## THE VOLCANO.

We've wandered far, for many days,  
Where tropic visions charmed our  
gaze;  
The stately palms, the fruits, the  
flowers,  
The climbing vines for shaded bowers,  
Through high tree ferns, a genial  
shade,  
O'er lava beds our trail was laid.  
Fatigue intense, we reach the goal,  
Where visions grand entrance the  
soul.

At the Volcano's rim we pause,  
To ponder much on nature's laws.  
Both brush and pen here lose their  
power.  
For the scene changes every hour,  
While all around, both far and near,  
Columns of sulphur's steam appear,  
Hissing with heat from out the rocks  
(Fractured by thousand earthquake  
shocks),  
Swayed by the breeze, mingling with  
clouds,  
Which off the scene in gloom en-  
shrouds.

When breeze and sunshine clear the  
sky,  
Scenes strange and weird still greet  
the eye.  
A million crevices, some small,  
Some large and deep, engulfing all  
Within their reach, noble and slave,  
Thousands might find a common  
grave.

Depths hot in death, some breathing  
still  
Their sulphurous fumes, turn where  
you will,  
Cracks in bare lava, gaping wide,  
Others in steam their chasms hide;  
Others by ferns and flowers concealed,  
But to our weight they quickly yield.  
More wondrous still, three miles  
away

Volcanic fires maintain their sway:  
There Goddess Pele "holds the fort,"  
In waves of fire she holds her court.  
Pilgrims gather, from lava there,  
Silken locks of the Goddess's hair,  
And this a token given to all,  
We're grateful still for favors small.  
In steam and fire she hides her face,  
We do not long for her embrace.  
All through her kitchen then we  
roam,  
The Devil's too, they're not at home.

In second place the Devil's seen,  
For Pele reigns, yes, reigns supreme.  
"Our God should still a woman be,  
She must so much forgive, you see."

Far, far below a lava bed,  
Spreading for miles, still warm, but  
dead;

A mile and more by zigzag trail  
Down, down we go, but no hearts fail.  
And then two miles o'er lava bed,  
O'er waves and chasms dark we tread,  
To grim Kilauea's awful brink,  
We gaze a while, and back we shrink.

Nine weeks ago, grand and complete,  
The crater rose three hundred feet.  
Then sank five hundred feet below,  
Why, none but Pele o'er can know.  
Four weeks of rest, but miles away,  
Earth shook and trembled night and  
day.

Then Pele awakened from her sleep,  
Kindled her fires in chasms deep.  
Not all the time she shows her power,  
Sometimes exhibits, once an hour.  
In the vast chasm, near one side  
A cauldron held the fiery tide.

And when at rest, all dark and grim,  
Fire only showing round the rim;  
The lurid waves illumine the shore;  
And while the lake is being filled,  
A thin dark crust seems somewhat  
chilled.

The sea of fire is not concealed,  
Through thousand cracks it's still  
revealed,  
And while the flow still swells the tide,  
The cracks are curved, from side to  
side,

And checks and crossings we admire,  
It seemed a crazy quilt of fire.  
We gaze entranced, supreme delight,  
The world affords no grander sight,  
Until at length the floods subside,  
And then the torrents backward glide;  
And Pele's throat, still gaping wide,  
Welcomes again the fiery tide.

The first eruption seemed to say,  
Pele defies the God of Day,  
And grander far, two more at night,  
Flooded the heavens with lurid light.  
These scenes, engraved on heart and  
brain,  
Must, all through life, for aye remain.

Each with a lantern then retrace  
Our steps, and leave the wondrous  
place.

O'er lava beds, up weary heights,  
Oft looking back to Pele's lights,  
And when we reach the upper air,  
A midnight dinner waits us there.  
Volcano House gave welcome rest,  
Weary, we then were doubly blest,  
And all through life, volcanic gleams  
Will many times illumine our dreams.

As we look back for fifty years,  
A priestly bell of fire appears,  
Nearly all children God had given  
Were there consigned, a few for  
heaven.

