CORRESPONDENCE.

A Plum for "Volunteer."

ED. THE INDEPENDENT:—

A person who signs himself "A Volunteer" in the Bulletin of March 29, writes thus: "Men who are known to be 'rank royalists' are being added to the Government salary list, and good staunch annexationists are being turned out for no reason at all." My dear Volunteer, the Government has awakened to the fact, that annexation "is buried so deep that it will take twenty or thirty years to resurrect it again with any kind of life whatever. And further more, the Government has learned by dear bought experience, that those rank royalists are the only true followers of the prophet, and are "rank royalists" on the principles of right and justice.

Another thing the Government has learned the fact, that a man who will work for annexation against the will of the people, is not the one to be trusted with any part of the ship of state in a storm. If Volunteer is right in his surmises, it goes to show that the Government is secretly but timely beginning to practice a little common sense at last. "Volunteer" should take a little more notice of the signs of the times and cut his cloth accordingly; as the Government is becoming aware, that enthusiastic gun swabbers for pap, make bad coffee planters.

FROM WASHINGTON.

Extracts from the letter of a lady of high social standing to a relative in this city:

"The two men who represent your very doubtful republic in Washington have found the place grow very frigid since the arrival of your outraged Queen. They have found the Corps Diplomatique, the officials of the Administration and the ladies of the Haut ton to have suddenly developed marble hearts. The wicked abuse which the first annexation commissioners, that *persona non grata* the uncouth Thurston, and latterly Hatch, Hastings and wife have heaped upon your dethroned Queen, representing her as an ignorant heathen woman, have been utterly dispelled by the appearance of the "heathen" herself. Very few have been permitted to see her so far, I among the happy number, and Washington is charmed with the grace, dignity and intelligence of this woman, once a queen and still a queenly woman in spite of the disreputable abuse that has been heaped upon her. I am sorry to say, by my fellow countrymen. Shame on our American sisters who, forgetting their honorable nationality and the noble spirit of '76, could have joined with traitors and wrote such scurrilous letters to the American press in abusive denunciation of a Queen and a woman who appears to be many times their Christian superior for she has not one word to say in recrimination of those who have abused her and, under the cover of the American flag, outraged her and her people who trusted to American honor. Some of our ladies have gone so far as to suggest an organization to compel the President to allow the women of America to blot out the evil spot on America's escutcheon, and carry Queen Liliuokalani back in triumph to Hawaii. Washington society votes that our American brothers and sisters in Hawaii are a bad lot and we repudiate them. Mr. — is completely dumfounded at the difference in the actual character and the maliciously reverse picture which was painted by the emissaries of your usurpers. He will draw these contrasts and will denounce the authors of a crime against Christianity and civilization. More than ever has the proposition of these queer gentlemen in Washington to annex Hawaii to America become unpopular. The women of America will resist to the last any proposition to further blur our national honor by annexing a little country that was stolen from the people by a mob of robbers. If any more specimens of American degeneracy come to Washington they will meet with a very cold reception. It is not with us a question of Democrat or Republican but true-blue Americanism, and if our men will not uphold American honor the women will." * * *

CLEVELAND IN HISTORY.

We are aware that our annexation friends prefer to value the favoring views of obscure village Journals which republish editorials written here in Hessian Journals to the fair criticisms of such influential papers as Harper's Weekly, which live for ever and count among their readers millions among the most intelligent in every country of civilization.

THE INDEPENDENT is satisfied that the following, taken from a review of Mr. Cleveland's presidential career, will meet with the endorsement of all true hearted and public spirited Americans who are not controlled by the personal selfishness of a greed for wealth, but are inspired by genuine patriotism and the deep rooted love of country.

Mr. Cleveland began his second term as President by preventing the consummation of a great wrong to the people of this country. He found pending in the Senate a treaty making the United States the protector of the new "republic" of Hawaii. The treaty was the work of schemers whose object was to unite Hawaii with this country, either as a Territory or State, or as a county of California. It was an official response to Minister Stevens's land-grabbing despatch that "the Hawaiian pear is now fully ripe, and this is the golden hour for the United States to pluck it." Mr. Cleveland did not believe either in the establishment of a protectorate or in annexation, and therefore he withdrew the treaty. He believed that the revolutionists had been aided by the American marines, and that the United States ought to undo its wrong and make reparation. His solution of the Hawaiian problem saved this country from deep disgrace and from the commission of a crime to the like of which, according to our Jingo friends, England is so prone that a general arbitration treaty with her would be of doubtful morality.

FLYING ACROBATS.

The Best Show of the Season.

