### FROM HONOLULU.

The First Letter Sent by Miss  
Virginia Calhoun.

Seeing the Beautiful Sights on the  
Island Kingdom—Oh! for the  
Volcano.

[From the San Jose, Cal., Mercury.]  
HONOLULU (H. I.), July 20, 1892.

*My Ever Dear Mercury:* Well, here  
I am at last, 2900 miles away from  
the dear Garden City of California,  
and am now located in the Capital  
City (Honolulu) of the "Paradise of  
the Pacific." I cannot refrain from  
sending you a few lines of recour-  
se, but I am not sure that it will be in  
the studied style and easy manner  
in which a some-what-like trip was  
related not long ago in the columns  
of the dear old Mercury; and the  
tale as told is not forgotten here;  
in fact I find that some of the young  
gentlemen refer with much pleasure  
to Editor Shortridge's brief stay  
amongst them, and many of the  
elderly and more staid residents  
speak with praise of the accounts  
published of that season in the mid-  
Pacific kingdom.

But to my tale, and it must be  
brief, and let me make my point of  
departure from the dock in San  
Francisco and on board the good  
ship Australia of the Oceanic Steam-  
ship Company's line, commanded by  
that well-known, gentlemanly offi-  
cer, Captain H. C. Houdlette. Dear  
old Garden City, how well I remem-  
ber (even with the great waste of  
waters between us) the kind hearts  
and willing hands that helped me  
to the enjoyment of the life which  
I passed during the voyage of nearly  
seven days on the blue and peaceful  
Pacific. Seven days, nearly, of pure  
content and pleasure and heighten-  
ed interest as each day rolled for-  
ward, and the time lessened for our  
arrival in the much-famed Paradise  
of the Pacific. The voyage was most  
pleasant; and why should it not be,  
with a good ship, accommodating  
officers, grand company, smooth sea  
and charming weather. As *compa-  
nions du voyage* I noticed among many  
other ladies and gentlemen several  
old faces well known to Coast peo-  
ple, more particularly Colonel and  
Mrs. Claus Spreckels, S. M. Short-  
ridge, Esq., Judge F. M. Henshaw,  
Captain and Mrs. Wm. Matson, Mr.  
and Mrs. A. A. Moore, Mr. and Mrs.  
A. N. Glascock, Jules Desfontaines  
and Mrs. Peterson. Amongst the  
others were several Honolulu people  
returning to their island home, viz:  
Mr. and Mrs. Harry Lewis, Mr. and  
Mrs. W. A. Wall, Miss Sarah L.  
King, Mrs. T. H. Hobron and Mr.  
and Miss Aldrich.

Too much cannot be said in praise  
of the table service of the steamer  
Australia. It was one almost con-  
tinuous banquet, Chief Steward  
James adding to his already excel-  
lent reputation as a caterer. But  
the right royal occasion was on the  
occurrence of Colonel Spreckels' 64th  
birthday, which was "anniversaried"  
in mid-ocean. And what a time! It  
only lives to-day as a pleasant  
dream, but then 'twas a glorious  
occasion.

Your protegee arrived safely in  
Honolulu on the morning of the 13th,  
and since then to date it has  
been a constant series of receptions;  
calls, drives, etc., until I know not  
what I agree to or reject. Already  
I have said "yes" to at least six  
young gentlemen on the same in-  
vitation, and on my recovering my  
senses and discovering my errors I  
have been as quickly again in like  
confusion by another complicated  
series of engagements.

The representative of the Mercury  
has been gloriously entertained and  
greatly patronized, and, as I learn  
from reliable sources, it is mainly  
because the reputation of the Mer-  
cury is established here as the one  
paper out of many which has given  
pleasure to the island people, in re-  
turn for hospitalities extended and  
received, by appreciated relation of  
its beautiful scenery, its unsurpassed  
climate, and its many wonders. The  
Hawaiian Hotel has been my domi-  
cile since arrival, and, like the other  
guests with which the hostelry is at  
present filled, the location, manage-  
ment, and other accessories are very  
pleasant and much appreciated. I  
have climbed the winding path that  
leads to the top of the famed Punch-

bowl and gazed upon the far waters  
of the Pacific and the nearer tree  
embowered city at my feet; have  
seen and trampled on the sands at  
Waikiki, visited the King's grove of  
coconuts, Mrs. Ward's magnificent  
grove of like fruit, the far-famed  
Pali, and other places which my  
poor brain fails now to bring to  
memory.

