PRICE FIVE CENTS.

AN AWFUL SITUATION

Girl Escapes Death—A Scheme for Road Graft.

MAUI, March 1.—Last Saturday morning, Alexa von Tempky, the young daughter of Mrs. Dora von Tempky of Makawao, met with a serious accident, while gathering ferns on the side of a gulch in company with her brother. A boulder of several tons weight on which she was standing became dislodged and rolled with her, finally pinioning both her feet. It required the combined efforts of six men to remove the huge stone.

Dr. W. F. McConkey later discovered that two ankle bones and a leg bone of one leg were broken and the other limb badly bruised.

ANOTHER ACCIDENT.

Wednesday evening Hugh Reid of Grove Ranch, a lad of 14 years, was thrown from a horse, rendered insensible and quite badly injured. Dr. McConkey was summoned.

GRAFT CONSPIRACY.

The Maui board of Supervisors will meet next Wednesday in its spacious new office at Wailuku.

An important question as to a change in management of county roads will probably be discussed. In the past the county engineer has acted both as engineer and general road superintendent at a salary of \$200 a month. This arrangement has been a satisfactory one so far as can be judged by the good roads of Central Maui.

The incumbent is an expert engineer as well as the possessor of much experience in road-building.

As substitutes, two plans are being urged—one, the appointment of a road superintendent at \$150 a month, and the other, that each supervisor shall have full charge of all road work in his district, including the appointment of road lunas, etc.

In regard to the first plan, it will be most difficult to find a competent man and, even if one is found, an engineer must also be employed at times, so the expense will probably be greater than at present.

In regard to the second plan—it would be a bad precedent to establish. At the present moment with good supervisors it might answer, but if unscrupulous politicians should be elected to office, as is quite possible, the county money could easily be devoted to graft in a thousand ways.

"Let well enough alone" seems to be the watchword for the present instance.

NOTES.

Jack Frost this year has been as far down Haleakala's slope as Olinda, causing the grass to wither and turn brown in places.

Kahului Store celebrated Washington's birthday by taking a holiday and flying the stars and stripes from its lofty staff.

On Sunday the congregation at the Church of the Good Shepherd of Wailuku was a large one, every seat being occupied. The many friends of Rev. Wm. Ault were glad to welcome him back, this being the first Sunday he has officiated for some time past owing to serious illness in his family.

Last Saturday night a meeting of the Maui Lodge of freemasons was held at the Kahului temple.

Automobiles are becoming popular on Maui, seven being seen recently standing near the Paia plantation office and store at one time.

The island has been infested with mosquitoes without number during the past week.

The new Kahului church is painted a plum-color with white trimmings and a green roof.

Inspector of schools, J. C. Davis, has been visiting schools in Makawao district this past week and next week will depart for Hana.

It is rumored that Geo. Henderson, manager of the Hygeia Company, is a party to the third engagement recently announced on Maui. The young lady mentioned is a former resident of Puunene.

THE WEATHER.

Cool and delightful. Quite good rains during Tuesday in localities.

MANY GRAND OLD MEN

How Venerable Senators Stand Washington Winter.

(Mail Special to the Advertiser.)

WASHINGTON, D. C., February 16.—President Roosevelt's colts in the Executive Departments are wintering well. He has been appointing young men mostly to the important offices. They do not mind the unusually severe Washington weather. During chilling storms they are prancing around as lively as the members of the tennis cabinet have to do when the snow is off the courts at the rear of the White House offices and battles with raquets are in order. The grip, which first swept the adjacent city of Baltimore so that at one time one-fifth of all the people there were down and in bed and which subsequently made its ravages felt in Washington on a large scale, has had no terrors for these young bloods. The work in the executive departments has been proceeding at full tilt in all kinds of weather.

It has been otherwise up on Capitol Hill. Young men have rear seats there. Old men rule the Senate and, it might be said, also the House of Representatives. And these old men have had a hard time with the Washington weather, that brings grip, severe colds and pneumonia. They have been absent from the sessions of Senate and House a great deal and the work of both branches has suffered to some extent because of these absences.

Speaker Cannon, almost seventy-one years old, is only out of his house after an attack of grip. He returned to the Capitol very weak in the knees and having no energy for work. Col. "Pete" Hepburn, of Iowa, seventy-three years old, the ablest debater in Congress, perhaps, and chairman of an important committee, has been away much of the session because of colds and grip. Gen. Grosvenor, of Ohio, almost seventy-four, has stood the rigors of the present winter better than any colleagues of his years. There are few other septuagenarians in the House. The other leaders are in middle life or only along in the three score class.

The Senate's old men have had a lot of illness because of the hard winter. Senator Teller, of Colorado, now almost seventy-seven years of age, is still ill at his apartments and has not been in his seat for two weeks. He is an aggressive figure on the Democratic side of the chamber. Senator Pettus of Alabama, almost 86, has been ill much of the winter. He is the Nestor of the Senate. His colleague, Senator Morgan, almost 83, is now quite ill.

On the Republican side Senator Allison of Iowa, now almost 78, is in feeble health. When the cold winds blow or the weather is at all inclement he keeps within his hotel and even on the most sunny days spends only a few hours at the Capitol. Senator Proctor of Vermont, who will be 76 years old June 1 next, has been laid up with colds considerably, but was able to get out to handle the Agricultural Appropriation Bill that comes before the committee of which he is chairman.

Senator Frye of Maine, who is nearing his seventy-sixth milestone, has been in good health, but he is nevertheless very careful and does little legislative work, except what is imperative. Perhaps his long life in the hardy Maine climate is responsible for his immunity in Washington this winter. William Pinkney Whyte, Senator from Maryland, and 82 years old, has stood the Washington winters better than any other octogenarian. He is a new Senator, who succeeded the late Arthur P. Gorman, although Mr. Whyte had one term in the Senate thirty years ago.

Senator Cullom of Illinois, now 77, has been in feeble health most of the winter, but has not missed many days at the Capitol.

Most other Senators who carry quite a burden of legislation are in the 60s, except Senator Hale of Maine, who will soon be 71. He does more work than any other Senator, and does it as easily as though he were but 60. He is rarely absent from the Capitol or misses doing a big day's work. (Continued on Page Four.)

METHODISTS' GREAT DAY

Bishop Cranston's Able Sermon—Growth Past Year.

The First Methodist Episcopal church was filled with a large and attentive audience yesterday morning on the occasion of Bishop Cranston's sermon at the closing of the sessions of the annual Mission Conference recently held. The Bishop's sermon took fifty minutes in its delivery and held the great congregation in the closest attention from the first to the last.

The whole address comprised a solid, profound argument regarding the atonement or sacrificial offering of Christ and about the argument the great orator wove in beautiful, inspiring language four pictures, grouped in one, all illustrative of the deep meaning of the Cross and drawn from Biblical scenes in the life of Abraham and others. No mere outline can in any measure convey a full and close idea of this great sermon of a great preacher, and the impression made will never be forgotten by those who were privileged to hear him. The Bishop is to be heard again in the city several times before leaving for the Orient on the 14th inst. He speaks at the Ministerial Union this morning at 10:30, on Wednesday evening in the Japanese church, on River street, and Sabbath morning in the Methodist church. Honolulu is greatly favored in the visit of this distinguished Bishop, who is a warm personal friend of President Roosevelt, who invariably goes to hear him preach when he occasionally occupies a pulpit in one of the largest churches of Washington.

At the close of the Bishop's sermon, Rev. John W. Wadman, superintendent of the Hawaiian Mission of the M. E. Church, read the appointments of the 18 or 20 Japanese and Korean evangelists employed by him on the different islands. The one new appointment among the American workers to that of Miss Dean, who came with the Bishop for work among the Japanese women in this city. Miss Dean has spent some years in Japan and speaks the language fluently. She will be a great acquisition to the work. Mr. Wadman then read a brief statistical report covering the work of the year just closed as follows:

Number of baptisms for the year	625
Increase over last year	54
Total number of church edifices	17
Increase	5
Total number of church members	994
Increase	184
Total number of Sunday schools	28
Increase	5
Total number of scholars in same	1,362
Increase	182
Value of churches and schools	\$44,260
Increase	6,750
Number of parsonages, same as last year	6
Total number of Mission Stations	52
Increase	8
Total number of evangelists and teachers	19
Increase	3

SUNRISE SERVICE.

A praise service was held on Punchbowl yesterday morning at sunrise, which was attended by all the members of the Methodist Conference and conducted by John M. Martin. C. H. Dickey and other friends rendered valuable assistance in making the meeting a great success and a season of prayer and praise never to be forgotten.

PROMOTION WORK HAS GOOD RESULT

H. P. Wood, secretary of the Hawaii Promotion Committee, received last week the following self-explanatory letter from Robert Wallace, of Kealakekua, Hawaii, which evidences a part of the work the organization is accomplishing. The letter says:

"Kealakekua, Hawaii, Feb. 26, '07. "My Dear Mr. Wood: Some time ago I had a letter from the American Mercantile Company, Tacoma, saying you had given them my address and asking for samples and prices of coffee. The first outcome of your kind attention is the sale of over 200 bags and

MANY HEAR HIS WORDS

Large Concourses Hear Dean Bosworth Preach.

"Is a man intellectually justified in praying?" was Dr. Bosworth's subject in Central Union church yesterday morning. The building was crowded with a notable audience. The speaker began and continued in the quiet conversational tone, so attractive to his hearers of the past few days, while the people listened with the intense eagerness characteristic of all the Dean's audiences wherever he goes. He spoke just thirty minutes and left scores asking "Why didn't he go on?" The line of thought may be summarized as follows:

Matthew 7:11—"If ye then, being evil, know how to give good gifts unto your children, how much more shall your Father who is in heaven give good things to them that ask him?" These are the words of a great specialist in the spiritual realm spoken out of his own experience. A woman on the Syrian hills once looked into His face and said, "Sir, I know that, whatsoever Thou shalt ask of God, God will give it Thee." This man who could make this impression voiced His life experience in these words, and, however startling they may be, they are worthy of consideration.

