Honolulu Ladies Quickly Form Red Cross Corps.

**MRS. SEWALL THE LEADER**  
Ready Response to the Call—Plans Outlined and Organization Effected—List Now Open.

There was a superb response to the call for organization of a Hawaiian Red Cross Society. The Corps is now established and ready for action. It is in the hands of women capable and earnest. They appreciate the mission, see the opportunity and are ready and willing and supported by funds and counsel.

Nearly 300 of the prominent ladies of the city attended the meeting at the Y. M. C. A. assembly hall yesterday afternoon. Geo. W. Smith, chairman of the Committee of 100 on Welcome to Boys in Blue, called the meeting to order. Dr. Jas. T. Wayson suggested that Dr. Walter Maxwell be the temporary presiding officer. Consent was unanimous.

In taking the chair, Dr. Maxwell outlined the purposes of the meeting and the movement. The proposed organization was one that would commend itself to the support and confidence of all. Association might be effected with the International Society. The efforts of the Red Cross found application wherever there existed human suffering or need or pain. There is work at hand for such an organization. Several thousand more troops will be here in transports. In time there will be returning troops. The society should be imbedded in strong, broad and durable ground plans and should have a leadership that would be representative and confidence-inspiring.

Mr. Smith called upon Dr. Wayson as one who had given the matter some careful attention to present ideas. Dr. Wayson said he had learned of the work of Mrs. Kluegel in visiting the sick on the City of Peking, City of Sydney and Australia and had thought it time that there should be taken steps in the direction of regular organization for the work placed at hand. There will be many men here who can be given needed care and attention under the direction or with the consent or co-operation of surgeons in the various expeditions. Offers have been made of shore accommodations and of assistance. Dr. Wayson suggested these committees: Executive, finance, transportation, visiting, flowers, nurses. As Dr. Maxwell had said, all the physicians of the city would gladly give assistance. Perhaps the chief work will be that of nurses who will labor in watches when needed. His plan would be to visit the ships on arrival, then follow directions of the fleet surgeons.

The meeting now proceeded to permanent organization, with this result: President—Mrs. Harold M. Sewall. First Vice-President—Mrs. S. B. Dole. Second Vice-President—Princess Kaiulani. Secretary—Mrs. F. R. Day. Treasurer—Mrs. P. C. Jones. Executive Committee—Mrs. W. G. Irwin, Mrs. Jas. T. Wayson, Mrs. C. B. Cooper, Mrs. M. C. Widdfield, Mrs. C. M. Hyde.

mittee for the purpose of assisting with the corps of nurses. The vacancy was filled by the election of Mrs. Fred. Macfarlane. These heads of committees were then selected:

Finance—Mrs. S. M. Damon. Flowers—Mrs. John S. Walker. Visiting—Mrs. A. F. Judd. Entertainment—Mrs. S. M. Ballou. Commissary—Mrs. A. J. Fuller. Nurses—Mrs. C. B. Wood.

The transportation will be left to the hospital corps of the National Guard of Hawaii. Dr. F. R. Day, the port physician has consented to report from the transports to the committees. The entertainment committee is created for the purpose of giving some sort of an entertainment to raise funds. Red Cross boxes will be placed today in business houses about the city and will stand as pleaders for money to help the work along.

The list for membership in the Red Cross will be at the Y. M. C. A. and all interested are requested to call and subscribe their signatures.

**Used Lots of Water.**  
The drinking water on the transports was very unsatisfactory by the time the expedition had reached Honolulu. The fluid had been placed in new reservoirs and tanks and had a foreign flavor that was not at all relished. Every ship took all the fresh water from the port that could be stored. Andrew Brown, superintendent of the water works here knew all of the steamer chief engineers in the expedition and rendered them valuable assistance. He figures that the three ships took on here no less than 4,000,000 gallons of fresh water. All of this was from the artesian wells. The valley connections were shut off for three days and the pumps at Makiki and at the corner of Alapai and Beretania were run day and night.

**NOT NEUTRAL.**  
The Reply That Will Be Made to Spain's Consul.  
The formal protest made to this Government by H. Renjes, Esq., Consul for Spain, is brief, couched in the careful terms of the diplomats, and as remarked by a man well up in the affairs of the Hawaiian Republic, "quite proper." It is more than likely that all the correspondence will be read in the Senate this morning. Minister of Foreign Affairs Cooper yesterday prepared and sent this Government's reply to Consul Renjes. The answer is very concise, clear and of few words. It recites that this Republic has failed to make a declaration of neutrality and that its present attitude is due to the close relations which have so long been maintained with the United States. There is cited the fact that a proffer of aid has been made some time since to the United States.