Thanking the kindness of W. G.  
Ashley, Superintendent of the Oahu  
Railroad, your representative was  
given a most delightful trip to the  
famous Ewa sugar mill and planta-  
tion, and through the kindness of  
Mrs. Swan and Mrs. Ward, who re-  
present the best old families of  
Honolulu, she had a most delightful  
call upon the distinguished Queen  
Dowager (Kapiolani) and His Royal  
Highness Prince David. The Queen  
Dowager is a most interesting old  
lady, even through the interpreters.  
Here I saw for the first time the  
Royal Kahili and the feather cape  
of yellow feathers worn by royalty  
on state occasions. Mrs. Swan  
showed us also the private chamber,  
to which other visitors were but  
rarely admitted. The outer cover-  
ings of the bed and pillows were  
made of chicken feathers. The pic-  
tures of the royal families of Ha-  
waii decorated the walls.

Through the courtesy of Mrs. A.  
F. Judd, wife of the Chief Justice,  
and Mrs. Hamilton Spencer, Mrs. E.  
C. Damon and Mrs. Damon, Mr.  
Hopper, Miss Duncan and Mr. and  
Mrs. Claus Spreckels, the Mercury  
representative has received rare  
pleasure. Only this morning, July  
16th, she was shown one of the oldest  
and largest coconut plantations  
at Mrs. V. Ward's. There are be-  
tween 3000 and 7000 of these majes-  
tic palms, besides thirty acres of  
almost every other possible variety  
of tropical fruits.

On the 18th, by kindness of Her  
Majesty's Chamberlain, Major the  
Hon. J. W. Robertson, a number of  
ladies had audience with Her Majes-  
ty Queen Liliuokalani at her palatial  
home in Washington Square. By  
special invitation the Mercury's pro-  
tege was present and was presented.  
Afterward we went in a party to the  
palace and were shown the Throne  
Room, Blue Room, library and many  
curious in feather cloaks of ancient  
kings, kahilis, tapas and rare and  
valued idols. Major Robertson was  
most kind to me during the visit, tak-  
ing special interest in my obtaining  
proper and correct knowledge of the  
many things which I saw and will  
write you about—when I have time,  
if I ever do while here. Ea passant,  
let me say that all is peace and quiet  
and harmony in this blessed isle of  
the sea at present and although the  
legislature is now in session there is  
less turmoil than in that ever som-  
nolent city of Sacramento.

To-day, with just a

BY AUTHORITY.

**FIRE DEPARTMENT NOTICE.**

**Session Laws of 1888.**

The attention of the public is called to the following Fire Laws:

**Sec. 23.** No person shall, unless by permission of the Chief Engineer, kindle any fire, nor in any way authorize any fire to be made in any street, road, lane, market place or other highway, or on any pier or wharf in the city, except for the purpose of boiling tar, which fire shall not be more than ten feet from the end of the pier or wharf, and no person shall kindle or light, or cause to be lighted, any rubbish or any bonfire in any place whatsoever within a radius of one mile of the present site of the Bell Tower of Honolulu without the permit in writing of the Chief Engineer.

**Sec. 27.** All engines, carriages, and other movable apparatus of the Honolulu Fire Department shall have the paramount right of way through all streets, lanes, alleys, highways and byways, places and courts of the city and fire districts of Honolulu, when running to a fire, and such apparatus, together with all other vehicles thereto, excepting street cars, shall take and keep the right side of the street, unless the same be obstructed, and all street cars in the vicinity of any such apparatus going to a fire, shall retard or accelerate their speed, as the apparatus may require, in order to give the apparatus of the Fire Department the unobstructed use of the street for the time being.

**Sec. 28.** No person or persons having the control of any vehicle shall wilfully or carelessly permit the same to obstruct the progress of the apparatus of the Honolulu Fire Department going to a fire.

**Sec. 29.** Whoever wilfully, wantonly or maliciously obstructs or retards the passage of an engine, or any fire apparatus of the Fire Department, while going to or at a fire shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding one hundred dollars.

