HONOLULU, TERRITORY OF HAWAII, WEDNESDAY, APRIL 15, 1903

PRICE 5 CENTS

## OLD COIN DISAPPEARS

### \$516,000 HAWAIIAN SILVER REDEEMED UP TO DATE

#### SHIPMENT OF \$66,000 GOES FORWARD ON THE CHINA—DENOMINATIONS REDEEMED.

The First National Bank shipped \$66,000 of Hawaiian coin in the China today, which makes a total of \$516,000 redeemed since the work was begun. Of this last shipment \$37,000 was in dollars, \$26,000 in halves and \$3,000 quarters. The total Hawaiian coinage was \$500,000 in dollars, \$350,000 in halves, \$100,000 in quarters and \$50,000 in dimes. The amounts in the various denominations that have been redeemed up to date are \$275,500 in dollars, \$203,500 in halves and \$37,000 in quarters. No dimes have been turned in for redemption as what was left of these were cornered soon after annexation.

The market is becoming pretty thoroughly cleared of Hawaiian coin and the prospects are that the people will soon begin watching for the local coin for souvenirs. Cashier Cooper remarked this morning that the scarcity of Hawaiian coins is becoming quite noticeable in deposits. Large depositors turning in several thousand dollars, formerly made up largely of Hawaiian silver, now average only a hundred or two in the old coin.

## SOME QUAINT CHARACTERS

To those who have seen the "Old Homestead," the characters of "Uncle Josh," "Aunt Tildy," "Cy Prime," "Seth Perkins," "Eb Gauzy," the whistling boy, and "Ricketty Will," are almost household words, coming under the same category as "Uncle Tom" and "Miss Fesly." Lovable Aunt Tildy, courted but not won for thirty years by Cy, Uncle Josh's eccentric kindness, the still boyish sexagenarians, Cy and Seth, with their quarrels and making up, constitute a quartet seldom equaled for genuine mirth. In the competent hands of W. D. Adams, George Kunkel, Allan Dunn and Mrs. Carl Taylor a treat may be looked forward to.

The performance takes place a week from tomorrow at the opera house, the box office opening at Wall, Nichols Co. tomorrow morning at 9 o'clock. Prices have been modified to suit the times.

### ANNAPOLIS CADETSHIP.

Prince Kuhio, Delegate-elect to Congress, has received permission to hold here the examinations for appointees to the naval academy at Annapolis, this in reply to a cable sent to the Navy Department not long since. As it now stands, whenever gets the appointment after the passage of the preliminary examinations to be held here, will not be forced to leave home in order to take the entrance examinations. The preliminary examinations of candidates took place at the High School building this morning, beginning at 8 o'clock. Following were the names listed: Ed Grieve, F. Stack, J. Honan, M. Kimi, S. Ah Ki, J. Carr, H. Mundon, K. Hancock, A. Lyman and Ellis Lando.

## MAUI'S EVENTFUL TRIP

### CAPTAIN AND PURSER HAVE NARROW ESCAPE

#### BOAT CAPSIZED IN BOILING SURF. ROUGH WEATHER PREVENTS TAKING ON HAWAII SUGAR.

The steamer Maui arrived from Hawaii ports at 7:30 o'clock this morning after an eventful trip. The Maui left here last week with a consignment of Japanese plantation laborers. Some of these were landed at Hana, Maui. The rest were put ashore on Hawaii. Like the rest of the steamers which arrived from the other islands this morning, the Maui struck some very bad weather. This prevented her from bringing back any sugar, so that she returns empty.

Last Friday at about 10:30 o'clock in the forenoon the Maui was lying under the landing wharf at Papaiaoa when suddenly some extremely heavy swells made their appearance and made the vessel's position exceedingly uncomfortable. As the mail had already been landed, orders were given immediately to unshackle the couplings which hold the shore and the sea ends of the wire together, but before this could be done the hook in the coupling broke with a snap over the deck, leaving the now freed ends of the wire to fall into the sea. The wire was later on secured so that only very nominal damage was done.

Later on in the forenoon of the same day Captain F. W. Bennett and Purser O'Brien had an experience which came perilously near to costing them their lives. On leaving Papaiaoa the Maui proceeded to Laupahoehoe. Here the captain and the purser went ashore in the boat. The trip ashore came off without mishap, but on the way back to the steamer a serious accident occurred. At Laupahoehoe boats have to go through a tortuous and rocky channel to reach the landing. On coming out from this channel a heavy breaker caught the boat and capsized it, spilling all its occupants into the sea. Captain Bennett and Purser O'Brien were both caught under the boat and only extricated themselves from this dangerous position with much difficulty. Both men were tumbled about in the boiling surf for several minutes before they managed to climb on the rocks. Even then Captain Bennett was once more washed into the sea by a tremendous comb and had a hard fight before he could reach safety. As it was he lost a valuable gold ring and his hands still bear evident marks and scratches from the jagged lava rocks to which he had to cling.

Coming home from Kawaihae across the channel the Maui, aided by the strong breeze, fairly flew along, her run between Kawaihae and to the Kinau light being especially an exceptionally short one.

Benton, Ill., Jan. 1.—Miss Mollie Atchinson, the largest woman in southern Illinois, died at Ina, a small station thirteen miles from Benton. She was 26 years old and weighed 520 pounds. She was the daughter of Nathaniel Atchinson. The undertaker had to make a special casket of solid oak, which measured thirty-six inches wide inside.

## SENATE WAITS GOVERNOR'S ACTION ON COUNTY BILL

### MR. DOLE FINDS CLERICAL ERRORS REQUIRING CORRECTION

#### Senators Takes a Recess To Give Time For Corrections.

### IMPORTANT PARTY BILL THAT DEMANDS ATTENTION

#### BOTH COUNTY AND GENERAL MUNICIPAL BILLS ARE NOW IN HANDS OF THE GOVERNOR.

### SENATE.

Forty-ninth Day. A communication from the House announced its passage of the following bills: 1. to regulate the sending of youths to the Mainland to be educated; 2. to prohibit gambling and gaming; 3. to authorize district magistrates to issue commissions to take depositions. Standard Telephone Co.

A communication from the Merchant's Association transmitted a resolution urging the Legislature to grant a franchise to the Standard Telephone Company. Laid on the table to be considered with the bill.

