Belgrade Paper Asserts Austria Must Exterminate Servians to Win in War.

(By Federal Wireless Telegraph.) CONSTANTINOPLE, December 9 .-(Special to The Advertiser) - Dispatches from Gallipoli report terrible excesses by the Turkish troops in that district. The telegraph lines have been cut beyond Gallipoli, and the military authorities have ordered out a detachment of troops to punish the Christian residents.

The troops burned houses, held many of the villagers for ransom, massacred those who refused to pay, and assaulted women and children wholesale. They also pillaged the villages of Malgra, Keshen, Karadali, Aloali, Grabunar and Examili, which were practically destroyed.

Turkish reinforcements from Asia Minor continue to arrive at Gallipoli.

The authorities of Janina report that eighteen battalions, comprising the regiments of the Monastir army, have reached there with artillery and ammunition, thus strengthening the Turkish position at this important point,

ALL SERVIA WILL FIGHT.

(By Federal Wireless Telegraph.) BELGRADE, Servia, December 9,-(Special to The Advertiser) -The accumulation of Austrian troops on the Servian frontier and the provocative language of the Vienna newspapers have led to renewed excitement and warlike feelings in Servia.

The newspaper Pravda, voicing the prevailing irritation, says:

"If Austria wishes war with Servia it will come. It will be the most bitter fight in history. Every Servian man and woman, young and old alike, will take part in it, and Austria will have to exterminate the whole Servian na tion before conquering it."

Many Servians visiting Austro-Hungarian frontier towns on business have been arrested on charges of spying.

The Servian government has protest ed to the Austro-Hungarian authoriti War Feeling Stronger.

LONDON, England, December 9,-(By Associated Press Cable)—The pos sibility of a general European war is again looming up, and the feeling of security which had begun to make it-self felt has been dissipated by the seizure of a supply ship, destined for the Servian army, by a warship of the Austrian navy. The fear is expressed here that this act on the part of Tustria can hardly fail to bring about war in the already strained state of affairs in the Balkans.

Reported Seizure of Ship. VIENNA, Austria, December 9.— (By Associated Press Cable)—The most

(By Associated Press Cable)—The most intense excitement is manifest here over the report that the Austran government has seized one of the supply ships loaded with provisions and ammunition for the Servian army.

Dispatches from Belgrade are alarming. The reported capture of a Servian supply ship is taken there by many responsible persons as the equivalent of a dechration of war, especially when considered in connection with the massing of Austrian troops upon the from ing of Austrian troops upon the fron-tier, just across from Belgrade.

Asks for More Troops. BUCHAREST, Roumania, December 9,-(By Associated Press Cable)-The long aftence which Roumania has maintained during the fight of her sister Bal-kan States with the Turk, bids fair to be broken soon. The King today ask-ed the parliament for subsidies for more troops, and it is probable that the legislature will grant them at once.

# FREAR HAS

Not Personal, But Political-Democrats Want His Job, Is Report.

MEN NOT WANTED

**Bourbons Look Forward to High** Carnival When Patronage Barrel is Open.

Political opposition to the confirmation of the reappointment of Governor Frear and Territorial Secretary Mott-Smith has made itself apparent in the United States Senate Committee on Territories, which yesterday failed to report on these and a number of other presidential appointments. The Advertiser cabled its Washington correspondent to ascertain whether there was opposition to the reappointment,

The reply received last night stated that there was no opposition of a special character to either Governor Frear or Secretary Mott-Smith, but that their names had been held up with a number of other appointments, at the instance of the Democrats, who are determined to resist any movement to deprive President-elect Wilson of federal patronage, through the filling of vacancies by President Taft.

Under ordinary conditions, the Gov-ernorship of Hawati might be regarded es a political appointment, but it will probably be arged that in this case the temppointment of Governor Frear is but an act of justice, because had it not been for the ill-founded charges made against his administration he would bave been reappointed and confirmed

long ago.

It is still believed that when his parcomes up, the senate will, (Continued on page four)

LONDON, December 0 .- (Special to The Advertiser) - An unconfirmed statement today says that Greece has accepted the terms of the protocol and signed the armistics. It is expected that Athens will issue an official statement at once. With the announcement that Greece has signed the protocol it is believed here that the peaceful settlement of the war is at hand.

A conference of European ambassadors to settle the dispute between Servia and Austria will be held on the same day as the peace conference in

From an authenticated source today it was learned that the Balkan Allies will insist that the Turkish-Bulgarian frontier extend from Midna, on the Black Sea, through Sarai and Chorlu to the Gulf of Saros.

This would leave the Sultan only a narrow strip of one hundred miles long and fifteen miles wide in Europe, bordering on the Dardanelles and the Sca of Marmora, including Constantinople.

It was also learned that January is set as the time for the conference of the peace envoys in London, allowing twenty-five days to the representatives to agree on terms.

NATIONS WARN GREECE.

(By Federal Wireless Telegraph.)

ROME, Italy, December 6 .- (Special to The Advertiser) - The persistence of Greece in bombarding Aviona is causing serious dissatisfaction here. The Italian minister at Athens has been instructed to notify the Greek government that Italy and Austria will never allow any State to occupy Aviona, or even the Peninsular of Linguetta, or Seseno Island, for the purpose of transforming them into naval or military bases.

It is understood that the Austrian minister will give similar notification to the Greek government,

# DOLLARS TAK

Monroe Doctrine Strengthened in Eyes of World-Urges the Merit System.

(By Associated Press.)

WASHINGTON, December 3. — A note of warning to European powers which by indirect means continue to discriminate against American trade; a strong appeal to the congress to up-lift the great foreign policies of Amerlist the great foreign policies of America above mere questions of partisanship; a triumphant vindication of the
diplomacy of the administration, which
is characterized as that of "dollars
versus bullets"; a masterful pride in
the enormous expansion of American
trade as a result of the foreign policies
of his administration; and an earnest
appeal for joint action by congress and the executive to open new markets for American industries — these are the more striking features of President Taft's fourth annual message sent to congress today.

The message is the first of a series of such communications which he will make to congress in the early days of the session, and deals entirely with the foreign relations of the United States. Beginning with the usual reference to the existing good relations with foreign powers, the President adds that these have been strengthened by "A greater insistence upon justice to American citizens, or interests, wherever it may have been denied, and a stronger emphasis of the need of mutuality in commercial and other relations.'
A Warning Note.

For the first time in its history, says the President, the state department has obtained substantially the most favored nation treatment from all of the counof the world. Therefore, he says, that it is only natural that competitive countries should view with some con-cern the expansion of our commerce. Hence the warning, "If in some in-stances, the measures taken by them to meet it are not entirely equitable, a remedy should be found."

To this end, the President strongly recommends the enactment of the bill recommended by Secretary Knox last December, permitting the government, instead of imposing the full maximum rates of duty against discriminating countries, to apply a graduated scale of duties, up to that maximum of twenty-five per cent.

Out of Date Tariffs.

"Flat tariffs are out of date," says the President. "Nations no longer accord equal tariff treatment to all other nations, irrespective of the treatment from them received, " " It is very necessary that the American gov-

The state department, "an archaic and inadequate machine," at the beginning of this administration, the President says, has become a new organization, with highly specialized bureaus and experts dealing with every phase of American trade and diplo-macy. Holding that the essence of this reorganized service is found in the mer-it system, which President Cleveland is invalid, the other totally deaf, and both credited with having introduced, President Taft makes a strong appeal to to get back to their native isle, where congress to make this machine

admission to and promotion in the dipomatic and consular services.

To show that these appointments are already largely non-partisan, the President points to the fact that three of the present ambassadors are holdovers; that of the ten he has appointed, five were by promotion from the rank of minister; that of the thirty ministers appointed, eleven were promotions; and that in the consular service no less than 55 per cent, of the consuls appointed by him were from the Southern States. Dollars for Bullets.

"The diplomacy of the present administration has sought to respond to modern ideas of commercial inter-course," says President Taft. "This policy has been characterized as substituting dollars for bullets. It is one that appeals alike to idealistic humanitarian entiments, to the dictates of sound policy and strategy, and to legitimate ommercial aims

The President adds that "because modern diplomacy is commercial, there has been a disposition in some quarters to attribute to it none but materialistic

"How strikingly erroneous is such an impression may be seen from a study of the United States can be judged, ave the President.

He mentions the arbitration treaties with France and Great Britain, which failed of confirmation in the senate; the successful tripartite meliation of the Argentine Republic, Brazil and the United States, between Peru and Esua-tor: the arbitration of the Panama-Costa Rica houndary dispute; the in-tervention between Briti and the Da-

ninican Republic on the verge of war, he suppression of the Nicaregona war, he halling of intersection strife in Hos fores, the adjustment of the relebrated

Time Emisderian boundary leme.

In consequence of these things, says
the Prevident, these has been a general
making of interestional tention on the
West Corel of South America. He also
wide that the diplomacy of the Paire States is active to seeking to assume the remaining ill faciling Letwern this country and Colombia.

the loan convention by the senate, been nermitted to carry out its now well developed policy."

'In Central America the nim has been to help such countries as Nicarazun and Honduras to help themselves," snys President Taft.

Mouroe Doctrine Stronger.

Mouroe Doctrine Stronger.
While they are the immediate beneficiaries, the profit to the United States is two-fold, he adds. The Mouroe Doctrine is more vital in the neighborhood of the Panama Canal, and such countries should be relieved of the jeopardy of heavy foreign debts likely to pro-

voke international complications.

The financial rehabilitation of these countries by American bankers and the protection of their customhouses from being the prey of would be dicta-tors, says the President, would remove the menace of foreign creditors and revolutionary disorder. Furthermore, revolutionary disorder. Furthermore, the United States would profit largely of his administration; and an earnest in a business way through the develop-appeal for joint action by congress and ment of the great natural resources of Central America.

