famous
"Hymn of Praise" in Milton's "Para-
dise" is clearly modeled after the "Bene-
dictio," or the "Song of the Three
Children," in the Apocrypha, as in the
lines:

His praise, ye winds, that from four quarters
blow,
Breathe soft or loud, and wave ye tops, ye
pines,
With every plant, in sign of worship, wave.

It is also to the Apocrypha as to the
book of Proverbs we owe many maxims
which have become household words in
our language and in the languages of all
civilized nations. In the first book of
Esdra, for example, chapter iv, 41, we
find, as the revisers correctly render it,
"Great is truth, and strong above all
things." Here the Latin Vulgate has it,
"Magna est veritas, et prevalet,"
which last word has been in the process
of time converted into "prevalebit,"
and become proverbial in the civilized
world.—Gentleman's Magazine.

In proportion to numbers Denmark
has more cyclists than any other coun-
tries in the world; England comes sec-
ond and Belgium third.

The
pride
of
his
pop
has a big corner in
our hearts. We clothed
him when he was a kid;
and the practice of coming
here with his dad helped to
make the pages of history
that is repeating itself.
The little fellows like us,
'cause
we send him home clothed
as he should be. The big
fellow likes us, 'cause
we do it at so small
cost. The youngsters
ready for school
have been in our minds—
must be in our clothes.

THE PACIFIC Commercial Advertiser.
WALLACE P. FARRINGTON, EDITOR.
MONDAY, OCTOBER 5.

Apropos of Li Hung Chan's remarks upon Chinese exclusion from the United States, the Baltimore Herald was credited with expressing the consensus of American opinion when it said: "Li's only chance of securing a modification will be through persuading his countrymen at home to adopt the usages of enlightened civilization. If they can establish the fact, which is now seriously doubted, that they are susceptible of the enlightenment of Western civilization, Congress may be induced to consider the propriety of repealing the exclusion laws."

The son of a United States Senator who is planting coffee in Mexico says that the less he pays his men the better they work, and they are withal better satisfied with their condition, in consequence of having less money to waste. This is an extraordinary state of affairs, and places Mexican labor on the same plane as a good many individuals who cannot stand prosperity; the only way for them to be kept in condition to work is to allow only starvation wages. Hawaii gets some pretty poor material for labor sometimes, but fortunately it has not dropped to the Mexican level yet.

A Berlin dispatch gives the following story of a man who had several times been photographed under the X-ray: "Dr. Markuse, whose interior has been photographed thirty times within the past twenty days by the Röntgen process, has lost all his hair as a result and his face has assumed a brownish color. The skin has peeled off his breast where the Hittor instrument nearly touched it, and on his back what was first a sore finally developed into a bleeding wound, surrounded by burnt-looking cuticle. The victim is exhausted." If this be true, a man would have to toss up a penny to decide between the X-ray treatment or being put through a thrashing machine.

The death of Judge Austin will open a fight for the Hawaii judgeship that has been simmering for a long time. In fact the position is the most coveted of any on the Island of Hawaii, since the incumbent when once fairly settled need not fear the vaporings and frothings of the opposing factions. There has been no prospective appointment of late years in which the opposing candidates and their friends have taken such an intense interest, an interest so intense in fact that the advocates seem to think the life of the country and the next coffee crop depend upon the action of the President. This paper has comparatively few suggestions to offer until the aspirants begin to show their colors. It seems fitting, however, that the next Judge should be selected from the legal lights of the Island of Hawaii, and that he should be a man who has a good record for activity and ability as a practicing lawyer.

THE RIGHT WILL WIN.

The explanation of the restlessness of the present day as given by Rev. Dr. Birnie Sunday morning was indeed refreshing after the dismal tone which runs through the many opinions now set forth in the pulpit and by writers and orators generally. The pessimist has had and is having a most excellent opportunity to get in his work, and howl like the sick dog baying at the moon, since the preparations for a general election in the United States stirred up the disagreeable sediment of social conditions, which some poor, thoughtless individuals had dared to hope might always remain at the bottom and never attract serious attention.

There is always a class in the world who, after living a few years in peace and contentment, form an idea that the world is pretty nearly as good as it ought to be, and if it has not reached the pinnacle of righteousness the remainder of the pathway will be free from violent demonstration or periods of serious trouble. When on occasions the reality of the inborn cussedness of human nature and the crudeness of the institutions framed by human hands is impressed upon this class, the shock is so great that they immediately turn to predicting that this or that nation, and possibly the whole world, is rapidly rolling on the bow-wows.