### The County Bill.

Senator Isenberg moved that the Senate take a recess for ten minutes to enable the Clerk to present the County bill to the Governor. Carried.

(Clerk Savidge returned with the bill, when Senators Cecil Brown and Isenberg conferred with the committee's draft. The recess was extended for this purpose. Clerk Savidge again carried the bill to the Governor. A verbal error had been found in the Governor's copy, the word "printing" where "posting" was intended.

At 10:55 the Clerk returned and laid his portfolio upon Senator Cecil Brown's desk.

### Most Important Matter.

Senator McCandless rose and said that this was the most important party matter before the Legislature this session. It ought therefore to have the fight of way over every other bill.

A motion for recess till 2 p. m. was changed to 1:30 and carried.

It appears the Governor returned the bill for the correction of clerical errors before signing or vetoing it.

Today being the last day for presentation of the bill to the Governor, so as to avoid a pocket veto, is the explanation of the Senate's anxiety.

It is understood that the general city and town incorporation bill also goes to the Governor today.

## NIHAU'S ROUGH TRIP

The steamer Nihaui arrived from Hawaii ports last night at 12:05 with 2,112 bags H. S. C. sugar and 1,664 bags P. S. M. sugar.

The following sugar is reported at Hawaii ports ready for shipment: H. S. C. 3,996 bags; P. S. M., 3,336 bags.

Purser Kaee reports as follows: When we arrived at Honolulu, April 2, the weather was fine. We took 2,112 bags on board and proceeded to Waipio gulch to lay there over night. On April 10 we started for Kukuhaele to load sugar. We had 832 bags on board when it started to blow very hard. We had to let go our lines and steam to Waipio for shelter. On the 11th we steamed as far as Honolulu to see if the weather would settle during the day, but, on the contrary, it became worse and worse, so we had to go back to Waipio and lay at anchor. On the 13th we started again for Kukuhaele to load. The weather soon became so very rough that we had to let go our lines again and go back to Waipio. At 10 p. m. on the night of that same day we had to steam out from Waipio and heave to at sea all night, as the wind was blowing very hard and heavy swells were running into Waipio. At 7:40 a. m. on the 14th we steamed back to Kukuhaele but found the weather to be very rough. We then changed our course and steamed home. No communication with Kau before we left. Passed the steamer Noeau at Lahaina.

## S. E. KELEIKAU DEAD

(By Wireless Telegraph.)  
Lahaina, April 15.—S. E. Keleikau died suddenly from heart failure following an attack of typhoid fever. The deceased was about fifty years of age. The funeral will take place at 2 p. m. today from the Wahee church.

## MORE JURORS CALLED

### FEDERAL GRAND JURY REPORTS THIS AFTERNOON

TWELVE MORE PETIT JURORS TO COME INTO THE COURT TOMORROW MORNING.

There was a deficiency in the Federal petit jury this morning, and Judge Estee ordered a special venire for twelve more men. The following have been summoned thus far, the venire being returnable tomorrow morning: J. R. Hall, Charles Moltano, Gillis Goodman, Charles B. Hall, J. D. Tucker, W. C. Sprout, Fred V. Berger, C. P. Murray, H. B. Rice, A. P. Knight and W. A. Naylor.

The Federal grand jury were to report at 2 o'clock, when it was expected they would be discharged.

At 2 o'clock the Federal grand jury came into the court and Foreman J. A. Kennedy announced that the report they presented was final.

Five cases were presented by District Attorney Breckons, in four of which true bills were returned, and in one no bill owing to insufficiency of evidence. They had made no other investigation.

Judge Estee excused the jury from further attendance, informing them that since last year their fees had been increased to \$3 per diem.

The indictments found are as follows:  
1. Munkichi Doi, for smuggling silk, crepe in a false-bottomed trunk into the United States.  
2. Yataro Hirota, importation of woman for purposes of prostitution.  
3. Isokichi Miyama, same as former.  
4. Kodera, Kozal and Oei, illicit distilling.

"No bill" was returned in the case of Albert Nilson, assault on high seas.

The three distillers all stated that they wanted to plead guilty, as they had no money. Judge Estee gave them until tomorrow morning to change their pleas if desired.

**THE BUSINESS MAN'S HANDY INDEX,** published in the Saturday Bulletin and the Weekly Edition, gives a concise and complete resume of all legal notices, calls for tenders, judgments, building permits and real estate transactions. Evening Bulletin, 75 cents per month. Weekly Bulletin, \$1 per year.

When the Senate resumed at 1:30 there was no word about the County Bill, and the regular order of the day was taken up. Governor Dole returned to his office after lunch at a quarter to two o'clock.

The inheritance tax of the estate of the late Arch. F. Gillilan, to be paid into the treasury, is \$443.32. The appraisalment by A. J. Campbell was \$12,866.46 as the value of the estate.

Notice of appeal has been given by Hatch & Silliman, attorneys for S. S. Nevada, from Judge Estee's decision awarding salvage to J. D. Spreckels & Bros. Co.

Referee Hawkins is hearing further the bankruptcy petition against M. J. Silva this afternoon.

P. D. Kellett, Jr., clerk to Judge De Holt, is down with the dengue fever.

At an inquest on a case of a suicide recently held in England, the foreman returned this remarkable verdict: "The jury are all of one mind—temporarily insane."

**W. R. CHILTON,**  
Of Fort street, Odd Fellows' Building, has removed his barber shop to Hotel street, next door to Honolulu Tobacco Co. Ewa side Fort street, where he will be pleased to see all his old customers—also new ones. 2419-3m

## Kauai Railway Bill Is Approved By the Committee.

WRIGHT RISES TO A QUESTION OF PRIVILEGE

WAILUKU ELECTRIC FRANCHISE. SENATE BILLS PASSED FIRST READING—KALAMA'S MINORITY.

### HOUSE.

### Forty-ninth Day.

The first thing done at the forenoon session of the House was the reading of a communication from Chief Clerk White of the Department of Public Works, submitting the following unpaid bills at the instance of Superintendent Cooper: Robert Grieve Publishing Co., \$18.50; I. J. S. N. Co., \$25.26; \$69.21, \$6.46, \$435.79 and \$328.74; Anton Waitjen, \$270.50; F. Johnson, \$148; Haul store, \$11.61 and \$52.25; J. J. Beiser, \$480; Bishop Estate, \$280. \$54, \$256.95 and \$200. Total of \$2,717.28. The bills are under dates all the way from 1899 to 1903. The communication concludes as follows:

"Some of the bills in question are unpaid bills for former periods and others are for amounts for which we have no appropriation sufficient to meet. The bills are certified to so far as possible, and all available data is submitted with them. As these are just and unpaid claims against this department, most of them a heritage from former administrations, I trust the Legislature may see its way to appropriate a sufficient amount for settlement of same."