**Sec. 32.** No person shall give a false alarm of fire in Honolulu.

**Sec. 34.** Any person violating any of the provisions of this Act shall be deemed guilty of a misdemeanor, and on conviction shall, except where the penalty is otherwise provided herein, be punished by a fine in a sum of not more than one hundred dollars.

**JULIUS ASCH,**  
Chief Engineer Honolulu Fire Department.

**NOTICE TO MARINERS.**

During the process of Deepening the Channel at the entrance to Honolulu harbor the Dredger will be in operation night and day.

At night there will be a Danger Signal placed on the forward derrick of Dredger, about 30 feet above sea level, which can be seen by all vessels approaching the harbor. The signal consists of 3 red lights and a white light—as in the diagram—the red lights being about 3 feet apart, with the white light in the center.

All steamers crossing the bar will stop at a safe distance from the Dredger and give one blast of their whistle, which will be answered by a single blast from the Dredger, to be followed by three blasts from the Dredger when the passage is clear and they can proceed.

The Tug will be on hand when not otherwise engaged to assist sailing craft in passing the Dredger when necessary.

**THE DAILY BULLETIN.**

Pledged to neither Sect nor Party,  
But Established for the Benefit of All.

FRIDAY, AUGUST 12, 1892.

Some members place the Legislature in the position of seeming jealous of the dredging machine because it is doing its work so well.

There is a rush for homestead claims in forfeited railroad lands in California, as many as four hundred applications being filed in a day. What is wanted in Hawaii is the opening up of large unused tracts for homesteads. Large proprietors could be great benefactors just now.

Ocean steamers are gradually getting nearer railway express time. The Inman line steamship City of Paris arrived at New York on July 27, having beaten the record for the western trip. Her time was 5 days 15 hours 58 minutes. The day before arrival she made 520 miles, or 21 to 22 miles an hour.

A resolution to limit speeches in committee of the whole to five minutes each was laid aside, because the object of going into committee is to give the utmost freedom of discussion. There is so little difference between regular sittings and committee of the whole, in the Hawaiian Legislature, with regard to the conduct of discussions, that committee of the whole might almost as well be abandoned altogether.

One of the free lances of the Advertiser is croaking over the sending of an officer to San Francisco to bring back a murderer. He calls the mission an unsuccessful one because the culprit was not brought back, as if a Honolulu policeman could set aside the operation of United States law in the United States. Such criticism as this destroys the effect of any honest criticism that may by accident appear in the same medium. It is beneath contempt.

A rumor that Great Britain is bidding for the purchase of Nihoa for a cable station has been made the subject of an interpellation of the Minister of Foreign Affairs by Hon. R. W. Wilcox. This country could not afford to enter into any such negotiation without the cordial assent of the United States. Our great neighbor can easily make our financial situation much worse than it has been made by the McKinley Act, if we give her any cause for resentment or retaliation.

The certificate matter has been exhaustively investigated by the Committee on Finance, only to show the House that it has wasted its time over factional moonshine. Everything was square and straightforward about the certificates, the only thing out being the illegal issue of tens, which was promptly remedied. That error was caused simply by an oversight that was not appallingly criminal in view of the amount of tinkering the currency law sustained in successive sessions for the past decade.

A question to the Minister of the Interior in the Legislature has elicited the interesting information that the dredge is clearing a way, in advance of the complete work, across the bar to admit the French flagship Dubourdieu into the harbor. This ship draws twenty-five feet of water, and will require two or three feet more for safety in the swell. The management is confident of being able to give that depth to-night, in which case the Dubourdieu will come inside at high tide (8 o'clock) to-morrow morning. A salute will be fired and ship dressed on crossing the bar in honor of the Government's enterprise in opening the portals of Honolulu's commerce to the largest shipping. There is nothing more gratifying in all our affairs to-day than the near prospect of having the embargo on our harbor entrance removed.

**HOME RULE.**

It is not likely that Mr. Gladstone will be able to pass an Irish home rule measure that will satisfy the Irish Home Rulers. A majority of forty is very slim in a House of nearly seven hundred members, and that majority will probably not be unanimously agreed on the details of any measure that may be presented. Should some sort of a scheme go through, the House of Lords would likely defeat it, justifying its action on the ground of the smallness of the majority that carried the bill in the Commons. The Ministry would then appeal to the country, and that would be the critical time for home rule. There would then be a tangible issue before the country—not the promise of a measure but the naked bill after passing through the parliamentary crucible. If the country rejected it, even if the real influence works was a Conservative reaction owing to foreign complications, home rule would be dead for a good ten years.

