### STREET CONTROL IS QUESTIONED

#### Quinn Says That County Owns No Property---Belongs to Territory.

Wit, sparkling wit, actually came to the surface at the meeting of the Board of Supervisors last evening, but it was quickly submerged in the dense uncertainty of things. It came along toward the end of a rather dreary meeting after Supervisor Quinn had made a statement concerning the need of a boiler for an engine to run a rock crusher for the Wajalua road which he thought would cost about \$1500. Aylett looked over his spectacles, removed his pipe from his lips and queried:

td.

"Why not leave this matter to the County Engineer?"

"He's only a draughtsman and runs lines, for surveying," responded Mr. Quinn, "He doesn't run engines or autos, or things like that. He hasn't anything to do with it."

"I think it ought to be referred to the County Engineer just the same," persisted Aylett.

"I move it be referred to the committee on roads, bridges and parks," said Quinn. It happens that Quinn is a member of that committee.

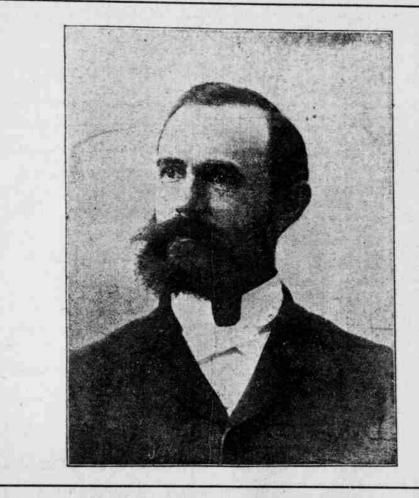

"Are you an engineer, Mr. Quinn?" inquired Mr. Aylett, slyly, which caus-

His Honor responded affirmatively and added he had appended his signature to the bill. That quashed a special ordinance, and gave the City Clerk an office staff comprising a chief clerk, a clerk, a stenographer and a typewriter. An additional motion provided these four employes with salaries, respectively \$120, \$80, \$100 and \$40, all monthly rates. A third motion called upon the Auditor to issue the warrants. City Clerk Kalauokalani announced that Eugene Buffandeau, Antone Fernandez, Jos. K. Aea Jr., and Francis Evans had been appointed to fill the positions.

## EXCHANGE LANDS

#### The Territory Hopes to Get Kauai Acreage for Homesteads.

An exchange of lands that will mean much for the extension of the homestead system on the island of Kauai has been under the consideration of Governor Frear and Land Commissioner Pratt. The Territorial government would like to have about 1730 acres of good pineapple land that is now controlled by the McBryde Sugar Plantation while that corporation is equally 1337 acres of government land, excellent for the growing of sugar cane. The plantation controls the water rights on both divisions and to make the 1730 will be necessary for the corporation to agree to the delivery of a certain amount of water for household uses after the consummation of the ex-

Hopper and W. H. Thomas are the men who have been named to judge the value of the lands for the government and much will depend upon their findings.

The land is desired by the government to extend and enlarge what is known as the Kalaheo Settlement, about nine miles from Lihue, the county seat of the corporation.

#### Settlers Contented.

"If this matter is brought to a suc-cessful conclusion," said Commissioner Pratt, "some of the best homesteading land in the Territory will be opened for settlement. It is of the very best quality for general agricultural uses and particularly so for pineapples. There are about three hundred people now living contentedly in the section known as the Kalaheo Settlement and the opening of the land that we are trying to secure would undoubtely increase the general prosperity of the entire region. One of the great advantages so far as pineapple farming is concerned is the proximity of a cannery at Lawaii of sufficient size to handle all the pines that can be turned over to it by the independent growers. This, of course, is a highly valuable asset. It is a rolling country, easy to homesteading is concerned. We are desirious of obtaining the 1337 acres a successful conclusion. The question

Already Senator Dowsett and his committee have seen a large number of there is and that things must be changed auto owners, but as it was found impossible to see personally every one, the have to be changed to the penny postabove letter was suggested. The committee has assurances of entries to be made by about fifty different persons stituted. already, and this alone would insure the success of the parade, but in the light of the extensive advertising which Honolulu's Floral Parade has had all over the mainland, the committee is determined to make the very best showing possible, and is not relaxing its efforts in the slightest.

"Some people are inclined to be a little lazy in regard to decorating and entering a ear in the parade," said but he suggested \$500 a month but later on changed to \$900. and they seem to forget that it is up to every citizen of Honolulu to help oost this thing to the best of his ability. Honolulu has already gained a reputation by reason of this annual floral parade, and we've simply GOT to make good now. A person may say that it won't make much difference whether or not he takes a part in the parade, but every auto, every carriage or bieycle counts, and we can not afford to let any stay out who can possibly see their way clear to help.