This report was referred to the Public Expenditures Committee.

**Two Pay-Days.** A communication from the Senate submitted House Bill J, a bill providing for two pay-days for Government employes, which had passed third reading in the Senate with amendments. On motion of Mr. Kumalea, the House concurred in these amendments by a unanimous vote of 26 yeas.

**Wright's Privilege.** Mr. Wright arose to a question of privilege, saying he had been assailed by the Advertiser in an article which had appeared in its columns this morning, relating to a happening in the Police Court yesterday. In the latter part was a paragraph reflecting on the Hawaiian members of the House. He would move that the reporter of the Advertiser in the House be suspended from attendance for two days.

Mr. Kupleka seconded the motion. Mr. Aylett said he would support such a motion if it related to any happening in the House. As a matter of fact, it was something outside which the House could hardly take cognizance of.

Mr. Harris said that such a motion as that made by Mr. Wright was an injustice to the reporter of the Advertiser in the House. It did not follow that he was the writer of the article.

The Speaker stated that the privileges accorded the press could only be curtailed by the suspension of Rule 88, and this could only be suspended by a

# HORRIBLE MASSACRE

CONSTANTINOPLE, Turkey, April 15.—A Mussulman village has been attacked and it is reported that 165 persons were ruthlessly massacred. The women were tortured and the most indescribable excesses committed. There are rumors that a massacre similar to the Sicilian vespers is threatened. The Bulgarian guards have been increased.

## MILLIONS IN OIL GO UP IN FLAME

BEAUMONT, Texas, April 15.—A destructive fire started in the oil wells at Spindle Top today. The flames spread to adjoining wells and a conflagration of tremendous proportions was soon in full way. Millions of dollars' worth of oil and well equipment has been destroyed.

## He Was Offered Money To Kill Governor Goebel

FRANKFORT, Ky., April 15.—During the trial of Howard here today for the murder of Governor Goebel, Frank Cecil gave testimony of a most sensational character. Cecil stated that a few days before Goebel's murder he was approached by Caleb Powers and ex-Governor Taylor, who offered him \$2,500 if he would kill Goebel.

**LOUBET WELL RECEIVED.** ALGIERS, April 15.—President Loubet arrived here today and was received with marked enthusiasm. Crowds lined the streets and all citizens joined in showing their good feeling for the French President.

**AGAINST CANAL TREATY.** BOGOTA, Colombia, April 15.—The sentiment against the ratification of the Panama Canal Treaty approved by the United States Senate is growing. Antagonistic forces are at work which it is feared will block the treaty.

**REFINED SUGAR ADVANCES.** NEW YORK, N. Y., April 15.—Refined sugar was advanced five-hundredths today.

**SAN FRANCISCO, Cal., April 14.—SUGAR:** 96-degree Centrifugals, 3.57 cents. Previous quotation, 3.51. 88-analysis Beets, 8s 2 1/4d. According to the price of beet sugar the 96-degree Centrifugal price should be 3.99. The difference of .47 represents manipulation by the Sugar Trust.

## Fannie Kerr Is a Menace To Vessels

The Japan Gazette of March 30, contains the following on the Fannie Kerr:

We are informed by Messrs. Cornes & Co. that the S. S. Heathdene reports at Nagasaki having passed on the 22nd inst. the derelict Fannie Kerr, 2154 N. 123.14 E., still smouldering and drifting S. S. W. It is a decided danger to navigation and masters should be on their guard.

The Fannie Kerr is described as a British bark, hailing from Liverpool, 2286 tons, built in 1892, the owners being E. R. Peel and G. McAllister & Sons.

The chief officer of the China states that the people on the vessel which sighted the derelict report having noticed the spars hanging over the side of the vessel but still attached to the rigging.

## Chairman Brown Opposed To Long Municipal Bill

Chairman Cecil Brown of the Senate Judiciary Committee, refuses to recommend the passage of the Long Municipal Bill. He contends that with the County Bill and the City Incorporation Bill, both of which have passed both houses, the Long bill would seriously complicate taxation.

Senator Achi was striving hard this morning to gain Senator Brown's concurrence in a favorable report on the Long bill. Having completely failed, he with Senator Woods will probably present a majority report. Then the question will be decided by the Senate.

Should the Legislature pass the Long bill, it would have to run the gauntlet for the executive signature. After today a pocket veto would give the bill its quietus should it not meet the Governor's approval.

## SUNDAY BASEBALL SUFFERS SECOND DEFEAT SENATE REVIVES WINSTON ROAD FRANCHISE

### SENATE.

Forty-seventh Day.

#### Afternoon Session.

Before resuming the explosives bill on third reading, the Senate heard a communication from the House of Representatives announcing the passage of the Conference Committee's report on the County Bill. Also, another transmitting the House bill relating to the employment of citizens on public works.

Some verbal amendments were made to the explosives bill, and it passed third reading by the ayes of all thirteen members present.

#### Law Digest.

The bill appropriating \$1000 for the publication of a digest of at least 14 volumes of Hawaii Supreme Court Reports passed third reading unanimously.

The bill to amend the Judiciary Act so as to provide for the enforcement of decrees in equity passed third reading without a negative.

#### Bills Reported.

Senator Baldwin moved suspension of the rules to present reports of the Ways and Means Committee. The first was upon the bill to encourage the cultivation of the castor oil plant, etc. With some amendments they recommended its passage. Adopted, to be read a third time tomorrow.

Senator Baldwin, by permission, reported verbally from the same committee upon the bill to provide for the appointment of a Deputy Registrar as well as a Registrar of Accounts. The bill was favored by the Governor. It made no addition to the office force, but simply provided against the temporary absence of the chief. President Crabbe, introducer of the bill, further explained that sometimes there was nobody left in the office to sign a paper.

The bill passed second reading, to be read a third time today.

