QUEEN REAFFIRMS TRUST DEED FIRE THREATENS MILLIONS IN OIL-RESERVOIR BURNING

QUEEN REVERTS TO FIRST PLAN

INVALIDATES RECENT POWER OF ATTORNEY ARRANGEMENT
AND GOES BACK TO ORIGINAL TRUSTEESHIP GIVEN SMITH,
LAUKEA AND CLEGHORN—PAPERS IN THIS FINAL CHAPTER
FILED LATE YESTERDAY AFTERNOON AND NOW ON RECORD.

By a document filed yesterday afternoon, Queen Liliuokalani seeks to terminate the recent misunderstandings in regard to her wishes by going back to the original trusteeship established by herself on December 2 last. The circumstances of her signing the original trusteeship paper and revoking the same (or attempting to revoke the same) from Washington, have already been rehearsed. It was intimated at the time that Prince Kuhio, disappointed at not receiving Washington Place as a legacy had had something to do with the Queen's sudden decision to abolish the trusteeship. Be that as it may, the Queen, after returning here and looking over the situation, has decided to return again to the original arrangement. This is the new paper filed by her:

Know All Men by These Presents: That whereas I, Liliuokalani, widow of the late John O. Dominis, of Honolulu, Territory of Hawaii, did heretofore make, execute and deliver a certain deed of trust dated December 2, 1909, recorded the same day in the Registry Office in said Honolulu, in Liber 319 on pages 447 to 459, wherein and whereby I did convey certain of my property and estate unto Archibald S. Cleghorn, Curtis P. Laukea and William O. Smith, in trust for all and singular the purposes therein particularly set forth, and

Whereas thereafter I did also execute and acknowledge a certain indenture dated the 21st day of January 1910, wherein J. D. Almoku, J. K. Aea and Curtis P. Laukea were also named as parties and herein called "Beneficiaries" (the said Curtis P. Laukea not having joined in the execution thereof, however), which last mentioned instrument purports to be an instrument of revocation, cancellation and annulment of the said deed of trust of December 2, 1909, and in and by which instrument the said J. D. Almoku and J. K. Aea have conveyed or have attempted to convey and release unto me all right, title, interest, claim and demand at law and in equity, which they or either of them might then or at any time thereafter have, under and by virtue of

said deed of trust, to any and all real, personal or mixed property or revenue therefrom in said deed of trust mentioned or thereby affected; and

Whereas I now desire to nullify and set aside all possible operation and effect of said instrument of January 21, 1910 (if any) and in all respects to affirm and confirm said deed of trust and all and singular the provisions, purposes and effect thereof as therein defined and set forth and to reinstate the said J. D. Almoku, (now known as John Almoku Dominis), and J. K. Aea as to all benefits and interest which they or either of them were and are intended to have and receive under and by virtue of said deed of trust without prejudice to them or either of them by reason of their having joined in the execution of said instrument of January 21, 1910, purporting to cancel said deed of trust;

Now Therefore, I, the said Liliuokalani, in consideration of the premises do hereby give, grant, convey, assign, transfer, set over and deliver unto the said Archibald S. Cleghorn, Curtis P. Laukea and William O. Smith, as trustees under said deed of trust of December 2, 1909, all and singular the property and interest whatsoever described and referred to in said deed of trust which by the terms of said deed were and are thereby intended to be conveyed to and held by said trustees, the same to have and hold upon all and singular the trusts in said deed expressed.

And for the same consideration I do also hereby grant, assign, transfer and reconvey unto the said J. D. Almoku (now known as John Almoku Dominis) and J. K. Aea respectively, all the right, title and estate whatsoever which they or either of them may have conveyed or assigned to me by virtue of their having executed said instrument of January 21, 1910.

It being hereby intended that the said deed of trust shall in all respects stand in full force and effect as by its terms it purports to be, and that the said John Almoku Dominis and J. K. Aea shall be and become beneficiaries thereunder according to the terms thereof, all in manner as though the said instrument of January 21, 1910, had not been executed.

In witness whereof, I have hereunto set my hand and seal at Honolulu, this 20th day of April, 1910.

LILIUOKALANI.
Witnesses: J. M. Monsarrat.

NEW RICE MILL

The K. Yamamoto Rice Mill is the largest as well as the finest in the islands. All machinery is of the very latest pattern. The famous Tengu Rice is cleaned at this mill. With the large cleaning capacity they are able to handle considerable outside particular work which they guarantee.

PLEASANT—SOOTHING—HEALING

Prompt relief in all cases of throat and lung trouble if you use Chamberlain's Cough Remedy. Pleasant to take, soothing and healing in effect. For sale by all Dealers, Benson, Smith & Co., agents for Hawaii.

The Job Printing, Star Office.

IVERS SAYS RUSSIAN COMPLAINTS ARE LIES

"The stories that the Russians are circulating about promises being made to them by Perelstous and about their not being lived up to are in my mind a pack of lies from start to finish," said Richard Ivers of the Board of Immigration this morning. "I believe that if some of the ring-leaders were jailed on the charge of vagrancy the trouble would all be over, and the rest would be soon ready to go to work. The Russians are themselves to blame and all stories about false promises are being circulated for the purpose of causing trouble in certain quarters. We stand ready to give them all employment, but as long as they are fed and treated better than they have ever been before they will not go to work."

"If promises are supposed to have been made by Perelstous why did the Russians at the meetings held in the Governor's office refuse to say so when questioned?"

"The whole trouble is that they have been treated far too well since then have been here, and all this talk about the Board of Immigration treating them unkindly is a lie."

"There is plenty of work on the plantations ahead for all that are here and for all that are coming, but if they won't work it is not up to the board."

"Regarding the question of a special representative from the Department of Commerce and Labor coming here to make investigations, I know nothing about it."

RUMORED RUSSIAN GRAND JURY PROBE

United States grand jury is still in session and will remain at work the rest of the week, probably making report on Monday next when there is a possibility of its labors being concluded and of the members thereof being discharged.

Edmunds Act cases and violations of the postoffice laws are among the returns to be made.

There was a report circulating this morning to the effect that the immigration of Russians was under con-

sideration and that one or two local "trusts" might be examined; also a liquor dealer might have to explain some "bootlegging," which may account for the fact that certain books of the internal revenue office were required as reference to show lists of Federally licensed booze dealers.

In re Russians, reports were most indefinite, and it does not appear clear just how the grand jury can handle the matter unless getting after the immediate soliciting agents on technical grounds.

STARS AND STRIPES IN FRENCH CAPITAL

(Associated Press Cable to The Star.)

PARIS, April 21.—Colonel Roosevelt was today warmly received in this city. The capital was decorated throughout with American flags in honor of the ex-President. Roosevelt left Budapest yesterday. He remains in this city for about a week, then going to Brussels and The Hague, with brief halts at Rotterdam and Hamburg, reaching Stockholm on the evening of May 5, thence to Christiania, and then by boat to Germany again, reaching Berlin on May 9 to be Emperor William's guest on May 12, 13, 14 and 15, leaving the German capital on May 16 for London, where he will pass about three weeks, and in visiting friends in English country houses; then sailing for New York.

PEKING, April 21.—Anti-foreign rioting is spreading and a mission has been burned at Ning Ssang.

ANNAPOLIS, April 21.—Harvard has defeated the navy crew in the boat race by two and a half lengths.

BIRMINGHAM, April 21.—Forty-one miners have perished here today in an explosion.

