

VOLUME I, NO. 57

CRIMINAL CALENDAR.

COMPLETELY GUTTED.

Defective Complaints Restores Liberty to Many Accused.

JUDGE HUMPHREYS' ORDER.

HIS RULING HIGHLY ENDORSED BY INTELLIGENT MEMBERS OF THE BAR.

Case of a Person Convicted in Stanley's Court Without Being Allowed to Plead to Amended Complaint.

The criminal calendar was completely gutted in Judge Humphreys' court yesterday morning. Every criminal case that came before the court was given a solar plexus blow and after the expiration of ten seconds was counted out.

The action of the court met with the general approval of the bar. Members read in law like Mr. Hankey, Mr. De Bolt and Mr. Magoon declared that Judge Humphreys' ruling was good law; in fact, the law made it compulsory on him to decide in the manner in which he did.

Mr. Hankey said: "All I ask is to practice law in this Territory before a man who understands the law. Judge Humphreys is a jurist."

"The time is past in Hawaii," said another leading member of the bar, "when men charged with crime can be railroaded to the penitentiary on defective and illegal papers; when jurors can be selected and summoned for the expressed purpose of convicting, no matter how much and how often following the evidence of innocence may be; when complaints against unfortunates can be amended in the judge's chambers or in open court; when complaints so amended mutilated and forged in the interest, not of the peace and good order of society, but injurious to the state."

The attorney then told of a case now pending before the Supreme Court where the complaint was amended in Judge Stanley's court. The accused never entered plea to the amended complaint. He was tried and convicted by a jury. He asked for a new trial, and the court granted it. ESTABLISHING POSTAL SERVICE ON ISLANDS.

Eighty Post Offices Now in Full Operation in Islands.

DIFFICULTY AT SMALL PLACES.

THREE STATIONS HAD TO BE DISCONTINUED FOR WANT OF HELP.

The Result Not Serious to the Service—Mr. Flint Will Leave on September 4th for the States.

Three postoffices have been ordered closed by Postal Inspector Flint because the postmasters have declined to serve Uncle Sam any longer. The first of these is Kaunakakai, on Molokai. The discontinuance of that office will take effect as of September 1. It is at this point that the American Sugar company made an unfortunate investment. The place had to be abandoned and it is now deserted. No one lives there any longer and the office was practically useless.

The second office is that of Honokowai, on the island of Maui. This office will be closed as of date of August 20. There was really but very little business at this point and the public interests will not suffer by the closing of this office.

The office at Lanai, on the island of the same name, will also be closed on Monday next. There is not a great deal of business at this point, but the postmaster at that place, declines to bother with the work any longer. The office was established principally as an accommodation to a few families, who can be served from another near by office.

When Mr. Flint came over here he found ninety-five Hawaiian postoffices in operation. Fifteen of these have been discontinued, leaving eighty offices in operation at this date. "It is not a fact that the United States pays smaller salaries to its postmasters than did the Republic of Hawaii," said Mr. Flint yesterday. "At some of the smaller offices there may be some difference, but the average is higher under Uncle Sam—way higher. Take Hilo, for instance. The Hawaiians used to pay \$1,200 for that office and then raised it to \$1,500. We started that office in at \$2,100 a year. Again, there is Postmaster Oats at Lanai. His salary is \$2,000. That's the way it goes. It is unfair to say that the United States doesn't liberally compensate its employees."

The following presidential postmasters have received their commissions: William Hay, at Honolulu, Hawaii; George Lawson, Honouliuli, Hawaii; John H. Bole, Papeete, Tahiti; Christian Andrews, Haula, Oahu; Jos. H. Mahoe, Pukoo, Molokai; John C. Sarle, Hilea, Hawaii; Rudolph Wassman, Napoona, Hawaii.

The first railway mail route has been approved by the department in form as follows: "Hawaii, Route 180001. Honolulu by Ala, Pearl City, Waipahu, Honouliuli, Waianae and Wailua to Kahuku, Oahu Rwy. & Land Co. 71.71. and back six times a week and as much oftener as trains may run. From June 14, 1906."

Route agents will be put on this route as soon as the business will warrant. Meantime star routes are being established all over the islands, work in which Assistant Superintendent Carr is now engaged.

Inspector Flint will leave on September 4 for his former station at Los Angeles, where he will resume his old duties in connection with the postal service. He will have the satisfaction of having established the postal service in the only American colony that was not acquired by force of arms.

IS AFRAID OF HAWAII'S CLIMATE.

WASHINGTON MAN WHO FEARED TO GO INTO BUSINESS IN THIS CITY.

Found Upon His Arrival That the Islands of the Territory Embraced More Than Ten Miles Square.

WASHINGTON, Aug. 3.—Mr. George C. L. Goodman, who, with Mrs. Goodman, is making a tour of the Territory of Hawaii, recently wrote a letter, dated at Honolulu, to a friend of his in Anacostia, from which the following, descriptive of the island climate and population, is taken:

"The passage here was uneventful and became quite monotonous. The vessels of these Pacific steamship companies are not as large as the Atlantic liners and do not make as fast time. On the morning of the seventh day we came into the harbor of Honolulu, having seen but one vessel after leaving the California coast.

"The islands are not, as I used to think, all near each other, so as to be seen all from one point, but from this place to the port of Hilo, is a little over 200 miles, and they are nearly all out of sight of each other. There are boats running from this place to all the inhabited islands, at regular intervals, generally once every week or ten days.

LILUOKalani SETS UP STATUTE OF FRAUD.

Files a Demurrer to the Suit of Her Physician.

RELEASE AND PAYMENT ALLEGED.

DR. CHARLES H. ENGLISH'S INTERESTING TALK ABOUT HIS CLAIM.

He Says That the Late Occupant of the Throne is Restrained From Settling by J. O. Carter.

Late Queen Liliuokalani has filed a demurrer to the suit brought against her by her doctor, Charles H. English. Dr. English's suit, published exclusively in The Republican, is to recover \$5,000 for damages resulting to him for a breach of contract commencing on the 16th day of May, 1906, and continuing until the 16th day of November, 1901, at the end of which period or on the doctor's leaving the late queen's service she agreed to pay the physician in addition to the sum of \$300 per month the sum of \$5,000.

Liliuokalani's demurrer denies every allegation in plaintiff's complaint. Defendant gives notice of her intention to rely upon release and payment and the statute of frauds.

Last night Dr. Charles H. English was seen by a Republican reporter. "The partial performance of the contract removes it from the statute of frauds," said the doctor, with great urbanity. "If you have a contract with a merchant to deliver a certain amount of goods and you deliver some of the merchandise, that merchant cannot say I understand the law, set up the statute of fraud."

"Queen Liliuokalani has often expressed a willingness to me to pay me, but she has been restrained from doing so by J. O. Carter, who looks after her property interests. On one occasion she told me that Mr. Carter never wanted her to pay ten cents to any one but himself.

"Will I stay by the case? I certainly shall. I consider the amount for which I ask judgment a most reasonable sum and I expect to get a decision."

"The queen has been under my professional care for three years. Two years ago this coming fall I came to Honolulu to accompany the queen on her voyage to the mainland and her trip east. My relations with the queen have been most cordial and pleasant."

"Perhaps Mr. Carter has been overzealous in her behalf. He seems to have an antipathy towards me and, as I am informed, has on several occasions, certainly without cause or justification, been forced to relinquish my contract with the queen through no fault of my own," said the doctor, feelingly.

"The day after the queen and I arrived here," continued the doctor, "I appeared in an evening paper in which he stated that the doctors said the queen was afflicted with cancer. Now, I had never made such a statement."

"In my presence Mr. Carter has said that he was neither a lawyer nor a doctor, yet I have been informed that on several occasions Mr. Carter has practiced both professions."

"I have communications in my possession that clearly and conclusively establishes my claims against the queen."

"I shall stay here and fight the case to the bitter end," said the doctor in conclusion.

ALL WITNESSES BEFORE THE GRAND JURY WILL HEREAFTER BE SWORN TO SECRECY IN JULY ROOMS.

The First Circuit Court Today Will Hear All Divorce Cases That Are Ready.

In Judge Humphreys' court yesterday morning the judge called the grand jury in and gave them a new form of oath. The old form prescribed by the supreme court did not require witnesses to be sworn to secrecy. The judge thought it was inconsistent and folly to require an oath of secrecy on the part of the grand jurors and without requiring the same refrainment from witnesses. The new oath makes it obligatory on the part of witnesses to keep secret all that occurs in the grand jury room.

THE REPUBLICAN PRIMARIES.

They Will Be Held Two Weeks From This Day.

The Republican Executive Committee has issued its call for the primary elections to be held two weeks from today.

The delegates to be allowed each district will be one for every twenty-five votes cast in the previous election. The fourth and fifth districts are each entitled to six representatives. The third senatorial district, including all of Oahu, has six senators.

A separate convention will take charge of the nominating the delegate to Congress that being the only Territorial office to be elected.

