EX-QUEEN MAY BE DEAD

STARTLING REPORT COMES FROM VANCOUVER.

Lillooeklani Said to Have Passed Away at New York Immediately Following an Operation.

Passengers by the Miowera bring a report of the death of Lillooeklani in New York on June 1.

Natives all over the city have the report and it has been the theme of their discussions today.

There are no means of verifying the report here. No one in town received any information concerning it. The rumor as brought by the Miowera, which is here given for what it is worth, is as follows:

Lillooeklani left Washington for New York to have an operation performed for cancer. Just before the Miowera sailed from Victoria a press dispatch arrived from Washington stating that she was dead.

The rumor seems to be current among the Miowera's passengers. They state that the story was current in Victoria and were surprised that it had not reached here in a substantial shape. Inquiry at Washington Place and Honolulu, revealed nothing. None of the relatives or friends of the ex-queen had heard anything.

It is feared generally, however, that the story is correct. The report of an operation seems to lend color to it, for the reason that it is generally understood that Lillooeklani was really about to undergo treatment of that kind.

J. O. Carter received no word by the Miowera concerning the matter, and expressed himself as feeling sure that if Lillooeklani had died Joseph Heleluhe, who is with her, would have wired him. At the same time he admitted the possibility of his not having opportunity to do it, the time being so limited.

The last letter Mr. Carter received from Lillooeklani was by the Australia that letter was written from Washington and in it she said her health was excellent and that she did not expect to leave Washington this summer. In all her late letters she has spoken of the excellence of her health.

SEWERAGE CONTRACTS LET

ONE TO HONOLULU AND ONE TO SAN FRANCISCO.

Bids are Wide Apart and the Case is One in Which a Low Man Got Left. Other Cabinet Matters.

Contracts were awarded by the Cabinet today for the construction of the sewerage system of Honolulu. Wilson & Whitehouse got the contract for the outfall part of the work, or the section between the pumping station and the sea, for \$25,500. The contract for the city work was let to Vincent & Belcher for \$69,929 50. The appropriation for this work is \$257,000. Following were the bids:

Wilson & Whitehouse, outfall, \$25,500; Wilson & Whitehouse, town work, \$149,448 50; W. J. Smith and Amos S. Blake, outfall, \$40,000; same, city, \$89,705; Vincent & Belcher, outfall, \$66,250; same, city, \$67,929 50; R. C. Mattingly, outfall, \$15,910; same, city, \$32,432 50.

Wilson & Whitehouse agree to finish the work between July 1, 1899 and July, 1900; Schmidt and Blake, in 200 days; Vincent & Belcher, between August 1, 1899 and July 1, 1900; Mattingly, in seven months.

Applications for articles of incorporation of the Merchant's Stevedores Association and Hawaiian Dry Goods Association were referred to the Attorney-General.

An amendment to the rules in the Auditor's department was adopted and will be published later. Applications were received from the California Feed Company and from A. P. Cooke for a lease of the old Custom house building near Queen and Nuuanu streets. The company mentioned now occupies the place but its lease has expired. Applications referred to the Survey department.

A HAND MASHED.

A workman named Sheldon had a hand quite badly mashed at the Makiki pumping station this morning. He accidentally got it caught in the machinery. Though the wound is severe, the hand will not have to be amputated.

GOING TO LOS ANGELES.

Inspector General Townsend will sail by the steamer on the 23 for Los Angeles to attend the national conference of educators. Four teachers have been booked by the same steamer. There will likely be a dozen from Honolulu and nearly or quite as many from the other islands.

ANOTHER DARKEY SHOW.

There will be another "nigger" show at the opera house this afternoon, beginning at 3 o'clock. Mr. Curtis (Samuel of Posen) aggregation of forty-two darkeys is here, passing through on the way to Australia. All the players are genuine Southern negroes. There are a dozen girls in the party. A band of negro boys in gray cadet uniform accompanies the outfit.

A full program will be put on. The company will resume the voyage to Australia at 10 o'clock tonight.

HITCHCOCK'S RESIGNATION.