CHILD OF FORTUNE

R. W. Shingle, guardian of Mary Beatrice Campbell, minor, inventories her estate as follows: Contingent one-quarter interest in income of estate of James Campbell, available at majority, or marriage; one-fifth interest in income of estate of A. K. C. Parker; horses and carriages, \$1,005; diamonds, \$5,500; feather leis \$2,000; furniture at Emma street residence, \$9,621; silverware and plate, \$316.

MR. YOUNG BETTER

Alexander Young remains about the same as yesterday, but better in some respects than on the previous day. Late yesterday muscular twitching occasioned some uneasiness, and gave rise to the rumor last night that a relapse had occurred. This untoward manifestation passed away, however, in a short time, since when the patient has rested easily again.

The statement in one of the papers that Mr. Young is regarded as "out of danger" is (while kindly meant) misleading. The condition of the sick man is such as to give every reason for hope, but the crisis is not yet entirely over.

360,000 BARRELS GOING TO SMOKE

(Associated Press Cable to The Star.)

POINT RICHMOND, Cal., April 21.—An oil reservoir of the Standard Oil Company, with a capacity of 360 barrels, is afire, causing great alarm, for a plant valued at three millions of dollars is threatened with destruction.

MARK TWAIN DIES OF HEART DISEASE

(Special Cable to The Star.)

REDDING, Conn., April 21.—Samuel Langhorne Clemens, better known as 'Mark Twain,' died here today of cardiac asthma with angina pectoris.

The great American humorist, traveler, author and lecturer was born in Florida, Mo., November 30, 1835, being in the seventy-fifth year at death. He was apprenticed to a printer at the age of 12; was a Mississippi pilot. In 1870 he married Olivia Langdon of Elmira, N. Y. Was editor of Virginia City (Nev.) Enterprise, 1862. Alternated between mining and newspaper work until, becoming noted as a humorist, he began lecturing and writing books.

WASHINGTON, D.C., April 21.—Congressman Fowler has introduced a resolution taking the power of the selection of committees from the Speaker.

NEWCASTLE, April 21.—The crew of the Satara are safe.

INDIANA PRAISES TAFT AND SENATOR

CONNORSVILLE, Ind., April 21.—Barnard has been renominated for Congress. The Taft administration is endorsed, as is the representation of Senator Beveridge, and the Payne tariff measure, the platform declaring:

"We demand the enactment of laws providing for publicity as to campaign contributions in both state and nation."

"We demand that United States senators shall be elected by the direct vote of the people."

"We favor the revision of our civil and criminal codes, to the end that technicalities and unnecessary formalities of pleading and practice may be eliminated, speedy justice administered and the cost of litigation reduced to a minimum."

"We recognize that no President in our history ever began his administration with such universal favor and good will as did William Howard Taft; few men have entered the Presidency with such extraordinary training."

"We endorse and applaud the splendid record of our senior Senator, and especially his record in the last session of Congress, which deserves the unqualified approval of all the people of the State. With pride and confidence we make a solemn pledge to the people that a Republican Legislature will return to the Senate of the United States this man, whose name is synonymous with victory, Albert J. Beveridge."

The tariff endorsement is contrary to original platform provisions.

POLE EXPLORER

Commander Robert E. Peary, successful north-pole explorer, is through with arctic exploration for all time. Nor will he ever lead or accompany an antarctic expedition in search of the southern axis of the earth. Both statements be made positively today upon his arrival in Chicago at 8:35 a. m., says the Chicago Daily News of April 1. Following a round of entertainments during the day the explorer will lecture tonight at the Auditorium on "How I Reached the North Pole."

"My field work as an explorer is over," he said later, as he sat at ease in the reception room of the University club. "If ever I go north again it will be on a vacation trip and will extend no farther than the Cape York-Whale sound region at about 79 degrees north latitude. In this region, I believe, is a great field of sport. There are walrus, caribou, polar bears and birds of all descriptions—an ideal sportsman's paradise."

"But I have put in enough exile up there. I have done the thing I started out to do—the thing which took twenty-three years of my life. The antarctic search I will leave to younger men. I do hope, however, to aid in fitting out an American antarctic expedition and will give whatever benefit I may to its members through my experience in the north, experience which is quite as suitable and available for antarctic work. It is only a question of time till the south pole is discovered."

"Can you foresee this humorous situation? Here are two expeditions—a British and an American—starting next year in search of the south pole, the two branches of the Anglo-Saxon race, the British with the trail blazed to within ninety-seven miles of the object of their search. They will winter on opposite sides of the antarctic continent. Imagine, then, coming into sight of each other when within a few miles of the pole! It would narrow down almost to a foot race."

"What was your first thought when you reached the north pole?" Commander Peary was asked.

"That I had made good," was the instant reply. "That 'great sense of loneliness' as it has been poetically described, was missing. I was too tired and had too much to do to feel lonely. I don't believe any of my party felt lonely at any time. There was that deep-seated, overpowering sense of gratitude that twenty-three years of effort had not been wasted and that I had made good."

THE RIGHT DOPE
ON FLAG FLYING

Flag flying is a curious art has been mastered by E. M. Skinner, former president of the Chicago Association of Commerce, and through his efforts hotel owners in Chicago have been acquainted with the proper method of flag flying when a noted person from another country is their guest.

"There really is no law regarding the flying of flags," explained Mr. Skinner to a Daily News reporter, "but an incident which arose last year during the visit in Chicago of a Japanese delegation made it seem necessary that some specific plan be made and followed for use on similar occasions. The Japanese flag was raised above the American flag at that time and it created all kinds of criticism, especially from members of the G. A. R. Accordingly the hotel management changed the position and placed the American flag above. Whereat the Japanese party was offended."

"A certain paper quoted me as saying that I did not care in which position the American flag was placed. I received protests from G. A. R. members and in order to vindicate myself I had to write to every G. A. R. post in the country, explaining my position and the error which had been made. I also requested their opinion of what arrangement of the flags should be carried out. With their aid and at their suggestion I communicated with Admiral Dewey and others at Washington, D. C., and in that way the question was solved."

"Admiral Dewey explained that the proper way to fly a flag was from a

NAVY EXAMINATION

An examination of applicants will be held at the Naval Station, Hawaii, Honolulu, T. H., May 6, 1910, or as soon thereafter as practicable for the purpose of establishing an eligible register of subinspectors (dredging) at \$3.60 per diem.

The examination will be open to all comers who can give evidence of experience in the kind of work for which they seek employment and who are citizens of the United States. Persons now holding positions at the yard will be admitted to competition on the same footing as other applicants.

Applications will be addressed to the Commandant, Naval Station, Hawaii, Honolulu, T. H., and must be delivered to him on or before Wednesday, May 4, 1910. No application received after that date will be considered.

Each applicant will state in his application his name, age, residence, citizenship, present occupation, and previous employment or work done.

The applications will be accompanied by evidence of citizenship and by certificates, preferably from previous employers, as to character, habits of industry and sobriety, and skill and experience in work of the kind required.

A board of examiners will convene at the Naval Station, Hawaii, on the 6th of May, 1910, or so soon after as practicable.

A horizontal pole over the doorway of a building and not from a pole on the roof. When a distinguished visitor was present, two flags, one of the home country and one of the visitor's country, should be displayed at equal height, from different poles. The home flag, however, should be placed over the doorway of the building. If the building insists on flying the flags from the pole on the roof, two staffs should be erected and the two flags hung at equal height."

AT THE THEATERS

There will be a complete change of program at the Bonine theater this evening "The Musical Mayor and the Rat-Catcher" will be the leading stunt of Gardner, Griffin and Gardner. Dick Stead will appear in new songs, and as he is soon going away his friends should all hear him. Harris and Vernon are doing a great Irish stunt this week, one of the funniest numbers on the program. There will be new features in the picture line, and the program as a whole will be the swiftest yet attempted at the vaudeville houses.

