OCEAN HORROR OCCURS IN THE NORTH ATLANTIC

Over Seven Hundred Scandinavian Emigrants Believed to Be Drowned.

Steamer Norge Bound for United States with 800 Passengers Strikes an Island and Sinks—Twenty-Seven Survivors Found.

(ASSOCIATED PRESS CABLEGRAMS.)

LONDON, July 4.—Over seven hundred Scandinavian emigrants bound to the United States are believed to have been drowned by the sinking of the steamer Norge in the North Atlantic on June 27.

There are but 27 known survivors of the disaster. The remainder of the 800 passengers are unaccounted for.

The Norge struck the island of Rockhall, 290 miles west of the coast of Scotland. A lifeboat containing 27 persons from the ill-fated steamer was picked up and landed at Grimsby, a fishing port on the coast of England.

The Danish steamer Norge, Captain Cundell, has been running for some time between Christiania (Norway) and Copenhagen (Denmark), and New York. She is a vessel of 2121 tons register.

Turks Massacring Armenians.

WASHINGTON, July 4.—The Armenian bishops of Persia have cabled to Secretary Hay, saying that the Turks are massacring Armenians. They solicit the aid of America to prevent further atrocities. The people are terrified.

ALEXIEFF'S HARSH CAUTION TO CHINESE

Here is a translation of a proclamation which appeared in the Chinese language, in and about Newchwang, before the evacuation of that place by the Russians:

"Beware! The Red Beard bandits are the scourge of Manchuria. The Russian army will be delighted to speedily exterminate these men, and so protect the honest folk. Do not then be afraid of their vengeance. Should any persons afford refuge to these robbers or fail to give information of their movements when known to them, they will incur the same punishment as the bandits themselves.

"I, the Viceroy, fully expect that you, the people, will sympathize with the Russian troops. Should the Chinese officials and people regard with hatred the Russian forces, the Russian Government will certainly exterminate such people without the slightest mercy and will not fail to take suitable measures for the protection of her national interest.

(Signed)

"ALEXIEFF, Viceroy."

Such a threat as the last half of this proclamation shows the Russian appreciation of another danger than the Japanese army. The Chinese are likely when they see the power of their enemy reduced, to rise and attempt to revenge themselves for the cruelties and injustice they have suffered from Russians. How different the situation might have been! If Russia had treated the Chinese with fairness and had made friends of them, she might now perhaps be counting on assistance from them, instead of posting threats of wholesale massacre to keep them from turning against her.—Hawaii Shinpo.

LIEUT. HAMILTON ORDERED TO STAY

Lieutenant Wesley K. Hamilton, Artillery Corps, stationed at Camp McKinley, has received orders to remain at Honolulu on duty with the two companies of Coast Artillery here. The officer had previously received orders detaching him from Camp McKinley

and assigning him temporarily to the Presidio.

At a farewell luau given in honor of Lieut. Hamilton at Moanalua on Saturday evening, at which most of the officers from Camp McKinley and from the National Guard of Hawaii were present, a cablegram received earlier in the evening was produced and read, in which the officer's first orders were revoked and he was assigned to further duty here.

The many friends of Lieut. and Mrs. Hamilton will be pleased at their detention.

Japanese Torpedo Flotilla Hits Them Outside Port Arthur—St. Petersburg Regards Land Situation With Satisfaction.

(ASSOCIATED PRESS CABLEGRAMS.)

TOKIO, July 4.—A Russian guardship and torpedo boat destroyer have been sunk at the entrance to Port Arthur.

Washington, July 3, 1904.

To Japanese Consul, Honolulu,

Admiral Togo reports as follows:

"Our 12th torpedo-boat flotilla, in the night of June 27th, attacked and sank an enemy's guardship with 2 masts and 3 funnels outside Port Arthur. The same flotilla then exchanged fire with the enemy's destroyers, whereof one was observed to have capsized and sunk. Our casualties are 14 dead and 3 wounded."

JUDGE PARKER HAS THE LEAD AT ST. LOUIS

Senator Gorman's Forces Are Active and Making Things Interesting.

Cleveland Has Third Place With Waning Support—Opposition to Parker Lacks Cohesion—Contests of Delegations.

(ASSOCIATED PRESS CABLEGRAM.)

ST. LOUIS, Mo., July 4.—It looks as if Judge Parker will be nominated for President by the Democratic National Convention on the second or third ballot, although there is yet an uncertainty that makes the situation interesting.

The opposition to Parker lacks cohesion. Senator Gorman comes next in chances to Parker, and then Cleveland. Yesterday the Gormanites were active, while Cleveland's support was waning.

A meeting of the Democratic National Committee will be held tomorrow. There are a number of contests to be decided.

REGULAR ARMY OFFICER TAKES HIS OWN LIFE

Lieut. Garber, U. S. Coast Artillery, to Escape the Thrall of Drink, Commits Suicide at Camp McKinley.

Tragic was the suicidal death early yesterday morning at Camp McKinley of First Lieutenant Gilford S. Garber, 92nd Company, Coast Artillery, United States Army. A large Colt's army revolver supplied the shot which ended the young officer's life, and death ensued in a few minutes after the trigger had been pulled.

A note hastily scribbled just before the fatal shot was fired was found by his brother officers lying upon the table in Lieut. Garber's room, and this supplies a reason as to the terrible decision the young man had reached to

end his life. The note said simply: "I cannot stop drinking."

That the decision to commit suicide was arrived at only just before the revolver was taken from its holster, is amply evidenced by the officer's actions throughout the evening while in the company of his brother officers and several National Guard of Hawaii officers at a luau given on Saturday evening at a place near Moanalua. At that time—only a few hours before he killed himself—the lieutenant invited the company present to be his guests at a dinner to be given by him on July 15.

The suicide took place about two o'clock yesterday morning in Lieutenant Garber's room, which adjoins that of Lieut. Trotter under the same tent. When Dr. Baker, the army physician, arrived a few minutes later, the officer was beyond medical aid and expired without being able to speak to the officers and friends gathered about him, although his eyes, as he followed their movements about the room, had an appealing look in them, as if to ask forgiveness for his rash act.

The artillery camp was plunged into profound sorrow over the tragic fate of the young officer, and it is quite possible that, under the circumstances, the artillery troops, which were to participate in the Fourth of July parade today, may not appear in line. The body will be embalmed and forwarded to Lieut. Garber's old home in Madison, Wisconsin, on the transport Thomas which should arrive here tomorrow from the Philippines.

The circumstances surrounding the death of Lieut. Garber were brought out at the inquest held over the remains yesterday morning by Deputy Sheriff Chillingworth. Lieut. Alden Trotter, his tent-mate testified, in part, as follows:

"I knew the deceased officer very well, and have known him since June, 1903. We have been living in the same tent at Camp McKinley, occupying adjoining rooms. We had just returned from a luau given as a farewell function in honor of Lieut. Hamilton who was shortly to depart for the coast, both of us returning to the camp together. I had just retired when I heard a shot followed by something falling. I ran into his room and found the lieutenant

THE DAY WE CELEBRATE

How the Fourth Will be Kept On Oahu.

With Thundering Guns Sunrise Will Be Greeted.

Military Parade, Literary Exercises, Salutes, Sports and Dancing.

TO-DAY'S EVENTS.

- ★ Salute of 21 guns at sunrise. 8:45 a. m.—Military and Civic Parade.
- ★ 8:45 a. m.—Wagonettes leave Opera House for Moanalua cricket match.
- ★ 9:00 a. m.—Special train leaves for Pearl Harbor races.
- ★ 10:00 a. m.—Boat races, Healanis and Myrtles, at Pearl Harbor. Train returns to city immediately after races.
- ★ 10:00 a. m.—Fourth of July Literary exercises at the Capitol Grounds.
- ★ Noon—Salute of 45 guns.
- ★ 1:30 p. m.—League baseball at new park—Kams vs. Elks.
- ★ 3:30 p. m. or about—Second baseball game—H. A. C's vs. Malles.
- ★ 7:30 p. m.—Fireworks at Capitol Grounds.
- ★ 9 p. m.—Grand Fourth of July ball—dancing at Alexander Young Hotel and Royal Hawaiian Hotel.

The glorious Fourth is here again. The day will be greeted by a salvo of 21 guns fired at sunrise this morning, and another salute of 45 guns, each gun representing a state in the Union, will be fired at noon.

Following the sunrise gun interest will begin to center on the military parade, which is to start from King and Richards streets at 8:45 a. m. The original plan for the parade was to have the U. S. Artillery companies of Camp McKinley, a company of marines from the United States Naval Station and possibly bluejackets from the U. S. Gunboat Wheeling and Iroquois, the First Regiment of the Hawaiian National Guard and the Fire Department in line. Owing to the sad event at Camp McKinley yesterday, there may be only a detail from the army post in line.

Captain Samuel Johnson, of the National Guard, is the Marshal of the Day. He will form the parade at Richards street with the right resting on King street. The procession will move along King to Nuuanu, thence up Nuuanu to Vineyard, thence along Vineyard to Emma, down Emma to Hotel, along Hotel to Fort, down Fort to King, and thence along King to the Capitol Grounds.