METEOROLOGICAL SUMMARY FOR THE MONTH OF JULY.

Temperature, mean, for the month, 78.5 F.; normal, 72.2; average daily maximum, 85.3; average daily minimum, 72.0; average daily range, 12.3; greatest daily range, 19.0; least daily range, 8.0; highest temperature, 88; lowest, 68. The month was the warmest July on record.

Barometer average, 29.955; normal, 29.965; (corrected for gravity), highest, 30.06; lowest, 29.85; greatest change in twenty-four hours, .07.

Relative humidity, mean, 87.5; normal, 66.3; mean dew point, 65.9; normal, 66.3; absolute moisture, 7.21 grains per cubic foot; normal, 6.41.

Rainfall, 2.59 inches; normal, 1.80; rain record days, 24; normal, 19; greatest fall in one day, 4.1 inches; Luakaha rain, 12.50; Kapiolani Park, .56; mean, 12.3; Kilauea, Kaula, 325 feet elevation, 81.4 and 72.6.

Earthquakes reported on Hawaii on the 8th and 10th. C. J. LYONS, Territorial Meteorologist.

The new oath makes it obligatory on the part of witnesses to keep secret all that occurs in the grand jury room.

SPRECKELS BANK WAS APPOINTED FOREMAN.

The grand jury presented new indictments against Ah Chong for selling opium and Kane for highway robbery. The latter is being defended by W. A. Kinney, who was appointed by the court.

Eugene Avery entered a plea of not guilty to an indictment for embezzlement.

George A. Davis moved to have his own appeal from the district court, for practicing as a notary public without a license, continued to the November term. He will be heard on the matter this morning.

As no criminal cases were ready and today being divorce day, the trial jurors were excused until Monday morning. All divorce cases that are ready will be taken up by the court this morning.

Millilani Street Betterment.

The Road Commissioners met yesterday morning to consider the Millilani street betterment. After some discussion the meeting was postponed until this morning, when the question of whether or not government property is liable to assessment for betterments is to be decided. Arthur Wilder will appear for the government, T. McCarty Stewart for J. D. Cook, J. A. Magoon and J. K. Kane for the Robinson Estate and W. O. Smith for the Bishop Estate.

UNITED STATES COURT.

King's Attorneys File a Demurrer to the Avery Complaint.

In the United States District Court the following have been made American citizens by Judge Estee: Duncan Bell Murdoch, J. L. Fleming, Augusto Pedro Ornelas, J. A. M. Osorio and Jacob L. Bailey of Bailey bike bit fame.

The attorneys for W. C. King have filed a demurrer to the complaint of Eugene Avery for \$5,000 for false imprisonment. The demurrer is on the grounds of jurisdiction and that the declaration was not duly verified by oath.

THE NEW QUARTERS FOR UNITED STATES COURT.

GREAT ACTIVITY IN GETTING THEM INTO READINESS FOR OCCUPANCY.

Judge Estee Expects To Hold Court in His New Rooms Early Next Week.

There is an air of bustle and hustle about the quarters finally set aside for the use of the United States district court and its officers in the courthouse. The rooms originally contemplated for this purpose are now being completed for occupancy.

The main courtroom is about in shape, and District Attorney Baird has taken up his quarters in rear of the courtroom.

Judge Estee is now unpacking his extensive library and placing the volumes on the hastily-constructed shelves.

Many alterations have been made in the judge's chambers and the work at present under way is completed, the judge will be quite comfortable.

United States Marshal Ray is moving into the very fine room formerly occupied by the census bureau, and with Chief Deputy Hendry is a very busy man these days.

BICYCLES WERE JUNK AT POLICE STATION.

Mr. Bailey Has an Experience With the Force.

HE FOUND A BATTERED WHEEL.

A POLICEMAN HAD APPROPRIATED PARTS OF IT TO HIS OWN USE.

The Bicycle Dealer Makes a Reasonable Request to See All the Stolen Wheels in Possession.

To the Editor of The Republican: Sir:—The bicycle trade of Honolulu has a grievance against the police department in the matter of stolen bicycles. We report the wheels lost to the police department. Customers of ours also report them to the police. Yet here I find a police officer riding a stolen or lost bicycle on King street last night. I follow him to the station house; he tells me that that particular wheel has been in the possession of the police five or six months. This wheel was stolen from the Bergstrom Music Department about five months ago, and was at once reported to the police. My son, J. S. Bailey, Jr., found a man riding Fred Wright's Stearns bicycle, took him down to police headquarters with Willie Wright, and found that that man was an employee or protégé of the police. Nothing was done to that man, even though he was in possession of stolen property. This was in the month of May last.

Why are not these bicycles reported to the bicycle trade? We can and will find the rightful owner of any stray bicycle.

The bicycle seen in possession of a policeman was whole and sound. The bicycle given up reluctantly to me this morning was minus a seat, a tire, and with front wheel smashed.

I should like to see every bicycle in possession of the police, as Mr. Patton of P. C. & Mfg. Co. says positively that there is yet another stolen wheel in the possession of the police; he has seen one of them riding it.

I asked to see all wheels in the station, but was refused, discourteously. J. S. BAILEY.

This is a serious matter that Mr. Bailey speaks of so earnestly and vigorously and in so many a way. Mr. Bailey's grievance is undoubtedly just and well founded. The police have no more right to hold and use a bicycle, than they would have an estray horse, cow or any other property, that might happen to fall into their hands.

It is surely a reasonable request that leaders in bicycles be notified when a stolen machine falls into the hands of the police. That would not cost anything and the dealers can always locate owners.

"Mr. Bailey's discovery has given all of us light," said a prominent dealer last night. "We used to think that the police told us the truth when they claimed that stolen bicycles were taken to the water front and sent away on sailing vessels. We doubt that now, when we find policemen publicly using bicycles stolen from us or our patrons that is the way, probably, that our stolen machines were shipped away, over this matter and do not mean to let it rest so easily."

The police make no reasonable defense of their action. They do not seem to realize that such action practically amounts to moral turpitude and closely approaches to the status of crime.

When asked regarding the wheel in question, yesterday, there was no effort at denying the act, though excuses were made for the wheel. Mr. Bailey says the wheel was in good condition when he saw it on Thursday evening, but that it was badly damaged when it was turned over to him, yesterday.

The police claim that the wheel was brought to the station in a badly battered condition. They assert that the front wheel was smashed and that the seat was gone.

Then the official stated that one of the officers, having broken the frame of his bicycle, substituted the frame of the stolen wheel for his wheel frame. He claims to have returned the wheel in the condition in which it was brought to the station, but he fails to say by what legal or moral right, he used stolen or lost property.

It is a very pernicious habit of the department not to advertise lost or stolen wheels left at the station, because there is said to be no fund from which to pay such advertising.

It would be interesting for the people generally to know upon what moral principle the police justify such acts as the taking of a wheel, or parts of a wheel, belonging to others. Surely so valuable a thing as a bicycle should not be stowed away in a junk room of the police department, much less should police officers be permitted to become receivers of stolen or lost articles of value.

In this connection it may not be out of order to publish the following query sent to The Republican office last evening: "Why is it that Deputy High Sheriff Chillingworth defies the law by riding his bike at night time minus a light, when he arrests, or ordered arrested, all others found doing the same thing?"

In The Police Court.

There was but a small calendar in the police court yesterday. James Doyle paid \$6 and costs into the treasury for being drunk. Sam Kaamoauna rode a bicycle after dark without a lamp was fined \$5 and E. Grant who assaulted M. Rodriguez paid \$3 for his fun.

THE HONOLULU REPUBLICAN. Published Every Morning Except Monday by the Robt. Griese Publishing Company, Limited.

WEATHER YESTERDAY. Mean Temperature—72 degrees. Minimum Temperature—57 degrees. Maximum Temperature—87 degrees.

WEATHER FOR TODAY. Cloudy with slight showers. All "bikes" look alike to the police. The grand jury will be found a useful institution in Hawaii.

All good citizens should participate in the pending primaries. If you lose a bicycle you might do worse than watch to see a policeman ride it.

Dr. English might take a contingent lien on those deferred payments on the so-called Crown lands. The rank and file of the police department is in the main in good form.

The suit of Dr. English against the ex-queen promises to become one of the most celebrated of recent Hawaiian cases. So the police consider stolen bicycles as mere junk.

The Republican reporters work for the news they get. They have no inside sources, as badly scooped competitors seem to imagine. The people are seriously studying the land question.

What a blessing it would be for this Territory if it only had a few more progressive citizens of the stamp of B. F. Dillingham. The Oahu railroad on this island and the Hilo and Volcano railroad on the island of Hawaii are monuments to the public enterprise and ability of Mr. Dillingham.

"A Subscriber" is respectfully informed that this paper never notices anonymous communications under any circumstances. The name must always be signed to any communication, even a single inquiry for information, not necessarily for publication, but as an evidence of good faith.

