HAGEY CURE PEOPLE WANT A NEW TRIAL

Motion to Set Aside the Verdict to Be Heard.

AFFIDAVITS BY THE WHOLESALE

J. M. VIVAS KNOWS OF SEVERAL V. FERNANDEZES WHO ARE RESIDENTS.

Judgment For \$30 For Plaintiff in M. Vivas Against Mele Akonf-Jury Trial Waived in Hackfeld & Co. Against K. Ito-Court Notes.

Still the Hagey drink-cure matter insists upon demonstrating its ability to remain before the public. This morning the attorneys for the defendants, against whom a jury gave a verdict a few days ago, will present a motion for a new trial in the celebrated case of Thomas Milner Harrison against J. A. Magoon, F. B. McStocker, L. C. Ables, Dorothea Emerson (nee Lamb), T. E. Cowart, J. H. Kirkpatrick, A. E. Powter, J. Wolfenden and George D. Moore, in assumpait.

Bond on motion for new trial and appeal in the jag-cure matter has of complaint. George A. Davis for L. been filed and Kinney, Ballou & Mc-Cianahan will ask for a hearing on the motion before Judge Gear at 11 o'clock this morning.

Attorneys for defendants will ask that the verdict of the jury, in fivor of plaintiff Harrison for the full amount asked for, be set aside and that a new trial be granted the defendants on the fellowing grounds:

That the verdict of the jury was dered. contrary to law and the evidence and the weight of the evidence, and for HAWAHAN ELEGTRIC COMPANY errors of law occurring during the trial of the case, which were duly excepted to and allowed by the Court. and on the further group sitting in the case and rendering the

The motion is based on the affidavits of E. B. McClanahan, S. M. Bailou, W. A. Kinney, J. A. Magoon, D Emerson, L. C. Ables, J. M. Vivas, Vincent Fernandez and A. G. Kaululoou. These affidavits are attached to the motion for a new trial.

Attorney E. B. Afterward, McClanahan goes on to say, he saw Judge Gear in his chambers, while the jury was still out considering the verdict. McClanahan informed Judge Gear that he intended to object to Juror Fernandez on the ground that he had at one time taken the Hagey treatment.

The jury was out so long that Judge Genr and everybody else went home, leaving the jury locked up in charge of the balliff. McClanahan states in his affidavit that he asked Judge Gear what brought about his remark in regard to Juror Fernandez, Gear anawored that an indistinct recollection had come to him that he had at some time seen a charge of \$100 in the books of his brother, A. V. Gear. against Vincone Fernandez, for the Hagey treatment.

The next morning McClanahan went to the office of A. V. Gear and verified the cumor that Juror Vincent Fernander had at one time taken the lag-cure. A. Kinney swears to the same end, as do also J. A. Magoon and the rest of the defendants. Defendant Magoon states in his affidavit that he had no conversation with his attorneys on the matter of the objection to Juror Fernander from the time that court adjourned, while the fary was out, until

The elevator in the Stangenwald building remained closed all day Thursday, it being explained that the repairs would be completed that night and the elevator running again Friday morning. But the elevator remained closed down all of yesterday. The trouble was with the electric machinery, the motor burning out. It was stated that the annoving breakdown was due to the miserable machinery put in by the Hawaiian Electric Company, and that little dependence could be placed on the reliability of the motor power under the electric arrangements made by that corporation. It was also stated that the owners of the court room, awaiting the return of the building will not continue much longer to be annoyed with such alcoholism and Judge Gear asked if impositions, and that the electric ap-It was not a fact that one of the jur- paratus will be thrown out and ors, Vincent Fernandez, had at one a gasoline engine substituted upon time taken the Hagey treatment. WASHINGTON, Oct. 5.—The members of the Isthmian Canal Commission are having a serious controversy over deare having a serious controversy over de-termining whether they will recommend to Cogress the construction of a canal by the United States Government over the Nicaragua or the Panama route. In the report, presented last winter, the Ni-caragua route was recommended by the entire commission. Since then serious obstacles are said to have been discov-erel in the way of engineering work on the Nicaragua Canal route, and some members of the commission have an-

that the Government take by purchase, if possible, the Panama property.

The commission's report has not been made up yet as to conclusions. Nothing but the conclusions remain for discussion, however. There will be a meeting of the commission in Washington within the next ten days, and then it is expected the matter of which route will be selected will be decided upon.

