CHAMP CLARK A COMING LEADER.

(Special Correspondence of THE INDEPENDENT, by Charles A. Edwards.)

(Continued from yesterday.)

WASHINGTON, June 27:

Last week I told the readers of this correspondence about the Hon John Sharp Williams, of Mississippi, the man who will be the next floor leader of the democracy in the national House of Representatives. I will now tell them about the man who will be his chief opponent in the democratic caucus, and who, though he is still an avowed candidate for the honor, practically concedes his defeat, and that is the Hon Champ Clark, of Missouri. The most of the people of the country know Champ Clark, not alone because of his work in the Congress of the nation, and he has been in that body about ten or twelve years, but because of his work in the press of the country and the contributor of a weekly letter about current political events always written in a reminiscent manner and very entertaining. Champ Clark is one of the most picturesque figures in political life to-day. He leads the democratic avil chorus. He is the knocker-in-chief of the democratic minority in the national House of Representatives and when he gets to his feet he does hit the republicans some of the hardest blows ever administered to them by any speaker on the democratic side of the House. He has a way of telling the truth on the republican party that is very attractive to the democrats of the country. It is homespun truth told in an old-fashioned homelike manner that is decidedly refreshing because it is so seldom we hear it. When in action, Champ Clark needs more floor space than any man in the House. He flings his great long arms around like flails, and he pounds his desk like a deep water two-gallon baptist preacher. The only trouble with Champ Clark as a leader would be the fact that he is too uncompromising. He hits hard and tells truth, but he does it in such a manner as to excite the animosity of the opposition, leaves sore spots that never heal, and does not convince the republicans of the righteousness of his cause. When a man is honest, even though he be a republican, he is open to conviction in many matters, but if he is insulted and his feelings hurt by the man who makes the speech, and who, otherwise, would convince him of his error, he thinks of nothing but revenge, and he gives the man no credit for his unanswerable argument and his intellectuality.

That is the trouble with Champ Clark. He makes enemies for himself and his party by his speeches and does his cause no good. Therefore he would not make a good leader for the minority party in the Congress, and his friends and admirers knowing this have chosen John Sharp Williams in his stead. There is no better man and no better democrat in Congress than Champ Clark, but he is too indiscreet by his vehemence to be a successful leader, and hence he will not be chosen by the democrats when they meet in caucus next November. There is another reason why Champ Clark is not the popular man for the leadership. He seems to have an especial antipathy to the so-called gold democrats, who left the party in 1896 and 1900, and he never loses an opportunity to roast them to a brown turn when he is on his feet in the House. That not only does no good, but it antagonizes the element that we want to

IMMIGRATION AGENT.

Only an item appears in two appropriation bills carrying the "salary of Commissioner of Immigration and Advertising Agent," but there is no Act providing for such an office, nor as to manner of appointment, removal and tenure of such an officer, which we think was rightly placed under the Treasury Department, the item failing to carry a proviso that the incumbent should be appointed by the Treasurer. We are forced to admit that the appointment is not with the Treasurer in this case as well as in this instance, but is up to the Governor, and the intention of the Legislature would thereby be frustrated. Under Section 80, paragraph 2, of the Organic Act, it is provided that "The manner of appointment and removal and the tenure of all other officers shall be provided by law; and the governor may appoint or remove any officer whose appointment or removal is not otherwise provided for."

For the rest, we leave to better minds to judge. As this is one of those positions "not otherwise provided for," we think the appointment is up to the Governor, and that it does not lay with the Treasurer, in whom the House of Representatives placed reliance, so that an objectionable applicant may not have the place, which was conditional on the item and office being placed under that Department. And the Treasurer is not the dispenser of this latest pay, but the Governor is.

The band will play for the baseball games this afternoon and will give a concert on the capitol grounds tomorrow afternoon.

TOPICS OF THE DAY.

Of course, the native has no right whatever to live under the sun in his own country, because he does not know, sufficiently, its needs, and only a white man does, who is supposed to know it all, including his share of footing the bills. The native has no business to be born into this country and he should now be a white man.

We cannot for a moment believe that O R Buckland "has the confidence of the people at large," for the simple reason he is not known to them, but only to a certain section and faction. Of course, we know him, not only recently, but many years ago, and we can safely say and vouch that he is a capable and competent Anglo American.

Judge Wilcox left a fortune of about \$100,000. This will be a surprise to his friends, who were disposed to think that he had accumulated very little. He was immensely liberal to charity, and his large fortune can be accounted for only in the conclusion that he lived economically and saved from what he might have spent for his own comfort.

There is something to touch the risibles in the proposition of a German coming here to test the water of Honolulu. As a rule Germans, like the colonels of Kentucky, are not experts on drinking water, and a pipe line to the brewery would probably meet the requirements of the visitor better than a letter of introduction to water superintendent Brown.

Why is it necessary that a white man should be the Immigration Agent, in order to bring white settlers and tourists here? Can not a native do just as well? Would not a native, in time, become "in full sympathy with the work?" Is it only "white settlers and tourists" that are wanted to come here to labor in our cane fields, and that no Asiatics need apply?