Stop Filibusters.

Commending the successful results of the application of the new neutrality laws to Mexico and other troubled countries the President suggests that means be found in addition to prevent the professional revolutionists from making American ports "foci" for revolution-ary intrigue. He reiterates his determination to adhere in the case of Mex-ico to the "patient policy of non-inter-vention, steadfast recognition of constituted authority, and the exertion of ev-ery effort to protect American inter-ests."

Other paragraphs of the message point to the increase of American do-mestic exports by \$200,000,000 during the past year, making the greatest total ever known, \$2,200,000,000; to the agri-cultural credit system which he thoroughly indorsed, to the probable neces-sity of an amendment of the fur scal act to permit simiting killing of seals; to a meeting of the arbitrators in Washington next year to adjust the pecuni-ary claims between Great Britain and America; to negotiations with Mexico for the distribution of the waters of the Colorado River in the Imperial Valley section; and to the financial rehabilitation of Liberia.

There is merely historical reference to the Chinese revolution; to the San Domingan troubles, the rebellion in Cuba and the Balkan War develop-ments, in which it is said the United

States is not involved. The message concludes with an earn est appeal to congress to cooperate with the executive in its efforts to apply the old principles of diplomacy which have governed the country, to the momentous new situations of today, when America finds itself at the threshold of very necessary that the American government should be equipped with wenpons of negotiation and adapted to
modern economic conditions."

Promotion for Merit.

American government should be equipped with wenture to continue in its foreign relations
those temporary expedients natural to
a people to whom domestic affairs are those temporary expedients natural to a people to whom domestic affairs are the sole concern."

## AGED HAWAIIANS ARE STRANDED IN PORTLAND

Portland, Paloha and his wife, natives ignorant of the English language, want good home awaits them, but they nent, by giving the force of statutory have no money to take them there, re-law to the executive orders governing ports the Portland Oregonian. Indestrially worthless here and rendered completely helpless by their many hundicaps, they have appealed to the Associated Charities, and that organization is seeking means of procuring the needed transportation.
The aged Kanaka and his wife

drifted here on the wave induced by the Lewis and Clark Fair, and while others of their race continued in Portland they were cared for. Recently the last family of Kanakas quartered in Portland went elsewhere and with them the solo dependence of the helpless couple, They have a granddaughter, Syears, and it is their fear that she will be taken from them that weighs heaviest written that they will be welcomed to his kome, but he cannot supply the money to transport them.

## FOUGHT FIRE FORTY-SEVEN STORIES ABOVE STREET

NEW YORK, November 25 .- A tar kettle which boiled over on the fortybuilding provided such an unusual fire spectacle late today that Broadway, 650 feet below, was chaked for an hour by a crawd watching great clouds of smake roll from the open tower windows. A high wind made the situation seem theatening.

Several policemen who gained the seems by a series of elevators and ladders rained their uniterms in helping the workers beat out the flames. The damage to the building was nominal. \*\*\*

NEW YORK, November 27 .- According to Congressman Fitzgerald, chairmittee, the first ship to pass through the Penama Canal will be sent through that waterway, now fast approaching completion, on Heptember 25, 1918, the foor hemitedth anniversary of the dis-covery of the Pacific by Relbon.

DECEMBER 10 TUESDAY

#### BRIGHT COFFEE OUTLOOK

Mainland advices concerning the coffee situation should be highly en couraging to Hawaiian coffee growers and should result in a widening of the scope of the local coffee industry. The reports for November show that the world will be dependent next year for a part of its coffee supply upon the stock stored in Brazil under the valorization plan and that there can not be any falling off in the price, even should it not advance. To show that the distributors have no fear of a falling market any time in the near future, it is pointed out that the October deliveries in the United States from abroad were considerably above the consumption, the totals for the month being 1,786, 380 bags, against an average of 1,456,246 so far for the year, thus demonstrating that the importers are laying in a surplus stock.

The present crop, according to the estimates, will be fourteen and a half million bags, three million below the estimated world's consumption. Commenting on these figures, taking into allowance the fact that a syndicate is bolding four million bags of a former crop, the American Grocer says: "It seems there are no facts to warrant a drop, and none to warrant a rise unless it is certain that the 1913-14 Brazil crop will run below the current year's production. And it looks that way, but it is a good deal of a guess as to how much,"

Concluding its article, the American Grocer says: "'If the 1913-14 crops are 3,000,000 bags short, as now seems probable, higher prices seem inevitable and must force a release of all valorization coffee before July 1, 1914."

#### OUR FOUR BILLION BUSINESS.

The foreign trade of the United States will cross the four billion dollar line in the year which ends with this month. Its highest former record was 2626 million dollars in 1911, and it only crossed the three billion dollar line for the first time in 1906 and the two billion line in 1809. Imports in the ten months of the current year for which figures are now available in the statistical division of the bureau of foreign and domestic commerce amounted to 1511 million dollars and exports to 1871 million making it apparent that the imports to the full year will approximate 1800 million and the exports 2300 million, or approximately 4100 million dollars, against 3626 million in

Imports have practically doubled in value since 1901 and exports have practically doubled since 1904. The exports of domestic products, which had never touched the two billion line until 1911, will in 1912 approximate two and a half billion dollars, while the exports of foreign merchandise during the old battleships are replaced it is wiser to build battleships than smaller the year will probably fall slightly below the high record of thirty-seven and vessels. a quarter million dollars in 1910.

#### THE GOAL OF OPPORTUNITY FOR GOOD GOVERNMENT.

Based upon the interest which has been generally excited in favor of action by the legislature in behalf of an elective commission form of government for the city of Honolulu, it now looks as though something practical in this line would soon become an accomplished fact. The Advertiser congratulates the people of this beautiful city upon the display of public spirit which has in the general idea that what is best for the city is what all should work for, irrespective of party, or those few having axes to grind. This is a time when the grindstone should be put out behind the woodpile and tied up tight to that colored trouble-maker who is supposed to be ever ready to be found in that position.

The civic federation has taken up the work of agitation and education in for a new city charter, means that Honolulu is nearer to the goal of opportunity for good government than she has apparently been since she became a double city and county. There are many varieties of the commission goverament as advocated by those who have made a careful study of the problems DYNAMITE CONSPIRACY involved in municipal government, and there will undoubtedly be a wide diversity of opinion as to just which form best suits the local problems of this Island City.

Undoubtedly the legislative committee of the civic federation or of the special committee called by the Governor will do much to settle this question. The Advertiser has for several years been an advocate of an elective commission form of government for Honolulu, and has brought the matter before the people here many times, both in its news columns and editorially, and it has complete confidence in the final solution of the problems which confront the law makers. It is probable that the best points in the various charters of the mainland will be adapted to local conditions and the whole made one which the voters of this city can most enthusiastically endorse for the best interests of the city.

## the many

## EDUCATING THE EDUCATORS.

Every little while in various flewspapers one reads something about the work of education in some part of the United States, as chronicled through the bureau of education at Washington: it may be that someone of some school in Kentucky has made an innovation in the course of study, or it may be an accomplishment in the Territory of Hawaii, where such cosmopolitan problems confront the teacher. All this distribution of knowledge of what is being transporting dynamite. worked out by the educators of the youth of the country is of the greatest importance and other countries are rapidly taking advantage of what this country is doing and also establishing similar headquarters for information

Canadian educators, particularly, are impressed with the facilities for edueational information in the United States. Dr. David Soloan, principal of the Nova Scotia Normal School, considers the Federal Bureau of Education at Washington one of the best and readiest sources of information about the schools of Canada.

Doctor Soloan is not the first educator who has paid tribute to the wisdom of congress in providing a central bureau for the diffusion of educational information, but as an expert on education his opinion deserves to be quoted. After speaking of the history of education in the United States as "illus-After speaking of the history of education in the United States as "illustrious" and describing the part the government, through its bureau of education, has played, he says:

"It has saved uncalculated millions to educational effort merely through its punctual record of each and every educational enterprise, every attempted reform, every individual initiative. It has prevented duplication of experi ment, reported educational progress in foreign countries, sifted statistics, and from conflicting reports gathered the facts the leaders of education in America

needed to be certified of." Education is international. No matter how local and national certain of its problems may be, the fundamentals of education are identical in all civilfixed countries; and it is surely worth knowing that in this international exchange of ideas the United States bears no small part.

## MALIMINIS AND PUBLIC SERVICE.

Prank Godfrey in a communication in this home, drawn attention to the present condition of Ward avenue, which particular thoroughlare has been a subject of contention among Banoicle supervisors over stace there were supervisors. Our surrespondent is woofully off, however, in his strictures against the road supercious conversing this particular street, he that official, where repairing King street, at least hashed the meterial out from that thoroughters and gave Ward stress a topdrawing making it parable for all the traffic Mr. Hodfrey refers to and this without a cost of expense to the taxpaxure, as the

#### THE NEEDS OF THE NAVY.

Three dreadnoughts, two battleship-cruisers, sixteen destroyers, six sub marines, two gunboats and a fleet of auxiliaries, to include transports, supply ships, tugs, tenders and a drydock are what Secretary Meyer asks for the Navy for the coming year. He lays stress upon the necessity for the battleship-cruisers, swift ships for the first line of defense, but wants battleships first, and quotes, in his report just submitted to congress, from the naval general board, the following:

worry, even should the senate fail to passages are painful, senaty and off gamic Act provides in each case that, the remedy that has helped so ther neglect their necessity is to deliberately weaken our naval strength. It the kidneys act too frequently, or passages are painful, senaty and off gamic Act provides in each case that, color, use Doan's Backache Kidney the shall hold office for four years and until his successor shall be appointed and qualified, unless sooner removed by the President."

