No. 67.

## TOPICS OF THE DAY.

The Advertiser thinks Hilo people should rely on the judgment of their friends in Honolulu. To question it is an insult. Well, the Hilo people will now keep on insulting the Advertiser and their other friends (?) in Honolulu.

Wouldn't it have been better to pay damages—even to \$40,000 or more—a few years from now, than run the risk of the danger of landing passengers or freight from the Rio de Janeiro? Most people think it would. However the thing is done, and we must make the best of it.

Whether the ex-sheriff, now deputy sheriff of Hawaii, Mr. Williams, will permit his superior officer ex-Marshal, now Sheriff of Hawaii, Hitchcock, to land, depends on the citizens of Hilo, and the efficacy of their shot-guns and the zeal with which they carry out the statements they have made. It is possible however, as has been facetiously suggested, that the reason why Hiloites keep up such a strict quarantine is not because of the cholera, but because they fear the return of their sheriff. Perhaps something of both.

Many sincere people would like the consolation of being able to enter a church, and meet with a clergyman of their respective denomination, just now. The permission surely could be accorded without giving occasion to gather a crowd. At least, no greater crowd would be gathered than at the distribution of food from the ladies' relief-station. And it would tend to relieve panic and remove scare from many well-meaning person's minds. Remove the prohibition and place the use of the churches under what restrictions are necessary. But be consistent and improve in your action.

The New York Sun states in a recent issue: "Dr. Kanson, one of Prof. Behring's assistants, has discovered a serum remedy against cholera which has proved successful on animals." This might be better to get than sending our bacteriological germs to be examined. However, it also says: "Microbes killed a Vienna bank clerk lately who, in counting a pile of bank notes, moistened his fingers with his lips." Shouldn't these things be examined? Boil the coin, and disinfect the Treasury and special deposit notes as well.

The Portuguese are out in print accusing the editor of the Advertiser of slandering and sneering at their nationality. Members of that colony are sensitive, it appears, to his remarks, declassifying them from the ranks of white men or Europeans. They are right. But they should remember "it is the nature of the beast." He has never ceased to slander or vilify any one, or any class, that was not in exact and absolute accord with the ranks from which he sprung, and which he and his animal-aggravating coadjutor S. E. Bishop, so ably and accurately trots out the views and feelings of in print.

### DESCRIPTION AND TERMS:

"CREOLE" is the gamest, fastest and best bred stallion that has ever been imported into the Hawaiian Islands. He reduced his record of 2:20 to 2:15 in Petaluma, Cal., August 24, 1894, distancing his whole field in the first heat; then again to 2:15 in Stockton, Cal., September 23, 1894, winning the first heat in 2:15, fourth heat in 2:15, and fifth heat in 2:19, proving that he is a remarkably game as well as a speedy race horse. ("Creole" by Prompter out of Grace by Buccaneer shows that he is capable of getting a mark of 2:10, and is one of the gamest stallions seen this year, and besides being game, is one of the best formed and remarkably intelligent. —Breeder and Sportsman, Sept. 25, 1894.) He is 15½ hands high and of powerful build throughout. His color is glossy black with one white hind foot. His disposition is all that could be desired and his action superb. He is a sure foal getter.

## THE NEXT MOVE.

Let us have a general quarantine!

The large majority of the community favor that move if carried out speedily and rationally. Any measure to stop the further spread of the cholera ought to be adopted at once (even if it carries with it temporary inconvenience), if it is rational, and possibly carries with it a heavy expense. To risk a general attack of the cholera ravage will cause more inconvenience, to say the least of it, and also much greater expense.

President W. O. Smith who, during the past weeks has proven himself an admirable executive officer, favors the radical method of quarantining the town. The organization of the sanitary inspectors has been perfected and the measure can be carried out without great difficulty. Volunteers will be on hand and will give all possible assistance to the Board. Merchants and others will prove their willingness to help financially, and otherwise, in the execution of any plan which can stamp out the cholera.

Nobody says or guarantees that the general quarantine will prove an infallible remedy; but everybody with intelligence—even without telephone—admits that it is worth trying even such a stringent measure, if thereby the disease can be checked.