If a young man should say to you in New York city, "Speak into this tube and someone in London standing just inside St. Paul's cathedral will hear what you say," you would hesitate to credit the statement because such a thing has as yet never been done. But if he should add, "Edison has so perfected the telephone as to make it possible to talk through the cable across the ocean," you would listen because of the authority of the great specialist.

These words of Jesus are built upon the theory that God is a Heavenly Father always present with us. They are a voice, "O heart, speak to the heart that made thee." Prayer is an appeal of the heart made to the Great Heart that made it. Prayer is far more than mere asking for definite things. Prayer is the intercourse of the human spirit with the Great Spirit that made it. We do violence to Jesus when we view prayer as an appeal to God for specific things, for then we reduce God to a mere convenience. No man can overestimate the great value to the individual of reaching out to the Father. Sometimes your boy comes to your room and you ask "What do you want, my boy?" "Nothing, I only want to be with you." The best prayer is wanting nothing but to be with God.

Yet in the teaching of Jesus prayer includes asking for good things. Here we come upon the great question, "Do things ever happen in answer to prayer that otherwise would never happen?" To many men prayer is esthetically beautiful in children, an ornamental bit of ritual at the opening of a religious service or in some sharp crisis a cry of the heart for which apology must thereafter be made to the intellect. If this be all, prayer will cease or degenerate into a mere soliloquy. Hence we must look fairly in the face this second view of prayer, that it includes asking for good things.

What troubles us is the increasing appreciation of the relation of cause and effect in this universe of changeless law. We have the greatest reason for gratitude that there is a fixed order of nature. It is essentially good that no man in keen distress is able by prayer to shorten the duration of this day by two hours so that he may abridge his suffering. If it were absolutely uncertain whether the temperature in this island six months from now would be 40 deg. below zero or 100 deg. above, civilization would be impossible. There are certain things which children know they cannot get by asking.

But the more a man learns about the forces of nature the more he is able to do not in spite of them but because I have no doubt they will be good customers in the future. With aloha nui,

"Believe me, yours sincerely,
ROBERT WALLACE.

HILL'S GREAT LINER DAKOTA ON THE ROCKS

Passengers Safe—Hopes of Salvage—Subsidy Bill Killed at Midnight—Archie Roosevelt Has Diphtheria.

(Associated Press Cablegrams.)

TOKIO, March 4.—The Great Northern Steamship Dakota is aground on the rocks in Tokio bay, about forty miles from Yokohama. The vessel is leaking. All the passengers and the mail have been removed from the stranded steamship. The agents report themselves hopeful of saving her.

The steamship Dakota is one of the largest steamships on the Pacific, being 13,305 tons, as compared with the Manchuria, of 8750 tons, and was one of the Great Northern line expected to make a port of call of Honolulu within a short time. It is probable that the grounding of the mammoth liner has been due to fog, the portion of the Japanese coast where she is aground being especially dangerous on that account.

CONGRESS BEGINS LAST DAY'S WORK AT MIDNIGHT

WASHINGTON, March 4.—Congress began its session today at midnight in order to conclude all possible legislation. Conference reports regarding the Ship Subsidy bill have killed that measure. The bill establishing an Agricultural bank in the Philippines has been passed.

SENATOR SPOONER RESIGNS.

MILWAUKEE, March 4.—Senator Spooner of Wisconsin has resigned his seat.

The present term of Senator Spooner would not have otherwise expired until 1909. He has served his state in the Senate for sixteen years, from 1885 to 1891 and from 1897 until the present time. He is sixty-four years old.

FAMOUS CANADIAN INDIAN PHYSICIAN PASSES AWAY

OTTAWA, Canada, March 4.—Dr. Oronhyatekha is dead.

Dr. Oronhyatekha was a full blooded Brant Indian, a protege of King Edward, who, when Prince of Wales, assumed charge of the education of the Indian boy, meeting him during his tour of the world. He took Oronhyatekha to London, where he graduated as a physician. On his return to Canada the Indian doctor organized the Independent Order of Foresters, becoming its Supreme Chief Ranger, and by his executive ability raising that organization into one of the strongest in America, having over 250,000 members at the beginning of the present year.

ARCHIE ROOSEVELT ILL.

WASHINGTON, March 4.—Archie Roosevelt, son of the President, is ill with diphtheria.

STEAMERS IN BAD MIXUP ON THE ENGLISH COAST

LONDON, March 4.—The Belgian steamship Vaderland is ashore at Goodwin Sands and three other steamships have grounded. A thick fog is prevailing and there have been many reported collisions at sea.

The Vaderland is a large steamship, somewhat greater in tonnage than the largest of the Pacific Mail liners. She plies between Antwerp and New York, and belongs to the Red Star line.

What the Y.M.C.A. Offers

1. Social life. Scores of the finest men in town are members. Meet them at socials, in the gymnasium, at meetings, and in the various clubs.
2. Physical life. Gymnasium instruction under a trained physician. Examinations and special work without extra charge. Basketball, handball, and indoor baseball. Athletics in season.
3. Two fine tennis courts, with nets.
4. Educational classes and clubs, October to April.
5. Reading room with all the popular and news magazines. Library of over 1000 books.
6. Civics club, Camera club, Spanish club.
7. Shower, needle and tub baths.
8. Entertainments and lectures.
9. Membership ticket good for face value in any Y. M. C. A. in the world.
10. No initiation fee or assessments. No initiation.

For Sale

For one week only we offer a home on King street, near Pawa Junction, for \$2000—part cash; balance on mortgage, payable in monthly instalments if desired. Lot has 60-foot frontage and depth of 120 feet. Water supply from artesian well. House contains three bedrooms, parlor, dining room, kitchen, bathroom, etc. Servants' quarters (two rooms), green-house, chicken run. All buildings in good condition.

Reason for selling: Owner leaving islands.

For Rent

Two cottages at Waikeiki; 50-foot frontage on beach.

FIXING PAY OF LABOR

Senate in Favor of It—Other Legislative Business.

SENATE—NINTH DAY.

Whether it was the fact of his voting "aye" to the amended resolution accepting the thirty thousand federal expense dollars that impelled President Bishop to say it was "like swallowing a dose of castor oil" or whether he was expressing, what he believed to be, the experience of the opponents of the resolution is not known but the fact remains: There is a sore spot on the Senatorial body.

In the past, when the expense of the session of the Legislature was paid from the pockets of the local taxpayers, there was no special care taken as to the amount of economy to be exercised. Now, it is said, there will be a difference, for it is not the wish of the Hawaiian legislators to have Congress intimate at any time in the future that they were extravagant during the 1907 session. And as all of the money has to be accounted for, with bona fide vouchers, there is to be an effort made to keep out of the list anything bordering on wilful extravagance or luxuries.

One item of expense that has already caught the eye of those members who would make a good record, is the printing of bills that are frequently introduced as policy measures, for the purpose of making good campaign pledges. The introducers of such bills have no idea they will pass but on the contrary are morally certain their death will occur after they have left the Printing committee. This opinion is strong enough, in some of the members, with a leaning toward conservatism, to warrant the belief that there will be a change of the rules guiding the conduct of bills in the Senate. The desire is to have all of them go first to a committee, to be passed upon, then, when reported back, go before the Senate for action. It is not until a bill has been reported upon favorably that the members have any particular concern in it nor any use for a printed copy.

Another matter relates to clerk hire. The stenographer of the House receives ten dollars a day for his services, which is not a whit too much, if he transcribes his notes free of charge. On top of this he is to get, it is said, ten dollars a day for his services as clerk to committees. If this be true he will be winner of, approximately, thirty dollars, some say forty odd, a day, which is easily twice the pay of the Governor and three times the pay of the genial Secretary. A member of the lower house said on Saturday that it was too much to give one man when there are so many other capable men looking for employment, so that aside from the tremendous expense there seems to be an apparent objection to the unjust distribution of the biennial plums. In the Illinois Legislature such positions carry five dollars per day and no extras.

These were subjects for buttonhole conversations on Saturday which may develop into bones to pick over before the end of the week.

Saturday was a short day and consequently the Senators contented themselves with the introduction, rather than the passage, of bills. Those mentioned for the first time were:

By Senator Lane, an act providing for the appointment of tax collectors and assessors, by the Governor, with the consent of the Senate. At present the appointment of these officials is made by the Treasurer by and with the consent of the Governor.

By Senator Hewitt, an act providing for the exemption from taxes for five years from January 1, 1908, of all lands used in the cultivation and production of sisal fiber, castor oil, vanilla extract, Hawaiian starch and manioc starch.

By Senator Lane, an act incorporating the City and County of Honolulu. This has no relation to any other bill bearing the same brand.

Following the reading of the journal the clerk read a communication from the House announcing the passage of the amended resolution covering the acceptance of the stringed appropriation.

It was this that occasioned the remark by Senator Coelho that the members were being held up and that the string was tied to the resolution in order to make the Legislature available only to those with money.

With the passage of the bill came a motion from Senator Brown, guardian of school interests on Hawaii, that a recess of five minutes be taken in order that the clerk might have time to get the resolution to the Governor. There is a suspicion that the Sphinx of the Senate knew the appropriation

bill would not be signed until the Governor had his hand on the resolution which carried with it the renouncing of all claims to extra pay for an extra session. At all events the resolution was presented to the Governor and word was brought to the Senate chamber in less than five minutes that the appropriation bill had been signed.

Since Speaker Holstein of the House gives it out that the delay in signing the bill was caused by rush of other business to the Governor, the signing of the bill and the presentation of the resolution on Saturday may be considered as a coincidence.

A singular proceeding during the morning was the introduction of House Bill No. 30, its passage on first reading by title and reference to a committee. The usual form is to receive a bill from the House, refer it to a committee and then, if the report is satisfactory, call it for first reading. In this case the Judiciary committee got the bill after it had passed the first reading.

The Judges of the First Circuit communicated their objections to what they deemed the unwarranted reductions in the salaries of their clerks as recommended by the Governor in his message. In the Senate there seems to be some opposition to the proposed reductions.

Senator Lane introduced a bill relating to the appointment of tax assessors and collectors.

