## BOARD OF HEALTH.

Hospital at Hilo to Be Built at Once.

All the members were present at yesterday's meeting of the Health Board. There was a great deal of routine business disposed of.

Dr. Monsarrat reported that he had discovered and killed two cows affected with tuberculosis. They were owned by private parties. He also reported the willingness of different dairy owners to have their cows inspected.

Fathers Jenkins and Hancock, residing at Waihee, were granted permission to accompany the Board on their next official trip to Molokai.

Dr. McWayne's resignation as agent of the Board of Health at North Kona was accepted.

Dr. Moore was appointed Government physician at Hilo, succeeding Dr. Williams, resigned.

On recommendation of Health Agent Reynolds \$1000 was voted to make necessary repairs to Malulani hospital at Wailuku, Maui.

Mr. Reynolds was authorized to go to Hilo by next Kinau and make arrangements for building the new hospital at that place. The cost must not exceed \$2,500.

The custom house asked for a ruling on opium pills imported into the country. Importations were restricted to pills showing not more than 1 1/2 per cent of morphine or its equivalent in crude opium or any preparation of opium on presentation of a special permit from the secretary of the Board.

The Board then went into executive session.

## MIDNIGHT PROWLER.

There was great excitement about the Hawaiian hotel about midnight last night. A man, supposed to be a burglar, attempted to effect an entrance to the apartments on the second floor occupied by Mrs. C. Fairchild, of Galveston, and her niece, Miss Beesley. The ladies were awakened and screamed with terror. The prowler leaped to the ground and disappeared in the shrubbery before the arrival of a score or more of gentlemen guests, who had been awakened by the alarm and rushed to the rescue.

## HONOKAA ALL RIGHT.

A block of stock amounting to 562 1/2 shares of the Honokaa plantation has recently been sold for \$70,000 and a later sale yesterday was made at the rate of \$165 per share. This looks as if the people who have money have a very thorough appreciation of the value of sugar securities.

## "EVERY LITTLE HELPS."

The very smallest reduction made on staple dry goods at Kerr's means a great deal to purchasers. We are at present supplying about three-fourths of the population of Honolulu with dry goods, and are now straining a point or two to catch the remaining fourth. Will you help us to do it?

## Typewriters Repaired.

Repairing typewriters is one of our specialties. We can do it right, with despatch, and guarantee our work.

Old typewriters taken in part payment for the Peerless. New and second hand machines on hand.

Have you decided on a typewriter yet? The Peerless fulfill every claim made for them. Only a few more left. Get yours to-day.

Hawaiian Cycle & Man'f'g. Co.  
opposite Lewers & Cooke.

## HILO HOSPITAL A FACT

DESCRIPTION OF THE BUILDING TO BE ERECTED.

Executive Officer Reynolds to Proceed to Hawaii on Next Kinau—Work on Building to Commence in Ten Days.

C. B. Reynolds, executive officer of the Board of Health, will leave for Hilo on the next steamer to select a site for the new government hospital to be erected there, and to commence building operations. President Smith, of the Board, while on a visit to Hilo a few weeks ago looked over the available sites, and will be able to give Mr. Reynolds some valuable advice as to the best location.

As the appropriation for the building is only \$2500, the Board will not be able to erect a very large hospital, but they have planned to use the available money in such a way that it will build a structure that may be added to from time to time as the needs of the community increase, and the Republic is better able to expend the money. All of the appropriation is available for building, as the Hilo people have expressed a willingness to furnish the hospital from top to bottom.

The architects' plan show a plain frame building, one story in height, with a broad veranda on three sides, the interior cut up by broad hallways, which extend from front to rear and from side to side, giving the rooms that open form and affording them plenty of ventilation. The medical ward will be 26x12 feet, and will contain seven cots. There are, besides, three private rooms, each 9x12 feet, for patients who can afford to pay. The surgery and dispensary are in front and also the nurses' living quarters. In the rear are the dining room, bath rooms, etc., and the kitchen is to be in an outhouse. The cross halls are so arranged that they can be extended into any new building. When additions are made to the hospital, the frontage of the old building will remain as part of the frontage of the new.

Mr. Smith thinks that he will have to ship the lumber from here, but that the labor can be secured at Hilo. He wants to commence building within ten days, and will push matters so that the structure will be completed and ready for occupancy within thirty days from the commencement of the work.

## TORN TO PIECES.

Mauna Loa Brings News of a Frightful Death.

The Mauna Loa, Captain Simerson, arrived at 2 p. m., after an uneventful trip, with 3493 bags of sugar, 216 bags of coffee and a big load of passengers. She had such scant space to dock that the bowsprit of the Mikahala, lying astern fouled the stern rail of the upper deck, carrying away several stanchions.

Captain Simerson reports that on Wednesday afternoon a Portuguese woman fishing off Kailua fell out of the boat and was immediately torn to pieces by sharks in the presence of a number of people. Her name was not obtainable. Following is the list of passengers from the volcano and way ports: C. F. Johnson, C. Kaiser, J. D. Paris, J. Maguire, A. Ahlborn, J. J. Newcomb, Henry Martin, Mrs. C. B. Wood, D. Center, Max Eckhart, Mrs. J. Richardson, Mrs. Roden, Miss Mary Roden, J. F. Allen, F. S. Bickerton, Mrs. Ahlborn and fifty-eight deck passengers.

## CIRCUIT COURT.

Emma A. Nawahi has petitioned to be appointed guardian of her minor children, Albert and Alexander Nawahi.

Judge Perry is presiding in the Circuit Court today, Judge Carter being engaged in hearing the Dimond contempt case.

Lualualei, charged with larceny of a watch, appeal from District Court, is being heard by Judge Perry and a native jury.

Akoni was sentenced by Judge Perry this morning to imprisonment at hard labor for three months and fined \$200. He was found guilty of distilling liquor.

Moepono, same offence, sentenced by Judge Carter to five months and \$100 fine.

## BEST FOR WHEELMEN.

Careful wheelmen are never on the road without Reuding's Russia Salve. It is the best thing extant for bruises, sprains and cuts. Sold by Hollister Drug Co.

## MAY PLAY BASE BALL HERE

AUSTRALIAN TEAM AND HONOLULU BOYS TO CROSS BATS.

Talk of a Series of Games Between Local and Colonial Players—Harry Musgrove Will Arrange for Games.

The local ball players may be given an opportunity to try conclusions with the All-Australian Club that is shortly to attempt the conquest of the United States. Harry Musgrove, the Australian manager, who was a passenger on the steamer Alameda, on his way to Chicago to arrange for the American tour, spent a few hours in the city yesterday, and went away impressed with the idea that if the local ball teams could be interested in a series of matches it would pay well for him to stop over a steamer on the islands.

When he arrived in Honolulu Mr. Musgrove had never given the matter a thought, but a chat with some chance acquaintances, who are base ball cranks, set him to thinking and to asking question. He soon learned that Honolulu can boast of some fine amateur teams and that the sport is sufficiently popular to warrant a large attendance when good, clean cut, amateur sport is offered. The question of "gate receipts" is of importance to Manager Musgrove, for he must make the trip pay expenses, but he went away convinced that a week's stay in Honolulu would prove a success from a financial standpoint. He did not have time to call upon various managers of teams, but promised to open up a correspondence with them if he succeeds in arranging the American tour, and finds that he can spare a week or ten days here with his team.

The base ball season will be in full blast in the near future, and promises to be an unusually interesting one. If the Australians decide to visit Honolulu a special team could be picked from the leading nines, to do battle with them. In case victory perched upon the banners of the local team, and then the Australians won honors in the States the matter would bring Honolulu ball players into international prominence. The Australian team will be made up of gentlemen who engage in the sport purely for the sake of the sport, whose amateur standing cannot be questioned.

## THE FAREWELL CONCERT.

Madame Marquardt Will Appear for the Last Time.