"The Floral Parade has come to mean a good deal more than simply a pleasant little local holiday. It is one with the detective and was ushered of Honolulu's assets, and is one of those things which requires some selfsacrifice and personal effort on the part of his election at once, and spoke again of many. Furthermore he wanted the English coinage substituted for Uncle Sam's money and his head should also appear on the coins.

He felt that he must have a palace to cover his royal head and house his ministers of state and that he would have to move toward the selection of a cabinet. As to salary he confessed to was not quite sure about this matter but he suggested \$500 a month as fair,

When told that there was already : Queen here, he stated that he would make things satisfactory to her, and to Dr. Emerson, later on said he would settle a quarter of a million dollars upon her. In all things he knew the Heavenly, Father would guide him. He said he was willing to form a cabinet, and at this juncture Detective Medeiros was introduced to him as a possible Lord Chamberlain. The new king shook hands with the chamberlain in a hearty manner, and agreed to accompany him to one of the public buildings of the kingdom to discuss the government situation. He went to the police station

into the presence of Sheriff Jarrett. The "King" plunged into the story

"I came from Tonga originally, but arrived in Honolulu five or six months ago," said the "King." "I am a carpenter by trade, but on Saturday last I was duly elected King. You will see it in the newspapers. I don't know just what to do. This is new to me. I feel that I ought to study to fit me for the position of King. I have thought about going away on the S. S. Moana, but I think the government should pay my passage for myself and suite, and pay me a salary while I'm away studying. Yes, I could leave the formation of the government in the hands of my ministers.

"You see, down in Tonga there is an independent government ruled by a king under the protection of Great Britain. It has an independent flag.
This country should have its own king and independent flag, and put Uncle Sam out. I will write soon to Lord High Edward of England and tell him about it. That will take time of course, but when I hear from him it will be

When taken before Chief of Detectives Kalakiela, another long talk about the formation of the government was had and he thought that the various persons to whom he talked during the course of the afternoon would be good cabinet ministers with Medeiros as Lord Chamberlain, the chief as Minister of Police, Chief Clerk Asch as Minister of Finance, a newspaper reporter as Minister of Foreign Affairs, and Dr. Emerson he regarded as the Royal Household Physician.

On being conducted to the receiving station and shown the telephone and telegraph system the "King" said that he would have to change it all and put in another system. It was decided to put the man in one of the rooms back of the Deputy Sheriff's office. He was shown the armory cell and Giles suggested that one of the vacant cells should also be used for storing riflesthat there were not enough in the building to army the military. His Majesty, oor devil, made no objection to going into the vacant cell to study the sitnation and decide on what kind of

palace he wanted to have built. When Sheriff Jarrett suggested that for the benefit of his health Giles might take a trip to the Coast on the Moana, the man acquiesced at first but on be ing taken around to the steamship agency he balked and said he was not

ready just now. Giles firmly believes that he is now sovereign of Hawaii but is worried about the financial situation. He suggested that as he was now King the proprietor of the boarding house he has

Mique's very sportsmanlike offer was accepted by the league, and the selection was left to Eddie Fernandez, captain of the local team. It is up to him to decide whether the All-Hawaii team borrows a whole battery or only a catcher. It is probable that Dick Reuter and bass will be the battery for the locals on Saturday and that Burns and Bliss will be the battery on Sunday. Strictly Local Team.

Today there will be a strictly local team in the field. Castle will pitch, Louie Soares eatch, and the field will be the same as Sunday, except that Scottina, the new arrival, will decorate second base. This is a very strong team and the visitors will have to take things seriously. While the team does not size up any stronger on paper, we must remember the added experience practise they have had with the

large difference. There is a distinct possibility of the locals doing something this afternoon. The easy coat of confidence fits the visitors well enough, but Joseph left a few scraps when he fell into the well and the All-Hawaiians have certainly picked them up. They are more determined than ever to buck up and show what they can do, and there will surely be some kind of a showing whoever wins.

#### Judge Is No Fan.

Eddie Fernandez, unfortunately, can not play today. He has been serving on a jury in one of the courts and the presiding judge was unkind enough to call the continuation of the case for today. It is a cinch that he is not a ed him and the guilty party walked up fan or he would have put it off until after the All-Stars leave here.

George Bruns will take Eddie's place at first, and he may be relied on to play a careful and heady game. With Castle in the box there should be little stealing of second base by the visitors, as the university pitcher has a neat delivery to first base that, while not as deceptive as that of the silent one, is still very quick and able in the setting acted as supe on the stage, before he time you think that the Riverside and down of would-be burglars.

At Fort Shafter there is Sullivan, McCullough and Hercules, and at the Orpheum there is Peterson, Nelson and Young Scotty.

That fellow Nelson is good. There is no getting round the fact that he has all the earmarks of being in the great Nelson family, of which the Mayor of Hegeswich is the present wealthy head. He went three rounds with Peterson yesterday afternoon be-

Word went round town in the morning that Nelson was going to try out The Rialto echoed it, and the windowseats at Fort and Hotel hummed with the news. The consequence was that the sports found they had an important business engagement outside about half-past two and hacked up to the Orpheum en masse.