The Senate was advised of the passage of Bill No. 23 by the House and it has been referred to the Governor for signature.

On the order of the day it was proposed to take up the bill introduced by Senator Coelho relative to schools. In the opinion of the young man from Maui there is something rotten in the administration of the school system. Whether or not he will have the support of the committee is a question. There is a feeling among some that the Board of Education is an unnecessary body and the direction of the schools had better be in the hands of someone who will have freer scope and who will pay some attention to the complaints handed in. For this reason Senator Coelho has formulated a bill which may correct this and, in a great way, be the means of redeeming the pledge given by candidates that the control of the schools would be placed in the hands of the counties. The data necessary for the intelligent presentation of the bill not being at hand postponement of consideration was made to the 9th inst.

Senator Dowsett from the Ways and Means committee reported on Senate Bill No. 36 as follows:

Honolulu, T. H., March 1, 1907.
Hon. E. F. Bishop, President of the Senate, Honolulu, T. H.
Sir: Your Committee on Ways and Means, to which was referred Senate Bill No. 36, entitled "An Act Making Additional Appropriations for the Departmental Use of the Territory of Hawaii," begs to report as follows:

Your committee recommends the passage of the bill with the following amendments:

Under the head of Department of Public Works amend the item reading "Completion Extension Wailuku Building Lease to County from February 1, 1907, \$1000," to read as follows: "Completion of Wailuku Jail and Fire Department Building, and refunding the county for amounts expended by it in construction of such building, \$1000."

Under the head of Department of Education amend the item reading "Unpaid Rents and Incidentals, \$6630," to read "Unpaid Rents and Incidentals, \$5130."

In explanation of the above your committee would state that it has been brought to its attention that the County of Maui has already expended and is still spending its own funds toward the completion of the building known as the Wailuku Jail and Fire Department, and independent of any possible existing arrangement made between the Superintendent of Public Works and the Board of Supervisors of the County of Maui, it is your committee's opinion that the county should be reimbursed for such amounts thus expended.

The reduction of the item of \$6630 to \$5130 under the head of Board of Education is occasioned by the striking out of the item inserted by the Superintendent of Public Instruction for the purchase of an automobile. Your committee is of the opinion that it is not advisable that such an item should be inserted in a bill which, as recommended in the message of the Governor, is presented to meet the estimated requirements of the several departments of the Government to the end of the present biennial period. Your committee does not consider an automobile one of these requirements.

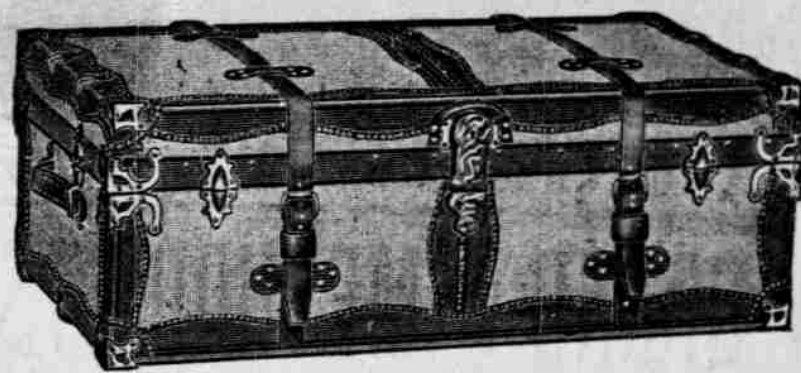

From the same committee Senator Dowsett reported favoring the bill fixing the wage of laborers as follows:

Your Committee on Ways and Means, to which was referred Senate Bill No. 27, entitled "An Act to Designate the Pay of Laborers Engaged in Constructing or Repairing Roads, Bridges or Streets, Water Works or Other Works for the Territory of Hawaii, or for Any Political Subdivision Thereof," begs to report as follows:

While not desirous of hampering the economical administration of the work of the counties, your committee feels that there is merit in the provisions of this bill to the extent that if a judicious selection of labor is made, and faithful and efficient service is rendered in carrying on the public works in the several counties, the wage rate as fixed in the bill is not excessive.

When the bill was called Senator Smith opposed. In fixing the hours for labor the matter was different, but to say that all kinds of labor, good and bad, should be paid alike, was wrong. He understood the objections that would be raised by his opposing the bill, but he could not help that—he was

doing what he believed was right.

Senator Bishop was so interested in this measure that he left the chair to take part in the debate. He moved that the words "or any political subdivision thereof" be stricken from the bill. This motion carried and then Senator Smith wanted to know what was left. To this the President replied, "the whole Territory." Senator Kalama, who had officiated as President during a portion of the debate said, as there was some information lacking, he would ask postponement of consideration of the bill until next Saturday.

At 11 a. m. the Senate adjourned.

THE HOUSE.

Many were made glad in the House Saturday by a communication from Secretary Atkinson stating that the Governor had signed House bill No. 13, Act 2, appropriating money defraying the expenses of this session of the House; also Senate bill No. 20, Act 3, carrying an appropriation defraying the expenses of the Senate for this session. The receipt of this notification perceptibly relaxed the tension of the legislative atmosphere.

Superintendent of Public Works C. S. Holloway, Auditor J. H. Fisher and Surveyor W. E. Wall respectively by letter notified the House that employees of their departments would appear before the House when called.

The Committee on Education reported favorably on House resolution No. 44, recommending appropriations as follows: \$135 for repairs to schoolhouse at Kalaea, South Kona; \$110 for repairing schoolhouse at Kailua; \$142 for repairs to schoolhouse at Keauhou. This committee also reported in favor of House resolution No. 48 appropriating money for repairs to schoolhouses as follows: \$650 at Honomakau, \$15 at Polulu; \$30 at Honolulu; \$375 at Makapala; \$291 at Halawa. The committee also endorsed House resolution No. 46, carrying the following amounts for repairing school: \$430 at Waimea; \$1 at Kawaihae; \$45 at Puako. House resolution No. 45 was also reported favorably. This bill appropriates these sums for repairing schools: \$220 at Waiohinu; \$90 at Honoau; \$510 at Hilea; \$600 at Pahala. The committee reported also in favor of House resolution No. 49, carrying schoolhouse repair items as follows: \$280 at Napoos; \$115 at Honaunau; \$235 at Hookeena; \$200 at Alae; \$250 at Papa; \$85 at Miloli. House resolution No. 50 was tabied by the committee with the approval of Representative H. M. Kanio, its proposer. All the reports of the committee were adopted.

The Committee on Expenditures reporting on a report of the Judiciary committee condemned the practise of paying salaries out of incidental appropriation, and recommended that a rider be attached to the Appropriation Bill prohibiting the payment of salaries under said bill. The committee's report was adopted.

Representative Correa offered a resolution that following items be inserted in the Appropriation Bill: \$15,000 for the extension of School street and \$10,000 for widening and extending Camp No. 3 lane from School street to Kuakini road. Referred to Committee on Public Lands.

House resolution No. 110, introduced by Representative Moanualu, appropriating \$10,000 for the education of poor children in the colleges and universities on the mainland, was referred to Committee on Education.

Mr. Coney introduced a bill amending Sections 995 and 996 Revised Laws, relating to the Public Health.

Mr. Rawlins offered an amendment to Section 2748 Revised Laws, relating to criminal procedure. Passed first reading.

The following bills passed their third reading: House bill No. 33, amending Section 27, Revised Laws, relating to elections; House bill No. 38, concerning the disposition of Hawaiian statutes and Supreme Court reports; House bill No. 32, providing for the voting of a qualified elector who has failed to register; Senate bill No. 2, encouraging diversified industries; Senate bill No. 4, amending Act 53, Session Laws of 1905, relating to fire departments in various towns and cities of the Territory; House bill No. 2, amending Section 1793 Revised Laws relating to the pay of jurors; House bill No. 7, providing a hospital at North Kohala; House bill No. 25, providing for the payment of certain county employees weekly; House bill No. 7, amending Section 1824 Revised Laws, relating to indemnity bonds Senate bill No. 14, amending Section 2263 and 2265, Revised Laws relating to the right of married women to deal with their separate property.

Action on Concurrent Resolution No. 6, relating to a primary law, was deferred until May 1.

At the suggestion of the Speaker, Messrs. Kalana, Kaleo, Naillima, Moanualu and Kahana, were appointed a committee to represent the House at the funeral of the wife of Representative Akau.

The following reports were received from the Finance committee, adopted and made the order of the day for Monday: House bill No. 60, removing the restriction on the sale of salt meat; on House bill No. 27, repealing the restriction on the sale of salmon; on House bill No. 35, amending Section 1278 Revised Laws, relating to income tax.

The House at 12:05 adjourned until 9 a. m. on Monday.

CHINESE STUDENTS' ALLIANCE OFFICERS

The annual meeting of the Chinese Students' Alliance of Hawaii took place last Saturday evening in the hall of the Chinese Y. M. C. A. The reports of the special and standing committee, and those of the different officers, showed the accomplishments of the objects for which the alliance was organized.

Twelve new members were elected. The election of officers resulted as follows:

President, Chang Loy; vice president, Ching Yet; recording secretary, Tom Ayoy; corresponding secretary, Aloy Soong; treasurer, Jos. Zane; auditor, Sam'l Alina; sergeant-at-arms, John Lo and Lo On; editors, Miss Mabel Kau and Moses L. Heen.

WHOOPIING COUGH.

The quick relief afforded by Chamberlain's Cough Remedy, in cases of whooping cough, makes it a favorite with the mothers of small children, making it easier to expectorate, keeps the cough loose and counteracts any tendency toward pneumonia. MISS JULIE FLORENCE WALSH

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance.

How many women do you know who are perfectly well and strong? The cause may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, dragging sensations, flatulency, nervousness, and sleeplessness.

These symptoms are but warnings that there is danger ahead, and unless heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs. No other medicine in the country has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills.