The Graham-Marquardt farewell concert will take place at the theater on Monday evening. Those in charge of the affair are working hard and promise a program that will please. The latest volunteer is Lieut. Slater, of the Icarus. He possesses a sweet tenor voice. Mr. Gillig will furnish several new ballads; among them is "Astoria." Miss McGrew and Mr. Graham will sing a duet and Jamie Wilder will furnish something in the way of good entertainment.

The concert marks the last appearance of Madame Marquardt in Honolulu. This little lady has any number of admirers in this city. Her playing is always appreciated by music-lovers. She will render some artistic selections.

Part I.  
Harp Solo—Fantasie Martha...Flotow  
Mrs. Breitshuk Marquardt.

## FOR THE CALICO BALL.

Fancy organdies, muslins, dimities, grenadines, the loveliest colorings you ever saw, just opened at N. S. Sachs'.

## BANKER FROM SPOKANE

VIEWS OF A VISITOR ON HAWAIIAN AFFAIRS.

Mr. Hoover Is Charmed With Honolulu and Says It Is an Ideal Winter Resort—Thinks Annexation Will Come.

President J. Hoover, of the Exchange Merchant's National bank of Spokane, Wash., is a distinguished visitor in Honolulu, having arrived by the Australia. Mr. Hoover is staying at the Hawaiian and his plans are to return to the States by the Australia next week.

"I am just on a little pleasure jaunt," said Mr. Hoover this morning. "Desiring to get away from my business for a brief time I went to San Francisco and afterward concluded to take a run down to Hawaii. During the two days that I have been here I have seen much of your city and must say that the metropolis of the Hawaiian Islands far exceeded my fondest expectations.

"It is my regret that I cannot remain longer. But I am coming again soon. You have undoubtedly got the ideal winter resort of the world and some judicious advertising would surely bring an exodus of tourists to the country. The majority of people who are able to travel do not know where to go. It was by mere chance that I came down here and I found just what I was after. There was a number of Spokane people who were anxious to take an ocean voyage and would have all been down here with me had we known anything of Honolulu. This is bound to be a garden spot for pleasure seekers in the next year or so.

"There is one little drawback which the business man takes into consideration. Hawaii is shut off from the outside world. Generally, it is the desire of the average business man to be in close communication with his business. But from what I can gather it would seem as though this difficulty will be obviated before the close of the century by the laying of a cable from some point on the Pacific ocean."

"What do you think of annexing the Islands, Mr. Hoover?"

"They are excellent. I have given considerable attention to the absorption of Hawaii by the United States and I am an enthusiastic supporter of the movement. My idea would be to secure a solid delegation from California or the Pacific coast to present the claims of Hawaii to Congress. The country being in direct communication with the Coast States, both in commercial and other ways, Congress will be almost obliged to recognize the petitions of such a delegation. It was the Coast delegation that first brought the Chinese question to the attention of Congress and afterward made a successful issue of it.

"Senator Wilson of Washington is a particular friend of mine, and I know that he is in line for the annexation of these isles. When I left home the Washington Legislature was in session and balloting for a United States senator to succeed Senator Squire, Judge Turner of Spokane was in the lead, and it is very probable that he will be the choice. W. C. Jones and Hamilton Lewis are the Congressmen. The entire Washington delegation, I believe, will be found fighting for annexation when the question is brought to an issue."

"And you ask how I know this," continued Mr. Hoover.

"Because for the simple reason that their constituency is for annexation pure and simple. Those people who have given the matter any thought at all are decidedly for annexation. This sentiment is popular and growing and to oppose it a Senator or Congressman would be arranging for his own funeral. It is my firm belief that annexation is bound to come, providing it is the wish of this Government to become a part and parcel of the Great Republic."

Mr. Hoover is a prominent Democratic politician of his State. He tendered his influence to secure the election of both the present Congressmen and is a warm supporter of Judge Turner.

## THE VERISCOPE.

The Veriscope will be exhibited at the theater this evening for the first time in this city. The curtain rises at 8 o'clock. One of the features to be presented, is the great New York Republican parade. Thousands of spectators are seen enthusiastically cheering, as the different associations march by many famous faces are shown. Numerous brass bands are seen, and it will make a very interesting sight and prove worthy of witnessing.

## KINDERGARTEN AFFAIRS

SUPERVISORS OF THE ASSOCIATION MEET THIS MORNING.

The Good Work Assisted by a Valuable Gift—Ladies Furnish Money for New Chairs—School at Ewa.

Tomorrow morning the ladies who are serving on the directory of the Kindergarten Association will go to Ewa to open the new plantation Kindergarten at that place. A number of Japanese and Chinese Kindergarten children will be taken from the city for the purpose of assisting the ladies in getting the school started.

The supervisors of the Free Kindergarten Association were in session in Queen Emma hall this morning. Mrs. C. M. Hyde, the president, stated that Mr. J. B. Atherton had donated an Ewa plantation bond amounting to \$1,000 to the new Portuguese Kindergarten building fund. The ladies at once sent Mr. Atherton a vote of thanks for his liberal donation and made him a life member of the association.

The Hawaiian Board has donated the use of a lot adjoining the new Portuguese church on Miller street, for the new Kindergarten. A committee, consisting of Mrs. A. F. Cooke, Mrs. C. M. Hyde, Mrs. T. H. Hobron and Miss Frances Lawrence, was appointed to confer with the Hawaiian Board committee on the matter of selecting the required land.

The Palama Kindergarten, in charge of Miss Buckley, made an excellent report. This Kindergarten has been open but a brief while and yet there are seventy-two children attending.

It was mentioned that the Palama school was in need of chairs. Mrs. W. F. Allen, Mrs. S. M. Damon and Mrs. Wm. G. Irwin at once made up \$50 to purchase the needed furniture. A donation of \$20 was made by Mrs. J. T. Waterhouse, Mrs. C. M. Hyde, Mrs. S. M. Damon and Mrs. D. P. Birnie for chairs to be placed in the Hawaiian room.

## HOSPITAL TRUSTEES.

Changes Made in the Board of Trustees Today.

The Board of Trustees of the Queen's hospital, at a meeting this morning, adopted resolutions of sympathy for the family of the late John H. Paty.

Senator Henry Waterhouse was chosen treasurer of the Board to fill the vacancy caused by the death of Mr. Paty. Mr. George W. Smith was elected secretary to succeed Mr. E. A. Schaefer, who was made vice president by President Dole.

Dr. Raymond was admitted to membership on the Honorary Board of Physicians.

## MR. UMBSEN DEPARTS.

G. H. Umbesen, the San Francisco real estate man, left for home on the Alameda yesterday, after a stay of several weeks in the islands. He came here broken in health from overwork, as the result of acting as receiver for the insolvent firm of O'Farrell & Co., but returns home a well man. Mr. Umbesen left Honolulu with regret, as he has made many friends here.

## IT'S A PUZZLE.

## CAMPAIGN OF EDUCATION

GOOD SUGGESTION FOR ANNEXATION CLUB TO CONSIDER.

Offer a Prize for Best Arguments in Favor of the Cause—Get Best Reasons from Best Thinkers.

Editor Star:—The campaign for the annexation of the Hawaiian Islands to the United States, which has been so auspiciously started, is now becoming one of education, pure and simple. The kind of politics which the agitation engenders is something so novel in this land of bloodless strife that it affords food for new ideas and a wider scope of study than has ever been devoted to any other public topic.

The party called annexationists are solid for the cause, and are slowly but surely propagating their theories among those around them who are disposed to be contrary-minded. The other day, while conversing with a gentleman who maintained that the islands would never be annexed "because the United States did not want them," I was led to formulate a plan for getting the best reasons from the best thinkers for annexation. My intolerant acquaintance could advance no plea why he had taken his stand, and he was obstinately deaf to my reasoning.