In times of political trouble and social revolution there are always more preachers of damnation than of salvation; there are always more men ready to pick out the flaws, to sit back and do nothing, than there are to put their shoulders to the wheel, make the best of the present and exert every energy to bring out every good that may result from an evil agitation. Too many fall to appreciate what a terribly uninteresting place this world would be if all the social and religious problems were solved; too many want to "hush up" matters that give promise

of engendering sharp differences of opinion; they want the next generation to work the thing out, if it won't work out of itself. The men who tremble for the outcome when a nation's strength is being tested, too often fail to see the sound foundation being laid for the structure which must constantly go on being remodelled. A house always looks ungainly while in process of erection, but every homely timber has its place, and in some way adds to the beauty of the finished structure. A great many people in both public and private life would be well to remember the words of a campaign song which runs:

"Though righteousness now and then suffer defeat—
Seem checked like the oak pruned so near to its base—
'Tis but for new strength, when, with armor complete,
Irresistible Right will all error displace."

That wheat and silver always go together—when silver is used as primary money wheat brings high prices—has been a regulation cry of the enemies of sound money. The men who believe that the law of supply and demand will properly regulate the exchange and prices of all products seem to forget their standard principle when they come to discuss wheat. The facts show that the decline in the value of wheat since the seventies has resulted from excess of production in comparison to the consumptive demand. From 1869-72, inclusive, the United States annually produced an average of 244,387,750 bushels. In the four years 1892-95 the average crop was 510,000,000, according to the Cincinnati Price Current, which is generally considered a better authority than the Department of Agriculture. "The population of the United States increased perhaps a little more than 60 per cent. during the period covered by these figures, while the wheat product more than doubled. Besides, Russia and the Argentine Republic have greatly increased their exports of wheat to the world's markets." What terrible influence the price of silver could have in this case the silver men have failed to fully explain.

PERSONAL AND PECULIAR.

WONDERFUL IF TRUE.
F. W. Damon, of the Chinese Mission, and Fred Smith, of the Railway, the gentlemen by whose suggestion The Star was the first paper to urge the idea of a park on the new district above King street bridge.—Saturday's Star.

The largest man ever enlisted in the British army was Lieutenant Sutherland. His height was eight feet four inches, and his weight 364 pounds.

According to the Chinese Consul at San Francisco there are not more than 12,000 subjects of the Chinese Emperor now living in that city, and they are leaving at the rate of 8000 to 4000 a year. The proportion of those who return to those who depart is small. Evidently the almond-eyed knights of the tub in Frisco have laid aside enough good American dollars to see them comfortably through a long spell of rainy weather.

The report of a Hindu woman lawyer conducting the defense in a murder trial at Poona is a story to make the young legal women of America green with envy. None of them has yet attained the distinction of a murder case, and here is Miss Lorabji, who took her degree at Oxford, England, only three years ago, triumphantly clearing her client from the ugly charge. Miss Lorabji is the only woman lawyer in Asia. She is not allowed to practice in the Courts in the native States, but Poona is in British territory.

Coma, the birth-place of Volta, the eminent physicist, who gave birth to electric science by his invention of the voltaic battery, will celebrate the 100th anniversary of his invention in 1899.

Every season has a crop of cant phrase or slang, which quickly die out. This year the two most quoted expressions are "any old thing" and "nit" and it is remarkable to hear and notice how universal they are, being quite as pat upon the lips of men in the clubs and fashionable women on hotel porches as among the children of the slums.

"The wooden nutmeg makers of Connecticut have to yield the palm to the English egg collectors," said B. F. Martin of San Francisco. "The islands along the Pacific coast are infested with thousands of gulls that build their nests and rear their young there. English egg men have begun to purchase these eggs in such quantities that galleries are being established along the coast, and the export of gull eggs bids

fair to almost equal the exportation of California fruit in value. There are millions of the eggs on the islands. The remarkable thing about it is that the gull eggs, as such, are not saleable in England except to the dealers. They are the size and shape of some eggs that are rare and valuable, and the Englishmen palm them off on collectors as very rare and valuable specimens, coloring them when necessary to carry out the deception."

In the year 1700 over one-half the city of Edinburgh was destroyed by fire.

Henry M. Stanley is quoted as saying: "When I was at Lake Victoria, 18 years ago, there was not a missionary there; now there are 40,000 Christians and 200 churches. The natives are enthusiastic converts and spend their last penny to acquire a Bible."

It is said that the cost of living in Samoa is two or three times as great as in the United States.

Tesla says he will soon be able to telegraph through space without wires. This is being done in a small way already at the Fastnet Lighthouse on the coast of Ireland. The cable comes within 60 yards of the rock, and the dashing waves prevent it coming any nearer. The ends of two wires hang over the rock and the current flashes from the cable over that 60 yards space to the hanging wires and thence overland.