Miss J. F. Walsh, of 328 W. 36th St., New York City, writes:—"Lydia E. Pinkham's Vegetable Compound has been of inestimable value in restoring my health. I suffered from female ills which caused dreadful headaches, dizziness, and dull pains in my back, but your medicine soon brought about a change in my general condition, built me up and made me perfectly well."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, Inflammation and Ulceration, and organic diseases. It is invaluable in preparing for child-birth and during the Change of Life. It cures Nervous Prostration, Headache, General Debility, and invigorates the whole system.

Mrs. Pinkham's Standing Invitation to Women
Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

The Human Body

SPORTS

WAIKIKI IS NOW BEING NEGLECTED

Waikiki, for many years the favorite Sunday outing place for Honoluluans, has been sadly neglected of late. The beach, which once boasted of having hundreds on it at once, counted itself lucky yesterday by having six, and Old Ocean was left to its own devices, even though the surf was lovely.

The Aquarium was almost forsaken. Occasionally the cars would leave one or two people at its doors, but on the whole the former Sunday crowds were lacking.

But then the band played at the Capitol grounds yesterday, and that was one of the drawing cards against Sunday at Waikiki.

KAALAS ARE CHAMPIONS

The championship game played yesterday afternoon at Aala Park between the Kaalas and the Kawaihaus was won by the former by the score of 7 to 3. H. A. Brito, catcher of the Kaalas, played a splendid game. The game was very close and exciting. The line-up was as follows:

Kaalas—D. Smith, cf; M. Mosses, 3b; A. Akana, 2b; Wm. Espinda, p; Wm. Fernandes, lf; Kupa, rf; Jos. Cockett, 1b; H. A. Brito, c; Billy Bailey, ss.
Kawaihaus—V. Ayan, ss; Chas. Macfarlane, 2b; Jim Spaddle, cf; Chas. Paaluh, p; Jim, lf; Apui, 3b; Hoopii, c; Luli, rf; M. Correa, 1b.

Following is the score by innings—
1 2 3 4 5 6 7 8 9
Kaalas.....1 0 2 2 1 0 0 1 0—7
Kawaihaus.....0 0 0 2 0 1 0 0 0—3
M. Olmos, of the Winter League, umpired.

Scorer, Wm. Medeiros.

FORT STREETS AGAIN VICTORS

The Fort Street baseball team added another victory to their list of conquests yesterday as they defeated the School Street team by a score of 15-6. The game was played at Pauoa Park and was witnessed by an enthusiastic crowd of baseball fans.

Following is the line-up of both teams:

Fort Streets—Tom Farrell, c; Kaihuna, p; Henry Lani, 1b; Pat O'Sullivan, 2b; B. George, 3b; H. Lam, ss; Willie Ahana, rf; Jim Vierra, cf; Palau, lf.
School Streets—Hamp, c; Kuali, p; Kapai, 1b; Ah Foon, 3b; Heine, ss; En Sang, lf; Chaney, 2b; Ah Tin, rf; Dias, cf.

FORT STREETS MET THEIR WATERLOO

The second nine of the Kaala Athletic Club defeated the Fort Street baseball team at Aala Park yesterday morning by the score of 9 to 8.

Following is the score by innings—
1 2 3 4 5 6 7 8 9
Kaalas.....1 0 0 1 2 1 3 1—9
Fort Streets.....0 3 1 0 1 0 1 2—8
V. Ayan, of the Winter League, umpired.

JAM QUESTION IN TRUE LIGHT

Editor Advertiser: I note with interest in this morning's edition of your paper the letter of "E. H." who is trouble with the "incongruity" of my introducing a new fruit for jam manufacture in the face of the fact that he has grown the pohu which produces the "king of jams."

Let it be understood at once that the roselle was not introduced in Hawaii as an aspirant to the throne of the jams. The "incongruity" was based upon the supposition that most people like to vary their menu by the use of more than one kind of fruit. If there should be anyone else in Hawaii who, like "E. H.," wishes his jam to be of the pohu variety three hundred and sixty-five days in the year, it is not intended to force roselle upon such.

Aside from the desirability of variety in food, I may say I have met some who prefer the roselle products to those made from pohu. They have a characteristic flavor which, if not destroyed by the excessive use of sugar, is very agreeable to most palates.

The roselle yields heavily and is of the easiest cultivation. It therefore affords a very inexpensive material for the manufacture of an excellent jam or jelly. Any family with a few square feet of ground to spare can raise an abundance of the fruit. Some have failed with pohu under cultivation.

Finally it may be said of the roselle that it is a beautiful plant and would be well worthy of cultivation even if it had no economic value. Let some one may wish to view only the Poin-

iana regia in his landscape or some one else only the royal palm, let me hasten to say that the roselle is not so gorgeous as the former nor so stately as the latter.

In closing let me express my appreciation of the excellent tribute to pohu which your correspondent has written. The fruit should be more generally used. It is always gratifying to me to find men interested in the cultivation of fruit and if each does his part in advocating the cause of fruit growing as enthusiastically as "E. H." has done, I shall have no dispute with any as to which fruit is the best.

J. E. HIGGINS.
Honolulu, March 2, 1907.

DEAN BOSWORTH AT THE Y. M. C. A.

Seldom in its history has the Y. M. C. A. hall contained such a crowd to listen to a religious address as filled the seating accommodation yesterday afternoon.

Dean Bosworth was the speaker and men in all walks of life—preachers, teachers, bankers, business men and working men—listened to his talk on the Beatitudes.

It was not an address; it was a heart to heart talk and a talk such as few will forget. The Dean began with one line of the Beatitudes and explained that one thoroughly before he went on to the next.

Altogether, the explanation was an exceedingly vivid one and many of the precepts were presented in a new light to those present.

MISS PRESCOTT'S COMMENT.
"Comfort ye, comfort ye my people, saith your God."

These words of the prophet were in our ears on hearing Dr. Bosworth. The two points that have, likely, appealed to us the most in listening to Rev. Dr. Bosworth's lectures or sermons (and we have heard them all), are, first, the "comfort" they contain. Like to a vein of purest gold, this element of supreme comfort threads its way, unerringly and sure, in and out the entire discourse.

The second point and one of such vital importance to any who would appeal to, and control (hold) an assemblage, is the comfort of his voice, the pure quality of which and the rich and incisive modulation, are hardly to be surpassed.

ANNE M. PRESCOTT.

P. S.—This afternoon at the Y. M. C. A. Dr. Bosworth took for his subject the Beatitudes, dwelling for a time on each in its turn.

He closed with the remark that there were five gospels—the gospel according to St. Matthew, according to St. Mark, according to St. Luke, according to St. John and according to God.

A. M. P.

WOUNDS, BRUISES AND BURNS.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the usual treatment. Chamberlain's Pain Balm is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. For sale by Benson, Smith & Co., agents for Hawaii.

MOTHERS

should know. The troubles with multitudes of girls is a want of proper nourishment and enough of it. Now-a-days they call this condition by the learned name of Anemia. But words change no facts. There are thousands of girls of this kind anywhere between childhood and young ladyhood. Disease finds most of its victims among them. Some of them are passing through the mysterious changes which lead up to maturity and need especial watchfulness and care. Alas, how many break down at this critical period; the story of such losses is the saddest in the history of home. The proper treatment might have saved most of these household treasures, if the mothers had only known of WAMPOLE'S PREPARATION and given it to their daughters, they would have grown to be strong and healthy women. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In building up pale, puny, emaciated children, particularly those troubled with Anemia, Scrofula, Rickets, and Bone and Blood diseases, nothing equals it; its tonic qualities are of the highest order. A Medical Institution says: "We have used your preparation in treating children for coughs, colds and inflammation; its application has never failed us in any case, even the most aggravated bordering on pneumonia." The more it is used the less will be the ravages of disease from infancy to old age. It is both a food and a medicine,—modern, scientific, effective from the first dose, and never deceives or disappoints. "There is no doubt about it." Sold by all chemists here and throughout the world.

MONDAY : : : : : MARCH 4

VICIOUS SCHEME PROPOSED.

An ominous movement is reported as started in the County of Maui. It is the hatching of a scheme to dispense with skilled superintendence of road making and repairing. Each supervisor is to have charge of the road work in his own district, appointing the lunas and hiring the labor. A more vicious political machine in every district could not be devised. Its possibilities of graft are only limited by the amount of road money which each supervisor would have allotted to his control. The degree of value the taxpayers would receive in return is a matter of imagination. There would be a mutuality of interest in graft existing between different supervisors which would make the passing of the bills by the Board of Supervisors an easy matter. Even if most or all of the supervisors were honest, either from principle or policy, the result of such a system could not possibly be satisfactory. The average supervisor is not a competent road maker—that is, unless he is one who has learned the business. And if the voters must select their supervisors from among road making experts, they are likely to get men who lack other essential qualifications for the office.

Scientific road making is now attracting universal attention on the mainland. It is not merely being pursued by parish authorities, but states and territories are promoting the cause—both by suitable laws and liberal grants—and even the Federal Government has established a division for the promotion of good roads throughout the country. It has a prominent space in the annual report of the Secretary of Agriculture. Right in this issue of the Advertiser will be found the written regret of Secretary Wilson that he can not at present spare a road expert of his department to conduct a campaign of education on the subject in this Territory. What would he think were he told that it was proposed here to make the patronage of the road making service a perquisite of the office of county supervisor?

In some parts of the Territory, according to information, even where engineering skill is employed there is too much supervisory interference with the expert. He is dictated to by the district supervisor against his professional judgment in details, and if he persists in doing things according to his knowledge of how they should be done is liable to be knocked at the county board meetings. Supposing the threatened Maui scheme went into effect and, as our correspondent suggests, an engineer had to be employed occasionally for special services, it is safe to say no competent man having self-respect could be found who would submit, in any district where he might be needed, to the absolute domination of a member of the Board of Supervisors ignorant of the work required and yet in full control of both foreman and laborers.

Political secrets are too cheap in the tropics and civic good faith too rare a gem for secret societies to have much power in Hawaiian politics. The latest freak of the kind has split on the rock of dissension in still water. What then might not be expected to happen to such a raft in the swirling eddies of an election campaign? Probably every member would want a nomination, and failing to get it break his way out of the corral.