Worry, even should the senate fail to passages are painful, senaty and off gamic Act provides in each case that, color, use Doan's Backache Kidney and until his successor shall be appointed and qualified, unless sooner removed by the President." value not possible to obtain from other types or combination of types. To further neglect their necessity is to deliberately weaken our naval strength, paramount need of the Navy is, however, for battleships, and the Board is not recommend any modification of the building program by which prefers in building is given to battle cruisers or other fleet units, and auxiliaries, the will interfere with the ultimate battleship strength."

Secretary Meyer expresses skepticism as to the abolition of war in the future. Wars come with little or no warning, he says, and only by the future. Wars come with little or no warning, he says, and only by the mediately following the recess in which is a chance to do the moved by the President."

If the Governor and the Secretary same for you.

B. T. White, Pearl City, Onhu, Hoconstitution of the United States provides that such appointments expire at the end of the seasion of the senate immediately following the recess in which is a chance to do the moved by the President."

If the Governor and the Secretary same for you.

B. T. White, Pearl City, Onhu, Hoconstitution of the United States provides that such appointments expire at the end of the seasion of the senate immediately following the recess in which is a chance to do the fleet units. The paramount need of the Navy is, however, for battleships, and the Board oes not recommend any modification of the building program by which prefernce in building is given to battle cruisers or other fleet units, and auxiliaries, which will interfere with the ultimate battleship strength."

near future. Wars come with little or no warning, he says, and only by the the end of the session of the senate inconsession of an efficient fleet of adequate size will the country be safe from mediately following the recess in which strack and free to work out its own destiny in peace and without hinderance.

"The history of all times, including the present, shows the futility and danger of trusting to the good will and fair dealing, and even to the most sloons that the senate olemnly binding treaties between nations for the protection of a nation's should fail to confirm, continue in office sold by all druggists and storeckeepers overeign rights and interests," he says, "and without doubt the time is remove when a comparatively unarmed and helpless nation may be reasonably cree from attack by ambitious, well-armed powers, especially in a commercial nation.

Sions, they will in case the senate pounts in office sold by all druggists and storeckeepers until President Wilson names their successors, which event, it is said, will or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, next September.

The warmth of the fight waged by ands. dancer of trusting to the good will and fair dealing, and even to the most is so delicately balanced that even a threat of war is very disturbing and the Democrats against the alienation harmful while a war with any other great power would cause incalculable of federal patronage is indicated in mail advices from The Advertiser's

"To avoid war and insure peace the country must be prepared for war. No person of intelligence who has studied international policies can be blind to the fact that the possession of great wealth, resources and population, does not carry with it immunity from attack should the nation's interests clash with those of another better prepared."

The opening of the Panama Canal will in no sense double the American fleet, according to Secretary Meyer, While it will increase its efficiency by facilitating its passage from one coast to the other, this condition has been remisletter day in the party calculating the naval program. Without the canal, says March the fourth. Do not blame the ed there will be a bridge congressman over much for bridge next spring. louble that of a country whose coast line is continuous.

The secretary estimates that a total of forty one battleships, with a pro-He ought to be sufficiently high-minded portional number of other fighting and auxiliary vessels, is the least that would to resist, but the pressure upon him is The secretary estimates that a total of forty-one battleships, with a proplace this country on a safe basis in its relations with other world powers, unprecedented. This feet should be secured as soon as practicable, he said, and its strength should be maintained by replacing obsolete vessels with new ones by a uniform annual program. While the navy department would welcome more torpedo and wormwood politically to Southern boats and submarines, the secretary expresses the belief that until more of folks to have their mail taken care of

Aeroplane equipment is entirely inadequate at the present time, according to Secretary Meyer. He points out that while the United States spent only \$140,000 for this purpose last year, Japan spent \$600,000 and five European nations spent individual sums ranging from \$2,000,000 to \$6,000,000, the latter being the expenditure of France. Secretary Meyer says there should be no limitation upon the progressive development of naval aviation.

He recommends the creation of a naval reserve of about 50,000 men, 25,000 to be secured from the honorably discharged men of the navy, the naval militia, been shown by all classes, also upon the harmony which has found expression and various mechanical trades of civil life; the other 25,000 from among sailors

The United States must have a bigger navy and must be prepared to meet any chance of war, if it is to preserve its national safety, is the secretary's summing up of the situation. International peace has been brought no nearer, he declares, so far as a limitation of armament is concerned. To guard its coast and protect its commercial activities, the United States needs a permanexcellent shape, while the call by Governor Frear for the organization of a ent navy of forty-one capital ships-hattleships and battle-cruisers. The prescitizens' committee to take up and carry to a successful ending the campaign ent strength of the navy in battleships is about thirty-three, but 4 ships will soon be retired as obsolete.

## DENIED BY UNION MEN used to build ships for service in the waters of the colony from which the funds come.

zation Testify in Famous Indianapolis Trial.

(By Federal Wireless Telegraph.) INDIANAPOLIS, Indiana, December 9.- (Special to The Advertiser)-Vehement denial of knowledge of any dyna-mite conspiracy within the ranks of their organization, was voiced from the witness stand here today by defendants Charles W. Wachmeister and Frank J. Murphy, of Detroit, officials of the In-ternational Association of Bridge and Structural Iron Workers, at the trial of the union men charged with illegally

transporting dynamite.

Murphy also denied that he had heard of a reported "kitty" to finance Detroit dynamitings.

Attorneys for the Pacific Coast defendants do not believe the government has produced sufficient testimony against Olaf A. Tveitmoe, and say the San Erhneisee man may not take the San Francisco man may not take the

stand. C. E. Claney, of San Francisco, it was stated, would testify in his own behalf, but not until the testimony of most of Eastern defendants have been com-

## WRECK GIVEN DUT

NEW YORK, December 3 .- (By As sociated Press Cable)—This city was ort came that the liner Mauretania and been gunk off the Grand Banks, in manner similar to that in which the fared Titanic was lost. Wireless ill fated Titanic was lost. Wireless stations along the coast immediately got busy ealling the big ship and soon had ber answer that she was all right and steaming along her course toward New York without accident.

At the offices of the Canard company here the receipt of the report was not mitted and the answers and here by the capitain of the vessel shown as refuta tion. The crists of the rumor is laid to the cumpacy officials upon the shoulder of the man vivola, and is declared to be a bit of pure spate work.

(By Federal Wireless Tetegraph.)

LOS ANGELES, December 9.—(Special to The Advertiser)—Frank Moran, the Pittsburgh heavyweight, has joined the brigade of 'white hopes' wintering in Los Angeles, with the hope of becoming involved in the heavyweight scramble being staged by Promoter McCarey. He sees a good match here with McCarty and Flynn.

## PRESIDENT TO VISIT PANAMA CANAL AGAIN

WASHINGTON, December 9,-(Sp. cial to The Advertisor) - President Taft today tentatively selected December 19 as the date for starting for Panama. His intention to visit the lathmus before going out of office was influenced, partly at least, by President elect Wilson's decision not to do so.
Under the new Panson Canal law,

the President is responsible for putting into effect the new government for the

The President will sail from Key West on the battleship Arianses, accompanied by Mrs. Test and acrural triangle. The buttleship belowere will probably accompany the Arhumans.

## RECOMMENDED EVERYWHERE.

(Continued from Page one.) upon being informed of the circumstances, take this view of the matter.

they were made.

As neither the Governor or the Secretary have such short term commis-ferers." sions, they will in case the senate Doun's

Washington correspondent. He says:

Patronage for Democrats.

"The great overtowering topic for the moment seems to be federal patronage. Hardly a day passes that some Democratic patriot does not break into the local prints with a passionate out-burst about the injustice of allowing Republicans to hold office after that ted-letter day in the party calendar his zeal in demanding fourth postmasters and other federal

wauling most loudly at this juncture and with excuse. It has long been gall by Republicans. There is an unpleasant social element in their postal phil-It has been repressed what in the recent years of Republican supremacy but now that a Democratic President is coming in—a Southernborn man, too-the ery of their hearts is for postmasters, internal revenue collectors and deputies, district attor-neys and so on of their own kind.

And already Southern congressmen

are springing fiercely to the proposition of ripping the blanket of civil service off the fourth-class postmasters. They are condemning President Taft for put-ting these Southern postmasters under the civil service recently, and urging that President Wilson, as soon as he gets the authority, suspend the order, even as President Harrison suspended a somewhat similar civil service order made by President Cleveland. The made by President Cleveland. The South is very determined upon having a few cuts of pie very early in the administration. Perhaps it will get them. But if the way to the counter is made open, there can be no question about the terrific rush. The spectacle of what would happen is likely to deter President Wilson.

Many Long Termers.

"Probably ninety per cent. of all federal officials, nominated by the President and confirmed by the senate, have quired in the solution thereof. As in-cumbents hold on till their successors

"Now shall Democrats cut this process short, oust encumbents forthwith, and put their own men in, having assurance that at least four years of service is ahead of them? It is rumored vice is ahead of them? It is rumored from Bermuda that Mr. Wilson feels disposed to let senators and representatives do as they think best about this as far as pertains to the offices filled ordinarily by their endorsement, and that he will follow his own judgment about general patronage. Democrats are praying fervently that this proves true. In that event there would be mighty few Republican postmasters in the South who would survive the first the South who would survive the first sixty days of the Wilson administration.

"It is confidently expected that the campaign for patronage will be attended with thousands of complaints against Republican officials. Woe to those who are unpopular in their own communburdened and the department files will speedily be filled with letters, urging that long suffering constituencies be given relief. Unless the spoils are turned over to the victors right away—which is unlikely—the resect to this method will be very general. The head men of Mr. Cleveland's administration found their time graph assumed as the found their time graph assumed as the freed the brain center of recent method will be very general. The head by," which he spoke correctly, men of Mr. Cleveland's administration A depression of the skull which affound their time much occupied with feeted the brain conter of speech was such cases."