Henry Cockane Cust, formerly editor of William Waldorf Astor's Pall Mall Gazette, intends to enter upon a Parliamentary career. To this end he is going to make himself thoroughly acquainted with the dark continent, and has already started on a journey from Cape Town to Alexandria.

THIS DAY!
AUCTION SALE OF
WOODEN BUILDINGS

ON MONDAY, OCT. 5, 1896.

At 12 o'clock noon, on the premises, corner of King and Alakea streets, I will sell at Public Auction

Merit French Kids!
Made and Merit Maintains the confidence of the people in Hood's Sarsaparilla. If a medicine cures you when you are sick; if it cures your neighbors and your friends when they are ailing; if it makes wonderful cures of many diseases everywhere, then beyond any question that medicine possesses merit. That is just the truth about Hood's Sarsaparilla. Prepared by a combination, proportion and process unknown to other medicines, it has curative powers peculiar to itself. We know it possesses great merit because it has

Made French Kid Gloves
In All Shades and Sizes.

Hood's Sarsaparilla

The One True Blood Purifier. All druggists. \$1. Hood's Pills cure liver ills; easy to take, easy to operate. 25c. HOBRON DRUG COMPANY, Wholesale Agents.

Bad Men

Cannot steal your door mats if you use our Hartman Steel Wire Mats. They never wear out, and are handy to have in the house, especially in rainy weather; which last remark reminds us that we have a line of Rain Gauges which will be of service to you at this time of the year.

HASH?

Perhaps you do and don't know it. You see it's sometimes made into croquettes. We handle a splendid Meat and Vegetable Chopper, which operates by a crank and walking-beam attachment, the knives chopping and revolving the food so as to mince it properly.

You can own a Shoe Stand without being a bootblack. We have a serviceable, useful article that screws to the wall and has compartments for brushes and blacking, with foot-rest projection.

Does your daughter like pets? Yes! Then she undoubtedly would prefer a canary, in one of our Brass Bird Cages, to reed birds on a chafing dish. We have three sizes of cages, and sell them from \$2.50 to \$4.50, as well as painted wire cages from \$1.25 to \$2. Get one, and your canary will say the same as we do, that they are "Cheap!" "Cheap!"

The Hawaiian Hardware Co.

THE Assortment

Is the thing that catches the eye of the public; the price is governed mainly by the pulse.

In good times when money was plentiful, high prices prevailed, but when the purse strings were drawn,

Prices Came Down.

We give you a better assortment to pick from and better furniture today for much less money than we did a half dozen years ago.

Prices today are at bed rock and can never be lower. We are not fearful of competition on prices we have now, for the same quality of goods.

In our jobbing and repair department we have the best materials and employ only the best workmen. No one can do the same class of upholstering we are doing, and our charges cannot be met.

RUFE EISELE'S BILLIARD BALLS.
They Were Not Ivory or Celluloid and Were Never Turned.
"How does it come that you have red, white and blue billiard balls?" asked the whip salesman of Rufe Eisele, who keeps the Brant House at Sloop Creek. "Tis kinder extraordinary, ain't it?" said Rufe. "But somehow or another extraordinary things happen down here. You wouldn't believe it if I told you that I had them balls afore I had the table. I bought the table for \$40 from Bart Greenleaf, and he won it at a raffle up to Asbury. That table's wuth plum \$250, and the balls is just a gift of nature—come by a special act of Providence, you might say. You never see balls just like them before. They ain't ivory, and they ain't celluloid. If they was celluloid, they wouldn't be here now. They ain't this patent putty composition that they make cheap pool balls of either. Just what they are I ain't prepared to say, and I 'spect that the nature of the material these were made from is changed from what it was at first."

"I'll tell you how I come by 'em, and you'll learn what extraordinary things can happen down hereabouts. A year ago the 13th of June there was a party of Brooklyn fellows down here, and they set out for a good time. They fetched cards and chips with them and 'loved to play poker until 4 o'clock in the morning and then go fishing. I set up with them and took a hand in the game. We were setting at that round table, and it was pushed over in the corner between them windows. 'Long about 12 o'clock I was mixing drinks for the crowd, when I heard thunder and mutterin and see flashes of lightning. I told them fellows they'd better move away from the windows, but they laughed at me."

"One fellow had been winning right straight along. He had a big pile of chips in front of him, and they was in his way. So he began stacking them up according to color and laid 25 of each kind in stacks side by side on the window sill. Meanwhile the storm broke and the lightning played hob around the house. The party got kinder scared and jumped up promptly when I proposed to all to go to the bar and have a drink. I was just setting out the glasses when there was a swish of lightning that turned the whole air blue. I didn't hear any thunder, but I see big balls of fire dancing round the room, and one of them hit me right on the breast and knocked me down behind the bar. Every man in the room was hit plumb in the gizzard with a ball of fire and knocked flat. I don't know how long it was before we all come to and took our drinks, but I do know that the storm had passed. I looked round and was surprised to find that nothing had been hurt. After the fellows all took their drinks they wanted to play poker again and started for the table. There the fellow that had won most of the chips put up a holler about them. He said somebody had got 'em."

