## BASEBALL IN THE MUD

ALL SORTS OF FUN AT THE GROUNDS YESTERDAY.

The Naval Contingent Was Too Much for the Town Lads—Return Match to be Played.

It was unfortunate for the Strangers' Friend Society that rain commenced to fall about 3 o'clock yesterday afternoon and kept many away from the ball game, but as it was the receipts were very close to \$100 with no expenses but balls. By the time both teams had had a little practice the home plate and bases were covered with mud, as were the pretty white clothes of the players. Soper's high collar held out bravely but it had to succumb and finally wilted. There was any amount of fun for those in the grand stand in watching the players slip and wallow around in the mud and they certainly got the worth of their money, for the game did not conclude till 6:15.

The representatives of Uncle Sam were first to the bat. Tozer took his base on balls and went to second and third on passed balls. Long struck out. Tozer came home on another passed ball. McCormack was put out at first on a drive to second. Coontz struck out.

For the town boys Wodehouse went to first on Coontz' error and stole second but was put out between second and third. Dr. Nichols took first on four balls and stole second. Adams went to first and Nichols to third on another muff by Coontz. Adams stole second. Dr. Nichols scored and Mott-Smith went to first on Burt's muff. Adams scored on Lucas' base hit. Lucas made a diversion and was put out at second but Mott-Smith scored during the melee. Howard made his base but Shingle struck out.

In the second Willard was put out at first, Smith went to third on a base hit and came home on a passed ball. Hayward made a base hit for the first time in his life and stole second. Burt went to first on balls but was put out at second. McArthur was put out at the home plate after going from first on an overthrow but Hayward scored.

Waterhouse struck out, Soper took his base on balls and stole second and third and came in on a passed ball. Wodehouse got his base on balls and stole second. Nichols made his base and both came in on an overthrow to second. Adams made his base by McArthur's error and stole second. Mott-Smith was caught out by Tozer. Willie Lucas saved first by another error of Coontz and stole second and third but was put out at the home plate.

In the third Tozer made his base. Lang did the same and both came in on passed balls and wild throws. McCormack and Coontz struck out. Willard took a base on balls and stole second. Smith was put out at first.

Shingle went to first on balls but was put out at second. Waterhouse went to first on balls and stole second. Soper found the air three times and Wodehouse couldn't do any better.

In the fourth Willie Lucas was put in to pitch for the town boys. Hayward struck out. Burt got his base by Wodehouse's error and got home while Adams was asleep at first. McArthur took his base on balls. Tozer got to first but McArthur was put out at second. Lang was put out at first.

Nichols got a home run on a hit to center field. Adams and Mott-Smith were put out at first. Lucas got a two bagger but was put out on third.

In the fifth McCormack's fly was taken in by Waterhouse. Coontz went to first on balls. Willard fanned out. Smith was struck by a pitched ball and went to first. Hayward's two bagger

let Coontz and Smith in. Hayward stole third and came in on Burt's base hit. McArthur got a single. Tozer flew out to Waterhouse.

Shingle flew out at first. Waterhouse found three holes in the air. Soper made first by the skin of his teeth and stole second. Wodehouse took his base on balls. Nichols flew out to pitcher.

In the sixth Lang flew out to Shingle. McCormack went to third on a hit to right field and came in on a balk by pitcher. Coontz was put out on three strikes. Willard flew out to Adams.

Adams struck out. Mott-Smith made a base hit and stole second and came home on Lucas' three bagger. Howard was put out at first but Lucas scored. Shingle flew out to pitcher.

In the seventh Smith made a three bagger on Wodehouse's error. Hayward flew out to Mott-Smith. Smith scored on Burt's single. McArthur followed with another base hit. Tozer filled the bases by getting first on balls. Burt scored on a passed ball. McArthur scored on Lang's base hit. McCormack made his base and Tozer scored. Lang and McCormack came home on Coontz's base hit. Willard was put out at first. Smith made a base hit. Coontz' came in on Hayward's single. Smith was put out at third.