Some people who fail to secure information open to the public until after it has been published in The Republican feel bad. The remedy for you, brothers, is to get a hustle on you after the manner of the young men on this paper.

The Republican precinct leaders should at once begin marshaling their forces. With the primaries less than two weeks off it is important that every Republican should be aroused to action. Select the very best men in the respective precincts for delegates to the district and territorial conventions.

ager, Mr. S. M. Damon. More than one business man in Hawaii has been helped out of an embarrassing situation by the bank of Bishop and Company and it is to the credit of those who assisted that few, if any, have ever betrayed the confidence bestowed upon them by the bank.

That is a very serious charge preferred against the police by Mr. J. S. Bailey and published over his signature in another column. Naturally the question arises, why do not the police make some effort to find the owners of stolen wheels or why do not the police report the recovery of stolen wheels to the dealers immediately upon their recovery.

The Washington Star calls attention to the possibility that after the interruption of other sources of communication with the Chinese capital, news may be sent out by means of the famous carrier pigeons of Peking.

One of the things that should be pushed by every citizen interested in the growth and advancement of Honolulu is the extension of Fort street east to a junction with the Pauoa road. The property owners along the way should be glad to make the extension but if they will not do so of their own accord some means should be found to make them open up this very important thoroughfare.

OUR INSULAR FELLOW CITIZENS. To the current number of the Merchants' Association Review Judge E. A. Belcher (the Superior Court contributes an interesting article, the caption of which is "What Shall Be the Status of the Natives of Our Insular Territorial Possessions?")

Judge Belcher quotes a large number of judicial decisions upholding the doctrine outlined in the above excerpt, and from them he argues intelligently to establish the fact that no territory acquired by the United States is entitled to the protection of the constitution until action has been taken with respect to it by congress.

There is not much difficulty, however, in reconciling Judge Belcher's doctrine with our doctrine that the constitution follows the flag. If we admit that the constitution and the flag combine to throw their protecting shield over outside people after congress has acted upon a territorial acquisition, he agrees with us entirely in our contention that the constitution and flag go hand in hand together.

But the greater and more important question discussed by Judge Belcher is that concerning the expediency of conferring upon the inhabitants of these insular possessions in the near future American citizenship. He flatly asserts that the non-assimilable material which confronts us in all of them cannot be admitted into fellowship with the present citizens without endangering the safety of the republic and perhaps destroying its integrity.

The problem as stated by Judge Belcher is, indeed, the momentous one of the future, since it is quite certain that the nation has already embarked upon a voyage of foreign exploration which is bound to result in extending its flag to other regions of the earth. What shall be done with the Hawaiians, the Filipinos, the Porto Ricans and the Cubans—after we have acquired Cuba, as is already manifest destiny—must give the statesmen of the future pause, for Judge Belcher says there will be no escaping the "problem." Precisely where the line is to be drawn between the races, however, can now only be discussed.

What a great and honorable record the bank of Bishop and Company has had in its forty-two years of business experience. It has weathered all the storms of adversity as well as shared in the success and prosperity of Hawaii. Its management has always been broad and liberal from its foundation and especially has this been so under the able leadership of its present manager, Mr. S. M. Damon.

PRIMARIES.

Pursuant to a resolution passed at a meeting of the Executive Committee of the Territorial Central Committee of the Republican Party in the Territory of Hawaii, a call is now issued for Primary Election to be held in the various precincts on Saturday, September 1, 1900, for the purpose of electing delegates to a District Convention; the polls will be open from 3 p. m. to 9 p. m.

These are the rules and regulations of the Republican party in the Territory of Hawaii, governing precinct clubs: ARTICLE I.—PRECINCT CLUBS. Section 1. The unit of organization shall be the precinct club.

Section 2. There shall be a precinct organization in every election precinct. Section 3. Every person legally enrolled, in the various precinct clubs, shall be a member of the precinct club when permanently organized.

Section 4. The officers of each precinct club shall be a president, secretary, three judges of election, and such other officers as the by-laws of said precinct may provide. No initiation fees or dues shall be charged the members of any precinct club.

Section 5. The duties of these officers shall be those usual to said officers, and such as may be provided for in the by-laws of each precinct club. The three judges of election shall be sole judges at all primaries.

Section 6. No less than one-fifth of the members enrolled shall constitute a quorum for the transaction of business. Section 7. The president and secretary of each precinct club shall act as a revising board of the roll of the precinct club, and from time to time shall meet and revise said roll, so that it shall consist of only such members as still reside in said precinct; but no member on the old roll shall be admitted if he still resides in said precinct.

Section 8. Each precinct shall at the primaries elect, besides the officers aforesaid, delegates to the district committee. Section 9. Each precinct shall be entitled to elect one delegate to said district committee for each 25 votes cast in said precinct for the Republican ticket at the preceding election.

Section 10. Any person who is a duly enrolled member of a precinct club shall be eligible as a delegate to the district committee. The above rules and regulations of the Republican party in the Territory of Hawaii are also published in accordance with a resolution passed at the same meeting referred to above.

THE PIONEER JAPANESE PRINTING OFFICE. The Publisher of "HAWAII SHIMPO," the only daily Japanese Paper Published in the Territory of Hawaii.

POLICY OF CONSERVATISM. While the Provident Savings Life has adhered to the past policy of conservatism which has commended it to the insuring public, it has, during the past two or three years, found ready favor with the public because of its progressive spirit, and will doubtless in the future expand its business in even a more surprising degree.

TOPICS OF INTEREST
TO SUGAR PLANTERS.

EFFORTS TO ESTABLISH CENTRAL FACTORIES FOR USE OF SMALL PLANTERS.

State of Ohio Files Suit Against the American Sugar Refining Company - Louisiana Cane Crop.

There seems to be considerable difficulty in establishing central factories in the smaller islands of the British West Indies. In Trinidad and Demerara large establishments have been the rule for many years, but it is doubtful if any or many of these have been true central factories, that is, factories buying from the planter and paying cash for the cane, or the market value thereof. These factories do not seem to have been very successful, but they were consumers of sugar cane not produced by themselves, but carried to them or sold to them as central factories by cane growers producing the canes at points more or less remote from the central factory.

We advert to this matter now from the fact that Commissioner Morris, in his West Indian Bulletin No. 2, published some weeks back in Barbados, refers to the difficulties in inaugurating central factories in Barbados, Antigua and St. Kitts, where they could probably be made very effective and successful if introduced.

It has always been a wonder to us how our British cousins in the West Indies could hope to exist and to carry on their sugar industry with their old-fashioned apparatus, driven by animal power, wind power and water power, with no material change of methods during the last century and a half. We should naturally say that any sugar industry was doomed to destruction if it rested upon such a basis, and the quicker that some change was brought about the greater the chance to avoid extinction.

There will be no difficulty about starting central factories in the British West Indies when adequate knowledge of the actual results is obtained. For instance, it is imperative that the sugar cane consumed in any establishment, no matter how small, be carefully weighed before grinding. The general unit of scale for sugar cane is that of the ton, long or short, as the case may be. If a Barbadian cane planter and sugar manufacturer will separate his expenses carefully into two portions, the one identified with cane culture only, and not to include to the extent of one dollar any of the expenses incident to sugar manufacture, he can then determine exactly what the cane costs him per ton delivered at his own sugar house or factory. If then, in like manner, all of the expenses incident to sugar manufacture from the time and including the weighing of the canes into the factory and on through with all the expenses up to the sale of the sugar, are carefully collated, then it may be determined just how much the cost is of manufacturing a ton of cane into sugar. Of course the crop proceeds divided by the number of tons of cane consumed would indicate the money proceeds per ton of cane consumed and the cost per ton for cultivation and delivery, and the cost per ton of cane for its manufacture into sugar, and the sale of the product added together and subtracted ever, the gross proceeds will determine the gain, if there be any.

So long as there is any gain the average sugar planter will be very loath to discontinue his old processes, but when he finds it impossible to make both ends meet, he would naturally endeavor to ascertain the cause of his loss. By following the plan of operations we herein suggest, the Barbadian sugar planter may find that he can get more net money per ton of cane by selling his cane to his next neighbor than he can by grinding it in his own sugar house. When this is ascertained, and when the cane in any quantity, large or small, is sold to any neighbor because the neighbor's house may be more effective, may secure better returns in produce, or securing the same returns with greater economy in the process of manufacture, then the central factory is established. This neighbor who buys the cane is the incipient central factory, and if he can make money just as rapidly as his means may admit, and as rapidly as he can secure increased supplies of cane. In the meantime the other planter becomes a cane farmer, admits the ineffectiveness of his own sugar house, devotes greater attention and energy to the crop, increases it in size by this concentration of effort, and may make money in his business, instead of losses as previously.