Some idea of the advanced methods of Germany and Germans in practical education to fit the youth of the nation for taking a commanding part in the commerce of the world may be gained in the account, on the Advertiser's marine page, of the arrival of the North German Lloyd training ship Herzogin Cecilie at this port yesterday.

According to the mainland press Vice President Fairbanks is being "sub-soiled" in New York and "back fired" in Indiana. His subjection to such bucolic processes is liable to make him "somebody's meat" at the Republican National Convention.

Whether it be poha or roselle jam, Johnny will get at it when mother is out, if he has to lug in the stepladder from the henhouse.

MANY HEAR HIS WORDS

(Continued From Page One.)

of them. A hundred years ago a fevered boy in the tropics might have asked his father for ice to cool his brow, but the answer would have been, "No, it cannot be." Now, able to make use of natural forces in his ice machine, he says "Yes." "Let me speak with mother," a sick child said to his father with mother 500 miles away. Fifty years ago it would have been an impossible request, but today the telephone connection is made and the little one comforted by the tones of mother's voice falls into a healing sleep. If you with the forces of nature can do this how much more your Heavenly Father can do by means of these laws.

But nine out of ten of specific requests can be granted without involving physical laws, if it be conceded that God can put a thought into the mind of a man through physical laws. The summer before his death I heard Mr. Moody tell how in the summer of 1893 his Chicago Institute must close its year in debt unless a certain sum of money should come that day. He prayed over it in the morning and let it slip from his mind. In the afternoon a young woman came and handed him an envelope with a check in it for almost exactly the amount needed. It was signed by a lady of wealth who had occasionally aided his work. The next morning he called and inquired how she came to make the gift. She said that the morning before she was deeply impressed that Mr. Moody needed money. She sat down, made out the check and sent it by her maid. Is this an answer to prayer? Granted that a man can convey an impression of this kind to another mind. Yet here there is room for God's activity in directing whose mind should receive the impression. If God can put a thought into a man's mind acting through physical laws, then permission is made for answer to nine out of ten specific requests. We have much to learn yet of mind in relation to other mind.

Sometimes it is said by our modern spirit that every occurrence must be in God's plan. If the thing prayed for is in His plan, it will happen. If it is not in God's plan it will not happen. But this when scrutinized proves absurd. For if it be true then it is useless to ask anybody for anything. Honolulu has been very generous in her invitations to dinner but under the influence of this objection one might say,

"no need to ask him to dinner, if it is God's plan he will come." The nonsense is apparent. For prayer is common sense in the spiritual world. To teach men to pray is to urge that our civilization, which after all is merely asking some things under certain conditions and getting some things under certain conditions, be extended to the spiritual world.

Another suggestion of our time is that God will do for you whether you ask or not. Yet often parents do not give till they are asked. Wise parents frequently act so as to give a large part of achievement to the children. They stimulate them into partnership with themselves. Prayer is a rousing up of the personality to cooperate with God.

God often waits till He is asked because the main end of family life is the stirring up of children to be genuine brothers and sisters, that is genuinely interested in each other. Hence the Father sometimes waits until the child says, "Why not do this for my brother." Almost all prayer of a vital kind is asking for others.

Prayer then is not an effort to bend the will of God but the reverent rising of the soul into the waiting will of God, to inquire whether this is not the will of the Father. In a well ordered family there are three classes of things. First, the things which the father does for the children without waiting to be asked. Second, things the children ask for and do not receive. Nine out of ten things we petition for ought not to be granted. For nearly a year my little boy asked me for a revolver. He did not get it. The oldest of us are little children in the eternal life. Nine out of ten things we ask for are things which we were glad years after that we did not receive. It is our privilege to make all our wants known with freedom, to bring our petitions wise and foolish with the assurance that the peace of God shall guard us. Third, things done only when and because the child asks for them.

What are the conditions by which we may move freely in this third class? Christ gives them. "Abide in Me and I will be in you." Full fellowship with Him gives freedom. If we suffer Him to train us to take the broader view of life, to see as He sees, then great will be our action with Him in prayer, then He will be our partner in the prayer life. Let one great petition be, "God, teach us to pray."

EVENING DISCOURSE.

In the evening Dean Bosworth chose for his subject "The Meaning of Life," an address which was delivered to an immense audience, both the Kamehameha boys and girls being present. Mrs. A. Francis Judd presided at the organ. The offertory was sung by Miss Drusilla Marx, whose rendering of Greig's "Hold Thou My Hand" was excellent.

There will be two more opportunities to hear the Dean, one this after-

noon at 4.30 in Central Union church, the other tomorrow at the same place and hour. Today's topic will be "Jesus' Message to the Selfish Man." Dr. Bosworth announced his text as being in the fourth chapter of the Epistle to the Galatians, part of the seventh verse. "If a son, then an heir." "There is one study which has an unfailing interest, it is the story of the human race," the preacher began.

"If some person should tell us the real story of his life, he could hold our attention to the end. He would tell us how his father loved him; how he first met and learned to love the girl whom he afterward asked in marriage; how he felt when a little bundle lay in his arms, his firstborn babe; how he felt as the little child lay in his arms, and he watched the breath slowly die out, how he feels now as he wonders on what we call eternity."

What is the meaning of a plain human life or a marvelously intensified life. The meaning will only be understood, when we realize that he is a son of a father who is ambitious to see him fit for that inheritance which he is sometime to have.

Not many decades ago, there was born a prince who did not seem likely to receive the inheritance. He was ambitious, but his father gave him a careful education and finally, with the possible exception of another monarch in Europe, he was the best equipped sovereign in Europe.

It is said that if one of the fiery bodies should fall from the heavens, thirty seconds after it left its place it would have traveled as far as from the St. Lawrence to the Gulf, leaving a hot sizzle behind it.

He wished to advance but one proposition in answer to the question which he had raised. Human life is a situation devised by the infinite ingenuity of God in which to train sons for an inheritance of power by teaching them to find power in appreciation.

Why was it that the power of explosives was not put into the hands of men in the first century? Because today if some dangerous explosive is discovered that will wipe off millions with one stroke, the world says, "you must not use that in your guns."

There are two features which seemed to him to be the most distinct in the human life. Suffering and the family. How widespread is suffering, how many go hungry, how many minds are suffering, that which is harder to bear than physical suffering? He did not think that he had an adequate definition of human suffering, but this much was clear, that human suffering calls out for someone to come to man's relief.

MUSICAL EVENT OF THIS EVENING

The sale of seats for the concert to be given tonight in the Opera House by Miss Mary Adele Case has been most satisfactory and it is certain that a large number will avail themselves of the opportunity of hearing one of the best of the younger vocalists of the country. Miss Case has prepared an excellent program which will give her every opportunity of using her voice to the greatest advantage. The violin obligato of Mrs. Charles Bryant Cooper is also being looked forward to with a great deal of pleasure. The program will be as follows:

"A Summer Night".....Thomas
"Nur wer die sehn sucht kennt".....Tschaiskowsky
Violin Obligato.....Mrs. Charles Bryant Cooper.
"La Lune Blanche".....Nevin
"Es shrie ein vogel".....Sinding
"May Day".....Walthew
"Ave Maria".....Bach Gounod
Violin Obligato.....Mrs. Charles Bryant Cooper.
"On the Shore".....Chaminade
"Four-Leaf Clover".....Coombs
"Caro Mio Men".....Giordani
"The Clang of the Wooden Shoon" (Ballad).....
"Shadows".....Bond
"Good-by" (requested).....Tosti
"A May Morning".....Denza
Mrs. L. Tenney Peck, accompanist.

MANY GRAND OLD MEN

(Continued From Page One.) Senator Spooner of Wisconsin, the leading lawyer of that legislative branch, is 63; Senator Foraker, also a leading lawyer there and regarded by many as the ablest man in the Senate, is 60; Senator LaFollette is almost 52; Senator Aldrich of Rhode Island is 66; Senator Elkins of West Virginia is also 66; Senator Tillman of South Carolina is 58; Senator Bacon of Georgia is 67. Bailey of Texas, who might have been the Democratic leader of the Senate, but for the ordeal to which he has been subjected this winter before the Legislature, is 43, one of the numerous young Senators.

THE MAILS.

Mails are due from the following points as follows: San Francisco—Per China, March 6. Orient—Per Doric, March 6. Manila—Per Sherman, March 5. Colonies—Per Aorangi, March 5. Victoria—Per Mowera, March 9.

Mails will depart for the following points as follows: San Francisco—Per Sherman, Mar. 5. Orient—Per China, March 6. Colonies—Per Mowera, Mar. 9. Victoria—Per Aorangi, March 8.

THE PRESIDENTIAL LINES FORMING

Looks Like Taft or Fairbanks
Republican and Culberson
Democrat.

(Mail Special to the Advertiser.)

WASHINGTON, D. C., February 16.—Two things of some moment in the maneuvers for nominating the next President have come to the surface here in recent days. One is a prospect, forecasted by good authority, that Senator Foraker will eventually eliminate himself as a presidential possibility and strike hands with Secretary Taft. The other is an incipient boom for Senator Culberson, of Texas. It is being brought to the front by Democrats of Northern cities, some of whom are Southern born.

Senator Foraker, of course, has never declared himself in the running and has been more or less passive under the discussion of his availability. At present he undoubtedly holds the Ohio situation firmly and to all appearances could have the delegates from that state to the next National Convention, should he want them. But it is claimed that Senator Foraker is most concerned that President Roosevelt shall not be renominated and that, as soon as he is assured beyond all doubt, will quietly step aside and permit Secretary Taft to get the Ohio delegates if he can. There has been a lot of political bitterness between the President and Senator Foraker and the latter prefers to have some one in the White House with whom he can maintain more amicable personal relations.

Such action, of course, would be to the political glorification of Ohio. That State would like very much to have another President and all the patronage favors which go with such an honor. At the same time, Senator Foraker is not blind to the unpopularity of his attitude on railroad legislation and to the fact that, even if he could secure a nomination, the charge of being a reactionary would be raised at once against him and, probably, with telling effect. If the efforts to bring about such a condition of affairs in Ohio succeed, it would immensely strengthen Secretary Taft's prospects and would be a long step toward narrowing the rivalry for the Republican nomination to himself and Vice President Fairbanks.

