Last Night.

Reasons Why the People Should Work for Cause.

William R. Castle, Cecil Brown, Geo. A. Davis and Charles Creighton Hit the Mark.

The regular monthly meeting of the Annexation Club was held in the Drill Shed last evening. In the absence of President Thurston, who was suffering from a severe headache, First Vice President B. F. Dillingham occupied the chair. In the absence of the secretary, A. G. M. Robinson read the minutes of last meeting.

audience was due to the late arrival of ral press that count against us. the mail from the Coast. The question of annexation and the interest felt in it by the people was not to be judged by the attendance upon the regular meetings of the club. It was the one enduring is-Carl Klemme, Propr. of the caus. It was the one enduring is sue, and was strengthening every day. The speaker then introduced Hon. Cecil Brown as one who was born in the country and was familiar with the people, their sentiments and also with the question of the hour. Mr. Brown said: 'Gentlemen:-If anyone had told me six years ago that I would address a meeting tonight favorable to the annexation of Hawaii to the United States, I don't know what I would have told him. Time orings changes. Today I favor the cause to the extent that I will not be satisfied until we are annexed. The past six years has brought vividly to our attention the want of a strong government, one able to foster our interests, protect our people and our welfare. To accomplish this, we are urging one purpose—to become a part and parcel of the United States. I do not know that we will get it, but I hope so. The reason we want it is to have a govour prosperity and good fortune. As I said before, the only way to obtain this

is by annexation. "The question we have to present to the mother government is our desire for innexation, not as a band of adventurers not as a measure for our pecuniary benefit. It is not that. It is with the hope and belief that the country of our adoption may be insured peace and prosperity that we present the question. I abmit to you and the country, to Hawaiian and foreigner, that our peace and happiness lies in our chances of coming under the Stars and Stripes. The reason of those who oppose us is not the welfare of the country or those around them, but rather their own pocketbooks. In questions of this kind the pocketbook hould be left aside, and we should look o the good of the country at large. If he parties opposed to us should succeed, and we be relegated to a position of having to rely on ourselves alone, or combelled to paddle our own canoe, and Reci-'Gentlemen, help us.'

procity, under which the country has prospered so, should be taken from us, where would we be? Then those who now oppose us would be ready to cry out: "There is a question which is dwelt ightly upon, but which must be seriously onsidered. It is the steady colonizing from other parts of the world that is going on here. The signs of the times indicate our need of help and strong proection, when questions may arise fatal o our very existence. We see daily peole coming here from other climes. The eason is that they have seen these fair sles, this little country far out in the nid-ocean, isolated, and have seen that hey could silently colonize it; and unless, gentlemen, we can obtain the protection f some strong power, our identity must ultimately be swallowed up. People in this country have believed for over 25 years that the day would come when we would need some support from without. 'We all know what brought about the novement of four years ago. It was the Anglo-Saxon spirit rising and saying: We will be governed, but not dictated to. We will live as we should live and do what we ought to do, but no further." There we stand today. We are governed oday as we think we should be governed; ut our one thought is admission to that ountry all the world looks up to. We sk admission without terms. 'Take us n,' is our cry. We want stability, sesurity for our families, for our enterorises and we want peace. If we are admitted, all this will come. This is what has actuated our movements since 1893; and any assertion that the movement was nade for gain, by adventurers, is unsupported and should not be accepted. We are not here as the representatives of the nited States, asking for admission. We present this country and its interests. Annexation is the sole hope of Hawaii. It is the only arm that will give us protection, give peace and prosperity. That is our aim: it will be until we get it, and it should be. Can we say we have done anything in the past four years to impede its consummation? I think not. We have met the question fairly and squarely from the first; have met argunent with argument, fact with fact; and I think with a majority of the patriotic, thinking people of the United States, this ountry has already been adopted as a art and parcel of it.