Deputy Marshal H. R. Hitchcock has tendered his resignation to Marshal Brown, to take effect August 1. The same will be accepted and Deputy Marshal Chillingworth will be promoted to the vacancy created. Mr. Hitchcock will return to his estate on Molokai to reside in future. He has held the office of deputy marshal four years.

A NARROW ESCAPE.

Shark Gets After One of the Grant's Soldiers.

While the transport Grant was at anchor outside waiting for belated soldiers, one who was not belated but was bibulous jumped overboard and began swimming around. Sharks had been seen near the vessel and there was consternation aboard. Every body shouted to him to come aboard. Two or three boats that were waiting near by started toward him. But before they could reach him he had swum to the gang plank, but none too soon for a shark was seen not ten yards away.

MARCHAND, THE NEW HERO KAHAIKI IS

MAKES A SPEECH THAT ALARMS THE GOVERNMENT.

Reproaches the Republic for Evacuating Fashoda—Praises the non-Commissioned Officers.

PARIS, June 1.—A great concourse of people assembled at the railway station today to welcome Major Marchand. At 9:10 a. m. a tremendous shout announced that Major Marchand had arrived. A carriage, literally covered with flowers and tri-colored flags, conveyed the major to the Ministry of Marine, where lunch was given in his honor. Delirious enthusiasm attended every step of Marchand's progress. The crowd, in spite of the efforts of the police, broke into the procession, cut off Marchand's carriage from the others and surrounded it, cheering and waving hats. Several generals and admirals were among the guests at the lunch served to Marchand and his companions. The explorers will be received by President Loubet this afternoon.

CHICAGO, June 1.—A special cable to the Tribune from Paris says Major Marchand's speech at Toulon has fallen like a bomb. Marchand's previous attitude and frequent representations of loyalty to the Government gave no indications of his intention to lash the Government for the evacuation of Fashoda. The speech is regarded as seditious.

Here is the incriminating phrase spoken in reference to the evacuation of Fashoda: "Seeing what a state of division our country is in over an affair of which I need not speak, we comprehend that France could not make a supreme effort. We felt that our country could not make a proud energetic reply. The history of the world has taught her that peace was the instant question. Happily peace was maintained, but I believe I can say that of that sort of peace there had better not be too much in France in the same country."

As a result of Marchand's speech a group of city councilmen today asked that plans for a grand reception to Marchand at the hotel de Ville be countermanded. The prefect of police has forbidden anyone inside the station to meet the hero save Government officials, who must be provided with special permits.

Marchand is regarded by the emotional people as a victim of parliamentary republicanism, and doubtless he thinks so himself. He is to meet with unusual honors today at the Ministry of Marine. Marchand made two speeches at Toulon. They were short and to the point. They had the ring of sincerity, and will enhance his popularity. One will make him the ideal of the non-commissioned officers, he having, in justice to those of his mission, paid a tribute of admiration that must gratify the whole class.

EVANGELICAL ASSOCIATION.

Another Commencement This Morning and an Election Tonight.

The closing exercises of the North Pacific Institute were held in Kawaiahaoh church this morning. In the absence of Dr. Hyde, Rev. J. Leaningham had charge of the program. The examinations were held in the presence of delegates to the Evangelical association. At 7 o'clock this evening officers of the Evangelical association and also of the Hawaiian Board will be elected. This meeting will be held in Kawaiahaoh church.

The ladies' annual tea party was held in Central Union church parlors yesterday afternoon. Following the tea there were several addresses and a music program.

COOKING SCHOOL.

Mrs. Dole has been requested by the ladies to call a meeting for the purpose of establishing a cooking school for Chinese and Japanese. The meeting is called for Friday, June 16 at 9:30 a. m. at the Y. M. C. A. hall. It is hoped that all ladies interested will make an effort to attend.

THE DREYFUS CASE.

PARIS, June 1.—The Court of Cassation at noon today resumed the hearing of arguments in the Dreyfus case. The same audience as on previous days of the hearings was present, but the rest of the Palace of Justice was deserted. Maitre Mornard, counsel for Madame Dreyfus, resumed his speech.