**JUDICIAL REFORM.**

Mr. Justice Dole's article in Thursday's BULLETIN brings the very important question of the reorganization of the Judiciary prominently forward. His Honor refers to the report of the Royal Commission to the Legislature of 1888. That report is an elaborate document, giving strong reasons in a clear manner for a radical change in the structure of the Supreme Court. The Commission consisted of Sanford B. Dole, Alfred S. Hartwell, and Clarence W. Ashford. It submitted, attached to its report, a bill to bring about the objects recommended. The bill has been laid over for two sessions, as if our legislators shrink from dealing with a subject of such magnitude and far-reaching importance. It is really a matter in which haste would not be seenly. There should be undisputed evidence that the proposed change was acceptable to both the bar and the public. As to the legal fraternity, not a member has opposed the measure in the four years it has been extant. The question has been discussed in a general way on election campaign platforms and somewhat exhaustively in the press, without creating or evoking any sentiment, so far as public utterance is concerned, other than that the present system has grave defects calling for early remedy.

The main proposal in the drafted Judiciary Act is to transform the Supreme Court, as it stands to-day with three Justices, into a strictly appellate court. The Justices would not preside at jury terms, but exercise generally their present functions when sitting in banco. It will of course have its present powers, also, of superintending courts of inferior jurisdiction, of passing on the constitutionality of Acts of the Legislature, etc. The desirability of having a court of final review, composed of Justices who have none of them previously tried any of the matters coming before them on appeal, has been so fully set forth by the Commission and again by Judge Dole that it needs not to be enlarged on here. It is the want of such a court that has been the central cause of complaint in the agitation for judicial reform.

Other changes of importance are a thorough re-organization of the Circuit Court system and the enactment of the English common law. There will be an additional Circuit established, being for the island of Oahu. For this Circuit two Justices are provided; for each of the other four Circuits, one. Circuit Justices shall reside in the Districts in which they respectively hold their courts. They will have all the ordinary powers of judges of the Supreme Court as at present constituted, holding jury terms and hearings at chambers, etc. Their salaries will be three thousand dollars a year, and their tenure of office during good behavior. The enactment of the English common law, as modified by our own statutes, will remove an anomalous condition that has long been a matter of dissatisfaction. One could never tell when or where the common law was going to strike. Sometimes it was everything, again it was nothing, according as the judge's discretion directed. As it was never employed point blank where Hawaiian law met the case, while proving of great utility where Hawaiian law was deficient, and as its enactment does not put it above Hawaiian law, the common law might just as well be enacted, when the bar and litigants would know where they stood always.

For the minor details of the bill, they, like the major provisions, seem to have been carefully considered and drawn. It is a bill that it would be dangerous to tinker indiscriminately according to the furtive notions of legislators. We have a suggestion to make in this regard. Give members the printed bill a week to ponder over with minds free from bias. Then give a day for discussion without giving finality to motions to amend, but noting down all objections and suggestions that are sustained on vote, to be referred with the bill for one week to the Judiciary Committee for revision. At the lapse of the time decide the fate of the bill, whether amended or not, as a whole. This may not be all regular, but the bill had better be killed than mangled by an impatient House.

**Saved a Woman's Life.**

Mr. J. E. Thoroughgood, writing from Georgetown, Delaware, says: "Two teaspoonfuls of Chamberlain's Colic, Cholera and Diarrhoea Remedy saved the life of Mrs. Jane Thomas, of this place." He also states that several other very bad cases of bowel complaint there have been cured by this remedy. For sale by all dealers. Benson, Smith & Co., Agents.

**Old Rags Wanted.**

Clean white rags, suitable for bandages, are wanted for use at the Bishop Home and the Boys' Home, Leper Settlement, Molokai. Ring up 281 Mutual telephone, and they will be sent for or leave the same at the office of the Board of Health, or at J. T. Waterhouse's, Queen street.

