HAWAII'S "BLUE" LAWS

CONSTITUTION and LAWS

Framed by the Missionaries.

LAWS of the HAWAIIAN

ISLANDS.

8. When the parent dies, then the child is the heir, if there be any child living. The parent during his life time may sell his personal estate to whosoever he pleases. But the land and all fixed property on the land shall descend to the child. If he have many children, they all shall inherit it together. Though if the parent while he is living and in sound mind, make a written will, he may bequeath his land to whom he pleases. When he dies the heir shall exhibit the will to the King, and if the Supreme Judges perceive that there was a real fault in the will, they shall correct it, lest those to whom the property justly belongs should be left destitute, and those possess the property to whom it does not belong.

If this law be proclaimed in any village or district, the day of its proclamation shall be the day of its taking effect at that place, but even if it be not proclaimed, it shall nevertheless take effect on the first day of September of the present year, at all places on these Hawaiian Islands.

All the words of this law having received the approbation of the House of Nobles and Representative Body, we have hereunto set our names on this twenty-fourth day of April, in the year of our Lord one thousand eight hundred and forty-one, at Lahaina, Maui.

(Signed) KAMEHAMEHA III
KEKAULUOHI.

CHAPTER XXII.

LAW RESPECTING DEBTORS.

It is of vast importance to men engaged in trade that each party fulfil the agreement. If either fail, trade is embarrassed, and the public is injured, wherefore in a council of the Nobles and Representative Body, the following law was enacted:

1. If one man be in debt to another and do not cancel it at the time agreed upon, and on that account the creditor becomes anxious and fear lest he should not obtain the debt, he may then go to either of the judges who will thereupon attach the property of the debtor, but not remove it, he will merely place the property under his protection, after which no one can take the said property without leave from the judge.

2. If the debt be not paid within thirty days, then the property shall be sold at auction for the payment of it, and the judge shall receive his fees out of the said property but not out of the debt. But if the debtor be suffering some misfortune from the providence of God, he shall then be allowed a full year, and the property shall not be sold at auction until the expiration thereof. But at that time, if the debt be not cancelled it shall be sold. If the money received for the property exceed the amount of the debt and the judge's fees, the balance shall be restored. Nothing shall be taken unjustly, and nothing wasted.

3. If any one in a fraudulent manner become indebted to another and do not pay the debt, or if one become famous on account of his frequently contracting debts and not paying them, and have no property with which to pay, he shall then be put to hard labor for a length of time proportioned to the amount of debt, which shall be

HONOLULU, AUGUST 9, 1894.

THE REGISTRATION.

The morning organ this morning prints the clauses of the constitution relating to qualification of voters, and finishes by saying that the constitution is most liberal indeed towards intending voters. The first qualification for a voter is that he shall be a citizen of Hawaii. The *Advertiser* does not explain though, that no foreigner at present, never mind how many years he has resided here, can become a citizen. That point the official organ has been dodging very carefully since we pointed out the clever scheme through which the majority of the foreign opposition has been disfranchised. Foreigners favoring the government are either granted letters of denization or special certificates. The opposition is locked out or at least that portion of it which was not naturalized previous to January 17, 1893. If the *Advertiser* terms such an arrangement liberal and satisfactory its ideas of liberality must be of a very unique description. The fact is that the government was sure that it would be wiped out of existence if it ever submitted to a popular vote. Everything was therefore "fixed" to suit the emergency and while all true principles of a popular constitutional government were blown to the wind, a sham election has been arranged. The people has looked through the nefarious scheme and for that reason they will neither register or support the public.

WHERE ARE THEY?

The *Advertiser* is in a very crying mood lately because the registration of voters has turned out such a perfect fiasco. This morning it admits that "only a part, and that the minority, of any community business itself with politics."

For that minority the special certificates for services have evidently been created which means that the supporters of revolution are the minority of the country. But what have there become of the 7,000 members of the annexation club? Did they perhaps exist on paper only?

IS THAT SO?

To assume that the refusal of foreigners drawn as jurors to take the oath, is due to political hostility to the Republic is utterly absurd. It is not the abjuring of the monarchy to which they never owed fealty, but the assuming allegiance to the Republic, which makes the difficulty.—P.C. *Advertiser*.