#### MISTLETOE IS CHEAP.

NEW YORK, December 8.—(Special to The Advertiser)—A carpet of snow is on the way from the valley of the St. Lawrence to be laid over New York for Kris Kringle on Christmas, so the local weather bureau says. Mistletoe has never been so cheap and with plenty of Christmas wishes it is expected there will be a bumper crop of May

## COMES TO LIFE IN COFFIN.

SULLIVAN, Wisconsin, December 3. The Southern Democrat is eater two days' residence in a coffin was the ling most loudly at this juncture unexpected result of Mike Scofield's wormwood politically to Southern "Dead!"

That the verdict of Coroner Hix's hastily assembled jury was in accordance with the facts was the opinion of those who had thronged in front of the

local undertaking establishment on November 5, when Scoffeld, a laborer, fell apparently lifeless to the pavement.

The body was placed in the customary pine box. A few days later the coffin was placed in a hearse for transportation to the notice. portation to the potters' field. The roar and rumble of a train as it rushed past the hearse frightened the horses, and instantly the driver, hearse and coffin were rattling over the road.

Scofield, aroused from an extended period of suspended animation as the hearse went cavorting over ruts and stones, gave voice to a thoroughly live man's phrase as the coffin was dumped

into a ditch and cover broken off. Scofield caught the horses, patched up their driver, and assisted him back to this village.

#### POTATO GROWERS COMBINE TO KEEP UP PRICES

LODI, California, December 1.—The Lodi section now has an Oriental trust composed of Chinese and Japanese farmers representing 55,000 acres of land west of this city. The purpose of the combination is to fix a minimum price for potatoes which will allow a profit. It is estimated that it costs from 60 to 85 cents to grow a sack of potatoes, while the composition of the costs of the cos commissions that will not expire before It is estimated that it costs from 60 to 1914. This is not from any political design. Presidents have such a burden of patronage problems that time is reing at 60 cents a sack. The bylaws, rules and regulations have been written. rules and regulations have been writ-ten in Chinese and translated into Jap qualify, it has happened under Repub. anese and English, approved by the lican administrations of the last six-Francisco. Hundreds of copies have been distributed to the growers and by planting other vegetables.

## REGAINS SPEECH AFTER OPERATION ON SKULL

NEW YORK, December 1 .- Among the wonders of surgery seen here by the 2600 members of the clinical congress was an operation that had a surprising development, when Terence Devitt found speech for the first time in his

seven years of life. 2010.

The operation was performed in the Swedish hospital, Brooklyn. 2.1

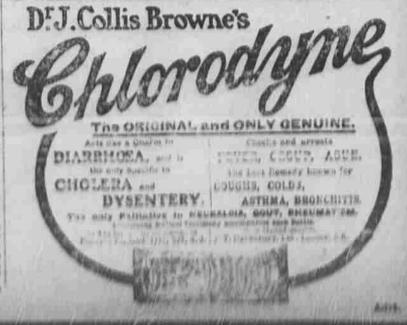

The extraordinary feature of the case

is that patients are usually two or three months in reaching vocal expression, and here was a lad trying to chatter and making fair headway at it almost

immediately after the operation.

About three o'clock in the morning the boy startled the night nurse in his ward by exclaiming: "I hear a car,"

A St. John's place trolley car was

## CONTRIBUTIONS ASKED FOR BY CHINA TO FIGHT RUSSIA

In order to provide a war chest which and commissary necessary to an extend-In order to provide a war chest which and commissive necessary to an extendibility will enable the Republic of China to prosecute a war with Russia to regain possession of Mongolia, the Chinese of the city have been asked to make contributions along the same plan as when they gave money to aid the revolution which made the Manchu empire a thing.

In San Francisco, the Six Companies and its dismemberment follow.

In San Francisco, the Six Companies and the Chinese Republic Association ready to throw all its available rehave been very active in raising money sources into the scale and to spare for this cause. There, each Chinese is expected to subscribe not less than ten dollars. The campaign for funds is being waged in every Chinese colony in Mongolia, where it is reported to have been welcomed by the inhabitants more than one million dollars has almost each of Yuan Shib-Kai with the ammunition bought by the Russians.

With no Responsibility. able impression upon some girl. Then, after the wedding he ignored the after the wedding he ignored the church. I have known some young men to gamble and drink on the quiet and to withhold all knowledge of these things from his sweetheart to superficial conceptions of marriage entertained by many young people.

things from his sweetheart
"I have known girls to be selfish and sour in their homes and then be as angelic and sweet as Cabriel when with ried is to go on a long boliday, to have some young man. I have known others as uninterrupted picale, to begin life who never dressed desently, except of the rarest bliss imaginable, to door when they expected him to call. Shame away into some fairyland, to hold upon all such deception. It is utterly bands and exchange osculatory impressions forever and ever.

## GREAT INTEREST IS UP-TO-DATE MISSION GIVERS IN CAMPAICN IN EVERY WAY IN HOME CHARI IN CAMPAIGN GROWING

Various Organizations Are Taking Action For Commission Government.

Civic Federation, Civic League and Committees to Hear of Work. .

Action is looked for this week in redo. There is a girl, however, who is well suited to your temperament, your views and your tastes—it is your privilege and your duty to find her.

'Again, the young may have?

'Any 'sweet' and 'nice' girl will not terest has been aroused in this subject to girl, however, who is terest has been aroused in this subject treest has been aroused in this subject to your temperament, your views and your duty to find her.

'Again, the young may have a subject to girl will not terest has been aroused in this subject treest has been aroused in this subject to your temperament, your recently, while so many representative citizens, including Mayor Fern, who has views and your tastes—it is your privilege and your duty to find her.

"Again, the young man should do all the word "all." It is in order for the young woman to respond to the wooing, but to to woo. Nothing disgusts a sensible man so quickly and so thoroughly as to have a woman attempt to weo him. The

The civic league will hold a meeting

On Wednesday a meeting of the ex-centive committee of the civic federa-tion will be held, at which it is expected the to that the committee of three, consisting low of A. L. MacKaye, Prof. W. A. Bryan and J. M. McChesney, will make its rejit— port as to what has been accomplished to date regarding organization and in an educational way. The latest arrangement is to have the Governor officially call a joint meeting of representatives of various organizations to form a standing citizens' committee of twenty

at school or at church. I have not the least idea where it was, but you have a pretty clear idea. I think, however, that I have a fairly good idea of what your thoughts were about that time. You thought she was beautiful in appearance, charming in manners, interesting in conversation and generally bewitching in personality. Somehow you were strangely interested in her and thought you would like to know her better.

"Some fellows imagine that if they do not get married quickly they run the risk of losing their sweetheart. It is probable that the civic federation will proceed along the educational lines it has followed for over a year in this campaign for a more perfect form of municipal government and call a meeting of the members of the federation, and all those interested in the question, at an early date. This meeting in the case of Jacob in our text it was clearly love at first sight. Saban had two daughters, Leah and Rachel.

Jacob noticed that Leah was a pleasant girl and had tender eyes, but somehow Rachel impressed him as being far more beautiful and attractive.

"So Jacob fell madly in love. I can the math mad attractive."

"So Jacob fell madly in love. I can the math mad attractive."

"So Jacob fell madly in love. I can the math mad attractive."

"So Jacob fell madly in love. I can the math mad attractive."

"So Jacob fell madly in love. I can the math mad attractive."

"So Jacob fell madly in love. I can the math made to cateh.

"Again, do not be in a hurry to get marriages resulted there are more unhappy ones. A lack of mental, physical cal, social and spiritual preparation for marriage is always deplorable. Such a marriage is

postponed until after the holidays.

Kohala Plantation Now Has New Bishop Restarick Writes of the Splendid Work Done By Them in Honolulu.

Editor The Advertiser:-I ask for most erected and its complement of space to answer a letter appearing in week, the Kohala Plantation will enter asks the question, why girls committed on a new era of production and prosto to the Industrial School should be allowed to go to work in the homes of approved families. Mr. Catheart, the prosecuting attorney in the McCorriston what "Half" Would Mean. trial, stated the case admirably. He spoke as follows:

"" " the Girls' Industrial School a

large number of young girls, as they grow to more maturity, or as their physical strength develops, it is necessary that they earn their living, and that is done by securing places in families. They are allowed out to work in these families as servants, and they are still, so to speak, wards of the Territory. It would be impossible, or if ritory. It would be impossible, or if not impossible it would be very detri-mental to retain in these schools the girls until they reach the age of eighteen when in physical strength and ma-

unhandly by its former arrangement, the building just destroyed was erected in 1862 and this end of the plantation be possible by it being understood be possible by it being understood generally throughout the community The civic league will hold a meeting tomorrow evening at which a large attendance is expected. Prof. W. A.
Bryan, a member of the special charter committee of the civic federation, well make an illuminating talk upon the various forms of commission government, explaining in a general way how they differ and the benefits which a municipality this special charter that the inter-Island of the new plant and punishment may be meted to him attendance is expected that the Inter-Island and punishment may be meted to him stemmer Mani will make a special trip this concentrated extract this week with the balance of the mate. Manager George Watt, who is still in town after the planters' annual session, has been overseeing the shipment of other parts of the new plant and it is expected that the Inter-Island steamer Mani will make a special trip this week with the balance of the material. The manager is anxious to get back to the plantation and superintend its installation.

Mr. Watt stated yesterday that the new plant would probably be in full operation by February.

Mr. Watt stated yesterday that the new plant would probably be in full operation by February.

I have personally known many girls in town and superint of the material that they will be a safe from all seductions as though over last year's books.