#### Two Pay-Days.

The House bill providing two pay-days a month—the 15th and the last—for laborers on roads and bridges passed third reading without dissenting vote.

#### Winston Franchise Lifted.

Senator Achi interrupted the order of the day to move suspension of the rules for raising Senate Bill No. 45, from the table. This is the Winston electric railway franchise and the motion having carried, it was elevated and referred to the Committee on Miscellaneous Petitions.

Senator Baldwin interrupted the procedure decided on, of taking up the Loan Bill, to move consideration of the Governor's veto of the bill to provide for the incorporation of societies for the prevention of cruelty to children. Carried.

#### The Veto Sustained.

There was no debate and the veto was sustained for lack of one vote of the requisite two-thirds of the full membership for passing the bill, the vote being:

Ayes—Achi, Baldwin, Crabbe, Brown, J. T. Isenberg, Kalne, Kalauokalani, McCandless, Nakapua—9.

Noes—Brown, C. Diekey, Paris, Wilcox—4.

Senator Baldwin moved the Senate adjourn till 10 o'clock Wednesday morning. Carried.

#### HOUSE.

Forty-seventh Day.

#### Afternoon Session.

When the House was called to order yesterday afternoon, Mr. Harris announced that there were on the clerk's desk some reports of the Finance Committee.

#### Reports For and Against.

The first reports—majority and minority—were on House Petition 75 from the Associated Charities, asking for an annual appropriation of \$2,500. The minority report, signed by Messrs. Kumalea and Kanoho, recommends indefinite postponement without making a single comment.

The majority report by Messrs. Harris, Andrade and Damien, recommends the insertion of the item in the Appropriation Bill and contains the following statement:

"The object of this society is to concentrate the charity work of the city and to have an office where all applicants for assistance can present their needs. These representations are at once investigated by the manager and the persons referred to the proper source of relief. In this way the charitably disposed are relieved of the importunity of persons seeking relief and duplicate alms-giving, which was common before, is prevented. Pauperism is discouraged and greatly diminished and public begging practically abolished and the numerous charities of the city are organized and working in harmony and mutual support. The money expended by the Associated Charities with running expenses such as salaries, office rent, etc., amounting to about \$2500 annually, which has thus far been given by the benevolent men and women of the city, we feel would more appropriately be dispensed through the local directly to the needy.

These reports were laid on the table to be considered with the bill.

Resolution 197 From Motokai. The Finance Committee also presented a majority and minority reports on Resolution 197, asking for \$1,920 for claims of persons employed by the agent of the Board of Health at various ports in the island of Molokai during the plague of 1899. The majority report, signed by Messrs. Kumalea, Kanoho and Damien, recommended inserting the amount in the Appropriation bill. The minority of the committee recommended the indefinite

postponement of the resolution. The following are extracts from the minority report:

No record of such claim can be found at the office of the Board of Health in Honolulu, and no communication was received at said office by the Health authorities from the Agent of the Board at Molokai. At the request of your committee, Mr. Nakaleka sent to Molokai and received an approved list of the persons employed showing the number of days and the rate per day agreed upon between themselves and Mr. George Trimble, the agent of the Board of Health at Molokai. The list is as follows: J. Nakaleka and D. H. Kahalelo, 34 days each at \$3. \$102; John Kanikau, J. Hui, A. K. Laumanna, W. Laumanna, D. Nahinu, I. Keoki Apaki, Kalili, J. Mahoe, J. K. Kaupa, Kalawalaola, and J. Hui, 24 days each at \$3 per day, \$68 each. Total, \$1,020.

Your committee believes that the agent of the Board of Health at Molokai should have notified the office in Honolulu of his action, and should have sent a report, showing the number of persons employed and the amounts due them. The only record that we have now is the above list that has been submitted, and as the employment of these persons was arranged for four years ago it is almost impossible to attempt to verify it. Your committee have made diligent inquiries at the office of the Board of Health as to whether any amount was paid from that office for like work performed on any of the other islands, and have been informed that no amount of money at any time has been paid by the Board of Health for persons employed by any agent of the Board of Health at any of the islands during the plague of 1899, and the statement was made to your committee that all work performed at the various islands was done and arranged for by a Citizens' Sanitary Committee, and all moneys due these persons so employed were paid by the said committee.

It has been ascertained by your committee that some persons were employed by the two sugar estates on the island of Molokai at the time referred to in the petition or resolution presented to this House, and that they were paid by the plantations for the work performed.

The Board of Health at no time authorized the expenditure of any money for work of this nature, and if the agent of the Board of Health at Molokai employed these men and incurred this expense without authority and without at least notifying the said Board, your committee believes that we should not appropriate this amount in payment of these claims.

The Board of Health protected the various islands and the ports of call of the different steamers to the best of their ability by not allowing any vessel to proceed from this port without a certificate that such vessel had taken all the precautions deemed necessary to prevent her carrying infection and if the different islands took upon themselves through a Citizens' Committee, the duty of guarding the sea coast, they should pay the men so employed, and not ask the Government to settle these claims for them.

The report of Judiciary Committee on Senate Bill 115, "An Act to provide for registering and confirming titles of land," recommending passage, laid on the table to be considered with the bill. Mr. Paele does not concur.

#### Latitude to Police.

Report of Police Committee on House Bill 172, "An Act to authorize police officers to enter gambling houses without warrants in certain cases," recommending passage, adopted.

#### Baseball Bill a Hard Nut.

Report of Police Committee on the Sunday baseball bill, recommending passage, rejected by a vote of 14 to 12 as follows:

Ayes—Messrs. Andrade, Aylett, Chillingworth, Fernandez, Gandall, Harris, Keilnoh, Knudsen, Kupineu, Long, Vuua and Mr. Speaker—12.

Noes—Messrs. Damien, Kalili, Kalama, Kanoho, Keulawa, Kou, Kumalea, Lewis, Nakaleka, Paele, Pali, Pulaa, Purdy and Wright—14.

Absent—Messrs. Greenwell (excused) Hala (excused), Jaeger and Olli (excused)—4.