At 10 o'clock the literary and musical exercises will be opened in the Capitol Grounds, the speakers using the band stand. The program is as follows:

- Music.
- Prayer—Rev. Doremus Scudder.
- Reading of Declaration of Independence—Frank E. Thompson.
- Music—"My Country 'Tis of Thee" (Hawaii Pono)—Double quartet—Miss Stella Love, Miss Agnes Lyle, Mrs. Adolph Constable, Mrs. Buzzell, Miss Louise Day, Miss Lishman, Mrs. Haley, Miss M. Aylett, Miss Leo Martin, Miss Gertrude Hall, Robert White, J. D. Dougherty, Dr. G. Waldo Burgess, F. M. Husted, Stanley Livingston, Guy Livingston, F. W. Beardslee, J. H. Howland, W. D. Adams, Miss Byington and Prof. Ingalls, accompanists.
- Address, "American Citizenship"—J. J. Dunne.
- Music, "Battle Hymn of the Republic"—Double quartet.
- Address, "Future of the Republic"—John A. Hughes.
- Music, "Star Spangled Banner"—Double quartet.
- At 7:30 o'clock this evening a display of fireworks will be made at the Capitol Grounds. It will not be large owing to the small amount of money at the committee's disposal for this purpose.
- At 9 o'clock the dancing will begin at the Alexander Young Hotel and the Royal Hawaiian Hotel. Both Manager Lake for the Young and Col. Macfarlane for the Hawaiian will make everything as pleasant as possible for the big crowds expected. A general invitation is extended to the public by the Fourth of July committee to participate in the dancing. G. W. R. King, chairman, and Dr. Hobdy of the ball committee will personally look after both affairs, and will have able lieutenants as floor managers in "Sonny" Cunha and W. D. Adams at the Young Hotel, and George Smithies at the Hawaiian. Three quarter clubs will furnish the music.
- Dancing will continue until after midnight, the Rapid Transit Company announcing that cars will run until 12:30 o'clock, which is an hour later

than usual. The cars will make through connections in all parts of the city.

PATRIOTIC SERVICE AT OAHU PRISON

Combined with the Young Men's Christian Association's religious service at the Oahu prison yesterday was a program of a highly patriotic nature, which included selections by Miss E. W. Cooledge and young ladies of the Kawaiahaeo Seminary, assisted by our ever-willing and talented O. P. Glee Club, whose rendering of their pieces was much appreciated by all, present. The most attractive and helpful number by the Glee Club entitled, "American Selections," ending up as it did with Home Sweet Home, was most touching, and we most sincerely feel that these men ought to be heard to be appreciated.

The Devotional Committee feel greatly indebted to Miss Cooledge, for the ever ready manner, in which she has always responded, when they have appealed to her for help in any of their religious services, and it is with real regret that we contemplate her early departure from the islands, in the steamer Mongolia, July 8. Our warmest aloha will go with her, and we can only hope that the way will be made clear for her to return to our shores "ere" long. At the same time we congratulate those among whom she is going to reside, upon such an acquisition to their forces in active Christian work.

Earnest addresses were delivered by the several speakers present, suitable for the occasion, who urged upon the men to trust in God and "Stand fast in the liberty of our Lord Jesus Christ, who alone could make them really free and independent men. After the singing of "Hawaii Pono!" and two verses of "America," this most interesting and helpful service was brought to a close.

LIBERTY'S TORCH A CANDLE.

The great bronze statue of Liberty in New York harbor is always an impressive figure by day, but at night it does not live up to its reputation for "enlightening the world." At dusk every evening a sickly blue light begins to appear in the great black torch, and when night sets in this light takes its place with the other harbor lights, a little high up, but not a bit more brilliant than the rest. It might easily be mistaken for a lantern on the mast-head of a ship.

"GREEN SICKNESS"

The unhealthy complexion of green sickness is changed to the rosy blush of good health by Scott's Emulsion.

Green sickness is one of the forms of blood disease found in young women. The change from girlhood to womanhood often upsets the nervous system, weakens digestion and throws the blood-making organs out of gear.

Scott's Emulsion puts new heart into pale girls. It tones up the nervous and digestive system, and feeds the blood. It is a natural tonic.

Remember that 30 per cent. of these cases go on into consumption unless prevented. Scott's Emulsion prevents consumption.

BOTH CREWS SIZED UP FOR TODAY'S BOAT RACES

Today will see two rowing contests at Pearl Harbor, which should draw out the largest kind of a crowd, for if months of preparation and weeks of training count for anything the races will be all that can be desired.

The special train, which runs direct to the water's edge, will leave the city for Pearl Harbor at 9 a. m. A special, carrying the judges and crews, will go down an hour earlier, in order that the races may be started soon after the special arrives.

The train will return immediately after the races, so that the crowd will have an opportunity to reach the baseball games in the afternoon.

Everything is in readiness for the races and they should go off without a hitch. The course, a straightaway one of a mile and a half, has been marked off and the flags placed, the finish being in front of the railroad wharf as in former years. A good breeze was blowing yesterday morning, but if it has not increased by this morning it will not bother the crews to any extent.

Yesterday morning the crews were out for a while, both the Healanis going over the entire course, the Myrtles merely taking short sprints and practicing starts. The Healanis Seniors went over the course and showed good form, considering the time they have been working together. Their time as caught by those watching them was 10:32, which is 27 seconds slower than the same crew made last year when they won from the Myrtles. Unfortunately, the Healanis are having the same bad luck as the Myrtles had last year. Owing to the late withdrawal of Williams, Damon has been in the boat only five times and, as a consequence, he is in no condition to stand a hard race. The Juniors are decidedly up against it owing to the withdrawal of the Clark boys, on account of the death of their mother.

Captain Walker stated yesterday afternoon that the boys would not row. Allen and Sullivan, who have taken their places, have had but two days to get into form. Taking all things into consideration, the Junior race is generally conceded to the Myrtles, while it is about a two to one shot that the Healanis Seniors will come out victorious.

But Captain Walker takes an optimistic view of the situation, and stated positively that there would be a junior crew on hand for the race, thus setting at rest all rumors to the effect that the Healanis might not turn out a crew for that race. Speaking yesterday he said:

"There is not much I can say in regard to our crews. We are up against a case of hard luck, but we have no excuses to offer. I don't think Damon is in condition to stand a hard race, but he is in as good form as can be hoped for with five days' training. About all we can do is to say nothing and say wood."

And this means that the Healanis will fight for both races to the finish. There is considerable speculation as to why Williams withdrew from the Senior crew, and the speculation is far from complimentary to him. He has not given any very definite statement publicly as to why he withdrew. Among other rumors which will not down is one to the effect that he desired a cash consideration before rowing. It is hoped that this is not true, but if it is, it is one of the poorest exhibitions of sportsmanship that has been given here in many a day.

The Myrtles are generally confident of victory in both races, and their crews certainly warrant the confidence placed in them. The Seniors are quick on the start, row with good form, and show for more ginger than the Healanis Seniors. The fact to be considered with them, however, is the age of the rowers. Crozier is a veteran at racing. King has pulled in a couple of Regatta Day races, but Crabbe and Kopke have never pulled in a shell race before. Myrtle backers are sure the two latter will make good, but the crew is pitted against a veteran Healanis crew who have rowed to victory before, and Renner and Jarrett have fought many a race. It is really a case of youth, muscle, confidence and enthusiasm with the Myrtles, and veterans, experience and a grim determination to "saw wood" with the Healanis, that will be seen in the Senior race.

Tom King, the Myrtle captain, is confident and sure his crews will make a creditable showing. "I am sorry," he said yesterday, "that the Healanis are crippled in their Junior crew, and I hope the Clark boys can row. I would much prefer to have Williams row in the Senior Healanis boat if Damon is a weak man. I would like to see him row in that case, or have had Damon rowing from the start, for if I beat them, I want to beat them when they are at their best."

"We are taking big chances in putting in three fellows who are really boys, Crozier being the only real Senior. Two of them have never pulled in a shell race before, but if they do as well in the race today as they have done in practice, they are all right."

The launch Waterwitch will follow the crews over the course, carrying the judges and timekeepers, and other launches with spectators will no doubt follow along, but it is especially requested that all boats keep behind the

shells, for if they get in front there is bound to be a wash, from which the crews are certain to suffer.

Most of the yachts are already anchored along the end of the course, and many yacht owners will entertain crowds aboard during the day. The Hawaii Yacht Club house will be decorated as will the Pavilion and the yachts.

A broad expanse of grass is now growing, where red dirt was formerly wont to play havoc with white clothes. Taken all in all, the conditions are unusually favorable, and a large crowd should go down to the lochs this morning, not only to enjoy an outing, but to cheer the victors—and the losers.

The crews as they stand are as follows:

FIRST RACE.

Senior.

Healanis Crew—F. B. Damon, Stroke; Dan Renner, No. 3; Paul Jarrett, No. 2; Bert Hellbron, Bow; Harry Steiner, Coxswain.

Myrtle Crew—George Crozier, Stroke; Ned Crabbe, No. 3; Ernest Kopke, No. 2; Louis King, Bow; Luther Hough, Coxswain.

SECOND RACE.

Junior.

Healanis Crew—Ben Clarke, Stroke; Bob McCarrison, No. 3; W. Rycroft, No. 2; John Clarke, Bow; Harry Steiner, Coxswain.

Myrtle Crew—Melvin Simpson, Stroke; Ralph Johnson, No. 3; Frank Beckert, No. 2; Bob Hughes, Bow; Luther Hough, Coxswain.

Judges—A. A. Wilder, A. L. C. Atkinson, Lieut. Hamilton.

Timekeepers—C. L. Crabbe, L. P. Scott, Chris. Willis.

Regatta Committee—C. C. Rhodes, W. W. Harris, W. Soper.

HEALTH MEN DO UP ANNEHEUSERS

After a long battle on the baseball diamond at Kapiolani Park yesterday morning, the famous "Anneheuser" team from Hackfeld's was defeated by the "Fumigators" by the narrow margin of one run. The score stood 21 to 20 in favor of the Board of Health.

It was a great game and brought out all the fine points of the eighteen players. The spectators had a huge amount of fun, but there was good playing as well. In fact the Hackfelds are showing up so well that challenges are coming into the manager too fast to answer. It is said that the Wai-pahu Leaf Hoppers have sent in a challenge to the "Hackfeld Parasites," and the latter say they will exterminate the canefield nine.

The score for yesterday's game stood even until the last inning when an error was made by a Hackfeld player, letting in another run for the Fumigators. Ed. Duisenberg claims the honor of having made the error.