The audience which was present at the Opera House last evening was justly enthusiastic over the performance of the talented artists belonging to the Jordan troupe.

In our somewhat long experience we have rarely seen acrobats of the magnificent standing and ability of the troupe now visiting Honolulu.

The word went forth, this morning and when the people learned of the proficiency of troupe there was a rush for seats, and we expect that the red light notifying the public of a full house will be in evidence before 8 o'clock.

The wonderful feats of the Jordans can not be forgotten by those whose good fortune it is to watch them swinging from trapeze to trapeze in a most perilous manner.

The lady who walks the wire, however, is the star of the company. How she does it we are unable to know, but she dances, skips and romps about in a manner that certainly would paralyze even our annexation commissioners.

To fill out the entertainment of the evening Burke, the well known comedian, and Grace Forest introduced many comical sketches, and succeeded in keeping the audience in a constant roar of laughing.

The local hits in regard to the Hagey Institute, friend Kirkpatrick, and others were received with a loud "guffaw" from the people present.

The Opera House ought to be filled to its utmost capacity in the future whenever the "Flying Jordans" appear. It is a good show, and THE INDEPENDENT says so.

TOPICS OF THE DAY.

The virtuous organ of the "best government" says: "Every movement made by us on lines that are not truthful injures our cause. A false statement is like a nail dropped into fine machinery." These are brave words spoken on behalf of a government whose corner stone is deceit. The memorial to the President of the United States signed and borne to Washington by the Annexation Commissioners was a tissue of falsehoods. The sophistication of statistics for use in Washington has been so clumsily done that the figures have indeed been like "nails dropped into fine machinery."

The Advertiser says that the charge of sodomy preferred against D. W. Corbett was *nolle prosequi* by the Attorney-General. We were in Court when the sentence was passed upon and there was nothing said of a *nolle prosequi* upon the charge of sodomy, and we are informed that the court records bear nothing to this effect. As usual the "best government" in its struggle to protect a criminal of good standing has made a bad matter worse. The community stands with THE INDEPENDENT in this matter.

Upon the arrival of the Australia we received information that Mr. Dole's Commissioner, Mr. Thurston, was in San Francisco. This is the second time that Mr. Thurston has left Washington under circumstances not at all creditable. We will publish on Monday extracts from a letter that will make clear the probable cause of Mr. Thurston's appearance in San Francisco, and for the political semisault of the "best government" on the Japanese question, as expressed in the Advertiser.

Desiring to heal the breach that seems to be widening between the N. G. H. and the Executive, we have to say that the non-appearance of the President at the "pow wow" that was set for yesterday was due to the fact that the Presidential beard had been washed at noon and the bearer of it was sunning himself at Diamond Head, where the trade winds were blowing through the said beard to aid in the drying. Only this and nothing more.

The Boston Transcript of March 6th, says: "There was a time when Senator Morgan of Alabama was credited with a judicial temperament and a wide range of information on public affairs. Whether he deserved to be or not we do not know, but if that ever was his political estate, how he has fallen from it!" Leslie's Illustrated Weekly, in a recent issue, gave the Alabama Senator a scoring for his lapses from decency. Senator Morgan is the champion of this "funny little republic."

The change of heart of our "best government these islands ever had," as witnessed by its organ, the Advertiser, this morning, in its editorial on "The Japanese Attitude," is only too easily understood. After sending the hoodoo, *persona non grata* Thurston, to Washington with a scare up his sleeve, to force the hand of President McKinley as to the annexation of Hawaii, to the effect that Japan had political designs upon the autonomy of this "funny little republic," it now takes water. Since Mr. Thurston's miserable failure to scare, the "best government" has had its eyes opened, by the sugar interest, to the fact that it will not do to offend Japan lest a source of labor supply be cut off. So now the Government organ hastens to say: "On the contrary" the Japanese Government "has studiously, carefully, and honestly abstained from taking any measures whatever towards securing any political control of these islands."

The April edition of The Friend is to hand. The reverend editor is at his old game of abusing and defaming Queen Liliuokalani. He has no words to say about the ex secretary of the Young Men's Christian Association and his crime.

CRICKET.

The Honolulu Gain an Easy Victory Over the Visitors.