Waterhouse struck out. Soper made his first on McArthur's error and stole second and third. Wodehouse was put out at first but Soper scored. Nichols took first on balls and was put out at second.

In the eighth Burt made first by a lucky passed ball and stole second. Tozer took his base on balls and Lang followed suit. McCormack's three bagger made three runs. Coontz failed to hit the ball in three attempts. McCormack scored on Willard's single. Smith flew out to Lucas. Hayward flew out to Mott-Smith.

Adams made his first. Mott-Smith flew out to pitcher and Adams came home on a wild throw to first. Lucas was put out at first. Howard took a base on balls. Shingle flew out to catcher.

In the ninth Burt was put out at first. McArthur made his base but was put out at second on Tozer's single. Lang struck out. Waterhouse took a base on balls. Soper made his first. Wodehouse was put out at first. Soper fell by the wayside trying to steal second but Waterhouse scored. Nichols made a single and stole second. Adams made first and stole second. Adams scored on Mott-Smith's two base hit. Lucas was put out at first.

NOTES OF THE GAME.

Soper's collar struck terror in the hearts of the naval nine, but after the rain wilted it the effect was reversed.

Jim Dodd sent a ten-gallon keg of beer out to the Philadelphia's band with his compliments. No wonder they played so well.

Ensign Hayward was missing when the game was about half over, but was finally found in a carriage with several ladies. He was dragged out in short order.

Medicine and dentistry were hand in hand yesterday as usual, Dr. Smith's three base hit and Dr. Nichols' home run being features of the game.

Mr. Dietz of the hospital corps was on hand with his little gladstone filled with courtplaster, splints, bandages, chloroform, etc., but his services were not needed. By the way Mr. Dietz has been with the flag-ship since she was first commissioned and has traveled just 98,000 miles in her with that little bag of his.

The happiest man on the grounds was the popular band-master of the flag-ship. He has evidently played for ball games before and knew just when to stop the music.

Lieutenant Elliott kept things moving and did much to keep up the courage of his team.

## ABOUT VERTICAL WRITING

SOME FEATURES OF THE NEW SYSTEM JUST ADOPTED.

The Familiar Slanting System Causes Short-sightedness and Curvature of the Spine.

The Department of Education having adopted the system of vertical writing to take effect and be taught in all the schools of the Republic from the commencement of the coming school year, a few words concerning it may not be amiss at this time. A leading American authority on vertical writing says:

"Much attention has been given, within the last decade, to the question of the slant in writing, not alone by teachers but by physicians, especially in Germany, Austria, Switzerland and England. Previous to the middle of the sixteenth century all writing was perpendicular. Gradually this custom was changed and the slanting writing became universal. Its use was not questioned until recently when medical authorities began to investigate, and to charge the increase in short-sightedness and curvature of the spine to the defects of this system. Eminent school authorities have joined with them, and the vertical writing is urged specifically on hygienic, calligraphic and economic grounds:

"First—It is hygienic in that it requires an erect position, with both sides of the body touching the desk equally; that it exercises the eyes equally; that there is no chance for a cramped hand, arising from the abnormal twisting of the wrist.

"Second—It is calligraphic in that it furnishes the maximum legibility, the maximum excellence, the maximum individuality and the maximum uniformity.

"Third—It is economical in time, in labor and in space.

"These are the principal points which have been presented by the advocates of vertical writing. Some of the points will be conceded; others are still in doubt, or are strenuously denied by the advocates of slanting writing and can be settled only by the experience which will result from a fair trial.

"The fact that a very large proportion of the pupils, in the larger cities particularly, leave school before it is possible to acquire an easy and rapid handwriting, is an important fact to be considered. These pupils can readily acquire a perfectly legible hand by the use of the vertical writing, and this is an important object to accomplish.

"The demand for great speed in writing is much lessened by the general introduction of type-writing and manifold machines.

"The time and patience consumed in the acquirement of exact penholding and a free and easy movement, absolutely indispensable for even a respectable slant writing, is a very strong argument for its abandonment."