Upon conclusion of the speech, the President of the Court announced that sentence would be delivered at one of the approaching sessions of the Court. It is generally surmised that this means that sentence will be delivered on Saturday at the opening of the sitting of the court.

GARONNE IN PILIKIA.

VANCOUVER, June 1.—The S. S. Garonne's engines refused to reply when she was landing this afternoon at Evans, Coleman & Evans' wharf and shed. Several thousand dollars damage was done to the wharf, but the vessel is practically undamaged.

MORE OF THEM USED.

There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Bergeron, agent, Bethel street.

SELECTED U.S. PRACTICAL PROPOSAL

OUR DELEGATES FILE THEIR RESOLUTIONS.

Arbitration Committee Regard Scheme With Favor, But the Main Work of Commission Doomed to Failure.

THE HAGUE, June 1.—The United States project for an international arbitration tribunal was accompanied by a memorandum, entitled "Memorandum from the Commissioners of the United States submitted with their project for a permanent international tribunal." The text of the memorandum is as follows:

"The proposal herewith submitted takes its form as a resolution looking to action outside of the conference from our instructions. The proposals show the earnest desire of the President of the United States for a permanent international tribunal for the conduct of arbitration between nations and the willingness of the President to aid in the establishment of such a tribunal upon the general lines indicated. The Commissioners from the United States are ready without insisting upon the form of their own resolutions, to try to develop the proposals hereafter submitted to the conference, so that they shall embody what is essential in this plan. It seems to the United States Commissioners that it ought not to be difficult to associate with the several proposals as they may eventually be developed for mediation in various form of international inquiry and arbitration by special arrangement, a plan for a permanent tribunal of arbitration which will embody what is essential in the American resolution."

RENOVATED WEDDING CAKE.

Everything Chosen But the Bride; She Comes Next.

A correspondent of the Fiji Times writing from Tonga, May 8, says: A matter in which the Tongans are much interested is the long talked of and expected marriage of their young king, and all arrangements are being now rapidly pushed forward, and after the arrival of the nobles, chiefs, and principal people who are daily expected from the other groups, the ceremony will not be long delayed. Your correspondent is not able to give you any certain information as to who is to be queen. That momentous matter will, most likely, as there are two ladies with rival claims, be submitted to a meeting of the highest chiefs for their advice, which however may be taken or not as it suits the desire of Tubou. The cake, originally made in Auckland at a cost of £150 has been renovated for the occasion and the various dresses are all but completed. The native inhabitants of Tonga have for months past been preparing large quantities of native cloth and other native goods to be presented when the wedding comes off. His Majesty George Tubou II. is at present in the best of health.

MEMBERS' RECEPTION.

Excellent Program at the Y. M. C. A. Hall Last Evening.

Something like 200 young men enjoyed the members' reception at the Y. M. C. A. hall last evening. The affair was informal, and most pleasant in every way. An excellent stage program was presented as during the progress of the reception feature.

Among the best numbers was the singing of a quartette, composed of Professor T. Richards, C. A. Elston, H. M. Mott-Smith and J. Q. Wood. The reading of Maurice Walton—whose stage career is brilliant—was most excellent. He gave "Mark Twain and the Interviewer" and in response to a 77-call Eugene Field's "Sain" things at night. Another leading feature was the club swinging of Frank C. Atherton. He displayed unexpected skill and was loudly applauded.

Mr. Coleman, Mr. Brock and other members of the committee looked after their guests in the best possible manner. Refreshments were served throughout the evening.

PARADISE OF THE PACIFIC.

Casper Whitney's description of Honolulu forms the first article in this magazine. This is followed by some pretty pen pictures of the valleys behind Honolulu. Dr. Russell's paper on the Hawaiian climate is a valuable one from the pen of a thoroughly scientific agriculturist in Hawaii. It is taken from the Foreign office hand book, and is of interest to all intending investors. The engravings are remarkably good, and the whole number a thoroughly interesting one.

THE WEATHER.