It was a splendid cricketers' day yesterday and the rival teams at the Baseball League grounds had a most enjoyable day. It was what is known as a "bowlers day" when the batsmen were mowed down like standing corn before the reapers' sickle. Although the Honolulu suffered for a time severely from the skill of the Wild Swan, no less than eight wickets falling for seven runs, they eventually won by ten wickets through the unexpected stand with the willow by Shill-toe and Hatfield. There was some very pretty and excellent playing shown throughout the game, and there were no unpleasant incidents to mar the day's pleasure. The usually ungracious task of umpiring was most satisfactorily discharged by Robert S. Scrimgeour and T. A. Simpson. A large number of the Wild Swan's men was on the grounds, and temperance hospitalities in the shape of tea, lemonade, beer, and a Wild Swan brew were carefully provided by the ship, the barrack's boys, the club and others. All were so satisfied with the day's game that a return match will be played on the return of the Wild Swan from Kauai, when the victors will as usual win. The following is the score:

Honolulu, April 3, 1897.

The arrival of the last "Australia" was greeted with a sigh of relief from the whole community. The unusually long interval between mails had made people quite anxious, and rumors of war and other political disturbances were flying as thick as leaves in Vallambrosa. The encouraging news of the probable passage of the Dingley bill, imposing a duty on all foreign Sugars while preserving for Hawaii nei the advantages of the Reciprocity Treaty, gladdened the hearts of all, planters as well as merchants, who predict a new era of prosperity and progress for these beautiful Isles of the Pacific. News was also brought of the knocking out of Champion Jim Corbett by his sturdy opponent Fitzsimmons.

The TRIBUNE BICYCLE knocks them all out. Like the Roman tribunes of old, it stands on a pinnacle of fame, elevated above all others, and like Fitzsimmons it beats all the other Champions.

The '97 MODEL is the acme of perfection in wheels; it has no equal. We received a number of them by this "Australia" and can furnish them in Black, Royal Blue or Maroon.

Immediately after she was announced Dr. Day, the Port Physician, went on board, and subsequently a special meeting of the Board of Health was held, there being present, Minister Cooper, President; Dr. Day, Mr. Lansing, Mr. C. A. Brown and Keliipio, Dr. Emerson coming in at the close of the meeting.

Dr. Day having reported that small pox was still prevalent in Yokohama; that from March 13th to March 23d, there were 95 cases and 37 deaths, and that there had also been 47 cases of typhus fever and 13 deaths from that cause in Tokyo since March 1st; and further that Dr. Eldredge, the Hawaiian health representative at Yokohama reported 124 cases of small pox and 43 deaths from the same during the two weeks ending on March 24th, the Board reluctantly came to the conclusion that the Chinese Embassy and cabin passengers could not be allowed to land, and that the Chinese local delegation could not go on board, and Mr. Geo. Kim, Chinese Commercial Agent was consequently promptly notified of this decision.

It had been arranged that, if all went well, His Excellency Wa Tung-fang, Minister to Washington, would call upon the Government officials and subsequently hold a semi-official reception at the Chinese United Society Hall, and probably remain here for two days. Owing to the change in the program the Gaelic sails at 6 o'clock this evening, after landing her 88 Chinese and 389 tons of cargo.

There were no cabin passengers for this port, but there are 436 passengers on board including 88 Chinese for Honolulu, 281 for California, and 19 European steerage. The 48 through cabin passengers are: H. E. Wu Tung-fang, Mrs. Wu Tung-fang, Master Wu Chu, Mr. and Mrs. Ho Yow, Fung Wan Pao, Mr. and Mrs. Li Chung Hsu, Show Ting, Ching Chi, Huang Chung-hio, Chung Pao-hsi, Wang Ta Chuo, Chow Tse Chi, Chong Yui Tung, Loo Nai-hsum, Chang Pao Tung, Chiu Shu Tsz, Pu Yang Chin, Wu Tsu Yin, Fong Tsu-pai, Chuang Hai Kwan, A. Graff, Miss A. Morrow, E. J. Bates, Miss Scott, Mrs. T. W. Blackiston and 2 children, Mr. and Mrs. J. R. Rowlen, T. L. Brower, Mrs. A. Brower, Mr. Yeend Duer, Mr. and Mrs. L. J. Healing, H. Mutou, Mr. and Mrs. W. E. Story and 3 children, A. L. Rossi, Dr. Webster, Shen Tung, Mrs. Shen Tung.

Monster Leper Benefit.

The big benefit on Monday night to be given in Prof. Bristol's pavilion promises to be a most successful affair. Besides Bristol's wonderful performing horses, Minister Cooper has kindly given the services of the Government band, Prof. Berger has arranged a fine concert program for the event and other special features will be introduced. Tickets were placed on sale at the banks and principal business firms of the city yesterday and many have been already sold. The price is within the reach of all, being but 50 cents for the best seats.