**REPORT PROGRESS.**  
Native Clergymen Here in Annual Convention.

The annual meeting of the Hawaiian Evangelical Society has begun in earnest. The first day was last Sunday when Rev. L. M. Mitchell, who has had so much experience in Micronesia, addressed a large congregation in Kawaiahaoo. On that occasion the lights went out and it was fifteen minutes before enough candles could be procured so that the sermon could proceed. In the meantime the choir sang hymns in the darkness.

Yesterday was the occasion of the meeting of the delegates of the various Hawaiian Sunday Schools all over the Islands. Meetings were held in the morning, afternoon and evening in Kawaiahaoo Church and the results were very satisfactory. The delegates reported a growth of the Sabbath Schools and the promise of a very bright future. Rev. Ekekele was the presiding officer and Rev. Kimikeo the secretary.

**Police Notes.**  
The arrests reported at the police station yesterday were not numerous. The following are the most worthy of note:

Kaiakehuilani for insanity. This Hawaiian woman has already spent some time in the insane asylum. She was released recently, it being thought that she had entirely recovered from her mania. Yesterday she began acting queerly again and it was not long before she was at the police station. She will be examined today and very likely sent back to the asylum.

**THE INCOME TAX BILLS COME UP**  
House Discusses Abolition of Poll Tax—Appropriation Bill Again.

**SENATE.**  
Ninety-fifth Day, June 6.

A communication was read from the House announcing the passage of the House bill relating to tax on incomes and the Senate bill repealing Schedule E in the income tax bill.

The Finance Committee's report was received announcing the schedule of bills for May amounting to \$817.15. The Judiciary Committee's report was adopted recommending the passage of amendments to the law of descent of property.

On the Judiciary Committee's recommendation the House bill passed second reading providing for appeals from the decisions of District Magistrates to the Circuit Judge at Chambers. Third reading was set for Tuesday.

The adoption of the same committee's report carried the House bill through second reading compelling foreign corporations to file annual reports with the Minister of the Interior and not allowing them the special rights for railroads or banking. The bill does not affect existing corporations in these features.

A communication was read by Senator Holstein from Theo. H. Davies & Co., asking that if it was the intention to place a duty on chicory imported into the country it be made not to apply to chicory already on the way to Honolulu. The communication was referred to the Committee on Commerce.

Senator McCandless requested that if the representative of Spain has protested against the use of this country as a base of supplies for the United States, the Minister of Foreign Affairs be requested to furnish the Senate with a copy of the correspondence.

The bill passed second reading providing for taking up estrays on Government roads with an amendment extending the provisions of the act to all Government lands. Third reading was set for Tuesday.

The bill passed second reading authorizing the Minister of Finance to open accounts with local banks. The bill is virtually the same as one which has been in operation, but expired on April 1st. Changes were made limiting the aggregate of loans for the period to \$150,000 and providing that the money shall be borrowed only on account of items specified in the appropriations. Third reading was set for Tuesday.

**HOUSE.**

The major part of the day in the House was taken up with the consideration of Senate bill 4, appropriation bill. This work consisted of the reading of reports and the insertion of various items recommended.

At the opening, Rep. Kaai was granted a leave of absence of two weeks on account of serious illness in his family in Hana, Maui.

The resolution relating to the disposition of the powder magazine, introduced in April by Rep. Isenberg for the special committee to whom the matter had been referred, was brought up for consideration. It will be remembered that the recommendation was to remove the magazine to the Government reef below the old leper hospital and that the sum of \$7,500 be appropriated for such purpose. Upon being brought up the resolution was

adopted and the item mentioned was placed in the bill under consideration so that now the people living on Punchbowl slopes need have no further cause for complaint. The matter of removing the magazine has been hanging fire for a long time and even at the last session of the Legislature it was brought up.

The appropriation bill was now on in full blast and various items were considered and disposed of. Before all the items were finished, Rep. Gear moved that some of the other bills be brought up for consideration in order that the Senate might be given something to work on. This was objected to but it finally carried and substitute for bill 23, electric light line eminent domain, of the House was brought up for consideration. An amendment was submitted by Minister Damon. This was referred to a special committee and further consideration of the bill was postponed until the committee hands in its report.

**AFTERNOON SESSION.**  
The appropriation bill was again taken up for consideration in the afternoon and various items were discussed and passed or rejected.

A report of the Senate Finance Committee showed a complete investigation into the matter of the petition from A. K. Kunulake asking for an item of \$5.50 in the appropriation bill as reimbursement for the payment of double taxes. The committee found that the case had been as stated by the petitioner and recommended that an item for the amount mentioned be inserted in the bill. This was done without further parley and the petitioner will have the money refunded to him.

The interesting part of the afternoon session resulted when House bill 35, relating to the poll tax, was taken up for consideration. It was well known that the House was about equally divided on the measure and that made the consideration of the bill so much more interesting.

Rep. Kaai was the first speaker. He moved the bill be passed without further ado. It was certainly a good measure and one that every one of the members should vote for. A poll tax was certainly out of date. Some of the members had advanced the argument that a repeal of the poll tax law would work to the advantage of the Japanese and Chinese. This was certainly a wrong light in which to consider the matter. What about the Hawaiians? He certainly would not like to be buried with the thought that there was a tax upon himself.