We believe that the reluctance displayed in the British West Indies in developing central factories is from the lack of this knowledge that we herein suggest, and it can be brought about very rapidly by the use of scales for the weighing of the sugar cane consumed, and hence the acquisition of knowledge of how much per ton it may cost to produce and deliver sugar cane, and how much per ton it costs to convert it into final produce.

Scales weighing from three to ten tons can now be bought from our scale manufacturers quite cheaply. They can be bought at very low prices, and it is well worth the while of every West Indian cane planter to begin at once to weigh his sugar cane, and he will then find his view of the future rapidly clearing its way before him. In other words he will learn and know where he is and what to do.

DR. STUBBS' MISSION.

The Experiment Station Record gives some data concerning the work upon which Dr. Stubbs is now engaged in his mission to the Hawaiian Islands. The appropriation to the United States department of agriculture for the present fiscal year provides for the inauguration of experiment stations in Hawaii and Porto Rico, and Commissioner Wilson has determined to consider the whole matter carefully, and with that end in view requested Dr. Stubbs, director of the Louisiana experiment stations, to make a preliminary survey of the agricultural conditions in the Hawaiian Islands. He sailed about the middle of July and will spend about eight or ten days in the islands.

As in Hawaii the planters have maintained an organization for many years and during a few years past have been actively engaged in experimenting along the lines of better and more economic results in cane culture and sugar manufacture, the experiment station problem there presents some different phases from those that will present themselves in Porto Rico. In the Hawaiian Islands the labor problem seems to be one of the chief ones, while in Porto Rico there seems to be an abundant if not a super-abundant population. In Hawaiian cane culture irrigation is a necessity, while Porto Rico lies within the rain belt and irrigation has thus far excited no interest.

In the Hawaiian Islands Dr. Stubbs will doubtless consider the whole subject matter from a broad agricultural point of view, but he will necessarily be compelled to view his mission largely from a sugar producing point of view, as that is the chief industry of the islands, and the industry in which his long experience and great knowledge led to his selection by Commissioner Wilson as the best agent that the department could send to Hawaii for the purpose of making the desired investigations.

Prof. S. A. Knapp, of Louisiana has been selected to investigate the agricultural conditions and possibilities of Porto Rico, and went out to that island in June, where he is now studying the existing agricultural conditions, the lines of experimental investigation which should be undertaken there, suitable locations for experiment stations, and the approximate expense of inaugurating and maintaining the work. He will also look into the feasibility of inducing co-operative experiments on the part of the resident population, and the best means of reaching the people through publications, demonstrations, experiments, etc.—Louisiana Planter.

STATE OF OHIO BRINGS SUIT.

From the Ohio State Journal of July 22 it is learned that the attorney general of that state has brought suit against the American Sugar Refining Company for some \$57,000, claimed as a penalty for the company's failure to return to the secretary of state data upon which to estimate the amount of taxes to be paid by the company into the state treasury. The American Sugar Refining Company has denied the authority of the attorney general to bring suit other than upon the request of the secretary of state, to which the attorney general has replied, denying this statement, and claims that as attorney general he may act at his own discretion in such matters. The attorney general further claims that although the company has no offices in Ohio, it is not exempt from filing a statement as a basis for taxation. The American Sugar Refining Company sought to escape the effect of the law by setting up the claim that all its business in Ohio was done by mail and that no representatives were employed there. The final result of the suit will be looked for with considerable interest.

THE CANE CROP.

While the week under review has brought us a great deal of rain, there have been encouraging signs during the last two or three days of a change in the weather conditions, and the indications now point to a cessation of the heavy and frequent downpours with which the planters have had to contend for the past six weeks. Dry weather cannot come a bit too soon. The soil is thoroughly soaked everywhere, and while the cane is holding its color and making good progress, the heavy rain has had too much rain, and in many places it has been impossible to give it proper cultivation, the result being that it has laid itself by and attained a size which makes it impossible for the teams to travel between the rows, even should dry weather now intervene and put the soil in workable condition. Taken by and large, however, the crop is a good one, and it has withstood the excessive rainfall with remarkable success.

Tit-Bits.

Doing is the proper end of doctrine. Loose living and fast living are the same. Deeds furnish the best answer to doubt. A feeble faith is better than a mighty feeling. It is always easier to forget bad habits than to forego them. A lie feels easy only when it forgets that it has a truth on its track. Crooked men cannot expect to agree with the straight truths of the Bible. The church needs men who will get out and do the chores, even though others are raising the scores. The richest man is not the one who has the most, but the one who can be most thankful for the least. Many a man says the Lord's prayer every day who never thinks it worth while to try to hurt the devil with his vote. God is not worshipped in spirit and in truth in the church that has to go into the show business to raise money to pay its honest debts. Many a gifted preacher can find time to read a new book every week who couldn't find the parable of the prodigal son without a concordance. A Minister's Good Work. "I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured. I think it the best medicine I have ever tried." For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Territory.

ALONG THE WATER FRONT.

Rough Trip of the Mariposa From the Colonies.

STORMY WEATHER ENCOUNTERED—PURSER HOWARD ADAMS HAS A NARROW ESCAPE FROM DEATH.

Giant Cranes at Cramp's Yards—Chief Naval Station—The Great Harry and Her Guns—Notes.

The steamer Mariposa from the colonies, arriving yesterday, reports a similar experience to the Alameda on her last trip up. From Sydney to Auckland the voyage was a most pleasant one. On the way to Apia heavy weather was experienced and the vessel was slowed down for 11 1/2 hours. Several Hereford cattle aboard died from injuries received during the storm and some sheep were badly used up and died.

The Mariposa brought but one passenger for this port, but she had a goodly number of through passengers. She brought quite a lot of cargo for here. She sailed for San Francisco at 4:30 p. m., taking a great many people from here.

PURSER'S ESCAPE.

Very rough weather is reported all along the coast and crossing the channel. Purser Howard Adams of the Noeau had a narrow escape from death while his vessel was in Honolulu. He was standing on the forward rail of the vessel watching for the boat when an immense sea struck the Noeau, knocking Adams overboard. He went down quite a distance and the vessel was rolling so hard that the keel of the steamer caught him and carried him under the vessel to the other side, where he bobbed up serenely and was hauled onto the deck. His arms and shoulders are badly bruised by bumping along the barnacles on the Noeau's bottom and sides.

COASTWISE LAW.

Philadelphia, Aug. 8.—The arrival recently at this port of the brig John McDermott, Captain Tooker, from Porto Rico, with a cargo of sugar, has brought out an interesting question as to whether or not a vessel from that island is, under the law, subject to pilotage. Porto Rico is now regarded as a coastwise port and it is claimed that under the existing acts of assembly a vessel from a coastwise port is exempt from the necessity of taking a pilot. In New York a suit is now pending between the New York and Porto Rico Steamship company and the pilots over this same question, and the decision of the court is awaited with more than usual interest.

CRAMP'S GIANT CRANES.

To the many strangers who visit the William Cramp & Son's shipyard, on the banks of the Delaware river, in Kensington, the new electric traveling cantilever cranes which hang in mid-air like sprawling spiders attract the greatest attention. From an interesting description of these new cranes in the Philadelphia Times it is learned that the extreme end of the cantilever arm, which extends beyond the width of two ships, a lift of 9,000 pounds can be made at the rate of 350 feet per minute and light loads at the rate of 700 feet per minute. This weight, when poised in mid-air, may readily be deposited on the far side of a ship having a breadth of ninety-five feet. The extreme width of the cantilever arm is 203 feet.

At a point between the needle pivots on which the arm revolves and at the extreme edge of the crane, 25,000 pounds can be lifted at the rate of 125 feet per minute. This load can be deposited anywhere inside the ship. The speed of the trolley traveling across the cantilever arm is from 400 feet to 800 feet per minute, according to the load.

The cantilever will travel along the trestle work or runway at a rate of speed averaging from 400 feet to 700 feet per minute, according to load and wind pressure. This entire system is operated by an electric trolley. When completed the cost of the system will be close to \$750,000. A load of 25,000 pounds is lifted and carried along as a child would carry a toy. The plant is being installed by the Brown Hoisting company of Cleveland.

CHIEF NAVAL STATION.

At League Island, in the Delaware river, the United States is to establish the chief naval station of the country, says the Baltimore Herald. Work on many features of the plans of construction has been pushed during the past year and this month there becomes additionally available the sum of \$390,000. This amount, together with the sums already applied, makes a total exceeding \$3,000,000 that will be expended in the great enterprise. The principal feature of this naval station, which will, when completed, possess docking and other facilities superior to those of any other navy yard in the world, will be a great fresh water basin that will hold all the ships of the navy. When finished the basin will be 700 feet wide with a length which is not yet definitely determined, but which will be fully adequate to meet every possible demand. There is already begun work on a government dry dock which will cost \$1,000,000. The basin and the dock will probably be connected by a canal, enabling ships to be expeditiously run in for cleaning or repairs. A great number of steel and brick buildings will be erected, which will provide every equipment for all manner of work connected with a warship or any pattern or design.