THE NOVELTY.

At the Novelty theater this evening the Earle sisters will appear in new songs and specialties. There will be a new program of moving pictures. Two new comedians will arrive by the Sierra tomorrow for the Novelty. Watch out for announcements in regard to them in a few days.

BAND CONCERT.

The Hawaiian band will play this evening at the Seaside Hotel at Wai-iki with the following program.
March, The Thunderer..... Sousa
Overture, Calif. of Bagdad.....Boeldieu
Divine Redemer.....Gounod
Suite Bohemian.....Hame
Vocal, Hawaiian Songs, Ar. by Berger

DANIEL LOGANEDITOR

THURSDAY,APRIL 21, 1910

FOREIGN COMMERCE IN THE UNITED STATES, 1910.

The foreign commerce of the United States promises to make its highest record in the fiscal year which ends less than 90 days hence. The fiscal year, as it is well known, ends with the month of June, and the eight months of that fiscal year for which the Bureau of Statistics of the Department of Commerce and Labor has now available figures show a larger aggregate of imports and exports than in the corresponding period of any earlier year of our foreign commerce. The imports for the eight months ending with February amounted in value to \$1,021,317,090, against \$932,734,859 in the eight months ending with February, 1907, the former high record year for imports. The exports for the eight months are \$1,209,248,899, against \$1,356,847,583 in the same months of the high record year for exports, 1908.

The imports for the period in question were larger than those of any like period in earlier years, while the exports are slightly less than those of the corresponding eight months of 1908 and 1907. The aggregate of imports and exports for the eight months in question is \$2,230,565,989, against \$2,221,949,730 in the eight months of 1907, the former high record year for aggregate of imports and exports.

The decline in exports, comparing the eight months of 1910 with the corresponding periods of 1908 and 1907, occurs chiefly in foodstuffs. Breadstuffs exported in the eight months of 1910 amounted in value to but 103 million dollars, against 169 million in the corresponding period of 1908, and meat and dairy products to but 91 million dollars, against 133 million in 1908, foodstuffs thus forming a smaller share of the total exports of 1910 than formerly and manufactures a larger percentage, the share which manufactures formed of the exports for the eight months in question being 41 per cent, against 37 per cent in the corresponding months in 1906, while for the single month of February, 1910, manufactures actually formed over one half of the total exports, the actual share being 50.94 per cent of the total exports, foodstuffs forming but 22.55 per cent, and crude materials for use in manufacturing 26.09.

In imports the year's record thus far exceeds that for any earlier year, being for the eight months in question \$1,021,317,090, of which \$562,627,025 was material for use in manufacturing, 375 millions of this total being crude material, and 189 millions partly manufactured material for further use in manufacturing. The percentage which manufacturers' materials formed of the imports is larger than ever before, being 55 per cent in the eight months ending with February, 1910, against 52 per cent for 1909, 1907, and 1903; and 60 per cent in 1906 and 1907. The share of the manufacturers' materials entering free of duty was in the 1910 period 65.5 per cent, against 64 per cent in the same months of last year.

BOOM HAWAII IN THE EAST.

The joint validating agencies of the transcontinental railroads in San Francisco and Los Angeles validated 88,000 tickets for Eastern excursionists in the season that closed on the first of this month. These figures do not include the heavy winter tourist business, which brings thousands of the wealthy class to the coast. Hawaii ought really to get a larger share of the Coast's mighty tourist flood than she does. Perhaps the campaign is concentrated at the wrong end. If the Easterner were inoculated with the Hawaiian lure before he left home, he might oftener extend his journey to these islands. Once the plan of a tour is made, it takes a good deal to change it. Especially is this the case with tourists who are taking a vacation from business. They lay their schemes before setting out to go so far and stay so long, hence any proposition of going farther and staying longer is a serious one. This consideration will also apply to many cases of tourists of leisure, who similarly arrange the affairs of their households for a definite absence. It may have as much to do with the difficulty of coaxing tourists from the Coast as has the question of steamer accommodation.

Therefore, it were wise to make a stronger campaign at the other end of the line. The starting of a Hawaiian show at the Atlantic City boardwalk is one proper move in this direction.

Mrs. Russell Sage recently announced her intention to establish a chain of loan offices for making advances at legal interest on pledges of personal property. This would be a boon to society. An exchange refers to the large amount of patronage received by pawnshops from the lower social strata, adding: "But there are also those in respectable walks of life who from improvidence, sickness or other misfortune get into desperate need for small sums which they have no way of getting except by pledging their little possessions. They pay high interest, which the pawnbrokers declare to be fully justified by the labor and risk. In some countries, however, these accommodations are given at very low rates of interest, and the business is still profitable." Further, it is presumed that the Sage foundation will also deal in salary loans. Whether or not, if properly managed, the institution will probably be self-sustaining and, by competition and example both, should be the beginning of the end of the despotism of the loan shark and the usurious pawnbroker. By putting the proverbial "uncle" out of business, Mrs. Sage will become the immortal "aunt" of the temporarily impecunious.

According to the print of the Bishop street elevation of the proposed Federal building in the morning paper, the edifice will be only a little less handsome than the Brewer building that the superintendent of public work intends to pull down. A building that is to include the United States hall of justice ought at least to compare favorably in dignity with the county police station. The pictured one comes far short of that standard.

It was supposed that the Federal building should have some tropical character. Its picture would indicate the design of a winter palace for the Governor of Alaska.

One of the shrewdest advertising schemes proposed in a long while is that of the California raisin day committee. It is proposed to have a race across the continent, starting from Fresno, between two cars of raisins, of which the Southern Pacific will handle one and the Santa Fe the other. The whole country will be interested, with the result, no doubt, that the people will be shrieking, after a while, for a let-up of raisins in their dietary. But meantime the California raisin crop will have been sold.

In equity and good conscience, the property owners who put up \$18,000 for Bishop street extension, in consideration of the choice of the Makuka site for the Federal building, will be entitled to have

DIX OVERCOMES THE ELEMENTS

Showing signs of her terrible battle with the elements, in which she suffered a good deal of external damage, the transport Dix is alongside of the Naval wharf, discharging her cargo of 4,500 tons of Japanese coal. For five days and nights, according to her officers the ship was swept with heavy seas that carried damage in their path, and she bucked a wind that was estimated to be blowing over sixty miles an hour. Stanchions, rails, boat gear, ventilator, in fact everything suffered from the wind and sea that threatened to wreck the staunch craft.

The rail along the port side from forward to very nearly aft shows what water can do, while boats and even the bridge has something to show. Several times at the height of the gale it looked as if the ship would be obliged to give up the fight, but constant and effective service on the part of the engineers saved the day when almost certain disaster faced them.

Racing made the powerful screw thrash the air and shake the ship from stem to stern, but the throttling of the engine when the screw was doing her worst saved the situation.

Never before has Captain Ankers experienced such weather on the Pacific and he does not wish to go through the experience again in a hurry.

For the best part of a week the Captain never took off his clothes and hardly ever closed his eyes, the time being spent on the bridge guiding his ship through what looked to be her last trip.

The Dix will remain here for ten days before leaving for the mainland to load horses and forage for the army at Manila.

During the army maneuvers just completed in the Philippines the Dix was used to transport horses to the different battle grounds, over three thousand horses being transported from place to place, while the Sheridan carried the officers and men. On account of her deep draft she grounded in Mike harbor, but escaped without any damage.