Former Senator Pasco of Florida is one of the men who has changed from the Nicaragun to the Panama route. He signed the Nicaragua report a year ago, and earlier in the summer he said he had not changed his mind. But since then he has changed, and is now very ant to record his vote, as a member of the commission, for the Panama route, basing his choice entirely upon the remort from the engineers who have examined both routes upon order of the commission.

NEW YORK, Oct. 5.—Gen. Alger's book on the Spanish-American war, which his publishers state "has been delayed because of the death of President McKinley," will be issued next Thurs-

General Alger opens his book with a survey of the Cuban situation in 1898, In the case of L. C. Ables against Charles J. Falk et al, it has been stipulated that the defendants, the Honolulu Stock & Bond Exchange and James F. Morgan, may have until the 25th instant in which to plead, demus or answer the plaintiff's bill ment of hundreds of volunteers, the department of hundreds of volunteers, the demands of the seaconst cities and towns for mands of the seaconst cities and towns for immediate protection, and the savage crit-icism of the military administration's plans of organization and the battle with apparently endless shortcomings and grievances. Then follows the embarka-tion at Tampa which was severely criti-cised at the time, but which General Al-ger is convinced, all things considered,

was not a mistake.

The account of the march on Santiago is graphically pictured.

The book takes up the "round robin," siened by the general officers of Shafter's army, while the negotiations for surrender were pending, in which it was stated that "this army must move at once or it will perish," from the fevers threatening the camp. General Alger has no criticism to offer of the round robin itself, but says that its publication was self, but says that its publication was one of the most unfortunate and regreta-ble incidents of the war.

General Alger reviews at-length the differences between General Shafter and Admiral Sampson, and concludes the chapter with these words: "It is difficult to account for Admiral

Sampson's seeming attitude toward the army during the operations before San-tiago, as well as to excuse him for his tiago, as well as to excuse him for his contradictory statements subsequently made in his official report. After the 3d of July the admiral's conduct may be due to the keen disappointment resulting from his non-participation in the engagement with Cervera's squadron. Possibly he felt that Shafter's request for a conference on the morning of July 3d, innocent though it was was responsible for the annals of naval warfare

"Although the commission had been sitting nearly three months, the charges with respect to canned and refrigerated beef were now made for the first time, and, stranger and more inexcusable and more unsoldierly still, during all these months, with this splendid knowledge of facts which if they existed, should have been made known to the Secretary of War for the protection of the army, General Miles had never mentioned the suberal Miles had never mentioned the sub-

PRESIDENT APPOINTS A SOUTHERN DEMOGRAT

WASHINGTON, Oct. 5.- The Presi-WASHINGTON, Oct. 5.—The President today decided to appoint to the vacant district judgeship in Alabama the former Governor. Thomas Goode Jones of that State. The appointment will be announced Monday. Governor Jones is a Democrat in good standing. He served as Governor of Alabama from 1800 to 1804, and his administration was distinguished for the suppression of lawlessness and also for twice raising the tax rate in the face of strong opposition, in order to preserve the financial credit of the State.

the State.

Gov. Jones is a lawyer of fine attainments and is well qualified for the post which he has been selected to fill. During the civil war he served with distinction in the Confederate army.

The appointment of Governor Jones is regarded here as a precedent of great importance. It marks out the path which Roosevelt has decided to follow in Southern appointments. The best available men for Federal offices will be chosen, regardless of their political affiliations. Southern Democrats are delighted with the President's decision and predict that if he pursues the policy which he has entered upon, it will bring about a great change of sentiment among the best Southern people.

Manuel Gouvela's penchant for pur-

The boy was caught redhanded in the act and had some of the damaging evicent though it was was responsible for his being deprived of the honor of active. The lad already showed symptoms of having fallen under the baneful influence of fakeful fancies, and Thurstonian thundering. The police are of the opinion that the youngster was taken in hand at a very critical time. The near relatives of the boy were present in the court room, and were visibly moved to tears over the total depravity displayed in one of such tender years, especially in his inordinate attachment for saffron sensationalism, sailing under the guise of missionary miscellany.

