HONOR TO WHOM HONOR IS DUE.

Truly the National Reform Party shows no want of alacrity in appropriating any available credit due to their predecessors. Their jubilation over the prices bid for the lots of Government land on the south slope of Punchbowl is an instance. How is it that this new neighborhood has become such a favorite, and whence comes the water to supply the necessities of this promising suburb? If the late Reform Ministry had not effected all preliminaries, this district would be worth now no more than it was three years ago. The new road from Beretania street leading up along the foot slope of Punchbowl was designed to connect with the much-contended Punchbowl road, and so the dwellers in the new villas after viewing the coconut grove of Waikiki and Diamond Head from their own windows can without much effort walk or ride up to the old saluting battery, and enjoy the ever-changing tints of the Waianae mountains, the yacht-sprinkled expanse of the Pearl Loch, the waving green of the new rice, sugar and banana plantations stretching away to Honolulu, and the cheerful, fussy locomotive carrying its freight and passengers to the new city and the newly cultivated estates, then may the "National" trumpeter smite upon his breast and exclaim, "Alone I did it!" So, too, doubtless he will feel called upon to welcome the first deep-draft ship that passes through the Allard passage with loud praises and congratulations on the foresight which set at work the survey and plans which we hope may eventuate in so splendid an

achievement. It will be convenient, by that time, to forget that they were taken in hand and the practical part accomplished by direction of the Minister whose name being mentioned, was sufficient to set the Chiefs of the Party roaring themselves out of all sense of decorum, and to use language which often stretched legislators' privilege to breaking point.

For ourselves, we have no doubt that the bar will be cut through and the harbor dredged without finding the remains of the Punchbowl road at the bottom, where it was so often announced to be already deposited—the wish being rather father to the thought. Now, however, the probability is that this road, its yet unfinished accessories and its yet unbuilt suburb, will be proudly pointed to as the creation, rather than the inheritance of those who succeeded the Reform Ministry.

Let us give both their due.

Consult the Map of Pearl City, and select the Lots you wish to buy on Nov. 29th.

## A GREAT DISASTER.

The Wreck of a British War Vessel.—One Hundred and Seventy-three Lives Lost.

The British torpedo cruiser *Serpent* foundered off the coast of Spain. The *Serpent* was a twin-screw vessel of 1770 tons, and carried six guns. She was lost twenty miles north of Cape Finisterre.

The disaster occurred at 11 o'clock on Monday night, November 10th, a heavy storm prevailing and the night being densely black.

When the vessel struck her keel was torn off and a great hole was stove in her bottom. She slipped off the rocks into deep water, and immediately foundered, tons of water rushing through the hole in her hull.

The majority of the officers and crew were below when the vessel struck, and she sank so quickly after that none of them had time to reach the deck. The disaster was so sudden that it was impossible for those on deck to get a boat into the water. The time between striking and sinking was so short that nearly all on board went down without making a sign.

It is stated that the *Serpent* had become partially disabled in a hurricane, and that it was necessary for her to repair before proceeding on her voyage.

Her commanding officer therefore decided to put into Corunna or Vigo, and while attempting to make the port the vessel was lost.

The official statement shows the loss of life to be 173. A reward has been offered by the Government for the recovery of the bodies.

Strange stories are afloat in regard to the ill-fated cruiser. It is alleged that she was bungled in building, and that her test trials under steam were farces.

## Mail Notes.

The box containing the papers, etc., which were stolen from William Goodness' safe, some weeks ago, has been found with all the papers, in a cane field near Wailuku. The thief has not been caught, although some queer reports are going the rounds.

The Wailuku sugar mill started grinding Wednesday; everything in the new mill working nicely.

The Waihee mill will not be finished for grinding till January.

It is reported that Wailuku had an aspirant for the Inspector-Generalship of Government Schools.

The brig John D. Spreckels arrived Friday at Kahului, fifteen days from San Francisco.

An addition to the Waihee Government School building will be put up during the holidays. Alex. Marshall having the contract.

Dr. Allen of Hana is reported as recovering from his illness, but is still at the hospital here. Dr. Moritz arrived from Kau yesterday in the Hall, but owing to the improved condition of Dr. A., will probably go on to Hana to supply the doctor's place there.

November 22, 1890.

## Royal Breakfast and Presentation.

A breakfast was given at Iolani Palace yesterday morning in honor of Mr. and Mrs. Alfred Fowler. Those present were: Their Majesties the King and Queen, Hon. Paul and Mrs. Neumann, Mr. and Mrs. Alfred Fowler, Miss Inez Neumann, Miss Finckler, Hon. G. W. Macfarlane, H. M.'s Chamberlain, Mr. T. McKenzie Fowler, Mr. J. W. Robertson, H. M.'s Vice Chamberlain, and Mrs. Robertson.

After the breakfast their Majesties presented Mrs. Fowler with a handsome memento enclosed in a carved sandal wood case, as a wedding present. This gift of a rare royal leather necklace is the greatest compliment that can be bestowed.