M'DUFFIE MEDAL

Following is the English translation of the words of the certificate and on the medal presented to Chief Arthur McDuffie by Prince Tsai Tao last Saturday:

"His Imperial Highness Prince To Lo Bul Lak Tsai, in issuing this certificate found that Mr. McDuffie, an American citizen, is deemed worthy a reward in remembrance of which a medal and this certificate are given to him. Dated, Ta Esing Suan Tung 2nd year, 3rd moon, eighth day."

On the front of the medal is the following "H. I. H. S. Prince To Lo Bul Lak Tsai," and on the back appears the Imperial dragon and "Ta Esing Quen Tung 2nd year."

KATYDID COURT AT KAMEHAMEHA

At eight o'clock, on Saturday evening next on the terrace of the Kamehameha School for Girls, the pupils of the school will give a cantata, "The Katydid," for the benefit of the alumnae loan fund.

"The Katydid" is a story of a mortal who has unconsciously wandered into fairyland and fallen asleep upon the queen's throne "ne'er profaned by mortal feet." There she is found by kind fairies who recall the "Changeless law of fairyland That living thing must die That on Titania's throne shall sit or stand."

By the fairies she is removed to the forest.

The queen and her train of followers now enter. Song and dance hold full sway until Titania discovers that her throne has been mounted by an

earth child. She is filled with wrath and declares that the presumptuous one must be punished. Just at this time Puck enters, bringing after him the mortal child. The queen suspects she is the culprit. The child is tried by the Katydid lawyers. The result of the trial is her acquittal. She returns to her own home and mother after having refused the invitation of the queen to dwell in fairyland.

The program will be varied with selections by Ernest Kaai, Kamehameha Manual glee club, the glee club of the school for girls, and a Spanish dance.

REFUSES TO SIGN RELEASE

Judge Robinson orders that Emma Dreier, on motion of Cecil Brown who is trustee under the will of August Dreier, appear tomorrow to show cause why she should not be adjudged guilty of contempt of court for failing to carry out the terms of final decree in that she refuses to sign a release of all her rights. She was paid \$26,108.49 less \$17,596.62 which latter she refuses to accept under the condition of signing a release.

MOONLIGHT NEXT SATURDAY.

The regular monthly full moon dance at Haleiwa will take place next Saturday night. It is a delightful ride down, by rail or motor, and no pleasanter place has been discovered for spending the week end. There will be good music and plenty of dancing. The dinner will be table d'hôte and a good one. The 3:20 train will get you there in ample time or if you wish to motor down the roads are good.

The Hawaii will leave the Fort street wharf at nine o'clock Sunday morning.

The schooner James Rolph was towed to sea by the Claudine on Tuesday.

Heavy weather has no doubt caused the delay in the arrival of the British steamers Rosebank and Glenshiel.

Financial and Commercial News

By L. D. TIMMONS

BOND SALES ARE FEATURES TODAY

Quite a few bond sales have been made since yesterday, the inference being that money, tiring of waiting on stock activity, is finding its way into permanent investments. Between boards \$4,000 Cal. Refinery sold at \$100 and \$4,000 Wailua lives at \$101.50. There were two sales of McBryde sixes, \$5,000 going at \$98.75 and \$4,000 at \$99. On the board this morning \$2,000 Kaula Railway sixes changed hands at \$100.

Oahu Sugar came in for some attention, although the market was a shade off. Between boards 15 and 15 shares sold at \$36, followed by 5 on 'Change at \$36.125 and, finally, 10 at \$36. At the close \$36 was bid for the stock and \$36.125 asked. The last previous sale was at \$36.125.

One sale of Ewa—40 shares at \$34—was made between boards. This morning, however, the stock was much stronger, \$34.125 being bid and \$34.375 asked.

Between boards there was a sale of 100 Onomea at \$53. At the close \$52.50 was bid and \$53.50 asked.

Two lots of Hilo R. R. common stock was sold on the streets—15 and 50 shares—at \$15. At the close \$14.875 was bid and \$15.50 asked.

Between boards 15 shares Wailua sold at \$135, at which figure the

stock was firm. At the close the same was bid for more, but holders were demanding \$137.

Five shares Hawaiian Sugar found a buyer at \$57, after which the same was bid at \$58.50 asked.

Both McBryde and Olaa were still weak, small sales of the former being made at \$5.625 and of the latter at \$5.50. This morning, however, the same was freely bid for McBryde, but holders had advanced an eighth on the price. Olaa was still offered at \$5.75, with \$5.50 bid.

SUGAR MOVEMENTS.

The ship W. P. Frye will sail from Kahului next Saturday for Philadelphia, taking 5,500 tons of sugar.

The Andrew Welch will sail from Honolulu the last of this week or early next with a full cargo for San Francisco.

The R. P. Rithet and W. M. Marston are both loading sugar at Hilo for San Francisco, and may sail any day.

The ship John Ena will get away the middle or next week for Philadelphia direct, taking 4,650 tons. She will be the last vessel to go around the Horn this year, sailing from Honolulu. The Edward Sewall will go to Hilo to finish her cargo and will be the last vessel sailing from the islands this year around the Horn.

The schooner Muriel arrived at Honolulu April 19, and will get away about the end of the month with a cargo of Hind sugar for San Francisco.

The bark Albert will go from Kailua to Kaanapali and load Pioneer sugar for San Francisco.

The Annie Johnson will take a cargo of sugar to the Crockett refinery.

NEW ADVERTISEMENTS.

BY AUTHORITY

NOTICE.

TO CONSUMERS OF GOVERNMENT WATER.

On and after July 1, 1910 water rate for purposes of irrigation will be raised 1/2 of one cent per square yard of the net area irrigated.

The present rate being 1/2 cent per square yard to the area irrigated.

MARSTON CAMPBELL, Superintendent of Public Works, 4th April 21, 28, May 5, 12.

FOREST FENCE AT PUPUKEA.

Sealed tenders will be received at the office of the President of the Board of Agriculture and Forestry, at the Capitol, Honolulu, until 12 o'clock noon of Saturday, April 30, 1910, for constructing wire fences along certain boundaries above the Pupukea-Paumotu Homesteads, Koolauloa, Oahu. It is required that approximately 9,000 feet of fence be constructed, in accordance with specifications that may be obtained upon application at the office of the Superintendent of Forestry, at the Government Nursery, King Street, Honolulu. Bidders will state the total amount for which they will construct the fence. It is to be understood that additions to or deductions from the approximate length of boundary to be fenced, specified above, shall be made at a corresponding rate per hundred feet.

It is required that a certified check be filed with the tender and that a proper bond be executed by the successful bidder.

The right is reserved to reject any or all bids.

MARSTON CAMPBELL, President and Executive Officer Board of Agriculture and Forestry, Honolulu, April 1, 1910.

10th April 2, 6, 9, 13, 16, 19, 21, 23, 27, 29.

TERRITORY OF HAWAII.

Treasurer's Office, Honolulu, Oahu. In re Dissolution of the Hawaii Wood Company, Limited. Whereas, the Hawaii Wood Company, Limited, a corporation established and existing under and by virtue of the Laws of the Territory of Hawaii, has pursuant to law in such cases made and provided, duly filed in this office, a petition for the dissolution of the said corporation, together with a certificate thereto annexed as required by law.

Now, Therefore notice is hereby given to any and all persons that have been or are now interested in any manner whatsoever in the said corporation, that objections to the granting of the said petition must be filed in this office on or before 12 o'clock noon, June 10, 1910, and that any person or persons desiring to be heard thereon must be in attendance at the office of the undersigned, in the Executive Building, Honolulu, at 12 o'clock noon of said day, to show cause, if any, why said petition should not be granted.