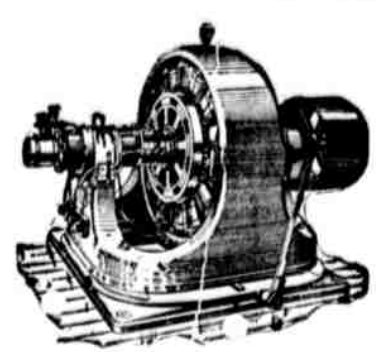

The report of the Police Committee on this bill was as follows:

"Your committee finds through statistics of large cities on the Mainland the advisability of passing a measure of this kind. It has been the experience in the large cities that the churches have not lost any of their attendants, but it has helped them to a certain extent by keeping people who do not attend churches away from the streets by going to the different places where they can be furnished with a little amusement to pass the time away.

"Statistics also show that by having public sports, amusements, shows and games on Sunday, less nuisance is seen on the streets.

"It seems to your committee that it is nothing but fair that people who do not go to church should have a place where they can have a little innocent

**Important Reasons**  
WHY HERRING-HALL-MARVIN SAFE CO.'S SAFES AND LOCKS ARE THE BEST  
The concrete filling makes these safes absolutely Fire-Proof and positively Damp-Proof. The solid angle corners add greatly to their security in time of fire, and form the only solid corners made. The patent BOLT-WORK is superior to any in use, and does not require constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for County Treasurers, County Recorders, County Clerks, Jewelers, Hotels, Residences, Churches and Corporations. We have a Large Assortment of Safes on hand and will be pleased to show same.

**WANT STANDARD CO.**  
At a meeting of the Merchants' Association held in headquarters yesterday afternoon, a resolution similar to that of the Chamber of Commerce, declaring in favor of granting the Standard Telephone Company a franchise, was adopted. The resolution was sent to the Senate and House of Representatives this forenoon.  
The report of Superintendent Lehigh to J. O. Carter, president of the Mutual Telephone Company, was read by President Macfarlane. While it was accepted, it was found to conflict in several respects with the testimony given by Mr. Lehigh to the experts of the Chamber of Commerce and Merchants' Association who were empowered to take in hand the investigation of the whole Mutual system and to report. This fact was commented on by members of the Association.  
A memorial resolution on the late Joseph Ballard Atherton, a member of the Merchants' Association, was presented by the special committee, Messrs. W. W. Hall, F. J. Lowrey, and Robert Catton, and unanimously adopted. The secretary was authorized to have the resolution engrossed and copies presented to Castle 15 Cooke and to the widow.

Action of the Governor on the County Bill will be only a matter of form. The bill will be passed.

Under the Long Municipal bill the Island of Oahu pays the salaries of a complete set of officers while giving a thoroughly competent government.

The slight advance in sugar should presumably be received with thanks but the Sugar Trust is still making a good margin of profit at Hawaii's expense.

It isn't to be supposed that Sunday baseball games are to be played in sections of the town where they will come in direct competition with any preacher's morning sermon.

Senator Brown's refusal to sign a favorable report on the Long bill might not be allowed to delay action on the measure. Differences of opinion cannot be prevented. It is the vote of the Senate that is wanted.

Judged from the rush for beer saloon licenses this time of trade seems to be regarded as a gold mine. The temperance forces need have no fear. There is a limit to the amount of beer mankind can consume, and pay for.

The Koolau railway has been given another show for its life and it is to be hoped will finally find a place among the legislative acts. Avenues of prompt communication invariably furnish the foundations for increased prosperity.

The Salvador revolution reputed to have arisen through Bonilla's refusal to marry President Sierra's daughter has at last been settled by complete surrender of all opposing forces. To complete the romance Bonilla should now carry out his marriage contract.

Merchants have encountered the marble heart in their endeavors to entice the Chamber of Commerce on the tourist program. The mercantile body, however, shows the right spirit in its determination to get the tourists if they have to be pried out with a crowbar.

Steps taken by Judge Lyle Dickey to test the transfer system of the Rapid Transit Company finds very general approval among many citizens who believe the company has made an unnecessarily strict interpretation of this regulation of their franchise. The claim that the company would suffer serious loss if it were to allow transfers enabling a continuous ride around the circle of King street and Liliha street lines offers very little chance of being borne out by the facts of experience. At the outset there might be a few who would try the continuous ride as a childish novelty, but a week's time would satisfy all that portion of the public looking for something new in that line.

SUNDAY BASEBALL.

The vote against the Sunday baseball bill appears to have been one of those conscience votes quite characteristic of American Legislatures. It shows the influence which custom has on all men and the difficulty with which they break away from old-time teachings, though fairly well satisfied that the sins laid down in blue laws are not as serious as the forefathers believed.

The fact is that the Sunday amusement law is practically a dead letter at the present time, and the Sunday labor law is a relic to which no attention is paid beyond an occasional reminder that it is still on the books. Sunday baseball is not unusual in plantation or other small communities where there is sufficient population to furnish material for contending teams. On the island of Maui Sunday baseball is the rule. The games are well attended, the church-going public is not disturbed and so far as known the church attendance is not seriously hampered by the athletic exhibition of the young men composing the teams of the league. Baseball games are occasionally played at our own Kihapai park and the moral spirit has suffered no remarkable shock in consequence.

Sunday observance laws are on about the same plane as the rules laid down by some churches and church members, that no man or woman can be a Christian and attend dancing parties or play cards. Yet persons and laymen have danced, played cards, gone among their fellowmen doing good and passed to their final reward with an easy conscience. There are those who will claim that the final reward is not a

pleasant one but these assertions reach too far into the unknown to be of value for legislative purposes. In old New England days the man who kissed his wife on Sunday was sentenced for perdition and the punishment of the law as well. Though there is no doubt of the good intentions of our ancestors, it is impossible to convince people of the present day that they are headed straight for hell fire and eternal damnation on account of the Sunday kiss.

Religion after all is largely a recognition of common sense and decency which should be no less in evidence on the six days than it is on the seventh. Religion may be developing on too liberal lines as evidenced by a change of the law on Sunday baseball, but at the same time it is covering a broader field in leading men to realize that the religion of everyday life is fully as important as the form and ceremony of Sunday.

The course of Sunday baseball will probably follow in the pathway of Sunday wife kissing, cards, dances and kindred subjects. It will be found that young and old can participate in and watch a baseball game and behave themselves.

COUNTY BILL ECHOES

There was a lively time down in the room in the basement of the Capitol building this morning. There were some errors in the County Bill which had to be corrected before the measure should go to the Governor for his signature. Those had been discovered after the passage of the measure in the House yesterday forenoon by means of the adoption of the report of the Conference Committee.