The Christian hell now shrinks to  
Hades.  
Like Pele's fires, the glamor fades.  
But smouldering fires are burning  
there,  
At times belch forth in splendor rare;  
And the black rocks, they surely tell,  
Of a far-off but wondrous spell.

When many miles were all aglow,  
Beneath vast of lava flow,  
And hardest rocks on which we tread,  
Were then a liquid lava bed.

Time brings vast changes. Who can  
tell  
When this fine model of a hell,  
Shall cease to burn, and, cold in  
death,  
Its thousand throats, no sulphur's  
breath;

When Pele's fires have left her breast,  
May hell and hades sink to rest;  
Each buried deep by willing hands,  
Myths of heathen and christian lands.  
Millions of roses blooming here  
We hail the omen with a cheer,  
The Heaven of Love is drawing near,  
And hellish creeds must disappear.

But ere adieu to "Wonderland,"  
Another view sublimely grand,  
Four thousand feet above the strand,  
Four thousand feet we are fanned;  
Ten thousand feet still higher, there  
Are heights above the tropic air.  
On Mauna Loa's lofty crest  
The gleaming snowbanks find a rest.

But we would shun the depth, the  
height,  
A medium stratum brings delight,  
Cool, balmy air, we love the best,  
Days of pleasure and nights of rest.

Fair isles, adieu! We bear away,  
Rare charming memories of our stay.  
With pleasure we have listened long  
To natives' music and their song;  
Plaintive and sweet, the measures  
flow.

Like Spanish songs of long ago,  
The native feasts and dances old,  
They may be seen, but can't be told.  
A summer land of verdure rare,  
No frost, but only balmy air.  
Tempered by breezes from the ocean,  
Its memory ever wakes emotion.

A genial race, no angry word  
In the past month has once been  
heard.  
Kind words and smiles we always  
meet  
On boats, in houses, on the street.

A paradise "it might have been,"  
Yes, and it yet may be, and then,  
When our good ship speeds o'er the  
sea,  
Our yearning thoughts will turn to  
thee;

A stranger, we have felt your spell,  
We bid you now a kind farewell.

## Barry's Tricopherous

Established 1891.

Infallible for removing, invigorating and  
beautifying the hair, removing scurf, dandruff,  
and all affections of the scalp, and curing eruptions  
of the skin, diseases of the glands, muscles  
and integuments, and relieving stings, cuts,  
scalds, sprains, etc. The activity between the  
joints, which constitute the skin and the  
hair which draws its sustenance from this triple  
envelope is very close. All diseases of the hair  
originate in the skin of the head. If the pores  
of the scalp are clogged, or if the blood and other  
fluids do not circulate freely through the small  
vessels which feed the roots with moisture and  
impart life to the fibres, the result is scurf,  
dandruff, shedding of the hair, grayness, dryness  
and hardness of the integuments, and entire bald-  
ness, as the case may be. Stimulate the skin to  
beneficial action with Barry's Tricopherous,  
and the torpid vessels, recovering their  
activity, will annihilate the disease. In all  
affections of the skin and of the integuments  
of muscles and integuments the process and the  
effect are the same. It is upon the skin, the  
muscular fibre, and the glands that Barry's  
Tricopherous has its specific action, and in  
all affections and injuries of these organs it  
is a sovereign remedy.

Beware of Counterfeits.

From the Greatest Living Prima Donna,  
Madame Adelina Patti-Nicola,  
Montevideo, July 20th, 1893.

My dear Sir:—I take pleasure in announcing to  
you that Barry's Tricopherous is one of the  
few articles always to be found on my dressing  
case. In my conception it is one of the best of  
toilet articles, and for the hair it is not only de-  
licious, but refreshing and invigorating. I  
recommend it without reserve.

Daily Bulletin

Pledged to neither Sect nor Party,  
But established for the benefit of all.

TUESDAY, MAY 19, 1891.

"Uncle Zeke" already seems as familiar to the public as did the greatest political failure produced by the Reform party, nearly a year ago. For the personality of the "Uncle Zeke" political failure there is no need for citizens to refer to the Report of the Finance Committee of the last Legislature. The "political failure" and "Uncle Zeke" are doubtless one and the same person.