A benefit at this time could not be given for a more deserving cause than the unfortunates on Molokai and the pavilion should be packed to the doors Monday night. Many theatre parties have been arranged to attend this the last exhibition of Bristol's clever animals and at the same time help to relieve the suffering on Molokai.

Tickets may be had at any of the banks or principal firms of the city up till noon on Monday after that at Wall Nichols Co.

Mr. and Mrs. Robert Ryeroft arrived this morning from Puna. Mr. Ryeroft who is a prominent coffee planter is off for California and will remain abroad during the next three months.

The numerous friends of Palmer Woods in this city are awfully pleased to learn about the arrival in his household of a new boy. The first of April is not always a "fool's" day and Palmer's little heir knew what he was about when he made his appearance on that very date.

Stock taking means a lot of work, a lot of digging out in the corners. We have been at it for two weeks and only half done—another fortnight will settle it.

The delving means finding good goods stowed away in dark corners. Now we are bringing them out into the sunlight where they may be seen. The price of most goods, brought out by the stock taking is a third less than before—short pieces, remnants of from four to a dozen yards go to you at half cost.

The bargain counter is piled up with them. Good quality every-one and, in most instances, double value. You can't afford to Miss the opportunity—we don't intend to let you. The sale of a remnant means the sale of something else. This is a trade secret but our customers have our confidence.

Bargain days will not last forever; it's the remnants that make them and you must grasp the opportunity as it flies. Dress patterns in every variety are on the counter.

Inquiry here confirms the story coming from Lima to the effect that the State Department has lodged a demand with the United States charge of legation at Lima for the release of the mate of the American bark "Uncle John." He was ashore on December 19 last at Callao, and was arrested because of his constant demand for "Rainier Beer." On tap or in bottles at the Criterion Saloon.

Captain Peter Lee is still in town. He will leave for his volcano ranch on the Kinan next week. The captain says that even "Pele" has gone into the coffee business and that all the people within the jurisdiction of the dead goddess intend to stay there.

Mr. J. M. Grossman, a prominent coffee planter and brother to our popular "Doc" Grossman of this city arrived this morning with his father, Mr. J. E. The Cocaine Habit.

The cocaine habit seems to have taken a firm hold of the quiet people of Connecticut. A Hartford correspondent says that it is even more common than the tobacco habit. The victim does not become so hilarious as the victim of the alcohol habit, but he feels even worse at the homestretch. This report of the effects of the indulgence in cocaine will be read in the light of old-time temperance lectures. The public then were assured that a single glass of whisky left its mark on the vital organs. The wonder was how any one could take a drop occasionally and continue to enjoy good health. It seems useless to discuss the question whether or not the mass of mankind would be better off if all kinds of stimulants were denied them. There are constitutions and temperaments which are better without stimulants. Other persons, differently constituted and with less harmonious temperaments, crave stimulants. It cannot be said that the habits of any people afford a test for comparison. In the United States there are abstemious people, but no abstemious States. In New England where there were prohibitory laws until it became clear that such laws do not prohibit, law only succeeded in making the drinking habit more irregular. Enforced abstinence for a few days would be followed in many cases by excessive indulgence.

The cocaine habit is, without doubt, more injurious than the whisky habit. The fact that cocaine can be taken secretly and without the effect that follows excessive indulgence in whisky renders it the more dangerous. Taking all things into consideration, the conclusion seems to follow that temperance is better than intemperance, and that the safest way to insure the observance of the rules of temperance is to cultivate the will power. Teach men and women to control themselves. At best the law can only take charge of those who have abandoned themselves to self-indulgence.

To Abolish the Treating Habit.

Out of the Town of Danbury, Conn., there is to proceed a movement, propelled by a special parlor car and headed by George Bidwell, known to fame as the Bank of England forger, which will have for its object the abolition of the great American "treating" habit. Bidwell has invited every saloon-keeper in Danbury to sign a pledge that he will refuse to serve drinks to any one who does not pay for them himself. The news has not come that there has been a general and vociferous response to this invitation.

That the treating habit often is productive of intemperance in persons who lack the moral courage to say no when a convivial friend invites them to have something, but who would not be guilty of over-indulgence if they were left to follow their own desires in the matter of liquid refreshments, is an acknowledged fact. Owing to the treating habit, not only many men take many drinks for which they do not care, but also many men pay for many drinks for which they have not the slightest desire to pay. But according to the unwritten code of the Great American Order of Good Fellows, it is imperative that when one member of a party of five or six has "bought," every other member must "buy." And if the first one begins the round anew, it must be again completed by the others. The moral obligation to follow this method of procedure is so strong that few dare to get out from under it. And thus each spends more than he can afford or cares to spend, and drinks more than is good for him.