The men who had charge of the typewriting and revision were kept busy comparing the amendments and inserting the corrections in the bill. After the Senate had taken a recess, President Crabbe came down from above and began hunting around for the men who were doing the work of correcting the bill. He finally found them and the bill having been corrected, signed by the President of the Senate and Speaker of the House, was finally passed up to the Governor.

The reason for the anxiety was that this is the last day when, should the Governor decide to veto a bill, the Legislature will have anything to say. Should the County Bill have been delayed one day more, the Governor could have pocket vetoed the measure and the Legislature could not have said a word. If silence reigns on the part of the Governor until the fifty-ninth day, the Senate and House may take up the measure and pass it anyway.

GAMBLING RAID.

Deputy Sheriff Chillingworth, accompanied by Officers Renear and McDuffie, this forenoon made a successful raid on a chee in outfit located in the Ah Leong block in Kalaheo. The officers made their appearance so suddenly that great consternation was created among the gamblers. One man, a Japanese, in his sudden fright, leaped from the lanai on the second story. He landed on his feet and then fell in a heap. He was up and off, however, before the officers could get down and catch him. Two other men jumped from the same lanai down on the roof of the cook house which is situated quite a distance below this lanai. The men on striking the roof rolled over and over and finally fell on the ground and made good their escape. The force with which these men struck the cook house roof was so great that all the corrugated iron sheets, of which it is composed, were loosened.

The police secured, altogether, twelve gamblers. Against one of the men, a Chinese named Tom Yung, was placed the additional charge of obstructing the course of justice, he having had the extremely bad sense of hitting Officer McDuffie when the raid was made.

Marston Campbell yesterday swore to a penal summons against W. M. Campbell, the contractor, for violating the law by erecting a building situated on the makai Waikiki corner of King and Sheridan street without first obtaining a permit to do so from the Superintendent of Public Works.

A new club has recently been formed among the young Hawaiians and Chinese of this city. This club, which bears the name of the Rosebud Club, now counts about fifty members. It is organized for social purposes and has already had several very successful dances at its quarters, on the corner of Kukul and River streets.

Harry Mossman, the warrant clerk at the Police Station, is out this morning for the first day after a ten-day attack of fever.

A placard reading, "Will not return until February 2nd," placed upon the door of a residence in West Philadelphia, was so informing to burglars that when the family did return at the date fixed they found the house ransacked, and silverware, jewelry, and much clothing missing. The police were notified, but the thieves had not been so accommodating, and left no hints on their part.

BUSY HOUSEWIVES.

Per-na a Prompt and Permanent Cure for Nervousness.

MRS. LULU LARMER.

Mrs. Lulu Larmer, Stoughton, Wis., says: "For two years I suffered with nervous trouble and stomach disorders until it seemed that there was nothing to me but a bundle of nerves."

"I was very irritable, could not sleep, rest or compose myself, and was certainly unfit to take care of a household."

"I took nerve tonics and pills without benefit. When I began taking Per-na I grew steadily better, my nerves grew stronger, my rest was no longer fitful, and today I consider myself in perfect health and strength."

"My recovery was slow but sure, but I persevered and was rewarded by perfect health."—Mrs. Lulu Larmer.

Mrs. Anna B. Fiehart, recent Superintendent of the W. C. T. U. headquarters, at Galesburg, Ill., was for ten years one of the leading women there. Her husband, when living, was first President of the Nebraska Wesleyan University at Lincoln, Neb.

In a letter written from 40 Sixty-seventh street, W., Chicago, Ill., she says: "I would not be without Per-na for ten times its cost."—Mrs. Anna B. Fiehart.

THE ALAMEDA REFINERY

WILL NOT BE CLOSED ON ACCOUNT OF TRANSFER

GOOD PRICE PAID FOR STOCK—CROCKETT REFINERY NOT PAYING—THIS PAYS—TRUST.

The San Francisco Chronicle of March 29 says of the purchase of the Alameda refinery reported in Bulletin cable dispatches: "Thirteen thousand five hundred shares of the total of 27,121 in the Alameda Sugar Company were purchased last Thursday by Eastern capital through Sutro & Co., the San Francisco brokers. The deal was a month in reaching its climax. It is supposed that this big sale of stock means that the Alameda refineries have been taken into the sugar trust."

Since its inception on the Alvarado refinery, the company has paid more than 51 per cent in dividends. The enterprise has done remarkably well in the face of opposition, and now, with the Crockett refinery closed down, it may be expected to do better. It has paid 15 per cent on its stock this year, and on April 14th the directors are to meet and they will probably declare another dividend.

The Alameda Sugar Company employs about 200 men at its two refineries at Alvarado and buys sugar beets from about 300 farmers in the vicinity of its works. During the last year the company's sales aggregated between \$900,000 and \$1,000,000.

There is absolutely no fear that the works are to be closed down. This is a sugar beet concern that has been paying well. The Crockett refinery was working largely on sugar cane from the Hawaiian Islands and partly on sugar beets from Contra Costa county, and was constantly fighting the Spreckels and did not pay. When it was absorbed by the trust it was removed from business as an expensive investment. But with the Alvarado refineries it is different. They are supplied only by sugar beets grown in the neighborhood and have paid well all along.

Wherever the trust has absorbed beet sugar refineries, in Utah, Colorado, Michigan and elsewhere, it has continued operating them, every one that paid. The Crockett factory was a com-

## Experiment of Government In Operation Under The Southern Cross

The Rev. J. C. Kirby of Port Adelaide, South Australia, before his departure for home in the steamer Ventura, after spending a vacation of three weeks in Honolulu, as the guest of Mr. James Lyle, kindly granted an interview to a Bulletin representative upon experiments of government in Australia. New departures in popular government made in the different self-governing colonies of Australasia, and later in the federation known as the Commonwealth of Australia, are topics of worldwide interest. Mr. Kirby gave the following succinct body of information in reply to a series of questions:

#### LAND LAWS.

"The Torrens system of land titles and registration was first formulated and became law in South Australia at the instance of Sir Richard Torrens. It is one unmodified system throughout Australia and gives abundant satisfaction. Lands granted by the crown before the enactment of the Act may be brought under the new system and are generally brought under, but not in all cases.