Good penmanship is not an art attainable only by a specially favored few; its essential features—legibility, uniformity and rapidity—can be acquired by all. Successful instruction in writing is based upon the same general principles of pedagogy as those which form the foundation of successful teaching in other branches.

It is claimed by the advocates of the vertical system that the modes of instruction practised for years in teaching the slanting style of writing and especially the copy book exercises are too tiring to the youthful mind, that the unnatural position of the body and cramping of the fingers necessary in learning it cause so much bodily inconvenience that the attention and interest of the pupil in the lesson before him is either materially lessened or entirely dissipated. The child mind by

its very nature cannot be held to long, continuous effort in any one direction. A change is necessary. This fact is recognized in all intelligent courses of study. Education, in primary grades especially, comes by keeping the mind alert by new work, a little here and a little there. Thus, in the lower primary grades the most approved rule under the vertical system for the length of any one exercise is from fifteen to twenty minutes; yet most of the slanting systems of writing offer as an exercise in form study a complete page, which, if carefully studied, presents a task beyond the powers of the child, certainly in the earlier years of his school life.

### DAUGHTERS OF REBEKAH.

They Give an Entertainment at Harmony Hall.

Yesterday evening the Pacific Degree Lodge of Rebekah, I. O. O. F., gave an entertainment at Harmony hall, instead of holding the usual meeting. Mrs. C. Petrie, presiding, said at the opening: "I am very glad to see so many of our friends here. I may say the object of this gathering is to promote sociability among Odd Fellows and their families." She then announced the following program, every number of which gave great pleasure:

Piano Solo.....J. Vincent Hughes  
Vocal Solo.....Dr. Burgess  
Recitation.....Hazel Anderson  
Piano Solo.....Miss Petrie  
Vocal Solo.....Mrs. C. Smith  
Recitation.....Mr. A. E. Murphy  
Vocal Solo.....Miss Lillie West  
Recitation.....Mrs. C. Petrie

Miss Petrie's piano playing won long and loud applause. She is a worthy pupil of Miss Alice Rice, one of the most accomplished pianists who has ever been in Honolulu. Refreshments of choice quality followed the program, then dancing that ended with the Virginia reel about midnight.

### "THE OLD CURIOSITY SHOP."

Katie Putnam Tonight as Little Nell and the Marchioness.

All the world has read Charles Dickens' great story of "The Old Curiosity Shop" but all the world has not seen its dramatization. This chance is afforded Honolulu people this evening and it may never occur again, for few can play the roles of Little Nell and the Marchioness as can Katie Putnam, and none other than the son of the great novelist himself has testified to the fact.

Incidental to the play Miss Putnam will introduce some banjo playing and a number of new songs and dances. The advance sale of seats has been extra large and it will be well for those who go to the Opera House tonight to secure their seats in advance.

At the matinee the attraction will be "Fanchon."

SATURDAY, AUG. 14, 1897.

NOT THE TIME.

There is a time for everything under the sun. The time to discuss municipal institutions for both town and country districts in these islands is any time that a newspaper writer has nothing else of importance to discuss. It is well to have the question discussed periodically, so that when the country becomes ripe for such institutions schemes therefor will be well understood. But a proposition to link the question with the details of local government to follow annexation to the United States cannot be regarded as other than untimely. As this paper has already stated, the treaty of annexation provides that the local affairs of the islands, town as well as country, will be looked after in due form and course. It is no sign of superior wisdom for anybody to apprehend that the particularly elaborate community concerns of such a city as Honolulu will be overlooked by the commission to be appointed to frame methods of control of our local affairs under the changed conditions. There is really no reason, at the same time, for anticipating that local affairs must be greatly altered in their management under annexation. With the exception of the separation of functions that will have become federal, there is no necessity for anything like a revolutionary change in the Hawaiian government. The treaty provides for admission as a territory, but that fact in no way prescribes a set form of local government. No two territories of the United States have had identical territorial constitutions. So Hawaii can surely be furnished with a constitution that will not upset all present arrangements. In any case under that consideration, there need be no fear for the regulation of Honolulu. It may either be segregated from the general territorial government or left under control of the authorities for local administration over the whole islands. Supposing that Honolulu is to be a self-contained jurisdiction, however, that would not imply that it must of necessity become a municipal corporation, with either high or low voting franchise for its constituent citizens. Washington is the best governed, as it is one of the most beautiful, cities of the United States. Yet Washington is not a municipal corporation. It is governed by a Board of Commissioners appointed by the Federal Executive. What is good enough for the capital of the United States ought to approach a degree of satisfaction to even the most fastidious residents of Honolulu for their civic government. Coming when and how it does, the proposition for the municipal incorporation of Honolulu—under a limited franchise for citizens, mind you, at that—reveals nothing other than a purpose to perpetuate the admittedly oligarchical government at present subsisting, the toleration of it mingled as it is with a large amount of esteem for its heads, but only on sufferance in anticipation of a reunion of all the people under the Stars and Stripes.