Almost the entire morning session of Police Court was devoted to the hearing of testimony in a libel case in which Pun Qui Lung alleges that Wong Shui King and Sze To Fook. manager and editor respectively of a Chinese publication libeled the plaintiff unjustly and without cause. The story of five witnesses dragged through the morning hours, and just prior to the noon hour, the case was ontinued over for another day. The ublishers' interests were looked after by Attorney W. L. Stanley. Attorneys Whitney and Robinson assisted in the prosecution. If yesterday's procedings could be taken as a crierion, the affair has settled down to a battle between the lawyers on the opposition sides The matter will come up for addi-

WHY THE VIRGIN MARY IS HONORED

NOT IDOLATRY, BUT A SUCCES-SION OF CUSTOMS IN LINE OF DUTY.

Dilates Upon a Number of Points In stood, and Invites Attention of Protestants To Real Facts.

Another big audience crowded the Catholic Cathedral last night to hear Father Megevney lecture on "What Catholics Do Not Believe." It was one of the most scholarly lectures ever heard in Honolulu. While Father Boarman is undoubtedly the popular speaker, while he has that magnetiz-ing power to hold his audience spellbound under the influence of his pow-erful words, Father Megevney certainly is the orator, the debater, the scholar par excellence. His subject, it is true, was admirably adapted to the full development of his argumentative powers, and he acquitted himself with credit and scored a de-

cided success.

He spoke in part as follows:

My friends, I have no new proposition to demonstrate, no new ideas to develop. But as there are certain ideas and certain notions prevalent in certain communities, especially among our non-Catholic friends, I will endeavor touight to set things in their right places and thus put you on your guard from too readily be lieving, in the future, all the absurdities and sheer nonsense that is being said about the Catholic religion.

We have been told quite often that conversions to the Catholic faith have been delayed, sometimes for years, because some of the teachings, some of the

cided success.

were not understood. Let us see.

Some people affirm that Catholics do not believe that Christ is the only mediator between God and man. Such an assertion is not only absurd but it is false, and they back up their assertion with the statement that Catholics worship the Virgin Mary and the saints. The

nference is altogether illogical and un-Let us grant that the help of saints s asked when we want a favor from God; out because we do so it does not follow but because we do so it does not follow that we worship or adore them. They seem to forget—if illey ever knew it— what Catholics do know, that the power of the saints is only through Jesus Christ, the Redeemer of the human race. He is alone the great senter of the Christian religion, the fountain of all grace, virtue

and merit. Catholics believe that the saints reign ng with Christ are to be honored and in ing with Christ are to be and invoked; that they of and invoked; that they offer their prayers to God for men and that their relies are to be held in veneration. We read in the first book of Paralipomenon (or 1 Chronicles) "And all the assembly blessed the Lord, the God of their fathers; and they bowed themselves and worshiped God, and then the king" (David).

"The continual prayer of a just man availeth much" (St. James v., 16); and we find St. Paul earnestly asking the prayers of the Roman Christians, saying: "I beseech you, therefore, brethren, through our Lord Jesus Christ, and by the charity of the Holy Ghost, that you hely me in your prayers to God" (Romans, xv., 30). All Christians allow that it is right and useful to ask the prayers of holy persons who are upon earth, it surely cannot be wrong or useless to ask the prayers of the saints in heaven.

now that they are so near to God, and in no danger of offending Him.

We have statues of saints in our churches. Stupidity goes so far as to affirm that we adore them. Don't you keep in your houses the photographs of your departed relatives or of your dead friends? Do you not honor and worship them?

Rightly to understand the Catholic decirine of the invocation of saints, it is necessary that Protestants should hear in

doctrine of the invocation of saints, it is necessary that Protestants should bear in mind that the word worship has different significations, according as it is applied to God or applied to creatures. Husbands worship their wives, at least I hope some of them do. Do you mean to say that they adore them as they adore God? When applied to God, it means the highest degree of honor due God as God, and to God alone.

When applied to things created, it means inferior, that is, less honor justly paid to them, either on account of their exalted position among creatures or on account of a special reference they hear to God.