**Corporations Go Hungry.** "Since responsible government there have not been any grants to corporations or railways of large or small areas of land. The national policy is for the State to own railways, trams, wharves and water supply.

"South Australia is attempting to secure the completion of the twelve hundred mile gap between her Northern railway and the Port Darwin railway by means of an immense grant of many millions of acres of land. But the rest of Australia resents this.

**Craziers and Settlers.** "In the outside districts land is held on lease for 42 years for grazing purposes. In the settlement areas land is sold by the state at from two and a half to five dollars per acre, with twenty years to pay the purchase money, but near the cities the Government is bringing back great estates, cutting them up and selling to the farmer at five per cent per annum on the purchase money. This is a perpetual rent, but there is a movement to allow the farmer in these cases to buy the freehold. The sale by the large land owners at present is optional, but there is a strong move to give the power to compel to sell large landed estates for division.

**Working Men's Homes.** "Apart from this is the Working Men's Block Act of South Australia, which enables the government in the neighborhood of towns and cities to buy land and to sell or perpetually lease blocks of say two acres on which the man must reside, and which he must improve and cultivate. Some thousands of working men in South Australia are on these blocks. It has made them very comfortable and taken them away from the drink and has been a great moralizer.

**Taxing Unimproved Values.** "South Australia and New South Wales have a tax on the unimproved land values according to Henry George and do not find the slightest difficulty in working it. Henry George came to Adelaide and examined the government books, as South Australia was the first place in the world to put his system to the test, and he was charmed to see how easily it could be worked. Our State is perfectly satisfied with it and will never again tax improvements till it has fully exhausted unimproved land values.

**MUNICIPAL GOVERNMENT.** "Municipal government only partially prevails in Australia, but South Australia, being founded by English Radicals and full of political ideas and reflections, has a complete system of city, district and county government.

**Social Philanthropy.** "Without adopting socialism as a doctrine the people of Australia are filled with the idea that the community should help the individual. Throughout Australia there is a system of public hospitals to which the poor can go and obtain first class nursing and physicians free of charge. Benefit societies, corporations, etc., subscribe and obtain tickets for each subscription of five dollars which entitle one patient to entrance.

**Old-Age Pensions.** "In Victoria, New South Wales and New Zealand there are old age pensions for all men and women over sixty-five years of age who need the same. The feeling in favor of these is so strong that we all expect the commonwealth government to make the pension national. The pension may be made payable to hospitals and asylums during any period in which the pensioner may be the inmate of such a place.

"The pensioner who becomes drunk or gets into jail forfeits his or her pension. Our democratic nation thinks the soldier of industry as much worthy

within the State of New South Wales as the permanent capital, and that for this purpose one hundred square miles of the territory of that state shall be handed over as a federal territory under the direct and exclusive authority of the National government. Copy of Washington, D. C.

"The site is now being selected and it is intended to use all the light of human experience in this selection and the plan of the city. Further the fee simple is never to be alienated. The only title will be settlement on the allotted areas, but the full unimproved land value will have to be paid by the occupiers of the Commonwealth, and it is reckoned that this will pay all the interest of the money needed for the erection of the public buildings needed by the capital of the Commonwealth. This of itself will be a very interesting experiment.

**Liquor Experiment.** "Moreover, there exist a State Liquor League, which seeks that the monopoly of the sale of liquors alcoholic in the territory of the Federal City, both wholesale and retail, shall be in the hands of the Commonwealth. The League considers that the majority of the Senate and the Representatives have pledged themselves to this policy. If this comes about we shall afford the world another interesting experiment. Even the temperance party feel that the Federal city could not be made prohibitive and therefore take state monopoly as the next best. It is proposed that the profits shall be earmarked to provide innocent recreation apart from the places where the liquor is sold."

The drunk and disorderly prisoner admitted to the Judge that he didn't know what he was doing, but said he had seen better days.

#### WOMAN SUFFRAGE.

"All women in Australasia have municipal suffrage. All women have the Commonwealth or national suffrage. The women of New South Wales, Western Australia and South Australia have state suffrage. We are quite satisfied with the result. Within about ten per cent as many women vote as men. The Roman Catholic nuns vote. Good Results.

"The women's vote destroys all rosy-dreams at political meetings, which are more like going to church, and the orators are enabled to present their case and get decent hearing. It educates the woman and gives her a fresh interest in life. It causes the average man to have a higher idea of woman. It causes better laws for and more consideration of the rights and interests of women. No party desires to go back on woman's suffrage.

#### WHERE LABOR RULES.

"Labor is very highly organized in what it considers its own interest. Each State has a Trade and Labor Council with which all trades are affiliated. They have now federated there in a National Trade and Labor Council League. These Leagues take direct part in politics. There are now three parties—the Conservative and Free Trade and the Liberal and Protectionist, and also the Labor party, which is able to put either of the other parties in or out of power, and therefore always sells its support for a quid pro quo.

#### Compels Defensive Fusion.

"In Queensland as a result, the Liberals and Conservatives now make one party, else, otherwise, through a majority, the Labor party would govern the State. This has been so felt in Queensland that the other parties have amalgamated and now there is there only the Labor party and the National party.

#### States Rights Question.

"There are signs that the Australian people will divide into two parts on new lines, viz: those who will wish to insist on the rights of the federated states and those who will seek more and more to centre all power in the Commonwealth government.

#### Signs of Prosperity.

"I rejoice to hear that there have been general rains, that they have found a new gold field in the centre of Australia and that they have solved the problem how to get the many millions of pounds worth of zinc out of the refuse of the Broken Hill silver mines, and that now Australia has again entered a phase of prosperity.

#### THE FEDERAL CAPITAL.

"The Commonwealth Constitution provides that a new city shall be built

POST OFFICE CIRCULAR ON REDEMPTION OF COIN

The following notice to postmasters in the Territory has been sent out: In a communication dated March 6, 1903, from the Treasurer of the United States to the Postmaster-General, relative to the redemption and exchange of Hawaiian coins, the position of the Government in respect to the character of the coin that will be redeemed at face value is stated as follows: "Coins that are mutilated or defaced will not be redeemed at their face value, but will be received at the Mint of the United States in San Francisco at their bullion value. Coins that have been plugged, or punched, or stamped, or that have lost any portion of metal, other than by natural wear, are classed as mutilated." "Natural abrasion is not considered as mutilation. Though a coin may be worn smooth by use, yet if it can be identified as of Hawaiian issue, it is redeemable at its face value." "The circular letter on the above subject, issued from this office under date of February 19, 1903, is hereby cancelled and you will please be guided by the foregoing." L. H. BRICKER, Post Office Inspector.