Rep. Pogue was in favor of the indefinite postponement of the bill as recommended by the committee. The people on Maui had told him they were against any such proposition.

Minister Damon said that he was surprised to hear Mr. Pogue speak as he had. The only reason the people of Maui had spoken as they had was very probably on account of the fact that they were afraid of the member and did not dare to express their honest opinions. One of these days the people of the country would rise up and protest against the poll tax and then what would happen. They would refuse to pay the tax and nothing could be done to them for they were on the side of the right. Why should a poor man be made to pay a poll tax while the rich were not being taxed in proportion to their respective means? Here were people wearing fine clothes and going to foreign places to spend their wealth while, on the other hand, were men struggling along and making just a bare existence. The latter were forced to pay as much as the former. Money was being appropriated for state entertainments and other kinds of entertainments and more money was being spent on hospitality. This was all coming from the people and many of the contributors were unable to purchase decent clothes for themselves. Was such a state of affairs right? The wheels of readjustment had been set in action and it was to be hoped that they would continue in action until the poll tax, the road tax, and the school tax had been

removed.

At 11:30 o'clock the Senate adjourned.

**TO WHOM IS IT USEFUL?**  
 To every one who has writing to do. In business circles its desirability is assured. Lawyers and journalists cannot do without it. Professional and scientific men realize its worth to them. The author and thinker find it invaluable. It conserves the most potent kind of energy—that of the brain—by reducing to a minimum the mechanical labor of writing, and distributing it among all the fingers of both hands.  ACT 40.  
 AN ACT TO AMEND SECTION 69 AS AMENDED BY CHAPTER 109 OF THE SESSION LAWS OF 1892, AND SECTION 74 OF CHAPTER 57 OF THE SESSION LAWS OF 1892 ENTITLED "AN ACT TO RE-ORGANIZE THE JUDICIARY DEPARTMENT" RELATING TO APPEALS AND BILLS OF EXCEPTIONS.  
 Be it enacted by the Legislature of the Republic of Hawaii:

SECTION 1. Section 69 of Chapter LVII. of the Session Laws of 1892, entitled "An Act to Re-organize the Judiciary Department" as amended by Chapter 109 of the Session Laws of 1892, is hereby amended so that it shall read as follows:  
 "Section 69. Appeals shall be allowed from all decisions, judgments, orders or decrees of Circuit Judges in Chambers, to the Supreme Court, except in cases in which the appellant is entitled to appeal to a jury, whenever the party appealing shall file notice of his appeal within five days, and shall pay the costs accrued, and deposit a sufficient bond in the sum of Fifty Dollars, conditioned for the payment of the costs further to accrue in case he is defeated in the appellate Court, or money to the same amount, within ten days after the filing of the decision, judgment, order or decree appealed from; provided, however, that in any case in which the law allows an appeal from the decision, judgment, order or decree of a Judge in Chambers to be tried before a jury, the Judge whose decision, judgment, order or decree is appealed from shall not preside at the trial of such appeal before a jury, but such appeal shall be in order for hearing at the next regular term of the Circuit Court of the Circuit in which the cause was tried in Chambers, and the Circuit Judge of some other Circuit who shall be thereto authorized by the written request of the Chief Justice or other Justice of the Supreme Court, shall preside at the trial of such appeal, but further provided, that in case such appeal shall be taken from the decision, judgment, order or decree of one of the Judges of the First Circuit in Chambers, it shall be in order for hearing at the next regular term of such Circuit, but the Judge whose decision, judgment, order or decree is appealed from shall not preside at the trial of such appeal. Appeals may be allowed upon like terms as to filing bond and payment of costs, by the Circuit Judge in his discretion from decrees overruling demurrers or from or interlocutory judgments, orders or decrees whenever the Circuit Judge may think the same advisable for the more speedy termination of litigation.  
 "The refusal of the Circuit Judge to allow an appeal from an interlocutory judgment, order or decree shall not be reviewable by any other Court."  
 SECTION 2. Section 74 of said Act is hereby amended so that it shall read as follows:  
 "Section 74. A party may allege exceptions to any such opinion, direction, instruction, ruling or order and the same being reduced to writing in a summary mode, and presented to the Judge during the term or within ten days thereafter; or, in case of proceedings in vacation as of the term, within ten days after the opinion, direction, instruction, ruling or order objected to, and being found conformable to truth, shall be allowed and signed by the Judge; but if the Judge shall refuse to allow and sign such exceptions, the truth of the allegations therein contained, may, nevertheless, be established before the Supreme Court, and the exceptions allowed by it; provided, that further time may be allowed by the Judge in his discretion. Bills of exception upon like terms as to filing bond and payment of costs, may be certified to the Supreme Court from decisions overruling demurrers or from other interlocutory orders, decisions or judgments, whenever the Judge in his discretion may think the same advisable for a more speedy termination of the case. The refusal of the Judge to certify an interlocutory bill of exceptions to the Supreme Court shall not be reviewable by any other Court."