It would be well, therefore, for the general public, though not profitable for the saloon-keepers, if the movement to abolish the treating habit should meet with success, but it is not likely that it will.—*Albany Express.*

Scotch whisky has become one of the favorite beverages in Honolulu during the last year. The different business houses have competed to find the very best brand. The Royal Annex now claims to have imported a whisky which cannot be excelled. T. V. F. is the name and the letters stand for "The Very Finest." This whisky will be served exclusively at the Royal Annex and connoisseurs will do well to step in and taste the T. V. F.

CORRESPONDENCE.

A Plum for "Volunteer."

ED. THE INDEPENDENT:—

A person who signs himself "A Volunteer" in the Bulletin of March 29, whines thus: "Men who are known to be 'rank royalists' are being added to the Government salary list, and good staunch annexationists are being turned out for no reason at all." My dear Volunteer, the Government has awakened to the fact, that annexation "is buried so deep that it will take twenty or thirty years to resurrect it again with any kind of life whatever. And further more, the Government has learned by dear bought experience, that those rank royalists are the only true followers of the prophet, and are "rank royalists" on the principles of right and justice.

Another thing the Government has learned the fact, that a man who will work for annexation against the will of the people, is not the one to be trusted with any part of the ship of state in a storm. If Volunteer is right in his surmises, it goes to show that the Government is secretly but timely beginning to practice a little common sense at last. "Volunteer" should take a little more notice of the signs of the times and cut his cloth accordingly; as the Government is becoming aware, that enthusiastic gun swabbers for pap, make bad coffee planters. FROM WASHINGTON.

Extracts from the letter of a lady of high social standing to a relative in this city:

"The two men who represent your very doubtful republic in Washington have found the place grow very frigid since the arrival of your outraged Queen. They have found the Corps Diplomatique, the officials of the Administration and the ladies of the Haut ton to have suddenly developed marble hearts. The wicked abuse which the first annexation commissioners, that *persona non grata* the uncouth Thurston, and latterly Hatch, Hastings and wife have heaped upon your dethroned Queen, representing her as an ignorant heathen woman, have been utterly dispelled by the appearance of the "heathen" herself. Very few have been permitted to see her so far, I among the happy number, and Washington is charmed with the grace, dignity and intelligence of this woman, once a queen and still a queenly woman in spite of the disreputable abuse that has been heaped upon her, I am sorry to say, by my fellow countrymen. Shame on our American sisters who, forgetting their honorable nationality and the noble spirit of '76, could have joined with traitors and wrote such scurrilous letters to the American press in abusive denunciation of a Queen and a woman who appears to be many times their Christian superior for she has not one word to say in recrimination of those who have abused her and, under the cover of the American flag, outraged her and her people who trusted to American honor. Some of our ladies have gone so far as to suggest an organization to compel the President to allow the women of America to blot out the evil spot on America's escutcheon, and carry Queen Liliuokalani back in triumph to Hawaii. Washington society votes that our American brothers and sisters in Hawaii are a bad lot and we repudiate them. Mr. — is completely dumbfounded at the difference in the actual character and the maliciously reverse picture which was painted by the emissaries of your usurpers. He will draw these contrasts and will denounce the authors of a crime against Christianity and civilization. More than ever has the proposition of these queer gentlemen in Washington to annex Hawaii to America become unpopular. The women of America will resist to the last any proposition to further blur our national honor by annexing a little country that was stolen from the people by a mob of robbers. If any more specimens of American degeneracy come to Washington they will meet with a very cold reception. It is not with us a question of Democrat or Republican but true-blue Americanism, and if our men will not uphold American honor the women will." * * *

CLEVELAND IN HISTORY.

We are aware that our annexation friends prefer to value the favoring views of obscure village Journals which republish editorials written here in Hessian Journals to the fair criticisms of such influential papers as Harper's Weekly, which live for ever and count among their readers millions among the most intelligent in every country of civilization.

THE INDEPENDENT is satisfied that the following, taken from a review of Mr. Cleveland's presidential career, will meet with the endorsement of all true hearted and public spirited Americans who are not controlled by the personal selfishness of a greed for wealth, but are inspired by genuine patriotism and the deep rooted love of country.

