MEALS AT ALL HOURS.

**A CABLE IS PROBABLE.**

Two Bills Before Congressional  
Committees.

**ANNEXATION IN NEAR FUTURE.**  
Rushing Work Into Committees—The  
Monroe Doctrine—Congress to De-  
fine It—Pacific Cable Co. Would  
Like to Outdo Col. Spalding.

**WASHINGTON, Jan. 16.**—For-  
eign questions received considerable  
attention during the day. Hale spoke  
for an hour in favor of a Pacific cable  
connecting the United States and  
Hawaii. The Senator expressed the  
opinion that the annexation of the  
Hawaiian Islands to the United States  
was certain to be accomplished at an  
early day. The Cuban question was  
briefly discussed in connection with  
Call's resolution calling on the State  
Department for information as to the  
status of the uprising. The Monroe  
doctrine also received attention in a  
resolution by Sewell of New Jersey,  
declaring the limitations of the doc-  
trine and stating that President  
Cleveland's attitude was an extension  
of the doctrine beyond its original  
scope. A resolution was adopted re-  
questing the State Department for  
further information on Turkish and  
Armenian affairs.

Hale addressed the Senate on his  
bill authorizing the Postmaster-Gen-  
eral to contract with the Pacific Cable  
Company for the transmission of gov-  
ernment messages between the United  
States and Hawaii. Hale stated that  
in round numbers the bill commits  
the United States to a subvention of  
about \$250,000. It was plain business  
enterprise, bringing Hawaii close to  
our doors. Other nations had sought  
to establish an influence with the Ha-  
waiian Government, which, if suc-  
cessful, would involve nothing but  
debt to us.

The Senator detailed the efforts of  
Great Britain to secure Necker island  
as a landing place for a cable, and the  
frustration of its efforts by the Ha-  
waiian Government, sending a fast  
merchant steamer to the island and  
raising the Hawaiian flag. As to the  
influence of the cable on the question  
of annexation, the Senator said he did  
not care whether it would or would not  
expedite that result. Annexation was  
an event sure to come in the near fu-  
ture, and he did not want to precipitate  
it. Of one thing he felt sure, that with  
this cable built all the world would  
take notice that the interests of the  
two Governments and the two peoples  
would become so connected that at-  
tempts at interference from outside  
would forever cease. If we abandoned  
or were lagged in this project our  
British rivals would take the ground  
that we had left and by hook or by  
crook get a resting place on the Ha-  
waiian islands for a great military  
and commercial British oceanic cable.

Allen (Pop.) of Nebraska favored a  
cable to Hawaii, but opposed the  
present bill on the ground that he  
feared that the arrangement proposed  
would lead to disagreeable complica-  
tions. He said in reply to a question  
from Chandler that he did not think  
if the Government owned the lines it  
would be wise to lease them. He saw  
no reason why the Government  
should not control all the telegraph  
lines in the country or those extend-  
ing from this to other countries. He  
said that the present subsidies and  
that the present scheme, if executed,  
would open the doors to an expendi-  
ture of probably \$500,000,000. He re-  
ferred to the construction of the Pa-  
cific railroads on a subsidy, saying  
that he thought the Government  
ought to have built the roads itself.  
He confessed that this was paternal-  
ism.

Allen said that the Pacific roads had  
been looted and plundered, and the  
people were now met by a debt of  
\$60,000,000, which the cable must  
provide for. It would be the same  
with a Pacific cable company. An  
other corporation would be created to  
send its several tools to Congress to  
influence legislation. Allen said he  
favored the Nicaragua canal and a  
Pacific cable if they were built and  
operated by the Government.

At the close of Allen's speech the  
cable bill was referred to the Commit-  
tee on Foreign Relations.

**THEY WANT TO BE FIRST.**  
Rivalry to First Introduce the Cable  
Bill.

**WASHINGTON, Jan. 17.**—Edward  
L. Bayliss of New York, one of the  
projectors of the Pacific Cable Com-  
pany, which recently was given a  
hearing by the Senate Committee on  
Foreign Relations, today appeared be-  
fore the House Committee on Inter-  
state and Foreign Commerce to ex-  
plain the plans of his company, which  
he did at length.

The Pacific Cable Company was op-  
posed by Z. S. Spalding of the Ha-  
waiian islands, who is interested in a  
rival company, and which, as pro-  
jected, is to connect the United States  
and the Hawaiian islands. There is  
a well developed rivalry between the  
two House committees, the Foreign  
Affairs and the Interstate and Foreign  
Commerce, for the honor of bringing  
the Hawaiian cable scheme before  
Congress. Only yesterday Chairman  
Hit of the Foreign Affairs Commit-  
tee appointed a sub-committee to con-  
sider the cable question, but the Com-  
merce Committee has stolen a march  
on him by getting to work.

The bill of the New Jersey Cable  
Company, with which Spalding is  
identified, has been referred to the  
Foreign Affairs Committee, and it is  
possible that each of the two com-  
mittees will report a bill to the House.

Resolution Presented to Congress to  
Define Monroe Doctrine.

**WASHINGTON, Jan. 20.**—In the  
Senate today Davis (R.) of Minne-  
sota, of the Committee of Foreign Re-  
lations, arose as soon as the routine  
proceedings were disposed of and sub-  
mitted a favorable report on the reso-  
lution framed by him enunciating the  
Monroe doctrine. It was read from  
the desk, receiving close attention.  
The resolution, with preamble and  
all, is as follows:  
"Concurrent resolution relative to  
the assertion and enforcement of the  
Monroe doctrine:  
"Resolved, by the Senate, the House  
of Representatives concurring, that  
President Monroe, in his message to  
Congress of December 2, 1823, de-  
clared it proper to assert as a principle  
in which the rights and interests of  
the United States are involved, that  
the American continents, by the free  
and independent condition which they  
have assumed and maintained, were  
henceforth not to be considered as  
subjects for future colonization by any  
European power.  
"Whereas, President Monroe fur-  
ther declared in that message that  
the United States would consider any  
attempt by the allied powers of  
Europe to extend their system to any  
portion of this hemisphere as danger-  
ous to our peace and safety, that with  
the existing colonies and dependen-  
cies of any European power we have  
not interfered and shall not interfere,  
but that with the governments who  
have declared their independence and  
maintained it, who are independent  
we have, on great consideration and  
on just principles acknowledged, and  
we could not view any interposition for  
the purpose of oppressing them or  
controlling in any other manner their  
destiny by any European power in  
any other light than as a manifesta-  
tion of an unfriendly disposition to-  
ward the United States, and further  
reiterated in that message that it is  
impossible that the allied powers shall  
extend their present system to any  
portion of either continent without  
endangering our peace and happiness,  
and whereas the doctrine and policy  
so proclaimed by President Monroe  
have since been repeatedly asserted  
by the United States by executive de-  
claration and action upon occasions  
and exigencies similar to the particu-  
lar occasion and exigency which  
caused them to first be announced,  
and whereas the doctrine and policy  
so proclaimed by President Monroe  
have since been repeatedly asserted  
by the United States by executive de-  
claration and action upon occasions  
and exigencies similar to the particu-  
lar occasion and exigency which  
caused them to first be announced,

DANGERS INCREASING.