## Dance at the Palace.

On Friday a committee of ladies waited upon the King to obtain his permission to have a dance at the Palace this evening. His Majesty readily consented, and the invitations are issued by that committee. The dance is given on the eve of His Majesty's departure for the Coast, and also complimentary to Mr. and Mrs. Alfred Fowler and the Admiral and officers of the U. S. Flagship *Charleston*. The Hawaiian band will play for dancing.

## OUR SAN FRANCISCO LETTER.

Per K. M. S. Zealandia, San Francisco, November 18, 1890.

(From Our San Francisco Correspondent.)

## Sugar News.

New York, Nov. 15.—Cuban centrifugal, 96 degrees, 5 52-100; granulated 6 1/2c.

The local market is steady, with rates based on 6 1/2c for granulated. The Eastern market is very quiet. The supply at San Francisco will probably be diminished by the failure of the *Strathearn* to arrive from Java. She is given up as lost.

Judge Pratt of New York has appointed H. C. Havemeyer, General H. W. Slocom and S. W. White as receivers of the Sugar Trust. The trust will very soon issue a new plan of re-organization, and its affairs will be conducted so as to conform to the laws as recently laid down by the courts.

The Secretary of Agriculture in his recently published annual report makes a very flattering reference to the beet and cane sugar prospects, and particularly to the former. The excellent condition of both crops is attended to. The outlook for the home sugar industry is considered favorable. An analysis by the department chemist of beets grown in various states from seed distributed last spring indicate a high per cent of sugar, and afford what is regarded as conclusive proof that large sections of the country are adapted to the successful culture of the sugar beet. The practical results obtained in Nebraska, California and Kansas demonstrate the feasibility of home-grown sugar manufacture. Considering that Europe produced last year 3,625,000 tons of beet sugar, and that a very material part of it was grown in soil and climate similar to that of the central United States, there seems to be no valid reason why this country should not in a few years be practically independent of foreign sources for its sugar supply.

A dispatch from Farnham, Conn., says that the French company which is attempting a beet sugarie there has proved a success, the beets running from six to eleven per cent of saccharine.

Beet sugar production is receiving renewed attention throughout the United States.

A dispatch from Berlin dated the 13th, says: The National Zeitung says: The bill before the Federal Council provides for a gradual reduction in the duty on beet sugar. The payment of the bounty on beet sugar exported from the country begins in August, 1893.

The value of merchandise imports at San Francisco during the week ending as follows: Hawaii, \$189,873; Philippines, \$358,019; Dutch East Indies, \$368,629; Australia, \$105,222 and Tahiti \$27,105.

## A Money Score.

The past week has been marked by tremendous excitement on the New York money market brought about by a general bear raid all along the line on the Northern Pacific and North American bank, both controlled by Villard. In the hurry and rush of the attack four of Villard's brokers firms went under, notably Decker Howell & Co. The North River Bank also had to close its doors. The culmination was on the 12th and 13th when all stocks and particularly the Villards were mercilessly attacked. Villard weathered the storm though rumors of his failure were rife at all times. In the movement the panic feeling extended to the extent that Sugar Trust dropped to 51, and all other stocks fell from 5 to 25 per cent. The market quieted down on the 14th and was in its normal condition. Money was high, 1 1/2 per cent, but was relieved by the New York clearing house. Among the houses which went under were Chas. M. Whitney & Co., brokers, for \$300,000; John T. Walker, Son & Co. for \$300,000; and Decker Howell & Co. for over \$100,000.

Trade with New Zealand.

Consul Connolly at Auckland, N. Z., has made a report to the State Department in which it is stated that the value of imports from the United States in 1889 amounted to \$1,712,181, an increase of \$66,835 over 1888. The value of exports to the United States was \$1,706,880 leaving a balance of \$5,339 in favor of the United States. The total value of imports from the United States into all the colonies during the past ten years is stated to be \$18,680,255 and the exports to the United States were \$16,329,060 leaving the United States a trade balance of \$1,341,195 for ten years.

This is considered exceedingly favorable in view of the fact that no particular effort has been made on the part of the United States to cultivate trade relations. The only method of building up trade is to foster the steam communication.

Consul Connolly refers to the fact that for years the New Zealand Government has borne the most of the expense of the mail steam service. In speaking of the failure of the government to renew the service Consul Connolly says: "The withdrawal of the Oceanic Company's steamers would be a death-blow to American progress in the South Pacific and would tend to alienate the friendly desire to trade with the United States that at present happily exists. It would require years of determined and unremitting effort to establish the friendship and prestige that we at present enjoy in the sea. I cannot too strongly urge the necessity of at least giving pecuniary assistance to old established lines whenever the importance of such lines demands it." Continuing the Consul states that the condition of the colony is as prosperous as could be expected considering that the total indebtedness was \$452,846,370 of which \$442,846,370 is held abroad.

## Monument to Tavernier.

The brig *Consuelo* which sailed on the 13th, had on board a granite monument which is to be built over the remains of Jules Tavernier, the artist, which are buried in Honolulu. The monument is a fine specimen of this sort and is suitably inscribed. It was purchased by an association formed for the purpose.