**"German Syrup"**

Here is something from Mr. Frank A. Hale, proprietor of the De Witt House, Lewiston, and the Tontine Hotel, Brunswick, Me. Hotel men meet the world as it comes and goes, and are not slow in sizing people and things up for what they are worth. He says that he has lost a father and several brothers and sisters from Pulmonary Consumption, and is himself frequently troubled with colds, and he Hereditary often coughs enough to make him sick at Consumption his stomach. Whenever he has taken a cold of this kind he uses Boschee's German Syrup, and it cures him every time. Here is a man who knows the full danger of lung troubles, and would therefore be most particular as to the medicine he used. What is his opinion? Listen! "I use nothing but Boschee's German Syrup, and have advised, I presume, more than a hundred different persons to take it. They agree with me that it is the best cough syrup in the market."

The steamer W. G. Hall arrived this afternoon.  
The British bark Koorina was docked this afternoon.  
The schooner Aloha and bark Forest Queen are lying at the old Custom House wharf.  
The steamers Waialeale and Iwaland lying in the stream, are receiving a general overhauling both in and out of the water.  
The Hawaiian bark Leahi will leave for the Sound in ballast, eventually to proceed to Departure Bay. She will return with a cargo of coal, after which she will go to Maui to load sugar for San Francisco. The Leahi would have taken sugar this trip only sugar is scarce.

**Born.**

**Tried for Vagrancy.**  
Harry Gregson was tried in the Police Court this morning on a charge of vagrancy. The evidence was not confined to the charge, and much was said about poi and paint being substituted for opium. Evidence was given by the defense to the effect that Gregson had been an industrious and hardworking young man and had been engaged for some time by several parties. Only yesterday, the day after his arrest, Gregson was engaged to work at the O. R. & L. Co.'s wharf. Police Justice Hopkins after summing up said it was a peculiar case and he would take it under consideration. Gregson was formerly mate on the missionary packet Morning Star. There is some talk about Gregson being arrested on a charge of conspiracy in having bogus opium for sale.

**Take Good Care of the Children.**  
If you have children you will be interested in the experience of Mr. John Cook, of Pilot, Vermillion Co., Ill. He says: "Two years ago two of my family, a young man and a girl, had very severe and dangerous attacks of bloody flux. The doctor here was unable, after a week's time, to check or relieve either case. I threw the doctor overboard and began using Chamberlain's Colic, Cholera and Diarrhoea Remedy. Improvement was seen very soon and my children arose in a few days from what I feared would be their deathbed. It is a grand, good medicine." For sale by all dealers. Benson, Smith & Co., Agents.

At L. J. Levey's sale of jewelry to-morrow nothing will be reserved, so that bargains are assured.

Mr. and Mrs. John F. Bowler will leave on the S. S. Australia on Wednesday for a short visit to the Coast.

The new device for loading and discharging coal in course of construction at the O. R. & L. Co.'s landing is nearing completion.

The assumpsit suit of Moritz R. Rose vs. Nannie Rice is being heard this afternoon, jury waived in the Supreme Court before Judge Dole.

J. F. Morgan will hold a sale of jewelry at the store of J. Hubash on Fort street, to-morrow evening at 2 o'clock, by order of Mrs. Batchelor.

Lewis M. Johnson, photographer, charged with common nuisance, will be tried to-morrow morning in the Police Court. The defendant is out on bail.

Rev. Thos. L. Gulick of Makawao, having exchanged pulpits with Rev. Dr. Beckwith for four weeks, will conduct services in Central Union church during that time.

The Ahahui Mele Hawaii Noeau had a rehearsal of the "Crusaders" at Kawaiahao Church this morning. The second presentation of the cantata will be given to-morrow evening.

There will be a sale of household furniture at the salesroom of J. F. Morgan at 10 o'clock to-morrow. Some law books belonging to the late George E. Richardson will also be sold at the time.

Judge Dole heard proof of claims in the bankruptcy case of Tai Loy to-day in the Supreme Court. Ten creditors proved claims amounting to \$203. W. R. Castle was appointed assignee under a bond.

Rev. J. A. Cruzan, formerly pastor of Central Union Church of this city, recently received a call to the Third Congregational Church in St. Louis, which he declined. The call has been renewed, and Mr. Cruzan, who is now in San Francisco, may accept.