I have personally known many girls in looking over last year's books.

I have personally known many girls individual gifts by people who give to avery local charity very large sums, that Honolulu in the past five years, has not given on an average \$5000 to foreign missions. In some years the gifts were individual units on a new rage \$5000 to foreign missions. In some years the gifts were individual units on an average \$5000 to foreign missions. In some years the gifts were individual units on an average \$5000 to foreign missions. In some years the gifts were individual units on a new rage \$5000 to foreign missions.

School do exceedingly well. Now for the last part of the letter signed "A

the last part of the letter signed "A Mother." We read as follows:

"If, Mr. Editor, one half of the money spent on foreign missions for the bringing of the 'Light' to Darkest Africa, China, Japan, etc., by the good citizens of Hawaii, was used for the proper housing of the tenement dweller and the poor people, we would hear less of the crime of rape, and there would be no occasion for a sermon at Central

We are glad that "Mother" is interested in the tenement question, but we wish she had made herself acquainted with facts concerning the giving to for-eign missions both here and in the eign missions both here and in the country at large. The inference from and in the the paragraph quoted above is that the people who give to foreign missions neglect the needs of the home.

Let us begin at the end and before

discussing the amount given let us ask who today is actively engaged, not only in talking about tenement conditions but who are also on a large scale build ing good cottages with excellent sani-tary arrangements and placing them at

But all the other articles which figure on the menu of a well regulated luau were there in profusion and two handred guests soon cleared the tables. M. C. Pacheco, supervisor-elect, officiated as tonstmaster and there were speeches from the various supervisors speeches from the various supervisors ago, a large lodging house was parasagntatives-elect, L. L. Merooms and tenements. These men were speaks of the impossibility for her girl charged as rent for rooms the amount to be decent, who lives in one of He-Particular attention was called to the neglect of Kalihi-uka by the Republican administration. The speakers pointed to two lonely tanks or pointed to two lonely tanks the ferior accommodations. Later on houses were built as fast as possible for famoust, and surely we will, build houses the foundation was faid by families up without hearing and seeing independent of the people where girls can grow the election with a view of impressing who came from wretched old shacks. the voters of the district with the idea that they would shortly have city water.

Attention was called to the fact that work on the water system stopped immediately after the election, when the valley went Democratic. The poor condition of the roads also received prominent mention and as Pacheco, a resident of the district, will have a seat on the new board of supervisors, he is expected to do much for the wife and eight children could not pay own interests.

\$25 a month for a bouse. The point is this, the people who are behind St. Elizabeth's are men and women who foreign missions, but because we have are interested in foreign missions. If been so basy with other things that we a heart is open by the appeal of human-ity at large it is not likely to be dammed up by appeals made nearer at home. The fact is if a heart is opened. called forth the announcement that the home. The fact is if a heart is opened lieuwerats of Kakaako will give a by the great needs, moral and spirituan along the same lines on Washing uni, of mankind generally it for most more freely, nat less freely, to meet the needs at home. Practical Work Done.

We do not like to ask what "A Mother" is doing herself by gifts or service for the cause towards which she thinks others should give their time and money. Perhaps she is doing much, we tope she is. But it is well to know that the men and women in Honolula interested in all missionery the shapel efforts began the talking expiret the New to the lost point. "A Mother"

is one of the ships where monthers for quality cry out against the giving of

sions. The bill for ebewing gum is \$13,000,000; for soft drinks, \$123,000 1000; for confectionary, \$200,000,000; for jewelry, \$800,000,000; for tobacco, \$1,200,000,000. Why not suggest that a half of these sums be saved to be spent on the amelieration of the poor. But \$12,000,000! One city of any size spends far more than that in trying to spends far more than that in trying to cope with conditions and to remedy them, but the miserable little \$12,000,000, which is sent to carry hope to men, a sense of protection to womanhood and to uplift children, this little sum is begrudged. Nationally, \$12,000,000 would be a drop in the bucket and the half of it (suggested by "A Mother"), would be half a drop.

It should be remembered also that the meney sent out of the country for

the money sent out of the country for foreign missions is returned, manyfold, machinery about to be despatched by The Advertiser, December 8, signed in an increasing ratio by the foreign special steamer from here during the "A Mother." In the first place she trade which is always opened up where

But how much did Honolulu give last year through the regularly appointed boards for fereign missions? The Hawaiian board reports, not for Honolulu alone, but for all the Islands, \$986.50 for foreign missions. The Episcopal Church sent to the board in New York, \$1380, but as half of this goes to demes-tic missions, we can count only \$690 for foreign missions. Now, say that the Methodist and Christian churches of this city gave \$500, which I believe is more than was actually given, this will give a total of \$2176.50. Now, a half of that would build one cottage of

five rooms for some working man. But the Central Union Church does not always report its gifts for foreign missions through the Hawaiian Board. I cannot lay my hand on the Central Union year book for 1912, but in 1911, a larger amount than in many previous years was given; it was \$4311.90, of which \$1000 was a gift of an individual. That same year the Hawaiian Board spent \$60,000 locally, not counting very large gifts made for buildings, scholarships, upkeep, salaries and endowments for many institutions, schools and set-

not large. In 1888, the Central Union Church gave \$1800 for foreign missions, including special gifts for special ob-jects. Now 'A Mother' can readily see that if half of \$5000 was given to-wards relieving the tenement problem it would erect but two cottages, each con-taining four or five rooms and a bath.

Charity at Home.

Onarity at Home.

But again, as a matter of fact, St. Elizabeth's alone spent \$12,000 last year in building cottages for respectable working people. What Palama spent during the same period in crecting cottages and in taking other means to relieve conditions, was very large, and people who gave to these objects, supporting other settlements and bensficent institutions are largely those who ficent institutions are largely those who give to missions. For instance, take the "A" estate and the "A" family. These give to foreign missions, but they These give to foreign missions, but they also give splendidly to every good work here. So does the "C" family and the "M. C. Trust." So does mother "C" estate and family. So does the "Bs" and "Ds" and "Ws," and many others whom we could designate by letters of the alphabet, but who do not generally let their gifts be known if it can be helped.

We do indeed believe that it would be an excellent thing, the best possible thing, if our rich people would enter of live coals on which he had been reposing under a branch of earth, and being dismembered into succulent morphises formed the mainstay of the feast. But all the other articles which figure on the menu of a well regulated hau

been so basy with other things that we have not treated our neighbor in Palama and elsewhere as we should have done. But we have made a beginning and intend to go on until the svil in remedied, as far as it can be done, and people are provided with houses suitable for human habitation.

HENRY B. RESTARIOK. December 8, 1912

"EUROPEAN WAR OF 1913."

A book called "The European War of 1913" is having a great success in military circles in Bussia and France. It perpetts to be the work of a dap-anese officer on the general stuff of the firstleis ally, Japan, and is distinctly anti-English in tone. Great Britain and France are at war with Germany. The thermony triumph, and Ragland's navy is perfored as wiped out. Japan Advertiser.

In jail, awaiting trial on a charge that may land him in the penitentiary for a term of years, is another bogus check-passer. In the penitentiary are already a couple of men serving time for forgery of checks. The man awaiting trial forged his check in order to pass it over a bar for booze; the two forgers in the pen passed their forged paper over the bar for booze. There recently came out of jail another who served time for forging a check while drunk in order to buy more booze with the proceeds.

Now, it seems to me about time that our criminologists took a book out steamer for a special cruise, but is fice. of latter-day medicine and started some preventive methods for this boozeinspired forging of checks. I believe that the man who takes a check over a bar for booze is more guilty than the man who forges the name to it and turn home to San Francisco. I believe that it is the bartender who should go to jail and not the gin-crazed fool who takes the desperate chance in order to keep up a spree. Who is the worst foe of society and who is the one who should be put behind the bars, the man whose drink sodden brain conceives the idea of signing a check with day. some other man's name and thus secure funds for a further debauch or the man who will supply the booze to first deaden the good sense of a drinker and then cash for him a check, the validity of which, under the circumstances,

I know one man who went to jail for a forgery done openly in the sight of the man who cashed the bank order, the latter cashing what he knew to be a worthless bit of paper because he relied on the friends of the forger to be a worthless bit of paper because he rened on the brought. In this case, generally, and then go on to Panama, make it good rather than allow a criminal charge to be brought. In this case, generally, and then go on to Panama, took the forged check to the bank and then preferred charges.

The Hile Tribune brings up a feature of the liquor law that is worth consideration. The Tribune has been discussing the case with which habitual drunkards can secure intoxicants, although the law makes it punishable to sell intoxicating liquor to one who has been twice convicted of drunkeness. Says the Tribune:

"In this connection it might seem well to call attention to some defects in the statute which its enforcement shows exist. Thus we find that the list of to derive immense advantage from betabu drunks contains only two out of Hilo's best known topers. This is due to two things. First, the fact that the police are averse to making arrests. There are common drunks here in Hilo who have been seen drunk by the dozen Orient. times by every one of us, and who still have as clean a record, bibulously speaking, as Doctor Scudder. Another reason why so comparatively few convictions for drunkenness appear on the records in the case of our village sots lies in the fact that in many instances are arrests of such persons made on charges of common nuisance, being disorderly persons or the like, in which case, of course, the two-times-and-out rule does not apply.

"The liquor dealers themselves point out some defects which are well worth noting. First of all, they contend that it is unreasonable to expect them to know every man on the tabu list. 'There are only two men on the "trouble list" whom I know by sight,' said a prominent liquor dealer. 'There is probably not a man in town who knows them all. Now, is it fair to subject me to a heavy fine if I sell liquor to a man whom I don't know, just because he happens to be on the tabu list!' The answer is, of course, obvious. No reasonable judge would impose sentence in a case where the dealer, being justifiably ignorant, had acted in good faith. On the other hand, the statute gives the authorities the ability to impose a stiff fine in cases where the dealers sell to men when they, as do all others, know that their patron is a chronic drunk. And that is as it should be.