"I didn't b'lieve that possible, and I told him that the lightning had probably knocked them offen the window sill. Then he looked on the floor under the table and said, 'I don't see no chips, but here's a billiard ball,' and he picked up a red ball. Now I never had a billiard ball in my house before, and I thought that he was playing a trick on me until one of the other fellows moved his feet and rolled a white ball out on the floor. I picked it up and found it was hot. A minute later Ike Hicks gave a whoop and held up a blue billiard ball, saying it was the first he ever seen in his life. Then it come to us all at once that the lightning had struck them poker chips and melted 'em into solid balls. P'raps they ain't quite as regular as some, but they answer all our purposes."—New York Sun.

ART AMONG THE ESKIMOS.

Clever Carvers in Ivory and Some Who Can Sketch.
We did much entertaining, as we were continually visited by different members of the tribe of 200 or more. They were content to sit and share the warmth and shelter of our house and gaze on the curious things it contained. They would turn the pages of a magazine by the hour, and, holding the book upside down, ask questions about pictures. What particularly pleased them was anything in the shape of gun, knife or ammunition. Of eating they never tired. The amount of food they consumed was astonishing, and they particularly reveled in our coffee, biscuit and pemmican. This love was manifested by a little ditty that they sang quite often:

Uh-bise-ken.
Uh-pem-ken.
The women are very clever with the needle, and as most of us had adopted the Inuit boot of sealskin which required frequent mending, they were always in demand. In mechanical ingenuity they are remarkable. Both men and women are carvers in ivory, and the tiny figures—human as well as animal—that they fashion in this material, although somewhat crude, show no mean ability. This skill is also to be remarked in regard to the use of the pencil. One of them, As-oy-e-yeh, drew from memory a steamer in perspective, with the reflections in the water, and that, too, in a suggestive and artistic way.—Frank Wilbert Stokes in Century.

In the Cornmeal Age.
Mrs. Claude Wright—How do you like those biscuits, dear?
Mr. Claude Wright—A trifle heavy, love. But, then, you are somewhat out of practice.
Mrs. Claude Wright—If you'll believe me, pet, I haven't made a mess of biscuits before since my first reincarnation, 5,000 years ago.—Buffalo Times.
The height of ability consists in a thorough knowledge of the real value of things and of the genius of the age we live in.—Rochefoucauld.
The Princess of Wales has an annual allowance of £10,000 for pin money.

PRESENTATION TO BISHOP.
Play at St. Louis College and a Watch and Chain Presented.
The pupils and friends of St. Louis College met Saturday night at the music hall and presented for the entertainment of Bishop Report the drama—The Proscribed Heir. Before the performance began the college orchestra rendered some delightful music. During an interval the bishop was presented with a handsome gold watch and chain appropriately engraved and with the photograph of the Bishop on dial. This was in appreciation of the kindness of the venerable prelate in providing the students and scholars with an amusement hall and theatre.

TO VISIT THE STATES.
Minister Cooper will Make an Extended Visit to Old Home.
Minister of Foreign Affairs Henry E. Cooper will leave by the Monowai for a two months' visit to the United States. While away he will visit friends in California and at his old home in Boston where he studied law and was admitted to the bar. Minister Cooper will also call on Minister Hatch in Washington and will no doubt meet the members of Mr. Cleveland's cabinet. The rumor, based upon the fact that Mr. Hatch would not leave his house for another year, that Minister Cooper will succeed Minister Hatch in Washington is authoritatively denied.

SCHOOL FOR WITNESSES.
A school for instructing witnesses in the art of giving testimony in court is at present in successful operation in New York. Every detail in court trial is carefully rehearsed in this novel institution, and witnesses are fitted to appear for trials by experienced instructors for so much per hour. The school is not intended to train witnesses to give manufactured evidence. The instruction given is perfectly lawful. It is principally intended for green witnesses who are not familiar with court procedure. An experienced lawyer studies the case which is to be presented, and teaches his strange pupil the ways of lawyers, and fits him as well as possible to repeat it without the slightest contradiction under the sharpest cross-examination. This novel court room is furnished as nearly as possible in the same way to make the witness under instruction so familiar with the arrangement of the bar that he will feel perfectly at home in the court.—New York Journal.

