LAST BALL GAMES OF SEASON POOR

Makee 14, Makaweli 2.

In one of the poorest exhibitions of ball of the present season, the Makees defeated Makaweli on Sunday by the runaway score of 14-2.

Makaweli, with the backbone of her infield gone in the persons of Ah Nee and Burgess, made a vain attempt to down the leaders of the league, but it was a hard task and they finally succumbed to the inevitable. Her infield was particularly off color, nearly all perfect throws and easy grounders being muffed up. Akita, third baseman of the losers, quit the game in the 7th after an argument with Furtado, but was persuaded to return, and then was benched by the manager for his action.

The Makees then permitted the home team to break the rule governing the playing of substitutes, by giving their consent to let Pacheco, who had been taken out of the game in the early innings, to go in again as third baseman.

Furtado's work on the hill in this ragged exhibition, however, stood out as the one redeeming feature for the losers. His control was well high perfect, and his sharp curves got better during the latter stages of the game. In the eighth and ninth, he fanned five Makee batters in succession and forced Bun Hee to pop to the shortstop. The hits he allowed at critical moments, and the costly boots behind him however, nullified his otherwise good work.

Cummings for the Makees worked on the mound for seven innings and let his opponents down with three singles, two of which were scratches. He gave way in the eighth with the score at 14-2, to the other pitchers of the team, who held the home team runless for the last two innings.

The Makees have almost cinched the 1920 pennant with Sunday's victory, and the winner of the Lihue-McBryde game at Elele next Sunday will only be able to tie the Kapaa boys if the leaders lose to the Lihues in the play-off of the famous 16 inning tie game at Kapaa two weeks hence.

McBryde 6, Kilauea 2.

McBryde took Kilauea to camp last Sunday by a score of 6 to 2. It was a rather ragged game, with numerous errors chalked up against the home team. The McBrydes played like a lot of school boys and only won their game by a lucky bunch of hits, assisted by errors by Kilauea, in the third in which the visitors rung up five points.

The weather was rather squally, with frequent showers, which was responsible in a measure, for the poor class of ball.

Both teams scored in the first inning, and Kilauea got one in the second. In the third Kilauea went up in the air and the visitors cinched the matter by putting five men across the rubber. That ended the scoring for the day.

The feature of the game was the excellent work of Byrd at short. His fielding was remarkable, considering the roughness of the field, and he caught several men at first with what looked like impossible chances.

Wood and Curtis for Kilauea, and Robello and Gabriel, for McBryde, were the batteries. Walter Sanborn umped the game.

The Makaweli soccer team has elected A. Siebel captain for the coming season.

FINE NEW SCHOOL AT KALAHEO

J. H. Craig, the well known Honolulu architect, came over from town last Friday and returned on Saturday. He was down primarily in regard to the proposed new school building at Kalaheo, but incidentally to look over some of the houses built and building on his plans, and more or less under his supervision. There are no less than seven of them, and they set new standards for local architecture.

The new Kalaheo school is to be a ten room building, in addition to which there will be a library and teachers' rest room. It will be built around an open court with special provisions for ventilation and lighting, and will be modern and up to date in every respect.

It is estimated to cost about \$30,000.00. It will be on the new site, on the slopes of Kukuilono—a beautiful site. The two bungalows now there will probably be dismantled.

KAHUANS LOSE RIGHT TO VOTE

According to the Advertiser, many citizens of the city and county of Honolulu who believe they have been properly registered as voters and think they will be eligible to mark their ballots on primary election day have a rude awakening coming their way.

David Kalauokalani, city clerk, acting on an opinion rendered by Judge William H. Heen, city attorney, has refused to enroll the names of many citizens as voters in the great register. Although several notaries public signed the double-affidavit registration of these citizens on September 14, the day on which the great register closed, the affidavits did not reach the city clerk's office until the day following.

Being in doubt as to just what to do, City Clerk Kalauokalani (Continued on Page 8)

REPUBLICANS TO HOLD MEETINGS

The Republican candidates for the Senate and House of Representatives will fire their first big gun of the campaign by a rousing meeting at New Mill at 4:30 p. m. and at Elele at 7:30 p. m. next Thursday evening, Sept. 23.

Other meetings will be as follows: Hanapepe, Friday 24th, at 4:30 p. m. and at Makaweli at 7:30 the same evening; Kekaha at 4:30 and Waimea at 7:30 of Saturday the 25th; Kalaheo at 4:30 and Koloa at 7:30 on Monday the 27th; Wainiha at 4:00 and Hanalei at 7:30 Tuesday the 28th; Lihue, Wednesday 29th at 7:30; Anahola at 4:00 and Kilauea at 7:30 Thursday the 30th. The last meeting will be held at Kapaa on the evening of Friday, Oct. 1st.

Geo. Ewart, manager of Waimea Sugar Company, returned from Honolulu this morning.

H. W. Page, welfare worker at Kilauea, paid Lihue a visit today.

Joseph Sackney, expert automobile salesman, is going to town this afternoon.

AMERICAN LEGION BALL A SUCCESS

Did everybody have a good time? I'll say they did. One guest who thought his dancing days were over, said the party had taken fifteen years off his shoulders. There were many others who thought the same but did not have a chance to express themselves.

The American Legion should feel justly proud of a membership that could make such a party the success it most certainly was. And that all Kauai appreciates such an entertainment was evidenced by the fact that there were over three hundred admissions.

The Legion was instrumental in securing some of the finest dance music that has yet been heard on this island; and this in a great measure contributed to the success of the dance. "Paki" Smith certainly knows how to lead "I'll be" jazz band on the piano, and the new music and excellent time was appreciated by all.

New dance features were introduced during the evening by Fern and Morgan, floor managers, and they added pep to the party. Serpentine and snap frogs also added to the enjoyment and the way couples scrambled to get on the lucky number when a prize dance was announced, almost started several fights.

Several moonlight waltzes were played and a real-to-goodness moon "threw its romantic beams over the assembled multitude." A prize elimination waltz brought out a number of contestants, the first prize being won by Mr. and Mrs. Foster Horner.

The floor committee, composed of Miss Cheek, Miss Soule, Mrs. Thos. J. Soper, Mrs. Sam Carter, Mrs. A. Horner, Jr., Mr. A. C. Betts, Wm. W. Wright, Geo. S. Raymond, Charlie Fern and K. B. Morgan, kept the crowd on the jump all the time and made an effort to see that everyone danced and had a good time.