General Gomez Advancing Toward Havana.

THE SECOND CUBAN ARMY AT HAND

The Insurgents Firing Property. Railways Destroyed—Cane Fields Burned—Expenses Steadily Increasing—Great Loss to Business.

NEW YORK, Jan. 20.—The Herald's Havana cable special says: General Campos has gone. General Weyler is coming. Of the man who goes, history has already written much, and unless all signs fail will have more to write ere he has been long in Madrid. The man who comes Havana knows

left Managua, twelve miles from this city, fearing that the insurgents may make another attack upon it, and large numbers of people continue to leave other towns around Havana for this city, apprehending being robbed by the insurgents. The Spanish authorities at San Francisco de Paula, a village between this city and Santa Maria, have detained eight men who had prepared to join the insurgents.

Throughout the day information concerning the damage done by the insurgents in the province of Pinar del Rio continued to arrive here from various sources. Between Pueblo Nuevo and Ballate, in that province, all the cane fields have been burned, and at Passo Real and Los Palacios the insurgents have not only burned all the railroad cars but they have destroyed all the railway material of every description which they could lay hands on. In the province of Matanzas, the insurgents are again becoming active in anticipation of the coming of the second of East-tern army of the insurgents, under Generals Rabi and Maceo. Small bands are reported to be on the move in the vicinity of Caba, Bermejo, Roque, Bolandron and Jovelanos, which is seriously interfering with the plans of the Spanish commanders to collect a

GENERAL MAXIME GOMEZ, LEADER OF THE CUBAN ARMY.

chiefly by his record, made seventeen years ago in Cuba, and since then in the Philippine Islands. For the future his promises are fair. Interest in Havana today is divided between the cabled program of his policy as outlined by General Weyler, the coming man and the departure of Campos, the veteran Captain-General, who, this afternoon, sailed for Coruna, thence to leave for Madrid.

General Weyler says emphatically that in his course he will be merciless, but just. He is of the opinion that two months ago it would have been easy to have dealt the rebellion a death blow. Now he fears it will be more difficult, owing to the strength the movement has gained, the losses suffered by the Spanish army and the near approach of the rainy season. Despite these disadvantages he expects results of considerable importance in a short time. He says the Liberal party will support him, and when it goes into power will grant Cuba certain political reforms.

MADRID, Jan. 17.—The Cabinet this evening decided to recall from Cuba Captain-General Campos and his brother-in-law, General Arderius, second in command.

Generals Marin and Pando will be temporarily substituted in their places. The supreme command in the island will be conferred on General Weyler, who will sail for Cuba forthwith, in company with General Polavioja.

Before action was taken the leaders of the Constitutional, Union and Reformist parties of Cuba cabled to the government here demanding the recall of General Campos.

General Weyler will leave Madrid for Barcelona to-morrow, and will sail for Cuba on Saturday. He will be accompanied by Lieutenant General Bargas and the Marquis de Ahumada.

To Recognizing Cuba.

NASHVILLE (Tenn.), Jan. 20.—Congressman McMillan reached the city to-night from Washington, and in an interview had with him in connection with Cuban affairs said he had good grounds for the statement that President Cleveland in a few days will send a message to Congress recognizing the Cubans as belligerents.

HAVANA, Jan. 19.—Further news of the movement of General Gomez was received this evening from San Antonio de Los Baños, to the westward of Salud, where he was repulsed yesterday, moving apparently towards La Ceiba. Gomez has burned the railway station at Seboruca, west of San Antonio de Los Baños, and when last heard from was moving so rapidly that it is not thought likely the troops under General Linars will be able to catch him. From the direction Gomez is taking, he may contemplate an attack on Guanajay capital of the district of Pinar del Rio. Many families have already

considerable force of troops in the district of Colon with the view of trying to bring about a pitched battle with the insurgent forces advancing through the province of Santa Clara. At Cuarras, south of Colon, the insurgents have burned the plantation of La Vega and other cane fields, and they have caused enormous losses by similar tactics.

While passing through the Matanzas district the insurgents hanged two plateados, and at Manicaruaga, province of Santa Clara, insurgents have burned the large store and tobacco warehouse, containing 500 bales of tobacco, belonging to the Tortiz company. Distress in the province of Matanzas and other places devastated by the insurgents is very great and the local authorities in various districts have been granted the necessary permission to collect funds by public subscription for the relief of the same. In addition all the soldiers and all the employees of the different branches of the government have agreed to give one day's pay each month towards the funds being collected to relieve the distress referred to.

Later this evening information was received here to the effect that the insurgents have also burned the village of Rio Blanco, in the province of Pinar del Rio. The prices of provisions, etc., are rising very rapidly here and the expense of living is fully 50 per cent. more than it was a month ago. At the rate things are going, though the Spanish authorities are still hopeful of driving the insurgents eastward and westward of Havana, the city of Havana will be the most expensive place in the world to live in. If this is the case with the insurgent force now in this vicinity it may be judged that matters will be considerably worse if the Spanish commanders are unable to check the advance westward of the second Cuban army. Business is suffering terribly on all sides.

LOSS OF THE SUGAR CROP.

How Spain's Revenue Has Been Decreased by the War.

WASHINGTON, D. C., Jan. 17.—In response to a cablegram to Havana, sent by Sen. Dupuy de Lome, the Spanish Minister, inquiring as to what effect the destruction of the sugar crop would have upon the Government resources, the following dispatch was received today:

HAVANA, Jan. 17.—Sugar does not pay direct taxes. Sugar only pays a port duty or permit to land of 75 cents per ton. If the total sugar crop were lost, and the average exportation of 600,000 tons were impossible, the loss to the treasury would be \$450,000, less than 1 per cent. of the war expenses. CADENAS.

Senor de Lome, in giving this information, said that it could be provided by inquiring of those interested in the sugar industry in New York, Boston and Philadelphia, and pointed to the fact that the rebels, in their efforts to ruin the island by burning the cane-fields of Spaniards, Cubans and foreigners, have deprived the Spanish Government of less than half a million dollars of taxes.

None of the National band boys returned by the Australia, Wm. Aylett and Kealakai left by the S. C. Allen due here January 30.

BY AUTHORITY.