The chairman, Mr. Dillingham, had the pleasure and good fortune to arrive here years ago. He could say that the charge that missionaries and "adventurers" had lived here since to rob the natives was absolutely false. Six or seven ears ago little of such by-talk was ever heard. In former years annexation was not talked of, either. Two men of Ho-Navel Oranges and Lemons, New California nolulu used to make themselves conspicuous by advocating it. One of the them was Dr. McGrew, who is often called the 'father of annexation." Two months ago Fresh California Creamery Block Butter in this gentleman had startled the speaker with the proposition that the missionaries and missionary children did not want annexation. He gave as a reason

ntry for advocating it. Mr. Castle was sent and could explain, said the chair-

"Fellow Citizens:-My memory turns back by an irresistable impulse to the last occasion when I made a speech in It was over three years ago. rgotten the occasion. At that time, i remember correctly, there was a gravel or to the hall: we had merely a small platform to speak from, and no chairs for the people. The house was filled by an anxious crowd. Everyone was thinking of reports that had come from Washington of a terrible wrong about to b emmitted. It was that Mr. Cleveland ad decided to ask the existing government to step down and out, and give place to monarchy, which had been overturned nine months before. We were here to protest against such a course, and to devise measures to prevent the wrong about to be done. We felt that if Mr. Cleveland knew the facts he would ac differently. We meet tonight with an equally important aim in view. It is to discuss measures for our safety, as we see it now in annexation to the United

"With respect to the remark of Dr. Mc Grew, I will just say a word, and let the matter go at that. I suppose a missionary is as good as anybody else, so long as he behaves himself.

"How can we accomplish our annexa-tion purposes. There is not much occasion for spending money and our strength on work in Hawaii. Most of the natives and others are convinced that Hawaii would be safest under the fostering care of the United States. What is now wanted is to bring the question prominently before the people of the United States. There is where work is needed. There is where our sworn enemy, the Sugar Trust, is at work. Harper's Weekly recently devoted two columns to an attack upon annexation. I believe this was paid Mr. Dillingham explained that the small stantly putting items in the city and rufor by the Sugar Trust. They are con-

"In 1893, when the Annexation Commission was on its way to San Francisco, the question of how the reporters should be treated came up. We decided that the newspapers must be made our friends. So upon our arrival we gave exhaustive reports, not only to the big dailies of San Prancisco but to the press agencies to be irculated all over the country. Next nornin- the newsboys on the streets of New York City were crying: 'Revolution in Hawaii! The Monarchy overthrown and/a Provisional Government establishd!' By that means attention was fixed on Hawaii, and has remained so ever

ince. That is just what we want. "The question is presented again. With a riendly administration at Washington, we eel that the time for renewed efforts is at and. The Trust says through Harper's Weekly that we will now make a 'dastardly attempt to rush in.' How can we meet this thrust? The Government cannot meet it; the Annexation Club cannot. Every person in Hawaii can do something. The work must be with the people direct. Let everyone writing letters ernment stable, a government able to to friends in the States urge the question protect us, a government able to insure and ask that the arguments set forth be circulated. The story of the woman in Illinois who sent out a number of repuests for postage stamps, and asked that ich letter be referred to three of the eceiver's friends, will be rememebered. The result was that a great volume of leters were soon on the way to the deviser of the ingenous scheme. Let each one write a friend and present good, solid arguments why this country should be annexed by the United States, and rejuest that the letter be circulated among their friends. The scheme will bring good

"It is commonly heard that Congress is ontrolled by trusts. They have an inuence. Behind Congressmen, however, are their constituents, and they think twice before they act in a matter in which their constituencies are concerned Write to these constituencies and give commercial reasons why Hawaii hould be annexed.

"We have reasons enough at this end of the line. But why should the United States want annexation? Army and navy officers of the United States favor it for military reasons. Others reply to this by saying that, in event of war, it would cost more to defend the country than it s worth. This seems unreasonable. Imigine a fleet steaming across the Paeific, arriving here, out of coal, men tired and things generally run down, to face a strong force of fresh troops. What could they do? But the military argument is not what we desire to present The commercial argument is better. The time when the United States could close herself up against the world is past. She must now have an outlet for her manufactures. What place offers such inducements for American trade as the Pacific, low opening up? Europe, with its old nanufacturing establishments and cheap abor, does not offer a market. Only the Pacific side of the world is valuable. Th mmercial argument will triumph. Tel hem that the United States can have he business of Hawaii, if availed of be-

ore it is too late. "I say too late, because if the Hawaiian slands are not made a Western outpost of civilization, they must become an Eastern outpost of Orientalism. You may ay what you choose-think what you se-but I tell you Japan, noble plan hough it may be, has an eye on Hawaii. is, perhaps, a noble idea of that counry, but we are to be the victims. We cannot hold our own if this country is filled up with Japanese. We will be pushed out by sheer force of numbers. Make your friends understand that if Americanism does not control in this country, Orientalism will. Is the latter I submit that it is not. We would simply be crowded out. Today we | hold the government. The Hawalians certainly see that if we are overcome by the Orientals they, too, will be swept to the wall. "Annexation is the only remedy.