## KNOWLEDGE IS POWER.

It is a good thing to know something of everything. It can do you no harm, therefore, to learn something about the manner in which the STEIN-BLOCH CLOTHES (for which we are the sole agents in this city) are tailored. You may not desire to go into the clothing business, but you wear clothes, and an investigation of this subject will teach you to know the good from the bad in fabrics and tailoring. STEIN-BLOCH CLOTHES are "wholesale-tailored" in the same manner, only more scientifically, as high-priced merchant tailors make their garments; but the enormous output of these wholesale tailors enables them to produce the highest class clothes at the minimum of cost.

That is why we can sell ready-to-put-on-and-made-to-fit-the-moment-you-want-them suits at from \$10 to \$30 each, which would cost you more than double the money if made to measure.

### MONTEREY MAY REMAIN.

Belief That the Monitor Will Be Stationed at This Port.

A number of citizens who are watching events pretty closely believe that the Charleston officer who told the Advertiser that the coast defense Monitor Monterey, of the American Navy was likely to remain in this port indefinitely, was about right. Said one gentleman: "That would be an excellent plan and a sound precaution for several reasons. As the war progresses there may be some privateering on the part of the Spaniards and this place would be open to attack. Then the Monterey could do glorious work, for she would be able to cope successfully with a considerable fleet of visitors from some South or Central American port. It is not at all likely that Admiral Dewey is in sore or imperative need of such a ship as the Monterey. He could not utilize her unless the Spanish sent an expedition to make an attempt to recapture Manila. This plan would be known in the United States before it was too late to send a swift dispatch boat down here and get the Monterey on to where she was needed. The monitor is a peculiar craft in many ways. As a fighting machine she is a terror. On the cruise she is under water, but entirely safe. The greatest drawback to her use far from a friendly port is her very contracted steaming radius. She has carried at the very utmost but 230 tons of coal. The Charleston officer who expressed the opinion that the Monterey was likely to remain here had in mind the fact that the port of Honolulu had greatly increased in importance from an American view."

The Young Man Send Regards to Friends.

Under the date of May 20, Eugene D. Giberson, the man of fame here and elsewhere as bill, etc., writes to a Honolulu acquaintance. From the tone of the letter one could not believe that Giberson had swindled half a dozen people here and com to the town practically a fugitive. He says: "I exceedingly regret that I did not have an opportunity to bid you a long farewell before my departure from beautiful Honolulu. The steamer Mogul arrived very unexpectedly to me and as the captain has been a very intimate friend of my family he insisted upon my taking the trip with him, so I made up my mind in a very few minutes, and now I am here in good old America again—the only place on the globe that is a white man's land. I can never forget the Mogul. We arrived here Friday evening, May 6th."

"I expect to go to San Francisco next week and remain a couple of weeks and then return to my home in Ohio. If possible I will enlist in the volunteers. Remember me to all my dear friends in Honolulu and tell them I am well."

Giberson gives as his address the Baldwin hotel, at San Francisco. He is the man who published here in the group of prominent business men. A preacher subsequently wrote from the Coast that the young man was in every way unworthy.

**Dobner's Pilikia.**

Young Jas. L. Dobner, who was discharged from one of the California volunteer companies and left here by the first Manila expedition is a discouraged and distressed individual. But he bares up bravely and only asks for something to do. Dobner learned that his uncle was trying to have him set off here and sent home and hid away on the Peking. He was found only a few minutes before the ship sailed. His discharge was jammed into his hand and he was about the last man who went down the gang plank. The boy says that his mother had induced her brother, his uncle, to bring about the discharge. Dobner had been examined by no less than four surgeons and passed by all of them. He not a giant or an athlete, but declares he is sound. The discharge recites that Dobner waives transportation claims and he asserts he was told that the American Minister of Consul would send him home. Those officials did not have the matter placed before them by the expedition authorities and can do nothing. Dobner has complained to some influential friends of his family in the States.

At Kilohana Tonight.

Prof. Cora McDonald will this evening deliver a lecture in the Kilohana Art League hall under the auspices of the League. The subject will be "Individualism in Art." Miss McDonald, who is best known here as a lecturer and teacher in the field of English literature, has prepared this lecture after much careful thought, wide reading and extensive special investigation and it is believed that students of Art in all its branches will be interested and instructed. Miss McDonald expects to leave for the States on Friday of this week. It is her purpose to continue her studies in literature at the university of Chicago. Last evening Miss McDonald closed the season with her class in Shakespeare, with a magnificent comparison of Macbeth and Hamlet.

THE PACIFIC

Commercial Advertiser.