Marquis Ito has emphatically denied that his visit to Spain was "to arrange terms for mutual support in the attitude of Spain and Japan toward the United States." He had simply gone to Spain as a matter of course to accompany Prince Arisugawa, whose mission was to present the King of Spain

with the insignia of an order conferred on him by the Emperor of Japan, when the Marquis was Prime Minister. During their visit there was never any allusion made to the relations of Japan with the United States. Another sensational fiction is thus wiped off the bulletin boards.

Lately a powder magazine at Wilkesbarre, Pennsylvania, containing twenty tons of powder, was exploded by a stroke of lightning. Fortunately only one man was killed, a teamster who was driving past the magazine at the time, but the explosion shook the foundation of nearly every dwelling in Wilkesbarre. Occasionally very heavy thunder storms roll over Punchbowl, and Honolulu can never regard itself safe while the powder magazine remains in the midst of the city.

Joaquin Miller, the "Poet of the Sierras," has gone to the Klondyke, as representative of the San Francisco Examiner and the New York Journal to write up the scramble for gold. In one of his letters by the way he says that himself, in the middle fifties, is perhaps the oldest man in all the four hundred. As an old mountaineer, however, he will probably hold his own with the youngest. His letters will probably survive as literature.

Perhaps since the question of the registry of the steamship China has gone into the courts, its discussion on the outside might as well be left to private conversation. It certainly will not discredit the Hawaiian flag to fly over the China, and if our laws and the petitioner's rights entitle the ship to the flag even the Government will not grieve.

There is an opportunity this evening for the people of Honolulu both to recognise the high talent of Miss Putnam and to see in action on the stage some of the finest characters ever portrayed by the master hand of Dickens. Doubtless many who seldom go to a play will make this one of the times.

The Kewalo Bicycle Track, to be known as Cyclomere Park, is at last a reality and "not a dream," thanks to the energy and enterprise of Mr. Desky, and will be opened with a grand meet next month, and all the young men—and perhaps also the lovely girls—will want to try their luck on it. In anticipation of increased sales on bicycles we have quietly laid in a good stock of Tribune Bicycles than which there is none better in the market. The Tribune is now recognized in the United States as the best; it is the favorite with all the society people and business men all over the Union, and our own American Minister rides one. Recent advices announce a cut in prices of low grade, but the strictly high grade wheels still sell readily at the former list price. We have made better arrangements with the manufacturers, whereby we are enabled to sell the Tribune bicycles at list price—\$100, and invite all intending purchasers of wheels to come and inspect our stock before going elsewhere. We have ladies' and gentlemen's road wheels, racers and all models manufactured by the celebrated Black Manufacturing Co. We also carry the Columbus, Columbus Juvenile for Boys and Girls, B & H Special, Zimmy and Stormer, which are sold exceedingly cheap.

The Old Stand:

Where for the past seven years we served the people of Honolulu, having neither accommodation nor proper facilities for conducting an increasing business, our efforts for the past seven months have been mainly directed to erecting a building ample for our requirements and equipped with facilities for handling all business with dispatch. We feel that this result has been accomplished notwithstanding a number of unavoidable delays caused by material not coming to hand as anticipated. In giving our attention to the details of building we were obliged to neglect some of our jobbing trade which we regret, and hope under the new conditions to make up for same by prompt and faithful attention to all matters placed in our charge.