J. H. FISHER, Esq., has this day been appointed a Notary Public for the First Judicial Circuit of the Hawaiian Islands. J. A. KING, Minister of the Interior. Interior Office, January 24, 1896. 4208-3t

JOHN PHILLIPS, Plumber.

HOTEL STREET, NEAR FORT. Telephone. 302. 4208-1f

PACIFIC HARDWARE COMPANY.

We carry in stock the following Oils: Vacuum Oils.

The Vacuum Oil Company was the first house to manufacture Mineral Oils of any value for Lubricating purpose. The oil is reduced under complete uniformity of temperature with every care, and is secured with the inherent hydro-carbon greases of the oil. This cannot be done by any other process. It is claimed that these oils are actually cheaper in use, at the prices charged than any other oils. You are sure of getting the same oil every time you order. You can save money, as you get better goods at less price, quality considered.

600 W Cylinder Oil.

This Oil, we claim stands alone. It is a unique product, with many imitators, but without a rival at any price.

Our 600 W Cylinder Oil is the outgrowth of over twenty years experience in the manufacture of oils, and we guarantee it absolutely in every particular. We will cheerfully send you a barrel on approval, not to be returned unless it suits.

Vacuoline Engine Oil.

Many of our patrons have wanted an oil at moderate price for all uses, except cylinder lubrication, of heavy body and great endurance, which could be depended upon absolutely anywhere and everywhere. We cannot speak too highly in its praise. It is one of the most remarkable oils ever manufactured. For all places where an oil must do a great deal of work on a small quantity, we can guarantee this oil against any other article. If you had a hard working machine, or a bearing that gives you trouble, try this oil. You cannot find its counterpart anywhere. It is a rich wine color. The best substitute for lard oil ever produced.

Arctic Engine Oil.

This is an Oil for electric light, centrifugal and general high speed work, adapted for the Edison system, being used by the Edison Company and recommended by them. It is indelible in quality, and can be filtered and used over and over again. It is a perfect dynamo oil.

Vacuum Marine Engine Oil.

The only oil that meets all the requirements of Marine Engine lubrication. Better than lard oil and cheaper.

Heavy Dark Lubricating Oil.

For common shafting, exposed machinery, car journals, etc. Has no equal for cart axles.

Landlord's Sale Under Distraint of Rent.

NOTICE IS HEREBY GIVEN THAT the undersigned, A. F. JUDD, has distrained and levied upon certain goods and chatties, the property of J. M. DAVIDSON, ESQ., for rent due from him to the undersigned for those premises situate in Merchant street near Fort street in Honolulu, heretofore occupied by said J. M. Davidson, as law officer.

The Beauty OF SOME PIANOS

Is only "case deep." It is much easier to make a handsome case than it is to put music into it. A tolerable mechanic can do the one—the other requires the best thought of a musical artist. The

Kroeger Pianos

All have handsome, tasteful, durable cases, but in their factory constant, careful, studious attention is given to the production of a perfect and lasting tone. The beauty and honesty of a Kroeger begins with the vanish on the case and goes straight through to the iron plate that holds the strings. We'd like to show you the inside of a Kroeger.

# ISLANDS OF MARQUESAS

Their History Like a Continuation of Hawaiian Group.

NAMED AFTER PERUVIAN VICEROY

Same Polynesian Race Found in the Pacific—Language Similar to Hawaii—Can Easily Read Hawaiian Bibles and Other Books—Form, Etc.

The history of the Marquesas Islands is like a continuation of that of the Society and Hawaiian groups; as their first missionaries came from Tahiti and those of subsequent times and of the present time are from Hawaii, and as they will probably pass again under the care of Tahitian missionaries, since France owns these islands, together with Tahiti and the adjacent groups. The Marquesas Islands lie in two parallel groups, thirteen in all, trending from southeast to northwest, between latitudes eight degrees and eleven degrees south, and longitudes, 153 degrees and 150 degrees west. The southern group was discovered July 21, 1595, by Alvaro Mendana de Neyra, as he was voyaging with four ships to colonize the Solomon Islands, and by him named Marquesas de Mendana, in honor of the viceroy of Peru. The northern group, though near by, was not discovered until nearly two hundred years later, in 1791, when they were seen by Captain Ingraham, of Boston, and named Washington Islands. But the term Marquesas now embraces both groups. It seems to be the rule that the further east one goes in the Pacific, the more wild, broken and picturesque are the mountains. The Marquesas are even more remarkable in this respect than the Society Islands, excepting Moorea. The terrific storms of the Western Pacific have not reached this part of the ocean with sufficient violence to cause excessive erosion, nor have frosts here prevailed to disintegrate the beetling cliffs, the sharp ridges and the spiral-like crags; but all the mountain forms, even the most frail and reaches a height of 2430 feet above the level of the sea, and the highest 7360. Most of them have fertile valleys half a mile to three miles deep, and from one-tenth of a mile to a mile wide, filled with luxuriant shrubs, vines, and magnificent trees, beneath which rills of pure water, falling from high inland cliffs, ripple along rocky and shaded beds to the ocean." (Cook's Life in Hawaii.)

The largest of these islands is Nukuhiva, named after its discoverer "Marchand." It is seventy miles in circumference, and 7360 feet high at its highest peak. "Almost every pinnacle of this island is carpeted with vines; even on the perpendicular walls of its precipitous a tapestry of shrubs and verdure hangs. On the south side is the bay, Taiohae, or Anna Maria, fragile, still seem to stand as when originally upheaved and rent by volcanic forces.

"The coasts of these islands rise from the water like walls. Deep gorges, serrated ridges, lofty promontories, with sea walls plunging thousands of feet into the sea, conical and truncated; rocky minarets, and confused masses of rocks, scoria, and tufa, testify to a terrific rage of Plutonic agencies in unknown ages past. Many of the ridges are so precipitous and lofty that they cannot be crossed by man; and many of the rocky ribs come down laterally from the lofty spine, or dividing ridge, on an angle of thirty degrees, and form submarine and subaerial buttresses, leaving no passage except by caecae. The lowest of these inhabited islands which is shaped like a horseshoe and is two miles deep, a mile broad at the center, and half a mile broad at the entrance, where it is flanked by two great headlands over 500 feet high. "Its shore is a beautiful crescent of sand, interrupted here and there with shingle and boulders," says H. Melville (Type). "No description can do justice to the beauty of the scenery of this bay. The mountains shut in a vast amphitheatre of deep gorges, overgrown with vines and gleaming with cascades. I felt regret that a scene so enchanting was hidden from the world in these remote seas." Of a view he obtained from the summit of the mountain he says: "Had a glimpse of the garden of Paradise been given me, I could scarcely have been more ravished with the sight."