Peterson came out first and did a of the air and many cigar stumps which, sad relies of Saturday night's excitement, still decorated the stage. With pillow cushions on their hands, the boys could not hurt each other, even if they tried, and there was a fine exhibition of hard milling for three rounds. It would be an exaggeration to say that Nelson is clever. He is not; he is even awkward. But he has the innate desire to bore in and get at the other fellow, and his moves are not naturally clumsy.

With proper schooling there is no knowing what this husky Dane might him very easily, but there was always that coming back for more that is so typical of the natural boxer. Nelson has large feet that get in his way, but he needs only tuition and practise to find out what to do with these, and he will sure get both in working with Peterson.

#### Peterson Shows Well.

Peterson showed up well in boxing with this big opponent. He has a very easy style and can hit hard enough to satisfy anybody. As to the speed of his left and the force of his right, it was impossible to judge by an exhibition against a novice, but it looks as though both are pretty nearly up to Sullivan class.

After Peterson got through with Nelson, he took on Young Scotty for a couple of rounds, and his speed show-ed up well. Scotty will, doubtless, learn much from the middleweight and may hand a grand bunch of cleverness to the soldier from Fort Shafter when he meets him next week. ...

#### FOX'S ANNUAL IS OUT AGAIN

Richard K. Fox, whose name is always connected with sport and incidentally with the Police Gazette, has brought out his 1909 Sporting Annual and it must be said that it is better than usual. Sammie Austin, whose big horseshoe tiepin has acted as a headlight on the great White Way for many years, is responsible for the work of getting up records and he has done himself proud n this instance.

There is every kind of a record in the book from walking, and that will interest Honolulu people particularly, o boxing and swimming. The book is complete in every way and, if more people would take the trouble to get ne of them, there would be less writing to the sporting editor to decide bets. Doesn't everybody know that when a bet of that kind is decided it is always done from the Fox Manual?

The main feature of the book is the pugilistic records, which are very comdete, including many youngsters who are regarded as comers in the Philadelshia no decision belt, but are not heard much of out here. These additions are seful and will supply information when the local fans see any of their names in he record of a recognized champion.

In California the white people are baiting the Japanese; in Hawaii the Japanese are baiting the white people.

#### PLAYING WITH FIRE.

Things are moving along toward strained relations with Japan once more. Nevada has done its worst, and that rotten borough State, with its wide-open legislature, looks much more formidable to Japan than it does to us. In the Japanese Diet the opposition party, which calls for strong measures with America, gets the cheers and the peace-loving premier is put on the defensive. It is all very encouraging to the trouble-makers,

The United States calls itself a nation and in most respects it is; but it will lack an essential element of nationality until it puts into federal control all matters affecting the treaty rights of aliens. It is preposterous to leave such vital matters to be footballed about by Ruef-Schmitz school boards and by gin-soaked and pugilist-ridden legislatures like that of Nevada-legislatures in which, if you did not get your head punched you might get your pocket picked. Every law which has aliens or alien interests as its objective should, by constitutional amendment, be invalid until ratified by Congress; and every offence against the persons or property of aliens committed within the limits of States or Territories should be tried by United States courts. Otherwise the United States might be driven into some calamitous war by the people of some obscure parish in Louisiana or of some slum precinct in San Francisco.

#### THE FOREST SERVICE.

According to Gifford Pinchot, forester, the work of the United States Forest Service for the fiscal year 1908 was far-reaching.

For the administration and protection of the 182 national forests in seventeen States and Territories and Alaska, the government spent \$2,526,098.02, or about one and one-half cents an acre. Permanent improvements, including the construction of 3400 miles of trails, 100 miles of wagon roads, 3200 miles of telephone lines, 550 cabins and barns, 600 miles of pasture and drift fences, 250 bridges, and 40 miles of fire lines cost \$592,169.10. Telephone wire to build approximately 400 miles of additional lines was shipped to the forester, but with the funds available before the close of the year the work of construction could not be completed. Some of this work was done on each of the forests in the

Although many needed improvements could not be undertaken, the benefits of what has been accomplished are seen in the more convenient and economical manner in which the forest officers are enabled to carry on their work and in the opening up to forest users of territory hitherto inaccessible. The remaining \$297,840.40 of the total of \$3,416,107.61, disbursed on account of work of the Forest Service, was used in forest investigations costing \$235,855.14, and in diffusion of forest information and federal cooperation.

The Forest Service is one of the branches of the government where everything is not outgo. Last year the receipts from sales of timber, grazing fees, and permits for special uses of forests resources amounted to \$1,842,281.87, an increase of \$271,222,43 over the 1907 figures. The per acre receipts from the national forests were a little more than one cent, less than five mills under the per acre cost of administration and protection of the forests.