There is something due to us by the United States for maintaining American principles here. After all, however, after weighing all the points, we must see that the commercial argument is the most effective. No one can get around that. We received news today of the signing of an arbitration treaty between the United States and Great Britain. This means that America is not soon going to war, and at the same time weakens the force of the military argument. The commercial argument is the one that holds good. Use this, and the day is not far distant when we have admission to the United

States.' Mr. George A. Davis was introduced es being a man new in Hawaii and one who could present the case from an unprejudiced standpoint. He said: Mr. Vice President, Members of the Annexation Club and Fellow Citizens: "If this were a political platform I would not be here. I made up my mind long ago to stay clear of politics. It is an ungrateful and an unprofitable occupation. I am here tonight to raise my

TALKING FOR A SUBSIDY. Hawaiian Cable Promoters Make Arguments.

WASHINGTON, Jan. 22.-James C. Scrymser and Edmund L. Bayliss were before the House Committee on Interstate and Foreign Commerce today in the interest of the Pacific Cable Company of New York. They both argued upon the merits of the Scrymser bill over the Spalding bill of the New Jersey Company. Scrymser stated that his company would want is monthly again. want 18 months after the passage of the bill to complete the cable to Hawali and 18 more to complete it to Japan.

DRAFTING THE TARIFF BILL. The Ways and Means Committee at

Work. WASHINGTON, Jan. 24.-The Ways and Means Committee is hard at work on the schedules, with the prospect that the task of making up the first draft of the bill will be a long and hard one. Every member feels that the country is watching the labors of the committee closely. and that on its work depends the return of prosperity so greatly desired. While a number of schedules have been considered, not one can be called finally settled. Wool is a stumbling block. While it is ertain that wool will be taken from the free list, it is now believed that not more than 6 cents duty will be placed on the raw material.

Statements are now made that sugar will receive the protection asked, or at least 1 1-2 cents a pound on 90 polarizaion. That is the figure Senator Perkins has advocated as the most advantageous for California beet growers.

New York Legislature to Investigate Trusts-Enormous Sugar Season at Watsonville.

WASHINGTON, Jan. 23.-Senators generally realize that the communication of Minister Rodriguez in regard to the Nicaragua Canal franchises, which was sent to the Senate yesterday, is liable to have immediate effect, not only upon the canal, but also upon other pending and probable legislation, including the general Anglo-American arbitration treaty.

Senators generally expressed the opinion that the first consequence will be to send the bill back to the Committee on Foreign Relations. It is a matter of conjecture how long the bill will remain in committee if recommitted, and in that event it is not considered probable that it could be reported in time to be considered during the present session. Quite as important as the effect upon the Nicaragua bill itself is the influence which the communication is likely to have upon the arbitration treaty. Many Senators believe that the new position assumed by the Central American powers is the result of British influence and the effect is to cause those who hold this belief to stand aloof from any alliance with Eng-

Members of the Committee on Foreign Relations freely express the opinion in private conversation that the effect of the communication will be entirely against the treaty. The Committee on tween the United States and the Pacific Foreign Relations will hold a special Ocean ports, as well as other countries, meeting Monday to take up the treaty.

Late today the friends of the Nicaragua Canal bill were considering the advisability of amending the measure so as to meet the objections made in Rodriguez's letter, and it now seems probable that this course will be adopted. The contemplated amendments would provide, among other things, for securing to Nicaragua the contract percentage stock and for the proper representation of that country upon the board of directors. SPAIN LOSES A GUNBOAT. It is Captured and Burned by the Insurgents.

KEY WEST, Fla., Jan. 23 .- Advices received here state that the Spanish gunboat Cometa has been captured and ourned by the insurgents.

The Cometa, which was one of the

most powerful of the smaller Spanish vessels in Cuban waters, has been cruising around Cardenas to prevent the landing of filibuster expeditions. For some time the boat has been accustomed to anchor at night off Sierra Morena. The place where the gunboat anchored was favorable for an attack from the shore. The insurgents opened on the vessel with a 12-pound Hotchkiss gun. The vessel was struck several times and badly damaged by shells from the Hotchkiss gun, and while the crew was in confusion boats loaded with insurgents left the snore and the Cometa was boarded. A desperate hand-to-hand fight took place on the deck of the gunboat. The Cubans used the machete with deadly effect, and finally, after the Spanish commander and half of his men had been killed, the survivors surrendered. The insurgents sent the prisoners ashore and then looted the vessel, securing a great quantity of ammunition, many cutlasses and pistols and a few rifles.