Punahou Weather Bureau, 1 p. m. Wind fresh north northeast; weather fine; Will probably continue the same. Morning minimum temperature 70; midday maximum 82; barometer 9 a. m. 30.08 falling; (corrected for gravity); rainfall 24 hours ending 9 a. m. .04; humidity 63 per cent 9 a. m.; dew point 63 9 a. m.

GENERALLY COMMENDED.

LONDON, June 1.—Special dispatches from The Hague to London morning papers agree that the United States scheme meets with much favor, as being eminently practicable. Sir Julian Pauncefote, head of the British delegation, has modified the British proposal, and now suggests that the Administrative council should not be international, but should be appointed by the government of the country where the permanent court assemblies. According to the correspondent of the Daily News, the arbitration committee has unanimously recommended the United States scheme to the conference.

A long debate occurred today (Wednesday) between British and United States delegates, in order to arrive at a compromise upon the Anglo-American scheme as against the British one. As a result, Sir Julian Pauncefote's plan will be laid on the table tomorrow (Thursday). Professors of international

MARINE DISASTERS.

Two Australian Vessels Lost, One With All Aboard.

In a letter to E. A. Moss, dated Sydney May 21, news was received of the wrecking of the Union Steamship Company's steamship Topeka just outside the heads at Sydney. She was on her way to Bully for coal. After a two hours' run she struck a rock and was a total wreck. The blame is placed on Captain Sams, her commander, who was to have relieved Captain Carey of the Alameda, who will take a short vacation. The underwriters at once sold the wreck of the Topeka.

The same letter also announces the total loss of the steamship Oahu with all on board, off the coast of New Zealand between Greymouth and Dunedin.

THE MIOWERA.

Arrives This Morning; T. Young the New Purser.

The Miowera arrived early this morning and is at the naval berth of the Pacific Mail wharf. She left Vancouver 4 p. m. June 1, and Victoria at midnight the same day. She brings eleven passengers for the islands. M. B. Curtis is one of her passengers bound for Australia with a negro minstrel troupe of forty, among them Ernest Hogan the "Plain American" author of "All Coons Look Alike To Me," and other coon songs.

The new purser of the Miowera, successor to C. H. Humphries, is T. Young, formerly purser of the Miowera but lately purser of the Empress of India, running between Vancouver and Japan. He met many old friends and acquaintances on arrival here.

THE WARRIMOO.

The Warrimoo arrived from Australia at 7 o'clock last night, but had to wait for a berth until the transport Grant pulled out from the Pacific Mail wharf. At Brisbane she had to wait about six hours for the mails. From Brisbane until New Caledonia was passed strong head winds with heavy head seas and bad weather were experienced requiring the speed of the engines to be reduced, and causing great loss of time. From Suva to Honolulu moderate trade winds and head seas were experienced.

ENGLAND'S COAL GIVING OUT LONDON, May 25.—At the general meeting of the Institute of Mining Engineers today the address of President Langdon was devoted to a pessimistic review of the exhaustion of British coal and iron. He said the evidence all pointed to the fact that fifty years hence we shall be practically dependent upon the United States for cheap coal, iron and steel, and our sons will find an alliance with the United States for coaling our navy imperative.

FRIDAY, JUNE 9, 1899.

So we are to have a further importation of Portuguese. These people have proved themselves an eminently progressive and satisfactory population, which is increasing not from constant additions from without, but from natural increase on the islands. An influx of 700, or so more of this nationality, will be of advantage to our growing territory. If the first importation is lacking in education, the next generation avails itself of the educational opportunities here offered, and soon advances to the front, as a progressive and industrious portion of the population. It is a population, moreover, that becomes readily Americanized.

The questions of the constitutionality of various rulings which our very anomalous condition has brought about can never be finally settled here. All that our courts, and our executive officers can do is to interpret the law as it is on the islands, unless, as in the case of Chinese immigration, there is a specific order that such and such a particular act shall cease to be operative. Congress will take cognizance, undoubtedly, of the anomalies that have sprung up, and which were bound to come, owing to no definite action having been taken. Our courts may, it is true, eventually have their decisions overturned, but the only thing for them to do was to follow their present line. Following this every one knows where he stands, when Congress has decided, finally, another platform will be provided, but it would be decidedly unpleasant to step into the void of anarchy between the platforms.