There is a beautiful incident told of

There is a beautiful incident told of Maximilian, the Emperor of Mexico. When he was taken to be shot he was asked by the officer in charge if he had any request to make. Taking a locket from his coat pecket, he looked at it in silence, and then requested taht he be blindfolded: then he locked it, and handing it to Father Fisher, his spiritual adviser, said: "This locket contains the picture of my beloved wife; take it to her and tell her that my last look was directed to her beautiful face." How beautiful how natural, how human! It is animated by such a spirit that Catholics look at the nictures hanging on the walls of their churches.

another, you Catholics wor-sed Virgin. I can prove it your prayer book The reason so many Protestants ob-iest to join in the affection due our Mother of God, is because they do not properly comprehend and realize in their hearts the import of the title "Mother of God." Let us, then, see what it means: It does not mean that Mary is the Mother of the Divinity, if by divinity we understand the divine nature, for the dicine nature is uncreated eternal before
all worlds; nor does it mean that Mary
is the mother of the Secand Person of the
Bessed Trinity, God the Sea, which would
be the same as being mother of the divinity.
To assert this would be indeed not only
absurd but blasphemons. Nor does it
mean that Mary became the mother of a
person that did not exist before, as is the
case naturally with all ordinary mothers,
for the Sou of God who became the Sou
of Mary is himself co-eternal with the
Father. But it means that Mary is
Mother of God the Son with regard to
his human nature, which he assumed in
time and which He had not assumed before
He took it from Mary, for until then he
possessed only one nature, the divine.

The Blessed Virgin Mary, therefore, is
justly styled "Mother of God," because
she is the Mother of Jesus Christ, whose
humanity is assumed by and united to a
Divine Person, that is God the Son. No
wonder, then, that the Blessed Virgin
Mary should exclaim in her great praise
to God known as the Magnificat: "For he
that is mighty hath done great things to
me; and holy is his name." (St. Luke,
i., 49.)
Read what our illustrious American

Read what our illustrious American poet Longfellow has to say about the Virgin Mary. Whatever his religious belief may have been he had a manly instinct and could appreciate truth and

Well, says another, Catholics maintain that the Pope can never make a mistake in any matter; that he cannot err in any respect, therefore that he is siniess. Wrong again. You are still taking one thing for another. What the Catholic church maintains is that when the Pope deals with religious subjects or with morals, when he speaks to the whole Catholic church and says that this is revelation, it is true. There he is infallible. About all other matters he is only a man. When the Pope gives his opinion upon polities, literature or science he is liable to err, and the church does not claim infallibility for him in such a case. The church does not claim that the Pope is sinless. He is a man, and subject to all the failings and wickedness of man. But when he speaks as the vicar of Jesus Christ for the moral guidance of his flock, he is safely guarded by God.

Well, says another, Catholic church claims that all to do to have sins forgiven is to go to confession and secure indulgences.

It is a pity that so many Protestants

It is a pity that so many Protestants the whole or part of the debt of temporal nunishment of which a person may have

seen already forgiven in the sacrament of and put themselves in a state of grace before death.

A statement has been made by a certain society, which lived but a short life, that Catholics did not make good citizens. Such an assertion is an insult to millions of Catholic citizens throughout our land for since the war of Independence, Catholic citizens throughout our land for since the war of Independence, Catholic citizens throughout our land for since the war of Independence, Catholic citizens throughout our land for since the war of Independence, Catholic citizens throughout the land throughout the control of the cont tholics have been among the most loyal citizens of the United States.

citizens of the United States.

Let me read the following tribute of the loyalty and patriotism of the Catholics in the United States, in answer to an address from the elergy and laity congratulating Washington on his election as first President. Coming from him, who was a witness of the services rendered by Catholics to our country in its atruggle for independence, it is well worthy of preservation.

"Gentlemen— As mankind becomes more liberal, they will be more apt to allow that all those who conduct themselves as worthy members of the community are equally entitled to the pro-

And may the members of your church in America animated alone by the pure suirit of Christianity, and still conducting themselves as the faithful citizens of our free government, enjoy every temporal and spiritual felicity.

In "Unknown Navies," John Edward Jenks, in the Philadelphia Saturday evening Post, describes the naval strength of the small countries. Mexico possesses practically no navy, although she enjoys the luxury of a shipbuilding program for which one million dollars has already nia, bound from Porto Rica to New been voted. It is to be carried out in the course of five years, and eight gunboats of 1 000 tons displacement and a speed f 18 knots will be built, as well as two torpedo boats. mechanical lines. The Porto Ricans express much gratification in leaving their native country, on the ground that chances for employment there are scarce, and prospects of making even a bare living are becoming farther and farther removed with each succeeding year.

The City of Para was moored to an anchorage in the stream. After the usual fumigation process by quarantine officials has been completed they will be put aboard various Island vessels bound for their respective plantations.