About forty miles south of this island is Upou, or Adam Island, on the west side of which is the harbor Hakahou. From this harbor a valley one-fourth of a mile wide extends three miles inland, "crowded with shrubby, evergreen vines and lofty trees. The mountains, ridges and towering cones of this island are very grand. Within a vast amphitheatre of rugged hills, which send down their spurs to the shore, buttressed by lofty precipices, are eight remarkable columns, 200 to 300 feet high and 50 to 100 feet in diameter, rising in solitary grandeur like a castellated fortress" (Cook). East of this island, about sixty miles distant, is Havaoa, named La Dominica by Mendana, because discovered on the Sabbath day. On the north side of this island is the valley Puamau, "one mile in length and one-quarter of a mile wide, a paradise of natural loveliness, charming forever with the music of its rippling stream." On the south side is Atoua, which is said to be the most verdant valley in the Marquesas. Breadfruit, oranges, coconuts, limes and vi-apples grow to be gigantic trees, two feet in diameter and seventy feet high, loaded with fruit. Of this island Geo. Forster (Cook's Voyages) says: "We saw many craggy rocks like spires and several hollow summits piled up in the centre of the island. All the eastern part is a prodigious steep and almost perpendicular wall of a great height which forms a sharp ridge shattered into spires and precipices.

On the north side rises a peak. All the north is a black burnt hill, of which the rock is vaulted along the shore, and the top clad to the summit with casuarinas. Valleys filled with trees lead up to the summit." Of the view from the highest point of this island, Mr. Coan says: "Around us was a vast panorama of cones, ridges, spurs and valleys. Hills heaped on hills and spires bristling among spires, the whole appeared as if a sea of molten rocks, while raging, tossing and spouting in angry billows, had been suddenly solidified by an omnipotent power. It was a mild assemblage of hills and ridges, of gulfs and chasms, of towers and precipices."

A little distance south of Hivaoa is Tabuta, or Christiana, like the rest of the group, "a great heap of scoria, tufa, cinders, and basaltic lavas, bristling with jagged points, traversed with sharp angular ridges, and rent with deep and narrow gorges." The valley Vaitoua at Revolution Bay on the west, one-half mile deep, is shut in by rugged precipices 2000 feet high, and filled with breadfruit, coconuts, vi, orange, guava, and other trees. The southernmost island of this group is Fatuhiva, called also Macdalenia. The chief valley of this island is Omoo, one mile wide and three miles deep, having five lateral branches one-half a mile or more deep, all walled in by towering precipices and filled with magnificent vegetation. The inhabitants of these islands are the same Polynesian race that is found in nearly all the Pacific. So similar is their language to that of Hawaii that they easily read Hawaiian Bibles and other books. They are described as "physically the most perfect of the human species, many of them six feet high, muscular, symmetrical, agile, graceful, and lighter in complexion than Tahitians." The American missionaries remarked that they were more noble in form and stature than the Hawaiians, and the women, vile as they were, more comely, though some of the people are horribly tattooed.—J. M. ALEXANDER, (A Tract Society.)

## SUGAR CONSUMPTION FOR 1895

Willett & Gray Give Interesting Figures for Planters.

Willett & Gray's latest statistical circular gives the following information concerning the consumption of sugar that will be read with interest in this country.

"The figures given herewith show the total consumption of sugar in the United States to have been 1,149,744 tons against 2,012,714 tons in 1894, 1,905,862 in 1893 and 1,553,370 tons in 1892. The decrease in 1895 is 62,970 tons, or 5.47 per cent. against an increase in 1894 of 106,842 tons, or 5.08 per cent., and an increase in 1893 of 54,492 tons, or 3.53 per cent. The consumption of 1895 consisted of 324,506 tons of domestic cane sugar, 30,000 tons of domestic beet sugar, 300 tons of sorgham sugar, 7500 tons maple sugar, 15,000 tons of domestic manufactured molasses sugar, a total of 377,306 tons of United States production and 1,460,578 tons of foreign cane and 83,809 tons of foreign refined sugars, together 1,572,438 tons of foreign production. The total nettings of our refiners in 1895 were 1,738,744 tons, 28,037 were refined abroad and 182,964 tons were consumed in the raw and plantation condition. Of the 1,738,744 tons melted by refiners, the American Sugar Refining Co. manufactured 1,330,744 tons, or 76.6 per cent, and the independent refiners 708,000 tons, or 23.4 per cent.

"The invisible stock of sugar is now at a minimum, while last year it was 50,000 tons in excess of the preceding year.

"If the invisible stocks are properly adjusted the consumption of 1895 would show but about 15,000 tons smaller than 1894, but in the above figures we have taken no account of the invisible stocks.

"The American Sugar Refining Co.'s production in 1895 decreased 125,438 tons, and the independent refiners' production decreased 27,506 tons under the business of 1894. The difference between raws and refined in 1895 averaged .858 against 88 cents in 1894.

**Hawaiian Gazette Company,**  
VON HOLT BLOCK. KING STREET.

WALLACE R. FARRINGTON, - - EDITOR.  
TUESDAY, JANUARY 28, 1896.

GOVERNOR BRADLEY in his message to the legislature of Kentucky deprecates the increase of lynching and the cigarette habit within his state. This is the first time these sins against humanity have been put in the same class but we must admit that they are in a measure birds of a feather. If Kentucky's new Republican Governor can get his legislatures to stamp out these evils his name ought to go down in history as one of the greatest reformers of the age.

THE Associated Press dispatches recently received from the Coast contain a squib to the effect that the people of Hawaii are contemplating secession from the central Government and that Minister Cooper's visit to the island was to investigate the strength of the secession sentiment. The only striking feature about this story is the proof positive that some one connected with the Associated Press was mighty hard up for a story. It reminds us of the riddle to which the answer is: "It's a big lie." If our local correspondents can find nothing more truthful than this to write about we would suggest that they take to sawing wood for a living.

**BAD CRIMINAL RECORD.**

In the editorial office of the Chicago Tribune is an antediluvian newspaper writer who devotes his entire time during the year to gathering statistics from the newspapers each day of the crimes committed throughout the United States. It is a decided gruesome task and the record he has given to the world for the year 1895 is one that ought to set the people of one of the foremost nations of the world to putting on their thinking caps. After reading the figures which he has set before the public we have no reason to be surprised that many Europeans think of the United States as a country where champagne bottles are uncorked with revolvers and the wild and woolly hero of the dime novel reigns supreme. The United States includes such an immense territory that its residents are not impressed with the appalling increase of crime until brought face to face with the grand total for the year just passed and the comparative tables for the past ten years.