## Blaine's Ideas Triumph.

The Republican leaders have spent the past two weeks in casting about for the reason of their Waterloo. The polls on the 4th, and the results of their conferences will be embodied in a plan of action to be pursued at the coming session of Congress. The staunch adherents of the McKinley bill are loath to believe that that which caused their defeat, but the general run of the leaders are firmly of the opinion that that measure was responsible for it all.

Mr. Blaine has seen the opening now presented to him, and a reciprocity treaty has been concluded with Brazil, while others are pending with Colombia, Peru, Chile and Argentina. General E. B. Burdett, the newly-appointed Minister to Grubb, has the Cuban reciprocity treaty well in hand. Dispatches from Wash-

ington indicate that Blaine is working night and day on his cherished project, and that if he has the swing at present accorded him, he will make reciprocity the election issue of the campaign of 1892, as against free trade.

## Burchell Hanged.

J. R. Burchell was executed on the 14th in the jail yard at Woodstock, Ontario, for the murder of F. C. Benwell in February last. He induced Benwell to leave England with him on the pretense of teaching him how to farm. He represented that he owned a vast farm in Canada, and told Benwell that by investing a small amount of capital he would soon become rich. After fleeing Benwell out of his money he lured him to a swamp near Eastwood and there killed him. The evidence against Burchell was entirely of a circumstantial nature, but it was so strong that, notwithstanding the fact that thousands of people petitioned for a commutation of his sentence, the authorities would not interfere.

Burchell met his fate bravely, never faltering during the ordeal through which he passed before the execution. He stoutly maintained to the first to last that he did not fire the shots which killed Benwell, but would not say who did. His wife in their last parting urged him to confess, but this he would not do.

## A Naval Service.

At the usual service on board the U. S. Flagship Charleston, Sunday morning, the musical portion was rendered by the choir and organist of the Second Congregation of St. Andrew's Cathedral. The service was held on the main deck. Admiral Brown, Capt. Remy and officers attended, and nearly every one of the crew was present. Chaplain Frank Thompson had charge, and read the prayers and lessons impressively. The choir sang the anthem, "Hymn of Peace," by Calcott, the solo being rendered by Miss Dora Dowsett. The hymns included, "All Hail the Power," "Hark, Hark My Son," and the one for those at sea, all being sung with a will, the crew joining in. A nice toned reed organ from the Hawaiian News Company's music department was used on this occasion. The service was heartily enjoyed by all on board.

The Royal Mail steamship Zealandia, Capt. K. Van Oterendop, arrived at 3 o'clock Sunday afternoon, 7 days and 21 hours from San Francisco. Sailed from the latter port Saturday, November 15, at 5:07 p. m. The first two days experienced light variable winds and fine weather. November 18th strong S.E. wind with heavy sea, 19th fresh N.W. gale with very high sea. At 7:45 a. m. passed the Alameda, bound east. On the 20th had squally weather with heavy N.W. swell, thence to port light variable winds, fine weather but moderate N.W. swell. On the 22d inst. at 12:45 a. m. passed the Alameda, bound east. Her slow trip is owing to defective machinery and the rough weather.

The Zealandia brought 45 cabin, 39 steerage passengers, and 304 tons of cargo for this port, and had in transit for the Colonies 51 cabin and 46 steerage passengers and 840 tons of cargo. She left for Auckland and Sydney shortly after 2 o'clock this morning.

## Dramatic Entertainment.

H. B. M. S. Nympha's amateur dramatic company gave a performance at the Opera House Saturday evening in aid of the Sailors' Home. The audience was not so large as it ought to have been. These gentlemen offered their services for this charitable object and should have been greeted by a full house for taken as a whole the entertainment was really excellent. The two farces were well played and well mounted. The light infantry drill by eight of the marines was a treat, the various movements being executed with wonderful precision. The marines were loudly applauded. The tableaux "Rule Britannia" was beautiful, and the solo by J. King well rendered. It is rarely a more effective tableaux is seen here. The songs and dances elicited well merited applause. One feature of the evening was the playing of the orchestra under the direction of Mr. Oscar Herold who presided at the piano. He introduced some new music which was most enjoyable.

## Personal Mention.

Mr. Rudolph Neumann, a nephew of Hon. Paul Neumann, arrived on the Zealandia on a pleasure trip. He is connected with the Alaska Commercial Company.

Mr. and Mrs. G. P. Wilder took none the worse for their three months' visit on the Coast.

## THE BALL-TOSSERS ARRIVE.

Manager Hoops Brings a First Class Team—Three Games This Week.

Mr. Frank L. Hoops arrived on the Zealandia, bringing with him a first class team of baseball players, to be known as the California Club. They are all well known and tried men, who will put up a good game of ball. Domiciled at the Hawaiian Hotel Cottage No. 700, a large number of our local players called upon them yesterday evening, and found them to be a very gentlemanly set of fellows, and, as might be expected, very enthusiastic about baseball.

Three games will be played this week, the first on Thursday, Thanksgiving Day, the second on Friday, Hawaiian Independence Day, and the third on Saturday. The games will commence each day at 3:15 p. m. The boys will practice each morning from 7 to 12 o'clock.