Have you ever been in one of the great weaving factories, and seen the curious fingers pick up the threads one after the other as they are wanted—all machinery? And you see iron and steel working mechanically only, yet working out the plan which wisdom and skill devised for them beforehand. So life is a great factory, and the forces that we call forces of nature and life are these busy fingers; but they are doing the work that wisdom and love ordained beforehand they should do, and are working out a pattern that by and by will be completed in the eternal world.—Lyman Abbott, D.D.

Of the 51,000 breweries estimated to be in the world, 25,000 are in Germany.
The Aetna Electric Company, of Connecticut, has devised an X ray apparatus on the nickel-in-the-slot machine order which is reported to be a success.

Indurine.
COLD WATER PAINT
Especially Designed for Inside Work on Factories and Public Buildings.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER, and can be applied by anyone, and will always produce good work.
It is VERY WHITE, extremely reflective and hardens on a wall like stone, and will take any tint.
It will last for years and is unaffected by gases.
One coat covers better than two coats of oil paint or whitewash.
It can be used on any surface and for all classes of work, even for the finest decorating.

OUTSIDE INDURINE.
This is for Outside Work.
Such as Fences, Outbuildings, Laborers' Quarters. It is a thick paste to be diluted with cold water, stands rain and exposure as well as oil paint, and costs but a fraction as much.

Cold Water Kalsomine
Adapted for Dwellings, Offices and Public Buildings or any other place where KALSOMINE is used. It will not rub, discolor or scale off.

LUCOL
A New Paint Oil. It comes raw and boiled; is superior to linseed, and covers with one-third less lead and pigment to the gallon.

AN ARTISTIC SUCCESS.

"Ole Olson" at the Drill Shed Won Deserved Applause.

The Audience Not as Large as the Performance Merited—Actors and Actresses were Better than in the Last Play.

"Ole Olson" with Bob Scott in the title role, was presented at the Drill Shed to moderately fair audience Saturday night. From an artistic standpoint the production was superior in every way to "Under Two Flags" at the same hall a couple of months ago, the members of the company having evidently profited by their experience in that play.

Unlike most productions where the principal is a dialect character Ole Olson is by no means a "one man" play; with one or two exceptions every one in the cast has a part of more or less importance, and while much depends upon the leading character the entire play does not devolve upon him, he does not make the situation in any instance, he simply appears and adds to the climax.

It is always an unpleasant task to criticize a performance where the bulk of the cast is made up of amateurs; the public and the performers are alike, prone to look over defects which would not be tolerated in professionals. In the performance on Saturday, however, there is nothing which merited harsh criticism. Mr. Scott's experience enabled him to stage the piece as it should be and he spared no expense. On the contrary he expended more money on the production than the house warranted. His rendition of the character of the Swede needs no comment; it was as finished as such characters can be, and he left nothing to the imagination of the audience. Mrs. C. D. Wilson, as Genie, understood the character and divided the honors with the star. She had more to do in Ole Olson than in the first play in which the Honolulu public had the pleasure of seeing her and her acting was better. Mrs. Otterson, as Bridget O'Flannigan, was very good, but she was shy on dialect, a defect common with amateurs and one for which the lady should not be censured. Mrs. Lawrence as Mrs. Jordan did much better than before and won applause during some of the scenes. Mr. Morris, as Jordan, and Mr. Bickerton, as Bassett, acted the part of the villains acceptably. Mr. Ramsay, as Dr. Shingle, was a surprise to his friends. Next to Mr. Scott he was the only male character in the cast who made any attempt at make-up. He depicted the centric old gentleman in the able manner. Master Lawrence, as Phillip, did well for a youngster.

PUNAHOU NOTES.

Some Items of Interest to Teachers, Scholars and the Public.

Prof. Albert L. Colsten has just received from Cornell University the Fuertes gold medal for high scholarship. Mr. Colsten is the first to be thus honored by his Alma Mater. He was recently called to be an instructor in the same institution but remains at Punahou.

Miss Florence Kelsey has formed a reading club among the young ladies of the college and readings are held every Thursday. The course is the one outlined in the college catalogue and is the same that is required by all leading American universities.

A football association has been organized with Mr. Joseph L. Howard as president. At a recent meeting the following officers were elected: vice-president, C. A. Howland; secretary, L. J. Horner; treasurer, W. Rawlins; executive committee, Allan W. Judd, Harold Spencer, William Godfrey, Albert Waterhouse, Maurice Damon, F. A. Hosmer. Mr. W. L. Babbitt is captain of the team, the members of which will soon be elected.

Attendance at the China painting classes under Miss French is increasing and the studio in the old school hall presents a very busy scene each day. The large kiln is fired every Friday and outside work is received at a moderate cost.