The amounts paid the States and Territories, to be expended for roads and public schools from the year's receipts, amounted to \$447,063.79. Chiefly because of increasing the revenue to the States from 10 per cent, in 1907 to 25 per cent. last year, there was a total increase of \$294,031.62 in the amounts payable to the States.

In addition, the national forests yielded heavily to the public in free use. There were 30,714 permits granted for the free use of timber by settlers, schools and churches during the year, against 17,399 in 1907. The number of board feet used in this way by the public amounted to 131,582,000, valued at \$168,720, compared to 63,000,000 feet, valued at \$75,000, in 1907.

The aggregate of free use of the forests for grazing can not be exactly known, since no permit is required to be taken out, and there is therefore no record preserved. It added perhaps 10 per cent, to the amount of stock carried by the forests. Settlers living on or adjacent to the forests, and prospectors, campers and travelers in them are allowed to graze free up to ten head of milch cows, work animals or horses in use, and purchasers of timber and stockmen on the forests are given the same privilege for the horses needed in their work. Arizona and New Mexico milch goats to the number of thirty may be grazed free in place of milch cows.

Of free special-use permits there were issued during the year 1768, as against a total of 1471 previously granted. Of the latter 963 were in force during the year.

The grazing receipts for 1908 were \$962,829, and were paid by the holders of 19,845 permits to graze 1,382,221 eattle, horses and hogs, and of 4282 permits to graze 7,087,111 sheep and goats. Receipts of \$849,027.24 from timber sales were paid by approximately 5189 purchasers, who cut the equivalent of 392,792,000 board feet of timber. The receipts from special uses amounted to \$30,425.23 and were paid by 2065 permittees.

The year's receipts represent profitable use of the forests by some 30,000 individuals or concerns, in addition to more than 30,000 getting free use of timber and other resources. About one-fourth of all the timber cut from the national forests was under free-use permits.

The purpose of this free-use privilege is to make the forests contribute most effectively to the public welfare. The timber given to individuals is given for the development of the country through settlement.

The total receipts from timber sales each year since the national forests have been under the administration of the Forest Service have been as follows: 1905, \$60,136.62; 1906, \$245,013.49; 1907, \$668,813.12; 1908, \$849,027.24.

The average area to each officer theoretically available for patrol duty was 116,665 acres. But more than three-fourths of the time of the forest officers is now required by the fast-growing volume of national forest business, so that in point of fact the force on duty at the close of the year provided about one patrol officer to each 500,000 acres of forest. This is considered inadequate for protection of the forests. Until provision is made for a large increase of force it is necessary either to curtail the business arising from use of the forests or to neglect the proper safeguarding of government property against fire.

About 700,000 trees were planted last year on forests in the States of Nebraska, Kansas, Colorado, New Mexico, Arizona, Utah, Idaho, and California. There are now growing at the planting stations over 2,200,000 trees which will be ready for plating in 1909. Sufficient seed was sown in the spring of 1908 to produce 4,600,000 seedlings.

Besides administering the national forests, the Forest Service renders, on request, expert advice and assistance to other parts of the executive government regarding the practice of forestry. Work of this kind was carried on on several military and Indian reservations in various parts of the country. Cooperative State forest studies were carried on with Kentucky, Mississippi, New Hampshire, and Illinois.

The Forest Service conducts investigations of forest products along the two lines of wood preservation and wood utilization. Some of these investigations aim primarily to promote better use of national forest timbers; others seek results either of general application or contributing to the best use of the forests of some special region.

The plan consisted of appreciative articles on the life and works of Poe in all the January magazines; in the leading weeklies, in the issue nearest the poet's natal day, and in leading newspapers in their issues of January 19. The plan was carried out on the lines suggested and the publicity thus gained for the much neglected American writer will result in more permanent good than many statues.

He is regarded as a fine officer, and his friends will hope that he may clear himself of a charge which, if not excusable in civil life, is least so in a service which requires its officers, for the safety of ships and men, to keep their heads clear and for the prestige of their country to keep their manners clean.

It would be a very courteous thing to give the visitors a benefit. The players get only their salary, and one can imagine how far that goes on a trip through the Orient with so much attractive stuff to buy and so many incidental expenses.

The players themselves have nothing to do with this. The suggestion first came from a prominent officer of some of the local leagues and it looks like able that the Stars will play a pickbe filled at a general price of twentyfive cents admitting to all parts.

ment Construed by Court.