The report of the London Mission Hospital in the City of Peking, is, according to the Japan Gazette, in press. The report in question refers especially to opium smokers. The report states that 138 persons were admitted for treatment during the year 1889-90. It appears from an abstract of the report printed in the above journal that among opium smokers, shopkeepers rank first, artisans rank second and soldiers, third.

The report adds that out of 131 cases noted fifty-one smoked twice daily, sixty-two thrice daily and eighteen more than three times a day. In summing up the Hospital authorities state that forty-nine entered the hospital, to be cured, owing to the loss of time involved; forty, owing to want of money to procure opium; twenty-three because they felt their health was injuriously affected; thirteen from a dislike of the opium habit; four from direct Christian influence; three from direct home influence, and one from the difficulty of finding employment. These figures are certainly significant.

# LOCAL & GENERAL NEWS.

Mr. W. M. Giffard is laid aside with the prevailing indisposition.

Do not fail to hear the Kamehameha School chorists at the Y. M. C. A. this evening.

The Marshal is taking testimony regarding the Kamohili murder at his office this afternoon.

The mail sent off by the Zealandia amounted to 3274 letters and 1874 papers—not small for a day and a half.

Twenty-five Portuguese left on the Zealandia, bound for their native isles—Cape Verde, Azores and Madeira all being represented.

The grip being very prevalent and fatal among Hawaiians all over the group, the Board of Health has had a notice inserted in the native papers regarding the symptoms and treatment of the malady.

Mr. C. HEDEMANN has complained to the Marshal about random shooting that goes on in the still night near the corner of Beretania and Punchbowl streets. Complainant handed in samples of duck shot picked up on his premises. The Marshal has taken steps to stop the dangerous practice and have the reckless offenders punished.

This being Whit-Tuesday, the pupils of St. Andrew's Priory are celebrating the day with a picnic. Accompanied by Sisters Beatrice and Albertina and several friends of the school, the children went out in a special tram car at 9 o'clock to the Waikiki residence of Mr. T. Rain Walker, where the picnic is being held. They will return at five o'clock.

The Mystic Shriners were the principal attraction at the departure of the steamer Zealandia today, their "mystic salams" to their friends on shore, accompanied by tokens of love in the form of flowers, being quite interesting. They were one and all enshrined in the tropical foliage of the Islands, viz, evergreens, roses, etc., and made a gay appearance.

MARSHAL WILSON interviewed Hon. J. E. Bush, owner of Ka Leo newspaper, this morning, regarding an article charging the Queen and the Marshal with complicity in the Wilcox disturbance of 1889. Mr. Bush was constrained to divulge the author of the statements as being Hon. R. W. Wilcox, and the literary artist who whipped them into shape as Mr. D. L. Huntsman, barrister.

THERE was a hue and cry raised on King street near Maunakea at 10 o'clock last night, followed by the arrest of a native boy whom a long procession of Chinese and natives escorted to the station. Some Chinese alleged that they had seen the boy go upstairs in a house near Mr. John F. Colburn's building, break open a door and steal money, the amount of which they did not know. The lad was detained on the charge of burglary.

### SCOTTISH THISTLE CLUB.

There was an enthusiastic meeting of the Scottish Thistle Club last night. The laws were adopted subject to verbal revision. On the report of a select committee, it was decided to rent club rooms in the old Gazette block, Merchant street. A donation promised to the organizers at the start was received from Mr. Walter Hill and accepted with loud applause.

Business being despatched, "good of the club" brought forward an entertaining, though impromptu program. Mr. Pollok played merrily on divers musical instruments. Mr. Eadie furnished violin selections. The sword dance was performed in good style by Mr. Douglas. Mr. Lumsden danced the highland fling and sang a song. A Scotch reel was danced with glee by several members. Songs were given by Messrs. Scott, Sanderman, Gowie and Box. "Auld Lang Syne" by the company closed the merry meeting before 10 o'clock.