D. L. CONKLING, Treasurer Territory of Hawaii, Honolulu March 29, 1910.

10th March 31, April 7, 14, 21, 28, May 5, 12, 19, 26, June 2.

TALK ON THE NEW PUBLIC BUILDING

Louis Ayres, representing York & Sawyer, the architects of New York whose plans for the new Government building in this city were accepted at Washington, exhibited his plans before the Chamber of Commerce yesterday afternoon. The drawings submitted to the treasury department, he stated, were merely tentative, giving a general idea only of the scheme; the intention being to "write in" such details as might be found necessary after looking over the ground.

As drawn out the preliminary plans show a three-story building, but it is so arranged that another floor may be easily added. The building is to cost \$800,000, an amount which should supply a building to compare favorably with the Young building in the immediate locality.

The talk of Mr. Ayres brought up the old subject of the site of the new building. The architect took no part in this phase of the matter, leaving it entirely to those present to discuss. The "civic centers" champions again urged the proposition of having the building near the Territorial government buildings, and made it appear that the fight on this point is not yet over.

Mr. Ayres will be here several weeks and in that time all the frills to go on the permanent plans will have been added.

GENERAL.

A meeting of the Promotion Committee, for the transaction of routine business, will be held at 3 o'clock this afternoon.

An important business meeting of the Rapid Transit directors will be held at 3:30 this afternoon.

F. B. Damon, of the Bank of Hawaii is at his desk again after a tour of California.

BIG PRIVATE SALE OF HILO RAILWAY

A private sale of 7,000 shares Hilo Railway common stock has been made at \$15.50.

On the Stock Exchange at the time the stock could have been had for less, perhaps, in small quantities; while bidding was at only \$14.875. In explanation, the purchaser of the stock stated this morning that while he could have obtained small quantities of the stock at less than \$15.50, he wanted a large block at once and was forced to pay high for it.

The seller of the stock is more or less interested with the buyer in the Hilo Railway enterprise.

The following papers were filed up to this afternoon for registration: H. F. Lewis to J. H. Fiddes, deed. J. H. Fiddes and wife to H. F. Lewis, mtg.

Geo. N. Wilcox, M. W. McChesney & Sons and August Dreier Ltd., respectively, to Jay Chee, release. Joy Chee to West & Haw. Invest. Co., mtg.

W. T. Raposa and wife to Mut. Bldg & Loan Soc., mtg. S. Okuno to Selselds Drug Co., chat OaA HC cmfwy vbkg shrdl vmfwy mtg.

Liliuokalani to A. S. Cleghorn, et al., tr. deed.

L. Keoloha to Keoloha Jr., deed. Elizabeth D. Keoloha and husband to Nany K. Eldredge and husband to E. M. Magoon, deed.

Tong Fat, et al., deed. K. Iona to K. Kekahuna, deed. Kaneohi Rice Mill Co. to Bishop Estate, deed.

S. Mahelona tr. Y. Ahin, lease.

EMILY SAVIDGE GETS DIVORCE

Judge Robinson orders that Emily Savidge and William Savidge be divorced absolutely and that Emily Savidge do have the custody and control of the six minor children. It is also ordered that Savidge pay the monthly sum of \$130 alimony, subject from time to time to modification by order of the court, and that libellee pay the costs.

CLEVELAND HITCH PIQUED GERMANY

The squabble over the act of the excursion steamer Cleveland in transporting passengers between Honolulu and San Francisco is at an end; but it is still interesting to know what the Germans thought of the treatment threatened their steamer. Kulow's German Trade Review, probably the leading commercial journal of Hamburg, was quite sore about the matter and had this to say under date of March 23:

Whoever was responsible for chartering the Hamburg-American steamer "Cleveland" for a round-the-world tour and did not take into consideration violation of the coastwise laws, knows better now and may have a good lesson about the peculiarity of this "protective" legislation to Americans. The Borsen Courier learns that the Hamburg-American line is not greatly disturbed by the attempt of the American authorities to impose a fine of \$1,000 on the steamer "Cleveland" for an alleged offence against the law regarding coastwise navigation.

As a matter of fact, the steamer was chartered to an American company, which is carrying out a pleasure trip from the Atlantic to the Pacific, and which must hold the owners of the steamer harmless. The action of the American authorities has, however, caused a good deal of bad feeling in Hamburg, and a fear that methods of rather sharp practices which has already been noticeable in connection with the emigrant traffic may also be extended to the carrying of German ships. The attitude of the United States authorities is regarded as noteworthy at this particular moment, when the Customs relations between America and Germany are in the course of settlement. Their action, it is maintained rests upon no legal basis, but upon a completely new interpretation of the law, which it is hoped will in due time be rejected by the legal tribunals.

It is thought in Hamburg that the American authorities should consider how much the United States owes to German shipping and should promote rather than hinder traffic of the kind.

TRIUMPH SCORED

A bumper house for the third consecutive performance of a play in Honolulu is unusual if not unparalleled. Such was the triumph scored by the McRae Company last night with "Paid in Full," the Opera House being jammed with one of Honolulu's most representative audiences.

There was applause at many situations. The very stage setting—Captain Williams' apartment—in the third act was loudly applauded before its occupant had showed his seadog face or any living being appeared.

Louis Morrison (Capt. Williams) and Margaret Oswald (Emma Brooks) responded to a curtain call at the close of the same act. Their acting throughout was superb. The support was good all through.

"Old Heidelberg" is the bill for tonight and the rest of the week.

LARGE FUNERAL OF T. R. LUCAS

There was a large attendance, mainly of kamaeas, at the funeral of the late Thomas R. Lucas yesterday afternoon. Flowers were contributed in immense variety some of the emblematic pieces being particularly fine. Rev. H. H. Parker conducted the services and the pallbearers were John Carden, C. J. McCarthy, John Mackham, William Warner, T. C. Beck and Edward Hingley.

A long procession of carriages followed the hearse to Nuanu cemetery where, after brief services, the body was consigned to the crematory. H. H. Williams was the undertaker in charge.

THE INDIAN MEDICINE MAN can produce roots and herbs for every ailment, and cure diseases that baffle our most skilled physicians, who have spent years in the study of drugs.

From the roots and herbs of the field originated Lydia E. Pinkham's Vegetable Compound, which for thirty years has proved more potent and efficacious in curing female ills than any combination of drugs known.

ANTIS WILLING TO COMPROMISE

Intimation has been received here that opponents of the proposition of coastwise suspension in Washington have carefully broached the subject of compromise, they expressing a willingness to reduce the fine for traveling in a foreign bottom between Honolulu and San Francisco from \$200 to \$25 one way.

This is, of course, a great reduction in the penalty and quite a concession on the part of the rally-round-the-flags; but it is doubtful that the out-and-out suspensionists will accept it as entirely satisfactory. An element of the latter seem to feel, however, that a scheme of a \$10 fine would relieve the situation and at the same time save the face of those opposed to the idea of suspension.

It is clear from information received here in the past few days that a very fierce fight is being put up in Washington on the matter, and that

CAMPBELL EXPLAINS

Public Works Superintendent M. Campbell issues a water rate explanation, in part as follows:

The law pertaining to any changes in water rates requires that notice by publication be given sixty days prior to date of collection. To secure the rights to make proper adjustment of rates, I published the notice required.

Since early in February a resurvey of the premises of water consumers has been under way, using such data as was in possession of the department and, where necessary, new measurements taken. The investigations have developed many peculiar conditions—in many cases rates too high and in others too low.

Two-thirds out of nearly 5,000 privileges have so far been completed, and the adjustments on the basis of the new have not yet reached the sum of \$5,000.