Comrade Sam Carter as "The Princess" gave a real "classy" exhibition of the hula for the benefit of the malahinis and this number was greatly enjoyed by all. Delicious punch and sandwiches were served during the evening and it was a tired, but happy, throng that joined in singing Aloha Oe as the clock struck midnight.

Philip L. Rice, commander of the local post, desires to express his thanks through the medium of this paper, to all who had a part in making the affair a success.

The current topic of discussion at present is based on the question, "How soon will the Legion give another party?"

DAVID KALAU DEAD FROM SPANISH FLU

David Kalau, police officer at Hanapepe, contracted Spanish Influenza three days ago and died yesterday morning. He was right in the midst of the last epidemic and was not bothered in the least. He was a good officer and citizen and will be greatly missed.

STOCK QUOTATIONS

The following are the closing quotations in the Honolulu Stock Exchange to-day:

| San Carlos Mill Co. | 42 1/2 |
| Waialua Ag. Co. | 37 1/2 |

Dr. L. L. Patterson and wife, of Kilauea, were Lihue visitors to-day.

SOCCER TO START OCTOBER 17TH

Last Thursday evening at Koloa Hall, the Kauai soccer league held its annual meeting. Mr. E. L. Damkroger, president of the league for the 1919-1920 season occupied the chair. There were only three clubs represented, Lihue, McBryde and Makaweli.

The main business of the evening was the election of officers for the coming season. After a spirited contest, Mr. Maurice G. Greenly, welfare superintendent for Koloa plantation, was elected president. Dr. L. C. Smith, vice-president, secretary, and C. G. Kuhlmann, treasurer.

As it was felt desirable to have more than three teams in the league, it was decided to allow until October 1st for other teams to enter. It is hoped that Kilauea and Makee plantations can enter teams.

As considerable interest was shown in soccer by the public last year, although the little of the whys and wherefores of the game was known, it was agreed that Mr. Damkroger should write several articles for the Garden Island, in order that the public might read and learn the game.

The directors of the league are to constitute a committee on schedules and appointment of referees. The names of the captains of the teams should be sent to the secretary as soon as possible, as the captains and officers of the league constitute the board of directors, and they are to meet at Koloa hall on the evening of October 1st.

League games are to start at 2:30 p. m., Honolulu time. At the meeting called for October 1st, the captains are requested to bring the official lists of players for each team.

The first game will be on Sunday, October 17th.

PARENTS' ASSN. HOLDS MEETING

The parent's association of the Kauai High and Grammar School held a meeting last Friday evening in the library rooms of Lihue Union church.

Chairman E. H. Broadbent stated that it was about time new officers were elected, and accordingly asked for nominations for chairman and secretary. Mrs. H. D. Sloggett and Mrs. Hobby were unanimously elected to these offices.

Principal McCluskey made a brief report regarding the present standing and future prospects of the school. Prof. Vaughan MacCaughy, was then introduced and gave an interesting talk on school affairs and conditions.

PASSENGERS ARRIVED

Passengers arriving by the Kinau this morning were: Geo. Ewart, E. Scharach, Miss M. Scharach, Mrs. J. Scharach, Jas. Nakapahu, K. Toma, Y. Sadayama, Mrs. C. Ahana and 4 children, Mrs. John Wood and 3 children, H. Podmore, Don Kinney, Chang T. Yau, H. W. Flint, Mrs. Flint, A. Honson, Mrs. A. B. Fernandez, Master A. Effinger, S. Kawabe, M. Kawatani, J. C. oung, Chong Pui Dong, W. M. Maddoups, W. Tin Chong, F. B. Stork, Sam F. Rosa, C. F. Rosa, Miss Ishida, Chas Nakamura, I. Horita, S. Miyamoto, K. Kaya, Mrs. C. M. Bis-singer, J. Viveiros Jr., F. F. Diehl, H. W. Flint, F. Hart, John Garcia Jr., S. Yokai, Master Hassard, C. H. Hassard, S. Oyama, Ching Kong, Pedro Dulie, Chong Shui On, Miss L. Acherly, W. H. Donnelly, W. L. Nylon.

READY TO START ON AHUKINI

The Ahukini Terminal & Railway Company, Limited have received the necessary permits from Washington relative to the proposed harbor and landing improvements at Ahukini, so that they can now go ahead on the same.

The preliminary plans involve a 400 foot breakwater running out from the point makai of the present landing, to be built of selected rock of approved size; the blocks in exposed places being not less than eight tons weight.

The wharf will be 500x70 feet parallel to the bluff on the mauka side of the present landing. It will be constructed of concrete piles, capped by a concrete floor. It will thus be open underneath to avoid the back-wash that would come from a solid wall face.

The wharf will be crowned by a warehouse 400x50 feet, with tracks running through, and modern conveyor equipment.

The dredged basin will be 31 acres in extent, about one-third the size of the Honolulu harbor, and about the same size as Kahului.

A 50-foot right of way is to be granted to the County connecting the landing with the present public road system. The location of this roadway will be by mutual agreement between the parties concerned. Passengers and baggage will be landed free of charge.

The whole work will be done under the supervision and inspection of the public works department, and at any time the improvements can be taken over by the Government upon payment of actual cost.

David Oleson, of Alexander & Baldwin, returned to town by the Kinau on Saturday, after a month on Kauai spent in making a valuation of the Hawaiian Sugar and McBryde properties for Federal taxation purposes.

Mrs. Wood, who has been visiting her daughter, Mrs. D. L. Larsen at Kilauea, left for Honolulu last Saturday on her way to Kansas to visit her other daughter, Mrs. McCall.

Manager D. L. Larsen, of Kilauea went to town by the Kinau Saturday.

Miss Harriet Hatch, daughter of Judge Hatch, spent a few days on Kauai last week as the guest of the Aubrey Robinsons. She returned to town on Saturday.

Mr. and Mrs. Lydgate went to town by the Kinau Saturday. Mr. Lydgate goes on to Hilo in connection with a water investigation for the Hawaiian Board. Incidentally he will represent Kauai at the Civic Convention. Mrs. Lydgate will return this week.

Mrs. Dora Isenberg departed for Honolulu this evening, from which place she will take passage for the mainland, where she intends to spend the winter for the benefit of her health. She will be accompanied by Miss Brewer.

W. D. McBryde left for Honolulu, last Saturday, from where he will take passage for a short trip to the Coast.

Alexander McBryde went to Honolulu Saturday. He will spend a few days there.

The Misses Rabb, who have been spending a few weeks with Mr. and Mrs. A. Horner, Jr., left by the Kinau last Saturday.

Mrs. W. N. Stewart is spending a few days in Town. She left last Saturday.