Mr. Cleveland began his second term as President by preventing the consummation of a great wrong to the people of this country. He found pending in the Senate a treaty making the United States the protector of the new "republic" of Hawaii. The treaty was the work of schemers whose object was to unite Hawaii with this country, either as a Territory or State, or as a county of California. It was an official response to Minister Stevens's land-grabbing despatch that "the Hawaiian pear is now fully ripe, and this is the golden hour for the United States to pluck it." Mr. Cleveland did not believe either in the establishment of a protectorate or in annexation, and therefore he withdrew the treaty. He believed that the revolutionists had been aided by the American marines, and that the United States ought to undo its wrong and make reparation. His solution of the Hawaiian problem saved this country from deep disgrace and from the commission of a crime to the like of which, according to our Jingo friends, England is so prone that a general arbitration treaty with her would be of doubtful morality.

FLYING ACROBATS.

The Best Show of the Season.

The audience which was present at the Opera House last evening was justly enthusiastic over the performance of the talented artists belonging to the Jordan troupe.

In our somewhat long experience we have rarely seen acrobats of the magnificent standing and ability of the troupe now visiting Honolulu.

The word went forth, this morning and when the people learned of the proficiency of troupe there was a rush for seats, and we expect that the red light notifying the public of a full house will be in evidence before 8 o'clock.

The wonderful feats of the Jordans can not be forgotten by those whose good fortune it is to watch them swinging from trapeze to trapeze in a most perilous manner.

The lady who walks the wire, however, is the star of the company. How she does it we are unable to know, but she dances, skips and romps about in a manner that certainly would paralyze even our annexation commissioners.

To fill out the entertainment of the evening Burke, the well known comedian, and Grace Forest introduced many comical sketches, and succeeded in keeping the audience in a constant roar of laughing.

The local hits in regard to the Hagey Institute, friend Kirkpatrick, and others were received with a loud "guffaw" from the people present.

The Opera House ought to be filled to its utmost capacity in the future whenever the "Flying Jordans" appear. It is a good show, and THE INDEPENDENT says so.

TOPICS OF THE DAY.

The virtuous organ of the "best government" says: "Every movement made by us on lines that are not truthful injures our cause. A false statement is like a nail dropped into fine machinery." These are brave words spoken on behalf of a government whose corner stone is deceit. The memorial to the President of the United States signed and borne to Washington by the Annexation Commissioners was a tissue of falsehoods. The sophistication of statistics for use in Washington has been so clumsily done that the figures have indeed been like "nails dropped into fine machinery."

The Advertiser says that the charge of sodomy preferred against D. W. Corbett was *nolle prosequi* by the Attorney-General. We were in Court when the sentence was passed upon and there was nothing said of a *nolle prosequi* upon the charge of sodomy, and we are informed that the court records bear nothing to this effect. As usual the "best government" is its struggle to protect a criminal of good standing has made a bad matter worse. The community stands with THE INDEPENDENT in this matter.

Upon the arrival of the Australia we received information that Mr. Dole's Commissioner, Mr. Thurston, was in San Francisco. This is the second time that Mr. Thurston has left Washington under circumstances not at all creditable. We will publish on Monday extracts from a letter that will make clear the probable cause of Mr. Thurston's appearance in San Francisco, and for the political somersault of the "best government" on the Japanese question, as expressed in the Advertiser.

Desiring to heal the breach that seems to be widening between the N. G. H. and the Executive, we have to say that the non-appearance of the President at the "pow wow" that was set for yesterday was due to the fact that the Presidential beard had been washed at noon and the bearer of it was sunning himself at Diamond Head, where the trade winds were blowing through the said beard to aid in the drying. Only this and nothing more.

The Boston Transcript of March 6th, says: "There was a time when Senator Morgan of Alabama was credited with a judicial temperament and a wide range of information on public affairs. Whether he deserved to be or not we do not know, but if that ever was his political estate, how he has fallen from it!" Leslie's Illustrated Weekly, in a recent issue, gave the Alabama Senator a scoring for his lapses from decency. Senator Morgan is the champion of this "funny little republic."

The change of heart of our "best government" these islands ever had, as witnessed by its organ, the Advertiser, this morning, in its editorial on "The Japanese Attitude," is only too easily understood. After sending the hoodoo, *persona non grata* Thurston, to Washington with a scare up his sleeve, to force the hand of President McKinley as to the annexation of Hawaii, to the effect that Japan had political designs upon the autonomy of this "funny little republic," it now takes water. Since Mr. Thurston's miserable failure to scare, the "best government" has had its eyes opened, by the sugar interest, to the fact that it will not do to offend Japan lest a source of labor supply be cut off. So now the Government organ hastens to say: "On the contrary" the Japanese Government "has studiously, carefully, and honestly abstained from taking any measures whatever towards securing any political control of these islands."