Under old methods the total area of premises was taken and deduction made for building, only no allowance being made for areas not irrigated.

The new rate is an increase of one-eighth of one cent per square yard per year of the net area irrigated.

By May 30th the calculations will be completed and publication made showing the difference in both reductions and increases from old rates.

DUMMY ARRESTED

Pedestrians along King street late last night were given quite a scare when it was learned that Anderson Grace "had been caught on the steps leading up to the Advertiser office."

A crowd of several hundred people was on the street when Officer Gumpner came along to arrest the murderer, having been summoned by telephone at the police station. When he arrived he found the supposed unconscious form of Grace resting on the steps, but a hurried examination disclosed the fact that the form was only a dummy.

The outfit of the man was complete in every way with the exception of the suit of stripes, which was an old suit of white painted so as to represent a prison suit.

The party or parties responsible for the joke are unknown.

The usual number of false reports about Grace have been in circulation all day around the police station, but so far no definite clue has been obtained of the missing man.

Chief McDuffie and his men were out until three o'clock this morning, but found no trace of Grace.

McDuffie thinks that the man is being hidden in some house by his secret friends and is well supplied with food and other comforts, as Grace is not a man to take to the open, suffering, as he is, from sore feet, and he would be unable to travel very fast.

Mrs. Grace is still being held at the receiving station and seems anxious to get out, although she will be kept under guard until her husband is found.

Now that a reward has been offered for the return of Grace, the many people who think they know where he is will have a chance to go

out and make good. The search will be kept up by the men under McDuffie and High Sheriff Henry until Grace is found.

the question of straight suspension is in some doubt; and even if it were successfully pressed the scheme would be constantly menaced by its enemies. This is causing some local feeling that if a compromise along the lines suggested above were reached, a plan with greater promise of satisfying all concerned might come out of the discussion.

MOUNTAIN KING TO ISSUE STOCK

J. Harris Mackenzie has brought the information to Honolulu that Mountain King Mining and Milling Company will issue to present stockholders \$100,000 of the treasury stock of the corporation at \$1 per share, payable in installments, the money to be used for installing additional stamps and paying agency debts.

Information has been received from a source other than Mr. Mackenzie that several citizens of Hawaii have recently investigated Mountain King and found the mine itself fully up to what has been claimed of it; but the appliances for working it are inadequate and considerably out of date.

Hawaiian investors now have such a large hold upon the proposition that important suggestions made, or wishes recently expressed, by them will be carried out; and indications point strongly to the complete control of the mine by local people at no distant day.

out and make good. The search will be kept up by the men under McDuffie and High Sheriff Henry until Grace is found.

There's nothing so bad for a cough as coughing. There's nothing so good for a cough as Ayer's Cherry Pectoral.

When you have a genuine cold or a hard cough, or when there is inflammation in the throat or lungs, then you need

Ayer's Cherry Pectoral

It is a carefully prepared, accurately compounded medicine for all diseases of the throat and lungs. It contains strong and active ingredients, such as are extensively prescribed by the medical profession. It is the oldest, strongest, and best medicine for coughs and colds you can possibly buy.

Accept no cheap and worthless substitute. Be sure you get Ayer's Cherry Pectoral. It contains no narcotic or poison of any kind.

SPORTS

BY JAMES W. W. BREWSTER.

CONSOLATION PLAY ON MANOA COURTS

The consolation tennis tournament which was scheduled for next Saturday night at the Manoa Club courts, has been postponed until Thursday evening April 28. The losers who played against the winners of last week's play, will meet for the prizes offered by the Manoa Improvement Club.

A new feed wire for the arc lights arrived on the Wilhelm and will be placed in position in a few days. The agents for the lights claim that the new wire will do away with the flickering which was so noticeable last week. If the lights do not improve with the new feed wire, incandescent lights in clusters will be installed at once, as great interest is being taken in these night tournaments.

Judge Cooper will present the winners of last week's matches with the cups presented by the club, and will also present the Improvement club cups at the completion of play on Thursday night. The ladies of the club have kindly offered their services, and will serve refreshments during the evening.

MEMBERS TO MEET.

The annual meeting of the Beretania Tennis Club will be held next Monday afternoon at the club courts on Young street, for the purpose of electing officers for the ensuing year, and to arrange dates for the club events this summer.

One of the important matters that will come up for action, is the question of increasing the membership of the club. At the present time there is a large waiting list who are anxious to become active members, but as the policy of the club has always been to keep down the active list it is doubtful if any new members will be added.

Another matter that will be discussed, will be the question of installing electric lights on the courts so that night tennis will be possible. Since the Manoa Club installed their lights, a great deal of interest has been taken in night tennis and it is quite possible that the members will vote to have lights installed.

The Beretania Club has a lease on the land mauka of their present courts, and if a larger membership is voted it is almost certain that new courts will be built as the three present courts are not large enough for the members who want to play; many times all three courts being used when players are waiting. There has been some talk recently of the Pacific Tennis Club joining in with the Beretania club, and if the deal should be consummated more courts will be necessary as tennis is a very popular game here and at present there are not enough courts to accommodate those who want to play. The meeting will start at five o'clock sharp, all members being requested to be present on time.

ENDURANCE RACE.

July 3rd is the day scheduled for the start of the 24 hours skating race at the Princess rink, and judging from talk about town a large entry list is expected. Entries for this race will be received in pairs, as one man will not be required to race the full twenty-four hours unless he wants to go. The plan is to limit the entries to twenty-five teams, only allowing one member of each team on the course at the same time. Rules governing endurance races on the mainland will be used for this race. The entry list will be ready shortly for those who wish to enter and will be kept open until the 30th of June. Several valuable prizes will be hung up for this event which will be the first of its kind ever held here.

RECORDS LIKELY TO GO.

Island track records are very likely to be broken on Saturday afternoon in the Y. M. C. A. meet, as the crack runners of the Territory are entered in the five events that will be held. Rice, who is conceded to be the fastest runner in the islands is going out to break all records, especially in the 100 and 220 yard dashes.

Dr. Hand who has always taken a very active part in local athletics, has worked hard to make this event a success, and it is to be hoped that his efforts will be rewarded. As there are very few entrants in each race, the conditions are favorable for fast time being made. The track at the Boys' field has been put in excellent shape, and is now considered to

be the fastest in the city on the straightaway.

The first event will be started at 2:30 sharp, the last being scheduled to start at 3:30.

The following is the corrected list of officials:

Announcer—John C. Anderson.
Starter—Paul Withington.
Scorer—James W. Brewster.
Clerk of Course—P. N. Folsom.
Referee—Paul Super.

Timers—C. F. Chillingworth, C. B. Cottrill, E. B. Blanchard, W. R. Chilton Jr., V. L. Stevenson, Ben Hollinger, E. H. Hand, M. Ferreira.
Judges—P. L. Horne, C. T. Fitts, C. J. Hunt, R. S. Gault, Theo. Richards, Lieut. Bowen.

Mayor Fern has consented to present the prizes at the completion of the afternoon program.

GOOD SPORT PROMISED.

Lovers of the "sport of kings," will have a chance to see some good races at Wailuku on the nation's birthday, as the Maui Racing Association are planning a day of sport which will equal some of the old June 11th races.

A number of crack mainland horses will be entered, as will be some of the best in the islands. The Inter-island company are planning to send the Manna Kea this year as there will be no excursion to the Volcano. In addition to the horse racing several other sporting events are to be held which will no doubt attract a large crowd.