The results as given by the Tribune this year show that the total of murders has swollen from 9800 for 1894 to 10,500 in 1895. The causes of slaughter are given as follows: Quarrels, 4813; unknown, 2466; jealousy, 1136; liquor, 684; by highwaymen, 441; infanticide, 269; resisting arrest, 232; highwaymen killed, 159; insanity, 101; self-defense, 104; strikes, 18; outrages, 49; riots, 28. In looking over the homicidal record for the past ten years we find that the number of murders has increased from 1449 in 1886 to 10,500. During this period the increase has been at the rate of about 1000 each year, with the exception of the year 1888, when there was a falling off of 151 from the record of 1887. Cold, calm figures show us that the knife, bludgeon and pistol have caused a loss of life equal to that of almost any of the great battles of history. It tells us that notwithstanding the world is constantly growing better, there is still much that is lacking in modern civilization.

It is next to impossible to account for this steady advance in every detail. The increase in population and the improved facilities for obtaining the statistics are features that must be taken into account. One interesting and significant feature, however, is the record of

punishment for crime. Over against the 10,500 murders the record gives only 132 legal hangings. Less than two per cent. of the criminals have, so far as the record shows, paid the legal penalty for their dastardly work. Attention is at once directed to the criminal courts. Looking again to the newspapers we find throughout the whole United States a growing tendency on the part of the courts to shield the criminal. The delay in the trials, the reluctance of jurors to find a verdict, appeals from one court to another and a thousand and one items that come in to give the prisoner a new lease of life all have their effect, and may be regarded as one of the leading causes of the unfortunate result. It is a serious matter to take a human life but the courts of to-day seem to have more serious interest in the guilty one. The innocent victim has gone and time does a great deal in calming public opinion. The time is coming when prompt justice will be imperative.

CRANSTOWN and Mueller have found little comfort in their appeal to the Canadian courts for damages on account of their forcible deportation from this country. While the non-suit does not necessarily indicate that the case is finished so far as the steamship company is concerned, it means a long fight for two or three years, should the plaintiffs decide to pay the costs and appeal from the decision of the court at Vancouver. The Hawaiian Government, which is indirectly interested in the outcome, holds by all means the most advantageous position, and as the costs increase it is highly probable that the injured feelings of the exiles will pass into oblivion.

**Timely Topics**

JANUARY 22, 1896.

The steady increase in sugar values has caused plantation owners and everybody interested in the production of that staple commodity much satisfaction. This is as it should be, for without sugar what would become of the country. Of course there are other and varied industries, but none so important and profitable as sugar.

In order to make sugar the mills must be kept going, and to do this will require oil. This is the time that all milis in the islands are running steadily, and it is but proper that the attention of mill men should be called to the best grades of lubricants. It has been demonstrated beyond question that Colorado Oil is of superior quality and best suited to the requirements of plantation machinery of all kinds. No oil introduced here has given such general satisfaction as the Colorado. It is the best quality of lubricant manufactured—for the reasons that it has body and strength, the two great essentials that go toward making an oil that will fulfill all requirements. The Colorado has received the endorsement of numerous engineers on the different plantations of the islands. The best evidence of its popularity and superior quality is the fact that it is used all over the islands, and has given the best of satisfaction in every case. An engineer knows a good thing as well as any one else, and when once Colorado oil is used, none other will be given houseroom.

We have another brand of oil—Coronado, which is not so high priced, but is guaranteed a good lubricant for all kinds of machinery. This can be furnished in grades for mill and engine use, and for valve and cylinder, and at satisfactory prices.

We can furnish any grade or priced engine oil desired, but advise you to buy only the best quality—for in oil as in other things, it always pays to buy the best.

All oils sold by us are guaranteed and when you buy from our house, you can be assured of getting full value for your money.

**K. FURUYA,**

Hotel Street, Next to Ordway & Porter's.

**OPIUM EX AUSTRALIA.**  
**"Harness" Containing Sixty-Three Tins Landed by Two Women.**  
 A man named Bonani, supposed to be a Greek, met two female friends on the arrival of the Australia last night and escorted them to his room in Fowler's Yard.  
 As they passed out the gate of the Oceanic dock Special Cordes noticed the women had anxious but rather pleased expressions of countenances. They interested him and he followed in their wake, imagining at times that he heard a peculiar dull sound coming from somewhere in close proximity to him. The women walked, too, with a sort of impediment which attracted his attention.  
 He followed them and located them in the room of Bonani. He reported the circumstance to Captain Scott, who immediately secured a search warrant, and Special Cordes made a call on Bonani. He had retired, but was told to sit up while a search was made.  
 Under the bed the officers found two pairs of drawers, evidently made for women. Each leg was divided up into pockets the width of a tin of dope. Strings were there to tie around the waist, and over the shoulders, very much on the principle of men's suspenders.  
 The pockets in each pair of these improvised bloomers contained tins of opium. Bonani made the conventional excuses that he knew nothing of the matter. The exact "rake off" in this case was sixty-three tins. The women evidently got out of the way as soon as they discharged their cargoes as they were not in the room when the raid was made. Bonani was taken to the station house and, on searching him, \$55 were found in his pocket.  
 The supposition is that the women wore the bloomers when they left the steamer, their skirts covering the bundles safely.

**The Circus.**  
 A large audience was present at Wirth's circus last night. All the favorites were in the ring and gave excellent entertainment for the spectators. There will be no performance tonight owing to the play, "Meredith's Old Coat" at Independence Park pavilion. Thursday night will possibly be the last appearance of the company as they leave for Japan immediately on their return from Kauai. During the last two performances Lahl Sing has distinguished himself in his jockey act and clearly demonstrated that he may justly claim to be the greatest rider that ever visited the islands.

**Vacuum Oils.**  
 Is it not a little surprising that the vacuum oils should be known in Italy, when they are made at so remote a place as Rochester, N. Y. The fact that the chief engineer of the Italian man-of-war Christoforo Colombo knew and selected the vacuum oils for his ship when in this port, is an evidence that good oils speak for themselves the world over.  
 Word was received by Theo. Hoffmann of the Hawaiian Electric Light Company that his brother, an engineer in an electric light station, at San Jose, Cal., was instantaneously killed by an electric shock.

**Weak And Nervous**  
 Describes the condition of thousands of people at this season. They have no appetite, cannot sleep, and complain of the prostrating effect of warmer weather. This condition may be remedied by Hood's Sarsaparilla, which creates an appetite and tones up all the organs. It gives good health by making the blood pure.  
**Hood's Pills** are the best after-dinner pills, assist digestion, cure headache. **HOBSON DRUG CO.**, wholesale agents.

**NO CIRCUS TONIGHT!**  
 Owing to the Performance of Meredith's Old Coat  
 For the benefit of a charitable institution, there will be no performance by **Wirth's Pacific Circus**  
 Until TO-MORROW.  
 THURSDAY NIGHT.  
 Program for which will be announced later.