TROPHY PROMISED FOR YACHT RACE

A handsome trophy will be presented to the regatta committee of the Hawaii Yacht Club by an enthusiastic member of the club, for another ocean race. The committee is working on the matter and selecting a course from the following:

Pictures by Telegraph.

Many attempts have been made to invent some apparatus adapted to the transmission of photographs, handwriting, etc., over long distances by means of the electric current. A really successful device appears to have been perfected by Professor Korn, of Munich. The sending device is on the principle, which has been known for some time, of the oscillations in electric currents falling on a selenium cell. If a photographic negative has a ray of light falling upon it from above, and a selenium cell resting below it, then when the negative is moved we have changes in the electric current due to the differences in the amount of light passing through the negative. The difficulty has been to find a receiver which would reconvert the electric oscillations into changes in light intensity. This is the problem that Professor Korn has solved. He observed that the luminous radiations from the electrodes in a tube exhausted to a pressure of 2 to 2 mm. of mercury were very sensitive to variations in the circuit. By an ingenious mechanical contrivance he was able to make these rays act upon a photographically sensitive film, producing a picture of the variations in the electric circuit. When this tube is connected with the selenium cell of the transmitter, in such a way that slight variations in its current affect the amount of electricity in the circuit of the receiver, an accurate reproduction of the light received is given by the light emitted. This apparatus has already given satisfactory reproductions of handwriting and photographs.—Collier's Weekly.

INDEPENDENCE DAY.

This is the hundred and twenty-eighth anniversary of the Declaration of Independence. It is the sixth occurrence of the natal day of the United States since the Hawaiian Islands became an integral part of the American Commonwealth, and the fourth on which the star spangled banner has floated over the group organized, by Act of Congress, under the Constitution as the Territory of Hawaii.

New as the holiday thus is in organic relationship to Hawaii, it was observed here by three generations of Americans before the flag became to them more than a memento of their mother country. As the destiny of the islands approached its culmination, with increasing numbers and influence of the American colony as well as immensely enhanced identity of Hawaii's material interests with the favor of the United States, the day assumed an importance and elaborateness of observance which made it surpass, both in gala features and popular enjoyment of all nationalities here, almost if not altogether any of the public holidays of the country that had no less than two independence days of its own. Americans themselves before annexation put more national eel and patriotic fire into Independence Day than they have since. There is a natural enough explanation for this apparent anomaly, which is not the one croaked on the corner by the calamity talker. It is the old story of the dwindling of enthusiasm when possession crowns pursuit. Illustrations of this psychic phenomenon are found in the comparison between the devotion of the lover and that of the husband which humorists have rendered trite, and in the defense the husband is reported to have offered when taxed for the seeming change. He cited the example of a man resting at ease in a car that he has put himself out of breath to overtake. There was no need for further exertion when the object was attained.

The explanation is, however, not an excuse for allowing the Fourth of July to lapse into perfunctory observance. There has been a change of viewpoint for the older American residents. Formerly they saw the light in the window far away. Now they are at home looking out of the window. While it is natural enough that they should feel like resting a little, they ought not to succumb altogether to the most restful climate under the flag. The patriotic duty they owe to their country should be a more lively impulse now since their country has come to them with its responsibilities of active citizenship. There is not a better medium than Independence Day, if properly used, for extending the sway and promoting the endurance of American principles. Such a service is most timely and appropriate now in the Hawaiian Islands, where American citizenship is a new-found privilege to a majority of the voting people.

In former observances of the Fourth of July in Honolulu, a good foundation was laid for a rationally educative utilization of the occasion now. Probably somewhat owing to the friendly sympathy of other nationalities, alien as well as native, in their national holiday keeping before annexation, there was a sparing degree of spreadeagledness in the celebration. The speeches took on more of a serious tone of discussion of the principles set forth in the Declaration of Independence, rather than working up feeling over the facts that gave rise to the document. A continuance of this mode of discursive patriotism is what the Territory needs. The people need to be instructed in minority rights as well as majority rule. They are to be told that the cause of the weak is strong and fated to triumph only as it is just, as well as that unrighteous tyranny is to be resisted without regard to the title of its author. The ward boss, the walking delegate, the official boodler, the political grafter, the moneyed oligarch—anybody in short who schemes to lord it over the people for his own profit or glorification—will fit the places in the Declaration where King George is mentioned, and more than that misguided English king will do orator and audience good to utilize today as the object of denunciation.

TRAFFIC.

"Trunk-Line Traffic and the Differential Rates to and from the Seaboard" is the title of a monograph just issued by the Department of Commerce and Labor through its Bureau of Statistics. It forms a part of the Monthly Summary of Commerce and Finance, and discusses the pending question of differential rates on the trunk lines between the seaboard and the great grain and stock producing interior of the United States.

The trunk-line railroads between the North Atlantic seaboard and the surplus grain States of the Central West have, it says, for fully a half century, been the chief agency in the distribu-

tion of the nation's surplus supply of breadstuffs. To these carriers, starting from different points on the sea and converging upon competitive points of assemblage of surplus food products in the interior, we owe more than to any other single agency the degree of commercial ascendancy now enjoyed by the United States in the world market. Their capacity to lay down regularly, month by month and year by year, cheap food supplies in European markets, by co-operation with ocean lines, has converted large portions of western Europe from agricultural to industrial communities. The transition of leading continental states from the agricultural regime prior to 1870 to the industrial and commercial order of the last twenty-five years coincides with the rise of the American grain trade in which the American trunk lines have so long been the ruling factor. Not only has the enormous economic expansion within the United States been made possible, but also the economic development of Europe has been forced into realization.

The problem of these highways has rarely been duly appreciated. The trunk-line problem is not a local problem, but pre-eminently a national problem. If considered from the standpoint of the domestic producer and the foreign consumer it may be stated as follows: Between the price of grain in western America and the world-market price in western Europe there is a variable difference to be divided between the distributive agencies, including traders, bankers, and transporters. The trader does his part of the work for a fixed rate of commission plus a speculative profit; the banker obtains a regular rate of discount, from which risk is practically eliminated by insurance; and the transporter tries to get the residual share, but is subject to the foresight of the trader and the banker, who are really the custodians of the commodity in store or on its way between producer and consumer. If the transporter holds his services too high for trader or banker to profit, the commodities await a higher price or a lower freight charge, and production is ultimately restricted. If the trader holds his services too high, the banker himself may find it to his advantage to utilize surplus credit in financing the movement of commodities. If the banker in turn exceeds the limit of reasonable charges, credit from elsewhere comes in to do the work. Such is the mobility both of capital and of business management within national limits that no representative of commercial service can for any considerable time make his own terms for his part in the annual distribution of any agricultural surplus.

The student of commercial charges in their relation to prices of foodstuffs finds that there is one governing tendency pervading the whole history of trunk-line operations, viz., that this difference between producers' price and consumers' cost tends in the long run to become a diminishing proportion per unit of the value of foodstuffs generally. In other words, the residual share, made up of the difference between what the producer gets and what the consumer pays, goes to commerce in its various functions, but that the portion to be divided up among traders, bankers, and carriers has been gradually pared down to a margin which probably ten years ago would have been regarded as ruinously unremunerative.

The problem has, from this point of view, a twofold character: First, whether as a question of general economic welfare it were better to inject a larger element of competition into trunk-line business, and thus for some lines, if not for all, diminish still further the residual portion which must be shared among the participants in trade; or whether, on the other hand, it were better to maintain conservative limitations on competition in the form of differential rates as a means of checking the downward tendency of commercial charges in general and of freight rates on foodstuffs in particular. Viewed from a strictly national standpoint these would seem to be the alternatives at issue.

For keeping at the advocacy of new industries constantly, the Maui News is fulfilling one of the most useful functions of a country paper. Maui and the whole group will be richer for it ten years hence, although Editor Robertson may have to take his reward out in the happy consciousness of duty performed.

Grim old Admiral Togo is attending to his part of the business all right. Almost every time the Port Arthur fleet attempts a dash at or past him, it loses seriously in effective strength.

How Oodfish are Caught.

Cod fishing is done with dories and trawls. The dories are flat bottomed, sloping-sided boats, which fit into one another in the ship's waist, economizing space thereby.

Each dory takes two men, and the whole crew, except the captain and the cook, go off in them every suitable day and set the trawls in the water outward from the ship like spokes from the hub of a wheel. Trawls are long lines, each with 3,000 hooks attached at intervals of a yard, every hook baited with some smaller fish, either herring, caplin or squid, that the cod affects. The trawls are anchored at each end,

baited in the day, left lying over night, and are stripped of their accumulation of fish next morning, being baited again when "overhauled."

The fish are taken to the vessel in the dories, eviscerated, washed and salted. This routine continues until the bait is exhausted and then the vessel returns home, lands the fish, takes more bait and salt, and goes out again. At St. Pierre her catch is taken in hand by the graviers and until the salt has been washed off. Then they scrub each fish with a hard, coarse brush, and pile them in heaps to drain. This done they are next spread on the benches to dry in the sunlight and air.

The beaches consist of several acres of flat ground covered with basalt stones worn round by the motion of the sea for ages.

These stony fields surround St. Pierre and thousands of cod are displayed there on a fine day. Every evening, or if fog or rain threatens, the fish are gathered up again and are covered with tarpaulins. The process is repeated until the fish are quite dry and hard. Dry fish are piled in round stacks, the rest in oblong ones. When a sufficient quantity to load a vessel is obtained it is packed into her hold and shipped to market. The extent of the cod-fishing of Miquelon and St. Pierre may be indicated by the record of the catch of those islands in 1902, which was 72,500,000 pounds.—Booklovers' Magazine.

Itching Skin

Distress by day and night—
That's the complaint of those who are so unfortunate as to be afflicted with eczema or salt rheum—and outward applications do not cure. They can't.

The source of the trouble is in the blood—make that pure and this scaling, burning, itching skin disease will disappear.