How does our esteemed contemporary then explain that nearly every one of the foreigners who refuse to take the oath to the republic were voters under the monarchy and a great number of them are naturalized Citizens? And since when has the *Advertiser* found out that a man by taking the oath to the republic forfeits his native citizenship? We have always upheld that such was the case, but it seems to us that the *Tisler* took another view. And let us simply know why a certain organization is called the "American" League when all the members have taken the oath to the republic and consequently ceased to be "Americans;" and why the Fourth of July was celebrated by men who, according to the *Advertiser*, were no longer Americans?

The main reason why foreigners don't take the oath is that nearly all the *kamaeikas* are bitterly opposed to the new missionary regime, and it is from their numbers that the juries of this country are made up.

Hawaii's Envoy Extraordinary and Minister Plenipotentiary to the United States, with headquarters at Washington, is still with us in Honolulu.

THE PROPOSED TROLLEY ROAD.

According to the *Advertiser* there are two applications before the government for a franchise to build and conduct a trolley road in Honolulu. One applicant is Mr. Ballentyne of Victoria with whom Messrs. W. N. Armstrong and J. P. Castle of this city are associated, and the other application has been presented by L. A. Thurston, T. W. Hobron and C. L. Carter all of Honolulu.

While everybody will be pleased to see any enterprise undertaken which will give employ to the many unemployed now in the country, and which will increase the facility of transportation, we fear that the promoters of the scheme will find that they have undertaken a job which it is at present at least will be impossible to carry out.

Building a trolley road will cost a very large amount of money. In fact the Victoria people intend to capitalize at \$1,000,000. The Tramway Company which now holds a franchise is incorporated with a capital of \$325,000. This company has been for a number of years, and is annually, paying a small dividend to stockholders. It runs its lines through the principal streets, and the trolley company would be prevented through the tramway company's charter from running parallel lines except for the short distance of 170 feet. How under such circumstances with the steady competition of the tramway company, and the absolute advantage of the roads in favor of the latter company the promoters of the proposed trolley road can expect their enterprise to pay is beyond comprehension. Perhaps the roads to the Pali or to Mount Tantalus are expected to pay for the whole outfit, but we are rather sceptic. When Mr. Thurston spent a large amount on the Punchbowl road, he wanted the country to believe that the road would be to the greatest benefit and enjoyment of the people. How many go up there now? How many use that expensive road during the year? And people have not abandoned the trip to Punchbowl because they have no horses and carriages. Just as many carriages can be seen on Sunday now as formerly, but they travel to Waikiki, Manoa or Kalihi, and hardly ever to the Pali, Punchbowl or Mount Tantalus.

If people want to invest their money in some enterprise it is, of course, their own business, but we believe it the business of the Press to lift a warning voice when it is evident that the success of the enterprise is doubtful.

S(OUTH) E(AST) BISHOP is again in print. It would seem as though the reverend (?) (Heaven save the mark) gentleman does not know a hawk from a handsaw at any point of the compass. O, that his "too, too solid flesh," would melt, thaw, and resolve itself into a dew.

CHINA AND JAPAN.

Which Would Be Victorious in the Case of a War?

Recent dispatches, stating that war is probable between China and Japan over the Korean question, renders the following extract from the *Japan Gazette*, received Saturday morning, interesting:

As to which of the two combatants would win if the worst comes to worst there is no need here to discuss. That the Japanese troops would acquit themselves in a manner worthy of the traditions of the great Hideyoshi goes without saying, but China is a vast country and war could be going on for years on her frontiers without people in the interior suffering any inconvenience. It is different with Japan. Even if she gained many victories they would tell nearly as severely as many defeats. The country is not a rich one. Already the farmer and the husbandman are taxed almost to the uttermost.

The surplus in the Treasury would soon be swallowed up and it would be very difficult to raise more. True she has no national debt worth speaking of, and a loan in Europe would be readily taken up, but all this would mean heavier taxation. Hence her industries would be handicapped and trade would dwindle. So great would be the burden that we doubt whether even the acquisition of Korea would be a sufficient recompense. And it is at least doubtful if she can acquire Korea.