THE GREAT HARRY.

England's first war vessel of any pretensions was called the Great Harry. She was a double-decker and was built in 1509. She had a capacity of 1,000 tons, carried eighty guns, was 135 feet long, 36 feet beam and 25 feet deep.

MOVEMENTS OF STEAMERS.

Steamers due and to sail today and for the next six days are as follows:

Table listing steamers, their destinations, and departure times.

DEPART.

Table listing departure times for various steamers.

SHIPPING NOTES.

The flooring of the second navy wharf is all laid. The James Makee, for Kapa and the Keouhou, for Elele, sail today at 3 p. m. The bark Pactolus has been chartered to load coal at Philadelphia for San Francisco. The schooner Mawema and barkentine Newsboy went to sea yesterday. Their destination is the Sound. The Alga, from the Orient, with a general cargo, is expected next week. She sailed from Hongkong on the 4th. Pilot Lorenzen and his boat boys had an exciting tow-in behind the Fearless yesterday from the Mariposa. The George Curtis was taken from the stream and put alongside the railroad wharf yesterday by the tug Fearless. The gasoline schooner Surprise, for Lahaina and Kona and Kau ports, left last night at 5 o'clock with a large cargo. The John McDonald, which arrived at Delaware breakwater on August 6th, left Hilo April 14th, making the voyage in 112 days. The James Makee was late in returning. She was weather bound on Kaula. Very rough weather is reported all along the coast. Within the next few weeks a quantity of coal will be shipped from Philadelphia to Honolulu, on account of the United States government. The ship Republic began discharging at Pacific Mail wharf yesterday. Later in the day she was shifted to the navy slip and will finish there. Eight blue jackets from the United States ship Abarenda came up from Apia on the Mariposa. Their time has expired and they are on their way home. During the last trip Purser Bert Sharratt of the Keouhou received an ugly cut on the temple by being thrown out of his berth during the rolling of the steamer.

MARIPOSA'S REPORT.

Left Sydney August 1st at 1:55 p. m.; left Auckland August 6th at 2:16 p. m.; left Apia August 10th at 4:15 p. m.; arrived Honolulu August 17th at 8:30 a. m. Time from Sydney 16 days, 15 hours, 5 minutes. Experienced fine weather, with light variable winds from Sydney to Auckland; leaving Auckland ran into strong easterly wind, with very heavy cross confused swell; ship slowed down 1 1/2 hours, wind hauling north to west, increasing to moderate gale, which lasted 24 hours, wind gradually hauling to south and west and moderating; thence to port; light, variable winds and fine weather, with long, heavy, southerly swell.

IMPORTATIONS.

The following was the Mariposa cargo for this port: 6 cs horse medicine, 12 bx and 1 cs mdse, 435 cs brandy, 100 cs wine, 5 cs saddlery, 363 cs groceries, 100 cs whiskey, 200 cs gin, 93 cs liquors, 2 cs granite, 4 cs apparatus, 2 cs drapery, 1 parcel.

PASSENGERS ARRIVED.

FOREIGN VESSELS GET ALL THE TRADE.

American Fruit Trust Has Chartered Forty Alien Ships at Appalling Prices. Philadelphia, Aug. 6.—Probably never before has the necessity for a rehabilitation of the American mercantile marine appealed more forcibly to the capitalists of this country than within the last few years, and last week the statement was made that the American Fruit trust had chartered, for periods ranging from one to three years, a fleet of foreign steamships, numbering some forty in all, to carry bananas, etc., from the West Indies to Baltimore, Philadelphia, New York and Boston.

This, figuring most conservatively on the rates that must be paid for the hire of these vessels, means that within the next three years there will be taken out of this country monthly \$100,000, or \$1,200,000 annually, and \$3,500,000 in the three years. These figures are considered astounding, but, nevertheless, inasmuch as they apply only to the West India banana trade the assertion made not long since that from \$400,000,000 to \$500,000,000 of American money are captured annually by the foreign shipowners seems not very wide of the mark. Saturday's Press contained in its column of charters the names of the fleet of vessels chartered by the American Fruit trust and it will be seen that with one or two exceptions all were Norwegians and Danes, two being British and none Americans. In this lucrative trade the assertion is made that the foreign vessels pay anywhere from 25 to 40 per cent. There are at the present time only four American ships in the Admiral Sampson, Admiral Schley, Admiral Dewey and Admiral Farragut, all of which were recently built here by Cramps, that are in any sense competitors of the foreigners. The keen competition of the Scandinavian owned vessels seems to have driven all others out of the trade, and whether or not it can ever be reclaimed by Americans is problematical. Fifteen years ago nothing but American steamers were engaged in the banana

trade, but the entrance of the Britishers drove them out. Then along came the Norwegians and they were manned and run at such cheap figures that they were enabled to accept much lower freight rates and consequently captured the trade. Aside from the banana trade a hasty glance over the list of vessels engaged in transatlantic freighting offers no better encouragement. The fleet of steamships running in conjunction with the Reading Railway company to London and the Bristol channel all by the English flag, as does also the Atlantic Transport Line steamships, although both are practically owned in this country. The two opposition lines to Rotterdam are of necessity forced to charter foreign owned vessels for the trade, and even the American Line from Philadelphia to Liverpool and Red Star Line to Antwerp fly foreign flags. Some of the more hopeful merchants of this city think that the next few years will witness a building up of the American mercantile marine. Freight is good and there is apparently no reason why properly managed vessels should not be as good an investment as they ever were.

UNVEILING MONUMENT TO FALLEN AT SAMOA.

Erected in Honor of American and English Killed.

ANGLO-SAXONS REST SIDE BY SIDE. BEAUTIFUL CEREMONIES PERFORMED BY MEN FROM TWO NATIONS.

American and English Flags Entwined in Bronze on One Face of the Granite Monument.

The Samoan Weekly Herald of August 4th, received here yesterday per the steamer Mariposa, contains the following interesting account of the unveiling of the monument to the American and English marines who were killed in action in Samoa in April, 1899:

On Sunday, the 29th of July, the memorial stone, which had been subscribed by the English and American ships of war, to the officers and men killed while engaged here during the recent troubles, was unveiled by His Excellency the Imperial Governor, in the presence of a large concourse of people at Mulinu.

The ceremony commenced by the landing at the German Firm's wharf of the English and American sailors. The English, taking the lead with a funeral party and reversed arms, marched to Mulinu.

On arrival at the site, which had been granted by the German Government in exchange for the original one, which was unsuitable; the Rev. W. Hockett of the London Missionary Society, followed by the Imperial Governor; Judge Knipping, Commander Tupper, Commandant Tilley, U. S. Consul General Osborn, H. B. M. Consul Hamilton Hunter, Mr. Banze and the municipal officers, took up a position inside the ground.

Rev. W. Hockett then read the Church of England burial service, at the conclusion of which the firing parties from H. M. S. Pylades and the United States ship Abarenda fired three volleys over the graves of their comrades to the call of the "last post," which was first sounded by the bugler of the Pylades and afterwards by the trumpeter of the Abarenda.

Then followed a hymn led by Commander Tupper, in which all present joined in singing "Thy Will be Done," after which the officials left the enclosure and came out in front where the bluejackets formed in square with the Governor and officials in the center. There Commander Tupper addressed the Governor as follows:

"As senior representative here present of the British and United States Navies, I thank you for the kindness and courtesy you have shown to us, in granting such an excellent site for the memorial which has been erected to the memory of our comrades who fell in the discharge of their duty, and I feel sure that the relations and friends of the deceased wish me to express their gratitude to you, for your kind wish, voluntarily expressed, to take care of the memorial they have subscribed to their dear ones, and for the assistance which you and your countrymen here present, have so generously rendered to us in erecting the same. I now invite Your Excellency to be kind enough to unveil the memorial for us."

His Excellency the Governor in reply said: "In performing the honorable task of unveiling this memorial I am desirous of expressing my heartfelt sympathy for the dead. I feel gratified in having been able to assist Commanders Tupper and Tilley in choosing a suitable place for the memorial; and I shall deem it an obligation to watch over and preserve from injury the last resting place of those who died in the discharge of their duty. I now unveil the memorial."

The monument being unveiled, the bluejackets, on the word of command, saluted the Governor, after which the officials retired.

The residents then came forward and placed wreaths on the monument. The following is a description of the stone with the inscription thereon: The monument is of gray granite complete, and weighs about 15 tons. It is enriched by the British and American flags entwined in bronze; also a navy anchor of the same material. The base of the monument is 11 feet by 6 feet 6 inches square. It stands enclosed by an iron railing and coping, which covers 50 feet by 25 feet square. In all, the weight is about 30 tons, and was brought down to Apia in H. M. S. Pylades and was erected by the men of this ship under the direction of Captain Tupper. Messrs. Ross and Bowman of Waverley, have done the work in admirable style to the order of the combined American and British navies. The cost, irrespective of fixing and carriage, is about £250.