INFORMATION FOR TOURISTS

"The Four-Track News" for March contains a profusely illustrated article on "The Islands of the Sea" which gives valuable and interesting data regarding Hawaii to attract the attention of tourists. The article is given a leading position and the celebrated fan painter of Hawaii furnishes the illustrations of the magazine. Daniel Logan, the author of the article deals tersely with the salient points of interest in Hawaii. The illustrations include a view of Honolulu harbor and shipping, prominent business blocks, scene at the volcano sugar plantation and mill. The Four-Track News is published by George H. Daniels of the New York Central and has a very wide circulation among the traveling and business public. The special attention given Hawaii is due in a large measure to Fred C. Smith of the Oahu Railway.

CHANCE FOR CHEMIST

Director Jared Smith of the Agricultural Experiment Station received a cable advice yesterday from Washington that a civil service examination will be held at Honolulu April 28, 1903, to fill the position of chemist at the local station at a salary of \$2000 per annum. Candidates wishing to take this examination should cable their application to the Civil Service Commission, Washington, D. C.

### HOUSE.

(Continued from Page 1.)

unanimous vote. On motion of Mr. Wright, the objectionable article was read.

Mr. Wright renewed his motion, saying that the Hawaiian members had been assailed in that it had been charged that they believed themselves to be above the law.

#### Beckley Settles It.

Speaker Beckley concluded the argument by stating that the best thing for a member of the House charged with such conduct reported to do was to keep quiet. The least said about it, the better for all concerned.

#### Senate Bills Read.

The following bills from the Senate passed first reading by title:

1. An Act to reorganize the militia of the Territory of Hawaii.

2. An Act relating to building permits in Honolulu.

3. An Act for the protection of property against explosions.

4. An Act to provide for a digest of the Hawaiian Supreme Court reports.

5. An Act to amend Chapter 57 of the Session Laws of 1892, entitled "An Act to reorganize the Judiciary Department."

6. An Act relating to negotiable instruments being an Act to establish a law uniform with the laws of other States and Territories on that subject.

This last bill had a narrow escape. Mr. Vida moved to reject and Mr. Fernandez seconded the motion. The show of hands was so close that it was then seen that there were about two votes to spare on the side against rejection.

#### Kauai Bill Passes.

Report by the full Committee on Agriculture and Manufactures on House Bill 181, "An Act to authorize H. M. von Holt, his associates, successors and assigns to construct, maintain and operate a railroad in certain districts on the island of Kauai, in the Territory of Hawaii." Minor amendments are recommended and the committee asks that the bill pass. Report adopted.

#### Maui Electric Poles.

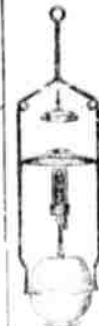

Report by full Committee on Agriculture and Manufacture on House Bill 165, "An Act to authorize and regulate the placing of electric wires and poles on the streets of Wailuku, and elsewhere on Maui," recommending adoption with certain amendments, adopted.

"At the end of section 3, insert three new sections to read respectively sections 4, 5 and 6:

"Section 4. Said company shall also have the right to maintain, operate and use electric meters or other means of measuring electric light, power or current supplied from time to time and to locate the same at such places as may be deemed necessary for their protection; and said company shall also have the right to charge, receive and collect from all consumers of electricity such prices as may from time to time be paid and determined by the company, but such charge shall not at any time exceed 25 cents per kilowatt-hour or 1,000 watt-hours. The company shall have the right to charge, receive and collect from each consumer of electricity for lighting, the minimum sum of \$2 a month, and from each consumer of electricity for power, the minimum sum of one dollar per month per horse-power of apparatus connected to the service of the company."

"Section 5. Said company shall also have the right to charge consumers, or applicants for the use of electricity, for the cost and expense of making connections between the company's main lines and the premises where the electricity is to be used; such cost and expense to include the price of all wires, poles, insulators or other materials and labor necessary to be used in making such connection; provided, however, that the company shall not be required to make, construct or maintain said connections as aforesaid for supplying light or power, unless the applicant or applicants for such light or power, if required, shall

## TOO MUCH WEATHER

Somebody told Tom Bates of the Elleford Company yesterday that the rainy weather would last until the new moon and Bates stated authoritatively that amid the special scenery being brought by the company there was a span, bran new moon, which he would be only too pleased to hoist as a weather signal at the earliest opportunity.

"If it rains on Monday," says Bates, "I shall ask my wife to extend greetings to the company on the wharf. I shall hide myself in a safety deposit vault. After all I have told the people about the Paradise of the Pacific, my life is in danger if anything but a sunny scene is set for their arrival. Besides, rain isn't good for the show business. What you need at present is more climate and a little less weather."

"We are going to hang a barometer in the box office where everyone can see it when they come to buy seats on Saturday at popular prices."

Not long ago a lady was choosing a winter hat, with the usual uncertainty of mind as to the kind of hat she wanted, or whether, indeed, she wanted a hat at all. After trying on nearly every model in the shop, she pounced with glee on one she had overlooked. "Here's something pretty!" she said; "why did you not show me this before?" Without waiting for an answer, she appealed to her patient friend, "There's some style about this, isn't there? How do I look?" The friend distinctly sniffed. "It makes you look a hundred, and it's very dowdy," she said. The other tried the hat at another angle. "It is rather dowdy," she admitted, at this juncture; "perhaps I won't risk it after all." A voice from behind her made its third attempt to gain a hearing. "If you've quite done with my hat," it said, very bitterly, "I should rather like to put it on."

### IMPORTANT TO YOUNG MEN.

Honolulu, T. H., March 30, 1903.  
Desiring that my nominations to the Bureau of Navigation, Navy Department, for the position of Mid-Shipman from our Territory, shall be of the very best available, I HEREBY INVITE the application of any young man who believes he can pass the examination.

The eligibility is from 15 to 20 years, and qualifications as laid down by the Department Rules.

By calling at my office any time before April 10th, he or they will be furnished with any and all information desired.