RIVER PARK.

The manner in which River park has been for more than a year diverted from its proper use, to be a quarry for road making material and the dumping ground for the slush from the harbor, illustrates what a long suffering population ours is. For months after the Legislature passed the law that that land should be converted into a park or play ground for the Palama children, the Superintendent of Public Works was ignorant of the law and it was only when F. W. Damon made some stir in the matter, being deeply interested in children, and in ameliorating the condition of those in the crowded part of the city, that the Minister of the Interior and the Superintendent of Public Works, waked up to the fact that the ground had been set aside.

There was considerable agitation for some time, and the minister gave explanations, which were after all but plausible evasions, and it was shown that but for digging out soil from the park, which was utterly wrong and illegal, for the Legislature had appropriated the land to the purposes of a park and not of a road quarry, certain streets could not have been improved. Then when that was finished with, and a committee was arranged to go ahead for park work, the Superintendent of Public Works found another excuse and when that is worn threadbare, yet another will be found.

The matter has become a Cabinet disgrace. The ministers allow any kind of frivolous pretext to prevent the carrying out of a piece of work which is to be a boon to the poorer classes of children in the community. If this had been for the advantage of the moneyed classes, their excuses would not have been put forward. But a class which, as things now are, has no opportunities of asserting itself, is left to do without a necessary adjunct to the health and comfort of its children, simply because one official has made up his mind that he can block the will of the Legislature, and cares not one jot what becomes of the poor class of children.

FISHING.

The employment of Italians as fishermen will open out a new industry, which has been much neglected in the past. The waters around the islands abound with fish, and yet fish is scarce and dear. There is no reason why it should not be an abundant and cheap food. Italians and Portuguese have been extremely successful as fishermen upon the west coast of the mainland, and if they can brave the icy waters of the North Pacific, they can readily get along in our calmer and more pleasant climate.

But our fishing right laws will have to be changed. For fifty years or so has each recurring Legislature been besieged to have the fishing rights thrown open to the whole people, and for fifty years has the request or petition been persistently denied. These rights are the legacy of the old Hawaiian feudal system. They are of no advantage to the Hawaiian, if they were there might be some excuse for them, but they are not.

Nothing is more striking than to see the Hawaiian canoes coming in after a night's fishing and the owner claiming

his third or fourth or what ever it may be of the fish that is caught. It is just according to the law of the land, but it is unjust according to views taken elsewhere. There should be no private property in the sea. The fishing rights in a large number of instances belong to foreigners, and are leased by Chinese and Japanese.

Until the Malolo was started out the fishing has been carried on by very crude methods. The Italian fishermen will work upon very different methods. It is to the advantage of the territory that its fisheries should be developed. Fisheries form a large portion of the natural wealth of many States, our fisheries have been practically lying fallow, and are only beginning to be understood. The development of the islands goes on apace. But as the development goes along, so must legislation go along, and there will be much of importance to do when once the management of the territory's affairs are properly entrusted to our own hands.

PROPOSED LAW.

In the organic law for Hawaii, as proposed by the amended bill, no property qualification is required for voters for representatives, or for representatives themselves, but for voters for senators \$1000 ownership of real estate is required or an income of \$600 a year. The candidates for senators must be qualified to vote for senators, and therefore must have the same property qualification as the voter. A statement to the contrary has been circulated, but it is entirely erroneous.

It was by no means difficult to fall into the error, for the section reads: "Section 34. That in order to be eligible to election as a senator, a person shall:

"Be a male citizen of the United States;

"Have attained the age of thirty years;

"Have resided in the Hawaiian Islands not less than three years and shall be qualified to vote for senators."

The original draft after the words "three years" stipulated as follows: (Must) "be the owner, in his own right, of property in the territory of the value of not less than \$2000; or have been in receipt of a money income of not less than \$1000 during the year immediately preceding the date of election."