Manager B. D. Baldwin is paying a visit to the metropolis.

J. H. Midkiff and E. L. Damkroger left by the Kinau this evening on their way to Hilo to attend the Civic Convention.

Miss Ella Winter, who has been visiting her old home in Lihue, returned to Honolulu by the Kinau this evening.

ARMITAGE LIKES GARDEN ISLAND

Mr. George T. Armitage, of the Tourist Promotion Bureau, spent a couple of days on Kauai last week and is most enthusiastic about the scenic charm of the Island. Accompanied by his wife, they "did" the Waimea Canyon, Olokele, Kukuilono Park, etc., one day, and Hanalei, Haena and that side of the Island the next.

Mr. Armitage thinks that if the travelling public only knew of the charms and attractions of Kauai they would come in largely increased numbers, and that in spite of difficulties and inconveniences of transportation. He looks for a large increase of tourist travel in the near future, and will endeavor to send Kauai her share.

BIG ISLAND HAS 5,226 REGISTERED

According to the figures prepared by John S. Rickard, deputy clerk at Hilo, the Island of Hawaii has 5226 voters registered, says the Advertiser. Of this number 3669 are male and 1557 are female voters.

The male registration in East Hawaii, which includes the districts of Puna, South and North Hilo and Hamakua, has increased greatly, the present figures being 2265, as against 1374 for West Hawaii, which includes Kau, the two Konas and two Kohalas. Not many years ago each side of the Island had about 1500 registered voters. While East Hawaii's registration has increased, that of West Hawaii has decreased considerably. In East Hawaii 917 women were registered, as against 670 in West Hawaii.

The fourth precinct of the first representative district, otherwise known as Waiakea, is now the largest on the Big Island, with 645 males and 260 females registered. The fifth precinct of the same district, Hilo, comes next in number of voters, having 500 males and 202 females.

Prof. Vaughn MacCaughy, superintendent of public instruction, arrived on Kauai last Friday and will spend a week making a thorough inspection of the schools of the island. He is being accompanied on his rounds by Miss Elsie Wilcox, commissioner for Kauai, and Miss Bernice Hundley, supervising principal.

E. F. Wood, superintendent of the Kauai Telephonic Company, and family returned by the Lurline last Wednesday from the mainland where they have spent the past three months vacationing. Most of this time was spent in and around their old home in Oregon. Mr. Wood returns greatly improved in health.

A MODERN CRUSOE COUPLE

A very interesting and novel venture in a new field is that about to be undertaken by Colonel and Mrs. Meng, for some time residents of Lihue—a venture that will place them along side of Robinson Crusoe as monarchs of lonely islands, and necromancers of strange experiences.

The Palmyra islands lie about 900 miles to the south of us, are manifold in number and are strung over a distance of some 40 miles. They are low lying coral islets, most of them awash at high tide, varying in size from a few feet square to 8 or 10 acres. The largest is an atoll island, a circular reef of coral with a lagoon in the center.

Some 35 or 40 years ago the Pacific Navigation Company, of Honolulu, planted some 20,000 coconut trees there which are now in their prime, bearing profusely.

They are covered to the water's edge with a wilderness growth of coconuts, pandanus, naupaka, birds-nest fern, etc. The sea teems with fish and the land is alive with birds.

A "hui" of young men of an adventurous turn, has recently secured a lease of these islands for a term of five years, with a view to developing the resources there, and making a fortune for themselves. Col. Meng is one member of that hui, and he proposes to go down there with the necessary supplies and appliances to begin operations and see what can be made of the islands. The main endeavor at the start will be to manufacture copra in paying quantities. The coconuts are there in great abundance—on the trees in monster clusters, and on the ground singly but in quantity. The blow of an axe splits them open, and exposes to the hot tropic sun the meat which dries so that it curls out of the shell. It is then packed in bags for shipment. Copra is high now and ought to yield good money.

As there are absolutely no people on the islands they won't be bothered with their neighbors' chickens or their neighbors' children, and peace and quiet will be the normal condition of things, and nobody will question Mrs. Meng's good taste in dress or face powder. She will set the styles.

There are no houses on the islands, no streams, springs or even water holes. No red dirt, no rock, save coral, no upland, no roads, no stores, no moving pictures. All these things are to come—if at all.

Looking into the future the sanguine imagination pictures a thriving colony with comfortable homes, warehouses, recreation field, ice plant and cold storage, a cannery for fish, a supply steamer, etc. But for the present it will be a lone couple, fitting up a simple home, and then working like beavers making copra day in and day out. Once a quarter the supply schooner will visit the islands, bringing them the accumulation of mail, and a three month's stock of the necessities of life.

Day in and day out there will be the sea and the sky, the wind, the coconut trees and the salt spray—and once in a while, they say, the smoke of a passing steamer. It will be a life with a lot of romance in it—and a whole lot of something else not so delightful!

ESCAPED PRISONER CAUGHT

Charles Punohou, escaped county jail prisoner, has been captured by members of the local detective force. He had been at large more than two weeks. Punohou escaped from a gang working at the Kalihi school. He was acting as cook and slipped away at noon one day, just as the rest of the gang had started lunch.—Star-Bulletin.

Prof. MacCaughy Occupies Pulpit

Prof. Vaughan MacCaughy occupied the pulpit of Lihue Union church last Sunday morning, taking for his subject "Waialeale—a symbol of the Christian Life." The symbolic lessons drawn from the spectacle of Kauai's most beautiful mountain were aptly and impressively presented by the speaker. Waialeale was likened unto Christian character in the following respects: (1) The mountain has been built gradually, many lava flows, through long periods of time, having been superimposed one upon the other. Christian character is not developed in a day. (2) The mountain is scarred with its struggles with the elements. The Christian life is a struggle—it cannot be lived on a bed of roses. (3) Insidious, foreign pests have gotten into the vegetation on the mountain slopes and Hawaiian forests are doomed. Human character suffers from pests. (4) Waialeale presents different faces—some radiant with beauty, others sterile desert. Life has its deserts and its oases. (5) The mountain reaches up high and catches the clouds bringing the rain from the sea. (6) It is benevolent giving out streams of pure water, cooling air and fragrance of flowers. (7) It is a hard climb to the summit but worth all it costs. (8) From the mountain top one sees the shore line, the margin of the mountain; men and women have margins in their daily lives. Some, as spare time, may spend this margin of time profitably, others in trifling ways devoid of beauty.

Attendance at Sunday school was very gratifying last Sunday. A full force of teachers has again been secured and prospects are bright for a good year. An adult Bible class is a probability in the near future.