My idea is to get from the people of these islands ten valid reasons why the country would be benefited by political union with the United States, and also a like amount of argument from an American standpoint. I think it would not be out of place for the Annexation Club to offer a prize to the one who can best advocate annexation, each contestant to submit ten reasons, of not more than fifty words each. Give the public a month to investigate both the Hawaiian and American interests, and at the end of that period I believe there would be evolved some interesting reading matter concerning the topic at hand.

There are many enthusiastic annexationists who would spread a single idea over a column, and, in deference to the tastes of the public, which will more readily read concise statements, I have suggested a limit of fifty words per argument. It is safe to assume that the highest prized correspondence in this matter—coming as it must from our and an American point of view—will be worth disseminating across the sea as campaign literature.

## P. & B. Paints & Compounds

Roofing, Pile Covering and Building Papers,

FOR SALE BY

WM. G. IRWIN & Co., LIMITED.

Sole Agents for the Hawaiian Islands

The building papers are 1, 2, 3, and 4 ply. They come in rolls, each roll containing 1000 square feet. They are water proof, acid and alkali proof and vermin proof. A house lined with building paper is far cooler than one that is not. There is also a cheaper grade of paper adapted for use under matting keeping out insects.

HONOLULU, July 29th, 1895.

MESSRS. W. G. IRWIN & Co., LTD.

GENTLEMEN:—In reply to your inquiry as to how the Ideal Roof Paint you sold me lasted; I would say that I painted the roof of my house 12 months ago with your Red Ideal Roof Paint, and I find it is as fresh and bright in appearance today as when first applied; looking as well as others lately painted with other paints. I am more than satisfied.

J. G. ROTHWELL.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement

DOTTIE HAGER.

LOWELL, WASH., Jan. 1, 1895.

WELLS, RICHARDSON & Co.,

Gentlemen:—My little girl has always been delicate. When she was a year old she had spasms caused by indigestion. The measles were coming out on her at the same time, and since then every little thing would throw her into spasms or the symptoms of them.

If she took the slightest cold she would wake up at night in a flighty condition, and we would have to give her medicine and work with her a long time to keep her from having a spasm. She would be like that every four or six months, and we had a doctor several times.

This fall she took cold while out playing, and woke in the night, flighty as usual. This turned to rheumatism in her hand, leg, and foot. The doctors gave her some medicine and bathed

the parts in oil of peppermint, which helped her for the time being, but the rheumatism came back as soon as she went out. So I concluded to try Paine's Celery Compound for her, and continued bathing as before. She commenced to improve right away, and I had given her but little over half a bottle when she was strong and well and able to go to school again. She has been doing finely ever since, and is healthier than ever before and always hungry.

We cannot say too much in praise of Paine's Celery Compound.

Very truly yours,

Mrs. D. Hager.

## ARBITRATION.

The general treaty of arbitration signed between the United States and Great Britain marks one of the great posts in diplomatic history. It is an effort to do away with that appeal to arms which is a nation's only too ready resort, and to substitute for it the light of pure reason.

The provisions of the treaty are very clear. The first article provides for the submission to arbitration of any question which may come up between the two countries and which has not been adjusted by diplomatic negotiation.

Of course the money question comes in at once. Disputes upon such matters not exceeding \$500,000 and not involving territorial claims, are to be settled as follows: Each of the contracting nations will nominate an arbitrator, who must be a lawyer of high standing. The two arbitrators, within two months of the date of their nomination, have to select an umpire. Should the arbitrators fail to make a selection then the umpire is to be appointed by the members, for the time being, of the Supreme court of the United States and the members, for the time being, of the Judicial Committee of the Privy Council of Great Britain. In each case the majority vote is to rule. But there is yet another clause. It is possible that these high contracting parties may not agree. Under such circumstances provision is made that the umpire, three months after the commencement of the negotiations, shall be appointed by the King of Sweden and Norway. Of course he is chosen as being one of the few monarchs who have little or no interest in the general run of European and American affairs.

To take a side issue for a moment, it is wonderful that the descendant of the Marseillaise wine seller, Bernadotte, should become the arbitrator between two of the greatest nations upon the face of the earth. The founder of the royal family of Sweden and Norway enlisted as a full private of marines in 1780. During the revolutionary period of France he rapidly rose and became one of Napoleon's most trusted and trustworthy marshals. From the position of Marshal to that of King of an outlying Kingdom, was, in those days, no great effort. And thus the Marseillaise wine keeper found himself seated on a throne dating back to the dim past of the "Nebelungen Leid." His descendants have proved themselves worthy to rule and have made a record for themselves among the European nations. It is this high estimate of the family characteristics and the fact that Sweden and Norway have no entangling alliances, that makes other and greater nations agree that Sweden and Norway should appoint an umpire.

To return to the main subject. Having disposed of pecuniary claims involving \$500,000 the next thing to consider are claims above that amount. The tribunal mentioned above, if unanimous, would have a final voice, but if it is not unanimous, either nation, within six months, may demand a review of the evidence and the summing up, and submit the whole to a board of jurists, two chosen by each country and the fifth chosen by the American and English pairs. In case they disagree the King of Sweden and Norway again bobs up and is authorized to make the appointment of umpire. The umpire so chosen is to be the president of the council and the majority vote is to be regarded as final.

Territorial matters are to be considered by a board of six members. Three of these are to be judges of the United States Supreme Court, or justices of the Circuit Court, and three must be judges of the British bench, or members of the judicial committee of the Privy Council. In awards a majority of five to one is to be regarded as final.

This treaty is to remain in force for five years. It is purely experimental, but at the same time it lays down a great principle. According to the provisions of the treaty there need never be any war. National questions are to be settled by reason, not by the arbitrament of arms. Such a treaty is an object lesson to the whole world. If two great nations can live under it

and carry out its provisions, the lesser nations can, and it looks as if we had reached that proper goal of human ambition and desire—"Peace on Earth."

What can one believe of the news from Cuba? Everything one reads is unreliable. The enterprising correspondent remains in Florida and fakes up the news from what rumors get to his ears. It would be satisfactory to get at the true situation, but it seems as if that were impossible. It was the same thing during the war between Chili and Peru. The story of that war has never been written. A few exaggerated accounts from each side have been published, but no calm history of the events that took place is accessible to the ordinary reader. Incidents one knows of. As for instance that regiment of Peruvians which was driven over the cliffs into the Pacific, and for six months after the rotting bodies of the unfortunates could be seen on the ledges of rocks where they had lodged. Of lurid details of that war we have enough and to spare, but of actual knowledge of the struggle we have absolutely nothing. There is a chance for some brilliant newspaper man to make a record for himself.

Who dies? There is really no reason why a number of people die before their time. Out of a million, according to medical authority, only nine hundred hand in their checks on account of old age. Typhus and typhoid fever carry off a very large proportion of the million. In this we are very happy in Honolulu. There are very few cases of these dread diseases here. Scarlet fever, which in the States and in Europe claims so many victims, is practically unknown in our favored isles. With care there is no doubt that life can be prolonged in the climate of the Hawaiian Islands.

It would be interesting to know what is the proportion of depositors in the Savings Bank to the bulk of the population. In England one person out of every seven is a depositor. From a rather intimate knowledge of the place it seems highly probable that the number of depositors in the Hawaiian Savings Bank bears a larger proportion than 7 to 1. Then again our Savings Bank offers rates of interest far in advance of other countries.

It is to be confessed that we shall be delighted if it shall appear, as some fondly hope, that submarine cable construction and companies are going to tumble over each other in their scramble to make cables for us, going to the length, not only of underbidding each other, but even perhaps of paying a subsidy to Hawaii for exclusive privileges.