The steamship Gaelic will be due at this port from Hongkong and Yokohama next Wednesday the 17th en route to San Francisco. The steamship Oceanic will bring the next mail from San Francisco, being due here on the 23rd inst. on her way to Japan and China.

Soy Young, a Chinaman, who has been managing a che fa bank on Beretania street for some months, will leave on the next steamer for China. Soy Young stated to an intimate friend the other day that he had made \$10,000 in the time he has been managing a che fa bank, and he was satisfied.

John Brown, an old and respected native, died at his residence at Kakaako, at 10 o'clock last night after a lingering illness. Brown was a hackman for many years and being a steady, industrious man, had accumulated quite a fortune. James Mahoney, hackman, is a stepson of the departed old gentleman.

Native divers may be seen daily diving for coals which have dropped into the bay from coal-discharging vessels. The coals are for sale. It is interesting to see the divers staying long under water and coming up with two or three junk of coal. Three natives have formed a kind of company and have purchased a scow.

A coroner's inquest was held yesterday afternoon in the office of Deputy Marshal Mohren, to inquire into the death of John Silveria, who was buried alive on Punchbowl the other day. A verdict was returned to the effect that Silveria came to his death through carelessness while engaged in digging a sand bank, although he was warned three times.

Four Hawaiian members of the Legislature this afternoon offered to undertake the duties of the President of the Board of Health without salary. Rep. Bipikane caused no little amusement by his remarks. He said that if he was president he would allow married leper men to take their wives to Molokai with them, quoting his authority from the Scripture.

**Japanese Exodus.**  
The Hawaiian bark Leahi will take a number of Japanese males for Puget Sound. They are all of the laboring class, and are seeking employment in the United States. One of them stated that they intended to go to San Francisco but were unable to secure immediate passage. People on the Pacific Coast are doing some tall kicking about this influx of Japs into that country, and there is a movement to force it on the Government's attention, as the Japs will undermine the white laborers in that country.

**THE LEGISLATURE.**

**SIXTY-THIRD DAY.**

**FRIDAY, Aug. 12, 1892.**

**Morning Session.**

Prayer was delivered by Chaplain Waiamau at 10 o'clock. Minutes of the previous meeting were read at 10:15 o'clock by Clerk McCarthy and approved as usual.

Noble Marsden from the committee on ways and means presented a report on Board of Health items recommending changes as follows:

Salary of President \$4,800; salary of Secretary \$3,000; general expenses \$13,370; segregation, support and treatment of lepers \$2,161; support of non-leprous children of lepers \$3,130. Tabled for consideration with the Appropriation Bill.

Minister Widemann presented answers to questions relative to the means provided to pay amounts due the Oahu Railway Co., by the Government and that the Appropriation Bill provides for the amount that can be claimed. When the present Bill was prepared there appeared to be no probability that any addition would be made to the present railway and consequently no appropriation. If during the session of the Legislature it is ascertained that additional road be built an appropriation ought to be made to meet the emergency.

Minister Widemann in answer to questions relative to the return of fees paid by candidates for election, stated that Section 47 of Chap. 86, Laws of 1890, provides that each candidate for Representatives shall deposit with the Minister of the Interior \$25 and each candidate for Noble \$50.

The same section further provides that these amounts shall be paid into the Treasury as a Government realization. As no money can be paid out of the Treasury without appropriation by the Legislature, it follows that the Government cannot refund to any candidate the money so deposited under the conditions stated by the hon. members from Kau.

Minister Spencer in answer to questions propounded by Noble Marsden in regard to the dredging of the Honolulu harbor bar, stated in writing that:

1st. The conditions of the contract are that the sand is to be deposited within the space enclosed for a dumping ground. The pipe line is to be constructed and maintained by the Government. This line is now constructed out a distance of 1700 feet from the dumping ground and to a depth of 22 feet of water.

2d. It is a fact that at present the dredgings are discharged outside, and for the reason that sand hummocks on the extreme outer edge of the bar are being levelled. When the hummocks are levelled the French ship of war (Dubouddien) at present outside can with safety cross the bar and enter the harbor of Honolulu, should her commanding officer so desire. This discharging outside will end on the 12th, when the dredge will again begin on the Waikiki side of the bar. These outside dredgings cannot be carried into the dumping grounds without incurring great expense for pipe line.