"The dealers to one sten further however. 'Is it fair to punish us, wh pay a heavy license fee for the right to do business, while the chronic drunk, the man who takes the initiative in the violation of the law, goes free? Would it not be more reasonable if the law punished the man who, though he had they became enthusiastic at once, and been twice convicted, bought liquor in violation of the law! Would it not be better to punish such persons for being found on the premises where liquor is sold? Such a statute would meet with the approval of all reputable dealers, full and back again, but wealthy peofor they are, when you come right down to cases, the ones who suffer the most from these chronic drunks?'

"Reference was made to the fact that the police often arrest the perenaial Bacchants on charges other than drunkenness. The authorities explainthat they do so for the reason that the maximum penalty which the law provides for drunkenness is three months' imprisonment. At first glance this would seem to be an ample sentence for so comparatively slight an offense. Experience has shown, however, that it is not. On Oahn where the humane High Sheriff Henry has done some splendid work by reclaiming drunkards whom he bad had committed to his custody, it has been found generally that six munths is none too long a period in which to eradicate the craving for liquor from the system of the chronic soak. In Hilo it has been shown that the maximum of three months is too short.

"A resume of these statements and arguments shows that the present law, while exceedingly good on the whole, can be improved in some particulars. Thus it would be well to pass legislation providing punishment for the twice convicted drunk who attempts to purchase liquor, who attempts to get some one else to buy it for him or who is found on licensed premises. Any person who buys liquor for such a person should also be subjected to a stiff fine. Purthermore, the maximum penalty for drunkenness should be increased to at least six months, probably more. These recommendations are respectfully submitted to our legislators,"

Such is Suggestion of H. P. Wood to Matson Navigation Co. for Its New Liner.

A voyage de luxe for the new Maton Navigation steamer Matsonia, following its completion next summer, has been suggested by Secretary Wood of the promotion committee to Castle & Cooke, the local agents of the line. The suggestion is for triangular trip for the steamer's maiden voyage from San Francisco, to include Honolulu, Hilo, the Panama Canal and back to San

In suggesting the proposed eraise yesterday to the local ag nis for reference to captain Matson at San Francisco, Mr. Wood stated that he believed this is one of the best ideas which has come to his mind for adver-tising the Hawa inn Island and for advertising also the Matson company and at the same time giving the traveling public one of the most novel craises ver planned by a steamer line.
In the opinion of the framer of the

idea the trip is not one which would ary, merely giving a new route to re-

"The Panama Canal is one of the features of the world's development which is one of the most talked of matters of today," said Mr. Wood yester-day, "It is an engineering triumph which no doubt a vast number of main landers will be glad to sec. The opportunities to see it by the Pacific and Atlantic Coast routes are not of the of Mr. Thay best, but if a trip is planned by which of the work. travelers may board the new Matsonia at San Francisco and make a trip first out into the middle of the Pacific to Francisco, it is something which I be-lieve would appeal very deeply to the leisure class.
"Such a trip advertised for six or

seven months would prove of advantage to the Hawaiian Islands for it would link the names of the two localities years than almost any other portions of the globe, I mean Panama and Hawaii, for we all know that Hawaii is make use of the Panama Canal as a shorter route from the Occident to the

"I have in mind a number of eatch advertising phrases which could be used to advantage. For instances: 'A Trip to the Regions of Wonders: See the World's Greatest Nasaral Wonder—the Crater of Kilauea in Action-and the World's Greatest Engineering Wonder -tae Panama Canal, What an appeal that will make to people all over the

United States.
"The more I think of the possibilities in this trip the more enthusiastic I become. If only the steamship peo-ple can be convinced that it is a good thing, a good advertisement for their company, and that the traveling pub- party for county attorney in 1906 and lie is looking for just such a trip, then 1910. the thing is done, for the Matson peo ple are progressive, as is shown in the

of the way places, and when I suggested the possibilities of the Panama trip said they would book for it. Naturally, the trip will cost a good deal more than one from San Francisco to Honople do not mind that.

"It strikes me that the whole proposition is feasible from the hard head-ed businessman's standpoint, and I believe that Captain Matson line with it. I believe California would also help the thing along."

#### KAIMUKI LADIES TO WELCOME NEW PASTOR

This time it is ladies of Knimuki who are keeping matters alive in the \* growing district of Knimuki. The Rev. \* P. G. Williams, late of St. Clement's Church, has moved to Kaimuki and a taken charge of the Epiphany Mission # as permanent pastor, and on the even ing of Friday next, the ladies of the Epihany Guild will give a reception to him and his family. The reception will be held in the assembly hall of the Liliuokalani School, and will be followed the other elected Demograts object lowed by a musical program, the talent for which is mostly furnished by read-dents of the district. Kani's Quintet club will furnish music for dancing, exactly what we are asking them to and refreshments will be served by the do,' said Charles (Soaphox) Barron, ladges of the Guild No writtensor. and refreshments will be served by the do," ladies of the Guiid. No written invi- yeate ladies of the Guild. No written invi-tations will be issued to anyone, and in circulation that the supervisors, the the ladies would like to see as many mayor, the sheriff, the treasurer and the residents of the district present as is possible, in order that they meet Mr. will "ignore" the resolution of the Williams and his family.

## DAIRY STOCK FOR

Governor Announces Appointment to Take Effect First of January.

APPOINTEE IS A DEMOCRAT

Circles of Honolulu Nearly a Decade.

From Saturday Advertiser,

On January 1, 1913, Wade Warren Chayer will assume the duties of atorney general of the Territory of Hawaii, vice A. Lindsay, Jr., whose resig nation was placed in the hands of the Governor a week ago. Mr. Thayer was appointed yesterday morning and will compel the steamship people to make shortly commence to familiarize him-

Mr. Thaver is a Democrat and has been prominent in the affairs of his since he came here, ten or eleven years ago. The appointment was a sur rise to the city, owing to the fact that Mr. Thaver stands in the party opposed to that represented by the Governor. The appointment, however, was not displeasing, but it was freely expressed in downtown circles that the Territory is fortunate in having a man of Mr. Thayer's ability to take charge

He is the first Democrat to fill the office, although Leslie Scott, a deputy attorney general, is also a Democrat. Governor Frear did not appoint Mr. Thaver until he had thoroughly canvassed the situation. The Governor states that a number of persons highly recommended Mr. Thayer.

Mr. Thayer began his career in Honolulu as a reporter on The Advertiser, remaining with the paper for about two years, when he resigned to engage in the practise of law. He was born in which are to become better known Jacksonville, Michigan, September 18, throughout the world in the next three years than almost any other portions sity of Michigan, '95, taking the degree of B.A., and a year later that of LL.B. He first engaged in newspaper work in Salt Lake City, having been connected both with the Salt Lake Herald and the Salt Lake Tribune. selecting Salt Lake was because of a visit which he had made as a university man as a member of the Michigan Glee Chib, which made a well remem-bered tour of the West. He arrived in Honolulu in 1900. Since

engaging in the practise of his profession here he has served as district magistrate, pro tem. He was admitted to the bar of the supreme court of Michigan in June, 1896, and in 1990 was admitted to the bar in Honolulu. He has served as refere is handways for has served as referee in bankruptcy for the islands of Oahu, Kauai, Maui and West Hawaii. He was second district magistrate of Honolulu, 1909-1910. He was the candidate of the Democratic

# manner in which they have added new steamers to their already fine fleet. "I have spoken to some Honolulu people who make yearly trips to out

## Small Talks

ACTING CHIEF KELLET.-We'll all drink dago red when Mac come narchin' home again. Sitting on the fid has its drawbacks.

J. WALTER DOYLE .- Yes, I know you Damm is going away. Don't ask se if I got mine. I absolutely refuse to be interviewed.

ALLAN HERBERT .- Wade Warren Thayer is a well-informed lawyer, nan of unpretentious habits, with the fear of God in his heart. A man like that has a character behind him.

W. H. HOOGS. I was advised not to use billboards to boost my algarobs mainess and I guess the advice was good. At any rate, when my three months contract is out I will take my posters down for good.

SUPERVISOR-ELECT PETRIE -I wish I had followed Governor Wilson's wise example. He went to Bermuda to dodge the job-chasers and thereby got some rest. I certainly should have gone to Lanai.

JOSEPH ROSE-I have had occasion to observe, in my many visits to Has Been Prominent in Legal the plantations on Oahu, that there are quite a large number of contented Portuguese and Spanish laborers on these sugar estates. J. H. HERTSCHE. If those gentlemen who so glibly call for more hotel

accommodation would like to put their own money into an enterprise of the kind, I can strongly recommend it as one likely to yield an Irish dividend. JACK KALAKIELA .- Jim Coke must be a reader of my mind. The bills which he is going to introduce are ones which I have made a special study upon. My interest is intense on a utilities commission bill and the revision

of schedule of court costs. A. D. CASTRO-Politics? What is that? There are a good many problems today before the community, other than political, which occupy our attention. The beautifying of Panchbowl, for one, is a big proposition, and a good many of us have our hands full with the scheme,

WILLIAM SAVIDGE.—There is much talk here about young girls being ruined because they are sent or go to poi and coffee shops, but some attention should be given to the young boys who frequent the billiard parlors and gamble and get a good start for their own ruination,

B. VON DAMM.-Most assuredly I am going away. I need a rest. Some of these people think that when a man becomes chairman of the Republican county committee in Honolulu he nequires the touch of Midas and the purse of Fortunatus as soon as he goes on the job,

B. C. SEALE-If Kaimuki should secede from Honolulu and go into business for itself, we should have no difficulty in choosing some worthy man for mayor. Already we have three or four who are each simply tickled every time the papers call him "the Mayor of Kaimuki."