**20 Years the Standard.**

**LEWIS & CO.,**  
 Agents, Honolulu, H. I.  
**Yesterday's Celebration.**  
 Consul Hackfeld and Hon. Paul Isenburg entertained a large number of officials and merchants at the office of Hackfeld & Co. yesterday from 12 until 2 o'clock. There was a very nice collation, and toasts to the health of the German Emperor were drunk.  
 Flags were displayed on most of the shipping and on all of the Government buildings and consulates.

It is reported that a bill will be introduced in the next Legislature making it an offense to open butcher shops and markets of any character on Sunday. The white proprietors of the butcher shops are in sympathy with the movement and say they would prefer keeping open until 10 o'clock Saturday night so they could have Sunday for rest.

**IN THE BEGINNING**  
 Of the new year, when the winter season of close confinement is only half gone, many find that their health begins to break down, that the least exposure threatens sickness. It is then, as well as at all other times, and with people even in good health, that the following facts should be remembered, namely: That Hood's Sarsaparilla leads everything in the way of medicines; that it accomplishes the greatest cures in the world, and requires the largest building in the world devoted exclusively to the preparation of the proprietary medicine. Does not this conclusively prove, if you are sick, that Hood's Sarsaparilla is the medicine for you to take?  
**HOBSON DRUG Co.**, wholesale agents.

 4210-31

**Kilohana Art League.**  
 The Kilohana Art League prizes are on show in one of the windows of the Pacific Hardware Company and are made up of the finest work put forth by the club. The various schools of the city are urged to hand in their prize compositions to W. M. Graham before January 30th; also the roll of honor consisting of one member from each one of the classes constituting the respective schools.  
 There are whispers abroad that the Kilohana Art League will give a mammoth loan exhibition in May, this to be made up of works of art and various things curious and beautiful in the city.  
 The second anniversary of the league will take place in May.

**The Commercial Journal.**  
 The above journal will appear today about noon and will contain a number of articles of special interest to the business community. The paper will be on sale at the principal book stores and at the office of publication.

There will be a special sale of Dr. Jaeger's Sanitary Wool Underwear at Tracey's, to reduce stock. Prices will be \$8 per suit for regular sizes, and \$3.50 per suit for extra large sizes.  
 Ladies' suits, all sizes, white and natural, at \$3 per suit. Do not let this opportunity pass to get these goods at much less than their value, as the sale will only last till stock is reduced.

**Indurine**  
 A Cold Water Paint Especially Designed for Inside Work on Factories and Public Buildings.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER, and can be applied by any one and will always produce good work.  
 It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.  
 It will last for years and is unaffected by gases.  
 One coat covers better than two coats of oil paint or whitewash.  
 It can be used on any surface and for all classes of work, even for the finest decorating.

**Outside Indurine.**  
 This Is for Outside Work.  
 Such as Fences, Outbuildings and Laborers' Quarters. It is a thick paste to be diluted with cold water; stands rain and exposure, as well as oil paint, and costs but a fraction as much.

**GOLD WATER KALSOMINE**  
 Adapted for Dwellings, Offices and Public Buildings, or any other place where KALSOMINE is used. It will not rub, discolor or scale off.

**LUCOL.**  
 A new Paint Oil. It comes raw and boiled; is superior to linseed, and covers with one-third less lead and pigment to the gallon.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.  
 Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pumps, Centrifugals, Elevators, Plows, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.  
 Electric power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.  
 Where water power is available it costs nothing to generate Electric Power.

**THE HAWAIIAN ELECTRIC COMPANY** is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and all Electrical Goods.  
 All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.

 Tinsmith and Plumber.

## HALEAKALA PARTY.

Maui Social Life Very Active, as Usual.

Paia Wants a Band Concert—Kate Field Expected—Ships Arrive—Heavy Kona Weather.

MAUI, Jan. 25.—On Friday, the 17th, by invitation, Misses Millie Beckwith, Eastman, Aiken, Zeigler, Eva and Nellie Smith, Messrs. David Colville, Rodrigues, Rough, Hay, Aiken, Hardy and Fred Baldwin, took possession of the Olinda House and spent several delightful days there. On Saturday eight of the ladies and gentlemen visited the crater of Haleakala. The party is to be known to fame as the "cyclone party," so named partly because of the wild kona blast which blew during most of their stay, and partly because of the fun and frolic which made the occasion a memorable one. The return to more conventional regions was made on Monday, the 20th.

Wednesday evening, the 22d, at the residence of Mrs. D. C. Lindsay, Paia, a "nut social" was given under the auspices of the Y. P. S. C. E. The program of the occasion was a most unique and interesting one.

"Craigilea," the Haleakala summit house, is in need of repair. Two sheets of corrugated iron have been blown from the roof by the winter winds.

It is possible that Miss Kate Field may visit a Maui cattle ranch on her return from Hawaii.

Dr. P. J. Aiken and family are spending several weeks at Olinda House.

Friday evening, the 31st, the January session of the Makawao Literary Society will take place at the Paia residence of J. W. Colville.

Miss Eastman returns to Honolulu today. She has been the guest of Miss Beckwith of Sunnyside.

It is announced that the Hawaiian Band, on its return from Hilo during the latter part of next week, will give concerts at Wailuku and Kahului. It is suggested as a satisfactory change in the program that the two, or at least one, of the proposed Kahului concerts be given at Paia. The population of Makawao district equals if it does not exceed that of Wailuku district.

During last evening, the 24th, a party of maidens fair and attentive bachelors enjoyed the moonlight and a horseback ride from the Paia church to the residence of G. E. Beckwith, Haiku, via Hamakuaopoko and Maliko gulch.

Peach trees are blossoming in upper Makawao.

E. R. Hendry of Honolulu has been at Haleakala ranch during the week.

George Groves desires to have it stated that he did not resign the position of Superintendent of Wailuku roads.

On Sunday, the 19th, the bark Amelia arrived in Hana with lumber for the big flume. She expects to have all her cargo discharged by tonight and to sail loaded with sugar on Feb. 1st.

The schooner J. D. Tallant will not sail from Kahului till some time next week.

Weather—The heaviest kona wind in years blew during the 17th, 18th and 19th. During this week light kona winds with occasional local rains.

## The Gleaners' Society.

A meeting of the Missionary Gleaners was held in the parlors of Central Union Church yesterday afternoon, Mrs. Parmelee presiding. Over thirty ladies were present. The afternoon's sewing was done for the benefit of the poor children in Miss Rhoda Green's school.

A donation of \$10.00 was made to the Woman's Exchange, and another of \$25.00 to Mr. Frank Damon's Hotel street mission. The Gleaners will also donate \$10.00 each month for one year to the Kindergarten Association.

It was voted to purchase a sewing machine for the use of the ladies of the Gleaners' society. More and more cases of poverty are carried in to the ladies daily, and the great amount of sewing necessary to supply the demand for clothing, seems to justify the purchase of a machine.