The social evening that has been planned for all the members and friends of the church for October 1st has been postponed one week. This pleasant occasion will then fall on October 8th, at the pastor's residence.

THE RESULTS OF REGISTRATION

The legally registered voters for the coming elections are as follows:

| | Men | Women |
|----------|-----|-------|
| Niihau | 33 | 32 |
| Kekaha | 45 | 25 |
| Waimea | 136 | 65 |
| Makaweli | 102 | 33 |
| Wahiawa | 112 | 24 |
| Koloa | 114 | 45 |
| Lihue | 319 | 135 |
| Kawaihau | 283 | 127 |
| Kilauea | 52 | 40 |
| Hanalei | 100 | 62 |

Total 1296 588
Total No. of Voters 1884

In the registration of women Kilauea makes the best showing, 43 per cent of local registrants. Hanalei comes next with 38 per cent; Kawaihau shows 31 per cent, Lihue 30 per cent, Waimea 2 per cent, Koloa 27 per cent, while Wahiawa makes the poorest showing with 17 per cent. General average, 30 per cent.

The registrar's office was open up to midnight of the 14th, and there was considerable activity up to 10:30 p.m. The last applicant appeared about 11:10. No women came after 8:30.

The register books are giant autograph albums, since every individual registrant must sign in the designated place. Needless to say it is an autographic album of much variety and a good deal of interest—a fertile field for the study of chirography and character. Here and there these autograph signatures are pasted in. When for any reason the registrant is unable to appear personally, he or she can make affidavit before a notary and forward the same to the registrar, together with the signature on a slip of paper. There are a good many of these applied signatures in the woman's book.

LIHUE SHIPS 1000 TONS OF SUGAR DIRECT TO COAST

The "Rosalie Mahoney" loaded 800 tons of Lihue sugar and 200 tons of Grove Farm sugar at Ahukini yesterday and got away late last night. She goes direct to San Francisco.

KONA HAS NEW REST HOUSE

The people of the islands who are traveling about will be pleased to learn that the Kona district of Hawaii has opened another spacious house for lodgers.

Situated at Kealahou, on the main highway from the volcano, high enough to be always cool, it offers a charming place to rest and recuperate from the grind and heat of the islands. It is called Ironwood Rest House, named for an avenue of trees which border the entrance. Convalescents from the hospitals will be most welcome, and will be given the best of attention.

The enterprise is under the direction of two nurses, namely Miss Mima Robinson and Miss Elsie M. Smith, both

The steamer Rosalie Mahoney, of the Chas. A. Nelson Company, arrived at Ahukini some time ago with a load of coal for the Lihue Plantation, which she discharged in about a week, then loaded with sugar for the Coast.

In the meantime the steam schooner Port Angeles arrived with a load of lumber for the same consignees, and had to "hang up" off the Nawiliwili light house waiting for the Rosalie to make room for her at Ahukini. She is now discharging her cargo and will take a load of sugar.

well known on the islands for their good work in the line of their profession.

HOLD YOUR LIBERTY BONDS

San Diego, Calif.—In resolutions fathered by Secretary Fred Bebergall, the California American Legion, in its Second Annual Convention here, makes a stirring appeal to the American people to hold their Liberty Bonds "sacred to the memory of those who spent their blood, their health and their lives without thought of return, that America might live and uphold her honor." The resolutions deplored the fact that since the signing of the Armistice thousands of Liberty Bond purchasers have "thrown their bonds upon the market heedlessly without proper consideration of their own interests or the welfare of our country" and requested local posts of the Legion in the Department of California to exert every effort to induce holders of the obligations of America to retain their Liberty Bonds and to purchase more in the open market. The resolutions ended with this quotation "that America may be served by a citizenry conscious of the trust of citizenship in it, quickened to its

responsibilities and jealous of its duties."

Secretary Bebergall also fathered a resolution, which the convention adopted supporting the Treasury Department's Thrift movement represented in the sales of Thrift and War Savings Stamps and Treasury Savings Certificates as an institution worthy of the confidence and support of all citizens, designed "to stimulate thrift and habits of economic stability so vital to virile, loyal and responsible American citizenship." The local California Posts of the Legion were asked in the resolutions to use the full weight of their influence in calling the citizens of America "back to ways of thrift and savings for the good of America."

BISHOP RESTARICK TO RESIGN HIS POSITION

Henry Bond Restarick, Episcopal bishop of the Diocese of Hawaii, has tendered his resignation owing to ill-health. Bishop Restarick has been in Honolulu nearly 20 years. He was the first bishop of the American church, succeeding the Church of England in these islands.

BIG DIVIDEND BY H. C. S. CO.

The Hawaiian Commercial and Sugar Company announces a dividend of 75 cents for October 8.

LETTERS FROM A CADET

Camp Perry, Aug. 28

Well it's all over, and the Western Department Rifle Team has won the National Team Match!

We defeated Camp Custer, our nearest rival by 39 points, and also defeated Annapolis, and the military Academy—West Point.

This gives us a big silver cup, to be kept by the Western Department and each member of the team gets a dandy medal.

We defeated every national guard R. O. T. C. and all but seven civilian teams. We defeated the closest national guard by 37 points, which isn't bad for the national guard isn't composed of Koreans and Hawaiians like it is at home.

Winning this match has taken a great load off our minds for the Western Dept. won last year and we had to keep the trophy. By the way you had better have a wheel-barrow at the wharf to carry away our medals!

Now that the good news is over I will start on the bad. Sometime between Monday and Wednesday, somebody came into our tent, and with a master-key opened up all our trunks and took \$45.00 from the tent. \$20 of which was mine! You have always cautioned me against carrying my money about with me, but to keep it locked up instead, I did that, but this time it didn't work. I have exactly \$3.00, which I won in this last match, for the major said he would give \$3.00 to the man that would win third place in the shooting. If it won't last I can borrow from Moir till I get home.

The Presidio, Cal.

We had a fine trip across the continent coming home by the Southern Pacific route which I like much better than the Santa Fe. We came through Illinois, Iowa, Wyoming, Utah, Nevada and California. We crossed the great Salt Lake in Utah, which is quite wonderful. It took the train an hour and a half to cross the Lake on the bridge which cost the S. P. people seven million dollars to build.

We stopped half an hour at Truckee which papa will remember because we passed through the town when we went to Lake Tahoe. The impression we got of it then was that every other door was a saloon, but it is quite different now,—quite a sober, prosperous, flourishing town.