The New Stand:

Is our own creation adapted in every detail to conducting our business. In opening this stand we do so with the purpose of confining ourselves to the lines of goods carried by us at the old store but showing a more complete assortment than heretofore. Understanding the requirements of this community we will endeavor to supply our trade with strictly up to date goods of a quality that we can guarantee. We invite inspection of our stock.

REGISTRY OF THE CHINA.

Testimony of Col. Macfarlane and Capt. Seabury Being Taken.

In the matter of the petition for a writ of mandamus, to compel the Collector General to grant Hawaiian registry to the steamship China, Judge Perry this morning granted a motion of G. W. Macfarlane for taking the testimony of himself and Captain Seabury, who were about to go out of the Republic and not return in time for the trial. Nine o'clock on Monday was ordered as the time for taking the depositions of these witnesses. It was agreed, however, between Alfred S. Hartwell, attorney for the petitioner, and Henry E. Cooper, for Collector General Castle, to waive time and that the depositions might be taken now. Accordingly Judge Perry began hearing the taking of such testimony this morning. As the testimony is to be produced at the public trial on Monday, it is not available for publication at this time.

Alice K. Ayers Dead.

Last Tuesday, the 10th inst., the community of Lahaina was shocked to learn of the death from blood poisoning of her whose maiden name, until about a year ago when she married, was Alice K. Ayers. Alice was one of Hawaii's fairest daughters, born in Lahaina, it was there that most of her life was spent and from there she has passed away.

On account of her amiable disposition and modest and winning ways she was beloved by all who knew her and her death will cast a gloom throughout the entire District. She was the pride of a fond mother whose heart has been almost broken by this blow.

Palmyra Island.

Judge Wilcox says the statement that Palmyra Island was sold to H. Hackfeld & Co. is an error. The interest of the Pacific Navigation Company and A. F. Cooke was sold at auction when the company went into liquidation and was bid in by W. A. Kinney, who afterwards sold it to Fred Wundenburg. That interest represented three-quarters of the island, the other fourth being claimed by various parties.

**How to Make a Handy Spectacle Case.**

Take a yard of 3 inch grosgrain ribbon, with a plain satin edge, of any shade preferred. Cut off 6 1-2 inches and divide this into two pieces, respectively 4 and 2 1-2 inches in length, and fringe one end of each for pockets. Fringe both ends of the long strip. Fold under the unfinished end of each of the two pockets and stitch a pocket to each end of the strip of ribbon close to the fringe, the fringe on the pockets being uppermost.

Cover a large size brass ring with crocheted silk the shade of the ribbon, so one end will be longer than the other, to suspend the case. Then take 3 small squares of chamois of graduated sizes. Cut the edges in fine points and tie the squares together through slits made for the purpose in the upper left hand corner of the smallest center square with a bow of baby ribbon. Slip this inside the smaller pocket to polish the spectacles with.

**How to Renew Old Craps.**

Lay over the ironing table a piece of black cambric or cloth of any kind and pin the piece of craps smoothly through to the blanket, stretching it out to its original size. Wrap another piece of black cambric out of water and lay it over the craps, patting it down with the palm of the hand. Now take hot flat-irons and pass them over the wet cloth, but allowing no pressure to come upon the craps. When the cloth has become dry from the heat of the iron, remove it, but let the craps remain pinned down until all the moisture has evaporated and it is perfectly dry. The craps will now feel and look like new. A long veil can be renovated in this way, making sure that the part redressed comes under the edge of the wet cloth.

**How to Make an Excellent Cold Slaw.**

Put a gill of vinegar and a gill of water in a bowl which will fit in the top of the teakettle. Add an ounce of butter, an even teaspoonful of salt and 1 of sugar, a little mustard and cayenne and 2 beaten eggs. Stir the mixture until it becomes thick, like custard. Remove from the fire, and, when cold, pour it over raw sliced cabbage, only the white inside leaves being used.