Officers aboard the Para are inclined to believe that this will be the last trip that vessel will make to this port with immigrants. The report was current in San Francisco previous to the departure of the steamship that the Colon would be placed on the Port. Los Angeles-Hawalian run, while the Para would be returned to her Central American route.

We shall move our clothing store into quarters on the ground floor," said he, "and there are compartments for six other business firms, and these quarters have all been spoken for in advance. Mrs. Hanna, the milliner, and Pearson & Potter, will move in on the ground floor, and Rice & Perkins will be tenants on the top floor, where we will arrange splendid apartments for a proto graphing business. The remainder of the upper floor will be given over to offices, and nearly all of these have been spoken for already, although I am not at liberty to mention the names of the prospective tenants just at present."

INCURABLE HOSPITAL WILL BE ON KAIMUKI RIDGE

Puunui Is Denied-Mr. Lowrey Talks of the Matter,

It was rumored that the location for the new incurable Hospital building would be at Punnui, near Wyllie street, instead of at Kaimuki, Diamond Head, but this appears to be without foundation. F. J. Lowrey, of without foundation. F. J. Lowrey, of the building committee, was seen yesterday and he stated that the Punnul location had not been considered at all, and on the contrary the committee had found the Kaimuki location perfectly satisfactory. Archie Youns, William Mutch and myself were appointed on the building committee," said Mr. Lowrey, "and we looked into the matter thoroughly. The location at Kaimuki, near Diamond Head, we found to be an excellent one, being the highest and dryest place obtainable. The location we recommended in our report to the trustees is on the highest ridge on the western side of the mountain, and is near the new Diamond Head road. We handed in our report and recommendation about four weeks ago, and a meeting of the trustees was to have been called soon afterward for the purpose of considering the recommendation. I think, however, that this meeting has not ng the recommendation. I think however, that this meeting has not yet been held, because of the absence

THE SUNDAY REPUBLICAN.

Among the institutions in Honolulu which have been making wonderful advancement in the last few years is Oahu College. While called a college it was little more than a preparatory school until within the last five years. made and Oahu College is now in such flourishing and growing condition that it promises within the next five years to have a curriculum the equal of the best colleges on the mainland. The story of the founding a romance. This story will be told In the Sunday Republican tomorrow accompanied by a number of fine halftone illustrations. Among the illustrations will be pictures of the Rev. Hiram Bingham and wife who gave the Punahou land to the college, and pictures of Chief Boki and his wife Liliha who gave the land to the Binghams. These pictures are reproduced from old Daguerreotypes taken nearly or quite seventy years ago.

Besides the article on Oahu College the Sunday Republican will contain an illustrated article on the Catholic missions on the Island of Maui. Fathers Boarman and Megevney who have been holding the series of meetings at the Cathedral for two weeks past which have attracted so much Interest will leave the first of the week for Maul where they will hold services at Walluku and Lahaina. The work of these Fathers in any place in the Islands arouses interest in the missions of those Islands so the Island of Maui will be both timely and interesting.

These two illustrated articles will only be a part of the many bright features of the Sunday Republican. "Chiffon" will contribute her weekly budget on society and fashion which is so liked by the women and there will be other features equally interesting one of them being a fine sea story entitled "On the Forecastle Deck."

All the local and general news of the city and territory will be given in the Sunday Republican. Don't miss it-

THE CHINESE VIEW OF CHINESE LABOR.

The Chinese Minister to the United States, Mr. Wu Ting-fang, has been credited of late with a desire to se cure some modification of the law excluding the Chinese from this country. He has intimated in a delicate way that American trade with China would be vastly improved if the embargo upon Chinese immigration to the United States were removed. Minister Wu ls a practical diplomat. He knows that the American heart is set upon establishing the commercial to her own advantage." It is easy to portion of whites in its population than has been received with almost unanisupremacy of this republic in all parts understand the Chinaman's indignaof the globe. While the Chinaman is tion over his exclusion from the Unitnot included among those to whom the doors of America, "the refuge of the oppressed," have always been open. Mr. Wu is encouraged to believe that the doors might swing ajar If sufficient inducements were offered to our merchants and manufacturers. In the September number of the North American Review Mr. Ho Yow, Minister Wu's brother, who holds the important position of Imperial Consul-General for China in the United States, makes an elaborate and urgent appeal for a change in the Exclusion acts. Mr. Ho Yow flatly asserts that Americans cannot control the markets of the Orient without Chinese labor.