The April edition of The Friend is to hand. The poverend editor is at his old game of abusing and defaming Queen Liliuokalani. He has no words to say about the ex secretary of the Young Men's Christian Association and his crime.

CRICKET.

The Honolulu Gain an Easy Victory Over the Visitors.

It was a splendid cricketers' day yesterday and the rival teams at the Baseball League grounds had a most enjoyable day. It was what is known as a "bowlers day" when the batsmen were mowed down like standing corn before the reapers' sickle. Although the Honolulu suffered for a time severely from the skill of the Wild Swan, no less than eight wickets falling for seven runs, they eventually won by ten wickets through the unexpected stand with the willow by Shilletoe and Hatfield. There was some very pretty and excellent playing shown throughout the game, and there were no unpleasant incidents to mar the day's pleasure. The usually ungracious task of umpiring was most satisfactorily discharged by Robert S. Serimgeour and T. A. Simpson. A large number of the Wild Swan's men was on the grounds, and temperance hospitalities in the shape of tea, lemonade, beer, and a Wild Swan brew were carefully provided by the ship, the barrack's boys, the club and others. All were so satisfied with the day's game that a return match will be played on the return of the Wild Swan from Kauai, when the victors will as usual win. The following is the score:

The arrival of the last "Australia" was greeted with a sigh of relief from the whole community. The unusually long interval between mails had made people quite anxious, and rumors of war and other political disturbances were flying as thick as leaves in Vallambrosa. The encouraging news of the probable passage of the Dingley bill, imposing a duty on all foreign Sugars while preserving for Hawaii nei the advantages of the Reciprocity Treaty, gladdened the hearts of all, planters as well as merchants, who predict a new era of prosperity and progress for these beautiful Isles of the Pacific. News was also brought of the knocking out of Champion Jim Corbett by his sturdy opponent Fitzsimmons.

The TRIBUNE BICYCLE knocks them all out. Like the Roman tribunes of old, it stands on a pinnacle of fame, elevated above all others, and like Fitzsimmons it beats all the other Champions.

The '97 MODEL is the acme of perfection in wheels; it has no equal. We received a number of them by this "Australia" and can furnish them in Black, Royal Blue or Maroon.

Lemarchand's boneless sardines go well at lunch—we've had such a continuous run on them that we have been forced to duplicate our last large order. Our present stock may not last until the next arrives.

The whole world boasts of the jams, preserves and pickles put up by Crosse & Blackwell and J. T. Morton. Our stock contains everything put up by these well-known firms. The last lot arrived by the Routenbeck and are absolutely fresh.

We have goods from the French factories that commend themselves. Lemarchand's high grade mackerel in oil is one of them. These are tinned in the same manner as his famous sardines and are a rare delicacy.

THE GAELIC ARRIVES.

The Chinese Embassy not Permitted to Land.

The S. S. Gaelic, Commander Wm. Finch, and Chas. E. Brown, Purser, arrived off port at an early hour this morning, ten days from Yokohama, having called in at her usual ports of calling.

Immediately after she was announced Dr. Day, the Port Physician, went on board, and subsequently a special meeting of the Board of Health was held, there being present, Minister Cooper, President; Dr. Day, Mr. Lausing, Mr. C. A. Brown and Keliipio, Dr. Emerson coming in at the close of the meeting.

Dr. Day having reported that small pox was still prevalent in Yokohama; that from March 13th to March 23d, there were 95 cases and 37 deaths, and that there had also been 47 cases of typhus fever and 13 deaths from that cause in Tokyo since March 1st; and further that Dr. Eldredge, the Hawaiian health representative at Yokohama reported 124 cases of small pox and 43 deaths from the same during the two weeks ending on March 24th, the Board reluctantly came to the conclusion that the Chinese Embassy and cabin passengers could not be allowed to land, and that the Chinese local delegation could not go on board, and Mr. Geo Kim, Chinese Commercial Agent was consequently promptly notified of this decision.

It had been arranged that, if all went well, His Excellency Wa Ting-fang, Minister to Washington, would call upon the Government officials and subsequently hold a semi-official reception at the Chinese United Society Hall, and probably remain here for two days. Owing to the change in the program the Gaelic sails at 6 o'clock this evening, after landing her 88 Chinese and 389 tons of cargo.

There were no cabin passenger for this port, but there are 436 passengers on board including 88 Chinese for Honolulu, 281 for California, and 19 European steerage. The 48 through cabin passengers are: H. E. Tickets were placed on sale at the banks and principal business firms of the city yesterday and many have been already sold. The price is within the reach of all, being but 50 cents for the best seats.