Mrs. O. H. Gulick gave a short and interesting talk on mission work in Japan.

## The Police Court.

In the police court yesterday morning, seven cases of drunkenness paid the usual fine.

Olelo plead guilty to the charge of assault and battery on one Ai-

laiki in Honolulu, January 26th, and was fined \$26 and costs.

A. M. Hewitt plead guilty to the charge of hitting a Chinaman in the stomach with a brick bat and was fined \$30 and costs.

The case of Kepano for larceny in the fourth degree was finished yesterday, but was continued until today for argument.

## DON'T LIKE HIS RELATIVES.

Emperor William's Dislike for England.

LONDON, Jan. 14.—That these relations are offensive, he uses the imperative in his intercourse with all his relations in England and Germany, and holds himself to be the head of the family next to the Queen. As the son of the British Princess Royal, he always contends he is the heir to the British throne.

In connection with this subject the Frankfort Zeitung renews the story that Emperor William, in the event of the death of the Queen, will claim the throne of the United Kingdom and prepare to enforce his rights by force of arms. As a believer in the divine rights of kings, he would not regard an adverse decision on his claim by Parliament.

The only member of the British royal family who is friendly to Emperor William is the reigning Duke of Saxe-Coburg and Gotha (the Duke of Edinburgh). The Prince of Wales and the Duke of York do not speak to him unless absolutely necessary.

The Duke of Fife, the Marquis of Lorne and Prince Henry of Battenburg, all of whom married members of the royal family and whom the Emperor detests because they had the presumption to do so, return the hatred he feels for them.

The influences operating from the courts of the German States as well as from St. Petersburg are more likely to control the Emperor than English family sentiment.

His Majesty's animosity toward the Duke of Fife, who married the daughter of the Prince of Wales, may have something to do with his rejoicing at the collapse of the British South Africa's forces, as the Duke is connected with that company.

## Good Government in Hawaii.

The republic grows in strength, and the people of Hawaii are enjoying a better government than they ever had before. Honesty is no longer a scarce article on the islands, and the reign of the kings and queens of misrule is over for all time.—Baltimore American.

It will be an agreeable surprise to persons subject to attacks of bilious colic to learn that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. In many instances the attack may be prevented by taking this remedy as soon as the first symptoms of the disease appear. 25 and 50 cent bottles for sale by all druggists and dealers. ## "Who Steals My Purse Steals Trash"

## My Purse

## Steals Trash"

Would never have been uttered by the immortal Bard of Avon, could he have beheld the beautiful gold and silver mounted POCKET BOOKS displayed in our showcases.

## BEAUTIFUL?

You wouldn't believe it possible to make things out of leather quite so fine, nor would you imagine the strange kinds of skins used in their manufacture. Take a monkey skin for instance, never saw one? Well it's about as funny a looking thing as you ever looked at. The different kinds of snake and lizard skins, varying from the creamy white to the dark green; colors enough to match almost any costume, they "come to stay and wear forever." Seal, Morocco, Kangaroo, Crocodile and Alligator. A few of the plainer leathers, but all made up in faultless style.

## "THERE ARE OTHERS"

**LOCAL BREVITIES.**

No circus tonight.  
 Sugar firm dull—34.  
 A small brown linen bag has been lost.  
 Beet sugar has advanced in price in Germany.  
 A. Barnes is looking after the books of J. J. Williams.  
 W. P. Fennell will return home by the Hall this morning.  
 H. F. Wichman tells you about beautiful purses this morning.  
 For fresh Columbia river salmon go to the Metropolitan Meat Co.  
 The list of officers of the Pearl City Fruit Co., Ltd., is published in this issue.  
 All claims against Wirth's circus should be presented for payment at once.  
 Morgan will hold a sale of ship's stores at 10 o'clock January 29th, at his salesrooms.  
 The annual meeting of the Hawaiian Sugar Company will be held at 9 a. m. January 31.  
 Fresh frozen fruits and poultry ex S. S. Australia at Camarinos' California Fruit Market.  
 Morgan will hold a sale of new ouggies, carts, wagons, etc., at his salesrooms at noon today.  
 Chief Justice Judd will lecture on "Hawaiian Constitutions" at Y. M. C. A. Hall February 1.  
 There was a good turnout of Company H last night and an enthusiastic drill was held.  
 A nicely furnished room with private family, three minutes' walk from Postoffice, is advertised.  
 John McLean, proprietor of the Eagle House, entertained members of the Wirth circus at dinner Monday night.  
 Merediths Old Coat will be on the boards at Independence Pavilion to-night. Secure seats at Hobron Drug Co.  
 The annual meeting of the stockholders of C. Brewer & Co. will be held at the office of the company February 5th at 10 a. m.  
 A generous donation of remnants has been received from Mrs. Sachs and Mrs. H. H. Williams by the Kaunakapili Sewing Society.  
 The H. A. A. C. is more than pleased over the outcome of the field day athletics both financially and from a standpoint of good sports.  
 The Honolulu Tennis Association has adopted its constitution and has decided to hold the tournament on May 5th, this to be open to all-comers.  
 Seats for "Meredith's Old Coat" to be presented at Independence Park pavilion for the second time tonight, are selling very rapidly. A few good seats still remain.  
 Lieutenant Werlich of the navy, late of the Philadelphia, left San Francisco with his wife for Washington, where they will remain for six months he is off duty.  
 Sasaki was arrested yesterday on complaint of his wife. It seems he has been acting very peculiarly lately, talking to himself and knocking things about the house.  
 Among the arrivals by the Australia last night were W. G. Irwin, Judge H. A. Widemann, Frank S. Dodge, C. R. McVeigh, Mrs. Dr. Cordelia Green and Miss Alice L. Wall.  
 The preparations for the grand moonlight excursion to Remond Grove, February 3d, are almost complete. J. W. Chapman, the caterer, will have the matter in charge and it promises to be a good one.  
 James Lemon of the afternoon watch at the telephone exchange has resigned as operator and has gone down to look after his land in Lala. The boys at the exchange will miss their genial comrade very much.  
 W. O. Smith will accompany H. J. Rhodes, Superintendent of the Government Nursery, to Molokai this week or next. Mr. Rhodes will remain about a month superintending the construction of sheds and planting seeds at the leper settlement.  
 Dr. Howard was called to Heeia late yesterday afternoon to attend what are believed to be, the fatal injuries of a Japanese laborer, who was unfortunate enough to have his leg broken and get a terrible scalding by the overthrow of a wheelbarrow of hot refuse.  
 A match race has been arranged between Billy C. and Confederate, to take place at Kapiolani track either Saturday or Monday next. The purse will be \$200 and Halstead's jockey will ride Confederate. Mr. David will take no bets on the race, as he attributes Con-

federate's losing on Saturday to the fact that he had bet \$2 with Jim Quinn on the result.  
 John S. Walker has been appointed agent for the Scottish Mutual Union and Insurance Co.  
 Word was received on the Australia by Mr. E. F. Dillingham that his daughter, Mrs. Frear had undergone a successful operation and was doing well.  
 W. H. Hilliard, the famous American artist, who has resided in Paris for many years, came by the Australia last night to paint a picture of the volcano for Adolph Spreckels.  
 Miss Blanche Cornwell was riding along King street in a buggy yesterday afternoon when her horse, becoming frightened, ran away. Miss Cornwell held to the reins until the frightened animal was stopped by a mounted patrolman.  
 Mr. J. C. Scott, manager of the dry goods department of the Hudson's Bay Company's business arrived on the Warrimoo on Saturday and is the guest of Dr. Murray. Mr. Scott may remain in the islands for some time. He is a genial gentleman and considered one of the best singers on the coast.