### THE QUEEN'S TOUR.

The Queen and party traveled from Kau to Hokena by the steamer W. G. Hall, arriving at noon Sunday. Her Majesty was accorded a great popular reception, with arches and all the rest. She was going to Kawaia, thence by way of Keauhou to Kailua. The royal party will take the W. G. Hall at Kailua for Maiala Bay on the next return trip of that steamer. There was great disappointment of the party at the non-arrival of the steamer Waimanalo with supplies.

# BARK S. C. ALLEN SEIZED.

Put in Charge of the Marshal by Order of the Chief Justice for Smuggling.

Chief Justice Judd yesterday afternoon issued a writ of attachment, on complaint of Deputy Attorney-General Creighton libelling the Hawaiian bark S. C. Allen for smuggling opium. Deputy Marshal Mehrtens served the writ, and the vessel is now in the custody of the Marshal.

A preliminary hearing of the case will probably be held tomorrow. The proceedings thus taken by the Government were at the instance of Collector-General Cleghorn, on account of sixty tins of opium having been found concealed in the permanent structure of the vessel. According to the law—a futile attempt to change which in this respect was made last session of the Legislature—opium found concealed in a secret place constructed in a vessel renders the vessel liable for smuggling. Under this provision the bark C. D. Bryant was libelled and condemned two years ago, but the matter was compromised by the Government and the owners for a large amount.

# SUDDEN DEATH OF MR. GREENWELL.

Mr. H. N. Greenwell, a prominent resident of Kona, Hawaii, for many years, died suddenly on the steamer W. G. Hall bound for Honolulu at Kailua yesterday morning. Some of the passengers were ashore and Mr. Greenwell was at breakfast, when he fell from his chair and almost instantly expired. He had gone aboard at Keauhou, the nearest landing to Kawaia, where he lived, and the steamer returning to Keauhou landed his body there.

The late Mr. Greenwell was a Captain of the British army. He married in the West Indies a sister of Mr. Robert Hall, now manager of the Niulii plantation in Kohala. Coming to these Islands many years ago, he is remembered by old residents as a member of the firm of Heap & Greenwell, doing business on Fort street in the early fifties. For many years until two or three months ago, Mr. Greenwell was School Agent in Kona for the Board of Education. He was also Collector of Customs at the port of Kealekua. A brother of Mr. Greenwell achieved considerable fame as an author in England.

The lamented gentleman had acquired considerable wealth. He was highly esteemed for his social culture and qualities. His age was 67 years and he has left a widow and ten children—six sons and four daughters—to mourn his loss. One daughter is staying with Rev. Alexander Mackintosh's family, attending school in town.

# DEATH OF CAPT. BATES.

Captain Walter F. Bates died at the Queen's Hospital at noon today. He was one of the most familiar figures among the seafarers at this port for many years. Coming here early in the sixties as a sailor on the bark Ethan Allen, Capt. Snow, he was put in command of Mr. Sorenson's schooner Wilamou running to Kona. Thence he went into the service of Wilder's Steamship Company, being master in turn of the steamers Mokoli and Lehua. Leaving that service he spent some time on the Honolulu police force. He left the police to take employment from the Inter-Island Steam Navigation Company, and was successively master of the steamers James Makee, Iwalani, Planter and W. G. Hall. Captain Bates was one of the most proficient coasting pilots on the islands. He was personally well liked by all who knew him. As an old-time acquaintance of his says, "He was always pleasant and genial, the same to everybody, whether he was before the mast or on the bridge." Capt. Bates belonged to Cohasset, Massachusetts, and was 38 years of age. He was a member of Hawaiian Lodge, F. & A. M. The funeral will take place from the rooms of that lodge at 10 o'clock tomorrow.

# ROBERT KALANIPPOO DEAD.

Robert Kalanipoo, who went to Kona on the latest trip but one of the W. G. Hall, died at Kailua, South Kona, Friday last. The previous Sunday he was thrown from a horse, the second accident of the kind to him in a short time. Wednesday he was taken with the grip and, notwithstanding the attentions of Dr. Lindley, died Friday as stated. Kalanipoo went to Kona, as reported in this paper, to supervise Government road-making in the district, he having been some years connected with the Bureau of Roads and Bridges at Honolulu. He was a popular native, probably a few years over thirty in age.