It will be still more pleasing to learn that the great powers are going to stop all further fooling with contractors and other people who bother about such things as cost and expense, and make their national cables in the Pacific ocean once for all, and done with it. But hard-headed men are likely to say that no such good luck awaits us, but that cabling here will be done, if at all, as it is everywhere else, by private enterprise, and that the question to be decided first or last will be, which one concern will secure the United States' aid and cooperation. That will be the company, we fancy, that the other nations interested will be likely to deal with.

**Pedals With His Arm.**  
Among the regular wheelmen on the Boulevard is a lame man who rides a tricycle operated by a crank which he works with his arm. The single wheel is in front of the seat, and what would correspond in a bicycle to the handle bars is a crossbar which appears to work a lever. The machine makes good time, and it must provide excellent exercise for the arms. The other curious appearing riders who attracted so much attention when they appeared first now ride along without drawing notice. The woman with the game leg and the one-legged man with his crutch are able to pass along now without exciting even the notice of the drivers, who have become familiar with their appearance. It requires some very striking peculiarity for a bicyclist to attract attention on the Boulevard now.—New York Sun.

**Jacquelin Is a "Swell."**  
Says an astonished Englishman, writing of Jacquelin, the French rider: "As an instance of the successful professional I will take Jacquelin. He is the most popular rider in Europe, and he is said to be earning fabulous sums. Two or three months ago he was credited with having made \$15,000 since the beginning of the year. He is reported to have magnificent apartments, furnished in the most luxurious style, and I have myself seen him go to the tracks in his private carriage or driving a fine trotter, accompanied by a servant."

You probably pay too much a month for tea; it is probably not very good. Try *Schilling's Best*. If you don't like it, your grocer returns your money.

You may find unexpected pleasure and profit in it. A Schilling & Company San Francisco

### COOLING AND WATERY REMARKS

after the warm and stifling weather of the past few days should meet with general favor.

We have been singularly successful with our stock of Ice Chests, in that they have all been sold; but fortunately for us a new lot arrived, thus relieving us of a great deal of worry. These Ice Chests are charcoal lined throughout, and are much superior to Chests in which other substances are used. The prices range from \$9 to \$20, according to the size desired.

The Alaska Refrigerators are so well known, and being a standard make, require no explanation on our part except to say that we have reduced the price on all sizes to make room for new goods.

A Refrigerator that has seldom been mentioned, but which, nevertheless, has true merit, is the Novelty Circular Refrigerator. It is constructed wholly of sheet iron, and is zinc lined. Through the center is the waste-pipe and to this is attached movable iron trays, adjustable any distance apart. The upper compartment is designed for the ice, being a large and heavy pan with tray. It is handsomely japanned.

A Water Cooler is a very necessary article for use on steamers or in restaurants, bar-rooms or private houses. We have a very handsome one that just fills the bill.

The filtering medium of the Improved Stone Filter is natural stone mined from the earth and never becomes foul. We will have a glass one an exhibition to show the simple yet thoroughly effective manner of doing the work.

## W.W. DIMOND'S

In many parts of "the land of the free and the home of the brave" at this time of the year building operations are suspended and every man has his eye on the coal dealer while watching the water pipes showing a tendency to freeze up.

In Honolulu, where spring is four seasons in the year, carpenters may work inside or out.

The unusual operations of the past year has had a depressing effect upon edge tools, for, like everything else, they give way with too constant use. We have, in view of the prospective demand, made a big buy of the finest grade of tools obtainable in Eastern markets. They are what carpenters and machinists need all the time, and when buying the best they get that which lasts longest and obviate the necessity of "breaking in."

We have the Millers Falls Company Ratchet Brace, with Drill Attachment. The Elk-in's Saw File. Bailey's adjustable Blade Wood and Iron Base Planes. Steel Tape Measures, guaranteed to be accurate. Two-foot Rules in Ivory and bound with German Silver. Olmstead's Improved Mitre Boxes. The "New Roger's" Foot Power Scroll Saw with Drill and Emery Attachments.

These goods are all guaranteed to be first class.

W. W. Dimond.  
VON HOLT BLOCK.

## DELICIOUS DELICACIES

If a wife wants to have her husband think as much of her as he does of his maternal parent she must look to the larder and see that it is provided with plenty of things for the inner man. But quantity in this instance is not the only essential; quality plays an important part in food articles.

You can fill a dish with peas, but if they are not of good quality they will remain full. We are now selling genuine Petit Pois in one and two-pound tins that are remarkably good, and cheap.

Another delicacy is Preserved Mushrooms—new here—and we are selling them to people who regard a good dinner as a requisite to happiness on this earth. Black English Mushrooms, and many French Mushrooms go a long way toward filling a man out around the vest pockets.

Another trifle worth thinking about is genuine English Jugged Hare. Where is the Briton who would not go a long distance for a lunch where Jugged Hare is one of the courses?

We have a store full of such things—too many varieties to mention in a week. Pickles of every sort—from the ordinary bottled to Batty's Nabob; Tippto Sahib's Curry Powder; Orange Marmalade in stone jars; Cross & Blackwell's Jams in glass, and a thousand other things.

## SOCIETY OF THE WEEK.

PARTY GIVEN BY BRITISH COMMISSIONER HAWES LAST NIGHT.

A Tea Party for Miss Richards—Jamie Wilder's Departure—Miss Roth's Party This Evening—Society Notes.

A tea for Miss Grace Richards will be given at the home of Mrs. Theodore Richards at Kamehameha on Monday afternoon from 4 to 6 o'clock. Cards have been issued to a large number of the young ladies of the city to attend.

This evening the pleasant and inviting home of Miss Rose Roth on Kinnu street will be in possession of a merry throng of people. Dancing will be the chief pleasure of the evening. Miss Roth has requested the attendance of about one hundred people.

Two or three bicycle parties are on the tapis for the next full moon. One of these parties will leave the city via the Beretania way going out the Molihi road and returning by the Waikiki course. A luncheon will be served at Diamond Head.

Miss Mamie Riordan, a popular young society lady of San Francisco, who has been visiting Miss Adele Wildfield during the winter months, will return home on the Australia Wednesday. Miss Riordan is in love with the congenial climate of Hawaii.

Mr. Jamie Wilder, a thorough Honoluluite who is popular with everybody, will bid aloha to his friends and relatives in Hawaii next Wednesday and sail for Japan on the Gaelic. Mr. Wilder will embark in the ship chandlery business in that prosperous domain and he expects to be absent nearly two years before returning to Honolulu and then only on a visit. He was a great favorite in society circles. The Star joins with Jamie's host of friends in wishing him unbounded success in his business venture.

Mr. and Mrs. F. M. Swanzy will entertain British Commissioner Hawes, Capt. Fleet and the officers of the Icarus this evening at dinner.

William G. Irwin will entertain a number of gentlemen friends at a dinner, to be given tomorrow night at his Waikiki home.

Miss Adele Wildfield entertained in honor of Miss Kate McGrew and some of her bridesmaids today at the charming Cornwall place on Judd street. It was a luncheon, and a most enjoyable afternoon was made of it. In the party were Miss Mamie Riordan of San Francisco, Miss Bessie Spalding, Miss Pauahi Judd, Miss Saeve Carter, Miss Grace Richards, Miss Emily Halstead and Miss Kate McGrew.

Several interesting betrothals are whispered, but thus far no definite announcements have been made.

Undoubtedly this will be a notable year for marrying. More engagements have been announced and more weddings will be celebrated than during any season of the last decade. No special reason has been given by those most concerned, save the usual one—that these affairs which have so happily culminated have been maturing all these barren years. That might be acceptable if it were not for the fact that in most instances it is the unexpected that has happened. Various are the excuses and innumerable the explanations of recent engagements. Just as though excuse and explanation was essential.