The classes in algebra and the French language at the Punahou Preparatory School have been quite successful this year under the direction of the principal Mr. Samuel P. French. Students thus trained will enter the college at an advantage.

Minister Damon entertained the entire corps of teachers of the college at his Moanalua residence Saturday.

Professor William T. Brigham has presented the German department a handsome photograph of Tripple's bust of Goethe in the library of the Grand Duke at Weimar.

An excellent photograph of Hon. Charles R. Bishop has been placed in the president's office in Pauahi hall. Punahou Preparatory School drawing classes are peculiarly fortunate in having instruction under the personal supervision of Miss Bessie Foster French.

Capt. Nathan Appleton of Boston will

lecture before the students on the afternoon of Tuesday, Oct. 20.

Facsimile copies of the Magna Charta and Declaration of Independence have recently been presented to the college library, the former by Prof. Wm. D. Alexander.

DARKNESS SEEMED FAMILIAR.

Young Woman Did Not Notice That the Light Had Gone Out.

They were on a tandem, and a straight, smooth road stretched away before them through the park for a mile or more. There was darkness all about—thick, impenetrable darkness—which lay heavy among the trees and betrayed the fact that the authorities had neglected the electric lights, counting on a moon that had failed to keep her engagements.

But they did not mind the darkness. In fact, they rather sought out the more shadowy portions. For there is something about a tandem, if it steers easily, which softens the iron bound laws of custom. The riders are so close together anyway. And if the one on the rear seat leans slightly forward and the one on the front seat leans just a little back, there is no need to sigh for the best of hammocks.

The young man on the rear seat had leaned slightly forward. Moreover, the young woman on the front seat had leaned just a little back. And there was more on the young woman's lips than microbes.

Suddenly they were arrested by a shout—it is said that park policemen never arrest any one in any other way—a deep, full bodied shout that boded ill. "Hi! You! Where's your lamp?"

"They stopped and dismounted. With a burly policeman in the road there was nothing else to do.

"Where's your lamp?" the officer demanded.

They examined the front of the wheel together. The lantern had gone out.

"Why," said the young woman, "why, I never noticed that it wasn't lit. I must have imagined that we were in the parlor at home."—Chicago Tribune.

NEW DEPARTURE!

The undersigned beg to announce that on and after

Thursday Night, October 1st,

THE UNRIVALED

Anheuser Busch Beer

Will be served on Draught at the

"Hawaiian Hotel"

We quote from a letter of Anheuser-Busch Brewing Association, dated Sept. 8th, the following:

"Your honorable firm having represented us for so many years, we believe it is useless to call your attention to the merits of our article, but we should like to repeat again and call your attention to the fact that ours is THE ONLY PURE BARLEY MALT BEER MANUFACTURED, and corn cereuline and other adulterants, as well as acids, for the preservation of beer, are unknown in our establishment. With the above you may go before the public and publish the same.

"ANHEUSER BUSCH BREWING ASSOCIATION."

This beer received the highest awards at the World's Columbian Exposition. No eponium of ours can add to its deservedly high reputation. Its introduction in any and every market establishes it as the favorite. It is without a peer! without a rival! and even without a competitor!

To bring it within the reach of all it will be sold at the prevailing price of

12 1-2 Cents a Glass.

Let everyone get the best for the least money.

LOCAL BREVITIES.

A Japanese boy who reads and writes English advertises for a position.

A coconut tree in a Waikiki grove fell the other day. It measured 61 1/2 feet long.

The children's loyal temperance union will meet at Central Union Church at 2:15 today.

Honolulu Road Club will meet at the club house at 7:30 tonight and indulge in a cowbell race.

Regular monthly meeting of the Pioneer Building and Loan Association at the usual time and place this evening.

The Kobe Immigration Company gives notice that Mr. F. Kamamatsu is no longer authorized to act for that company.

Especially attention paid to muscular control, touch and musical analysis at Cook's music school, Waring building, Beretania street.

Sam McKeague's horse stumbled and fell on Alapai street yesterday and was badly scratched. Neither Sam nor the brake were injured.

The fall opening of millinery goods will take place at N. S. Sachs on Tuesday, Wednesday and Thursday. The ladies are invited to call.

At 10 a. m. this day Jas. F. Morgan will sell at his salesrooms for account of whom it may concern 2000 fruit crates just landed here ex Australia.

Members of the town boys football team will meet at Y. M. C. A. tonight at 7:30 p. m. to elect a captain and transact such business as may come before it.

Mrs. Zeave, a fashionable dress-maker from San Francisco, has reopened the dressmaking parlors of N. S. Sachs, and will be pleased to meet the ladies of Honolulu.

All claims against the British barque Ladas must be presented in triplicate at the office of Theo. H. Davies & Co., Ltd., on or before tomorrow, Oct. 6th, otherwise they will not be allowed.