After listening to considerable argument as to the intentions of Mrs. Campbell-Parker when she made her last the instrument to probate. The pro-Muriel Campbell, now of legal age, who desired to be included jointly as an executor with the Hawaiian Trust Com-

court was asked to construe reads as follows: "I hereby appoint Muriel Campbell and Mary Beatrice Campbell, my daughters, to be the sole executors of this,

The clause of the will which the

my will, "I direct that should I depart this life before the two executors named in this will, to wit, Muriel Campbell and Mary Beatrice Campbell, shall be of full age and competent to act, the Hawaiian Trust Company, one of the trustees, shall act as said executor and trusto act as executors and trustees."

It was held by Judge Robinson that Muriel Campbell was not able to act as executor under the phrasing of the politician. will until her sister also became of The ind in that capacity.

An appeal to the Supreme Court will be taken by the attorneys for Miss Campbell and with the filing of a bond of \$25,000 the Hawaiian Trust Company will be granted letters testamentary.

"The grand jurors aforesaid do further present that Charles W. Booth of Honolulu, in the Island of Oahu, and in the circuit aforesaid, and within the limit of the circuit aforesaid do further present that Charles W. Booth of Honolulu, in the Island of Oahu, and in the circuit aforesaid, and within the limit of the circuit aforesaid aforesai An appeal to the Supreme Court will will be granted letters testamentary.

Make Fraud Charges.

Charges of fraud are made in the etition that has been filed by Edgar of Margaret V. Carter, protesting against the approval of the final accounts of Jessie K. Kaae, executrix under the will.

"A mockery and a travesty upon justice," is the way the petition characterizes the figures in the administration of the estate as presented by the executrix. The charge is further made that Mrs. Kase has paid no attention to the best interests of her trust and that the accounts she submits are inaccurate and not to be relied upon.

The petition will come up for hearing in the Circuit Court this morring where it has been going on merrily, for one cause or another, for the past six years.

New Corporation.

The latest corporation to file its articles of association is the Onhu Service Company which has been organized by R. H. Trent, Robert Murphy, Lewis B. Reeves and Thomas Political Company which has been organized by R. H. Trent, Robert Murphy, Lewis B. R. H. Trent, Robert Murphy, Lewis B. to have had a hand in the affair him-Reeves and Thomas Robinson. The business of the corporation as specified in the articles, will be to conduct restaurants, lunch stands, a steam laundry and a general merchandise and real estate business. The capital stock is fixed at \$1500 divided into fifteen shares with an extension privilege to \$15,000. All of the capital stock has been subscribed to by the organizers.

Report on Foreclosure.

In the foreclosure suit of August Dreier, Ltd. against W. W. Ahana and Choy Seem, his wife, Richard Trent, trustee, and Henry Holmes, Irwin Beadle, the commissioner in the case, has filed his bill of sale. The report shows that property at Kuwili was sold for \$12,000 to the Oahu Railway and Land Company and the holding at Homuakaha to C. G. Bartlett for \$1125. The sum of \$11,941.85 was left as the net proceeds after the payment of incidental expenses of sale and taxation.

August Dreier, Ltd., holds a first mortgage against that amount for \$8166.95 and Richard Trent a first mortgage for \$8690.50. Foreclosure on land can be made to meet the deficiency but two other mortgages to Henry Holmes and August Dreier, Ltd. cannot be sat-

Three-Year Sentence.

Three years at hard labor was the sentence meted out to Francisco Castro by Judge De Bolt yesterday upon a conviction for burglary in the second degree. Castro is a Porto Rican who entered the room of Miss Mary Vincent and stole \$10 and some clothing.

Just who will pick the plums in the way of legislative offices is a question which the Republican politicians are considering these days. Especially in the House has there developed a large number of applicants for positions, though it is a fact worthy of menthe job of stenographer. For the position of Clerk of the House of Repre-Meets every first and third Thursday of each month, in K. of P. Hall, corner Fort and Beretania streets. Visiting brothers cordially invited to him the party endorsement. The Republican Representatives will hold a cancus on the day before the Legisla-

ture opens and make the final choice. The following are the names submitted for the various appointive positions: Clerk of the House of Representaives-Edward Woodward, Ralph A.

Kearns, James H. Lloyd, James L. Holt, Honolulu. Stenographer-None. Sergeant-at-Arms, House of Repre-

sentatives-William Kamanoha, Napo poo; Limo Kahaunaele, David K. Notey. Honolulu. Messenger, House of Representatives Parry Kabale, Joseph F. Durao, Ho-

Janitor, House of Representatives-J. H. Lono Kaheana, Napoopoo, S. K.; George Kalilikane, Honolulu. Interpreter, House of Representatives-William H. Beers, Hilo.

L. L. LA PIERRE, Seribe. Meaning of Phrasing in Docu- The Accused Land Owner in Court With Alleged Accomplice.

> Charles W. Booth and Davis K. Kaaumoana were arraigned in Judge De Bolt's department of the Circuit will and testament, Judge Robinson in Court yesterday morning on charges of the Circuit Court yesterday admitted arson in the second degree. The date for pleading was set at February 9. ceedings were upon a petition of Miss Both Booth and his alleged accomplice and tool betrayed no signs of nervousness during the proceedings and left the court room hurriedly after the indictment had been read by Deputy Attorney-General Whitney.