 Sole Agents, - - Hawaiian Islands

**HAZEL BLOOM**  
 The distilled extract of Hamamelis or Witch Hazel has been recognized as a safe and speedy household remedy, both for external and internal application. It has become mostly known under the proprietary titles of "POND'S EXTRACT," "HUMPHREY'S MARVEL OF HEALING," etc. Extensive advertising has rendered this article unnecessarily expensive. We have therefore with a view of saving our patrons this extra charge, succeeded in obtaining a superior WITCH HAZEL EXTRACT, bottled under the trade name of "HAZEL BLOOM."  
 IT IS THE BEST WE HAVE EVER HAD AND WE CAN RECOMMEND IT.  
**The cost to you Is one half . . .**  
 We know the information given above is directly to your interests. We wish you also to know that we try to save you money—and we are doing it every day—by reason of our cut-rate prices.  
**Hobron Drug Co.**

The "Strathnevis" Case.

The Strathnevis salvage suit will be tried at the February term of the federal court in Tacoma. Court Commissioner Worden has commenced taking the depositions of the officers of the steamship Mineola.

DIAMOND HEAD, Jan. 27, 10 p. m. -Weather, hazy; wind, light N.

The Amy Turner arrived in Hongkong December 10th, from this port.

The schooner Kaulilua discharged twenty-seven cords of lehua wood yesterday.

The steamer Waimanalo sailed yesterday afternoon for a trip around the island.

The barkentine Willie R. Hume will sail for San Francisco with a cargo of sugar today.

The steamer W. G. Hall will take a vacuum pan to Pahala and a roller to Naalehu today.

The Hawaiian steamer Kahului sailed from Newcastle, N. S. W., for this port January 16.

The steamer Kauai discharged her sugar into the barkentine Willie R. Hume yesterday.

The U. S. S. Baltimore arrived in San Francisco, January 19, eight days from Honolulu.

The bark Martha Davis arrived in San Francisco, January 14, seventeen days from Honolulu.

The steamers Iwalani and Kilauea Hou discharged their sugar into the ship Reaper yesterday.

The steamer Mariposa arrived in San Francisco, January 16, six and one half days from this port.

The U. S. S. Boston, Wild commander, sailed from San Francisco for this port January 19. She may be expected at any moment.

The barkentine Planter sailed from San Francisco, January 19, for this port with a cargo of general merchandise valued at \$11,222.

The schooner Lawaina is being refitted by S. C. Allen for transportation of sugar from Hawaii. She will be ready for sea in about three weeks.

The J. C. Pfluger was forced to discharge her cargo by hand yesterday on account of the fact that the donkey engines were all engaged elsewhere.

All the stores from the Henrietta were taken to Morgan's auction room to be sold yesterday.

The little opium craft is now at Allen & Robinson's wharf.

The J. C. Pfluger, the U. S. S. Bennington, the C. D. Bryant and the Robert Lewers were decorated yesterday in honor of the birthday of the Emperor of Germany.

The steamer Likelike will sail for Hawaii at 4 p. m. to-day with the foreign mail for Hilo. She will then return to her regular ports taking on sugar for Honolulu.

The bark S. C. Allen sailed from San Francisco for this port January 16 but returned on account of the strong SE gales and thick weather. She sailed again the next day.

The bark Aldergrove will finish discharging her cargo of general merchandise today. She will then take on the remainder of her ballast and sail early next week for Royal Roads.

The purser and three seamen of the Strathnevis who left the steamer in a small boat and who were believed to have been lost, reached Destruction Island safely and have been sent to Tacoma.

The steamer Liha sailed for Molokai and Hawaii last night. She went direct to the leper settlement, from there she will go to Hawaii, collect the lepers of that island and return to Kalaupapa.

The schooner Transit took 3100 bags of Claudine sugar at Wilder's wharf yesterday. She will probably get enough from the Kinau to top off her cargo. The Transit will probably sail on Thursday.

The steamer Mikahala will make two trips this week. She will get back in port Thursday and, departing the same day, return Sunday.

The James Makee will make four trips if possible. The Kauai will be back Thursday or Friday, leaving again upon the day of arrival.

The O. S. S. Australia arrived last night 6 days and 12 hours from San Francisco. Following is the purser's report: Left San Francisco, January 21 at 10 a. m.; experienced strong SE winds for the first 24 hours, thence to port strong SW gales and rough sea. One of the Australia's boats was carried away during the rough

weather on the trip. Dr. Soule has resumed his old post as surgeon of the Australia.

The bark Martha Davis arrived in San Francisco from this port January 17. She had a terrible experience on the trip. Two hurricanes caught her, her sails were blown away, her galley washed overboard, the rails smashed and the cabins flooded repeatedly. The steward was badly hurt.

A couple of years ago when Captain Everett was mate of the Kilauea Hou, he had the misfortune to lose an anchor at Kukaia. Soon afterward he was made mate of the Kinau and remained there until a short time ago, when he was made captain of the Kilauea Hou and on his second trip he picked up his lost anchor.

The bark Velocity, Martin master, arrived yesterday, 60 days from Hongkong. The captain reports a very rough voyage. For the week previous to arrival the vessel experienced light southerly winds, while off the islands a very large shark was caught. The Velocity brought 650 tons of general merchandise for Chinese firms in the city.

The steamship Australia arrived in San Francisco the 13th, after a very rough passage from Honolulu. The first few days she was out she had very good weather, but on January 9th ran into a westerly gale, which lasted for sixteen hours. She was tossed about pretty badly, and one of her boats was swept from the davits by an unusually high sea. No other damage was sustained, although the sea broke over her decks badly at times.

LOST.

MONDAY AFTERNOON, A SMALL brown linen bag containing two pairs scissors and other small articles. Suitable reward will be paid on return to this office. 4210-1f

NOTICE.