# Muddy Water!

When water is too filthy to wash in what effect must it have upon the system when taken into the stomach? The condition of the water in Honolulu is so bad that it has attracted the attention of the Board of Health and some of the members of that body are of the opinion that the only remedy for it is to use filters. We believe the Gate City Stone Filter sold by us to be the best in the market and the only one to be relied upon. Call at our store and see them in use.

# "AERMOTOROLOGY."

The man who wants a windmill usually looks around and investigates the statements made by the dealers in the respective mills. We are pleased to recommend purchasers to parties who have Aermotors on their plantations because we know what the result will be. Thus far we have not had a bad report from any of the mills we have sold here; in every instance we have received the same satisfactory expressions. When we procured the Agency of the Aermotors we did not do so blindly; we felt that if the machines were good enough for the officials of the Union Pacific Railway they were good enough for us. We saw hundreds of places on the line of that road where wooden mills were being replaced by the Aermotor. We thought it a good indication of which way the wind was blowing and arranged accordingly. There is not a windmill in existence that will do the same amount of work, last as long, or that can be bought so cheap as the Aermotor. It is ridiculous to say they will not last! Who ever saw piece of steel that would not outlast wood in any climate?

The Aermotor has so many advantages over other windmills that it would require all the space in this paper to set forth half of them and as new features are cropping up almost every day we can hardly keep up with them even in the many changes in our "ads." We have concluded then to condense all the good features of the Aermotors and express them in four words. "They are the best," and anyone who has seen an Aermotor at work will agree with us. There are so many good uses to which the Aermotors may be put that they are becoming a necessity on every ranch and plantation. In a few months the question will not be "how many acres of cane have you," or "how many head of stock do you own" but, "Have you an Aermotor?" and the probability is that the answer will be in the affirmative. It's a pretty sure sign that the Aermotors give satisfaction when persons return to our store and buy a second one for their own use and for a second one for their neighbor.

The Hawaiian Hardware Company, Sole Agents, Fort street, opposite Spreckels' Block.

"Is this the best?" Is a question often asked, when medicine is wanted. The following are a few of the medicines of known reliability, sold by Benson, Smith & Co., druggists, of this place. They have many other excellent medicines, but these are worthy of especial mention:

CHAMBERLAIN'S COUGH REMEDY, famous for its cures of severe colds, and as a preventive for croup. Price 50 cents per bottle.

CHAMBERLAIN'S PAIN BALM, a general family liniment and especially valuable for rheumatism. Price 50 cents per bottle.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHEA REMEDY, the most reliable known medicine for bowel complaints. It is especially prized by persons subject to colic. It has cured many cases of chronic diarrhoea. Price 25 and 50 cents per bottle.

ST. PATRICK'S PILLS, for disorders of the liver and bowels. A vigorous but gentle physic that cleanses and renovates the whole system. Price 25 cents per box.

CHAMBERLAIN'S EYE AND SKIN OINTMENT. For tetter, salt-rheum, scald-head, eczema and chronic sore eyes. Price 25 cents per box.

These remedies are for sale by all dealers in medicine. Benson, Smith & Co., Agents.

# A NEW INVOICE OF CYCLONE WINDMILLS JUST RECEIVED.

A large number of Cyclone Windmills are in use in these islands, and have given invariable satisfaction. People who are using them will tell what they do. They are rapidly displacing cheap steel mills on the coast because the latter "will not do the work required of an ordinary mill."

The Cyclones are the strongest—are perfect self-regulators—the most durable and have more wind surface and will run in a lighter breeze. They will do more work in the same wind and are the simplest, they have less friction than any other mill and require no care, except to keep them oiled. They are made of the best materials.

These mills are for sale by the Pacific Hardware Co., Ltd., Honolulu.