"I was taken with an itching on my arms which proved very disagreeable. I concluded it was salt rheum and bought a bottle of Hood's Sarsaparilla. In two days after I began taking it I felt better and it was not long before I was cured. Have never had any skin disease since." MRS. L. A. WARD, Cove Point, Md.

For the Skin

You cannot have a clear and smooth skin unless the blood is pure. Blotches, eruptions, rashes, pimples, all show how impure the blood must be. Get all impurities out of your blood before you are seriously ill.

Miss Dorothy Maher, of Fitzroy, Victoria, sends her photograph and this letter: "I had a terrible eruption on my face, which was of a very irritating nature. I tried many blood medicines, but without relief. Friends told me to try Ayer's Sarsaparilla, as it was a most famous blood remedy. I did so, and after taking only two bottles I began to see a great change. By the time the third bottle was used the eruption had entirely disappeared, and without leaving a mark on my face. I am perfectly well now, and I owe it all to this great blood-purifying remedy."

BARON KUROKI, COMMANDER-IN-CHIEF OF THE FIRST JAPANESE ARMY.

Baron Kuroki, commanding the First Japanese Army, is renowned as an organizer and as a fighter, qualities which he proved in the victory of Kiu-lien-cheng on May Day, and in the masterly movements by which he has isolated Port Arthur and rendered General Kuropatkin's position in Manchuria one of extreme difficulty. Kuroki saw service during the Chino-Japanese War in 1894. At first he superintended the mobilization; he then went to the front and was present at the storming of Wei-hai-Wei. The Japanese soldiers are devoted to their Commander-in-Chief, who, although sixty-two, has all the energy of a young man.

TRAVESTY STARS ON THE VERGE OF DISSOLUTION

From Australia word comes that the American Travesty Stars are still wrangling. The wrangling reached such a stage that on the last steamer which passed Honolulu from San Francisco for Sydney, William E. Mighell, president of the California Shipping Company, and financial banker of the Stars, was a passenger. He has gone to the Colonies to smooth over the difficulties. The Examiner of June 25 has the following account of the troubles:

Green-eyed jealousy came near breaking up the "American Travesty Stars," with which Kolb and Dill, Barney Bernard, Maude Amber and Winfield Blake, who used to be "The Happy Family" at Fischer's, sailed away two months ago for Honolulu and the Australian cities.

There was serious trouble at the American Island city, though the box office business was big, and the company survived its internal dissensions up to this time. Now the stars are in Sydney and they have made a hit there, but William E. Mighell, president of the California Shipping Co. and a rich shipowner who is financially backing the venture, has hurriedly started across the broad Pacific to keep the constellation intact.

The voyage to Honolulu was pleasant enough for the talent that enabled Fischer's to clear \$75,000 in two years. "Der scenery is perfectly disgusting," Dill wrote home. "Dot air on de ocean iss magnesta."

But when they got to Honolulu and saw how the town was billed, Barney Bernard and his fellow funny men got into the first of their long series of conflicts. The posters had been patriotically printed in three sections that were red, white and blue. "Kolb and Dill" flamed out in the red, but the name of Bernard was almost lost in the deep blue. Blake and Amber were conspicuous on the white.

Harry James, the manager, tried to pacify Barney and to convince him that there had been no intention to favor Kolb and Dill. "Refer in all my life haf I been so insulted!" declared the tall comedian.

"My, vat a lobster you are!" Dill retorted.

"Vat iss a lobster?" asked the holder of the poster's field of blue.

"A lobster iss a chentlemen," Kolb sarcastically explained.

"Sure I am a lobster," rejoined Bernard. "All my family vas lobsters."

Dill and Bernard grew still more belligerent, but Kolb stood between them.

"Mike, I ask you, please to stop," he pleaded.

"I don't care for something," was Dill's response. "I can't stop it."

"Dat iss der second insultid you owe me," said Kolb. "Be careless, Mike!"

"Don't you make any monkey-doodle pizness mit me, too," added Bernard.

ROW OVER ROOMS.

When this quarrel was ended satisfactorily, there was a still more serious row about the hotel accommodations with new charges of favoritism. Kolb said that Bernard had the best rooms outside of the queen's palace.

"How you get such preferences like dot?" Kolb demanded.

"Oh, I'm a lizard," the other scoffingly replied.

"That makes no neffermind," interposed Dill.

"Mike, for de last time I tell you be careless!"

Kolb towered above Bernard and was just about to say something emphatic when Harry James put in an appearance and again essayed the role of peacemaker. He insisted that Bernard had in no way been favored in the matter of hotel rooms, but Kolb would not accept that statement.

"I am not like you," said the tall comedian. "You are a piznessman but I am like de butter-scotch—I flicker from flower to flower. I resign, my chob. I have hadt enough."

"Enough is sufficient," commented Bernard.

The Honolulu engagement was begun on the night of May 13th. Winfield Blake and Maude Amber made the hit with the Island people.

Then Dill and Kolb and Barney Bernard had a common cause of grievance against the rest of the company, and once more the favoritism charge was passed up to Manager James.

KOLB WANTED TO QUIT.

Kolb said he was going to quit right there and then.

"I don't care," replied James, who was getting tired of the constant bickering and quarreling. "Quit if you want to."

However it may seem in the dialects from O'Farrell street, this situation was serious to the company, for it looked as though Kolb would be accompanied back to San Francisco by Dill and Bernard.

"We can get home," said Dill.

"Sure Mike!" coincided Kolb.

Harry Cashman was hired to take the Irish comedy part and James prepared to get along without Kolb, but the dispute with the latter was finally adusted. New troubles arose and these were so numerous that Cashman refused to go to Australia with the troupe, as he expected that it would break up very quickly.

Katherine Roberts followed Kolb's example and refused to go to the stage one evening, but the performance was carried through without her and the next day she concluded to stay with the stars.

So Manager James is having a hard time on the Pacific tour and Mr. Mighell is hurrying down to Sydney to see whether his financial venture will be profitable like the two years at Fischer's or whether it will be a "put in and take out" proposition such as was seen in Dill's bank on the O'Farrell street stage.

Saw What They Paid For.

Lars M. Rand's objections to Hearst as a candidate and his reasons therefor recall the time when Mr. Rand ran his famous show called "A Minneapolis Night." It was at the old Turner's hall on North Washington avenue. Some secret order or other, Odd Fellows, Turners or something, was having a fair, and among the attractions designed for the extraction of money from the thoughtless visitors was Lars Rand's "A Minneapolis Night." It was displayed in a room of which all the windows were boarded up and cracks stuffed with cotton. Not a ray of light was allowed to enter it. A large sign on the door said, "No Ladies Admitted," and they were not. Of course, every man in the gathering was crazy to get in and see what Lars' game was. Lars had dropped a few hints here and there that it was a "pretty warm" show.

When the fair was well under way and masculine curiosity at a fever heat, the management announced that but three or four men would be admitted at a time. It would cost them 10 cents each.

Get after him poured its wealth

into Mr. Rand's coffers, was admitted and came out laughing and shamefaced. They all refused to say anything but got out of sight as quickly as possible.

After about all the men for miles around had been frisked for their dimes and had been run through the show, it all came out. "A Minneapolis Night" was nothing but a dark room, the exhibit being a display of night merely.

And yet they say that men haven't any curiosity!—Minneapolis Times.

OAHU PRISON JOURNALISM

No. IV of Vol. 1 of the Oahu Prison Echo is out. It is written with a pen and contains on the first page, within elaborate scroll work, the Declaration of Independence. The leading editorial is on The Sweets of Liberty. On the third and fourth pages is an elaborate essay on The Criminal Problem. The paragraphs are good, as witness the following:

In the case of a turnkey's strike it is a little doubtful who would hold the key to the situation.

It is almost as hard for a rich man to get into jail as it is for him to gain the Kingdom of Heaven.

"Pardon me" is what the polite convict said when he ran into the Warden as he was passing through a corridor in the prison.

It is sincerely to be hoped that the bustle and worry of a Presidential campaign will not cause Secretary Hay to forget he has committed himself to the "Open Door" policy.

We seriously doubt whether Warden Henry is acquainted with the Declaration of Independence. He "governs" all right, but it's precious little he cares for the "consent of the governed."

We are inclined to believe that the Christian workers who labor among us have more joy in one prisoner who gets down on his knees than in several who get up on their ear.

CONNECTING DITCH DONE

Portion of Great Irrigation Plan.

Strong Front Presented By Republicans On Maui.

Burial of Worthy Citizen—Polo Challenge Accepted—Bad Drought.

MAUI, July 2.—On Friday the 15th, just one year after its inception, the ditch connecting the new Koolau ditch with the old Hamakua ditch was completed. If the Koolau waterway was finished, the mountain water of Nahiku and Keanae could now be used to irrigate the cane-fields of Paia and Hamakua. Because of unforeseen obstacles the Koolau ditch will probably not be fully constructed until September.

This connecting ditch, built by the Hamakua Ditch Extension Co. under the direction of Engineer George H. Baldwin, is five and one-half miles in length,—there being four miles of tunnels and one and one-half miles of open ditch. The four miles of tunnels which are mostly through solid rock of the hardest kind, cut out and save ten and one-half miles of ditch in the open. The Hamakua Ditch Extension Co. have been building two sections of waterway, the upper section being the connecting ditch already mentioned and the lower section which will be completed in about a year's time will lead the water upon some new lands.

Four thousand feet of the upper section (of ditch and tunnel) will be cemented during the summer. Seven hundred men, 150 mules and 50 bullocks have been engaged upon these two enterprises. The engineer in charge has begun already discharging laborers and will continue to do so as the work of construction is completed.

Engineer Geo. Baldwin, who by the way is a graduate of Stanford University, should be complimented upon the energy and resource displayed by him in completing so great and difficult an undertaking as the construction of the connecting ditch within the specified time, which was one year from July 1st, 1903.