R. W. BRECKONS.—There are some twenty or thirty Japanese men here who resemble the lilies of the valley as far as work is concerned. They get their support from women and I think if they were given a trip to Japan without a return ticket, the city would be better off.

HARRY V. PATTEN-Hilo is going into the sportive rowing game with more than the ordinary southern spirit. A crew from the Hawaii capital will be sent to Honolulu to compete in the next Regatta Day program. Josh Tucker is somewhat holding us up now because his department has been rather slow with the lease on the old government wharf site at Hilo.

TERRITORIAL TREASURER CONKLING .- When I was East selling Hawaiian bonds at fifty cents over par, Porto Rican bonds were selling in New York at a premium of seven dollars. This was mainly because Porto Rico had made a demand for her bonds by forcing the insurance companies doing business there to invest a certain proportion of the premiums collected in these bonds. This is something Hawaii might think over.

EDITOR M. A. SILVA, O LUSO-From letters received from Portugal and Spain, there is no question but that the Hawaiian planters can obtain all the labor they may need at this time. The Italo-Turco war made charters go up considerably, but that is now over. The Balkan war has not affected the situation any, as but little sea transportation of troops is required, so there should be no difficulty now in obtaining steamers for the immigrants.

## The Hour of Slav Revenge Near

The western world has little conception of the wrongs that the Slavonians have suffered at the hands of Austria-Hungary for many years, says the San Francisco Call. Even to summarize these would fill a volume, but it is sufficient to say here that they have been anendurable and that the patience of the sufferers has been remarkable. It is not at all surprising that the Slavs, both in and out of Franz Josef's dominions, should be ready to fight for redress with a valor and determination nearly if not quite as great as they have already displayed in the war with Turkey.

Save for brief periods, when some great patriot won some tempora lief, the Slave have been regarded by both Austrians and Hungarians prac tically as a subject race. To perpetuate this status, Austrians and Hungarians have not besitated to imprison and even to execute many Slavonian leaders. who, for a long time, would have been quite content to participate merely on equal terms with Austria and Hungary in a triune instead of a dual monarchy.

In 1868, after long striving to secure what they regarded as a modest form of autonomy, the Croat-Slavonian subjects of Franz Josef made a compromise with Hungary in order to save themselves from entire effacement as a national entity. They were given a few privileges and some pretense was made toward recognizing their political equality with the other kingdoms, but it was like throwing a sop to a beaten dog, for there were "jokers" in the compromise and its provisions were carried out, on the part of Hungary, with the utmost bad faith, while Austria proper looked supinely on, the emperor even at times refusing to give audience to Croat-Slavonian delegates who went to him in

To overcome all Slavonian effort for recognition and the recovery of rights. of which they had been robbed by force, the Austro-Hungarian officials, from premiers to underlings, resorted to the most scandalous intrigues, in which calumny, forgery and the rankest tyranny were the weapons of the oppressors. Slav patriots were immured in prison on flimsy pretexts and some were slain.

The seizure of Slavonian Bosnia and Herzegovina in 1909 served to disillusion even those who had some faith in Austria's sincerity of purpose in her protestations of well-meaning toward her Slav subjects.

Now the crises arrive, with Austria taking arms to resist the recovery by the Slavonian people of a part of the territory that belongs to them by geographic, ethnologie and political right. The southern Slavs believe that the limit of endurance has been passed. The prophecy of Baron Kallay, made in 1903, seems about to be fulfilled.

"My countrymen," said the baron, "have treated Croatia badly, prevented its development and explaited it financially; they will pay for this some day," That day is evidently now at hand-unless Austria-Hungary recedes from her present position regarding Dalmatia and an Adriatic seaport for the

## Punishing the Drinkers

Strong Membership Appointed to Raise Funds for the Mid-Pacific Carnival.

Fred L. Waldron heads the finance mmittee for the 1913 Mid-Pacific Caris assistants will have A. Lewis, Jr., usunger of the Bank of Hawaii, as he W. W. Dimond Company, as secre-). Castro and S. Akai, manager of the Yokohama Specie Bank, one of the strongest committees that has been selected for financing Honolulu's great-est annual festival feature.

The committee held a meeting yesterday afternoon in the merchants' asociation rooms, following the regular
meeting of the promotion committee,
which is deeply interested in the success
attending the efforts of the parade committee.

Director-General Chillingworth, who is to have complete charge of the plans for the carnival arrangements, was present at the meeting of the promotion committee, where he outlined some of 5.—The lava nis elaborate plans for the Hawaiian historical carnival, the first ever held here since the days of the monarchy, and announced that for his secretary

he had selected George F. Henshall, the well known newspaper man. The promotion committee members attended the meeting of the carnival finance committee and gave some valu-

Por Popular Subscriptions.

The proposal of A. D. Castro that the carnival be looked after in future by a regular carnival association and that subscriptions be made through popular channels, was thought to be a good one, but was not practicable for the 1913 celebration. It was stated that

the 1912 celebration. It was stated that if left to popular subscriptions the committee would be unable to get all the funds that are needed. It was stated by Secretary Wood, of the promotion committee, that \$500 is left as a balance from the 1912 parade.

Mr. Chillingworth had spoken of his plans for at least three days. The greatest feature is to be the spectacle of the landing of Kamehameha the Great on the Walkiki beach in war canoes, followed by surfing at night by torchlight. Secretary Wood stated to cances, followed by suring at high by torchlight. Secretary Wood stated to the finance committee that his landing of Kamehameha was attracting the attention of the great moving picture films on the mainland and the Islands would therefore receive much publicity

from the event.

Chairman Myers of the promotion committee also stated that the railroad men on the Coast, as well as other transportation magnates, believed that Hawaii had hit upon the right feature for the miles or against and their only from the event. for the coming carnival, and their only suggestion was that it should be made a most elaborate affair for the first

There was to be a card of horse races, Mr. Shingle being a member of this committee. For the horse racing events a purse of \$2600 is to be raised.

It was the opinion of Mr. Berndt that

the improvement clubs of the city should contribute to the carnival fund.

To Get Estimates.

The chair appointed a committee of three, consisting of Messrs. Shingle, Hobdy and Castro to confer with Director General Chillingworth to get an estimate of the amount of funds needed and then to have the general commit-tee raise the amounted proposed. The methods adopted by the Atlantic fleet reception committee for dishursement of funds, will be adopted.

Chairman Myers, of the promotion committee, stated that an aviator was anxious to come here during carnival time to give an interisland flight. Myer said the aviator was qualified to make such a flight and this would add interest to the carn val and give the other islanders an opportunity to participate with Hquolulu in the celebration of Washington's birthday.

## DARING SCIENTISTS AGAIN BRAVE MADAME PELE AND DESCEND DEEP INTO FIERY DEPTHS OF HALEMAUMAU

With Rope Ladders They Climb Down Four Hundred Feet and Cross Hot Lavas To Secure Gas Samples.

Once again, in the interests of science, Madame Pele has been braved by the investigators living on the volcano's brink for the purposes of studying sival to be held in February, and for systematically the vagaries of the fire goddess and of reducing her phenomens down to rules of cause and effect. Last week, while the pit of Halemannan was in a state of unusual activity, with lava fountains playing, spatter cones reasurer, and Emil Berndt, manager of forming, streams of liquid fire swelling in flows over the hardened crust, Dr. E. S. Shepherd, of the Geophysical Laboratory of the Carnegie Institution, ary. The other members are Robert and H. O. Wood, technical assistant of Professor Jaggar, accompanied by Alex. W. Shingle, Dr. W. C. Hobdy, Charles | Lancaster, the veteran Volcano House guide, descended four hundred feet into . Hemenway, James L. McCandless. A. the pit, crossed the hardened but heated lava floor and collected sufficient of the nascent gas from one of the open vents for analyses.

Rope ladders were used to descend the first one hundred and eighty feet of the pit, for which distance the walls are sheer. At this depth the walls were broken down and the intrepid scientists and their during companion were able to scramble down the rest of the way to the fire level, over the smoking. crumbling lava. During the greater part of their descent, the three were hidden from the view of those who tried to watch them from the pit's rim by the swirling, opaque gases that swept in clouds over the surface of the lower levels.

This news is given in the regular weekly report from the Technology Station, together with a record of seven local seismic disturbances, taken dur-

Report of Volcano Station.

TECHNOLOGY STATION, December 5.-The lava of Halemaumau rose at the beginning of the week, subsided slightly on Wednesday, December 4, and today has regained its level of approximately 200 feet below the S.W. atation. The pool is a vigorous one with in a rampart and platform of its own tuilding. It is active with many fountains, and on several sides the lava foam mounts within the talus to levels high above the pool, building there conclets which flame like torches.

The week has been notable for the final accomplishment by Dr. E. S. Shopherd, of the Geophysical Laboratory of the Carnegie Institution, of a danger out task for which he has long been awaiting an opportunity, namely, the collection of gas for analysis in vacnum tubes from a flaming cone over the liquid lava.

Lava Fluctuations.

The following measurements of depth

have been secured:
December 1, 1912, 10:30 a.m., below
S. W. station, 359 feet.
December 3, below S. W. station, 11

a. m., 360 feet.

December 4, 2:30 p. m., below S.W. station, approx., 368 feet.

December 5, 12 noon, below S. W. station, approx., 360 feet.

Much Activity.