Rep. R. W. Wilcox questioned the Minister of Foreign Affairs as follows: 1. Is it true that Great Britain has made an offer to purchase the Island of Nihoa? 2. Any negotiations now going on? 3. Does the Government know of any other intended purchases of Hawaiian territory? 4. Is the Government doing anything toward selling or leasing Pearl Harbor to the United States Government? 5. Has our Minister at Washington any instructions regarding these subjects? 6. Please to furnish copies of letters referring to or touching upon the transfer of any portion of Pearl Harbor.

Rep. Kamaoha under suspension of the rules read a petition from Honolulu that \$7500 be appropriated for the purpose of digging an artesian well at Palama. Referred to special committee on Water Works.

Noble Thurston from the Committee on Public Lands reported on Bill 125, to authorize the Minister of Interior to convey to the Honolulu Sailors' Home Society a certain piece of land in the city of Honolulu. \* \* \* The committee say that the site asked for is directly opposite the new market and will be in the nature of a small public park or square in that part of the city, greatly beautifying it when planted with trees, grass and flowers. \* \* \* The land is now unoccupied and brings the Government no revenue. Under the circumstances the committee recommend that the bill do pass. The report was tabled for consideration with the bill.

The same member from the same committee reported on Bill 151, relative to the publication of a list of the Government landings by the

**OUR STOCK OF**

Minister of Interior, in which public money has been spent, or in which the public have required a right of use. The committee consider that the principle involved is a good one. \* \* \* The rights of the public in each landing must be ascertained by investigation into each case. The bill does not fully cover the ground which the committee think necessary; and they herewith submit a substitute bill in place thereof. Report accepted and tabled and substitute bill referred to the Printing Committee.

From the same committee by the same, a report relating to Bill 130 to amend the Road Board Law of 1890. After relating the various sections of the bill, and specially showing that the amendment intended by the bill was to remove the obligatory portion of the Law of 1890 compelling a Road Supervisor for each district, and to permit the act of appointment of a Road Supervisor to be discretionary with the Road Board. \* \* \* The committee say that having recommended the original amendment and the others being merely incidental thereto they recommend the bill pass. Report tabled for consideration with the bill.

At 11:07 the Order of the Day being moved and carried, the Assembly resolved into Committee of the Whole, Rep. Waipulani being called to the chair, and proceeded with consideration of the Appropriation Bill.

A motion was made that items under the heads of Landings and Buoys and of the Island of Maui, be taken up.

Minister Spencer advocated the consideration of items under the head of the Board of Health, and that department was considered.

A lengthy discussion took place relative to deferring consideration of the item of salary of the President of the Board of Health on account of a bill being before the House to abolish the office.

Pending action the committee at 12 took recess until 1:30 p. m.

**Notice to Mariners.**

A rock not shown on the charts, in Houston Stewart channel, near the entrance to Rose harbor, Queen Charlotte Islands, on which the Dominion Government steamer Quadra struck May 14, 1892, has been examined by the navigating officer of H. B. M. S. Champion.

The rock (Quadra rock) lies midway between Ross Island and Ellen Island, and consists of a shoal patch 300 feet long by 180 feet wide; the two shallowest spots are at either extreme, with a least depth of 6 feet at low water spring tides, and 12 to 14 feet in other places. Soundings of 5 to 7 fathoms were obtained off the edge of the shoal. The bottom is rock, and can be distinctly seen at high water. The shoal is marked at slack water by two small patches of kelp at either end, and when the flood and ebb streams are running it is marked by overfalls and tide ripples. The rise of spring tides was observed to be 16 feet.

**A Distressed Journal.**  
[COMMUNICATED.]  
If the pen is mightier than the sword our little regiment of guards will have but a poor chance against the Advertiser. Destruction shall fall upon it—sometimes, however, the unexpected happens, and who knows but that the soldiers will come out of this bloodless fray with colors flying after all. Joking aside, however, does it not occur to the Advertiser that possibly the majority of the house is right, and the minority wrong? May not there be reasons for maintaining a small nucleus of a military establishment, as cogent here as in the United States? By anybody not entirely convinced of the truth of his own position, these reasons may be found to be of considerable weight.