We met a travelling lecturer on the train, a man by the name of Hall who did nothing but talk. We were wearing the medals which we had won at Perry, and he talked so much that we thought we would fill him up. This is how the conversation ran: "Going home Boys?" "Yes."

"Just back from the front I suppose?" "Oh, of course!"

"Those are some nice medals that you have there!" what is it? Croix de Guerre?"

"No. Distinguished cross of England!" "Wounded were you?"

"Yes, gassed at Bellecourt Woods."

"Well, well, that's interesting!" He went away with quite a profound respect for us,—and we were glad to get rid of him.

JOHN WISE GIVES ADVICE AS TO PROMOTION

Senator Wise told the Tourist Bureau, at a meeting, that a mistake was being made in confining outside promotion to San Francisco, and urged the promotion of tourist travel from Washington. The bureau deferred action.

KILAUEA GRINDS 7,200 TONS

Kilauea mill finished grinding last Friday with a total of 7,200 tons for the season. This is considerable over the estimate and represents the banner yield for this plantation.

WHEN WOMEN VOTE

We're hearing a good deal of talk on Kauai these days about what will come to pass now that the women of the nation are to have the ballot. In fact, just at this time it is an all-absorbing topic all over the United States.

One man's opinion is as good as another when it comes to predicting the outcome of this new reform. Both old-line parties claim it will help them. Each one claims to be the favorite of the new voter. So you can take your choice of either opinion. The women themselves, or the leaders who have worked hardest to bring about suffrage, claim they can poll ten million votes in the United States. There are others who declare they can't get more than five or ten out of every hundred women entitled to a vote to go to the polls and cast it. And you are at liberty to believe either side of this argument you want to. It's a political year, one filled with all kinds of wild-eyed rumors, and the man who can't find something to suit his own personal opinions is certainly hard to satisfy.

Personally, we are not venturing an opinion as to just what difference it is going to make. All we know is there are enough good men and good women, honest men and honest women of this country to keep it from going to the dogs. All we know is that the majority is generally right, as our history shows. And we can dismiss the much-talked-of problem of suffrage by saying that the women of this country may be depended on to do what they believe is best for the country. And whatever they do won't be far wrong when everything is summed up.

WHAT CAN BE DONE IN PAVING

An achievement of bygone years—it was laid more than a quarter of a century ago—a stretch of three blocks of pavement on Main Street, Visalia, California, stands out as an excellent guide for road-builders of today.

Away back in the fall of '94 Captain William Worswick, pioneer paving contractor—one of the oldest on the Pacific Coast—laid this pavement. Since then the world has seen many and stupendous changes, but the surface of Main Street, Visalia, has remained the same.

Season after season of heavy traffic during the hottest months, when the fruit-industry activities are at their height, has not visibly impaired it. The heat of twenty-five summers—and it grows warm in Visalia—has effected no deterioration; there is no sign of flowing, rolling or rutting. This summer heavy trucks and trailers, piled high with loads bound for the canneries and packing houses, pass and repass over it, as they have done for years, and it is the same Main Street as of old.

"I consider it a remarkable example of what can be done in paving," writes City Engineer L. H. Gadsby, of Visalia, and because of his interest and ours he dug up the following facts concerning it:

It is described in the old records as "a pavement consisting of an asphalt concrete foundation with an asphalt cement surface."

"It actually consists," writes Mr. Gadsby, "of

an asphaltic concrete base about six inches thick, with an asphalt wearing surface a good inch in thickness." Gravel hauled by team from the foothills some twenty miles away was used as an aggregate in the base, the sand was procured in this vicinity. Nothing has been spent for maintenance on this pavement, and it is in excellent condition today. We have no doubt but that this pavement is good for many future years service, in spite of the tremendous increase of traffic, in volume and especially in weight."

THANKS TO PROHIBITION

Honolulu police court records for the first six months for the years 1918 and 1920 show respectively 1940 and 1592 convictions—a falling off of 348, or 18 per cent. Arrests for drunkenness for these same years show 211 and 192, of a falling off of more than 50 per cent. Nineteen eighteen was a wet year, 1920 a dry one. In view of the fact that the population has greatly increased during these two years this is a significant showing.

The popular outcry that there is more booze drunk now than in the old days of license when it was cheap and easy to get—and also very deadly—does not seem to be upheld by these indications.

There is undoubtedly too much liquor being drunk, and it is no doubt most injurious in its effects. Nevertheless we are much better off under prohibition than under license, and no respectable community would go back to the old state of things.

However, the price of sugar hasn't yet come down to the point where both presidential candidates are claiming credit for it.

We heard a Waimea man say yesterday that it'll cost a good deal more to hold elections now that women can vote, as there'll have to be a mirror furnished for every voting booth.

While mother is learning the mysteries of politics, father can learn the mysteries of cooking.

"You might say if you wish," whispered a well-known Lihue man the other day, "that marriage is a silent partnership, with the man the silent partner."

Time brings wonderful changes. Nowadays the Kauai man who wears old clothes gets mad if you don't notice it.

Now that the women can vote we suppose it will keep all the men folks busy on election day sharpening lead pencils.

It is to be hoped that Lihue Plantation, when they get their big generating plant completed, will find it possible to reduce the present high rate for electricity, to a point where it can be used for cooking purposes. If they can make a rate of about four cents everybody in the district will install electric ranges.

LETTERS FROM THE PEOPLE

Editor Garden Island—I beg to call the attention of the agricultural and gardening public, as well as the county road authorities, to the rapidly spreading advent of that new and menacing pest known as Johnson Grass. It is an underground creeping, jointed grass which immediately settles down to business wherever it gets a start, and sets out to capture the earth. It makes an amazing growth in a very short time, and is exceedingly difficult to eradicate because of its deep and powerful rooting system, and because every joint grows.

What it can do, and how it can take possession of the road-sides can be seen within a stone's throw of the Garden Island establishment. The other day it was a very modest newcomer, hard to find among the other road-side weeds; now it dominates the landscape for a hundred feet or more, and four or five feet high. It is seeding—the wind and the birds will carry this seed all about, and Johnson grass will be a menacing invader in all directions.

They say it is good for stock, and if cows were the only consideration of life, that would be all right.

Those who know the most about it promptly eradicate it if possible, and at any rate try to keep it in check. It stands to reason that the best time to eradicate it is right now, and I trust that the road supervisor may be able to take the matter in hand.

SUBSCRIBER.