"Blackmail" is all that Booth would say when asked for an expression of opinion on the case after the court adjourned. He stated further that his attorneys had advised him to refrain from talking for publication or discussing the details of the case. "Black-mail" was all that he would say.

Second Degree Charge.

It is thought probable that the prose cution will center all its efforts toward tee until they, the said Muriel Camp-bell and Mary Beatrice Campbell, shall Booth and that David Kaaumoana, the reach their majority and are qualified Hawaiian, who is charged jointly in the indictment returned by the grand jury, may be given a chance to testify against the accused land owner and

The indictment first charges Kaauin the following legal phraseology:

jurisdiction of this honorable court, before the said felony and arson was committed, to wit, on the 15th day of June, 1903, did unlawfully and feloniously Henriques, guardian of the minor heirs abet, procure and counsel, execute and command the said David K. Kaaumoana to do and commit said felony."

Prosecution's Theories. There are numerous details in the ase that the prosecution will attempt to make out against Booth which they believe will show his motive for con-

spiring to destroy his home on Pacific Heights. It is said that the insurance on the dwelling was raised \$4000 shortly before it was destroyed. Other eircumstances that are looked upon as ineriminating by the officers of the prose-cution are somebody's statement to the effect that Booth ordered several Hawaiians working about the place to litter the cellar of the house with grass, but the main dependence is understood to be placed upon David Manuel, the special officer, who, after working gently in an effort to run down the perpetrators of the arson, is now said

H. P. Wood, secretary of the Promotion Committee, has been advised that two tourists parties will arrive in Honolulu on the Mongolia this month, one from Los Angeles and the other from Chicago. Mr. Wood states that both parties are en route to witness the Floral Parade on Washington's birthday. The Los Angeles party was worked up by Mrs. Headlee, the Southern California representative of the local Promotion Committee. There are twenty-five persons in the Los Angeles party and fifteen in the Chicago section. Besides these a large number of others are expected to arrive here for the parade.

The handsome Floral day posters, deigned by Viggo Jacobsen, have been displayed all over the mainland and lot, 19,000 sq. ft., corner lot and m dare said to have attracted much atten-

#### Cafe Ready in Week.

By the middle of next week the Oahu Service Co., Ltd., will be ready to cater to the officers and enlisted men of the Fifth Cavalry cantonment, the buildings for the cafe, restaurant and kitchen being already under construction. The restaurant will be 20x42 feet, and the officers and civilians' mess hall, 20x20 feet. The kitchen will be a large structure and adjoining it will be another building 20x20 feet covering a large ice box. A cottage for the manager and assistants will also have to be erected. Then the laundry will be erected close by. A deal is being perfected to acquire the ma-chinery of the Wailuku laundry to install at Leilehua.

The Service company will make the officers and civilians' mess hall attractive so that it will become a rendezyous. As a cafe it will be open not only to officers but their families also, and any one from town can be sure of satisfying their wants there. The company also contemplates the operation of a wagonette service between the Wahiawa railroad depot and the canton-

#### Y. M. C. A. and Services.

The Young Men's Christian Association is planning to keep pace with the military and naval development in Oahu and plans to do much work at Leilehua. Secretary Paul Super of the Y. M. C. SAN DIEGO, California, January 11. -T. Ishida, representative of the Mitsu Company, announced that a Japanese squadron of four warships will visit

Japan the first week in March for Honolulu," said Mr. Ishida. "After a short stay there the warships will go to San Francisco. The itinerary after the arrival at San Francisco has not yet been definitely arranged. It is possible that the squadron will go to Tacoma and then return south, but more likely the warships will come south shortly after their arrival in San Francisco. It is planned to have them make a stay of about a week at San Pedro and then they will come to San Diego for two weeks. In 1864 while attached to an ironelad he was in several engagements on the James river. He was ordered to the Wachusett in January, 1865, as an assistant engineer, and made a cruise to China, Japan and the East. He was assigned to the Yantic, and later to the Terror at Havana, and remained aboard this vessel until transferred to the New York navy yard as assistant to Chief Engi-

neers Wood and Henderson. With the rank of passed assistant engineer, he remained on duty at the New York navy yard until, in 1873, he was ordered to join the Manhattan, an ironclad, at Key West, and during the next five years served on the Dictator, the Catskill, the Mahopac, the Nahant and the Lehigh.

On the Alliance, in 1881, he made an Arctic cruise in search of the Jeannette, reaching North latitude 80 deg. 10 min. north of Spitzbergen, within ninety miles of the highest record by Southern California ports the latter this route and farther north than any part of April or early May. #### A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causet (for they are almost numberless) its symptoms are much the same; the more proun nent being sleeplessness, sense of prostration or wearings, degrees of sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential mall such cases is increased vitality-v

Meets Old Friends and Tells About the Ancient Chinese City.