If the Territorial government heads do not turn in to Congress, through Secretary Carter, their views of Federal improvements in the Islands, together with estimates of the cost of same, it will plainly be their own fault. The Secretary of the Treasury has asked for the facts and figures, and they should be promptly supplied. An immense amount of Federal work should be done in the Islands. The government has gone on sapping its \$2,000,000 a year out of the Territory without any return. About \$6,000,000 of the \$56,000,000 surplus now in the Treasury is Hawaiian money, and it is badly needed here.

Treasurer Kepoikaf is reported to favor the placing of the loan bonds with local investors as against allowing them to go to foreigners. His reasons are that the interest will be kept in the country and that investment in government securities locally would have the effect of bringing the citizen in closer touch with the Territorial powers. The proposition is sound, provided the money was here. But the money is not here to spare on light interest bonds, and new coin is just now worth more to the country than the interest borne by the bonds. The better business proposition is to let the bonds—about the only local security that Wall street will

thoroughly understand—go to New York, leaving the little money now in the country for the important business of developing the plantations and other enterprises.

O R Buckland, applicant for the office of land court registrar, is objectionable only in that he has shown himself to be over partizan. His character is above reproach, as shown by his reputation during his life of many years in California and Hawaii. Another point in his favor is that he has made an exhaustive and careful study of the Torrens land law and would probably start in better fitted for the duties of the office than any other man now in sight. The principal thing in his way, however, is that he has not resided here the period of five years required by law.

The race for the office of immigration commissioner seems now to be reduced to two names, those of W H Coney and Wm Blaisdell. Both are competent men. Mr Coney is city editor of the Evening Bulletin and has a marked knowledge of the English language. Mr Blaisdell is also proficient in the Hawaiian language. Both gentlemen were born here and their respective business have fitted them in a promising degree for the position. It is "heads-or-tails" which would prove the better official. Mr Blaisdell possesses the bare advantage of years and business experience.

We insist that Judge Davis do not resign, and think it cruel, cruel of him to suggest such a thing at this time. Does he not have in mind that the Legislature has just adjourned—that the Iroquois has gone—that the Stine-Evans Company will shortly depart?—and that there are no circuses bill for this city in days to come? It is impossible for us to conceive of how a noble son of the Mayflower, of Plymouth Rock and of Bunker Hill could be so unkind as to deprive 45,000 intelligent, "land of the free and home of the brave" American citizens of his entertainments in the quiet, sordid, hot, itchy, uninteresting, dreary, exasperating dog-days of 1903. "Ain't it a shame?"

The Independent insists that the House vouchers have not been destroyed; but at the same time fails to produce them. So likewise other people. If the vouchers or any of them are in existence the only reasonable and honest thing to do is to trot them out. If not, why not?—Advertiser.

It is the established practice for the complainant in a cause to first present his case. The Advertiser swore itself black in the face over this voucher matter, and charged that the House vouchers had been burned. While disclaiming any responsibility for the acts of the Republican Legislature, which has just ended its session, we volunteered to deny that the vouchers had been destroyed, and to answer any evidence or tangible showing that they had been destroyed. Surely that is fair enough. The Advertiser has plainly charged that the vouchers have been destroyed; we say that they have not been destroyed. It is the morning paper's next move.

The Advertiser and Star are just now quoting a lot of law in regard to the taking of official papers from Federal Courts and other United States offices, and affect to apply this law to the case of the absence of House vouchers from the Legislative archives. It seems to us that Section 69 of the Organic Act ex-

Nervous Debility

is often one of the most distressing after-effects of the Grip. It may also be caused by overwork, worry, mental strain or excesses of almost any nature. Whatever the cause, a debilitated nervous system means that the nerves lack nutrition. Feed the nerves and life will renew its joys for you.

The best nerve food, and the most valuable tonic (because it both builds up the blood and strengthens the nerves) is Dr. Williams' Pink Pills for Pale People. Hundreds of worn-out, depressed men and women have been made strong-nerved, ambitious, energetic and healthful by this remedy.

Among the well-known men of the newspaper profession is F. J. Lawrence, of 435 Fourth Avenue, Detroit, Mich., who for the past eleven years has been at his desk every day. He says:

"At one time I was in such a condition that my physician said I would have nervous prostration; that I would have to stop newspaper work or I would go to pieces if I persisted in doing it, as I was destroying what nerve force I had left. I lost flesh and had a complication of ailments which baffled skillful physicians. An associate recommended Dr. Williams' Pink Pills for Pale People and I gave them a trial. I can't say that I received any benefit from the first box, but derived very good results from the second. They gave me strength and helped my shattered nerves so that I could get a full night's rest."

"A great deal of pain in the small of the back I attributed to a derangement of the kidneys. For this complaint Dr. Williams' Pink Pills for Pale People worked wonders. Soon after I began taking them regularly, the pain ceased, and I felt like a new man. I am greatly encouraged from the results of using a few boxes and am confident that the pills will work a complete restoration of my former condition."—From Evening News, Detroit, Mich.

plains how much rope the Secretary of the Territory is entitled to. A part of it says: He shall record and preserve all the laws and proceedings of the legislature and all acts and proceedings of the governor, and promulgate proclamations of the governor. He shall, within thirty days after the end of each session of the legislature, transmit to the President, the President of the Senate, and the Speaker of the House of Representatives of the United States one copy each of the laws and journals of such session.