The two-story wooden building, known as the King Street House, on the corner of King and Alakea street, will be sold at public auction at noon today on the premises by auctioneer Morgan.

The engagement between Mr. William H. Stanley, son of the late Chas. Stanley, Commissary General in H. B. M. Ordinance Department, Dublin, and Miss Juanita F. C. Danford, second daughter of Lady Herron of this city is announced.

At the celebration of the Lord's Supper at the Chinese Church yesterday morning there were eleven young people received into the church on profession of their faith. Seven were children of Christian parents. Of the entire number six were girls.

A representative of this paper saw some beautiful calabashes the other day at J. D. Wicke's, 536 Alakea street. This is mentioned as visitors to Honolulu would be interested should they give him a call. Mr. Wicke himself is an enterprising young cabinet maker and turner.

SHOOTING SCORES.

Practicing for an International Match With a Denver Club.

The twenty candidates for positions on the team of ten to shoot a match with the Denver Rifle Club are now hard at work in their efforts to bring their scores up to the highest possible standard. The match will be shot on Saturday, October 10, between 2 and 5 p. m., two strings of ten shots each at 200 yards. Following is the September record of the Sharpshooters at the range:

The Darlington, Wis. Journal says editorially of a popular patent medicine: "We know from experience that Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that is claimed for it, as on two occasions it stopped excruciating pains and possibly saved us from an untimely grave. We would not rest easy over night without it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. Every family should keep it in the house, for it is sure to be needed sooner or later. For sale by all druggists and dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

MAY PLAY BALL.

Challenge to the Stars from the Maui Base Ball Club.

The management of the Star Base Ball Club has received the following challenge:

"The Maui Base Ball Club do challenge you to a game of base ball to be played at Kahului, Maui, on Saturday, October 10, 1896.

"Respectfully,
"F. W. CARTER, Manager."

The members of the Star Club are anxious to accept the challenge, and will do so if arrangements can be made with their employers to secure a day and a half holiday. If this is done the team will leave on the Kinau Friday morning and return on the Claudine the following Sunday.

It is confidently expected that this can be done, as Saturday will be a quiet day, the end of the quarter having passed and no steamers going out. If arrangements are made by the boys, an acceptance of the challenge will be mailed on the Hall leaving here on Tuesday.

AT EMMA SQUARE.

Usual Band Concert to Lovers of Music.

The Hawaiian Band will give the usual concert at Emma Square at 7:30 this evening. Following is the program selected by Prof. Berger:

The Women Know

Better than the men where good things can be bought cheaply. This fact is likely largely accountable for the predominance of women in the trade at this store.

We sell more shoes to women and children than to men.

It ought to be a hint to the men for they know women are shrewd buyers.

The Manufacturers' Shoe Company.

WHOLESALE AND RETAIL DISTRIBUTORS OF FINE FOOTWEAR

[Price ad written by Honolulu lady]

Ladies, Have You Got

Wheels?

Don't put your fingers in your ears to find out. There is a better way. Go to T. W. Hobron and he will tell you how and where to get the best wheel for the least money. Isn't that a consideration? You don't want to buy a wheel every day or every month, consequently you want one that you can look forward to using for years.

We recommend the **Waverley Belle,**
T. W. HOBRON, Agent. Honolulu.

Grape Juice

For Health.

There's a good deal of medicinal value in unfermented grape juice. It's chief dietetic properties is grape sugar. The sugar of the grape requires no digestion but is taken almost at once into the blood.

That's a reason for taking it for improving your health. There's another reason, perhaps the strongest, why people like

Dr. Welch's Grape Juice, and that is, because it is delicious. No other preparation has such a pure, wholesome, grape flavor. We have sold the others but Welch's is the kind most sought for by customers. It's the best.

To help further introduce this wholesome beverage we put the price right down to bed rock.

Full quarts, 75 cts.; full pints, 50 cts.; full half pints, 25 cts.

Get it of **HOBRON DRUG CO., Sole Agents.**

SHARK EGGS.

Did you see a shark's egg? It is one of the oldest-looking things imaginable, and doesn't have any more of the resemblance of an egg, strictly speaking, than it does of a paving stone.

The second largest drawbridge in the United States is being built between Duluth and Superior, Wis.

AT DIAMOND HEAD SIGNAL STATION, Oct. 4, 10 p. m.—The weather is cloudy; wind light, northeast.

The steamer Waialeale sails this afternoon for Kapaa, at 4 p. m.

The ship Troop hauled in from the stream to the P. M. wharf to load sugar for New York.

The steamship Doric from San Francisco is expected to arrive here tomorrow evening.