INSCRIPTION: P. S. Lonsdale, Lieut. U. S. N., "Tauranga"; J. R. Moraghan, Lieut. U. S. N., "Tauranga"; N. E. Edsall, Lieut. U. S. N., "Tauranga"; James Butler, Cox. U. S. N., "Tauranga"; John E. Mudge, Lt. U. S. N., "Tauranga"; Thomas Holloway, Lt. U. S. N., "Tauranga"; P. U. S. M. C., "Philadelphia"; O. S. of H. M. S., "Royalist"; April, 1899.

On the back is inscribed: ERECTED BY the officers and men of the U. S. Flagship "Philadelphia," and H. B. M. Ships "Tauranga," "Royalist," "Porpoise" and "Torch."

OF PERSONAL INTEREST Ribbons and flowers at cost at Mrs. Hanna's. O. T. Sewall sailed on the Mariposa, yesterday. Governor Dole is expected home on the Kinaiu today. If you want a prompt messenger, ring up Phone 444. Cleveland quality make them the cheapest wheel to buy. Captain C. J. Campbell has returned from his trip to Kanai. Dr. and Mrs. W. C. Stubbs sailed for the Coast on the Mariposa, yesterday. Mr. and Mrs. S. N. Hundley of Kealia arrived on the James Makee yesterday. What is the latest novelty? The Dying Pig. Ask Wall Nichols & Co. about it. Major H. Bateman, of the British Army, was a through passenger in the Mariposa. Mr. Pfotenbauer and Captain Ahlborn arrived from Lahaina in the Lelehu Thursday evening. J. W. Pratt has returned from Maui and reports the water supply of Waialuku abundant and excellent. Joseph Le Bars has filed his declaration of intention to become a citizen of the United States. He is a native of France. The choice residence property of Chase S. Desky, located on the corner of Victoria and Green street is offered for sale. Something for the ladies who are going to the boat races is exhibited in the window of The White House 429 Fort Street. Mrs. H. P. Huggins, widow of the late Dr. Huggins of Kealia, Kauai, arrived in the Makee yesterday. She is on her way back to her home in Ohio. J. M. Vivas, the lawyer and real estate man, is making slow progress toward recovery. He was stricken with paralysis some time ago and is now at the Sanatorium.

WONDERFUL GROWTH OF AMERICA'S TRADE. Preceding Years Surpassed by Three Hundred Millions. AN ARRAY OF FACTS AND FIGURES.

EXPORTS BREAK ALL RECORDS AND ARE MORE WIDELY DISTRIBUTED.

In Imports Manufacturer's Materials Show Increase But All Other Articles Show a Smaller Percentage.

WASHINGTON, Aug. 3.—The annual report of the chief of the treasury bureau of statistics upon the foreign commerce of the United States during the year ending June 30, 1900, has been completed and will form a part of the June summary of commerce and finance, which will make its appearance during the coming week. The report shows the total imports of merchandise during the year were \$349,714,570; the total exports \$1,294,186,371. The principal features of the report, omitting the statistical tables, are as follows: Four great facts characterize the foreign commerce of the United States in 1900, the closing year of the decade and century:—

- 1. The total commerce of the year surpassed by \$319,729,250 that of any preceding year, and for the first time in our history exceeds \$2,000,000,000. 2. The exports exceed those of any preceding year, and have been more widely distributed throughout the world than ever before. 3. Manufacturers' materials were more freely imported than ever before, and formed a larger share of the total imports than on any former occasion. 4. Manufactured articles were more freely exported than ever before, and formed a larger share of the total exports than on any former occasion.

In exports every great class of articles showed a larger total than in the preceding year, in imports every class except manufacturers' materials showed a smaller percentage of the total than in the preceding year, while manufacturers' materials showed a much larger total and larger percentage of the grand total than in any former year.

MANUFACTURERS' MATERIALS.

Two of the five great classes of imports are exclusively manufacturers' materials. The first of these, "articles in a crude condition which enter into the various processes of domestic industry," includes and is chiefly made up of manufactured fibers, raw silk, wool, crude India rubber, hides and skins, pig tin and certain chemicals. The second, "articles wholly or partially manufactured for use as materials in manufacturing," includes wood, leather, furs, cement, yarns, oils, dyes and dyewoods and certain chemicals. The other three classes of imports are foodstuffs, articles manufactured ready for consumption, and articles of voluntary use, luxuries, etc. Of the two classes designated as manufacturers' materials, that which include only articles in a crude condition is by far the largest, being, in 1900, \$302,264,106, against \$222,657,774 in 1899, or nearly 40 per cent greater than in any preceding year; while the class which includes articles wholly or partially manufactured for use in manufacturing amounts to \$88,433,546, against \$98,753,903 in 1899, and \$109,132,526 in 1891. Of the total imports of the year, manufacturers' materials, including the two classes above named, show an increase of \$107,875,698 over those of the preceding year, while the other three classes, foodstuffs, manufactures and luxuries, show an increase of but \$45,190,483 over the preceding year, thus showing that over two-thirds of the increased importations of the year are in manufacturers' materials.

While manufacturers' materials show the largest growth in our imports, manufactured articles show the largest growth in our exports. The total exports of manufactures in 1900 amounted to \$432,284,366, against \$329,875,568 in the preceding year, an increase of \$92,608,808, while in no earlier year had the increase amounted to so much as \$50,000,000. Manufactures formed 33 1/2 per cent of the total exportations in 1900, against 28.13 per cent in 1899, 28.87 per cent in 1897, 23.14 per cent in 1895, 20.25 per cent in 1888, 15 per cent in 1870, and 12.76 per cent in 1860. Exports of manufactures in 1899 were \$40,345,892, and in 1900, \$432,284,366, while the total exports in 1860 were \$333,576,067, and in 1900, \$1,294,186,371. Thus, while the total exports of 1900 are four times as great as in 1860, those of manufactures alone are ten times as much as in 1860. In that year manufactures formed but 12.76 per cent of our total exports, while in 1900 they form 31.54 per cent of our total exports. Even in the decade which ends with the year 1900, the growth in exports of manufactures has been equally striking. In 1891 the total exports amounted to \$834,480,810, and those of manufactures alone to \$168,927,315, the total exports for 1900 thus being but 20 per cent in excess of 1891, while the exports of manufactures are 150 per cent in excess of that year.

This rapid growth in the exportation of manufactures is particularly gratifying when compared with that of other nations which have heretofore chiefly supplied the world's markets in manufactured goods. Thus, our exports of manufactures are now ten times as much as in 1880, while those of the United Kingdom are but one and one-half times as great as in 1880. A study of our imports from the grand divisions of the world illustrates the growth in the proportion of our imports which is being supplied by the tropical and sub-tropical parts of the world. In 1890 the imports from Europe were \$440,967,265, and in 1900, \$440,000,180; from North America the

imports in 1890 were \$143,268,706, and in 1900, \$129,282,870; from South America, from which our imports are almost exclusively tropical, the imports of 1890 were \$90,006,144, and in 1900, \$93,632,124; from Asia, whose supplies sent to the United States are chiefly tropical, and sub-tropical in character, our imports in 1890 were \$67,506,833, and in 1900, \$129,812,623; from Oceania, being almost exclusively in the tropics, the imports in 1890 were \$28,356,568, and in 1900, \$34,596,642; and from Africa, from which our imports are almost exclusively tropical and sub-tropical, our imports in 1890 were \$3,321,477, and in 1900, \$11,111,116.

While Europe is naturally our largest market for breadstuffs, the percentage of growth in our sales to other parts of the world is much more rapid. To Europe our exports for the year 1900 crossed for the first time the billion-dollar line, yet our exports to that continent show an increase of but 10 per cent in 1900 over 1899, and but 50 per cent over 1890, while to North America our exports in 1900 show an increase of 18 per cent over 1899 and 85 per cent over 1890. To South America the increase is very slight, owing in part at least, to the lack of direct steamship communication for our export trade. To Oceania the increase in 1900 over 1899 is 48 per cent, and over 1890 is 162 per cent. To Asia the increase in 1900 over 1899 is 48 per cent, and over the year 1898 is 201 per cent. To Africa the increase in 1900 over 1899 is comparatively small, owing to the interruption of commerce with that continent by the existing war, but compared with 1890 the increase is 124 per cent. To Europe and British North America our exports in 1900 show an increase of 10 1/2 per cent over 1899 and 57 per cent over 1890, while to all other parts of the world our exports in 1900 show an increase of 31.7 per cent over 1899 and 91.7 per cent over 1890.

A FLOATING POST OFFICE. One Will Be Established for Convenience of Troops in China.