Mr Boyd Returns.

Commissioner E S Boyd returned by the *Kinai* this afternoon from Lahaina and Lanai. He went up as a member of the Dole party in the U S tug *Iroquois*, reaching Lanai Wednesday afternoon. Most of the island was gone over on Thursday. Yesterday the Commissioner took a small boat for Lahaina and in the afternoon the *Iroquois* sailed for Kihai. Governor Dole and party are doubtless in Waialuku today.

Proposed Official Duties.

It is understood that the duties of the new Commissioner of Immigration are considered by those most interested to be as follows:

To collect and compile statistics and data bearing upon the labor requirements, and on the general conditions of the labor market as it exists from time to time; to maintain and compile statistics, showing the arrivals and departures of alien immigrants, to formulate data and information, showing the inducements which the Territory has to offer to immigrants and to advertise same in foreign countries, to authorize one or more persons to publish such advertisements in foreign countries, and otherwise to superintend and promote the encouragement of immigration.

To observe and keep himself informed regarding the alien classes residing in the Territory, and to take such steps as he may deem necessary for the enforcement of the vagrancy laws. To disseminate information as to the attractions to tourist travel and also to make known by advertisement and otherwise the advantages offered to the settler or small farmer; to prepare such printed matter and advertisements toward the promotion of tourist travel and settlement by farmers as may seem prospective of results beneficial to the welfare of the Territory; the cost of such advertisement for the encouragement of immigration and tourist travel; shall preserve a copy of all authorized advertisements and keep the same upon file in his office in order that they may be at any time verified, and all authorized advertisements shall be signed by him.

Still Open to Hunters.

The endorsement of Chas R Buckland by the Republican Central Committee yesterday noon for the position of Registrar of the Land Registration Court seems to have gone adrift, although his qualifications for the place are said to be of the best. But there is one point of disqualification which the Judge of the Land Registration Court cannot overlook, and that is his time of residence in the country. The Land Registration Act provides that the Registrar must have resided here five years, and on this point alone the Judge is denied the right to obey the dictation and mandate of the Republican Central Committee, the almighty and the all-powerful body of dictators this country has at the present time. Mr Buckland is therefore, not having resided here five years, disqualified for the position, and the place is still open for other job chasers and applicants, and for further Republican endorsement for past services.

Wilcox Was Rich.

The late Judge W L Wilcox was worth about \$100,000. A petition by W O Smith for letters of administration has been filed in the court. It shows the real estate to be worth \$75,000 and personal property \$20,000. It is not improbable that a complete inventory will show considerably more. Following is the will of Judge Wilcox:

"I, William Luther Wilcox, of Honolulu, Island of Oahu, Hawaiian Islands, declare this to be my last will, hereby revoking all wills heretofore made by me.

"After the payment of my just debts and funeral charges, I bequeath and devise as follows:

"To my wife, Kahula Wilcox, one-third of my personal property to her absolutely, and one-third of my real estate wheresoever

situate for and during her natural life, and at her death to her heirs.

"To my adopted daughter, Wilhelmina, one-third of my personal property and one-third of my real estate to her and her heirs forever.

"All the residue of my estate, real and personal, to be divided among my brothers, Charles, George, Albert and Samuel, the children of my deceased brother taking by right of representation.

"I nominate William O Smith of Honolulu to be the executor of this will and I request that he may be exempt from giving a bond as such executor."

This will is dated July 7, 1903. E C Waterhouse, M D, and Mabel D Gee sign as witnesses.

Kinai From Hilo.

The *Kinai* was late in getting in, not reaching her wharf until 12:30 this afternoon. She brought the following passengers:

Champ Clark a Coming Leader.

(Continued from 1st page)

come back and affiliate with the party in the next campaign. They are as good democrats as anybody on the tariff and the trust question, which will be uppermost in the next campaign, and the only question on which they are at variance with the dominant faction of the party is on the money question, and all concede that it will not be one of the issues in the campaign next year. The bimetalists have won their contention that more money was needed to do the business of the country in order to bring prosperity to the nation, because there is today one-fourth more money in circulation than there was in 1896, but it came in gold on account of the gold discoveries in Alaska, the failure of crops in the old countries, and an avalanche of money and gold placed in circulation during the Spanish-American war. With the money question eliminated these people will come back and vote the democratic ticket next year, and we will win a victory over corruption, monopoly and special privilege. It would not help to bring them back, however, if we put a man in the leadership of the party in the House who, upon every occasion, like Cato of old, thundering against Carthage, said practically, "to the devil with the gold democrats." Thus it is that Champ Clark, the sterling man and splendid democrat, though one of the natural leaders in the House on account of his intellectuality and virile democracy, will not be the man who will map out the next campaign against the enemy of the people and the people's government.