The fames have been thinning so that the pool is often clearly seen in day light. At 10:30 a. m., December 1, there were three active coves N. W., E., and S.E., a stagnant ernsted area in the middle, a small pool N.E.; and wearing wet-sponge nose guards and marked new coverlows on the platform. in the middle, a small pool N.E.; and marked new overflows on the platform about the lake showing that it was rising. A stream poured around a promontory from the S.E. cove into the midst of the eastern one, which was also the Old Faithful caldron. At 11:20 a. m. the middle crust rent apart joining the coves into one large pool of liquid, with surface streaming east and west from the middle region, while the S.E. cove continued to pour a tor rent into Old Faithful.

Wood and Alee went down at 5 p.m., wearing wet-sponge nose guards and wetring wet-sponge nose guards and without mishap collected the gases from the flaming cone, returning to the upper bench at 6:45.

Complete Succeas.

The experiment was completely successful, the glass terminals of the tubes being melted and sealed in the sulphur flame of the cone. Several perfect samples of the unburned gas beneath the flame were in this way collected, the tubes being immediately resealed at

rent into Old Faithful.

The middle area stagnated and crusted after a few minutes, with streaming east and west from the newly formed blanket. There were spatter comes south of Old Faithful and on the places. south side of the extreme west end of the lake. Sixty feet farther west a ragged glow hole appeared in the talus At about 11:40 a. with fumes above. m, cracking and foundering took place at the outer edge of the lava platform next the talus 8.E. the liquid rising slong the crack and spreading into a

Stalactite Caves.

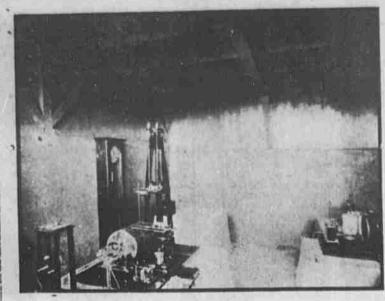

December 3 a survey of the pool was made, yielding the following dimen-sions—active pool 360 feet long WNW-ESE by 150 feet wide on the west and 180 feet wide on the east. Outer plat-form 520 by 400 feet. S.E. cove 50 feet wide. Depth readings 357 and 261 feet below S.W. station, at 11 a. m., the volcano, and 362 feet below N.W. station at 2 Six of the p. m. Spetter ramparts appeared W., feeble local shocks, registered as followent through Kau and Kona to Wai-S.W., S., and N., but the promontory and stream between the S.E. cove and Old Paithful had disappeared. The whole pool was rather divided into sity 8-100 minimum unit.

would make it certain to have a physlein at hand, and it will prove a very central location for the district physic-ian anyway. Provision should also be made for quarters for the nurses, "The water condition in Kona should a'se be thoroughly gone into, and some means should be provided for a better enter supply for the district. I have been told that there are some marshes marks of Napoopea which might be developed for this purpose.

there should be a cottage for the South

Kena government physician, built in

the same grounds as the hospital. This

Sanitary Engineer Wanted.

"As a matter at fact, the board of health ought to have on its staff a reg-ular sanitary engineer. Of course, Pro-tessor Keller is now a member of the leard, but we cannot expect to impose too much on him. The Territory is new getting so far in advance with its neblic health work that we must have such an engineer. The water supplies of the Territory should be looked into. All through the United States the health boards control the water supplies. plies, that is to say, none can be used for public purposes unless they have received the approval of the health authorities. We are now in such shape that we should have that system here, and a sanitary engineer could take charge of that work, working in con-junction with the analyst and the sunction with the analyst and the hacteriologist, who should make tests in their line. I don't think that any supply should be used unless it had been examined by these officials and had been found to be pure.

Plantation Camps.

''On our trip we examined the principal camps of the plantations along the road as far as Laupahochoc. Those between Laupahochoc and Hilo I examined pretty thoroughly at the time of my last visit. We found improvements in all the plantations along the line. The camps are pretty clean; new huildings have gone up: and the garbage service in particular has become more thorough than it was when I was last there.

That number will give Hilo a number correspond-ing to that of Honolulu, considering the relative size of the two cities.

Nurse for Hilo.

"A thing which I hope to be able to start before the end of the present period is the stationing of a district nurse to assist in the tuberculosis work in Hile. I cannot say just what is the state of our appropriations at present, but I believe that there is still and ficient in the tuberculosis fund to al low us to do that. "The district nurse would do work

similar to that which is being done by such nurses in Honolulu. They do educational work in the tenement districts, ferret out cases of tuberculosis, keep track of cases for the doctor, and, in ad track of cases for the doctor, and, in ad-dition to the tuberculosis work proper, they teach people to live properly, to understand the value of frash air and proper food, and also instruct mothers how to take proper care of their in-fants, thus doing much in the way of reducing infant mortality. If we could reduce tuberculosis and infant mortal-ity to their normal percentages, we could have the lowest death rate in the United States. United States.

the public health service on Hawaii is good, Doctor Pratt has seen several places where appropriations might be made with considerable advantage, and he intends to do his share towards securing improvements.

"I fermed conditions on that island tretty good," and Doctor Pratt, yes torday. "In Kona there was quite an approvement in the condition of the coffee piles. These were the cause of considerable complaint at the time of my last visit, the piles of decaying pile giving forth as offensive ador. I notized nothing of the kind this time."

Kong Hospitsi.

United States.

"I am planning to have the tubercu-losis exhibit sent to Hilo a little after. Christmas time, and to have it travel around the entire island, visiting every village and camp no matter how remote in order that we may have the educational campaign reach every one. The exhibit will be in charge of two less target and whibit tables and charts explaining various phases of the work. The archibit will resolute our the island about five weeks. wantle.

#### Have Little to Say.

Facing a deficit of more than six thousand dollars as the measure of their the allowance has been less. He extrooyear administration of the affairs of the city and county of Honololo, members of the board of supervisors had little to say, except to lay a plan to compel the territorial anditor to turn over \$33,000 which, they claim, belongs to the county's revenues, and is being the county and the county and the county are considered. Facing a deficit of more than six as ousund dollars as the measure of their the to the county's revenues, and is being tious and few had any outstanding bills expended for the benefit of schools by Sheriff Jarrett said he everran about the auditor, when it should be expended \$75, this being due to the fact that he by the supervisors. The city attorney had to put new locks on jail doors and is authorized to confer, not only with the auditor of the Territory, but with the Governor relative to the disposition of this fund, and failing to settle the

as to whether the county cannot go to court.

Supervisor Murray made a statement in regard to the \$33,000, which he believes is a sun that should be one of the benefits accruing directly to the county. He stated that negotiations concerning it had been under way. He also stated that Deputy County Attorney Milverton has arranged for a conference with the state of the state of the county. He stated that the county of the laboratory of the lab ference with the Governor.

"If we receive this money," said Murray, "we will nave, instead of a de-ficit of \$6000, a balance of about \$15, 000. If we cannot settle it outside of court, we can take the matter up in the courts for a settlement of the question."

A motion presented by Murray that the attorney give an opinion on the sub-ject, was passed unanimously.

\$50 a month. He stated his needs were as great as any other department but

had to put new locks on jail doors and pay for electric light current from the Hawaiian Electric Light Company dur-ing the recent drought. He also stated that he had some other bills, due to the fact that he was unable to make both

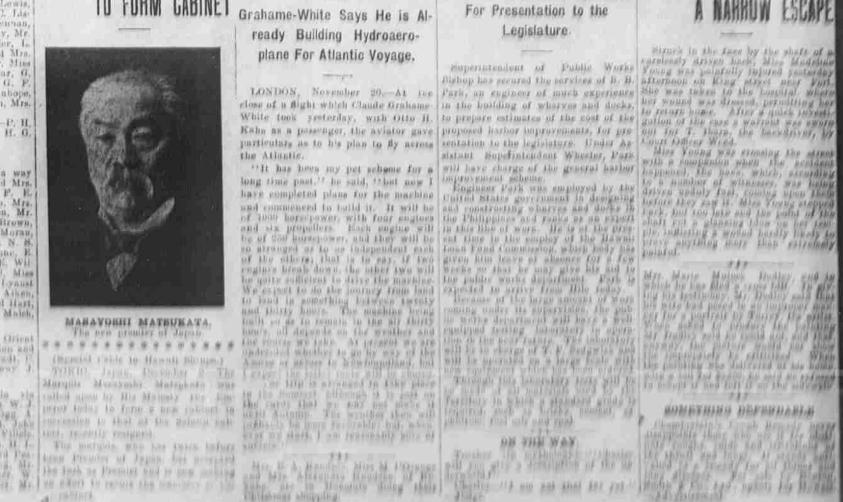

minated from the smokestack of the Inter-Island company's workshop on Queen street, particularly whon the wind swept down from the mountains. The stack was only twenty or thirty feet high. The writer said he and others who were building the new bulkhead wharf breathed in this dense smoke daily and it was harting them. They asked to have the nuisance abated. The stack of the rice mill near by was sixty or seventy feet high. by was sixty or seventy feet high.

## Gas Lamps Disappear.

Superintendent of Public Works II. Linkop informed the board that he County Attorney Peeved.

The county attorney had a peeve when he wrote a complaining letter to compelling the Honolulu Gas Computed with the last sales inade in the storage when he wrote a complaining letter to the board about the allowance of money for his department, stating that he was allowed only \$50 a mouth for materials and supplies and being such a small supplies and being such a small supplies and being such a small count by about \$450.

St. lishop informed the board that he knowled is the storage of t

## THREE THOUSAND TONS SUGAR CANE

Pormova has sent out un 8. Q. distress sull to Hawaii for help in maintaining her engur industry, a for the recent typhoon which awent a over the Island, where a number of sugar mills built by the Hono-isla Iron Works have been a creeted, badly damaged the case a and seed.

That these are practically destroyed is evidenced by the fact that orders have been received that orders have been received here for the subponent of three thousand tone of ones seed, the first part of which will be shipped out by the Kiya and the results der on other vensels of the Jupa ness flost.

The seed is manted as fast as if