The first of a series of progressive euchre parties to be given by a club recently organized, consisting of about twenty-five members, was given at the pleasant and inviting home of Mr. Robert Levers in Waikiki last evening. Miss Wall captured the ladies' trophy, which was a handsomely decorated china cup and saucer. Mr. E. B. Barthrop proved himself to be the most expert among the gentlemen players. He was awarded a silver and ebony paper cutter. Delicious refreshments were served during the evening. Those present were: Mr. Dana, the Misses Humbert, A. Wall, Schmidt, Paris, Bessie Afong, Carrie Afong, Messrs. Dr. Wall, E. B. Barthrop, Ed Paris, Harry Wilder, Arthur Wall, George Kluegel, Mr. Hall and Mr. Weight.

A stag dinner was given by Mr. Jamie Wilder Tuesday in honor of Messrs. Herbert and Walter Austin of Boston. Charming Eskbank in Nuuanu, Mr. Wilder's home, was brilliantly illuminated with lights. A pleasant surprise was in store for the guests, in the nature of the artistic decorations, which were much much admired. They were a decided success and brought pleasant memories of the Bohemian Club of San Francisco to Mr. Donald De V. Graham. A gorgeous feast was spread, after which Joane, the Hawaiian dandy, gave some of the old time hulas. The Hawaiian Nation-

al Quintette Club also provided amusement. Mr. Paul Neumann made some happy remarks. Donald De V. Graham and Harry Gillig favored with songs. Lieutenant William F. Slater of H. B. M. S. Icarus sang, accompanied by Lieutenant William E. Safford of the U. S. S. Alert, on the zither. Jamie Wilder created considerable merriment by relating some of his humorous tales. It was a jolly crowd, indeed, that met at the Eskbank on that occasion. Those gathered about the board were: Messrs. Paul Neumann, Dr. C. B. Cooper, Dr. H. V. Murray, A. St. M. Mackintosh, Samuel Parker, Jerome Hart, Harry Gillig, Frank Unger, Donald De V. Graham, Alexander Hamilton of the Gillig party, Commander Thomas S. Phelps, Lieutenants P. V. Lansdale, and Wm. E. Safford, Paymaster W. J. Littell and Ensign Sawyer of the U. S. S. Alert; Lieutenants Wm. F. Slater and Hubert H. Holland, Paymaster E. E. Silk and Mr. Matthews of H. B. M. S. Icarus, and Messrs. E. C. Macfarlane, Edward Dowsett, J. M. Monsarrat, George R. Carter, Gerritt P. Wilder and Samuel G. Wilder.

From all accounts the merry little house parties that have been given in honor of Mr. Harry Gillig and his party from San Francisco since their arrival here have had the effect of prolonging the visit of the gentlemen in Honolulu. The party had originally intended to return by this Australia, but the gentlemen have found the temptation of remaining over too strong for them. As a result the ladies will return to San Francisco on Wednesday. Mr. Gillig and Mr. Frank Unger are great wheel enthusiasts. Any afternoon or evening they may be seen pedaling out Waikiki way or along Manoa Valley. Mr. Graham and Mr. Hamilton are very fond of surf riding and devote much of their time to this sport.

Miss Helen Wilder is making arrangements to go to Japan within the next fortnight. She will accompany Dr. and Mrs. Walters of Kauai on their visit to this interesting little country.

Miss Grace Richards, who goes to the States on Wednesday, will carry with her the best wishes of a host of friends, for a bon voyage and happiness in her new home.

The Graham concert at the opera house Monday evening will have a fashionable audience.

Among the visitors arriving this week are Messrs. Herbert and Walter Austin, sons of the late James W. Austin of Boston. They are visiting Mr. and Mrs. P. C. Jones, on Nuuanu, and have come to Hawaii to look after some property interests left them by their father.

By the way, it seems as if everybody is going to the Calico ball next Friday evening. The ladies are losing sleep in their anxiety to know just what to wear. The gentlemen, or at least the majority of those who expect to attend, determined this question as far as they are concerned, some time ago. They will wear their white linen suits. The floor managers, including Messrs. W. Porter Boyd, H. M. Whitney, Jr., George C. Potter, Sam Woods, A. St. M. Mackintosh, Walter F. Dillingham and B. L. Marx, have arranged an excellent order of dances. There will be eighteen numbers, made up principally of waltzes and two steps. Miss Helen Parker, Mrs. E. D. Tenney, Mrs. George Carter, Mrs. F. M. Swanzy, Miss Harriet Lewers and Mr. Allan Herbert, appointed to decorate Independence hall, will devote Thursday and Friday of next week to this work.

The wedding of Miss Kate McGrew to Dr. C. B. Cooper is to be a unique affair. It will be celebrated on March 24 at 8 o'clock in the evening at St. Andrew's Cathedral. A bosom friend of Miss McGrew is expected to arrive from the States to be maid of honor. Miss Bessie Spalding, Miss Pauahi Judd and Miss Emily Halstead will be bridesmaids.

Little Else Schaefer, daughter of Mr. and Mrs. F. A. Schaefer, gave a birthday party at her home in Nuuanu, on Saturday afternoon last. About 110 invitations had been issued and over ninety of the little ones responded. A most enjoyable afternoon was passed. Many games were indulged in, but the fish pond was the chief feature of attraction.

The British consulate in Palama presented a scene of gaiety last evening. Capt. A. G. S. Hawes, the British Commissioner, entertained Honolulu society in honor of the commander and officers of the English man-of-war Icarus. The beautiful residence was most artistically decorated in honor of the event. Commissioner Hawes assisted by Vice Thomas Rain Walker and Mrs. F. M. Swanzy, received the guests in the main parlor. A general reception lasting a full half hour preceded the dancing. This feature of the evening's entertainment was in

charge of Messrs. George C. Potter, A. St. M. Mackintosh and D. Shanks. An elaborate supper was served in the large dining hall shortly before midnight. The genial Captain Hawes was voted a most charming entertainer.

The invited guests were: The President and Mrs. Dole, Mr. and Mrs. Cooper, Mr. and Mrs. Damon, Captain and Mrs. King, The Chief Justice and Mrs. Judd, Mr. and Mrs. W. O. Smith, Mr. Canavaro, Mr. and Mrs. Mills, Mr. and Mrs. Shimamura and staff, Mons. Voisson, Mons. Vizzavona, Capt. Hanford and officers of U. S. S. Alert, Capt. Fleet and officers H. M. S. Icarus, The Bishop of Honolulu and Mrs. Willis, the Rev. V. Kiteat, the Rt. Rev. Gulstan Rupert, Bishop of Panapolis, the Rev. Father Leonard, Mr. A. M. Brown, Mr. Mrs. and Miss Hassinger, Col. McLean, Maj. and Mrs. Laukea, Maj. Potter, Mr. A. St. M. Mackintosh, Judge Whiting, Mr. and Mrs. Oat, Mr. and Mrs. Atwater, Mr. and Mrs. Castle, Mr. and Mrs. Schaefer, Mr. and Mrs. Hackfeld, Mr. and Mrs. T. R. ### THE MODERN INVALID

Has tastes medicinally, in keeping with other luxuries. A remedy must be pleasantly acceptable in form, purely wholesome in composition, truly beneficial in effect and entirely free from every objectionable quality. If really ill he consults a physician; if constipated he used the gentle family laxative Syrup of Figs.

### A Famous Brew

The Royal, Pacific and Cosmopolitan saloons have on sale the celebrated Pabst Milwaukee draught beer. It is one of the finest in the world and its excellent qualities have gained for it an enviable reputation.

### BY AUTHORITY.

#### LEASE OF PUBLIC LAND.

On Saturday, March 6th, at 12 o'clock noon, at front entrance of Judiciary Building, Honolulu, will be sold the lease of a lot of land at Pounah, Waikale, Ewa, having a frontage of 75 feet on Government road, and depth of 100 feet makai from same.

Term of Lease: 15 years.  
 Upset Rental: \$50.00 per annum, payable semi-annually in advance.