Canton, January 8, 1909. Editor Advertiser: It is a pleasure to be back in this old city and to meet the friends of former years, Many meetings have been held among the Chinese interested in the anti-Honolulu readers.

Canton City.

"Canton is one of the Chinese towns foreign influence, and the first realizaharbor, in one of the beautiful river boats, over a deep gray, placid river, past rows of sampans and of glorious found schools, mission schools and pribrown-sailed junks, is of something ab. vate and public schools. Young China solutely strange, of a life incompre- or today is not content hensible to Western eyes. No temples time," but new books with bright pieand pagodas rise to the memory when tures and up-to-date information are one recalls Canton, of which the late found throughout the schools. Pres-Dowager Empress of China was a humble native. The daughter of huck- number of Chinese from Honolulu were sters in Canton would probably be in met in Canton, and all are interested no way distinguishable from the crowds to hear of Hawaii or "The Sandalwood of women and girls who throng those narrow streets today, as they did centuries ago. So narrow are those streets that, stretching your arms, you can booths on either side, Everywhere the glow and splendor of color glow and splendor of color meet your eyes; crimson, yellow, blue, from the ooms of the silk-weavers or the embroiderers, the gleam of copper or of gold from the jewelers, iridescent lights from the kingfishers' feathers deftly handled by the enamelers, and the endless play of hues where the fanmakers are using their brushes.

"The daily life of the Cantonese is devoted to toil, and yet they find time for recreation, for the hum of conversation and of laughter fills the street, and the traveler who passes through At the upper end of every little room into which you glance there is a large screen, gay with gilt and colors, and on a small table in front flowers are set, flanked, on days of special observ- for issuance on Thursday of this week. ance, by a dish of roast pig and a few oranges. There is the joss house, without which no family would regard itself as secure from the wrath of the many gods-such, for example, as one of the 500 enclosed within the great temple. Birds twitter from cages at each open doorway as you pass, and frequently the trill of a bird's note rises louder than all the noise around you. The Chinaman has a peculiar love for birds, and it is rare to see him set out, even on a long journey,

without his bird in its gilded cage wrapped in a blue linen cloth. Native Shopping. "Whatever be the ware sold by the shopkeeper, his store is filled to overflowing, for space is at a premium, and the booths are all tiny. You meet the Cantonese who has been busy over his morning's shopping. He has a bamboo-rod over his shoulders, and you notice his neat little scraps of meat or fish, and similar small scraps figure at the doors of the eating-houses, nicely fried and hung on strips of bamboo. The shops of the greengrocers are most attractive, for all vegetables are washed and spread out to the best advantage. Spinach is a favorite, and huge bundles of it, cut with pretty long stems, and perfectly washed, are displayed in every shop. Lettuces, onions, potatoes, vegetable marrows, cucumbers, and gherkins are in general use. The fruit markets are liter ally crammed with fruit from season to season. Rice forms, perhaps, the most important part of the household supplies, since it is the basis for a number of articles in daily consumption. Round the grocer's shop, for instance, you will note a series of large brown jars, in each of which a long spoon is placed. These contain such appetizing additions to the daily meal of boiled rice as pickled onions, cab bage, beans, anchovies, pounded fish chilies made into sauce, also tomatoes such as the Italians use, and pickled beans. The grocer sells, too, eggs pre served in coatings of clay, those which he can announce as a hundred years old obtaining the best price. Piles of vermicelli made from rice decorate one of his long tables; bean card, resem bling the curd of cheese, fills a stone receptacle, and he is certain to have the fins of fish and of sharks dried in the sun. His soy is one of his special products, and he will doubtless have some in process of making. Small brown beans parboiled form its basis. They are next rolled in flour and spread on bamboo racks to dry for ten days. From the rucks they are placed in stone gars and covered with salt and water, where they lie until the neces sarv chemical fermentation takes place. "A Chinese shopkeeper who is well disposed towards his visitor is sure to offer a little white cup of samshu, the

national liquor, and he is not difficult

to persuade that the process of making

it is interesting. In the back regions

of his shop stands a huge stone boiler

in which the rice for the samshu i

It is made in the most primitive way, and, as nothing is wasted in Canton, in onehalf of the little wooden shed, where the present writer saw the extract in the making, a couple of pigs were housed. In the other half beyond a low bamboo railing, dishes of rice were set to sprout for the saccharine stage that is known as malt extract. Stoves were fitted on the other side of the room, in which this extract was cooked with paddy, a coarse rice, It was carefully covered with bamboo matting, and allowed to simmer slowly in order to form the sweet paste much appreciated by Chinese children.

Night Life in Canton.