This was all stricken out and the words "and shall be qualified to vote for senators" added. It is quite natural to jump at the conclusion that no property qualifications was demanded of the candidate, but it is demanded nevertheless, though the wording is so skillful that it does not strike the average reader, when he is just skimming the law.

The new organic law will bear a great deal of careful study, and no doubt will get it when it comes up for discussion.

As was urged yesterday it is highly important that every one on the islands should have the opportunity of studying the document in its present form, and a mere resume is not sufficient to form a proper subject for study.

The mere list of laws which will be repealed from the statute book, and from the Session laws, amounts to over 1200 words. The laws include both Civil and Penal laws, many of which are of the highest importance.

The original bill among other things provided that the governor should submit estimates for appropriations to the Senate. The amended bill strikes out the word "senate" and substitutes "legislature," which is decidedly better.

Under legislative power considerable latitude is given, but the granting of "exclusive privilege, immunity or franchise" is prohibited without the approval of Congress. As interpolation upon divorce is curious, as showing to what use a legislature might be put to. The original bill at this point reads: "Nor shall divorce be granted in the territory unless the applicant thereof shall have resided in the territory for one year." The amended law reads: "No divorce shall be granted by the legislature, nor shall any divorce be granted by the courts of the territory, etc." The additions are significant of the experience drawn from legislation on the mainland.

Two sections were entirely thrown out, they refer to procedure in the sessions of the Legislature. When the bill comes up for discussion a great deal more of it will be cut out, but it forms a scaffolding for our organic law, and we can learn the trend of our future state by examining its 105 sections.

"I was a strong, healthy woman until
about five years ago, and while living in Eng-
land, was recovering from an attack of
measles. I took a chill, had a relapse and
came very near dying. My blood was left in
a very bad state, abscesses formed on my
body. I was confined to my bed two-thirds of
the time. At times I was unable to move.
For two years I failed to obtain any relief.
So finally I was advised to come to New Zea-

GOO KIM,
210 NUUANU STREET**NEW SPANISH MINISTER****D'ARCOS RENEWS FRIENDSHIP
IN WASHINGTON.**

American Duchess Who Might Have
Been Mrs. Dewey, and Wife of Hero
of Manila Bay.

WASHINGTON, May 30.—The new
Spanish minister has arrived
and is now opened. The new min-
ister, the Duke D'Arcos, is expected to
become very popular, one reason being
that he has an American wife.

The wife of the new minister was un-
til four years ago Miss Virginia Wood-
bury Lowery. On the paternal side her
ancestors were wealthy New Yorkers;
her maternal ancestors were New
Hampshire statesmen descended from the
early Puritans.

She met the duke, then Count Bur-
nelli in Washington years ago. He was
a member of the Spanish legation and
she one of society's favorites. Admiral
Dewey, then a captain, was among her
admirers, but she favored the Spanish
church perpetually exempt from the ob-
ligation to abstain from fresh meat on
Fridays, as all good Catholics do—a dis-
pensation which was made hereditary
in the family and is now held by the
present duke. He is also the first of the
grandees of old Spain who was ever
known to marry a Protestant. In ap-
pearance the duke is tall and blonde
and can boast of the blue blood of the
real Castilian. In manner he is quiet,
reserved, fond of reading and of col-
lecting antiques, a taste in which his
wife equally shares. He is about fifty-
five years of age and the only son in a
family of three sisters, one of whom is
the wife of the gentleman who was min-
ister to France and was recalled at the
same governmental upheaval which
brought D'Arcos back to Spain a short
while ago. Till the time of his arriv-
ing last month his appointment as min-
ister to the United States, the duke was as-
sistant secretary of state.

LIKE PAPER MONEY.
Anti Eat up Uncle Sam's Money in
Luzon.