J. F. BROWN,  
 Agent Public Lands.

#### PUBLIC LANDS NOTICE.

Notice is hereby given that Lot No. 37, Map 6, of the Old Homestead Series in Kailua, N. Hona, Hawaii, is added to the lots open for application as Right of Purchase Leases or Cash Freeholds. Said lot may be applied for on or after 9 a. m., February 15th, 1897, at the office of J. Kaelemakule, Kailua, N. Kona.

J. F. BROWN,  
 Agent of Public Lands.

## Cures Talk

"Cures talk" in favor of Hood's Sarsaparilla, as for no other medicine. Its great cures recorded in truthful, convincing language of grateful men and women, constitute its most effective advertising. Many of these cures are marvelous. They have won the confidence of the people; have given Hood's Sarsaparilla the largest sales in the world, and have made necessary for its manufacture the greatest laboratory on earth. Hood's Sarsaparilla is known by the cures it has made—cures of scrofula, salt rheum and eczema, cures of rheumatism, neuralgia and weak nerves, cures of dyspepsia, liver and kidney troubles, catarrh and malaria.

Such Cures as This Prove Merit.  
 "My little nephew was a plump and healthy baby until a year and a half old, then sores broke out behind his ears and spread rapidly over his head, hands and body. A physician said the trouble was scrofula humor in the blood. The child became one complete sore. We had to restrain his hands to keep him from scratching the sores. We were induced to try Hood's Sarsaparilla, and in a short time he had more life. He improved rapidly, his skin became entirely clear of sores and he is now a healthy child." Mrs. FLORENCE ANDREWS, Clearfield, Iowa.

## Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

Hood's Pills cure liver ills; easy to take, easy to operate. 25c.

## GERMAN LABORERS BEST

C. V. STURTEVANT NOT IN LOVE  
WITH ITALIAN IMMIGRANTS.

The Germans Settled in Iowa and  
Make the Best of Citizens—Educate  
Their Children and Pay Their Debts.

"I spent my early life in the state of Iowa, where the Germans came in thousands to settle on the farms and make their homes," said C. V. Sturtevant this morning, in speaking of the best nationalities to import for plantation labor. "They were about as an undesirable appearing lot of immigrants as one would want to see. They were the poorer classes, such as would come to Hawaii. These people that I speak of acquired a little property, were thrifty and industrious and are today classed among the best of Iowa's citizens."

"They educated their children and were always honest in their dealings, almost without exception. I remember my father used to say that he would give credit to any German whether he had ever seen him before or not, for he had never lost a dollar by them. These thrifty Germans proved to be peaceable and law-abiding, and it strikes me that this is a class of men needed in a small country like ours."

"I have not seen so much of the Italians as I have of the Germans, but was among them in California," continued Mr. Sturtevant. "I was associated with them sufficiently to see that they were continually filling up on poor wine and fighting. Statistics for January last give the ratio of killings in cities of 10,000 population in the United States, including murders and homicides from all causes, at 0.52 per cent. Italy takes the lead of European nations with an average annual list of murders of 2,470, a ratio of 29.4, or nearly fifty-six times as many as the United States, with its population made up of nationalities from all over the world, Italy included. Murders only and not homicides are included in the Italy table, which would materially lessen the percentage in the United States in such comparison."

"Still I know very little of the Italians personally, but statistics give them a rather bad reputation. In business competition they start out at peddlers in the States as soon as they have money enough to do so. The United States has found them so undesirable that one of the first things the present session of Congress did was to pass an immigration law which excludes lower types of Italians from entering that country on account of their illiteracy."

IN THE CIRCUIT COURT OF THE  
FIRST JUDICIAL CIRCUIT,  
REPUBLIC OF HAWAII, IN PROBATE.

In the Matter of the Estate of  
Robert E. Brewer, Minor. Before  
Perry, J., At Chambers.

ORDER TO SHOW CAUSE ON AP-  
PLICATION OF GUARDIAN TO SELL  
WARD'S REAL ESTATE.

On reading and filing the petition of Nannie R. Rice, the Guardian of Robert E. Brewer, a minor, praying for an order of sale of certain real estate belonging to the said ward, being an undivided one-twentieth part of the lands and hereditaments on the Ewa makai corner of Judd and Liliha Streets, in Honolulu, which were conveyed by Emma Kaleleonalani to John D. Brewer, by deed dated the 29th day of April, A. D. 1875, and recorded in the Registry of Deeds in said Honolulu in Book 42, pages 187-188, and now owned by the heirs of Charles Brewer and said minor as tenants in common, and setting forth certain legal reasons why such real estate should be sold, to-wit: that the other owners have agreed to sell their interests therein, and that the title is in dispute and may be the subject of litigation, and that therefore it would be for the benefit of the said ward that his interest in said real estate be sold and the proceeds put on interest or invested in some productive stock:—

IT IS HEREBY ORDERED, That the next of kin of the said ward and all persons interested in the said estate, appear before this Court on Friday, the 5th day of March, A. D. 1897, at ten o'clock a. m., at the Court Room of this Court in said Honolulu, then and there to show cause why an order should not be granted for the sale of said estate.

AND IT IS FURTHER ORDERED, That a copy of this order be published on each Saturday for at least three successive weeks before the said day of hearing, in The Hawaiian Daily Star newspaper, published in Honolulu, the last publication to be not less than ten days previous to the time therein appointed for said hearing.

Dated, Honolulu, H. I., Jan. 29, 1897.  
(Signed) A. PERRY,  
Second Judge of Said Circuit Court.  
Attest: P. D. KELLETT, Jr.,  
Clerk First Circuit Court.

There is no line under the sun that cannot be profitably pushed by judicious advertising, and the quicker the push begins, the quicker the profits will come.

## DOGS AND BICYCLES.

The Animals Have Not Learned to Gauge  
the Speed of the Machine.

Dogs are already, it is said, becoming scarcer in the London streets, partly because they cannot keep up with their owners when riding bicycles, or if they do so, are often overtaken, and partly because the dogs have not yet learned how to avoid the machines and are constantly causing accidents.

It is the rider and his machine and not the dog who usually suffer. The dog, with every good intention, does not seem able to realize the speed of the new invention. Other animals have just the same difficulty. A cyclist recently saw a hare trotting along the road toward him. The hare had no idea of the pace the "bike" was traveling, and only saved a collision by a twisting spring just as the wheel was on him and barely cleared the pedal. Motor cars would be warned off the roads if the dogs had a voice in legislation. One of the competitors in the race recently run in France complained that his vehicle had run over a dog and had been delayed in consequence. This plea was not admitted, as another stated that his "average" was one dog a day.—London Spectator.

## THE WHEEL ABROAD.

The total output in England is about  
750,000 wheels per annum.

Last year two-thirds of the American  
bicycles were made with Birmingham  
tubes.

Ten thousand bicycles are to be bought  
by the British postoffice for the use of  
carriers.

Scotland has about decided that class  
B is a farce and a sham and will shortly  
return to honest classification.

Jacquelin, the famous French crack,  
has left the track to temporarily join  
the army, in which every able-bodied  
Frenchman is obliged to serve.

At the recent meeting of patent agents  
in London Mr. J. Sinclair Fairfax said  
that the cycle industry now gives em-  
ployment to nearly 35,000 workpeople in  
Birmingham and Coventry alone.

M. Combes, vice rector of the Paris  
faculty of science and a chemist of note,  
recently dropped dead from his bicycle  
while coasting down the Avenue Mala-  
koff. The doctors attribute his death to  
angina pectoris.

It has been reserved for an ingenious  
crafter at Monte Carlo to patent an in-  
vention which he calls a "leg cushion." This is a pneumatic stocking, made of silk and elastic, reaching from the knee to the ankle, which, when inflated, will not only protect the wearer from abrasions, but will also supply any deficiency in the form of the natural calf.