"In the evening strings of twinkling lights rise in every direction, and color strikes a stronger note in the street scenes, for the evening hours of opium movement. They all seem very leisure induce the richly-dressed pormuch in earnest in their efforts to get | tion of the community to parade. The rid of this evil habit. There is the tinkling sound city in China. It is a place full of of the Chinese instruments and strings activity and business. An interesting of little lanterns glitter and dance in description of the city taken from the Chinese jewelry is indescribable, and Daily Telegraph may be of interest to the woman who loves diamonds, but who has not witnessed the display made on the occasion of a wealthy Chinese wedding, has missed a delight."

The foregoing description gives but that to this day shows little trace of a few views of Chinese life that may be seen to such good advantage in Cantion of the stranger who sails into the things at present is the new school life. ton. One of the most interesting Canton's Schools.

#### THE TRUTH ALWAYS.

"When you are in doubt tell the truth." It was an experienced old diplomat who said this to a beginner in the work. It may pass in some things, but not in business. Fraud and deception are often profitable so long as concealed; yet detection is certain sooner or later; then comes the smash-up and the punishment. The best and safest way is to tell the truth all the time. Thus you make friends that stick by you, and a reputation that is always worth twenty shillings to the pound everywhere your goods are offered for sale. We are able modestly to affirm, that it is on this basis that the world-wide popularity of WAMPOLE'S PREPARATION rests. The people have discovered that this medicine is exactly what it is said to be, and that it does what we have always declared it will do. Its nature also has been frankly made known. It is palatable as honey and contains all the curative properties of pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. A combination of supreme excellence and medicinal merit. Nothing has been so successful in Anemia, Scrofula, Bronchitis, Influenza, Loss of Flesh, Wasting Diseases, and Coughs and Colds. Dr. Austin D. Irvine, of Canada, says: "I have used it in cases where cod liver oil was indicated but could not be taken by the patient, and the results following were very gratifying." It cannot deceive or disappoint you, is effective from the first dose

and comes to the rescue of those

who have received no benefit

from any other treatment. It

represents the dawn of progress.

sisted in his investigations by Governor Frear of Hawaii, who accompanied him

home, and is working with him in his

plans which embrace the reclamation of

tracts of government land on the is-

lands for agriculture, a general irriga-tion system and ultimately the improve-

ment of the waterways and harbor

The chief industries of Hawaii are

the raising of sugar, the raising and canning of pineapples and the cultiva-tion of rice, bananas and a little coffee,

Sugar is raised in the lowlands and

pineapples are raised on the higher land

where the climate is better and more

suitable for the employment of white

labor, and it is a part of the plan of

reached after a careful study of the

possibilities as disclosed by a recent

inspection of the large acreage under

pineapple cultivation in the higher sec-

tion to suggest the increase of pine-

apple cultivation, because that field is

already largely covered and filled, but it is believed that the land will admit

of the introduction of other agricul

tural industries which will afford equaly good opportunities for the employ-

The influence of American brains, ingenuity, inventions and practical

scientific methods upon the pineapple

eultivation and canning industry had

a great effect in reaching this decision.

Only a few years ago an inferior qual-

ity and unimportant quantity of Ha-

waiian pineapples were erudely pro-

duced without an established market.

There are today thousands of acres un-

der scientific pineapple cultivation, and

not only is the quantity produced marvellously increased but the Hawai-

ian pineapple of today is the best in

quality on the American market. It

was found that where the pineapples

were originally either picked green for

shipment to distant points the fruit is

today permitted to ripen absolutely on

the plant, and is then either sliced,

erushed or grated entirely by machinery

and packed by machinery under the

best sanitary conditions, so that Amer-

ican brains and methods have raised the

Hawaiian pineapple from a neglected

condition in the fruit markets of the

United States to a position at the head

of the pineapple product of the world.

Mr. Newell believes that if such great

strides can be made in Hawaii in one

agricultural industry it is possible, with

## ENTER WEST POINT

President Griffiths yesterday received a cablegram from West Point, say ing that Charles B. Lyman passed his West Point examinations, and ordering him to report for admission on March 1. The message was at once relaved by wireless to Lyman at Hilo who will make ready to leave for West Point in obedience to orders.

Lyman received his appointment from Delegate Kuhio last fall. He took the examinations the week of January 12 at Fort Shafter under the supervis ion of a board of which Major Dunning was chairman,

Lyman is a son of Rufus A. Lyman of Hilo. He is the third member of the family to receive the appointment and to enter the academy. Clarence is now a lieutenant, stationed in Dakota. Albert is a cadet at the academy, and Charles goes to join his brother. All of the poys are graduates of Oahu Col-

Besides being an excellent student Lyman was a leader in athletics at Punahou. He was a star halfback and captain of last fall's victorious team; he was a sprinter and big point winner on the track team, played soccer, and besides was one of the best base ball eatchers in the Islands. He player behind the bat for the P. A. Cs.