W. E. BECKWITH'S FUNERAL.
At noon, June 27th, the funeral of William E. Beckwith of Kalaunui, who died at Puunene hospital during the afternoon of June 26th, took place at the Makawao cemetery. Rev. O. P. Emerson officiating. The services were largely attended and the display of flowers at the grave was most beautiful. The pall-bearers were: H. A. Baldwin, W. O. Aiken, F. F. Baldwin, James Lindsay, W. S. Nicoll and D. T. Fleming.

"Will Beckwith," as he was known among his friends, was a man of refinement, intelligence and character, possessing all the attributes of a good citizen. Springing from a New England family of farmers he naturally took a keen interest in sisal, pineapples and other agricultural experiments. Being man of sterling honesty, he always took a decided position in favor of the right and against the wrong on all questions. He did right because it was right, not because it was politic. He will be a great loss to the community in which he lived.

POLITICAL.
The election of officers by the different Republican precinct clubs of the island held during Saturday, June 25th, went off amicably as far as heard from.

At Uupalakuwa no meeting was convened owing to a misunderstanding, but one will be held later on.

In the Keanae precinct no meeting was held and no reason given for the neglect to do so, though it is stated the Nahiku section of the precinct will soon form a Republican club. It is stated that the Democrats have acquired considerable influence at Keanae.

At Lahaina, precinct 3, the largest number of Republicans within the history of the town turned out to vote for club officers, 134 members being present and voting. Ex-Judge J. W. Kalua was beaten by Rev. S. Kapu by a large majority.

The following officers were elected: President—S. Kapu, 95 votes. First Vice-President—H. B. Wilkins, 95 votes. Second Vice-President—W. Henning, 96 votes. Secretary—G. W. Keawehaku, 99 votes.

Assistant Secretary—Wm. Kaluakini, 96 votes. Treasurer—C. M. Scrimgeour, 104 votes. Judges of Election—H. Dickenson, 101 votes; E. Waihalo, 100 votes; and A. Blake, 96 votes.

Executive Committee—A. N. Hayselden, 99 votes; Philip Pali, 101 votes; I.

Ihiki, 101 votes; George Dunn, 92 votes; and C. R. Lindsay, 97 votes.

At Wailuku, precinct 6, the following officers were elected for the next two years:

President—A. N. Kepoikal. First Vice-President—Geo. Weight. Second Vice-President—W. F. Crockett.

Secretary—J. N. K. Keola. Assistant Secretary—W. J. Coelho. Treasurer—W. B. Scott. Judges of Election—W. A. McKay, Moses Kauhimahu, and M. P. Waiwaiolo.

Executive Committee—C. B. Wells, S. E. Kellinui, R. A. Wadsworth, Jno. Kealoha, and W. E. Bal.

In the Hana precinct quite an exciting voting contest took place, there being a tie-vote for president. W. P. Hala and J. K. Hanuna, each receiving 24 votes, and another tie for one of the judges of election, K. Kalama and Naimahopu each receiving the same number of votes. A second election for these two officials will be held tonight. The officers elected at the June 25th meeting were the following:

First Vice-President—J. K. Iosepa. Second Vice-President—M. H. Reuter. Secretary—H. Z. Kaipou. Treasurer—L. B. Kaumeheiwa.

Judges of Election—F. W. Wittrock and J. K. Iosepa. Executive Committee—W. P. Hala, John Kaleo, M. H. Reuter, G. O. Cooper and Jos. Kalama.

At a large meeting held in the Hamakuaopoko native church (10th precinct) the following were elected:

President—H. A. Baldwin. First Vice-President—John Kaluna. Second Vice-President—Manuel Da Ponte.

Secretary and Treasurer—T. M. Church. Assistant Secretary—Jas. Kauka.

Judges of Election—Jas. Gunn, John Kalino and Antone Feteira.

Executive Committee—D. C. Lindsay, S. E. Kalama, John Kalino, W. F. McConkey and J. Hapai Nui.

At a well-attended meeting at Makawao postoffice, precinct 9, the following were elected:

President—F. W. Hardy. First Vice-President—B. F. Manuanoa. Second Vice-President—Henry Kahlamoe.

Secretary—A. F. Tavares. Assistant Secretary—D. H. Aukai. Treasurer—George Copp.

Judges of Election—Charles Copp, Edgar Morton and D. K. Kapiloho. Executive Committee—David Morton, Ed. Forsyth, Edgar Morton, D. K. Kapiloho and P. Kalalani.

Judging by the interest exhibited at these elections the Republicans of Maui are more than holding their own in spite of the seeming defection at Keanae.

INDEPENDENCE DAY.

The celebration of the "Glorious Fourth" on Central Maui will be unusually elaborate and interesting this year. There will be good running and trotting race events at Spreckels' Park, Kahului, in the morning and an exciting baseball game between Punahou and All-Maui at Wells' Park, Waiuku, in the afternoon. Berger's band will play at both the races and the ball game and will also give a concert at Puunene in the evening. At Sunnyside, Paia, Makawao district people will give a large picnic at which sports and games will be an attraction, not forgetting a delicious lunch for which adequate arrangements have already been made. In the morning besides

"HAWAIIAN MILLIONAIRE" TURNS OUT TO BE CUBAN

The mystery of "W. H. Ellis, the Hawaiian Millionaire," who was reported recently in the Washington, (D. C.) papers as showing his gold in the most reckless fashion about the National Capitol, is solved. He is a Cuban, and a week ago, was given some notoriety through his connection with Kent L. Loomis, brother of the First Assistant Secretary of State, whose disappearance in England has caused the Scotland Yard detectives to institute a search for him.

The story of Loomis' disappearance and Ellis' connection with the matter is told in the following dispatch:

LONDON, June 24.—No light has been shed in London today on the mystery of the disappearance of Kent L. Loomis, brother of the American Assistant Secretary of State. Loomis' only friends in London are J. P. Hart and wife. They have not seen or heard of him. Only two passengers on the Kaiser Wilhelm II have been found who saw Loomis at Plymouth. They are P. F. Murphy and James Kilduff. They reiterate the declaration that Loomis was on the deck of the Kaiser when the tender left the slip at Plymouth. They declare he did not board the tender. Gustav Flam, a San Francisco passenger, now in Paris, declares that Loomis boarded the tender, but Murphy and Kilduff say to the contrary. Loomis' shipmates declare W. H. Ellis and Loomis were attentive to Marion and Bertha Ivell, New York singers, bound for Berlin.

Dispatches from Berlin state that the Ivell girls assert they did not see Loomis after the Kaiser Wilhelm II reached Plymouth, or Ellis after the Kaiser reached Cherbourg. Dispatches from Paris state that Ellis has Loomis' hold baggage, but not his hand luggage.

PARIS, June 24.—The statement that Loomis was bearing important papers to the American Ambassador here, General Porter, is denied. The fact is that Loomis was proceeding to Abyssinia to deliver to Emperor Menelik the recently signed commercial treaty between the United States and Abyssinia. It has now been arranged with William H. Ellis, who accompanied Loomis from New York, to proceed to Abyssinia with the treaty, which was in the baggage of Loomis and was brought here from Cherbourg.

Ellis has a dark skin, and is said to be a Cuban. He occupied a stateroom with Loomis and it is said they intended to proceed together to Abyssinia. When seen today, Ellis positively declined to make a statement relative to Loomis or his Abyssinian plans, and intimated that he was under official instructions to observe silence.

Ellis left for Marseilles today, where he will take the steamer Ocus tomorrow for Jibuti, whence he will proceed inland to the capital of Abyssinia. He will be gone about four months.

LOOMIS' FRIEND ANGRY.

PARKERSBURG, (W. Va.), June 24.—Mrs. Kent J. Loomis today received a letter from her husband, written after he had sailed on the Kaiser Wilhelm II. In it he stated that his brother, Assistant Secretary of State, had met him at the pier in New York and delivered the Abyssinian treaty to him. He mentioned that W. H. Ellis, of whose party Loomis was a member, was angry because he (Ellis) was not allowed to carry the treaty.

games for the children there will be a baseball contest, Puunene vs. Paia and Hamakuaopoko, and in the afternoon, polo, tennis and tilting for rings.

NOTES.

On Thursday, June 30th, one Englishman and twelve Portuguese were naturalized by Circuit Judge A. N. Kepoikal at Wailuku court house.

During the same day, at the same court, the matter of an injunction against the Maui Agricultural Co. stopping the digging of a ditch through the Miner premises was also brought up but was again postponed, this time for two weeks. D. H. Case appeared for the company and J. M. Vivas & H. E. Cooper for Miner.

Wednesday evening, June 29th, the Makawao Polo Club held a meeting at "Kalelonalo," the Paia beach-cottage of L. von Tempsky. It was decided to accept the challenge of the Kaula club to play them at Honolulu next September with all expenses guaranteed. Frank F. Baldwin was elected captain of the competing team with all power to choose the other three players. Though the quartet of players has not yet been officially announced still it is whispered that Maui will send an unusually strong four against Kaula. It is possible that Fred Baldwin, the captain of Yale's last year's polo team, will play for Makawao, as he is an old member of the club.

Tuesday, June 28th, the three-masted schooner O. N. Kellogg arrived in Kahului from Eureka with a cargo of lumber, principally redwood, for Kahului R. R. Co.

A Democratic club has been recently formed at Pauwela with Nelson K. Kalua as president.

Friday afternoon 36 ladies attended the Reading Club at Mrs. W. S. Nicoll's of Hamakuaopoko.

The steamer Arizonan arrived in Kahului this morning from Honolulu and after taking on board about 1200 tons of sugar will depart for Hilo tomorrow on her way to Delaware via Cape Horn.

Yesterday a party consisting of Mr. and Mrs. Edgar Wood of Honolulu, Mr. and Mrs. C. A. McDonald of Lahaina and others returned from a three-day trip to the crater of Haleakala and reported viewing the grandest of sights.

H. E. Cooper made a flying visit to Wailuku this week.

Miss Harriet Austin of Honolulu is the guest of Mrs. W. S. Nicoll of Hamakuaopoko.