WASHINGTON, Aug. 7.—An order to establish a floating postoffice in China has been given by Mr. Beavers, acting first assistant postmaster general, for the accommodation of American soldiers and legion people. It will be a sub-station of the San Francisco postoffice, and its base of operations will be at Nagasaki, Japan, where nearly all the transports will touch. Each important division of the American troops will have a floating postoffice, and mail will be delivered to the soldiers almost on the battle fields. Granville Hunt, financial clerk in the Washington city postoffice, has been detailed to go to China and open up the postal supply service. He will accompany Mr. H. M. Robinson of Atlanta, chief of the railway mail service at that point, who will have charge of the new postal service for our soldiers in China. The postmaster general desires that an expert on organization and supply of postoffices be sent to China, the others detailed being more familiar with transportation matters. Mr. Hunt was sent to Havana to assist in organizing the postal service in Cuba soon after the United States took charge of the island, and later opened the postoffice at Ponce, Porto Rico. Mr. Hunt will take with him about \$100 worth of stamps, etc., for the use of the soldiers. They will leave about the 10th inst. for San Francisco. All the soldiers will be given the benefit of domestic postal rates while they are in China.

Good Medicine for Children.

If you have a baby in the house you will wish to know the best way to check any unusual looseness of the bowels, or diarrhoea so common to small children. O. P. M. Holliday, of Deming, Ind., who has an 11-months-old child, says: "Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach. His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water, and he got better at once." For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Territory.

CLASSIFIED ADVERTISEMENTS. By Authority.

IN THE DISTRICT COURT OF THE UNITED STATES, FOR THE TERRITORY OF HAWAII. The President of the United States of America, to the Marshal of the [L. S.] United States of America for the Territory of Hawaii: Greeting:

Whereas, a libel hath been filed in the District Court of the United States for the Territory of Hawaii, on the 15th day of August, A. D. 1900, by Chris Collins, Carl Jensen, John Peterson, John Anderson, vs. The American Bank, "Empire," &c., and F. F. Kenaka, Master, for the reasons and causes in the said libel mentioned, and praying the usual process and motion of the said court in that behalf to be made, and that all persons interested in the said vessel, her tackle, etc., may be cited in general and special to answer the premises, and all proceedings being had that the said vessel, her tackle, etc., may for the causes in the said libel mentioned, be condemned and sold to pay the demands of the Libellants.

You are therefore hereby commanded to attach the said vessel, her tackle, etc., and to retain the same in your custody until the further order of the court respecting the same, and to give due notice to all persons claiming the same, or knowing or having anything to say why the same should not be condemned and sold pursuant to the prayer of the said libel, that they be and appear before the said court, to be held in and for the Territory of Hawaii, on the 20th day of August, A. D. 1900, at ten o'clock in the forenoon of the same day, if that day shall be a day of jurisdiction, otherwise, on the next day of jurisdiction thereafter, then and there to interpose a claim for the same, and to make their allegations on that behalf.

And what you shall have done in the premises, do you then and there make return thereof, together with this writ. Witness, the HON. MORRIS M. ESTEE, Judge of said court, at the City of Honolulu, in the Territory of Hawaii, this 15th day of August, A. D. 1900, and of our independence the one hundred and twenty-fifth. (Signed) WALTER B. MAILING, Clerk.

By D. A. RAY, U. S. Marshal for the Territory of Hawaii, per E. R. Hendry, Chief Officer Deputy U. S. Marshal. DAVIS & GEAR, Proctors for Libellant.

HOTEL STREET

To Those in Quest of A RUG...

To Intending Purchasers of Rugs we would state that just before the change in tariff we received a large and varied assortment of

Japanese Rugs

By purchasing these Rugs before the change, a saving of about fifty (50) per cent. was effected, which our customers are to profit by, as we do not intend, at present, to increase the price but will sell them, while they last, at the old figure.

Under these conditions, a buyer here can now purchase these Rugs for much less than they are sold for on the mainland.

We have made a display of these Very Handsome Rugs in our large, central show window, where their beautiful designs and harmonious coloring is sure to attract attention.

THE HAGEY COMPANY CASE ONCE MORE.

Judge Silliman Sustains the Demurrer of Defendants.

THE MEMORANDUM TO DECISION.

MERITS OF THE CASE NOT AFFECTED BY THE COURT'S RULING.

This is the Third Demurrer of the Defendants Which Has Been Sustained by the Courts.

In the case of Thomas Mitner Harrison vs. J. A. Magoon, F. B. McStocker, L. C. Ables and Dorothy Emerson, Judge Silliman has sustained the defendant's demurrer. In a memorandum attached to the decision the court says:

"As to the first count, it being a count on a joint obligation, I think that the joint obligors should be joined as defendants as required by our statute, especially in the absence of any allegations in the complaint setting forth that J. E. Cowart, J. H. Kirkpatrick, George D. Moore, A. E. Powter and James Wolfenden are without the jurisdiction of this court. I do not believe that it is necessary to raise this point by plea in abatement setting forth that the parties not joined are without the jurisdiction of the court."

"As to the second count, I do not think it sets forth facts sufficient to show that any valid judgment has been rendered in the supreme court of New Zealand, northern district, in that there is no sufficient allegation of the service of the process of the court upon the defendants or otherwise setting forth facts which show that said court, which is a court of a foreign jurisdiction, had any jurisdiction of the parties against whom said judgment is rendered."

"I think on an inspection of the first count of the declaration and the written memorandum of agreement, attached to the declaration and made a part of the said count, it is apparent that a partnership relation was entered into between the plaintiff and the defendants named in the declaration, together with certain other persons; and I think that there is no sufficient allegation contained in the declaration of such an accounting between the partners as would result in a specified liquidated sum due to the plaintiff which he would be entitled to recover in a suit at law. Such an accounting ought to show that the item of \$2000 was considered by the partners, and that the defendants who are sued promised to pay the same as in an account stated."

"I also believe that the allegations of the complaint are not so definite and certain as they should be made, especially with regard to the facts pertaining to the relation of the plaintiff and defendants, the agreement that was entered into between them, the accounting or other steps that were taken to wind up the affairs of the partnership or to show how the partnership terminated if there was a final end thereof, and also in regard to the obtaining of a judgment in the New Zealand court, and I think all the jurisdictional facts should be averred."

This decision is not on the merits of the case. The plaintiff in his declaration claimed damages from the defendants for \$10,000, for breach of contract in carrying on business as co-partners in the colony of New Zealand and elsewhere, under the firm, name and style of The African Pacific and Indian Hagey Company.

Plaintiff alleged that if, at the expiration of six months stay in Tasmania the Hagey business should be unsatisfactory defendants were to give him stock in the company of the market value of an amount equal to the sum paid by plaintiff as a consideration under said agreement, that was to say, stock of the market value of \$2000. The business was unsatisfactory.

The plaintiff, according to complaint, made a demand for the \$2000 and defendants refused to pay him the amount.

This is the third demurrer filed in the case by the defendants, all of which have been sustained by the courts.

GAME OF BASEBALL TODAY.

Some Champion Players Will Be In the Line-Up.

There will be a game of baseball between teams called E. O. Hall & Son and the Judd Building today at 3:30. The game will take place at the Punahou grounds.

The teams are made up from cracks from the old Kamehameha and Oahu College teams with one or two Eastern players of note. Among the latter, is P. M. Lansdale who did good work for his college in former days.

The following is the line-up:
E. O. Hall & Son Judd Bg.
Willkoki Catcher A. Marcellino
H. Kasia Pitcher A. L. Castle
E. H. Paris 1st. base S. N. Castle
Antone 2nd. base J. Marcellino
J. C. Akina 3rd. base P. Lansdale
M. Silva short stop F. Wright
Mahoe right field J. Clark
Sol. Koki center field W. Wright
Ayiett left field W. Aheon

THIS TO JAR.

[From The Evening Bulletin.]
The Advertiser asserts that it represents seven-eighths of the Republican party.
Wouldn't that jar you? Our esteemed contemporary must be dreaming.

It Saved His Baby.

"My baby was terribly sick with the diarrhoea, we were unable to cure him with the doctor's assistance, and as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. J. H. Doak, of Williams, Or. "I am happy to say it gave immediate relief and a complete cure." For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

NEWS OF THE TOWN

The Democratic Educational committee will probably meet on Monday evening.

Hawaiian Lodge, F. & A. M., had an interesting meeting last evening. Work was done on the Entered Apprentice degree.

Some fine Hereford cattle, two bulls and four heifers, arrived in the Mariposa. They are for Hind & Low of Hawaii.

D. G. Camarinos, the prince of fruit men, celebrated his birthday, yesterday. He gave his friends a royal entertainment.

Captain W. D. Burnham, of the American-Hawaiian Steamship Company, sailed for San Francisco on the Mariposa, yesterday.

High Sheriff Brown celebrated his birthday on Thursday. A dinner at the family residence at Waikiki, that evening was a feature of the occasion.

The Danish bark "Else" which went ashore near Apia some time ago was sold at auction for \$1400. Her commander, Capt. Thomanu, was a through passenger in the Mariposa.