As July 4th falls on a Monday those who go to Wailuku will leave here on Saturday afternoon, and will return early Tuesday morning in time for work. It is understood that several Honolulu horses will compete for the valuable prizes offered. As racing has been a dead issue in Honolulu for some years, those interested in the great sport will have a chance to see some good races on Maui. As the complete program is not ready, it is impossible to print the list of events today, but as soon as it is it will be published in these columns.

READY FOR RACE.

Everything is in readiness for the starting gun on Saturday night which will send twenty five of the fastest skaters in Honolulu off on their 26 mile, 385 yard journey at the Princess Rink. Every detail for the comfort of the spectators and entrants has been provided for by the management of the rink, and with good weather the record crowd for the rink is expected.

Mayor Fern will start the race promptly at nine o'clock, the time limit being set so every one will be able to get the last car home.

Great interest is being taken as to who will win second place, as every one feels certain that Forrest will win the race barring accidents. Skating will be allowed from 7 until 8:30, but no one will be allowed on the floor after that time as the track will be made ready for the race. Seats will be provided in the roped off section in the center of the rink for the officials and press and no one else under any condition will be allowed inside of the enclosure. A board plainly visible from all parts of the rink will be used for placing the men's position at all stages of the race. In addition to that announcer Anderson will give the time at the end of each mile.

People holding reserved tickets for the maul-Ewa section are requested to come in the Hotel street entrance, and those holding seats in the other reserved section are asked to enter at the Royal Hawaiian and Concordia bands will furnish music during the entire evening.

All officials are again requested to meet at the Young Hotel roof garden at 7:30 sharp Saturday night for the purpose of going over the rules that will govern the race.

RACE IS OPEN TO ALL.

Owing to a mistake on Jackson's part, the fifteen mile running race scheduled for May 30 will be open to every runner in the territory, and not a closed race as many have understood. Already some of the avvil chorus have gotten out their hammers and have started to knock the race, on account of Jackson making the alleged statement that some runners would be barred. The person or persons who have commenced the usual talk when anything is thought of without first consulting them are a poor collection of would be sports,

and the sooner they learn that their advice is neither sought or wanted, the better for all kinds of sport in this city.

OFFICER WINS SHOOT.

Major Long, commandant at Camp Very, won the sixth weekly shoot yesterday afternoon at the Kakaako traps, making 19 out of a possible 30. The other scores were:

Unknown Angles	Known Angles	Total	Possible
N. Bobo	10	8	14
J. W. Harvey	10	8	18
C. G. Long	11	8	19
A. B. Odell	5	17	17
Irwin Spalding	2	18	10
C. F. White	7	8	15
H. D. Brown	8	10	18
J. H. Ellis	7	3	10
Captain Penhallow	2	4	6

MARINES WIN AGAIN.

Last night at the Princess Rink the Marines again showed their mettle on roller skates, by defeating the newly formed town team in the best two out of three pulls. The time being thirty seconds for the first and fifteen for the third pull. The townies won the second pull in eighteen seconds. The Marines will meet the Fort Ruger team next Sunday night.

BENEFIT FOR HAWAII.

On Tuesday evening next, yachting enthusiasts are expected to turn out in large numbers at the Empire theater for the amateur performance which will be given, the proceeds going towards the fund to equip the Hawaii for the coming transpacific race which starts on July 4th. A sum of at least \$2500 is required to send Hawaii's representative to the coast, and as the manager of the Empire, Mr. Overend, has kindly offered to turn over his popular house to the good cause gratis, there is no reason why the house should not be packed with people. Some of the best local talent have generously offered their services for this night, and although the regular performers at the Empire will be seen, the affair will be nearly an amateur one.

Tickets for the evening can be secured from any of the yacht club members, and the dollar charged is going for a good cause. Even if you don't care for yachting, get out and help a cause that is a good advertisement for Hawaii. From what can be learned President Taft will start the race from the White House, as was done by President Roosevelt in the first race.

SPORTING NOTES.

Get out and boost for the Hawaii's benefit. If you can't do that go out and sell tickets.

Charley Wilder will sail the Hawaii on Sunday. Harry Wilder will officiate as first mate, with Chan Wilder as boatswain.

The above looks like a Wilder combination.

All three however know how to sail a boat.

The members of the press are welcome on board the Hawaii.

Red Brown will help sail the yacht Gladys.

The veteran yachtsman Ray Rietow, an authority on all things nautical, will also be on board the Gladys.

Tommy Hobron is boosting the transpacific race all along the coast. Keep up the good work Tommy.

Sam Chillingworth says the Japanese A. C. are a hard team to beat. You are right Sam.

The officials of the Oahu baseball league would like to see Ed Fernandez at the meeting tonight. Come along Ed and tell them what you know.

Baseball prospects for the different leagues are looking bright.

What has become of the proposed International Baseball League Mr. Proposer?

Such a league would cause a great deal of interest among the different nationalities no doubt.

Bishop and Company are going to put in a good team for the opening game.

The great English national game will have its innings shortly.

The grand old man of local cricket is going to play again this year so he

says. The fountain of perpetual youth is somewhere near his home no doubt.

When it comes to playing cricket, the Honolulu team can play a good game.

COMING EVENTS

- BASEBALL.
- April 23—Marines vs. N. G. H. Hospital Corps vs. Fort Shafter.

ROOSEVELT ROASTED BY HEARST

(Associated Press Morning Service.)

WASHINGTON, April 21.—William Randolph Hearst, after first being closeted in consultation with President Taft, yesterday issued one of the most astonishing statements of recent history in politics, taken by some to prove the charge that there is now to be an open conflict between President Taft and former President Roosevelt. Hearst's statement is an unqualified endorsement of the President and a scathing denunciation of Roosevelt and his administration.

NO INTEREST IN REMAINS.

NEW YORK, April 21.—Stolidly indifferent appears Albert W. Wolters, now on trial before Judge Foster of the court of general sessions, for murder in the first degree, in spite of the evidence piling up to prove his guilt in one of the most brutal crimes in the police annals of this city. Yesterday, when the charred remains of the fragments of Little Miss Ruth Wheeler, his alleged victim, were placed before him, offered in evidence of murder by the prosecution, he calmly surveyed them and showed no sign of even passing interest.

Wolters is charged with having choked the girl to death at a time when she was in his office applying for a position as stenographer. Her body, which had been partly consumed in order to hide the evidence of the crime, were found several days later, wrapped in oilcloth, on the fire escape of a neighboring building.

BLOODSHED IN RIOT.

PITTSBURG, April 21.—Death followed a charge of the police upon a body of strikers here last night, four of the unionists being shot in their battle with the authorities. The strikers were gathered around the works of the Press Steel Plant, making a demonstration. A police posse ordered the strikers to disperse and proceeded to enforce their order. The strikers grew ugly and fought back, whereupon the police drew their guns and commenced shooting into the mob.

AEROPLANE CARRIED FOUR.

CHARLEVILLE, France, April 21.—Roger Semmer performed a remarkable aeroplane feat yesterday, driving his machine across country in a five minute flight with four passengers. This is the record number of passengers to be carried in any dirigible of the aeroplane type, no previous flyers having attempted to carry more than one passenger. The flight and descent were made without accident.

MONROE DOCTRINE

President Taft is quite right on the Monroe doctrine, so-called, because it is, or was, a British warning and emanated from Canning, the British statesman. And President Taft is correct in saying that it was an "apprehension"—a better word could not be given to it. The Spanish armada was another "apprehension," but the gale on the British coast and the fleet of warships made it vanish. And lately the fear of a visit from the warships of Japan was another "apprehension" that made Mr. Taft hurry home and Rear Admiral R. D. Evans take the United States fleet through the straits, a wonderful feat, for which the United States never thanked him as it ought.