There was a report on Thursday, says the *North China Daily News* of June 13th, which we repeat with all reserve, that France and Russia will support Japan in her resistance to China's action in Korea. That this means that Japan will resist China in Korea by force, and that France and Russia will actively assist Japan we are loath to believe; but if this should happen, will China look to us to come to her assistance? We do not believe that any of the powers named is anxious now for a war over such a small matter as the control of Korea; least of all France, who, it seems, is about to have Siam on her hands once more. Meanwhile we understand that the Chinese telegraph lines north are so congested with Government messages, that they can hardly undertake any other business. This rumor we (*Japan Gazette*) do not credit. Surely Russia would gain nothing by allowing Japan to occupy the Peninsula, nor would such occupation be in keeping with her traditions. If she helps any one to Korea it will be herself.

In another place the *Gazette* says: We would not impugn the bravery or the ability of Japan's army. Her soldiers will not dim the luster of those heroes who, under Enomoto, waged unequal war at Hakodate, or of those brave men who died gallantly for a lost cause under Saigo Takamori. They come of a fighting race and will do all that courage can do to achieve success. But what will be the use of a victory or two against such a country as China? It is doubtful if there is a power in the world, which, single-handed could reduce China to humility. France tried it and failed, and what she could not do it is at least open to question that Japan can perform. Japan, whether victorious or defeated, will lose thousands of men and exhaust her treasury. China will not know that she has been hurt. If defeated she will send more troops, for what is half a million soldiers in a country with four hundred million population?

The entire Chinese Army is divided into three sections. In the time of peace, most of them are engaged in peaceful occupations, and are only called out in time of emergency. It is only Li Hung Chang's army of 30,000 men who are always in service. The first section consists nominally of 520,768 men of whom 167,433 reside in Peking, at Shin kyo 36,950, in Manchuria 4,875 and 41,500 in the various provinces. The second is 145,802 strong, consisting of 90,034 infantry, 2,272 artillery, 4,821 cavalry, 23,956 Manchurian reserves and 19,719 on the Manchurian frontiers. The last is reported to be 714,430. The total estimated strength is 1,110,000; but the accuracy of these figures is open to question.

In "Puddenhead Wilson's Philosophy" Mark Twain says: "Put all of your eggs in one basket—and watch that basket." Eggs are not the only things to which this applies, we can make it fit stoves and change eggs into dollars and make it read—Invest your coin in a Pansy Stove—and the stove will watch itself. We have been watching these stoves for the past five years, and find them the best iron stove sold in this market for the money. Where else than at our store can you get a stove that will do everything that a \$50 stove will do and get it for \$15! Echo answers, "the place isn't built." We have sold hundreds of these stoves in Honolulu, and never had a complaint. Two weeks ago, we sold one to a gentleman on Hawaii, and yesterday he ordered another for a friend. The stove sells itself through its fuel saving qualities, and because, it is a good baker. You can get other styles of stoves if you are not particular as to the quantity of fuel you burn or how your food is cooked. There's no dyspepsia in meals prepared on a PANSY.

We received last week a lot of wire clothes-lines that hold washed clothes without using pins. It is a sort of double wire arrangement and the pieces are held in between; the harder the wind blows the tighter the pieces are held to the line. There is absolutely no danger of the clothing being torn as there is nothing sharp about the line. While the cost is a trifle greater than rope, this new style will last so much longer that it is economical to buy the pinless line.

The CLAUSSE is one of the new fangled saw-edge knives that cut warm bread without leaving it heavy and iced cake without making crumbs. There are two or three different makes of these knives, all on the same principle and each one pronounced the best on earth by the manufacturers. We selected the Clausse, which we believe as a disinterested spectator to be better than its neighbors. You never had anything in your life that give as much satisfaction for a dollar. If you were buying the other sort you would get only one.

The favorite sewing machine in any community is the one that does the most for the least money and which runs the easiest. In the "Wertheim" you have a machine that sews three distinct stitches—The Lock, Chain and Embroidery and runs easier than any other machine, and you pay twenty dollars less for it. Economy stands boldly every side when you buy a Wertheim. In tucking the chain stitch is preferable, but in other kinds of work, the lock stitch is the best. If you buy a machine that sews the lock, unless it is a Wertheim, it won't sew a chain stitch. There's no particular saving in buying a machine with but one stitch, the Wertheim does three and saves you lots of trouble and work.