Two quick-firing cannon were also removed. The insurgents then fired the boat, which was soon burned to the wa-

ter's edge. Admiral Navarro denies the reports from Key West to the effect that the gunboat Cometa has been captured by the insurgents. He says the gunboat continues to cruise along the south coast of

TROPIC OIL

For Engines and Cylinders

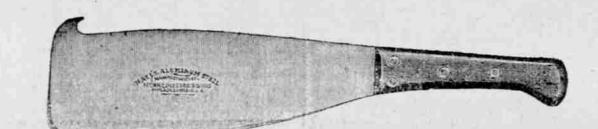

THIS IS THE OIL that Plantation Engineers are calling for.

24 Sugar Mills

Are using the TROPIC Engine and Cylinder Oils, and we have yet to hear of a case where it has not given perfect satisfaction.

The TROPIC is a pure, unadulterated lubricator, and is fully warranted to be of the highest possible grade and to give first-class satisfaction in every particular. It is made at one of the best Oil Refineries in Cleveland, Ohio, and is shipped direct to Honolulu without passing through the hands of any Middle-men, and we sell in original packages, barrels or cases. The great success that the TROPIC OIL has met with, during the past season, ought certainly to recommend it for use in every Sugar Mill.

We have just received ex Bark "Edward May" a fresh supply from Cleveland, and can supply immediately, or at any time specified, any quantity required.

TODAY! HALL'S ALUMINUM CANE KNIYES Carriage

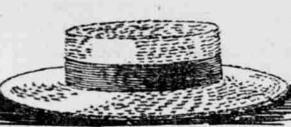

Are being used on over THIRTY PLANTATIONS. They are made by H. Disston & Sons of Philadelphia, and are acknowledged by them to be the best knives they ever turned out. They are made of Aluminum Steel, with Apple-wood handles, secured with four rivets, and hang easier in the hand, when in use, than any other Cane Knives. The fact that the cane cutters prefer these knives to all others, because they do not tire their hands, and they can do much more work in a day, is sufficient guarantee of their superiority.

We have just received over a hundred dozen from the Factory, and can supply Plantations now or at any time during the coming season. Plantations that have not yet tried them, should send for a sample lot, and give them a trial. We have them with the hook

Court Notes

Judge Perry is author of a decision issued out of the Circuit Court yesterday in the case of the Wilder Steamcase are found to justify an award. lii dismissed. Wilder & Co. claimed \$5,000. The Court thinks this amount inequitable and oppressive, and awards to the libellants as salvage the sum of \$2,650, being one-fourth of \$10,600, the value of the property saved. The sum of \$75 is awarded to Pilot Robert English, and \$90 for the six in equal shares. All costs of the proceedings are charged to the Lurline. Kinney & Ballou Minister of the Interior till 12 o'clock for libellant; A. S. Hartwell for re-

In the syllabus the Court says: "The Hawaiian Government is not liable for the appointment by the Postmaster General of a to accept the lowest or any bid. clerk in the Postal Savings Bank to make deposits as trustee for the plaintiff, such an appointment not being within the real or apparent scope of the Postmaster General's official duties, and having been ratified by the

"The Hawaiian Government is not liable for the defalcation of a clerk in the Postal Savings Bank, who, as trustee for the plaintiff, makes a regular withdrawal of money, and fails to account therefor to the plaintiff."

Peter High & Co. entered suit yesterday afternoon against E. H. F. Wolter to recover the sum of \$2,812.20, alleged to be due for materials furnished and used in the construction of the hotel building at the corner of King and Alakea streets. A notice of lien on said building for the amount claimed was filed with the assumpsit proceedings. Judge Perry has signed an order allowing the trustees of the estate of the late H. A. P. Carter to pay to the ancillary administrator at Seattle the sum of \$18,500, to enable the Seattle National Bank to close out and liquidate, it being the intention of the stockholders to go out of business. As President-elect McKinley was in no way oblivious to the position of Mr. Sherman on foreign politics when he tendered him the portfolio of Secretary of State, the character of his own foreign policy may be forecasted from this extract.