REP. M. R. AGUIAR SAYS IT IS A LIE

In answer to a rumor going around that he succeeded in tabling a bill which Representative Kaahu introduced at the last legislature providing for the formation of a waterworks in the Kapaa homesteads, Representative Aguiar, in a signed statement given to a representative of this paper, brands the rumor as a deliberate falsehood spread by his opponents to belittle his chances in the coming election. His signed statement is as follows:

"Anybody who says that Rep. S. K. Kaahu introduced a bill in the last legislature providing for a waterworks in the Kapaa homesteads, and that I had it tabled, is a deliberate liar.

Rep. S. K. Kaahu did not introduce any bill for a waterworks in the Kapaa homesteads, and I challenge any person to show where and when Rep. Kaahu did introduce a bill for a waterworks in the Kapaa homesteads.

"I did introduce two bills providing \$35,000 for water works in the Kapaa homesteads, but both failed to pass both houses on the ground that waterworks in any County are absolutely County matters, and not Territorial."

(Signed) M. R. AGUIAR, Jr.
Rep. 6th District.

Lihue School Opens With 715 Pupils

Lihue school opened the new term with an enrollment of 715 pupils and 20 teachers. The teaching staff is as follows: H. S. Simpson, principal; Miss Green, Grade 8; Mrs. Soper, Grade 7; Mrs. Hobby, Grade 6a; Miss Kaiwi, Grade 6b; Miss Trindel, Grade 5a; Mrs. Gomes, Grade 5b; Miss Brod, Grade 4a; Miss Ketcham, Grade 4b; Miss Jordan, Grade 3a; Mrs. Mesick, Grade 3b; Mrs. Wedemeyer, Grade 2a; Miss Sheldon, Grade 2b; Mrs. Lane, Grade 2c; Miss Thompson, Grade 1a; Miss Tseu, Grade 1b; Mrs. Ross, Grade 1c; Miss Akana, Grade 1d; Mrs. Bishaw, Grade 1e; Miss Turner, Grade 1f; Mrs. Fountain, Grade 1g.

McBryde's Trial Sept. 30

Trial of the case of Attorney Claudius McBryde, charged with an attempt to commit a statutory offense, has been set for September 30 in Judge J. T. De Bolt's division of the circuit court. Upon McBryde's request for an early trial, the case was originally set for Monday, Sept. 20, but last Thursday the date was changed, according to the Star-Bulletin. Judge De Bolt has declined to grant a motion by the city attorney's office to transfer the case to Judge J. J. Bank's court, where the matter came up recently in connection with McBryde's motion to have the amount of his bond, \$10,000, reduced.

McBryde has been confined to Oahu prison since being brought back from San Francisco, having been unable to furnish bond.

NEW BANK PASSES FIRST MILESTONE

Cashier Karle B. Morgan, of the Bank of Kauai, Limited, at Kapaa is to be congratulated upon the record that this new bank has made since opening business on July 1st. He reports total deposits at the close of business September 16th, of \$102,592.51. This is the first milestone in the bank's progress and is the result of much hard work on the part of the staff of the bank.

HORNER-PAINE

William Foster Horner and Florence E Paine were married by Cannon William Ault in Honolulu on Sept. 14, and they are now at home at Kapaa. Mr. Horner is manager of the Kealia branch of the Bank of Hawaii, and Miss Payne was a popular teacher in the Lihue public schools last year.

GOLDING-GAGLIARDO

Cyril Golding and Gladys Hortense Gagliardo were married by Rev. Father Stephen J. Ajencastre, pastor of the Catholic Church of the Sacred Heart, Honolulu, on Sept. 9, 1920. Mr. Golding is the veterinarian for the East side of Kauai, and Miss Gagliardo was a teacher at Kapaa last year. They will make their home at Kapaa.

LIHUE FINISHES GRINDING

Lihue mill finished grinding last Friday afternoon with a total output of 19,822.4283 tons, divided as follows: Lihue Plantation, 14,707.3 tons, Grove Farm Plantation, 3,671.3775 tons, Lihue Ranch, 1,443.7508 tons.

HOLT CATERPILLAR STATIONERY ENGINES

Due to the great success of the Holt Caterpillar engine for tractor work The Holt Manufacturing Co. now have on the market a stationary engine suitable for all classes of work. This engine operates on gasoline, distillate or kerosene. Standard sizes are 30, 45, 60 and 75 horse power.

If you know engines you will be pleased with the Holt.

"How long does it take, and What will it cost?"

are the two questions that are always asked the Chiropractor. The first cannot always be answered accurately, excepting to state that when the faulty vertebra is restored to its normal position, health will result.

For acute illness, and conditions resulting from a recent strain, shock or jar, very often one or two visits are sufficient. Chiropractors daily demonstrate that, in health matters, "An adjustment in time saves nine."

Where the subluxation (partial dislocation) of the vertebra is permitted to remain uncorrected for months, or years, the condition of the surrounding ligaments, muscles and cartilages become altered, and it takes the Chiropractor several months of regular, daily adjusting, in order to restore the condition permanently to normal.

The rule is: Acute cases yield very quickly, and chronic cases yield slowly but steadily until Health is restored.

The arrangement of my new offices provides capacity for over a hundred patients daily, and my wish is to place my services within the reach of everyone who needs Chiropractic. My office charges are \$2. for single adjustment; a card good for six visits, \$10.; or, in chronic cases, a card good for 24 visits, will be issued for \$35. My terms, to all, at these prices, are strictly cash in advance, for all cards issued. The cards are good until used.

Consultations and spinal analysis, free.

**A REMARKABLE PILGRIMAGE**

One of the most remarkable pilgrimages in history is now in progress and will reach its goal in the course of a few weeks. This is the pilgrimage of 750 Russian children from Siberia, round the rest of the world, the long way, to Russia, to find their parents and their homes.

Early in 1918 some 1,100 children were sent from Petrograd into Siberia because of the lack of food in European Russia. The expectation was that this expatriation would be only for the summer months. But the outbreak of Bolshevike hostilities in Siberia rendered it impossible for them to return, and ultimately exposed them to much danger and destitution.

Finally the American Red Cross learned of their deplorable condition, and secured from the Kolchak government the necessary authority to gather them up and take care of them, which they did, and were already to send them home by the Siberian railway when traffic was suspended because of hostilities along the line.

Meanwhile requests came from their parents for their speedy return; so the Red Cross commission decided on the sea route, which involved the circuit of the world. They chartered a Japanese freighter, the Yomei Maru, and started them out, leaving Vladivostok July 28th, 428 boys and 352 girls. The natural route would have been the Indian Ocean and the Suez Canal, but because of the long stretch of excessive summer heat by that route, it was given up in favor of that across the Pacific and through the Panama canal.