The Advertiser says that in the United States the army is merely a nucleus to be increased in time of war. This is positively untrue, if by war we are to understand foreign war; but if civil war be contemplated the raison d'être of a nucleus exists as clearly in Hawaii as in America, and more so.

In America there are large army corps of volunteers. Each State equips and maintains an army of citizen soldiers. Only the other day at Homestead the entire force of militia was called out by the Governor of the State to suppress the movement of the strikers. Now here the thing is different. We have no militia. The law forbids the organization of volunteer corps.

On the other hand we are even more at the mercy of our Mongolian and Japanese population, should it become unruly, than is any State in the Union at the mercy of discontented strikers. So far we have escaped. But who knows, as times grow harder, as wages decrease, and laborers are imported at cheaper rates, whether the thousands and the tens of thousands of our semi-barbarous laborers may not show a disposition to revolt? All things go by comparison. In America with 60 millions, an army of 60 thousand will be found amply sufficient to maintain order and put down rioting. In Hawaii with a population of 80 thousand, 80 men well drilled and armed will be a source of strength in times of danger.

It is perfectly certain that the preparations made by the guard on a recent occasion had a most salutary cooling effect upon the excited minds of our heroic revolutionists. It is all very well to sneer when the danger is averted, the misgiving which existed as to the nature of the reception to be expected at Iolani Palace without doubt demoralized and overthrew what would have proved a dangerous and fatal conspiracy. This is the reason why sensible people wish to have a guard of their own. They are pleased to know that there is an element of safety and security in our midst ready and able to cope successfully with any attempt likely to be made upon the peace and security of the inhabitants of Honolulu. It is unfair to say that the object of the troops is merely to mount guard at the Palace gates, or to fire salutes. It is far wider than this. It is to reassure the residents of this city that in spite of the sneers and sarcasms of those who ought to know better, the government means to maintain a force, small indeed, but sufficient to put down anything like lawlessness. We hope the guards will be maintained in numbers, in excellence of drill and in efficiency. We recommend the Advertiser, if it be so bitterly opposed to Royalty and existing things in Hawaii to retire to Johnston Island where even a policeman would be unnecessary, and where its eyes would never be offended by the sight of a toy soldier.

"Think of Me at Home."  
The following personal item appears in the Augusta, Maine, Journal: "Mr. Frank P. Hastings, formerly of Calais, and for some time in the diplomatic service, will soon be crushed by weight of honors and titles. He was again decorated at Honolulu on June 23d. With the consent of Her Majesty, the Queen of the Hawaiian Islands, the Japanese Consul-General Taigo Masaki, in behalf of the Emperor of Japan, formally conferred upon Mr. Hastings the Order of the Sacred Treasures."

**Saved a Woman's Life.**  
Mr. J. E. Thoroughgood, writing from Georgetown, Delaware, says: "Two teaspoonfuls of Chamberlain's Colic, Cholera and Diarrhoea Remedy saved the life of Mrs. Jane Thomas of this place." **INSURE**  
— IN THE —  
**Equitable Life Assurance Society**  
OF THE UNITED STATES.  
An Eminently Conservative and Safe Company.

The consideration of first importance in judging of the condition of any financial institution (and notably of a Life Assurance Company, the majority of whose contracts extend over long periods of years) is its Surplus Strength. The EQUITABLE has, over and above all liabilities, a Larger Surplus than Any Other Assurance Company.

FINANCIAL STRENGTH.	
Assets, Dec. '31, 1891, . . . . .	\$136,198,518.88
Liabilities, including the Reserve on all existing Policies (1 per cent. Standard), and Special Reserve (toward the establishment of a 3½ per cent. valuation of \$1,500,000) . . . . .	109,905,537.82
Surplus, . . . . .	\$ 26,292,980.56

This Surplus remains after making provision for every obligation, on a rigid calculation of liabilities, based on the standard prescribed by the Insurance Law of the State of New York, which assumes that Assets will be invested so as to realize interest at the rate of 4 per cent. per annum. In addition to this, in a spirit of conservatism, the Directors of the Society, on the recommendation of its Finance Committee, have set aside a Special Additional Reserve, looking toward even a more stringent and conservative future standard of valuation than the law now prescribes.