**Sarsaparilla Sense.**

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour. But grades differ. You want the best. It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you? When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla. Ayer's Sarsaparilla has been on the market fifty years. Your grandfather used Ayer's. It is a reputable medicine. There are many sarsaparillas. But only one Ayer's. IT CURES.

**How a Cold Water Bath Should Be Taken.**  
Dr. Cyrus Edson says that a cold water bath should not be used when a person is tired or exhausted, as the reaction on which depends its beneficial effect does not follow when the system is tired. The result of a cold bath at such a time is likely to be internal congestion.  
It does not follow, however, that a perspiring person should not bathe until cooled off. As a matter of fact, if the person is not exhausted, the fact that the pores are open is rather advantageous than otherwise, as the reaction is enhanced and will probably follow more energetically. A bath should never be taken within two hours of a hearty meal. The first effect of immersion in warm or in cold water is to seriously derange the digestive process, if that is progressing at the time, and, by a physiological effect that naturally follows, to unbalance or derange the whole nervous system. The result of this is extremely dangerous to the bather. There are numerous instances of severe illness and even of death caused by bathing while the stomach was full.

**Dress Extravagance.**  
The New York Telegram asks how many women are guilty of wearing rubbers over new shoes, thereby making the leather dry and hard and easily cracked? Making the sewing woman wait in the house idle or doing fancy work because you have neglected to get materials before her arrival?  
Buying articles because they are cheap and will come in some time?  
Allowing whalebones to wear through the waist, thereby ruining a gown?  
Wearing the same clothing each week as it comes from the wash?  
Leaving a silk umbrella in a case, thereby causing it to split in the folds?  
Turning skirts wrong side out when hanging them up?  
Placing brushes with the bristles side up?  
Failing to sew glove buttons on before wearing, or mending them before cleaning?

**Curry Sauce For Baked Chicken.**  
Put 2 tablespoonfuls of butter into a saucepan and stir into it 2 tablespoonfuls of flour, a scant tablespoonful of curry powder and a teaspoonful of onion juice. Let these cook a few moments, but do not allow them to brown. Gradually stir in a cup of milk and again cook them for a few moments before putting in a cup of cream. Season with salt, and just before serving add a hard boiled egg chopped fine.

She—But the scene is to be laid in a horse car.—Vogue.

**BY POLICE AT CALLAO.**  
Inquiry here confirms the story coming from Lima to the effect that the State Department has lodged a demand with the United States charge of legation at Lima for the release of the mate of the American bark "Uncle John." He was ashore on December 19 last at Callao, and was arrested because of his constant demand for "Rainer Beer." On tap or in bottles at the Criterion Saloon.

#### KLONDIKE TRIBUTE.

The Dominion Government Prescribes Its Share of Gold Dust.

Ottawa, July 28.—At a Cabinet council yesterday the subject of the Yukon was again under consideration, and it was decided that the royalty to be levied on the gold taken out of that country would be ten percent on all amounts taken out of any one claim up to five hundred dollars a week, and after that twenty percent. This ought to give the Dominion a handsome revenue. And in addition it must be remembered that, as already announced, every alternate claim is to be reserved by the government for the benefit of the public revenue. This policy seems to be very generally approved here by all those who take an interest in the subject.

## Just Like Gold Coin.

For more than fifty years has PERRY DAVIS' PAIN KILLER stood the test against all remedies prepared to eradicate pain, and today stands at the head of the list among the medicines that are so essential to keep at hand in the home.

It is not a new fangle remedy nor do the proprietors lay claim to any wonderful revelation of the ingredients that enter into the manufacture of this ever popular remedy.

It is perfectly harmless, you need have no fear of becoming habitually inclined to its use.

For Colic, Cramps, Dysentery, Colds, and all painful affections, a few doses will certainly give relief. You cannot afford to be without a bottle in the house.

Your forefathers used it and found it beneficial.

Why experiment with some remedy that is new and its effect on the system unknown?

It has many rivals but no equal.

The new 35c. size contains over double the quantity of the 25c. size.