There is no business in town. Almost all storekeepers are willing to close their places of business for a week, or ten days if necessary. The hardship connected with staying at home ought to be overcome by the possible reward in the annihilation of the disastrous germ. Bulletins can be issued and distributed daily by the sanitary inspectors, and the people confined to their homes will be kept as well posted as they now are when buying THE INDEPENDENT. Provisions can be furnished by telephone or by requisition of the inspectors. Whenever necessary the Government will come to the rescue and the necessary food delivered free of charge. The expense will be less to the Treasury than that incurred by an indefinite continuation of the epidemic. The Relief Society can assist greatly in giving financial assistance, and the benevolent ladies, during their involuntary,

confinement at home, will have ample opportunity to do good by making clothing for the poor, destitute Hawaiians—an occupation eminently fitted to ladies.

We suggest that the general quarantine be adopted and inaugurated without delay. If not, the Board of Health will always have on their conscience, and will always be rebuked, for not taking a step which, although objectionable to the comforts and interests of many, has been declared by themselves the only salvation of the community.

## TOPICS OF THE DAY.

As regards to the difference of opinion between THE INDEPENDENT's editorial management and the ladies of the relief committee, it is simply a difference of opinion as to the methods to be pursued. We think one way is best. They do another. There is absolutely nothing personally or individually concerned. It is simply which way is best to pursue, to obtain one common object—the rescue of the Hawaiian people.

The ladies think we are bribed to run them and their work down. So they refuse us access to the scene of their operations. It is well. If they are so sensitive, can they blame the others for being so short sighted? Is it not of a piece? The honest friend is jumped on because he cannot toady and agree that every thing arranged by other people is for the best. Well! Let truth and honesty perish, as have every thing else worth preserving. Let us kowtow to the idea, and say that every criticism is an insult. Even the "missionary" could do no more. Some day you will learn that "honesty speaks," "dishonesty agrees."—And God forgive you when you learn it.

We are accused of being bridled because we do not slavishly follow the ladies who run the relief station, and praise their actions. Has it come to this that if the ladies are not satisfied we must suppress our independent opinions and simply publish what they wish? Are they like those we have been fighting against. If so "God save us from our friends."

The Bulletin says there was a policeman on hand to attend to the ladies' relief station. There was not—until the INDEPENDENT went and asked for one. Neither the ladies nor the Marshal had thought of it.

We have already called attention to the non burning of all the old fishmarket lumber. Either the lumber should all have been burned or none of it. If it is infected, burn it. If not, it is wasting money.

If Hawaiians and others may not eat crabs, etc., at Iwilei, and poke round in the rotten mud at the shore, why are hogs allowed to roam at liberty there and eat everything. Those hogs are sold afterwards as clean. Let us prohibit pork if the practice is continued.

If the ladies who have undertaken the work of managing the relief station and supervising the expenditure of the money collected must be buttered, up and flattered without regard to truth, it is time for them to know that true chivalry is truth and honesty—that polite phrases

as the old proverb says, "butter no parsnips." That it is much better to attain the object sought, "succoring indigent Hawaiians," in such a way as to expose them to no danger of contagion, than to feed the well-to-do, and gather crowds who may communicate contagion to each other. Common sense distinguishes a good woman. Only Fashion's butterfly cannot discriminate between honest criticism and fulsome adulation and weigh the respective values of each.

The Honolulu correspondent to the New York Sun is highly indignant because Cleveland's administration has demanded damages for the illegal arrest of Durrell. The earmarks of Sereeno Bishop are easily discernible in the article and his special argument is truly delightful. He virtually claims that Durrell, should have no redress because he has "kinky" hair—If he had had a recorded mortgage on some kinky haired kanaka, he would perhaps been O. K.—When the reverend writer to the Sun uses pitchforks on horses the question of "kinky" hair evidently doesn't arise. He puts it in anyhow.

When this newspaper was started the name THE INDEPENDENT was judiciously and advisably selected, by the writers. When that name was chosen we believed that every reader would understand the character of the paper. We now find that whenever we independently step on the toes of the government we are called royalist; and whenever we criticize the opposition we are charged with bribery and corruption. Gentlemen—and ladies—of both sides; allow us to have an independent opinion and express it. That is what we are here for. And we stay by it on our merits.

Here is what the Advertiser states this morning editorially referring to an article in The Nation of N. Y.

"The Nation has nothing to say about the 'British pirates and thieves,' who govern Jamaica and refuse to allow its half million of population any voice in the government. It is only when Hawaii is in question that it foams at the mouth, and it feels dreadfully sorry over the wickedness of some white people."

We are astonished that a travelled (?) gentleman like W. N. Armstrong should publish such unmitigated and absolute falsehoods. Suffrage in Jamaica is free to all of any color, or shade of color. The Legislature is said to have among its members of both houses, more than 90 percent of what Americans term "colored" blood. And the Legislature runs the Government as it does in all British colonies and countries. Don't, for the sake of stabbing an opponent, lie again. You only expose your ignorance.