We've just unpacked six cases of stand lamps that were built for hard times. They have metal bases and are decorated so as to make a very neat appearance in a room. We don't think you can get as good a lamp anywhere else for the money, try as hard as you please.

Our stock of table cutlery, spoons and forks is as large as you will find in any store in San Francisco, and our prices compare favorably with those in New York.

LOCAL NOTES.

The same old moon is now over a quarter full.

Morgan, the silver-tongued, holds an auction at his salesrooms tomorrow.

The members of the Healan boat club meet this evening at the Hotel.

The lines of the local detectives seem to be cast in pleasant places at present.

Quick dispatch is promised for all baggage forwarded by F. Alves' express.

Deputy-Sheriff Sam Chillingworth of Maui is in town on a visit of short duration.

The lease of the Government lot, No. 15, situated on the Esplanade is to be sold next month.

Moonlight fishing parties now line the wharves and the many natives engaged are meeting with good luck.

Braham the soft soap man has a very interesting advertisement in this issue which all housekeepers should read.

Mr. W. G. Irwin, W. A. Wall and W. E. Rowell were amongst the passengers by the Claudine for Maui on the 7 inst.

Residents on the Plains are happy in an abundance of water at present, the flow from the artesian wells being utilized.

The band concert at the Hospital grounds yesterday afternoon was enjoyed by a number of people besides the convalescents of the institution.

The bktn Irmgard, Captain Schmidt, sails for San Francisco tomorrow carrying a cargo of sugar and rice valued at \$43,883.75.

In the equity case of J. F. Bowler vs E. C. Macfarlane et al, more generally known as the "Elate controversy," Judge Cooper yesterday advanced matters by ordering an accounting before C. F. Peterson Esq. as master.

Admiral Walker and staff and Capt. Barker of the Flagship Philadelphia called officially on the British Commissioner yesterday morning.

Although every morning presents strong indications of rain none, of any quantity, has yet fallen and therefore the drought continues.

"Alabama" Mitchell who is "anything but a spy," as he says, is at present "keeping cases" on Washington Place. Looking out for burglars, probably.

The Viavi remedies are becoming more and more celebrated in town and many women have already been greatly relieved by using them. It is a cure for numerous diseases and a visit to the office on King street will well pay all sufferers.

The bicycle race which has been so long noted, by an evening paper, to take place between Spencer and Wright has, by mutual consent, been postponed until the 31st of September.

It has been noticed that, for some time past between the hours of midnight and 1 a.m. a rifle has been discharged in the vicinity of Waikahalulu bridge. The continuity of the occurrence causes remark. The police know nothing about it.

Harry Armitage, William Lantz and John Winter all well known business men of town have disqualified themselves, with other good people, from jury duty by not swearing allegiance to the new, just born, republic.

Queen Emma Hall is receiving needed repairs by order of the trustees of the Queen's Hospital. The building will be used, in the near future for a kindergarten school under the direction of Mr. F. W. Damon.

Mrs. Featherstone, the woman so seriously cut by a knife in the hands of her husband, is not improving in strength much the shock and pains of the wounds although bravely borne at first has left an impress on the nervous system not quickly removable.

Mr. George Lyeurgus has again assumed the conduct of Sans Souci and has retained the services of that "prince of caterers," Mr. J. W. Chapman. The former proprietor of the Villa, Mr. Simpson, speaks highly of the ability of Mr. Chapman and recommends him with confidence to guests of the house.

The Australia besides interesting political news will bring a fine assortment of Oysters for W. Cunningham, which he will serve in his celebrated Oyster-cocktails a most invigorating and healthy concoction especially when taken with the celebrated ice Friederiksberg Beer which is always on hand in the Anchor.

Band Concert.

There will be an open air concert by the band at Emma Square commencing at 7:30 o'clock. Following is the programme of the musical events:

A Coming Treat.