W. N. ARMSTRONG - EDITOR.

TUESDAY : : : : : JUNE 7.

THE ARGONAUT'S "FLOPS."

This San Francisco journal has been for some time squirting, so far as it was able to, handfuls of sand into the bearings of the wheels of American Progress in the Pacific. So far as these Islands were concerned, its opposition to annexation was purely personal, and was regulated, we suspect, by "tips." It utterly ignored the value of San Francisco's trade with Hawaii, and was perfectly willing that the ships of her merchants should rot at the docks rather than the city should be prosperous under Hawaiian trade.

Such journals flop at the first suggestion. Admiral Dewey holds Manila at his mercy, and now the Argonaut cries from the hill tops about the "silence of San Francisco," in refusing to move "when the annexation of the Philippines would mean many million in trade annually." "That city," it says, "is now silent over the possible annexation of fourteen hundred islands and seven millions of people."

"Why does not San Francisco speak? Why do not her people sustain the Government in its half expressed intention to hold the Philippines?"

The journal can find abundant argument for resisting the annexation of Hawaii, about two thousand miles away, but it finds no objection to the annexation of the Philippines that are six thousand miles away, with a mongrel, ignorant, population amounting to one-tenth of the population of the States.

"That baboon of yours has a pretty long arm, hasn't he?" said the passenger to the ship captain. "Yes, when I try to make him work he hasn't any hands. But you put a banana in the fore-top and he'll pull it in with his arm. It just depends."

The Argonaut took its weakly bath of dust and ashes over the wreck of American institutions in the event of the annexation of Hawaii, because it was away from the continent, and had a mixed population. Suddenly it springs us at the golden gate city, and puts the lash to its limbs, because it does not insist on the annexation of the Philippines, although there are more naked savages in them than there are of inhabitants in these Islands.

We have often said in these columns, that the annexation of these Islands to the United States depended upon commercial and strategic reasons, and not upon the character of the people. This unreserved anxiety of the Argonaut to take the Philippines, for trade purposes, without the least regard to the character of their population proves what we have always said.

GERMAN NEUTRALITY.

There is much inquiry made in the American press as to the reasons why Germany has not declared her neutrality. It is said by a portion of the German press that the Government desires to be "free to act." This means nothing.

One of the most intelligent of the correspondents residing in Berlin says: "The real reason lies in a peculiar Constitutional hitch, which throws an interesting sidelight on the relation of the Emperor to the Reichstag. It appears that when, on the outbreak of the Russo-Turkish war, Emperor William I. was about to issue the usual declaration, he was informed by his Constitutional lawyers that he must first secure the consent of the Reichstag to this step. This the old gentleman, whether from pride or a general independence of character I cannot say, refused to ask for, and the consequence was that no declaration of neutrality was published, and this tradition has been kept up by the present Emperor. The new German Minister of Foreign Affairs, Baron von Buelow, remarked a few days ago that he himself upon taking office was ignorant of this rule, and took for granted that a formal declaration would be published by him on the outbreak of the Spanish-American war, but certain of his routine secretaries called his attention to the true state of affairs."

This correspondent also states that American Ambassador White informed him that Baron von Buelow has gone out of his way to express the determination of the German Government to observe a strict neutrality.

The hostility of the German press to the Americans is founded on the erroneous belief that the war against Spain is not for the sake of humanity but conquest. This is natural enough. For our own American press never has been willing to give any other nation credit for honesty in its foreign policy, and it persistently accuses the Germans of fraud in dealing with the question of American hog products.

The hide-and-seek game of the American and Spanish navies was predicted by several British naval author-

ities before the Spanish fleet steamed westward. These men are not hysterical. To them the fight of modern ships is one of supreme interest. It goes to the roots of naval construction. But the complete and final substitution of coal for wind, and the use of long range and rapid firing guns, they say, creates new conditions which enable an admiral to "put himself where he likes." It may not be the guns which are of chief importance in settling naval fights, but the engines and the coal. The public are deeply interested in the possible fight. The naval men of all countries are watching a thousand matters that are not obvious and have no glory about them.

A NOBLE SENTIMENT.

Senator Hoar of Mass., in the peroration of a great speech on the Cuban case, said:

"I want to enter upon this war with the sanction of international law, with the sympathy of all humane and liberty loving nations, with the approval of our consciences, and with the certainty of the applauding judgment of history. I confess I do not like to think of the genius of American angry, snarling, shouting, screaming, clawing with her nails. I like to think of her honest and sincere beauty inspired by sentiments—even towards her enemies—not of hate, but of love; perhaps a little pale about the eye and a smile on her lips, but as sure, determined unerring, invincible, as was the Archangel Michael when he struck down and trampled upon the demon of darkness."

(London Times.)

"In future America will play a part in the general affairs of the world such as she has never played before. When the American people realize this, and they realize novel situations with remarkable promptitude, they will not do things by halves."