October 24, 1823, Jefferson, then at Monticello, wrote to Monroe that Canning told Rush "England would like the United States to take a decided stand against the intrusion of the holy alliance in South America," etc., and Monroe obeyed Canning and Rush and Jefferson and put the British request into his message and behold it became a "Monroe doctrine." How simple! And yet Monroe did not know until Jefferson found it for him. How few read the facts or the truth.

Hot days and warm nights with their perspiration and heated blood, bring discomfort which quickly gives way to refreshing coolness after using Pacheco's Dandruff Killer.

With the best of everything, cooked in the most approved way and served properly. Nolte's deserves and enjoys the esteem and patronage of most business men. A trial is all that is asked.

Judge Robinson orders approval of accounts in the Alle E. Folker estate, Henry Waterhouse Trust Co., administrator. Willie E. Folker, brother of Santa Cruz, is sole heir. The estate was originally worth about \$4,500.

Call at the showrooms and get twenty-five green stamps free. Everything in the showrooms is free for green stamps. Call today or any day. Beretania, opp. Fire Station.

Judge Robinson today denies petition of John Greig for mandamus of Land Commissioner Marston Campbell to give public notice of the opening of Kaunamano homestead lots, Kau, Hawaii Island.

A warrant for the arrest of Sam Pupuhl employed by the von Hamm Young company, on a charge of gross cheat, was sworn to this afternoon by S. W. Kamohalo who claims that Sam sold him an automobile that did not belong to him, making \$450 on the transaction. Attorney Quinn went on Pupuhl's bond of \$1,000 which had been set by Sheriff Jarrett.

Tuberculosis was the cause of eight out of nine deaths from contagious diseases in the district of Honolulu during the fifteen days ended April 15. Diphtheria was the cause of one death.

There were six cases this morning at police court, only two being disposed of, the rest going over. David Manuel, who is charged with larceny in the second degree, came near answering to a charge of contempt of court, as he was warned several times about talking too loud in court and generally making himself a nuisance. His case was put over until Tuesday. A. Bolin an automobile driver on the Bethel street stand charged with using threatening language to his family had his case continued until tomorrow. Kalan, an old offender in police circles, was sent over to the county jail sixty days for drunkenness. Manuel Camacho, who used profane language, was fined \$7 and costs.

SHIPPING INTELLIGENCE

(For News of Mail Steamers, etc., see Page 2).

ARRIVED.

Wednesday, April 20.

U. S. A. T. Dix, from Moji.

Thursday, April 21.

Am. S. S. Claudine, from Hawaii.

and Maui ports.

SAILED

Wednesday, April 20.

Am. S. S. Nevada, for San Francisco.

Am. S. S. Wilhelmina, for Hilo.

CHARTROOM GOSSIP AND HARBOR NEWS

The transport Dix arrived yesterday afternoon from Japan. During her trip she encountered terrible weather. The port rill nearly the entire length of the ship was bent by the heavy seas that continually swept aboard. Several boats were damaged and for a time it looked as if the big ship would go down, but good seamanship counted and Captain Ankers brought the ship into port five days late. She will remain here at least ten days discharging her cargo of coal for the army.

The Sierra wired in last night that she was 490 miles from Honolulu, with fine weather. She will arrive off port early tomorrow morning.

Kahuku caught the Siberia last night when she was 763 miles out from bound for Yokohama.

The American-Hawaiian steamer Nevada got away for the coast at five o'clock yesterday afternoon. Her next trip will be under the Matson line management.

Captain Johnson got away for Hilo with the Wilhelmina last night at six o'clock.

The Claudine arrived early this morning from Hilo and way ports.

Agents for the Asia expect her to from Honolulu bound for Yokohama. He delayed on account of rough weather, so as not to arrive from Yokohama before Saturday morning.

Cable news from San Francisco reports the arrival of the transport Sheridan yesterday.

Wireless news is expected from the China tonight. She is the third ship of the Pacific Mail to be equipped with wireless.

According to a cable last night, the Laurine had just arrived in San Francisco.

The Matson liner Hyades will sail from Seattle on Saturday for Honolulu.

Captain Kelley of the Andrew Welch hopes to get away tomorrow for San Francisco.

Work of loading sugar has started on the John E. She may get away next week for the Atlantic seaboard.

The Revenue cutter Thetis will be out ten days this time. Another attempt will be made to land on some of the islands to the westward.

The Sierra and Wilhelmina will take full passenger lists to the coast on Wednesday. Both ships are scheduled to sail at ten o'clock. The mail will be taken on the Sierra as she is much faster than the commodore ship of the Matson line.

The following vessels are at Kahuku: W. P. Frye, Admiral, and Matthew Turner.

Claudine reports the following vessels at Hilo: W. H. Marsden, R. P. Rithet, Irmgard, and Missourian.

Yesterday's run of the Sierra was 354 knots. She will be off port at daylight and will probably be docked before seven thirty.

AUTOISTS CONTEST

Territory vs Tom Quinn, alleged reckless chauffeur, is on today before Judge Cooper. Joseph Lightfoot, et fils, are specially prosecuting on behalf of George Davis, chauffeur, alleged to have been shot into Levy's grocery window by force of a bump from Tom's big auto.

Clem Quinn, assisted by J. Alfred Magoon, represents defense. Clem is a brother of defendant and is therefore giving his service free.

Jury is much interested in testimony. Lightfoot wants to know who was in the backs about the Grill at 1 a. m., the time of the accident. Witness sayeth not.

KEYS AND FERTILIZER

Marshal Hendry and High Sheriff Henry, "Hendry and Henry," were out last night, not on a "joy ride," but chasing the negro murderer, Anderson Grace. He has not yet been apprehended.

Hendry forgot to leave the keys of the Federal Judiciary departments in the building, with the result that the Marshal's office was closed all morning and the petit jurors had to walk through Clerk Gus Murphys office to get to Judge Robertson's court.

High Sheriff Henry was reported to be at the fertilizer works, purchasing "foregrowth," at 10 a. m. today, so the chase must have led by Kailhi way and not very far out of town.

Not that lost keys on Hendry's part, or the purchase of fertilizer on Henry's part have anything to do with an escaped murderer or a midnight chase, but that such are the facts.

SCHLEMMER IS IN LUCK

United States Judge Robertson has sustained the demurrer of Max Schlemmer to two indictments, growing out of his landing Japanese on Laysan and Lisianski islands on four grounds, as follows:

That it is charged that Schlemmer brought in the aliens through other parties.

That the indictment attempts to charge nineteen separate and distinct offenses in one count.

That it does not appear that said aliens were not lawfully in the United States or not entitled to enter the United States.

It is no offense and is not unlawful to bring aliens by vessel and land them within the United States of America through and by means of others.

Judge Robertson reserved decision on the demurrer to the indictment charging Schlemmer with poaching on United States bird reservation.

MILD LIQUID CURES ECZEMA.

Skin sufferers! Drop greasy salves and nasty medicines. That mild, soothing liquid, D. D. D. Prescription, stops the awful itch with the first drops. A doctor's prescription of acknowledged value. Get a bottle at Honolulu Drug Co.

TO BOIL FOOD IS TO SPOIL FOOD

STRANSKY WATERLESS QUICK COOKER

Cooks in its own steam. All the strength and flavor retained. FOR MEATS, POULTRY, VEGETABLES AND FRUITS.

Lasts ten years. Cooks in one-third less time. Prevents burning or scorching of food.

Prevents "catching" inside. Prevents unpleasant odors.

Gives food a delicious flavor not to be had in other utensils. Saves time in cleaning because the inside remains perfectly white, and the cooking need not be watched.