Doctor John T. Hatzopoulos, professionally known as Greek George, the strong man will appear at the Opera House on Saturday the 18th inst. and present to Honolulu some of his wonderful feats. Greek George is a tall wiry-looking man apparently not possessing unusual proportions or strength but he performs feats which have to be seen before believed and which equal those credited to the famous Sandow.

The doctor will raise a man sitting in a chair with one hand. While reclining between two chairs, the back of his head resting on one and his heels on the other, two men with 15 lbs. hammers will break a 250 lbs. granite stone on his breast.

He breaks ropes and chains with a stroke of his finger, which other men cannot do with their entire weight.

Many other feats could be mentioned. Several people have here seen some of the performances of this giant. At San Souci a few days ago, he lifted two gentlemen standing on his hands from the floor. The weight of the gentlemen were 190 and 130 lbs respectively. At Mr. L. J. Levey's auction room he, on one hand lifted Mr. J. Marsden. From these examples the strength of the doctor can be judged and will be of interest to all to witness his performance.

Another Event.

At the regular monthly meeting of the H. A. A. Club held at the Y. M. C. A. Hall, Tuesday evening it was resolved to hold another field day on Saturday, Sept. 8 1894, at Maikiki on which the following programme will be run:

1. 100 yards foot race handicap.
2. 120 " hurdle " "
3. 220 " foot " "
4. 1 mile " " "
5. 1/2 " " " "
6. 1 " " " "
7. 1 " " " "
8. Obstacle race.
9. Threelegged race.
10. Relay race.
11. Throwing the hammer.
12. Putting the shot.
13. Running broad jump.
14. " high " "
15. Pole vault.

Also 1 mile bicycle race if the ground can be fixed. Gold medals will be given as prizes in all the principal events and as fast runners will be handicapped everybody stand an equal show to win, so the boys had better begin to train right away.

The football season is coming on, and practice will commence next Tuesday evening the 14th inst. at 5 o'clock on the baseball grounds, Maikiki, and continue same time and place every Tuesday and Thursday till further notice.

There will be a special meeting of all members at the Y. M. C. A. Hall tomorrow (Friday) evening at 7:30 p. m.

About Feet.

Of course, it is the proper thing to scoff at the Chinese lady who crushes her feet out of all human semblance by swathing them in tight-fitting bandages, but American women should remember that old adage about glass houses and throwing stones, says an exchange. Are we blameless in that direction? I think not, recalling to mind several instances that have come under my notice of children whose feet have been tortured and deformed by badly-fitting shoes. The natural results of such treatment are crooked toes, corns, bunions and abscesses. Foolish mothers and careless mothers allow their children to wear cramping foot gear, the first on account of a desire to have the little people's feet appear small and the latter from thoughtless inattention. A pair of shoes is bought which fit the feet snugly. The feet grow rapidly and the shoes soon become too small. The proper plan is to get the shoes large enough for the growing feet, and then they will not have to be cast aside until they are worn out, and the feet will retain their normal shape. Grown girls and women often suffer from the same cause, but it is through their own fault and they get little sympathy.

LADIES' COLUMN.

You have all been reading this Column for some time and expecting something to drop—well here goes for a little flyer as we say in Mercantile Parlance. We have a counter devoted to Wash Dress Goods this week, they are worth looking at, and at the same time making a guess on their Value. Remember you need not buy them unless you want to—but you can call and guess on their Value—and the Lady guessing the nearest to the retail value of these Goods can have her pick of a Dress Pattern for nothing, those that are not good guessers won't make a very bad mistake, if they buy the goods outright at our figures. So come in and make your guess, the pools close Saturday—the winner gets her Dress, Monday, August 13th.

There is nothing the matter with Scotch Dimity when you can get 6 yards for \$1 or Toile du Nord for children's School Dresses or Ladies Dresses at 8 yards for \$1. Remember these goods improve everytime they are washed.

Something new in American, English and French Percal for Shirt Waists and Dresses—these Goods are the finest ever shown here and make up lovely.

32 inch wide Cotton Duck at 15 cents a yard is another thing you can make no mistake in—all Fast Colors—we have an elegant line of Linen Duck.

Now don't forget to come in and guess on those Wash Dress Goods. We have something for the Second Best Guesser but we won't mention it.