One Large Scar Is All That Remains of Great Scrofula Sores

Neighbors Could Not Bear to Look Upon Her—A Grand, Complete Cure by Hood's Sarsaparilla After Others Failed.

"I was taken with neuralgia in my head and eyes. Not long after this, a scrofula sore appeared on my left cheek, extending from my upper lip to my eye. Other sores came on my neck and on my right arm and one of my limbs. They were very troublesome and painful and soon became great running sores. My face looked so bad that some of my neighbors could not bear to look at me and advised me to wear a bandage, but I feared this would irritate the sore and make it worse. So I

Could Not Hide the Sores. My niece, who was familiar with a case similar to mine, which had been cured by Hood's Sarsaparilla, urged me to try it. Finally I was persuaded to do so, and in a short time I saw it was helping me. The sores began to heal and the neuralgia in my head was better. In a few months the sores on my arms and limbs all healed; those on my neck gradually disappeared and now they are all gone. I have never had any symptom of scrofula since. One large scar on my right arm is all the sign that remains of my terrible affliction. The neuralgia is also cured."

Victor Safes

WERE invented, patented and put onto the market to supply an urgent demand for a well built, and at the same time, medium priced safe.

The manufacturers of this safe have made a careful study of the requirements of the different safes and classes and as a result the VICTOR SAFE has supplied the vacancy.

Aside from the regular six sizes we carry in stock, we can order any style of safe required and have it divided to suit the purchaser.

In our office we are using one of the regular make, and for convenience it cannot be touched by any safe we have ever seen.

All VICTOR SAFES are made of the best materials known to the trade and only skilled workmen are employed.

Every part is made by the VICTOR SAFE & LOCK CO., from the raw material and are thoroughly tested before and after construction.

One of the best recommendations for these safes is that other safe companies often use the VICTOR SAFE as a criterion as being not only burglar, but fire-proof.

We invite inspection.

**ASKS FOR PAPERS**

(Continued from First Page.)

taken away and the money gotten out  
of the soil in another way.  
At the conclusion of the speech by  
the Minister of Finance there was ap-  
plause on the part of the members of  
the House who favored the passage of  
the bill.

Rep. Loebenstein said that it was a  
trite saying that "A late conversion is  
better than none." The policy of finan-  
cial regeneration as proposed by the  
Minister of Finance came at a late  
day. The poll tax was certainly a  
just one for it gave equal rights to the  
poor and the rich. Rep. Aoki called  
the attention of the speaker to the  
report of the Minister of Finance in  
which he recommends the abolition of  
the poll tax. The poll tax should cer-  
tainly be removed. It no longer need-  
ed. In olden times it was for the ex-  
press purpose of the payment of the  
salary of the reigning monarch. It  
was very hard at the present time for  
the poor man to make a living. The  
time would come when it would be an  
easy matter for the rich man to make  
money while it would be a very hard  
job for the poor man to even make a  
living.

Rep. Isenberg objected to the use of  
the word poverty as applied to the  
natives. There was no need for them  
to be poor. There were many men on  
the Islands who would give the first  
preference to the natives as laborers.  
For himself he would be willing to  
give a native \$20 a month instead of  
\$15 to a Chinaman. The fault how-  
ever was all with the natives them-  
selves. Rep. Isenberg said in closing:  
"Let us leave the Japanese and Chi-  
nese in their own countries and take  
our natives to work."

Rep. Robertson stated that there ap-  
peared to be two reasons for oppo-  
sition to the bill. The first was to  
the effect that the poll tax of one dol-  
lar was in consideration of the voting  
right in the first place the matter  
of voting was not a right but a privi-  
lege so that the argument fell to the  
ground immediately. Again there  
were many men on the Islands who  
had to pay their taxes without being  
allowed the privilege of voting. The  
second argument was to the effect that  
the Government was in need of the  
revenue produced by the poll tax. This  
was certainly very rich to come from  
men who had voted against Schedule  
E. The House represented the masses  
as distinguished from the classes.  
Certainly the members should not  
halt in the removal of \$1 from the  
poor when the majority of the mem-  
bers had not long ago voted for the  
removal of thousands of dollars from  
the rich. The argument was advanced  
that there was need of the revenue.  
The question was how ought it to be  
raised. Should the \$5 be taken from  
Tom, Dick and Harry whether they  
had the privilege of voting or not or  
should it be taken from those who  
could well afford to pay.

The members of the House would not  
"do their duty by the people whom  
they represent if they failed to remove  
the poll tax in the face of having voted  
for the defeat of Schedule E.  
Upon being put to vote there was  
a tie on the question of indefinite  
postponement. Those who for voted  
for this were as follows: Reps. Pogue,  
McCandless, Atkinson, Richards, Paris,  
Loebenstein and Isenberg. The other  
side was as follows: Reps. Robertson,  
Kao, Gear, Wilder, Kaai, Achi and  
Kahalofoe. Speaker Kaniukou voted  
against indefinite postponement.  
When the question of passage in sec-  
ond reading was put the vote stood  
the same with the exception of Rep.  
Atkinson who changed his views and  
voted for passage. This made 8 to 6.  
At 4:15 the House adjourned.