As the steamer was not so very large and not built for transport service, the accommodations were not ideal, but every effort was made to supplement them by special care and emergency relief. The best of artificial ventilation was secured by means of an electric blower that changed the air throughout the ship every six minutes, and a model hospital ministered to health. There was only one death throughout the trip which was occasioned by the bite of an insect in the canal zone.

The schooling of these children has not been interfered with by wars, rumors of wars or trans-Pacific voyages. While in Siberia school went on regularly and it continued just as regularly on the voyage around the world.

They met with a regular ovation in New York, where thousands of Russians thronged to their camp to see them and to welcome them as heroes.

Just about this time they will be arriving at Bordeaux, France, whence they will be forwarded as speedily as possible to their homes, so far as they have them. They will surely be heroes and heroines when they arrive there.

It was in connection with this enterprise that Miss Searight, formerly of Kauai high school was employed. She was gathering up the children and shepherding them to the central station at Vladivostok—as was set forth in the Garden Island a few weeks ago.

Y. M. C. A. NOTES

The recent visit of Mr. C. C. Robinson has been of practical benefit to the work of the Y. M. C. A. A number of excellent suggestions by this expert will be followed out as far as possible. The Christian Citizenship Training Program and the Employed Boys Brotherhood will be given special attention in particular groups.

Several young men who have seen service in the army or navy are availing themselves of the free scholarships allotted to Kauai by the educational service bureau of the Y. M. C. A. This is a splendid opportunity for ex-soldiers to receive, free of charge, correspondence courses that will fit them for better work in their chosen lines. Courses in agriculture, mechanic arts, electricity, business—in fact all the popular correspondence courses of study are available to the successful applicant. Application blanks for these free scholarships may be had from the Y secretaries or from Philip L. Rice. This offer will be good only until December 31, 1920.

Miller Tires
UNIFORM MILEAGE
GEARED TO THE ROAD

"We've created a body of master tire builders"

Uniform Tires An Established Fact

AFTER years of vain trials, Miller has finally given to the motor car world Uniform Tires. Not uniform in looks — all tires are that — but uniform in wear.

Miller tires once differed in mileage as others do. Now 99 in 100 Millers outrun standard guarantees.

The remarkable tire triumph has been achieved by riding Miller tires of "Human Variables."

Miller tire builders are world champions. Their personal efficiency is 96 per cent. The tires they build are 99 per cent excellent.

Try Millers once. You'll never trust to luck again.

A GHASTLY MOTOR ACCIDENT IN SUBURBS OF HONOLULU

One man was instantly killed and another was probably fatally injured when the motorcycle on which they were riding crashed into a milk wagon on Kapahulu road near Hobron avenue at 7:20 o'clock last Wednesday night. The tragedy was one of the most ghastly in the annals of motor accidents in Hawaii.

The man who died instantly was Manuel Moniz, a dairy milker. His companion, Joe Teixeira, also a milker, was found with the shaft of the milk wagon driven through his breast and projecting a foot in the back.

The milk wagon was driven by a Japanese, who was not to be found immediately after the accident. Little Hope Offered.

Moniz had his brains dashed out and scattered over the road. Teixeira was alive and sitting up, with the wagon shaft protruding through his back, when an Advertiser man happened on the scene. It was necessary for the ambulance attendants to pull the shaft out when they arrived.

At the hospital the opinion was expressed that Teixeira had no chance of living, which also was plainly apparent to those who found him immediately after the accident.

The same shaft that fattally wounded Teixeira killed the horse. The broken end penetrated the neck of the animal and killed it instantly.

Moniz had been milking cows at the home of a Mrs. Bell, Kaimuki. Teixeira milked at his father's dairy. He is married.—Advertiser.

CONVICT LABOR WILL BE SENT TO MAUI TO HELP HOMESTEADERS

Convict labor, which at present is at work on the Keeamoku road on Hawaii, an important link in the belt

road on that island, will be removed from the work, by order of Governor Charles J. McCarthy, as soon as present surfacing materials on hand are exhausted and will be sent to Maui, where pineapple homesteaders are in danger of going bankrupt unless a serviceable highway is provided them before the winter rains.

The decision of the Governor was reached on the ground that there is an available appropriation for letting a private contract immediately for the surfacing of the Hawaii road, while the Maui highway improvement must wait two years if it is done by private contract. The Governor had decided to withdraw the convicts at once from the Hawaii work, but as some of the asphalt has been delivered and the heat of the sun would melt and waste it, it was considered necessary to permit the convict labor to do the surfacing until the material on hand is exhausted.

Although the work done by the convicts on the Keeamoku road has been good, they have been a long time at it, according to the Governor.

"I can't say how long they've been on the job," he said. "I can only give you an idea by telling you that eucalyptus trees planted around the prison camp when the work began have grown into a tall grove, which can be seen for miles around."—Advertiser.

IMPOSSIBLE TO TRACE HAWAII TYPHOID CASES

Although a rigid investigation has been made, thus far it has been impossible to trace the first case of typhoid in the Hamakua district, according to Dr. F. E. Trotter, president of the board of health. Dr. J. T. Wayson, chief sanitarian, returned from Hawaii Saturday after investigating a typhoid outbreak at Kukuihaele.

It is believed, however, Doctor Trotter says, that the first infection was

taken to Hamakua by four children from Waianae, Oahu, whose mother died as a result of influenza. They visited a family at Bukuihaele, and shortly after typhoid appeared. The children were tested for typhoid and found to be negative.

Miss Eliza Weed, a nurse, has been sent to Hamakua. She will make numerous inspections and, with the assistance of physicians and other nurses, will attempt to prevent further spread of the disease.—Star-Bulletin.

FREEMAN CONVALESCING

Captain W. K. Freeman, commodore of the Inter-Island fleet and master of the Mauna Kea, is expected to return home soon from the Coast where he went to undergo an operation. Friends here have learned he is making satisfactory progress. Mrs. Freeman has already returned from the Coast, announcing her husband will be back within a month.—Advertiser.

THE JAMIESON HOME IS NEARING COMPLETION

The Jamieson home, now approaching completion, will be a notable addition to the homes of Lihue in point of comfort, convenience, roominess and artistic finish. It will be roughly 35x50 feet, with a beautiful big living room 18x26 feet, and three large bed rooms, besides the usual bath, closets, kitchen, porch, etc.

The living room is rendered doubly attractive by two large bay windows with large single light windows. There is also a pretty built-in sideboard, and a nice set of bookcases. The entrance porch will be very effective as well as convenient.