NEW YORK, May 26.—A Washington
special to the Herald says: Paper money
cannot be used in the Philippines,
for there is a variety of ants in the is-
lands which eat almost everything and
are particularly fond of paper. In a re-
cent shipment of money for troops was
\$1,000,000 in paper money of small de-
nominations, and preparations were be-
ing made to send more paper in the
next shipment, when a warning was
given that thereafter nothing but gold
and silver coin must be sent to the is-
lands. It was stated that the ants got
into the boxes and attacked the pack-
ages of bills, which were saved from de-
struction only by the greatest care. As
far as the officials here know, none of
the money was actually destroyed, the
damage done being probably no more
serious than the eating away of the
edges of notes, or perhaps making holes
through some of them.

CHATSWORTH WILLOW.
One of the curiosities at Chatsworth,
in England, the Duke of Devonshire's
seat, is a weeping willow made of cop-
per and so dexterously fashioned that
at a distance it resembles a real tree.
It is actually a shower bath for by
pressing a secret spring a tiny spray of
water bursts from every branch and
twig of the tree to the discomfort of
anyone who may be under it.

WHY SOME PEOPLE ARE POOR.
Bad management keeps more people
in poor circumstances than any other
cause. To be successful one must
look ahead and plan ahead so that
when a favorable opportunity presents
itself he is ready to take advantage of
it. A little forethought will also save
much expense and valuable time. A
prudent and careful man will keep a
bottle of Chamberlain's Colic, Cholera
and Diarrhoea Remedy in the house,
the shiftless fellow will wait until he
suddenly comes to it and then ruin his
best horse going for a doctor and have a big
doctor bill to pay, besides; one pays out
25 cents the other is out a hundred dol-
lars and then wonders why his neighbor
is getting richer while he is getting
poorer. For sale by all dealers and
druggists. Benson, Smith & Company,
general agents, Hawaiian Islands.

NOTICE.

The undersigned beg leave to notify
their patrons and the public that the
Grocery and Provision business of their
respective firms will be consolidated

The only bicycle factory in the world on one ground floor is that of the Sterling Cycle Works at Kenosha, Wis.

"You look sulky," said the bicycle to the trotting wagon.

"And you seem tired," was the reply.

From start to completion he Sterling wheel travels over a quarter of a mile, through the mouths of 300 machines and the hands of 500 expert workmen. See the P. C. & M. Co.

Buy fair, sell fair, and love the fair. By so doing you will stand a fair chance of leading a fair life.

The Pacific Cycle & Manufacturing Company will sell you a Sterling bicycle, the highest grade wheel ever manufactured, for \$60 on small installments.

"I'll make you dance," cried an irate mother pursuing an erring son, slipper in hand. "Then," remarked the juvenile, "we shall have a brawl."

From all sides and from all quarters of the globe, in all languages, comes reports of the Sterling quality of the Sterling bicycles. See the P. C. & M. Company.

THE SEARCH FOR ANDREE

PROFESSOR NATHORST SEEKS IN GREENLAND.

Will Examine the Eastern Coast of the Great Arctic Island—Sailed in Steam Whaler Antarctic.

COPENHAGEN, May 26.—The expedition under Professor A. G. Nathorst, which is to search along the northeast coast of Greenland for Professor Andree, the missing aeronaut, has sailed from Helsingborg, Sweden. The party sailed on the steam whaler Antarctic, of which Nathorst is part owner. A wealthy Norwegian merchant named Hammes will defray almost the entire cost of the expedition.

After carefully examining the region between the 72 and 75 degrees north latitude, Professor Nathorst will proceed toward Cape Bismarck on the east of Greenland, in the hope of meeting Captain Otto Sverdrup's expedition, which left Christiania last June on the Fram.

Nathorst's theory is that Andree, if alive, is probably on the northeastern coast of Greenland. He argues that if the missing aeronaut landed in Greenland and took the east coast route to the south, several years must elapse before he could work his way without a ship to the nearest settlement.

The relief party consists of six scientific men besides Dr. Nathorst and a crew of thirteen. The plan is to head for Jan Mayen, an island in the Arctic ocean, and then to follow the ice edge until an opening is found through which the shore can be reached.

GERMANS AT ICHOUFU.

They Astonish the Sleepy Celestials by Their Promptitude.