Among other pitiful incidents of our plague is the following, as reported by the Advertiser:

A Japanese living in one of the valleys came into town yesterday for the purpose of getting married. His mission was a successful one and he left the Japan Sea for his home in a happy frame of mind. He was stopped at the entrance to the valley by an inspector, who would not allow the wife to go any farther. The new husband went to his home alone; the wife returned to town.

The Bulletin offers some remarkable suggestion to the Sanitary Inspectors as to fumigation and burning of rubbish. The Inspectors have probably already done all that

work, and in better ways than the Bulletin suggests. The following is remarkable both for its involved English and the question which arises, as to what it would consider as necessary to be burned on account of being contaminated. Contaminated by what? Unless clearer directions are furnished, the instructions of the item, if carried out, might act like a boomerang!

Let every able-bodied man turn out and disinfect burn and destroy everything that is contaminated or likely to breed contamination. The smoke will help to disinfect the atmosphere. This is the way cholera has been stamped out in some of the worst quarters of Oriental cities, sometimes aided by foreign soldiers and sailors.—Bulletin

If the government will drop the oath-business and employ non-swearing Hawaiians, on the roads, the present distress will probably be alleviated. The ministers, we understand favor such a step even if none of the subs don't.

The following is said to affect the suit of Messrs. Gear and Finney against the editors of this paper as to their right to use the title "THE INDEPENDENT."

LIBRARY OF CONGRESS,  
WASHINGTON, Aug. 9, 1895.

MR. F. L. HOOGE.  
SIR:—Please remove copyright from the "periodical" entitled, "The Paradise of the Pacific" edited by yourself. Books or other articles published in the Hawaiian Islands are not lawful subjects of copyright. The penalty for false claim is one hundred dollars.

Very respectfully,  
A. R. SPOFFORD,  
Librarian of Congress.

MR. F. L. HOOGE.  
The above letter was shown to different people who are inclined to believe that the Librarian is laboring under a misapprehension. The publisher of "The Paradise of the Pacific" does not claim an American copyright; simply a Hawaiian certificate which has been granted according to the laws of the country. If the stand taken by Mr. Spofford is tenable, Hawaii has no right to protect publishers and the copyright laws of the country are void. This question has never been raised before and is an interesting one. The publisher of "The Paradise" has written to the Librarian for additional information on the subject.

It is evident from the foregoing that people here do not understand Mr. Spofford, or his letter, or its effect. It evidently simply applies to an application for American copyright for the periodical referred to. Of course, such application could not be granted, nor could the usual formula "copyright applied for" be allowed to be placed on the periodical. Hawaiian copyright exists, as does the Hawaiian republic and nation, independent of any action of the U. S. Congress Librarian. And although the Bulletin styles us "the (new) Independent" in order to get a slap at us, we can say that we are only "new" in our methods, and that our title is "The Independent." And that we act up to our title irrespective of who may get hurt.

## Timely Topics.

Honolulu, Aug. 26, 1895.

The boys are getting ready for the regatta which will take place next month at Pearl Harbor. It will be one of the finest races ever seen in Honolulu. Everybody in fact is racing now. The boat clubs are racing. Horses for the Waianae meeting are in training to race. The disinfectors are racing the comma baccillus. People all over the country are raising h—allelujah on account of cholera, fumigation, quarantine and no quarantine. The "Claudine" is to race the "Monowai" and advance reports of our cholera. And the bikers in town are getting their wheels ready to race away from the whole business.

And it is to the same bikers that we want to talk to-day.

We have got the best racing wheel manufactured in the United States. THE TRIBUNE CYCLE has gained a reputation not enjoyed by any other racing cycle. The numerous good qualities of this light, elegant, though solid wheel, have received the highest praise from everybody competent of judging of the good points of the *fin de siècle* racer.

The Tribune Wheel is built by the Black Manufacturing Co., at Erie, Penn., and it has given universal satisfaction to the riders who have tried it during the last years. Some very valuable improvements have been added to the original Tribune Cycle.

The Cycloidal Sprocket has met an enthusiastic approval from all connoisseurs. There is no additional friction with the Cycloidal Sprocket, no matter how great the power applied, the chain simply pulls direct and squarely on the face of the teeth and the power is freely imparted to the wheel. This is the reason that the Tribune Bicycles have earned a reputation for their smooth and easy running.