Secretary Taft remains as indifferent as ever to all plans to nominate him as Roosevelt's successor but there are men working actively for him in spite of this. The semblance of an organization in his interest has already been started and this organization is to be rapidly enlarged in its scope and efficiency.

The Secretary's brothers are very much alive to his presidential chances. One of them, ex-Representative Charles P. Taft, editor of the Cincinnati Times-Star, while here the past week, said in conversation that the Secretary would certainly be nominated and elected. Whether or not Secretary Taft becomes formidable as a candidate, the friends of Vice President Fairbanks are carefully noting the developments for the nomination of the present head of the War Department and also the arguments that the Secretary's friends are using with some effect that, if nominated, Mr. Fairbanks would not be elected. The visit here a few days ago of ex-Governor Durbin, of Indiana, started the anti-Fairbanks talk. He and the vice president have some old political scores to settle. But while ex-governor Durbin's attack on Mr. Fairbanks as a vice presidential candidate rested largely on personal animosity, much that he said is being weighed by the Republicans of Congress who are political leaders in their respective States. It is having some weight, for instance, with the Massachusetts Republicans here although the Massachusetts Senators and Representatives have a very kindly feeling for the vice president and may yet decide to support him for promotion. It is having weight, too, with Ohio Republicans and the Republicans of some other Western States.

It was proposed here recently that a dinner of representative Democrats be held to launch a boom for Senator Charles A. Culberson, of Texas. That idea has been abandoned for the present, but other means are being used to bring his name to the front as a presidential candidate. An argument being urged for him is that he will command in the south all the strength

that Bryan could command—and probably more—and that he would be very acceptable to a large contingent of Southerners in New York, Chicago and other large Northern centers. These Southerners, residing in the North never have taken kindly to Mr. Bryan. Their votes in New York and Chicago were always cast in the main against Mr. Bryan. To their hostile attitude is attributed the poor showing Bryan made at the 1896 and 1900 elections in those cities.

These and other Democrats in the North are now talking up the Culberson nomination. He is not very well known outside of the South, although, beyond question, he is one of the most upright men in public life and likewise very capable. Just past 50 years old, he has had a long and creditable career and as attorney general and then governor of Texas stood for the same character of legislation, originated and put in force anti-corporation measures, of practically the same character that President Roosevelt has been striving for. Because of his modesty Mr. Culberson has not been as prominent in the Senate as he should have been, but has frequently demonstrated there that he has capacity for national affairs. He is a Democrat of the old Southern school, but likewise radical in his views of corporation control. The two chief objections that could be made to him would be that he is a Southern man and that he is not sufficiently well known. The scrutiny of Mr. Culberson's career would elevate him in the public esteem, for he did a great work as a legislative pioneer in Texas which was never exploited at all in the North and which therefore received little or no attention.

Democrats here generally believe that Bryan will receive the next nomination but they are not unmindful of Senator Culberson's dignity and high character. If the precedents of the last half century against the nomination of a Southern man for the presidency are to be broken, there is probably no Democrat who stands a better chance to be the nominee than Mr. Culberson. Neither the conservative nor the radical Democrats would oppose him. His father, the late David B. Culberson, was a distinguished figure in Congressional life and for twenty-two years was a member of the National House.

ERNEST G. WALKER.

COMING AUTOMATIC TELEPHONE EXPERT

Superintendent Roy Owens, of the automatic department of the Citizens' Telephone Company of Columbus, O., delivered a lecture on "The Automatic Telephone" under the auspices of the Railway Young Men's Christian Association before the hundreds of Pennsylvania shopmen in that city. The association has instituted a series of noonday lectures in the great shops, and this was one of the series.

Superintendent Owens was greatly pleased to have the opportunity to present this subject to so large a body of skilled workmen. So intense was the interest in the automatic switchboard used in the demonstration and in the lecture generally that Mr. Owens was begged by hundreds of the men to continue the demonstration that they might have a better opportunity to learn the details of the system. He therefore returned three days in the week, ending November 3, and gave a 40 minute lecture and demonstration each day for the pleasure and instruction of the men.—American Telephone Journal.

Mr. Owens is considered to be one of the most proficient automatic telephone engineers in the United States. He entered the automatic field in 1902, devoting nearly a year in the essential departments of the factory at Chicago, and three years to installing and construction work, and, for the past year, remaining in full charge of the automatic switchboard at Columbus, Ohio. He soon expects to join his brother, Guy Owens, at Honolulu, where an extensive automatic telephone system will be installed.

RHEUMATISM CAN BE CURED.
There is no disease which inflicts more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is therefore a bold statement to make but Chamberlain's Pain Balm, which enjoys an extensive sale in this country, has met with success in the treatment of this disease wherever it has been tried. One or two applications of this liniment will relieve the pain and hundreds of sufferers from this disease testify to permanent cures by its use. For sale by Benson, Smith & Co. Ltd., Agents for Hawaii.

WEEK'S BUDGET OF HILO NEWS

Business Men Welcome Japanese Squadron—Homestead Roads Are Wanted.

HILO, March 1.—The banzai flag was up in Hilo on Wednesday, and the banzai people were out in large force to welcome the Japanese squadron. Front street was brightly decorated with flags and Japanese lanterns, and crowds of Japanese lined the beach from noon on, to watch for the training ships. The railroad wharf was also crowded. In the harbor a row of about 25 sampans, carrying all the flags they could put up, waited in line, and were a pretty feature of the decorations.

It was about 2:30 when the crowd on the wharf first saw the smoke of the squadron. The vessels stood far out to sea until they were off port, when all turned at once and headed for the harbor entrance. They made a fine appearance as they approached the harbor, and thousands of Japanese hearts swelled with pride.

As they approached the harbor the Japanese vessels were met by a reception committee appointed by the Board of Trade and consisting of J. A. Scott, Judge Parsons, G. W. A. Hapai, George Desha, B. K. Baird, W. Todd, Wm. Keolanui, C. C. Kennedy, L. Severance, A. M. Burns, G. F. Henshall, John T. Moir, C. Castendyk, Dr. Hayes, H. Vicars, A. Lindsay, D. E. Metzger, J. Fitzgerald, F. S. Lyman, Dr. J. J. Grace. The sampans fell into line in the wake of the squadron.

HOMESTEAD ROADS NEEDED.

Among the matters to come up before the Board of Supervisors next Tuesday is a petition by homesteaders of Upper Pohakaea, Paauilo, Hamakua, for roads. The petitioners have taken up a number of lots under right of purchase leases which compel them to live on their lots and erect dwelling places, and they say that there is absolutely no road over which to haul lumber to the lots. They ask for the immediate construction of a road to enable them to carry out the terms of their leases.

OIWIS DISBAND.

The Hui Oiwi, as the lengthy named Hawaiian secret society which was much discussed recently in connection with political affairs was called, has disbanded, as far as the Hawaii branch is concerned. The society is general throughout the islands, but has headquarters in Honolulu. The Hilo branch has been a part of the general society but the members decided last week to cut loose from it.

After disbanding as a lodge of the Hui Oiwi, the members promptly organized a new lodge, under the name of Hui Hawaii Pono. It has much the same officers and members as the other society, and is practically the same, except that it is not connected with the general society.

After the formation of the Hui Hawaii Pono was received from the Hui Oiwi headquarters in Honolulu which may mean a reconciliation. In that event the Hui Hawaii Pono may go out of existence and the other one may be revived.

ITEMS.

Resolutions in respect to the memory of the late Joseph Rust have been passed by the Hilo Burns Club.

A progressive dinner social is the latest success brought off by the ladies of the Foreign church of Hilo.

Mr. and Mrs. W. T. Balding of Waiwae celebrated their tin wedding anniversary last Saturday with a dinner party.

A son born to Mr. and Mrs. William Harbottle on Washington's birthday will receive the name of the distinguished statesman.

Mr. and Mrs. J. T. Miller, of Lincoln, Nebraska, are here as the guests of the Rev. Curtis E. Shields. They made a visit to the volcano last week.

Judge A. N. Kepolikai of Maui will probably be one of the guests at the luau to be given to the Los Angeles visitors. He has offered to donate all the poi for the luau.

Rev. Fenton-Smith has undertaken extensive improvements about the grounds of St. James Parish Hall. New concrete steps have been put in and trees have been planted which, in a few years, will render the premises exceedingly attractive.

H. S. Overend of Honokaa spent a recent Sunday at the Kohala Club after being away for seven years. During his visit he was fortunate enough to meet an old acquaintance in the person of F. K. O'Brien, whom he had not seen for fifteen years.

J. R. Bergstrom of Honolulu and his brother, D. H. Bergstrom of San Francisco, are at work on the organ of Hail church, having fixed the foreign church organ. The Hail organ was put in seven years ago, and this is its first cleaning. Rats and moisture were found to have done considerable injury.

The late James Ward, engineer of the Kauai, was stricken with apoplexy while aboard the steamer. He was hurried in a hack to the hospital but was dead before reaching there. William McKay, agent of the I. L. N. Co., took charge of the funeral. Ward had suffered from heart trouble. He was a widower and leaves two daughters.

Sukekuni Sato, the Japanese merchant, has received from Tokio a handsome gold medal, together with a certificate showing him to have been

The effect of malaria lasts a long time. You catch cold easily or become run-down because of the after effects of malaria. Strengthen yourself with *Scott's Emulsion*. It builds new blood and tones up your nervous system.

PROMPT RETURNS

There is an advantage in having a laundress who understands the weakness of a man sufficiently to consider his linen when he forgets. Few laundresses do that here, in fact the laundress in Hawaii is an exception for the average man depends upon the Chinese to loose his washing. You'll know the difference if you have ever tried this establishment. We can do work promptly and deliver it at any time it is needed. And the finish. We will guarantee that there has never been work done here that excels ours, none that has ever given as good satisfaction. We believe we can satisfy you no matter how particular you are.