**THEOSOPHICAL.  
New Plan of Work—Additions to  
the Library.**

Among the new features of work  
adopted by the Aloha Branch, T. S.,  
might be noted the fact that the first  
Tuesday of each month is set apart for  
the discussion of practical questions,  
while the other meetings are devoted  
to the study of the various theosophi-  
cal text-books. This evening the sub-  
ject is the possibility of combining  
Theosophy and business in daily life,  
every member being expected to take  
part in the discussion.  
Of late, the library of the Aloha  
Branch has received several editions  
of new books, viz: Several volumes  
of H. P. B.'s magazine "Lucifer,"  
Walker's work on "Reincarnation,"  
Scott-Elliott's study in "Atlantis,"  
with maps, Reville's Lectures on the  
aboriginal religions of Mexico and  
Peru, etc. More works are expected  
in the near future. The meetings and  
library are free to all persons inter-  
ested in the subject. Reading can also  
be done at the headquarters where  
there are several of the theosophical  
magazines in which can be followed  
the remarkable spreading of the move-  
ment the world over.

**They Piled Up.**  
When the letters left about town by  
the Boys in Blue had been placed with  
those written at the Executive Build-  
ing and the whole lot counted it was  
found that the grand total was 7,200.  
The quantity of papers, outside the  
large number supplied by the Gazette  
Company, is quite heavy. On the let-  
ters is being used the Foreign Office  
5-cent stamp with the face of Ex-Min-  
ister Thurston.

of the city for 75 cents a month.

**DANCING.  
Close of the Term an Event for  
Children and Parents.**

Mrs. Gunn must needs feel very  
highly complimented on the attendance  
at the closing of her classes in fancy  
dancing at Arion Hall yesterday after-  
noon.

There must have been in all, over  
a hundred of the society ladies of the  
city, most of whom were mothers of  
some of the little ones in the two  
classes in fancy dancing which Mrs.  
Gunn joined together yesterday to  
make a fitting closing to a very suc-  
cessful season of lessons. The chil-  
dren were prettily dressed for the oc-  
casion and seemed to heartily enjoy the  
work they were expected to do. The  
two classes had about 80 members in  
all.

The audience of ladies was seated  
in the mauka end of the hall. The  
dances gone through with were the  
following: Polish dance, butterfly pol-  
ka, Highland fling, lancers (three fig-  
ures), tambourine dance by six girls,  
minuet, Highland fling, Boulangere  
and skirt dance.

A prominent lawyer in this city ad-

eye strain.  
Sleep is impossible if the nerves are  
not at rest. The nerves rule the body.  
Eye troubles are often the result of  
shattered nerves and stomach disor-  
ders. If you cannot sleep, it's prob-  
ably due to your eyes!

A Model Plant is not complete with-  
out Electric Power, thus dispensing  
with small engines.  
Why not generate your power from  
one CENTRAL Station? One gener-  
ator can furnish power to your Pump,  
Centrifugals, Elevators, Pumps, Rail-  
ways and Hoists; also, furnish light  
and power for a radius of from 15 to  
30 miles.

Electric Power being used, saves the  
labor of hauling coal in your field, also  
water, and does away with high-priced  
engines, and only have one engine to  
look after in your mill.

Where water power is available it  
costs nothing to generate Electric  
Power.  
THE HAWAIIAN ELECTRIC COM-  
PANY is now ready to furnish Electric  
Plants and Generators of all descrip-  
tions at short notice, and also has on  
hand a large stock of Wire, Chan-  
delliers and Electrical Goods.

All orders will be given prompt at-

Mr. Clark projects an experimental station for the grounds of the Judiciary building. The place will be "under the nose" of the new man and he will give it his closest personal attention.

Thomas Square, which has been neglected for a long time, is to receive the attention of the new commissioner. This is a handsome baity spot for the city, but requires a rearrangement and more care.

Stock has been doing some damage to young trees on Tantalus for a couple of months. An order will issue from the Interior department forbidding the running stock on the Government forestry reservation.

**Garden Isle Always Awaits News From Honolulu.**

In a letter from Kauai dated last Saturday are contained the following items of interest: "We are very envious of Honolulu and the time you have had in the entertainment of the Boys in Blue. Here in Kauai all we can do is to talk and that is not much satisfaction. It is amusing to notice how eagerly people look forward to the arrival of the steamers, particularly when a foreign mail is expected.

Last week Dr. Wa. of Lihue sustained a very painful accident. His horse ran away with him and threw him out of the sulky with the result of a sprained ankle. He is now just able to get about with the aid of a crutch.