Mrs. Fisher and Miss Fisher of Ewa are visiting Mrs. D. B. Murdoch of Paia.

Miss Thom of Hilo is being entertained by Miss Engle of Paia.

Mrs. Ella Austin of Wailuku has gone to the Coast for a year's visit.

Rev. O. P. Emerson preached in the Paia Foreign church last Sunday. Rev. Dr. Beckwith is fast recovering from his recent sickness.

Chas. W. Baldwin of Haiku and D. B. Murdoch of Paia left for Honolulu by this week's Mauna Loa.

Weather—The drought continues. Another month of this weather will ruin the corn crop.

MEN, I'LL CURE YOU!

Let any man who is weak, broken down, old and decrepit in physical weakness, full of pains and aches, gloomy, despondent and cheerless—any man who wants to be stronger and younger than he feels—let him come and tell me how he feels, and if I say that I can cure him I will forfeit \$1,000 if I fail. I don't want money that I don't earn. I don't need it, and am not after it. But I am after the dollars that are now going wrong in the quest of health. Look at all these poor wrecks of humanity that are spending all they earn on drugs—dope that is paralyzing their vital organs—that have spent all they have earned for years without gaining a pound's strength for the hundreds of dollars wasted. That is the money that I am after, because for every dollar I take I can give a thousand per cent interest. I have cured so many cases right here that I can prove my claims to you, but if that proof is not enough I'll give you the names of men right near you—where you are. Is that fair?

Most of the belts that I am selling now are to men who have been sent here by their friends whom I have cured. I think that is the best evidence that my business is a success from the standpoint of cures, as well as on the dollar side.

Just lately I have received letters of praise from these men: James P. Daniels, 709 Devisadero street, San Francisco. He was cured of a back trouble of 12 years' standing.

J. M. Gaskill, 220 Chestnut ave., Santa Cruz, Cal., who says I cured him of indigestion, constipation, nervousness and lumbago from which he had suffered 15 years.

Wherever you are, I think I can give you the name of a man in your town that I have cured. Just send me your address and let me try. This is my twenty-fourth year in the business of pumping new vim into wornout humanity and I've got cures in nearly every town on the map.

Write to me. I've got a nice book on men that I'll send sealed, free, if you inclose this ad.

DR. M. G. McLAUGHLIN, 906 Market St., San Francisco.

Historical Honolulu

OR A CENTURY OF HAWAIIAN EVOLUTION.

This valuable record of the most important events in the History of Honolulu for the past hundred years was compiled and published at great expense in 1899. Its historical and descriptive articles are by the very best recognized authorities on Island matters and are handed from absolutely impartial standpoints. It is finely illustrated and contains portraits and biographical sketches of the principal business and professional men of the Islands. This is a publication that no student of Hawaiian History can afford to be without. A limited number of copies still for sale by The Hawaiian Gazette Co., Ltd.

AUSTRALIA'S NEW PREMIER.

In a note upon Mr. Watson, the new Australian premier, the Outlook of London says: "A compositor by trade, he, like many of the craft in Australia, became a prominent trade union leader in Sydney some twelve years ago. He is still in the prime of life, a sober-minded, self-contained, determined man, one who recognizes clearly what he and his class want and what they believe they can achieve by constitutional means. He is deemed a quiet, reserved business man, with a certain talent for intrigue in the sense that he knows perfectly well how to drive a hard political bargain with a harassed ministry, and has never failed to insist upon its execution to the letter. On the other hand, even his political opponents acknowledge that he acts up to his promises."

LONDON'S CHAMPION BOOTBLACK.

Among the little known but keenly contested honors is that of being the champion bootblack of London. Since the title was created two years ago it has been held by W. Coutts, but recently at the annual competition at the headquarters of the Central (Reds) Shoeblock Society in Great Saffron hall, the honor was won by C. Smith, who for a year will have the right to wear a gold medal and bar. At a given signal the six competitors attacked the boots of six members of the committee, and the rapidity with which the transformation from dirty to clean was effected was marvelous. Lord Kinnaird, who was present, distributed prizes won.

WHAT CAUSES FIRES.

The annual losses by fire in the United States, which have averaged as high as \$100,000,000 a year at certain periods, were attributed during a single year to the following causes, the number of fires from each cause being given: Incendiarism, 1,927; defective flues, 1,309; sparks (not from locomotives), 715; matches, 636; explosions (of lamps, etc.), 430; stoves, 429; lightning, 369; spontaneous combustion, 326; prairie and forest fires, 280; lamp and lantern accidents (other than explosions), 238; locomotive sparks, 211; cigar stubs and pipes, 203; friction, 179; gas jets, 176; engines and boilers, 150; furnaces, 135, and from firecrackers, 105.

DUELING IN FRANCE.

It appears from a decision of the French courts that a man may fight a duel with pistols or swords, and if with fatal results there is no penalty. But if one cannot afford these weapons, and fights with humbler means, there is no such immunity. Two men of Charonne have been prosecuted in consequence of having fought a duel with knives. Both men were wounded, and it was admitted that everything had been done fairly and in order, and, though counsel for the defense pleaded eloquently for the application of the same law to his clients as is applied to duelists of higher social position, sentences of four months' imprisonment were passed.

War Booms His Trade.

The manager of a New York concern that deals in artificial limbs and such things is watching the outcome of the war in the Far East with more than ordinary interest.

"After the civil war," he said, "this house, which up to that time occupied cramped quarters, had to branch out in order to meet the demands upon its business. We noticed no increase in our trade growing out of the Spanish-American war. But we expect to open a house in Tokio, and maybe at Harbin and Mukden, after the war is over.

"It would be of no use doing so before. While the war lasts the hospitals will take care of the maimed. When it is over and the maimed survivors have gone to their homes and are returning to their vocations, then they will want what we shall have to offer. It is quite common to hear people talk about the great numbers of cripples in a city like New York, made so by the many accidents which occur daily. It is an erroneous impression. "My business is a barometer on such matters. In a purely business way we have occasion to complain of dull times. In proportion to the great crowds that daily come and go, taking into consideration the countless ways for accidents to occur, it is truly remarkable that we have no more cripples.

"Speaking from a commercial standpoint, concerns like the one I represent might be opposed to the Hague tribunal. The more wars, the better for us. Rather mercenary, is it not? But it's business."—New York Sun.

I immediately ran over to Dr. Baker's quarters and called him to attend the wounded man. Dr. Baker came on a run in his night-clothes followed by Captain Nichols, who had heard me call. Lieut. Garber, however, was practically dead when we came back.

"When Lieut. Garber and I came home I said good night to him but he did not answer. A minute before the shot was fired he asked me for a cigarette paper. I told him I did not have any."

Captain F. C. Nichols, senior officer in command at Camp McKinley, testified at the inquest that he heard Lieut. Trotter calling Dr. Baker and after inquiring about the matter he and Lieut. Trotter went on the run to Garber's quarters. He saw the officer lying on his back with blood running from his mouth and a wound in the back of his head. In the next fifteen minutes he gasped several times and then expired. The pistol was lying at the wounded man's feet with one cartridge discharged. The end of the barrel was covered with blood.

Dr. Chas. L. Baker testified that after being called by Lieut. Trotter he ran to the quarters of Lieut. Garber and at once saw that the young man had no chance to live. A first he could not find the wound of entrance but found the tongue black and powder stained. The wound of exit was directly in center of the back of the neck, and it was his opinion that the spinal cord was severed together with other important lacerations.

Besides the note above referred to, two checks with the ink hardly dry upon them were found near by. One was a check for \$130 made out to Lieut. Trotter, and the other was for \$63 in favor of the 92nd company, being company funds in the possession of the suicide.

At the camp there is no suggestion that the suicide concerned financial matters, for his affairs are reported to be in good shape. That the tragic end may have been sought through weakness for drink is the more probable motive. At the luau given near Moanalua the lieutenant became slightly overcome from the numerous healths proposed. Before the party was ready to return Lieut. Garber went to one of the wagonettes and lay down and slept.

It is significant that while at the luau he was greatly exercised over his failure to procure a cigarette. He asked a friend for a cigarette and a search was made for one. Tobacco was found, but no cigarette paper. Later an officer made up a cigarette for Lieut. Garber and this one he smoked. Just before he killed himself he asked for a cigarette from his tent-mate but the latter had none. His statement concerning his utter failure to stop drinking possibly made the failure to get a cigarette a sensitive matter to him, and it is believed that had he procured a cigarette and smoked it, his nerves might have been calmed down. On the contrary, not obtaining a cigarette, he seems to have made up his mind at self-destruction and hastily written out the two checks and the explanatory note, and then fired the fatal shot.

Lieutenant Garber was commissioned from civil life, and formerly had been in the customs service. He was about twenty-eight years of age, a good-looking officer, and was considerable of a favorite among his brother officers and the new friends he had made here. He was a particularly bright young man, quick in reply and a good conversationalist. It is said that he was engaged

to be married next year in June to a young lady at his former home.

Lieutenant Wesley K. Hamilton will now command the 92nd company.

A strange fate seems to be following the two companies which arrived here but a couple of months ago from the Presidio. Just before the companies sailed for Honolulu, Lieut. Victor Lewis suddenly deserted and disappeared.

SERMON ON JAPAN POSTPONED A WEEK

At Central Union church yesterday, the morning sermon delivered by Rev. D. Scudder, D.D., was from Mark 4:11: "Unto You This Mystery." The preacher dwelt much upon the great influence of Christ and the mystery of the origin of his power and influence. There was a large congregation, in whose presence the following became members of the church: Mr. Frank L. Hadley, Miss Kathryn C. McLeod, Prof. d'Albert, Mrs. d'Albert, Miss Lena Boyd, Alan J. Lowrey, Mr. H. W. Rietow, Mrs. Aida Sammons, Mr. J. W. Springston and Mrs. C. D. Springston.