Mrs. Herman Davis of New York has  
ridden her wheel over the great St. Bern-  
ard pass. She is the first woman who  
has accomplished this difficult and pic-  
turesque bit of riding, and not many  
men can duplicate it. Accompanied by  
her husband, she traveled 2,000 miles on  
her wheel during her summer vacation  
in Europe, making between 60 and 65  
miles a day.

Mr. Ward L. Smith, of Fredericks-  
town, Mo., was troubled with chronic  
diarrhoea for over thirty years. He  
had become fully satisfied that it was  
only a question of a short time until  
he would have to give up. He had  
been treated by some of the best phys-  
icians in Europe and America but got  
no permanent relief. One day he  
picked up a newspaper and chanced to  
read an advertisement of Chamber-  
lain's Colic, Cholera and Diarrhoea  
Remedy. He got a bottle of it, the  
first dose helped him and its continued  
use cured him. For sale by all drug-  
gists and dealers. Benson, Smith &  
Co., wholesale agents for H. I.

IN THE HANDS OF REGULARS.  
NEWPORT, Idaho.—A band of  
masked regulars went to the house of  
C. W. Reddick, seized and dragged him  
outside, where they gave him a ter-  
rible beating with horsewhips. The  
alleged offense on the part of Reddick  
was that he absolutely refused to  
drink any but Rainier Beer, and gave  
as a reason that the others were in-  
ferior. On tap or in bottles at the  
Criterion saloon.

## EXECUTRIX' NOTICE.

All persons having claims against the  
estate of the late Captain Henry W.  
Mist, deceased testate, are hereby not-  
ified to present their claims, duly au-  
thenticated and with proper vouchers,  
if any exist, to the undersigned at the  
law offices of Alfred S. Hartwell, over  
Bishop & Co's. Bank, Honolulu,  
Hawaiian Islands, within six months  
from the date hereof, or they shall be  
forever barred.

Honolulu, January 13, 1897.  
JANE MIST,  
Executrix of the Will of Henry W.  
Mist, deceased.

Make your advertising an invest-  
ment, not an expense.

## NEW LIFE!

Ponce de Leon made a mouse-colored  
ass of himself by chasing around in  
Florida looking for a fountain of  
youth. To-day men of sense obtain  
the boon that Ponce was hankering  
for by going to

The Criterion Barber Shop  
and being infused with new life by  
indulging in a refreshing shave, hair  
cut and shampoo.

PACHECO & FERNANDEZ, Props.  
Fort Street, opposite Club Stables.

## Improved No. 2 Bulls-Eye

(1896 Model.)

For square pictures, 3 1-2x3 1-2 inches. Size of Camera,  
4 1-2x4 1-2x5 3-4 inches=116 cubic inches. Weight, 18  
ounces. Length of focus of lens, 4 14 inches.

This Camera is built on the "Cartridge System"  
and can be loaded in daylight. Fitted achromatic  
lens, set of three stops, socket for tripod screw,  
and improved rotary shutter for snap shots or  
time exposures. The slides for changing stops  
and for time exposures are alongside of the ex-  
posures lever and always indicate by their position  
what stop is before the lens, and whether the  
shutter is set for time or instantaneous exposure.  
There is, therefore, no danger of the too common  
error of making snap shots with the smallest stop  
in the lens, or setting the shutter for a time ex-  
posure when a snap shot is intended, or vice versa.

Handsomely finished and covered with leather.

No. 2 Bulls-Eye, fitted with achromatic lens, \$8.

improvements and conveniences.  
Everything new and clean. Re-  
cently remodeled with the latest  
Columbia Chairs and cases. Best  
two-chair shop in the city.

Try a bottle of my Medical Shampoo.  
Warranted to Cure Dandruff.

Open evenings until 8. Saturdays 9:30.

G. SOMMA, Propr.

## Paints of Everlasting Luster.

Paints of Perfection are those handled by us.

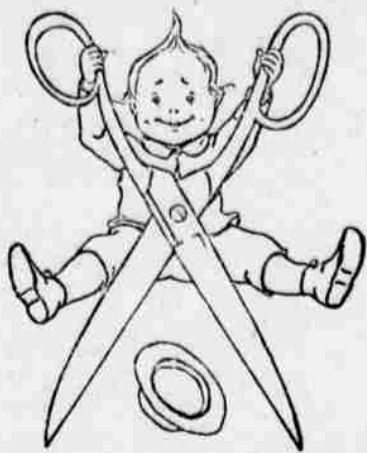

These Paints cost no more than inferior grades, but they last twice as long and always look better. You should keep away from "cheap" paints. Order and use on'y

## Pacific Rubber Paints

They are all that we claim for them.

LEWERS & COOKE.

## Some Cutting Remarks.

When people buy SHEARS and SCISSORS, as a rule they ask for the best, and we are able to show them a full assortment of the finest made by the

SEYMOUR'S CUTLERY CO.,  
HEINISCH'S SONS CO.,  
SWISS SHEAR CO.,

and any one buying one of these makes gets an article that is guaranteed. Money back if any defects are found.

We have plenty of cheaper Shears and Scissors for those who wish to pay less for them, so can satisfy you on both quality and price.

**Hair Clippers.** Brown & Sharp & Swiss are the best to be had. We have cheaper, but the best are the cheapest on this article.

**Horse Clippers.** Buy the best of these, also—Brown & Sharps, or Clarks.

The cheaper ones we have may suit you, but we'd rather sell you the best as we know they will pay for themselves in wearing qualities.

We have just added greatly to our stock of **Cutlery** and can show you **Carvers** in many styles and prices. Also **table** and **Pocket Cutlery** in great variety as to style, material and price.

Do you use the "No Germ Filter?" If not, you ought to. It is very simple.

All you have to do is to screw it on to your kitchen faucet and every drop of water you use from that faucet will have to pass through a block of Tri-poli stone, just as it has to in the regular jar filters, except that it goes through quickly on account of the water pressure. Call and see the best faucet filter on earth.

## THE STEEL BALLS.

They Are Ground, and One Firm Makes 16,000,000 a Month.

Ball bearings became famous when they were put in bicycles. But ball bearings were in use before the safety bicycle was invented, and they are used so extensively as friction killers in machinery of all sorts that one single factory of the three which make the little, burnished steel balls in this country turns out 16,000,000 balls every month. Of course the balls are made by machinery. A skilled lathe hand can turn out a perfect metal sphere, but if every one of the little balls which enable a bicycle wheel to turn so easily was made by hand the cost would send the price of bicycles up sky high. The machinery which makes ball bearings is called automatic, but the abrasive material used to grind the steel balls wears away, and hence it is necessary for the operator to "feed" the grinding wheel up to the work, so that the machinery is not altogether automatic. In making a complete steel ball the first "blank" is either forged out of a steel bar with a steam hammer or is turned out by an automatic screw machine, leaving the blank in the shape of a roughly shaped sphere, with two little nubs, one opposite the other. In this form it, with numerous others like it, is fed into the rough grinding machine, where it is started on its way toward the perfect sphere. No attempt is made to cut off the little necks or nubs before the blank is fed into the machine, for the grinding stone soon eats them away.

The principal part of the rough grinding machine consists of a "holding down" ring, which keeps the balls in the V shaped channel which runs around the groove disk. Below the ring is the grinding wheel, which is so supported that it can be "fed" up to the work by the most delicate kind of a feeding device and is so arranged that the balls travel over the entire face of the wheel. After the rough balls are placed in the machine the top ring is put down on them, the grinding wheel is fed up to touch the balls, and the grinding begins. At first the sparks come in spits and flashes, but soon there is a steady stream of fire, whirling like a ring of sparks, which indicates that the balls have been ground to spheres.

The machine then is stopped, and the balls are taken out and measured by a micrometer gauge. The rough grinding is continued until the balls have been ground down to the required size, which is within one-thousandth inch of the polished and finished ball. The rough balls are taken to the inspector's table, where they are examined for imperfections. Each inspector uses a shallow tray made of pine and finished with shellac varnish. Enough balls are placed in the tray to cover two-thirds of the bottom.