The S. F. Chronicle makes the above extract from Mr. Sherman's Recollections, and comments on the same. We need no discouragement at the apparent opposition to annexation in Mr. Sherman's mind. He is entirely committed to the views of his own party, on the subject of the control of these islands, and he is not the man to start off in independent ways. voice in favor of annexation. I believe in it for many and sufficient reasons. We are not knocking as beggars a the door of the United States. Every year the exports of the Hawaiian Islands exceed the imports by over \$5,000. 000. Sugar is an important commodity to the United States. In case of disaster to the beet crop or the Cuban output America would readily appreciate the calue of Hawail's contribution of raw

"The bonded indebtedness of the country, which the United States, under an nexation, would be obliged to guarantee is \$4,135,974.25. I have the figures to the cent. It is a fact, as I have it from a most competent authority, that the assets of the Government exceed \$8,000,000 This Government is not bankrupt. It has \$2 to every \$1 it owes. The Republic is rich. It would not be a bad business proposition for the United States to an nex the country. Let us present the ques tion from a business standpoint to the people of the United States, saying: 'We are not paupers; we are able to take care of our finances.' Then, they may inquire 'Why, if you are so well off, do you want annexation?' The answer is that we want freedom from revolutions, as you call them; a reduction of an army, which i is now necessary to keep up; and a lower rate, of say, 4 per cent, on our bonds. That is the way to talk to them. Noony here knows what hard times are We are rich. After paying expenses and interest on the public debt, there is always a pretty balance in the Treasury There is \$76,000 on bonds. The United States would not suffer from annexa

After referring briefly to the idea of an independent colony, with a governor sent out from Washington, Mr. Davis continued: "We are isolated. We cannot maintain an army and navy. But we must have protection. All is well now, but what of the future? When these Japanese begin clamoring for the franchise, and begin instituting strikes here and there, what are we to do? Planters should be approached with this problem. I have heard the Government was no sincere in advocating annexation, but I know that it is. It is not a question o terms. Let us get into the United States, since ...e world began.'

Charles Creighton was the next speaker. He said that it might seem strange for one who had been a consistent supporter of the Monarchy up to 1895, and had been a guest of Mr. Low for these convictions, to stand before the Annexation Club and indorse its principles. Since then he had seen the utter impossibility for restoration. "I have seen the Republic founded upon a rock so solid that nothing could wash it down'

NEW STEAMSHIP OFFICERS.

The Oceanic Company Holds Its Annual Meeting.

The annual meeting of the stockholders of the Oceanic Steamship Company was held yesterday at the office of the company on Market street. The principal business of the meeting was the election of officers for the ensuing year. The only change made 4510-td in personnel of the board of directors was in the election of Claus Spreckels the only true Republic, that has existed to the vacancy created by the death of A. L. Tubbs. The new board is as follows: John D. Spreckels, A. B. Spreckels, Claus Spreckels, Charles Goodall, C. M. Goodall, A. C. Tubbs and J. A. Dickman.

The board organized by electing the following officers: President, John D. Spreckels; vice-president, Charles Gcodall; agent and treasurer, John D. Spreckels & Brothers; secretary, E. H.

According to the annual report of the president the company was able to make an excellent financial showing for the year. The company's indebtedness in the form of an overdraft, which amounted to \$90,000 in May last, was reduced to \$14,000 .- S. F. Chronicle, Jan. 22.

SUDDEN DEATH.

Employee of California Fruit Market After Short Illness.

John Kennedy, familiarly known as "Joe," employed at the California Fruit Market, died suddenly at 2:20 p. m. yesterday. He complained of a pain in his heart after he got up yesterday morning, and at 7 o'clock returned to his bed, and Dr. Herbert was summened, but his efforts to help the man were unavailing.

The deceased came here as an oiler on the steamer W. G. Hall on that vessel's maiden trip, and continued in that capacity until 1887, when he secured employment in the fruit market, where leaving there when a young man, he located in the United States. He served six years in the United States navy, and as a sailor traveled all over the world. He was a linguist of some ability and spoke a half dozen languages fluently. He was much thought of by auctioneering business. In August, Mr. Camarinos, and his services to the firm were highly valued. Indigestion Loss of Strength And Appetite.

The testimony of Mr. R. Dennis, Adelaide, South Australia, who was cured by Ayer's Sarsaparilla, is like unto that of many thousands of others. He writes:

"It is with very much pleasure that I testify to the great benefit I received from using your wonderful blood-purifier. I was a sufferer for years from indigestion, loss of strength and appetite, and constipation. My whole system seemed to be thoroughly out of order. A friend finally told me to take Ayer's Sarsaparilla. I followed his advice, though feeling discouraged at the fruitless results of other treatment, and I am thankful to state that a few bottles completely cured me."