"We have heard from the only Billy Essie. He has bought his complete outfit for the Klondike, procured what men he needed and intends to start for the cold regions on the sea of this month. He is more sanguine than ever over the prospect of getting large returns for himself and the boys down here who have entrusted their money with him."

**THEY WINCE.**  
 Anti-Annexationists at the Capital  
 Alarmed.

A Washington dispatch of the 20th  
 of May says that the anti-annexation  
 crew has been made quite desperate  
 over the prospects. Each Senator has  
 been presented with a pamphlet en-  
 titled: "The Hawaiian Question—Land  
 vs. Sea Power; or Concentration vs.  
 Diffusion, as illustrated by Russia and  
 the British Empire. Which Policy is  
 Best for the United States?" The au-  
 thor shields himself behind the nom-  
 de plume of "Pan America."  
 Two paragraphs of the circular fol-  
 low:

"The great progressive and prosper-  
 ous United States have a transcenden-  
 tally important mission to perform.  
 They must set the right example to  
 the rest of the world and become the  
 peacemaker of the world. There is  
 just one barrier in the pathway of this  
 great and grand mission, and that is  
 the Hawaiian Pandora's box of mis-  
 chief and evils.

"The proposed annexation of Hawaii  
 is the entering wedge for the annex-  
 ation of the Philippine islands and the  
 Canaries, conquest, sea power, compli-  
 cations and alliances with European  
 nations, a billion dollar navy, a large  
 and costly standing army, new war  
 debts, heavier taxes, the undermining  
 of the Monroe doctrine, the interrup-  
 tion of industries and commerce and a  
 setback to the forward march of civil-  
 ization."

"In other words Great Britain is  
 anxious to use the United States as a  
 catspaw to pull her chestnuts out of  
 the fire. Her boasted friendship is  
 mercenary and full of pitfalls and dan-  
 gers. It seeks to array us against our  
 better, truer and stronger friend, Rus-  
 sia. She would even go to the extent  
 of engaging in a foreign war in order  
 to draw us into an entangling alliance.  
 She has officially admitted her selfish  
 designs in a way that ought to open  
 the eyes of all Americans to the dan-  
 ger of departing from the well-settled  
 foreign policy of a century."

**On Trial Once More.**  
 J. K. Sumner was in Court nearly all  
 of yesterday and on the witness stand  
 most of the time. The old gentleman  
 is on trial again for his sanity, but  
 says he doesn't mind it, having become  
 accustomed somewhat to the test. The  
 complainant is Maria S. Davis, sister  
 of Mr. Sumner. As is well known,  
 control of very large property interests  
 is involved in this inquiry.

**REWARD OF MERIT.**  
 At the CHICAGO CYCLE SHOW in  
 1897, each visitor on entering the  
 Show was handed a coupon reading as  
 below:  
 "After viewing the exhibits, kindly  
 fill in the name of the Bicycle which  
 pleases you best as regards beauty  
 and mechanical merit, and deposit the  
 coupon in ballot box near exits.  
 Name of Bicycle.....  
 The "Shirk" received 17,489 ballots  
 against 12,877 the next highest. When  
 it is known that all the leading makes  
 of wheels in the United States were  
 on exhibition at this Show, the above  
 speaks for itself. The HONOLULU  
 BICYCLE CO. have secured the Agency  
 for this strictly high grade wheel.  
 IT WILL INTEREST YOU TO CALL  
 AND SEE IT.  
 The SHIRK is the best thing that  
 ever happened.

**A Futile Effort.**  
 We never make efforts to induce  
 people to visit our store in search of  
 mythical advertised bargains which  
 do not exist or which are "just out."  
 Such methods are dishonest and are  
 certain ultimately to prove futile.  
 What we advertise, we have, and it is  
 always exactly as represented.  
 Some certain-to-please bargains  
 which we are offering this week are  
**BOYS' LIGHT WEIGHT WOOLEN

**BICYCLE OIL.**  
 It is a well known fact among me-  
 chanics in these islands, that their  
 light lubricating Oils are utterly use-  
 less here. They dry up or run out of  
 the bearings: in fact you must use a far  
 heavier oil here than in colder coun-  
 tries. Oil bottled in the United States  
 for sewing machine use is of no use to  
 lubricate a Bicycle.  
 Bicycles here, do not, as a rule, get  
 enough lubricant. Of twenty Bicycles  
 overhauled on Monday in  
**The Honolulu Cyclery,**  
 231 KING ST.,  
 Sixteen of them were absolutely dry.  
 They needed.  
**Bailey's Best Bicycle Oil**  
 Put up in tin cans, 25 cents each,  
 which is just as cheap as light thin oil.

Use only one heap-  
 ing teaspoonful of  
*Schilling's Best Bak-*  
 ing Powder to a  
 quart of flour.

You must use two teaspoonfuls of other baking powder.