WORLD'S NEWS DAILY.

GEORGE W. DAVREN.

The "Nervous" Condition.

The term "nervous" is a broad term used to denote a diseased condition of the nerves that is very common. The disease is a debility or weakness that affects especially the nervous system. There may be no well-defined trouble, yet those who suffer with nervousness will complain of many things, mental depression, inability to rest well, twitching, aching limbs, and hundreds of nervous disorders. Sleep is not refreshing and the patient wakes up tired. Although the lungs, heart, liver and kidneys are sound, yet there seems to be serious disease in these vital organs, and sufferers with weak nerves feel that all their physical powers are failing.

Nervousness is wholly the result of wear and tear of the nervous system, caused by irregular habits, long-continued anxiety or worry, too great business responsibility, and any cause which tends to diminish the vigor of the body.

The beautiful delicacy of the nervous system can be appreciated when it is considered that the nerve fibres do not exceed one-fifteen-hundredth of an inch in diameter.

Each of these nerve fibres proceeds from the nerve centre with which it is connected, to the point at which it terminates, without uniting with any other.

So delicate is the structure and so intimately associated are its parts, that the nervous system can be deranged easily, and diseased or weakened.

Often sufferers from nervousness do not realize that their nerves need nourishing and strengthening. They wait and hope until the condition is of long standing before acting. Here is a case in point.

Brooklyn, N. Y., Aug. 2, 1904.—"It affords me pleasure to voice my appreciation of Paine's Celery Compound, as I think it a truly wonderful remedy. It cured me of nervousness and stomach trouble of long standing when all other remedies failed."

—Geo. W. Davren, 5401 Fifth Ave.

Victims of nervousness—those whose very life hangs heavy on their hands, depressed by their existence, or borne down by stress of overwork; Paine's Celery Compound stands ready to build the nerves back to their healthy condition—to put an end to sleeplessness, and to drive away every ache and pain.

Two days' treatment with Paine's Celery Compound will give proof of its marvelous powers.

For 17 years this famous prescription has been the most universally used tonic in the world. It has stood the test of time. Physicians constantly use and prescribe it. No prescription has ever been formulated that equaled it in curative power.

Remember this.—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT, TERRITORY OF HAWAII.—IN PROBATE. AT CHAMBERS.

In the Matter of the Estate of Lam Yate, Deceased.

Order of Notice of Petition for Allowance of Final Accounts and Discharge in this Estate.

On reading and filing the petition and accounts of Lam Yate, administrator of the estate of Lam Yate, wherein he asks to be allowed \$2366.75, and he charges himself with \$1445.48, and asks that the same may be examined and approved, and that a final order may be made of distribution of the property remaining in his hands to the persons thereto entitled, and discharging him and his sureties from all further responsibility as such administrator.

It is Ordered, That Monday, the 8th day of April, A. D. 1907, at 9 o'clock a. m., before the judge of said court, at the courtroom of said court at Honolulu, Island of Oahu, be and the same hereby is appointed as the time and place for hearing said petition and accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted, and may present evidence as to who are entitled to the said property. And that notice of this order, in the English language, be published in the Pacific Commercial Advertiser, a newspaper printed and published in Honolulu, once a week for three successive weeks, the last publication to be not less than two weeks previous to the time therein appointed for said hearing.

Dated at Honolulu, this 2nd day of March, 1907.

(Signed) ALEXANDER LINDSAY, JR.,
Second Judge, First Circuit Court.

Attest:
L. P. SCOTT,
Clerk, Circuit Court, First Circuit.

Meets every second and fourth Friday of each month, in I. O. O. F. Hall. Visiting brothers cordially invited to attend.
E. V. TODD, Sachem.
A. E. MURPHY, C. of R.

WAILUKU TOWN GOING AHEAD

New Buildings Projected---A Change at Puunene---A Historic Church.

WAILUKU, March 2.—The Maui Steam Laundry Co. has taken a long lease on a site near the railroad depot.

J. N. S. Williams has entered on his duties as superintendent of the Kahului railroad.

Owing to the departure of Chief Engineer J. N. S. Williams, several changes have been made at Puunene. W. Seaby has been appointed mill superintendent, M. Simpson master mechanic, E. F. Deibert in charge of the pumps and W. W. Westcott temporary chief engineer.

After relating the saving of the Wailuku courthouse from fire by members of the Improvement Association, who coming early to a meeting found the oil in a lamp blazing, the Maui News says: "Whether their action is to be commended or condemned is a question as the old building is a disgrace to the community and should long since have been replaced by an up-to-date building suitable to the needs of the court."

A Kaula friend has given the Hawaiian Board the price of a lot just bought from John W. Kalua, on which to erect a suitable building for a church and schoolhouse for the Japanese of Wailuku.

Miss Neva Bethell, the head nurse in the Hilo hospital, is engaged to Geo. B. Henderson of Wailuku.

The old Cornwell place at Waikapu is being renovated for an annex to the Maui hotel.

W. T. Robinson will erect a residence on the site of the Windsor hotel just torn down.

It is reported in Wailuku that the steamers between Honolulu and Hilo will call at Kahului instead of McGregor's landing under a new schedule.

Repairs upon the historic Pookela church have been commenced. Owing to old associations the Hawaiian Board made an exception in this case by giving \$500 for the restoration of the edifice. For so old a building the timber is in a remarkably good state of preservation. The wood of which the ceiling is made is sweet scented and not found in these islands or in the states, and is supposed to have been imported from China about the time that Father Green built this church. (Query: May it not be sandalwood?) It is said that at one time this immense building was filled with worshippers every Sunday and that 800 members were enrolled. For years this church was the center of the religious life of the seminary for girls which later was moved to the present site of Maunaloa. Pookela is especially associated with the famous missionary family of Greens. In Hawaiian history this old church was the scene of events of great importance to people of Maui.

TESTS PATIENCE.

The Most Patient Honolulu Citizen Must Show Annoyance at Times.

Nothing spoils a good disposition. Nothing takes a man's patience. Like any itchiness of the skin. Itching Piles almost drive you crazy. All day it makes you miserable. All night it keeps you awake. Itch! Itch! Itch! with no relief. Just the same with Eczema.

Can hardly keep from scratching it. You would do so but you know it makes it worse.

Such miseries are daily decreasing. People are learning they can be cured. Learning the merit of Doan's Ointment.

Plenty of proof that Doan's Ointment will cure Piles, Eczema or any itchiness of the skin.

Frank Leibly of 326 S. Main st., Wilkesbarre, Pa., U. S., says: "It is with much pleasure that I testify to the merits of Doan's Ointment in cases of itching piles. I suffered from that tormenting affliction for the past year. I tried nearly everything that was recommended to me and what I saw advertised, but I could get no relief. Finally I procured Doan's Ointment. After a few applications I was much relieved, and, continuing the treatment, I was soon completely cured. I have felt no signs of that intolerable itching since, and it is four months ago since I used Doan's Ointment. To say that I was delighted is only half expressing my enthusiasm. I recommend this remedy whenever the opportunity is presented. You may publish my statement at any time and I can always be found at 326 S. Main street, and will vouch for the same."

Doan's Ointment for sale by all dealers; price 50 cents. Mailed by The Hollister Drug Co., agents for the Hawaiian Islands.

Remember the name DOAN'S, and take no substitute.

Vapo-Cresolene
Established 1879

Whooping Cough, Croup, Bronchitis, Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics

Does it not seem more effective to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach?

It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

Those of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat.

Sold by druggists. Send postal for booklet.

VAPO-CRESOLENE CO., 180 Fulton St., New York, U. S. A.

GOOD TELEPHONE TO BE IMPROVED

Kohala Points With Pride to Various Things---A Bad Road.

KOHALA, February 28.—With Speaker and Clerk to the Legislature chosen from the district, Kohala feels pleased generally.

Baseball for the past week has been interesting. Two games between Kapau and Hawi teams resulted in a win on each occasion by the former, the scores standing 21-20 and 17-9. This gives Kapau the championship, with an unbeaten record for the season.

The weather of late has been variable, and much sickness, principally colds, is reported.

That we are an up-to-date community is evinced by the fact that, although we boast of the best telephone system in the islands, our indefatigable superintendent, G. P. Tulloch, is busy installing one of the latest improved American Electric Co.'s express switchboard and telephone systems throughout the district. We thought we had all that was coming to us before, but evidently Mr. Tulloch thinks otherwise. Travelers and drummers from Honolulu have always had good words for the local system and will appreciate the innovation all the more.

Last Tuesday residents of the district were treated to a view of the Japanese warships, passing in single file along the coast, on their way to Hilo.

As the news spread, all the best vantage grounds were quickly occupied, especially by the sons of Nippon, who thoroughly enjoyed the sight.

I hear that efforts are to be made locally to petition the present Legislature to allot sufficient funds for a new grade road between here and Waimea. I am informed, upon good authority, that the ranch holders will assist the project by foregoing all compensation for lands that may be required of them, should the improvement materialize. It is badly wanted, as the present road is a severe strain upon horses, and in wet weather is difficult to negotiate. Speaking of roads, I hear that R. R. Elgin of the Hawaii Railway Co. has just completed a good piece of work by connecting the Mahukona Government wharf with the main road.

The Secretary of Agriculture at Washington has written to H. P. Wood expressing his regret that it will be impossible at present to send a road expert to Hawaii, but holding out the hope that such may be done later.

Secretary Wilson said: "I have the honor to acknowledge the receipt of your letter of January 30, in which you request that Mr. Sam C. Lancaster, or some other representative of this department, be sent to Hawaii in the interest of road improvement. I regret very much that it will be impossible for a representative of this department to be sent to Hawaii at the present time on account of lack of necessary funds. Later on, however, we may be able to do so, in which event we shall take pleasure in advising you."

"I should like very much to have this department keep in touch with road work in the Hawaiian Islands, and would therefore request that you put the director of the office of public roads of this department in communication with the proper road authorities."