George Martin, son of J. S. Martin, will open a tailoring establishment at Room 3 in the Elite Building, on Monday, August 23rd. Mr. Martin has just returned from the Coast and is thoroughly posted on the latest style.

Superintendent McCandless of the Public Works Department went to Waiailua, yesterday, where he will inspect bridges and roads, making investigations in regard to new improvements and repairs. He will return this morning.

The latest Police Gazette contains excellent portraits of Colonel C. J. McCarthy and Patrol Captain A. A. Fox. Nice complimentary notices, accompanying each portrait, The Hills hotel and some other island institutions are mentioned in the same number of the paper.

George Gran, formerly of H. Hackfeld & Co., is now first lieutenant in one of the companies of the 49th U. S. Volunteers in the Philippines. Considering the fact that Gran went to Manila entirely unknown and entered the army as a private, his promotion has been very rapid.

"No. 1 will not buy stock at this time," declared Ed. Pollitz, the broker last evening. "The San Francisco market is not just now in position to stand it. Of course, I am looking over the field and will place myself in position to negotiate later in case anything opens up on the other side."

Mr. and Mrs. J. K. Burkett, and Mrs. Catharine Evans, left on the Mariposa, yesterday, on a visit to the States. They will go as far East as Chicago and expect to be gone two months. Mr. Burkett is an old teacher in the public schools of Hawaii and was recently appointed normal instructor.

At the Christian church the pastor, John C. Hay, will preach. Subject at 11 a. m., "Pure religion and undefiled before God includes keeping one's self unspotted from the world. It is also a positive benevolent force which pulls down the strongholds of sin and establishes the kingdom of God and his righteousness." At 7:30 p. m., "Will citizens of Hawaii be free from self before God who do not exert themselves to arrest the Satanic work of making men drunkards and murderers?"

At a meeting of the Healina Yacht and Boat club Thursday evening the following officers were elected: Walter E. Wall, president; P. L. Weaver, vice president; A. L. C. Atkinson, captain; James W. Lloyd, vice captain; H. P. Roth, commodore; C. S. Smith, vice commodore; C. B. Gray, treasurer; F. B. Damon, auditor, and G. H. Gere, secretary. Several new members were elected. The proposition of sending the crews to Pear harbor for training was discussed, but no action was taken.

Hall-Hall.

The wedding of Miss Mary Ann Hall and George Hall both of Honokaa, took place at Paauhau on August 12th.

A New Model.

Have you seen those new SIDEBOARDS we have just unpacked? We'd like to show them to you, whether or not you want to buy just now. You may want one of them later. There are a large number of NEW MODELS among them—designs which have never been shown in this city. We are offering them at Coast prices.

IS CHILLINGWORTH TO BE REMOVED?

Such a Rumor Was Current Last Night But the Deputy High Sheriff Denied It.

A rumor gained currency in the city last night, to the effect that Deputy High Sheriff Chillingworth had severed his connection with the police department. The story was widely circulated and, singularly enough, generally believed.

Mr. Chillingworth, when asked by a Republican reporter, said there was no truth in the rumor. "I have not resigned," he said, "and I have no thought of so doing. If I am no longer connected with the police department I do not know it, and certainly had not been made aware of the fact before retiring."

The rumor concerning Mr. Chillingworth's resignation received ready credence, because such a move is not wholly unexpected. Ever since Hanrahan has caught the ear of High Sheriff Brown and monopolized attention wholly out of proportion to his position, it has been suspected that Chillingworth would sooner or later have to give way to the pet, though it is said Hanrahan is not a citizen.

The position of Hanrahan has been an anomalous one, and it is not yet clearly defined. It is not likely, however, that he will be advanced over the head of so good a man as Chillingworth before he is made a citizen.

GUARDING HIS MOUTH.

German Foreign Office to Censor Emperor's Speeches.

BERLIN, Aug. 7.—The foreign office has taken steps to prevent unauthorized publications of Emperor William's speeches. At the second commemoration of troops for China the correspondents were admitted only after signing a written agreement to publish no report of the Emperor's deliverance on that occasion until the manuscript had been submitted to the foreign office.

NO OUT IN SUGAR YET.

Plenty of Business for All Refiners at Present.

PHILADELPHIA, Aug. 7.—James H. Post, President of the National Sugar Refining Company, said today that company saw no necessity at present for meeting the 1 per cent. trade discount on refined sugar which was announced by Arbuckle Brothers and added that it was not likely to make any reduction in their prices for some weeks at least. "We are already selling all the sugar we can produce," he continued, "and have orders ahead as far as September; but I know that other houses have, as well. We shall do whatever is necessary to protect our business, and that means that we shall probably have to

meet the Arbuckle's out, as soon as we feel the effects of it. But that may not be for some time. I think it not improbable that the Arbuckle people were misled by persistent rumors that the American Sugar Refining Company was about to give extra trade discounts."

In spite of the assurances, repeated today by its officers, that the American Sugar Refining Company will not, now or in the future, follow the Arbuckle's lead, many sugar-brokers are of the opinion that it will meet the cut, and that as soon as the present "canning season" is over, the "sugar war" will be resumed with all its old hostility. "The great fall demand for sugar, now just beginning, makes this an unprofitable time for rate-cutting," said a broker, understood to speak from an intimate knowledge of the Trust's policy.

AMUSEMENTS.

Everything on last night's program at the Orpheum was brought out in first class shape. Reserve your seats for tonight by telephone.

Queen Victoria's Statue Vandalized.

LONDON, August 5th.—An unknown vandal has wrenched the head from the queen's statue in Elswick Park, Newcastle. The police think it was the work of a crank whose mind has been unsettled by the assassination of King Humbert.

Clean Bill of Health.

The Mariposa came here with a clean bill of health. For sixteen days up to the time she sailed there had been no plague cases in Sydney.

Concealed Weapons.

William McCarthy was yesterday fined \$15 and costs in the police court for carrying concealed weapons. Judge Wilcox has given notice that in future any person brought before him on a similar charge will be severely dealt with if the charge is proven.

CONCERT THIS AFTERNOON.

Will Take Place at Emma Square At 4:30 O'clock

A public concert will take place at Emma Square at 4:30 o'clock today. The program will be as follows:

Ballad—"Good Night" E. J. Ken
Gavotte—"Bremen" Steinman
Selection—"Two Hostile Brothers"
March—"Alma Mater" (by request) Verd
Waltz—"Gilded Youth" Waldteufel
"The Star Spangled Banner"

Jay Smith, a well known and popular engineer, has gone to the island of Hawaii, to take a piece of importance with the Honoman plantation.
A Lame Shoulder.
A lame shoulder is usually caused by rheumatism of the muscles, and may be cured by a few applications of Chamberlain's Pain Balm. For sale by all dealers and druggists. Benson, Smith & Co., general agents Hawaiian Territory.

A REAL ESTATE DEAL MADE BY DR. MCGREW.

Buya Sayers' Property on Boretania Street, Near Punchbowl, for Fifteen Thousand Dollars.

Dr. John S. McGrew, the well-known physician and surgeon, has just completed another real estate deal of some magnitude. The present purchase includes the three cottages on Boretania street, near Punchbowl street, formerly known as the Sayers' property. The piece measures 200x150 fronting on Boretania street. The price paid was \$15,000. When interviewed last evening by a Republican reporter Dr. McGrew said:

"The reason why I so greatly desired the property was that it was almost impossible for me to open up the rest of my adjacent possessions without that place. You see, I own almost all the block except a little piece on Hotel street; I now want that piece and then my improvements will be complete. At present, my plans are to tear down the buildings now on the ground and erect cottages. There will be not less than twelve new buildings on the premises."

DIED.

WARREN—In this city August 17, 1900 the infant son of Mr. and Mrs. Harry Warren.

E. F. Dryden, who has been steamer mail agent for the colonies for nearly twenty years, came up on the Mariposa. He will return on the Alameda. Mr. Dryden has many friends in Honolulu, who are always glad to see him. He assisted his old friend E. G. Camarinos to celebrate his birthday.

PENAL SUMMONS.

Served on Two Well Known Drug Houses For Selling Alcohol.

Penal summonses were yesterday served on Benson, Smith & Co. and the Hollister Drug Co. for violating the regulations made to control the sale of alcohol. The law reads that alcohol shall not be sold in greater quantity than one gallon at a time and then only to licensed physicians or persons bearing a physician's prescription. The two firms served claim that the territorial law is in conflict with the United States law and since the 14th of June have been selling alcohol as suited them.

The case will be heard in the police court. The penalty for breaking the law is a fine not more than \$100 for a first offense.
Robertson & Wilder have been retained to fight the case for the drug companies.

Characteristic.
The man who is afraid he may work too hard never does.
A man who had a fortune of \$25,000,000 died at Buffalo the other day, comparatively unknown. His heirs will now struggle to make him famous.
Few people are able to resent it when they are told that it is a slight man to make a rascal.
Women inherit their religion, men inherit their politics, and all think they are thinking for themselves.