We have sold a number of the Tribunes in town, mostly racers; and we advise the boys who want to enter the races, now contemplated, to secure one of these superior wheels. The Tribune Racer weighs only eighteen (18) pounds, and the depth of frame is 24 or 26½ inches. It is the fastest and easiest running machine in the market and its advantages in sprinting are beyond all question. Racing men who have tried it once cannot be induced to ride without it. We invite the cyclers of the town to call in and inspect the machine which we offer with a complete outfit at a very reasonable figure. If you want to be a winner ride the Tribune.

Sam Woods, who has resided at Puuhue for several weeks to recover from the injuries recently sustained by him here, met with a serious accident last week through a fall from his horse. The horse fell over him and for a while he was quite unconscious. It is hoped that the fall will result in no serious consequences to the popular young man, though his many friends are hopeful and anxious to hear good news as to his total recovery.

## A New Relief Society.

A number of prominent Chinese met this afternoon pursuant to a call from the Chinese societies and made the necessary arrangements for relieving the Chinese now in distress, and those eventually becoming sufferers under the epidemic. Over \$4000 were subscribed for the use of the relief committee, which is solely composed of the male Chinese.

## A False Alarm.

The rumor carriers were quite busy this morning. It was at one time generally reported that the Rev. Father Valentine had been seized by cholera at the hospital and was in a serious condition. Upon enquiry it was learned that the reverend gentleman was perfectly well this morning, although he had been slightly indisposed last evening. Dr. Herbert, who was immediately summoned, last night, took care of the Father and he recovered in short order.

## CORRESPONDENCE.

(We do not hold ourselves responsible for the opinions of correspondents. Our columns are open to every shade of opinion or party or grievance. Correspondence must not be libelous or indecent and must be accompanied by the name of the writer, not necessarily for publication, but as a guarantee of good faith.)

ED. THE INDEPENDENT:—

Segregation

The following letter from the Leper Settlement has been received:

We have been informed that at Kalihi, the gates of the Receiving Station, are open to visitors, that a constant intercourse is tolerated between lepers and outsiders, that clothes of lepers are taken away for washing. And that the boys from Kalawao under treatment can roam freely, not only in the Kapiolan Home, where none but leprous girls are kept, but elsewhere, too.

Will you, Mr. Editor, take pains to learn the truth in this matter and inform us in your INDEPENDENT paper of the results of your investigation? We lepers in Molokai do not consider ourselves more dangerous to the community than those lepers at the Receiving Station. If they can be visited why not we? If the law of Segregation is not applied to the lepers at Kalihi why should it be enforced at Molokai.

Most Respectfully,

A LEPER.

Leper Settlement, Molokai, August 29th., 1895.

It will be seen that our correspondent claims that segregation is not carried out at Kalawao and Kalihi as it ought to be. As far as the first named place is concerned our correspondent surely ought to be better posted than we are. In regard to Kalihi the following extract of a letter published last week in the Makaiinana seems to indicate that the complaint of our correspondent is well founded.

Isaac Kihe writes to the following effect:

"At the Kalihi station families are freely admitted to see their patients without any objection. I greatly admire the Superintendent's kindness and pleasant disposition generally. What strictness existed heretofore is done away with at present. Wherefore I now testify that all persons are allowed to freely visit their sick."

Segregation ought, of course, to be enforced, and if the rules have been relaxed anywhere we do not doubt that the Board of Health will lose no time in enforcing them. The Board at present, however, has its hands full of a more vital matter and can hardly be expected to look into the grounds for our correspondent's complaint immediately.

On a Level With the Dog.

One frequently hears people say, when addressed in some language with which they are supposed to be familiar—"I can understand it, but I cannot speak it." The expression would not be heard as often if all who used it were treated as brusquely as was a Highlander recently by an old friend of the family. The old man spoke to him in Gaelic, and received the customary reply: "I can understand it, but I cannot speak it." "My dog can do that," said the Macgregor scornfully.

Sans Souci.

The most lovely spot on Oahu is Sans Souci. This favorite seaside resort, which has been immortalized by the pen of Robert L. Stevenson, who resided there for months, is only four miles from Honolulu and within easy reach of the tramcars. The surroundings and bathing at this famous resort are superior to anything found in the Hawaiian Islands. Cottages and board can be obtained on easy terms. The table set by the manager is better than any offered here at other hotels. For picnics, bathing parties and outings the best accommodation can be secured by giving notice to the manager.