Set in the midst of the well kept grounds, and surrounded by fine trees, it will make a beautiful home.

A COMING EVENT

Wedding invitations are out for the marriage of Hans Peter Faye, Jr. to Charlotte E. Winslow at Conkers-on-Hudson, New York. The ceremony takes place on October 9th.

KAPAA SCHOOL NOTES

The enrollment at the beginning of this year's term shows a slight increase in the number of pupils. The school now has 675 pupils and 21 teachers, including the principal, Mr. Raymond, or an average of about 33 pupils to each teacher.

Two new rooms are being added to the main building, and when finished, the school will have eighteen class rooms as compared with sixteen the previous school year. This does not include the shop and kitchen, for which separate buildings have already been provided.

Mr. Vaughan MacCaughy, superintendent of public instruction, accompanied by Miss Elsie Wilcox, commissioner of public schools on Kauai, and Mr. Pugh, new vocational supervisor, paid an official visit to the school on Friday. Messrs. Warner and Robinson, Y. M. C. A. workers, the latter from New York, and the former from Lihue, called on Thursday and gave an interesting talk to the pupils.

The new teachers from the mainland this year include Miss R. Banks, from the largest state in the Union, Texas; Miss G. Remick and Miss Brown from Washington State, and Miss N. Riddle, from Sacramento, California. Miss Binkley, from the Quaker City, arrived to take up a position here just before school opened, but decided hurriedly that she didn't like Kauai and took the return steamer to Honolulu.

The Misses Chong, Saraji and Kimura, all of whom taught at the Hanalei school last year, have been transferred to Kapaa.

Miss Esther Rutherford of Honolulu, but more recently of Huleia school, is now the dominating factor in the Kapaa school kitchen.

The pupils of one of the classes are making a natural mistake just at present, but will soon get used to it. The reason for this is because Miss Carrie Bettencourt changed her name during the summer to Mrs. Carrie Freitas, and some of the pupils were not aware of the change, due to the fact that the deed was done in California.

SCHEDULE OF ATHLETICS FOR KAUAI PUBLIC SCHOOLS

Following is the schedule adopted by the Kauai Public School Athletic League for this year.

SERVICE THE KEYNOTE

Successful merchandising depends to a great extent on the service the merchant is able to give. In every line of business service plays an essential and important part, and discriminating buyers are insisting upon service.

What is meant by "SERVICE?" What is the public's idea of service? Does it mean that you get something for nothing?

Does the restaurant man that advertises service give you free soup and pie?

Does the undertaker mean that he will not charge for the hearse that takes you on your last "Joyride"—when problems such as these cease to worry you?

Does the clothier mean that when you step into his store that he will give you a free shine and press your clothes?

Decidedly not. They simply mean that they have the ability to serve you and the public know that is what is meant.

Isn't it strange that the same word means one thing in the mind of the average individual when he thinks of other lines of business

and another thing entirely when he thinks of the automobile business?

We cannot see any difference. Service is the ability to serve—courteously, honestly and in a friendly spirit—whether it be automobile service or any other kind. In particular as applied to the automobile business it means that they should be in a position to supply parts at fair prices and perform efficient and satisfactory repairs.

The automobile man who sells you poor service is a poor man to do business with. The automobile firm who sells you good service at fair prices is a good merchant and you should give him your support abundantly.

We are equipped to give service and we are constantly trying to improve. We do not consider a car sold until the customer is entirely satisfied that the car was delivered in perfect condition, and that he has value received. We see that the tires we sell deliver every mile that the manufacturer built into them. Our prices are as low as present costs will allow.

Oahuans Lose Right to Vote

(Continued from Page 1)

"passed the buck" up to Judge Heen. Here is an opinion rendered by the city attorney:

"Opinion 32—Electors—Applicants for registration cannot be registered as electors if applications are received after closing of general county register."

The letter accompanying the opinion follows:

"Your deputy, Mr. James K. Jarrett, has informed this office that you have on this day, received several applications supported by affidavits of persons desiring to register their names as electors in the general county register under the provisions of Section 65 of the Revised Laws of Hawaii of 1915 and, that your office is in doubt as to whether or not the names of these applicants should be registered.

"It is the opinion of this office that it is too late at this time to register the names of these applicants as electors inasmuch as it is provided by Section 68 of the Revised Laws of Hawaii of 1915 as amended by Section 4 of Act 99 of the Session Laws of 1919 that the general county register shall, at midnight preceding the third Wednesday before the primary election be closed to registration and remain closed until after such election.

"The fact that these applications were deposited in the mails to be transmitted to your office before the midnight stated has no bearing upon the question."

TENDERS FOR SCHOOL BUILDING

The Board of Supervisors of the County of Kauai, will receive bids up to ten o'clock of October 13th, 1920, for furnishing all labor, materials, tools and equipment necessary for the erection and completion of a ten class-room school building at Kalaheo, Kauai.

Plans and specifications are on file at (1) Office of Clerk of County of Kauai, Lihue; (2) Office of J. H. Craig, Architect, 1111 Alakea St., Honolulu, and may be obtained by prospective bidders upon the deposit of ten dollars.

R. F. MIDDLETON,
County Engineer.

D. K. HAYSELDEN
Lihue, Kauai, Aug. 17th.

ANOTHER PLANK IN MY PLATFORM REGARDING TAXES

Do you believe in economy? So do I? Economy in assessing taxes. Economy in spending them.

Less dead heads and bench warmers on the pay roll; more live wires attending strictly to business. Economy? Sure thing.

But! That kind of economy which leaves public buildings neglected, and public roads unrepaired;—which lets the kids run wild and unschooled until they become the community's goats; which allows cattle and horses in the public streets unrestrained;—which indifferently observes the continued use of intoxicating liquors with a laugh and a shrug of the shoulders;—that economy which permits these things because of a lack of funds or a lack of public spirit is an economy which closes the Spigot and opens wide the Bung! A wise taxation applied and efficiently expended should be the most cheerfully paid of all ones bills. Selah.

Yours faithfully,

L. C. JOHNNOT.

TO THE VOTERS OF KAUAI

I hereby announce that I will be a candidate for the Legislature on the Republican ticket and herewith request the support of the citizens of this County at the forthcoming Primaries.

J. von EKEKELA.
Kealia, Kauai, Aug. 30, 1920.

TO THE VOTERS OF KAUAI

I beg to announce that I will be a candidate for the House of Representatives on the Republican ticket, and request the support of the voters of the County of Kauai at the coming Primary election.

S. KELHINOI
Kapaa, Kauai.