The bark Gainsborough was towed into the harbor yesterday afternoon by the tug and is now anchored opposite the railway wharf.

The dredger will come off from the marine railway tomorrow afternoon and the James Makee will take her place.

The Kilanea Hou took a general cargo of merchandise and a great deal of machinery Saturday afternoon for the Kukaian plantation.

The Australia sailed for San Francisco Saturday afternoon at 4 p. m. The usual large crowd was at the wharf to see the popular vessels sail away.

The W. G. Irwin moved from the P. M. wharf Saturday to the O. S. S. Co. wharf after the departure of the Australia. She will probably get away about the middle of the week as she needs 3000 bags more of sugar to complete her cargo.

The four-masted American schooner Defender, Hellingens captain, arrived in port, nineteen days and a half from Eureka. She brought a cargo of redwood for Allen & Robinson and Lewers & Cooke.

TO IMPROVE THE BAY.

Hundreds of Millions in Revenue and a Pittance Expended.

SAN FRANCISCO, Sept. 19.—The dangerous condition of the bay of San Francisco and its approaches and the constant menace it is to the merchant marine, was the theme of a petition, presented to Congressman James G. McGuire by the Grand Jury yesterday.

The petition recites: "This is the only port that has a sheltered harbor between San Diego and Puget Sound, and is the entry port of foreign merchandise via sea within the limits named, besides having a large traffic with domestic ports."

The importance of the foreign commerce alone of San Francisco is shown by the amount of United States customs revenue collected during the past thirteen years, viz: from July 1, 1883 to July 1, 1896, which amounts to the enormous sum of \$94,855,141, an average of over \$7,000,000 annually.

"In view of this enormous sum of customs duties collected, it seems scarcely credible that the total amount expended by the United States Government for the improvement of this port and the approaches thereto, during the past forty-seven years is only \$110,000."

The petition requests Mr. McGuire to use his earnest endeavor with the proper committee in the House to have adequate appropriation made at the present session to secure the relief desired, in whole or in part.

Peculiar Fish.

While the Claudine was at anchor off Kipahouli, Maui, on Friday morning, a fish different from anything ever seen on the Islands was caught by one of the native boys. It was brought down yesterday morning and placed on exhibition in the Hollister Drug Co.

The fish is about fourteen inches long from tip to tip, and five inches from the fin on the back to one underneath. The head is chub-like and the mouth shows three teeth in front, two in the upper and one in the lower jaw. It is light green in color, with two red stripes running on either side from the gill to the tail.

The fish was seen by a number of people on Maui, as well as here, but as yet no one could be found who had ever seen anything like it.

FOR SEASICKNESS.

Here is something new and strange in the way of a cure for seasickness. Its discoverer explains the physiological principles upon which it is based.

He is an Irishman, Thomas Moy by name. Some years ago, when crossing the Irish channel on board a passenger steamer, with a very rough sea, it occurred to him that as the motions of the vessel produced seasickness it might be possible to prevent that disagreeable malady. The vessel has three kinds of motion; a rising and falling motion of the entire vessel; an oscillatory motion longitudinally about its center of gravity; and a transverse rolling motion. Mr. Moy treated the longitudinal motions as having a tendency to drive matter, centrifugally, toward the head and stern, and the rolling motions as having a similar tendency to drive matter outward from the center of such motions.

Now for details. "The entrance to the stomach," says Mr. Moy, "is on the left side of the body, the oesophagus end, and the exit is on the right side, the pyloric orifice; and my experiment consisted in utilizing the longitudinal motions so as to keep the food in the stomach, and utilizing the rolling motions so as to assist the natural operations of the oesophagus in propelling the food toward the pyloric orifice. This I effected by selecting a couch arranged in a line with the keel, lying with my head toward the engine-room, and lying upon my left side."

The experiment, Mr. Moy adds, was entirely successful, and he has always adopted it in rough seas, when a suitable berth could be obtained. It would be interesting to know whether any one else has tried the remedy, and, if so, with what result.

British Barque "Ladas" from Liverpool

All claims against this vessel must be presented in triplicate at the office of the undersigned on or before Tuesday, 6th October, otherwise they will not be allowed.

THEO. H. DAVIES & CO., Ltd. 4422-2t

Pioneer Building and Loan Association

THE REGULAR MONTHLY MEETING will be held at the Chamber of Commerce on MONDAY evening, Oct. 5, 1896, at 7:30 o'clock.

Payments are required in Gold Coin. 4421-2t A. V. GEAR, Secretary.

TO THE PUBLIC.

Notice is hereby given that Mr. F. Kamamatsu left the employment of the Kobe Immigration Company on the 30th of September, 1896, and is therefore no longer authorized to act for said company in any capacity.