A benefit at this time could not be given for a more deserving cause than the unfortunates on Molokai and the pavilion should be packed to the doors Monday night. Many theatre parties have been arranged to attend this the last exhibition of Bristol's clever animals and at the same time help to relieve the suffering on Molokai.

Stock taking means a lot of work, a lot of digging out in the corners. We have been at it for two weeks and only half done—another fortnight will settle it

The delving means finding good goods stowed away in dark corners. Now we are bringing them out into the sunlight where they may be seen. The price of most goods, brought out by the stock taking is a third less than before—short pieces, remnants of from four to a dozen yards go to you at half cost. The bargain counter is piled up with them. Good quality every-one and, in most instances, double value. You can't afford to Miss the opportunity—we don't intend to let you. The sale of a remnant means the sale of something else. This is a trade secret but our customers have our confidence.

Bargain days will not last forever; it's the remnants that make them and you must grasp the opportunity as it flies. Dress patterns in every variety are on the counter.

There is always a desire for chinaware and the desire sometimes exists in the hearts of people who feel that they cannot afford to buy good ware. We have decided to sell china to our patrons as cheap as they can buy in the East, cheaper than in San Francisco. We are making specialties of sets in decorated or plain china, every piece of which may be replaced in the event of its being broken. Our line is full and we have duplicates of every piece sold

The quality of the goods is not to be judged by the price, if it was, the china would not be worth totting home.

The Cocaine Habit.

The cocaine habit seems to have
taken a firm hold of the quiet people
of Connecticut. A Hartford cor-
respondent says that it is even more
common than the tobacco habit.
The victim does not become so
hilarious as the victim of the alcohol
habit, but he feels even worse at the
homestretch. This report of the
effects of the indulgence in cocaine
will be read in the light of old-time
temperance lectures. The public
then were assured that a single
glass of whisky left its mark on the
vital organs. The wonder was how
any one could take a drop occasion-
ally and continue to enjoy good
health. It seems useless to discuss
the question whether or not the
mass of mankind would be better
off if all kinds of stimulants were
denied them. There are constitu-
tions and temperaments which are
better without stimulants. Other
persons, differently constituted and
with less harmonious temperaments,
crave stimulants. It cannot be said
that the habits of any people afford
a test for comparison. In the United
States there are abstemious people,
but no abstemious States. In New
England where there were prohibi-
tory laws until it became clear
that such laws do not prohibit, law
only succeeded in making the drink-
ing habit more irregular. Enforced
abstinence for a few days would be
followed in many cases by excessive
indulgence.

The cocaine habit is, without
doubt, more injurious than the
whisky habit. The fact that cocaine
can be taken secretly and without
the effect that follows excessive
indulgence in whisky renders it the
more dangerous. Taking all things
into consideration, the conclusion
seems to follow that temperance is
better than intemperance, and that
the safest way to insure the observ-
ance of the rules of temperance is to
cultivate the will power. Teach
men and women to control them-
selves. At best the law can only
take charge of those who have
abandoned themselves to self-
indulgence.

To Abolish the Treating Habit.

Out of the Town of Danbury,
Conn., there is to proceed a move-
ment, propelled by a special parlor
car and headed by George Bidwell,
known to fame as the Bank of Eng-
land forger, which will have for its
object the abolition of the great
American "treating" habit. Bidwell
has invited every saloon keeper in
Danbury to sign a pledge that he
will refuse to serve drinks to any one
who does not pay for them himself.
The news has not come that there
has been a general and vociferous
response to this invitation.

That the treating habit often is
productive of intemperance in per-
sons who lack the moral courage to
say no when a convivial friend in-
vites them to have something, but
who would not be guilty of over-
indulgence if they were left to follow
their own desires in the matter of
liquid refreshments, is an acknowl-
edged fact. Owing to the treating
habit, not only many men take many
drinks for which they do not care,
but also many men pay for many
drinks for which they have not the
slightest desire to pay. But accord-
ing to the unwritten code of the Great
American Order of Good Fellows, it
is imperative that when one member
of a party of five or six has "bought,"
every other member must "buy." And
if the first one begins the round
anew, it must be again completed
by the others. The moral obligation
to follow this method of procedure
is so strong that few dare to get out
from under it. And thus each spends
more than he can afford or cares to
spend, and drinks more than is good
for him.

It would be well, therefore, for
the general public, though not pro-
fitable for the saloon-keepers, if the
movement to abolish the treating
habit should meet with success, but
it is not likely that it will.—*Albany