It is interesting to note that Mr. Ho Yow does not regard Chinese labor as cheap labor-on the contrary, he pronounces it very dear. Measured by the results which are obtained from a fixed outlay. America, in his opinion is the "cheapest laboring country in the world." The fabrics, the oils and other products which China could and should produce in abundance are, he says shipped to China by American producers and "sold at prices at which it would be useless for Chinese to attempt to compete." "Your sawed timber," observes Mr. The True Remedy For Anarchy.

The bulk of criticism comes from the conservative press, but it will not be long before parliament reassembles and all these candid friends will be extolling the statesman-like course of the ministers and the business-like

qualities of the Secretary of War.
"A series of public meetings protesting against the unscientific methods of conducting the war would be more significant than the complaints and grumbling of regular party organs respecting minor details.

"One of the sources of the disturbance has been Lord Kitchener's 'pla-no order' which has enabled caustic Office at banking building on Mer-writers to lampoon British officers as carpet knights fighting Boers to slow music. READY-MADE SKIRTS

AT LESS THAN THE COST OF MATERIALS.

When we first made our bow to the Honolulu public, just two years ago this month, scarcely a ready-made skirt was worn here. Yet we do not exaggerate when we say that in these two years we have sold THOU-SANDS of skirts. Why? Because economical women have found out that to have their simple everyday wash skirts made by high-priced dressmak-

to have their simple everyday wash skirts made by high-place ers is rank critavagance.

Factories van buy materials away under what you would pay, and cutting and sewing by machinery reduces cost to a minimum. But don't make the mistake of thinking that these machine-made garments are wanting in style and fit. The originals from which they are copied are made by high-salaried men tailors and are always in the latest fashion.

Think of a well made, perfectly fitting washable skirt for 35 cents. It is scarcely more than what the thread and trimmings would cost you. Yet that, among other bargains, is what you will find in our skirt offerings on the center table this week. If you are one of those women who are skeptical about the possibility of getting a ready-made skirt that will look well on you, come in and be converted.

will absolutely cure catarrhal inflammation of the hair follicle; it is the most common of scalp diseases.

Nine-tenths of the premature baldness is due to it, and gray hair is usually the result of it. There's no doubt that it is due to a microbe, which attacks the sebacious glands. This causes dandruff and itching. Then the hair begins to

fall out, and that shows that the microbe has left the sebacious glands and has burrowed into the hair follicle. There it causes inflammation and loosens the hair root, and goes on to another follicle. Meanwhile it raises an army of children, and they all go to war in the same way. The wrecked follicles left behind, the conquering hosts fill up with a fungeous growth, and even when the new hair sprouts it is poorly nurished and dis-

eased. All the other scalp diseases are more or less along the same line, and due to parasitis or microbic attack.

PACHECO'S DANDRUFF KILLER will destroy the parasite, because it penetrate to the entire depths of the hair follicle. It then feeds the roots and follicles and rebuilds the wasted tissues.

ONLY ONE WHITE HOUSE.

Is President.

WASHINGTON, Oct. 5.—Society folk in Washington have always called the place where the President lives the "Executive Mansion." They thought that sounded better than "White House," but the President aunounced today that the words, "Executive Mansion," must come off all stationery around the place and the words, "White House," be put on. He says may be it does not soun quite so well, but there are forty-five Executive Mansions scattered among going to be, and nothing else.

PUTTING UP A GOOD ARGUMENT

The LA INSULAR OF AMERICA cigar is unlike any other 5c. cigar as regards SHAPE, QUALITY, and WORKMANSHIP. The smoker notices its distinctiveness and likens it to the MANILA of old. The American Insular is made of a blend of tobacco particularly desirable for this climate, in a factory where personal cleanliness is exacted.

It has that MANILA flavor and effect so desirable in the tropics.

We give each dealer a guarantee whereby he may return the cigars anytime within one year and receive purchase price paid in full. Dealer can't get stuck, can he? If out of town buyers return them we will pay freight charges. Not much risk there either. But don't think that a cigar which we unconditionally back to this extent everywhere is anything like the cigars made by manufacturers generally. It is altogether different.

It will cost the dealer a little more because it costs us more, but any dealer who

has sold the La Insular of America will tell you it is his leader today.

The trade name is registered by us at Washington, D. C. The labels purchased by us of the Lithographer and the cigars made under our personal supervision to order. It has taken one year to produce this brand. It is a PERFECT smoke.