YOKOHAMA, May 30.—The German occupation of Ichoufu, China, was attended by several dramatic incidents omitted in the brief cables regarding the affair. On March 30 a cruiser landed a number of troops, variously stated at from eighty to 140, at a point near Jih-chao city. They marched to the city only to find the gates closed. According to all classical precedents as found in the Three Kingdoms and other standard works, says the correspondent of the China Mail, they should then have sat down, after soundly cursing the city and its officials, and entered upon prolonged negotiations. What did these unconventional barbarians do, however, but promptly insert a "long, thin thing" through the crack in the gate and saw the bar of the gate in two, after which they rudely shoved the gate wide open and marched into the hsin yamen, where they proceeded to make themselves very much at home, and at latest account seem to be in no particular hurry to leave.

At the same time they landed a force of fifty or sixty men about 150 miles farther south and thirty miles north of Ichoufu. These proceeded at once to the village of Hanchiat'sun, 150 miles from the coast and seventy miles south-east of the city. This was the place where the three Germans were first attacked. They notified the people that they intended to leave the village, which they proceeded to do as soon as the inhabitants had fled. It seems that they burned about half of the place, which is a large and rather wealthy village. Next day they went back to the coast. They sent on to this city two proclamations in Chinese, one of which announced that they proposed to occupy Jih-chao until the pending cases are settled, and the other stated their purpose to burn Hanchiat'sun in retaliation for the attack upon the Germans.

C. OLIVER ISLIN.

Veteran Yachtsman Will Have Charge of Defending Boat.

NEW YORK, May 28.—The Herald is able to announce that C. Oliver Iselin is the managing owner of the new cup yacht Columbia. He is interested to the extent of at least \$25,000 in the building of the boat. Mr. Iselin has given much thought and time to the construction of the new craft in addition to his financial interest, and from the launching of the yacht will be in daily communication with her designer, skipper and crew. When a boat is placed in commission he will take charge of her preparation for trial with the Defender, and in this important business he has no superior in this country.

Then, if the Columbia is successful in her trial the still greater responsibility of bringing her to the line in perfect condition to meet the Shamrock will rest upon him. In the case of the Vigilant and the Defender he was successful, and better informed yachtsmen are sure that the same good luck in the coming international match will await him and his associates.

DECORATED THE MAINE.

Mrs. Lucien Young Represents the Navy at Havana.

HAVANA, May 30.—Decorations Day was observed here today in a notable manner. At 9 o'clock this morning Mrs. Estes G. Rathbone and a committee of women who had been selected for the purpose were taken in Rear-Admiral Cromwell's launch, escorted by a detachment of marines, to the wreck of the battleship Maine, where they strung the skeleton on the unfortunate craft with ropes of laurel and wreaths of flowers.

Mrs. Lucien Young represented the navy at the decoration of the graves of the sailors and soldiers interred in the Colonial cemetery at 11 o'clock. Mrs. Patterson and a committee representing the Maine Association, participated in the ceremony.

A great many flowers and wreaths were placed upon the graves of the heroes.

Similar exercises took place at the Quenados cemetery.

It Must Be

remembered that our stock represents the finest ready-to-wear clothing made in the United States—stylish, serviceable, becoming clothes that have nothing in common with ordinary "ready made" garments, nor with the kind of goods turned out by the average custom tailor.

We have recently added to our stock the lines made by Hart, Schaffner & Marx of Chicago, in addition to our Stein-Bloch goods.

Do not pay out money for awkward, old fashioned ready made clothing when you can have the H. S. & M. goods for the same cost. Do not pay the tailor's price when you can get as good, and probably better, satisfaction, for less than half the money.

"Time is Money"

Is well illustrated by the hurried business man in his fruitless search among the accumulation of papers in his desk for an important document which he has just five minutes to produce. "A place for everything," is an excellent motto. This is what our new desks, with their latest, up-to-date, time-saving devices, represent in reality. All styles and all prices in the lot just received by the "Mohican." Also a large assortment of

KODAKS.

You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as representative. Kodaks make the best of Holiday Presents, acceptable to either sex.

FILMS.

Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

Developing and Printing.

Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.