FEDERAL ROAD EXPERT NOT NOW AVAILABLE

PEPEKEO LIGHT NOW COMPLETED

PEPEKEO, February 28.—Although somewhat delayed by non-arrival of material, the Pepeekeo light will be finished by Saturday.

The new light is of the beacon type, the same as the one at Kalaupapa and Nawiliwili, except the mast which, instead of being of wood thirty-two feet high, is of steel and sixty feet high, being the tallest mast of its kind on the islands.

There was a break down at Pepeekeo mill last Wednesday. The shaft of one of the rolls of the last mill was twisted off, but it was soon replaced by an extra roll and Thursday night the mill was grinding again.

KAMAAINA.

PALAMA CHILDREN ENJOY OUTING

The 9:15 train on the O. R. & L. road on Saturday carried more than ninety children, Mr. and Mrs. Rath, and teachers of Palama Sunday school, to Pearl City for a day's outing. Included in the number were boys from the club connected with the settlement.

W. W. Hall tendered the use of his cottage for the day and the children had a fine time. The larger boys proved themselves a great help to the ladies in carrying the baskets of lunch, so on provided for the youngsters. So many good things had been prepared that two meals were necessary to reduce the quantity to proportions readily removed. During the day Philip Hall took some of the children out for a sail and Mr. Rath headed the others at different games and races. There was a full box of oranges among the provender and some of them were used as prizes in the athletic events. It was a very successful affair.

Auction Sale
At my salesroom, 847 Kaahumanu Street.

Tuesday, March 5, 1907

AT 10 O'CLOCK A. M.,

You want fire insurance; no need arguing that point, and when you want it you want it in "the best" company. That's the California. Trent & Co., agents.

New lingerie waists at Sachs'.

LOCAL BREVITIES.

Hawaiian Lodge stated meeting this evening at 7:30 o'clock.

Regular meeting of Harmony Lodge, I. O. O. F., at 7:30 o'clock this evening. H. P. Baldwin, W. A. Kinney and J. P. Cooke were among the passengers from Kauai in the W. G. Hall yesterday.

The Ministerial Union will meet this morning in the Central Union church, at the usual time, ten o'clock. The meeting will be addressed by Bishop Cranston. All members of the Union are urged to be present.

Pablo Alicea, a Porto Rican man, was arrested yesterday afternoon for a brutal case of criminal assault on a little Hawaiian girl. At the time of his arrest Alicea offered to bribe the policeman with a bottle of wine.

Tom Naukana and Kini Kalaikini were arrested on Saturday afternoon by Special Officer Madeiros on a charge of larceny in the second degree. Madeiros needed no assistance in bringing the pair of deep-dyed villains to the station, for neither of them looked to be over eight years old. Their alleged crime is the swiping of a twenty dollar gold piece from a woman and the boys acknowledge the swipe without a tremor. The major portion of the plunder was rescued before the two could spend it all in cornucopias and candies and was returned to the owner.

Between the time of the closing of the police court on Saturday and midnight of that day eight drunks were brought before the receiving clerk. One of these was J. G. Wyman, who had been released on suspended sentence on Friday morning, on his word being given that he would eschew the flowing bowl. That afternoon he was again arrested, drunker than before, but when called upon on Saturday had skipped his bail. The justice accordingly issued a bench warrant, upon which he was rearrested being at the time still deeper in the embraces of Bacchus.

GAMBLING JOINT IS WELL RAIDED

One of the best protected gambling joints of the city was successfully raided last night by the police and seventeen pai-kau players secured. The game was in progress in a room near the corner of Maunakea and Hotel streets, over the drug store of Dr. Akina, entrance to it being gained by the players through an elaborately guarded door and staircase from a back alleyway. The police did not secure their entrance that way, however, as it would have taken fifty policemen an hour to cut their way through the two barred doors, both of them rigged with string and pulley to allow of their being opened from above by the lookout.

The entrance of the police was through a skylight, to pass which it was found necessary to do some prying open with an iron bar. The noise made in doing this alarmed the Chinks, who hastened to put away the evidence of their game, but they had been watched for nearly ten minutes through the same skylight by Officers Leal and Apana. The game had been a big one and the stakes ran high until the whole affair was so summarily stopped. Before trying to pry open the skylight, Apana had thought to slide into the room down a ventilator shaft, but found to his great disgust that crossbars had been put in the middle of it and he could neither get down nor go back.

The exits to the room had been guarded before Leal and Apana effected their entrance from above and not one of the assembled gamblers escaped. A rigorous search by the police failed to locate the dominoes and dice the Chinamen had been watched using, but a great quantity of evidence was otherwise secured. Even one of the heavy doors, showing the iron bar in place, will be exhibited to Judge Whitney this morning, to give him some slight idea of the way the gamblers protect themselves from police interference.

Open-Stock Dinnerware Patterns

Before the advent of the "open-stock" idea in dinnerware one had to buy dinner sets of fixed composition as made up by the manufacturer.

When you broke a piece it took months to obtain one to match it—frequently it was an impossibility.

From an open-stock pattern you can nowadays build up a set from a small initial purchase, or you can buy a complete set. And we can replace any breakage instantly—because we carry the patterns in bulk, not as sets. See the point? Many new patterns recently added.

Monster HOSIERY SALE

A great purchase of Men's, Women's and Children's Hosiery at about 40 per cent off ordinary prices.

The opportunity came our way and we divide the benefit with you. . .

We will commence Friday, March 1, a big four days' sale of the largest, cheapest, and best assorted stock of Hosiery that was ever shown in Honolulu. . . .

When we say the sale will last only four days we mean it. Every pair should be sold in one day at the prices we are offering, but should there be any left-overs at the end of the fourth day, we will place them in stock at their ordinary values and turn our attention to something else.

Read this list of prices and come to Alakea street and inspect the various lines all laid out on the tables, marked and classified in their various lots.

Lot 1 85 dozen Women's Fine Seamless Hose, 2 pairs25c.
Lot 2 60 dozen Women's Full Fashioned Hose, per pair.....20c.

MARINE

The North German Lloyd training ship, Herzogin Cecilie, arrived yesterday morning from Leith, Scotland, after an excellent passage of 107 days. She brings a general cargo of 4200 tons consigned to H. Hackfeld & Co. and has one passenger, Herr Grandhomme, of Frankfurt, who will spend some time in Honolulu. Mr. Grandhomme is traveling for pleasure and is making the circuit of the globe in sailing ships. The Herzogin Cecilie is one of the regular training ships of the great German company, carrying 57 cadets, five officers and sixteen men, the latter including butcher, baker, three cooks, and the other supernumeraries necessary for the comfort of the ship's company of embryo officers. In addition to these the vessel numbers among her crew a physician and an instructor for the cadets, making the total of the ship's company 79 men.

The training ship is especially well fitted for her work. She is a roomy vessel of 3242 tons gross register and is fitted with watertight compartments and a double bottom, an unusual feature in a sailing ship. The cargo is stowed in the five compartments, between compartments numbers 2 and 3 being a special compartment, frame wide, in which is stored the fresh water supply and which is also used as a pump room. This compartment is connected with a tunnel, running the full length of the ship, in which are all the pipes and valves necessary to empty the double bottom and bilges. The furnishings of the vessel are magnificent, resembling more those of a liner than a ship. Between decks, in addition to the regular living quarters of the crew, is a school room where the cadets are grounded in navigation and the use of the English language, a four cot hospital, beautifully kept, bright and spotlessly clean, and a room for an ice-making plant. In this room is also a soda water machine, which turns out carbonated drinks at a cost of less than one cent for a dozen bottles.

Forward is the donkey-engine room, in which a boiler of a unique design has been installed. This boiler has the water tubes perpendicular instead of, as is usual, horizontal, and is stated by the officers to be an exceptionally useful design for getting up a speedy head of steam. So far as is known there are only three boilers of this particular make in existence. In addition to the ordinary steam winches for the handling of cargo, the vessel has also a steam anchor winch, capable of bringing home the anchor from a depth of sixty fathoms in ten minutes.

Aids to navigation is a T-shaped funnel, the ends of the arms extending out to the side of the ship. This is an innovation of a former chief officer of the Herzogin Cecilie to carry the smoke from the galley away with out blackening up any of the white woodwork of the vessel, it being so arranged that the smoke is always pouring out of the leeward end of the pipe. In all respects the ship is worthy of the crew she carries, her cadets being recruited from among some of the best families of Germany and from whom the company will recruit its officers to command its vessels in every sea. Altogether the North German Lloyd has aloft today a total of 600 captains and officers.

The Herzogin Cecilie arrives here with her crew in good health and in excellent humor because they have beaten the best voyage of any ship of their company between this port and Leith by six days. After clearing the Channel the ship made Honolulu in 97 days, experiencing good weather except when rounding the north of Scotland and the Horn. Captain Dietrich and Chief Officer Walter expect the visit of the German training ship to Honolulu will last for four or five weeks at least, during which time the cadets will be given a good deal of shore liberty. Included among these are some who visited Honolulu with ship Herzogin Sophie Charlotte last June.

SUGAR ON KAUAI

The following amounts of sugar available for shipment on Kauai are reported by Purser McNamara of the steamer W. G. Hall: K. S. M., 6500; W., 2000; Mak., 31,319; G. & R., 11,339; M.C.B., 26,902; K. P., 3750; Lihue, 10,475; H. M., 22,421; M. S., 26,000, and K. S. Co., 500.

MARINE NOTES.

The Inter-Island steamer Helene will sail for Maui and Hawaii ports at noon today.

The steamer Iwaland arrived yesterday morning from Molokai on her regular run.

The ship Claverdon arrived at Kahului on Wednesday, being towed into the harbor by the steamer Maui.

The steamer Maui brought in a big freight cargo yesterday morning from Hawaii, consisting of 4500 bags of sugar and 90 head of cattle. She arrived at 5:30 o'clock, bringing no passengers.

The Inter-Island steamer W. G. Hall docked at the Inter-Island wharf yesterday morning a few minutes after seven o'clock. Both going to and returning from Kauai she experienced heavy weather. She brought 5500 bags of sugar and twenty-three passengers.