The evening sermon was to have been by Rev. Frank S. Scudder of Nagano, Japan, but was postponed until next Sunday morning in the interest of having a larger audience. On account of the delay in the sailing of the Korea, in which Mr. Scudder returns to Japan, this change was possible. The sermon for next Sunday morning will be on "The Religious Problem in Japan."

The evening message was given by Rev. D. Scudder on "A Christian's Ideal." The offertory solo was sung by Lot Kaulukou and his rich, magnificent baritone was heard to excellent effect in "Dream of Paradise" by Hamilton Grey. The choir sang "Hark, Hark, My Soul," Miss Gertrude Hall leading.

To Make Paper From Peat.

Various experiments have been carried out by scientists to test to what uses other than fuel the peat of the Irish bogs could be applied with profit. At last something practical has resulted and bids fair to form the beginning of the great Irish industry. It has been discovered that from peat, scientifically treated, excellent paper can be made. As a result of this discovery mills for the manufacture of paper from peat have been established in the little town of Celbridge, outside Dublin. In other countries, notably in Scandinavia, wood pulp is largely used in the manufacture of paper, but peat has never before been used for that purpose, and these Irish mills are the only ones of their kind in Europe. Huge tanks are filled with the spongy peat, which, being mixed with certain chemicals, is then boiled. It next goes through the process known as scarifying, by means of which the peat is teased and torn. From this it passes into the beating machine, where it is quickly transformed into pulp. From this pulp the paper is made, and then glazed and cut into lengths. The paper is said to be of excellent quality, and, although the higher grades of writing and printing paper have not yet been attempted, it will be possible to turn out this class of work, also. The process of manufacture requires only twenty-four hours from the time the raw material is put into the tanks until the paper is taken from machines. These new mills stand on the banks of the river Liffey, whose waters supply the motive power for the electrical machinery by which they are driven.—Pittsburg Dispatch.

THE NEW FRENCH REMEDY.

THERAPION. This successful remedy, used in the Continental Hospitals by Alford, Coates, Jokers, Yelpeo, and others, combined all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. **THERAPION NO. 1** maintains the world-renowned and well-merited reputation for drainage of the kidneys, pains in the back, and kindred ailments, affording prompt relief where other well-tried remedies have been powerless. **THERAPION NO. 2** for impurity of the blood, scurfy, pimples, spots, blotches, pains and swelling of joints, gout, rheumatism, & all diseases for which it has been too much a fashion to employ mercury, arsenic, etc., to the destruction of sufferers' souls and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body. **THERAPION NO. 3** for exhaustion, sleeplessness, and all distressing consequences of dissipation, worry, overwork, &c. It possesses surprising power in restoring strength and vigor to those suffering from the enervating influence of long residence in hot, unhealthy climates. **THERAPION** is sold by the principal Chemists and Mercantile throughout the world. Price in England, 2s. 6d. and 4s. 6d. In ordering state which of the three numbers is required, and observe that the word "THERAPION" appears on the British Government Stamp (in white letters on a red ground) affixed to every genuine package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

PAST WEEK'S EVENTS IN AND ABOUT HILO

Republican Precinct Elections—Exciting Tennis Match—Hawaiian Tobacco Experiment—Japanese Marriage Decision—Personal.

The election of officers and committees of the precincts held last Friday night at Hilo and Waiakea were not particularly exciting. At Waiakea there was something of a contest but it did not amount to much. In the fourth precinct there was practically no opposition and some of the candidates took so little interest in the election that they did not attend. Following is the list of elected officers:

Third Precinct—President, James D. Lewis; 1st vice-president, W. F. J. Dale, 2nd vice-president, Kallikane; treasurer, W. H. Lambert; secretary, G. F. Affonso; assistant secretary, Albert Naeole.

Executive Committee—J. McGuire, O. W. Rose, D. Spaulding, M. de F. Spino-la, E. N. Voeller.

Judges of Election—M. K. Kealawaa, C. Alden, H. B. Nalimu.

Fourth Precinct—President, I. E. Ray; 1st vice-president, Chas. Akau; 2nd vice-president, W. A. Todd, Sr.; treasurer, Geo. N. Day; secretary, R. A. Lyman, Jr.; assistant secretary, Chas. Siemensen.

Executive Committee—T. M. Rowland, J. K. Kai, Jr., W. Nalimu, M. J. de Gouvea, B. F. Shoen.

Judges of Election—C. H. W. Hitchcock, M. S. Pacheco, W. Harbottle.—Hawaii Herald.

SAINT JOSEPH'S SCHOOL.

The closing exercises at St. Joseph's school for girls drew an audience that tested the capacity of the hall and the entertainment was one that reflected great credit upon the teachers and pupils. Those in Sister Ephraim's music class showed the result of careful training in every measure. These pupils are thoroughly taught the rudiments of music first and they are obliged to read their compositions before they are permitted to play them on the piano. The class pieces were really excellent and provided a great deal of merriment among the audience. Particularly was this the case with the skit called the "cooking school," in which eight young misses took part. The recitations were quite up to the standard of the school and caused much favorable comment.—Hawaii Herald.

GOOD TENNIS FINALS.

The finals in the gentlemen's doubles were scheduled for 3 p. m. Saturday afternoon, June 25. Balding Bros. vs. Hapal and Madeira. Play began at

YOU WILL NOT

be deceived. That there are cheats and frauds in plenty everybody knows; but it is seldom or never that any large business house is guilty of them, no matter what line of trade it follows. There can be no permanent success of any kind based on dishonesty or deception. There never was, and never will be. The men who try that are simply fools and soon come to grief, as they deserve. Now many persons are, nevertheless, afraid to buy certain advertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The effective modern remedy known as **WAMPOLE'S PREPARATION** is as safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least; and it is not necessary. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicinal agents must be is plain to everybody. It is beyond price in Insomnia, Anemia, Weakness and lack of Nervous Tone, Poor Digestion, Lung Troubles and Blood Impurities. Science can furnish nothing better—perhaps nothing so good. Dr. W. H. Dalfe, of Canada, says: "I have used it in my practice and take pleasure in recommending it as a valuable tonic and reconstructive." It is a remedy that can afford to appeal to its record and represents the science and knowledge of bright and aggressive medical investigation. "One bottle convinces." At chemists.

3:30 p. m. before a crowd of interested spectators.

The first set was won easily by Hapal and Madeira, 6-1, and then the players all settled down to good steady playing. The balance of the match was very even, it looking as though the full five sets would have to be played. The fourth and last set stood 5 to 3 in favor of Hapal and Madeira, when by dint of hard playing, the Baldings won three straight games, making it 6 to 5, which was immediately made 6 All. From then on the set continued deuce until finally won out by Hapal and Madeira at 12 to 10, the record set of the tournament. Following was the score of sets: 6-1, 6-4, 4-6, 12-10.

This makes Hapal and Madeira the winners of this year's club tournament, and as Prouty is not here to defend last year's championship with Halding, it will go by default to Hapal and Madeira.—Hawaii Herald.

EVENTS ON FOURTH.

The sports committee for the Fourth have prepared a program of 16 popular sports, including races for every age and sex, climbing grassed pole, catching grassed pig, eating suspended bun, sugar eating, etc. The judges are J. U. Smith, W. S. Terry and P. C. Beamer.

The dance committee for the ball on July Fourth is Sheffield Grace, M. J. Santos, J. Aug. Humburg and T. C. Ridgway, and these gentlemen have selected the following ladies to be patronesses: Mrs. John A. Scott, Mrs. Charles Furneaux, Mrs. Philip Peck, Mrs. John T. Moir, Mrs. Frank B. McStocker, Mrs. G. W. A. Hapal and Mrs. N. C. Willfong. The floor committee will be Messrs. Geo. N. Day, W. S. McLean and A. H. Jackson. The committee has had a pavilion built on the hotel grounds and in the morning the literary exercises will be held there and at night the ball.

VOLCANO WATER TROUBLE.

Prior to Judge Little's retirement from the bench Cecil Brown brought suit against H. L. Williams, his former partner in the Volcano Water Co., for a dissolution of partnership and an accounting. Dr. Holland was appointed temporary receiver and took charge of the property. Judge Parsons on Wednesday filed a decree dismissing plaintiff's bill and dismissing the receiver. This action was on a technicality and the case will be appealed to the Supreme Court. Wise and Ross for defendant and Ridgway and Ridgway for plaintiff. Dr. Holland went to Puna on Wednesday and restored the property to Mr. Williams.

HAWAII TOBACCO A SUCCESS.

Frank E. Conter, the Government expert in charge of the tobacco experiment on the Louisson Bros. plantation at Paauilo, leaves today for Honolulu, having finished his investigations. He is satisfied that a fine grade of Sumatra wrapper tobacco can be successfully raised in the Islands, success or failure depending upon conditions of soil, location, protection from winds and moisture. One acre of land was generously donated by Louisson Bros. for study of the possibilities of this valuable product, and the results shown are highly gratifying to Mr. Conter, who will later prepare a bulletin on the subject under the direction of the Hawaii Experimental Station.

ROAD BUILDING ACTIVE.

The newly appointed members of the Hilo Road Board had their first meeting Wednesday morning at 10 o'clock in the office of Road Engineer Gere. The new Board consists of John T. Moir, chairman, Geo. Ross and C. E. Wright members. Mr. E. E. Richards has been retained as agent and the custodian of the funds. Matters of road and bridge improvements were discussed, and authorizations made for the expenditure of \$35,900 in Hilo and vicinity, besides general repairs which average \$1,000 a month. Much of the work has already commenced and that for which provision has been made, will be begun without delay. \$700 has been expended on Riverside Park bridge, which has been gradually falling to decay. Contractor Carter has put in new flooring for the roadway and a new coat of paint gives the structure a more presentable appearance. Two new wooden bridges have been provided for, one costing \$2,000 at Kaiete and another costing \$2,500 at Waiaama. Both bridges are in the vicinity of Paupaku and are well known wrecks along this well traveled thoroughfare. Two new culverts are authorized, one at Makea gulch near Pepeekeo costing \$3500 and another at Puapaku, near Paupaku at a cost of \$1200.

