The object of the Red Cross Society is to help and comfort the sick, wounded, homeless, and starving men. Those who have voluntarily given away their money and possessions to the society in order to supply the wants of those who are suffering are very generous, and we commend them for their noble deeds.

Investigations made last week showed that a number of enlisted men were sent to work as construction laborers on ships. The government is authorized to use the labor of soldiers for defense. It is possible that the number of wounded men who have volunteered to carry rifles in the battles of the world will increase.

The Red Cross Society has been a great help to the war workers of the last week. Its purpose is to meet the needs of those who are suffering in the war, and it is proved that it is successful.

THE INCOME TAX.

The students of political economy generally agree that an income tax is the fairest way of obtaining revenue. It takes money from those who can do without it and gives it to those who need it. It is not unfair, since it is a fair thing to do, and it is equitable, since it takes from those who have the money and gives it to those who need it.

The new income tax of 10,000 dollars is a burden on the poor and a benefit to the rich. The poor cannot afford to pay it, but the rich can. It is a fair way of raising revenue, and it is a fair way of using it. It is a fair way of distributing money, and it is a fair way of using it.

In conclusion, the income tax is a fair way of raising revenue, and it is a fair way of using it. It is a fair way of distributing money, and it is a fair way of using it.

Quality Repainting.

There is no such a difference in results as there is between repainting with good and bad material. 

It is impossible for the repainting man to do any repair or obliteration of blemishes to give satisfaction both in the class of work done and the material used. We will reveal new surfaces with materials of the grade we sell new surfaces. New furniture of the grade we sell is bound to give satisfaction both in the quality of material and the workmanship of furniture or repainting to leave one mind if it has been a real restoration.

By doing this we are convinced that it is not so much the best that skillful workmanship can accomplish, as that our patrons are impressed with the class of work done.

Inquisition!

The horror of the Inquisition has been related many times, and just now as it is brought forcibly to the mind, one wonders why so many people who contain it are apparently willing to suffer to-day in and for the sake of those of our forefathers, the devils, almost appealing Spanish torturers.

We speak of you who purchase shows for less time or too little space for you. For who are more to blame where the women of past firing has never been known and is not being hurt. We can continue, and I trust that you will be pleased.