The homesteaders in Kaumana are to have their wish gratified, and \$10,000 will be expended under the direction of the Road Board for the Kaumana homestead road, including the Macfarlane cross-road. One of the most important authorizations is \$16,000 for the new Hilo jail. This is one of the items under the loan bill and the necessity for which has been apparent for some time. The location has not been determined upon, but as Supt. Holloway is understood to be opposed to a change of site, the new jail will probably be built in the corner of the present grounds. It will be constructed of stone and masonry and supersede the ugly structure now occupying the jail premises.—Hilo Tribune.

HAPAI'S DECISION.

District Magistrate Hapai rendered an important decision last week in which he held that a Japanese marriage unproven is not valid in Hawaii.

Nakaji Umi, a Japanese woman, was married according to the laws of Japan, rearing a family of children. After living with her husband a space, she remarried in Hawaii in accordance with the laws of Hawaii. Her first husband brought the charge of bigamy and Judge Hapai decided that the evidence of witnesses present at the marriage feast was not proof of the wedding ceremony, and although the parties may subsequently have lived in wedlock a second marriage in Hawaii was not bigamous. The woman was discharged.—Hilo Tribune.

PERSONAL, ETC.

Axtell and Hendrick are both in Hilo on business.

According to the recommendations of the Republican committees, J. Nelson and Jos. Pritchard have been appointed rangers for the first and second land districts respectively.

Miss Amy Hill, who has just graduated with honors at Oahu College, having been valedictorian of her class, returned to Hilo on Wednesday.

Rev. W. D. Westervelt of Honolulu will remain in Hilo, Olaa and vicinity for a fortnight, and will give a stereopticon lecture at the Waiakea Mission.

Misses Emma and Rebecca Bohnerberg returned on Wednesday for their summer vacation, after attending the Honolulu High School.

Supt. of Public Works Holloway is waiting to hear from the Hilo Board of Trade on the proposed location of the Hilo jail, construction of which is ready to proceed.

Mr. and Mrs. R. C. Kennedy arrived by the Kinau Wednesday and have taken up their home at Kennedy residence at Waiakea.

Mr. and Mrs. E. N. Holmes gave a euchre party in honor of Miss Fannie Greenfield at their home in Puueo. Miss Greenfield will shortly leave for an extended visit to England.

The wife of Mike Lehuanui, the hack driver, who was shot twice by her husband, has left the hospital and suffers no discomfort from the bullet now encysted in the fleshy part of her back.

Miss Juanita K. Beckley, daughter of "Admiral Mooheau," is the center of a jolly party arriving by the Kinau, consisting of Mrs. Wm. P. Lewis, Mrs. Wagner and "Toots" Cunha. They will attend the races and other features of the Fourth of July celebration and possibly take a trip to the Volcano.

Miss Stephanie Guard graduated on June 17 from the Oahu High School, and one of the pleasant features of the occasion was the compliment she received by the singing of "Aloha Oe" by the class to their schoolmate about to depart for Hawaii.

Louis Shoen returned to Hilo on the Enterprise. After visiting his daughter in Spokane he visited the St. Louis fair, thence going to Chicago, which city he had not seen for fifty years.

Mr. and Mrs. C. C. Kennedy will leave on the Kinau en route to the old home of Mr. Kennedy in Scotland. Before embarking at New York they will probably visit the exposition at St. Louis.

Until recently the average attendance at the dispensary at Waiakea Mission has been eighteen a day. With changes in the mode of living has come an improvement in the condition of the people in that section from a health standpoint.

Tommy Todd, who lived here with his parents up to a year ago, joined the U. S. Navy in Honolulu and went to Manila in the Solace. He enlisted for four years as an electrician.

The Haleiwa Limited.

In addition to the regular Sunday service, commencing Sunday, June 12th, and every Sunday thereafter during the months of June, July and August, THE HALEIWA LIMITED will leave Honolulu at 8:22 a. m. Returning will leave Haleiwa at 8:10 p. m. The running time will be two hours and this train will stop only at Pearl City and Waianae. None but first class tickets will be accepted. Round trip tickets, \$2.00. Seats in Parlor Car, 50 cents extra each way.

Lunch and dinner may be obtained at the Haleiwa Hotel and golf, tennis, croquet, billiards, driving, ocean and fresh water bathing and other recreations indulged in both morning and afternoon.

Vigorous Old Age

Faine's Celery Compound makes the old feel young, and cures their ills. It has added years of health and enjoyment to many a life. Use this great medicine regularly, and its invigorating powers will fill your declining years with health, strength, and happiness. Read what George F. Morse, 67 years old, writes:—
WELLS & RICHARDSON CO.,
Gentlemen:—Just a word in favor of Faine's Celery Compound, hoping it may catch the eye of some afflicted person, and they may receive the same satisfactory benefit. Some 15 years ago I had a combination of malaria, chills and fever, and grip, which continued for a year or more; meantime I lost in weight about 60 pounds, trying different medicines and doctors with unsatisfactory results. Faine's Celery Compound was recommended, and, after using a little I began to improve, gaining about a pound a week. In a year I had regained 50 pounds of the lost weight and good health, and have been a well man ever since. Yours truly, GEORGE F. MORSE.

SMALL BOYS TOLD POLICE OF ROBBERY

Four small newsboys reported at the police station early Sunday morning that the Silva Grocery Store, corner King street and Beckley Road, Kalihi, had been broken into. The police investigated and found that entrance to the store had been effected by the removal of a small pane of glass. The store had been ransacked but as the proprietor left no coin in the till the robbers secured no booty. As a man could not have effected an entrance through the hole made by the removal of one pane of glass the police are of the opinion that the four boys who reported the robbery may have been the ones who broke into the store.

Japanese Appreciation.

The Weekly Hawaii Shinpo says: "The United States government seems to be showing a very friendly disposition in the matter of the Japanese poachers rescued on Lisianski island. If there are any laws which the American government enforces with rigid severity it is those relating to the customs and immigration. Yet both have been more or less ignored in the case in question. The Japanese have been allowed to land here without much question, and now it is announced that the federal government will not enforce its right to confiscate the valuable skins which the Japanese were forced to abandon, but will allow Japanese to take them away. This has the appearance of a very friendly act."

Christian Endeavor Officers.

The following are the names of the officers of the Christian Endeavor Society of Central Union church for the next six months: Messrs. Lyle A. Dickey, Spencer Bowen, Dutot, Morris, Law, and Misses Gillman, Davis, Maria Forbes, Winter, Halsey, Paty and Gertrude Hall.

The report from the Queen's Hospital regarding the condition of Ulysses Harris, the negro who was shot in the Pantheon Saloon on Thursday evening, is favorable.

Capt. T. K. Clarke and family take this opportunity to express to their many friends their heartfelt gratitude for the many kindnesses shown them during their late bereavement.

Yesterday morning at 10 o'clock, Rev. Frank Scudder, who is passing through to Japan, delivered an address in the Rapid Transit club house on "Casting Out Evil," before about twenty young men.

There is a rubber tree at Hana plantation eight or nine years old, which is 15 inches in diameter and has branches 40 feet long. Specimens of Maui rubber are to be sent to experts for testing.

Dr. T. C. Thornicroft and Dr. R. S. Wilder, prominent physicians of Japan, on a long tour to the United States and Europe, via Australia, arrived by the steamer Aorangi last week from Sydney. Dr. Thornicroft, it is said, has resided over 30 years in Kobe, Japan. The visitors are registered at the Royal Hawaiian Hotel, and will probably continue their journey by the Alameda or Mongolia for San Francisco.

A Democratic mass meeting will be held on Friday evening next at Emma square, under the auspices of the Democratic club of the 4th precinct, 4th district. It is calculated the presidential nominations will have been made by then, so that the meeting will take on a ratification cast. Among a host of expected orators, Frank Harvey, H. Mossman, E. M. Watson, W. F. Erving, Harry Swinton and P. O'Sullivan are mentioned.

Mrs. J. Haig Mackenzie and her young son Murray of Kohala were among the guests registered at the Hawaiian Hotel Saturday. They will remain a few weeks in the city. Mrs. Mackenzie is a daughter of Dr. Wight of Kohala whose family is one of the best known and most respected of the families living in that district. Other arrivals by the Kinau at the hotel were A. McPherson of Forfar, Scotland; R. P. Scale and wife of Pahala, and M. V. Holmes of Honokaa.

May Fit Elsewhere.

Ring the curfew. Nothing is more demoralizing to young boys than to have them roaming around the streets of Walluku at night. Every night noisy groups of them may be seen on every prominent street corner. It is in the first place the duty of parents to keep their boys off the streets at night. Where they fall to do so, Sheriff Baldwin would do a wise and good thing to instruct the police to keep the boys off the streets after eight o'clock. Ring the curfew bell at eight o'clock, and then every boy who is found on the street without good cause should be rounded up by the police.—Maui News.

Pepper for Profit.

Now comes pepper. Everybody on Maui knows that pepper is indigenous to our soil, but so far its commercial possibilities have been neglected. Good pepper is worth from ten to eighteen cents a pound, and there is always a good market for it. The pepper plant, once set out, lives indefinitely with but a small amount of moisture. Fifteen hundred healthy plants will grow per acre, and will yield at least two pounds of pepper per year, without cultivation, or other labor save harvesting the crop. This opens up a new industry for Maui.—Maui News.

"The One-Eyed Man is King"

One-Eyed and No-Eyed

In the realm of the blind the one-eyed man is king. But for the sake of good sight, appearance and comfort, it is wise to use every means to preserve both eyes, for everyone will prefer to remain a subject in the land of the two-eyed.

Most eye ailments have their origin in eye abuse and neglect. Proper glasses, when nature demands help, may save your eyes and much regret.