The inspector gives his tray a twist and a turn, which changes the position of every ball and brings them all up close together. Then he holds the tray in such a position that the light reflects from them. If the balls are round, there is a ring of reflected light from each one of them, but any imperfection in the form of a ball distorts the reflection and thus betrays the imperfect ball. Such is lifted from the tray with a magnetized steel pencil, and the selection is carried on until none but perfect balls remains in the tray.

The perfect balls then go to the polishing machine, where they are polished with oil and fine emery, and every few minutes the operator stops the machine to measure samples of the balls, and this is kept up until the polished balls are of the exact size required.

The next step in the process is to harden the balls. They first are heated in an iron vessel, which is constantly kept in motion, so that the balls will be evenly heated. When the proper temperature has been reached, the balls are suddenly dropped into oil and thus receive the temper which makes them hard.

The hardened balls are next placed in an oaken tumbler barrel, where they are tumbled around and up against each other until each ball is burnished until it looks like a globe of mercury. Then they are inspected, measured and sorted, the measuring and assorting being done by very ingenious automatic machinery.

Balls are made from one-eighth inch in diameter to five inches in diameter, the latter for use in pump valves. Most of the balls made for ball bearings are used in bicycles, but millions of them go into sewing machines and in other machinery where it is desirable to reduce friction to a minimum.—American Machinist.

### Wintering a Wheel.

A word of warning to those who have put their bicycles away until "the swallows return in the spring, tra la la." Don't trust them anywhere in a damp cellar. Cover the bright parts with vaseline, and then put the wheel away in the driest spot you can find. Suspend it from two hooks in the ceiling if possible. Bicycles should have as much attention bestowed upon them as women give their sealskin coats when they put them away for the summer. The trouble is trifling at the time, but if it is not expended there will be regret, annoyance and financial loss afterward.—New York Commercial Advertiser.

### Many Wheels Pawned.

A bicycle dealer says the pawning of wheels has now become a source of great profit to pawnshops and a convenience to many impetuous owners. The pawnbroker is willing to advance a reasonable amount, usually enough to permit the young man to take his overcoat out of soak, and, besides, there is an additional advantage of having his wheel stored and well cared for during the winter months.—Chicago Tribune.

### Still More.

A New York court has decided that bicyclists are not compelled to look back. The trouble with many of them seems to be, however, that they will not look in front either.—Cleveland Leader.

## Prices Slashed in Wash Materials FOR TWO WEEKS ONLY. Regardless of Cost

Our entire new stock of Wash Materials now on hand will be offered In order to make room for our new Spring Stock. A fine opportunity to get good materials at a bargain.

Is all that the name implies.

JOHN NOTT.

## Plumbing, Tin, Copper and Sheet Iron Work DIMOND BLOCK. 75-97 KING STREET

## A Little Knowledge Is a Dangerous Thing.

A person unacquainted with Bicycle construction attempting to dismantle a wheel or effect a home repair will often do more damage in five minutes than a skilled mechanic can repair in a day. The mechanism of most Bicycles is very intricate, with left hand lock-nuts and very fine threads, which will slip if the least bit overstrained.

Many of the parts require special wrenches to turn them, of which we have a large assortment, together with the other tools used in Bicycle construction, and a skilled mechanic to do the work.

We make a specialty of repairing Bicycles. No matter how badly used up they are we can put them on their wheels again. Our work we guarantee. Our charges are moderate. We don't want the earth—only a chance to live.

Call and get an estimate on your work at the

Between King and Merchant Sts.

## A \$25 Nursing Bottle

for 25 cents.

The "Best Nurser" is worth \$25 to any mother—we think more. Why? Because it will prevent wind-colic, collapsed nipple, cross baby.

The plan of this bottle is simple, yet scientific. In the bottom of the bottle is a valve. As fast as the milk is drawn the valve allows the air to enter, this prevents the child from sucking in wind because the air comes in back of the nipple, which causes so much wind-colic.

If there were only a few "Best Nursers" they would be worth \$25 each, but we will give you all you want for 25 cents apiece, complete with nipple and valve.

### NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

See the veriscope this evening.

Page 5 for engagements and society news.

The Manna Loa arrived from Hawaii today.

Master Berger has purchased a Westfield.

A new drug company will be formed in Honolulu.

Dr. Sloggett will soon be a Myrtle Boat Club man.

Dr. Moore is now the Government physician at Hilo.

The High School concert will take place tomorrow evening.

Mrs. C. M. Hyde and a party of ladies will go to Ewa tomorrow.

Five hundred scholars have been added to the Government school rolls.

A game between a Colonial ball team and a local nine is a future possibility.

Vida Thrum has a veriscope of his own, which he is exhibiting to his friends.

Tommy Cummins of B company scored 45 points in a practice shoot yesterday.

Marshal Brown has ordered an inspection of police for Sunday morning at 9 o'clock.

Executive Officer Reynolds will leave for Hilo to start the building of the new hospital.

Moepona, convicted of distilling liquor, was marched over to the jail at 12:30 p. m.

The Icarus will probably receive sailing orders by the Warrimoo, due here on the 16th.

The Hawaiian Hardware Company received an invoice of Blue Flame oil stoves by the Australia.

Lieut. Slater, of the Icarus, will sing a solo at the Graham-Marquardt concert on Monday evening.

Professor Berger announces that Cornetist Kreuter will hereafter give a solo at all public concerts.

The Veriscope will be exhibited at the theater this evening. Seats can be secured at Wall, Nichols Co.

There are six applications for membership to be presented at the next meeting of the Myrtle Boat Club.

The Manufacturers' Shoe Company claim that their shoes are good and are cheap. See the ad in today's issue.

Ex Australia H. W. Schmidt & Sons received new fashion goods and Paris ball dresses, and dress goods in evening shades.

C. S. Desky has presented the Christian church with a lot in the Kewalo district. A mission chapel will be built on the ground.

E. W. Jordan has just received a new assortment of denims, spring dress goods, Java cloth, India linens and Windsor cairettes.

The Doric will take the next mail to San Francisco. She will be due on Sunday, but will probably arrive ahead of time.

The Company B team matched against the crack shots from police headquarters, are practising at Kakaako range this afternoon.

The police and B company will have a match shoot on the military range tomorrow afternoon. It is the best two out of three matches.

The agent of public lands has two notices in this issue regarding sale of homestead lot 37, Kailua; and the lease of a lot of land at Pouhala, Ewa.

Hawaiian Lodge No. 21, F. & A. M., will hold a special meeting this evening, Friday, February 5, at 7:30 o'clock. Work in the first degree.

During the absence of Mr. P. R. Isenberg, Jr., from the Hawaiian Islands Mr. Charles A. Rice will have full charge of the business of the Waialeale Dairy and Ranch.

During the absence of Mr. P. R. Isenberg, Jr., from the Hawaiian Islands Mr. Charles A. Rice will have full charge of the business of the Waialeale Dairy and Ranch.

Lieut. Chamberlain says that he will not shoot Patrolman Conley except under military regulations. Conley wishes to use a Sharps and says that Chamberlain can choose his own gun.

Members of Company A will begin tomorrow to shoot for the company medals. A gold and two silver medals are the trophies. Bartfeld, the winner last year, has a handicap of five points this time.

Read what E. Bergersen has to say about the many awards received by the Singer Manufacturing Company, for the handsome display of Singer Sewing Machines at the World's Columbian Exposition.

A team from the Icarus and one from the Honolulu Cricket Club will play at the League grounds tomorrow afternoon at 1:30 o'clock. The latter

team will be selected from members who may be present on the grounds.

Among the '97 Remington bicycles is a lady's wheel finished in a beautiful shade of pink, with full nickel wheel and chain guards, and handsome silver mounted handle grips. It is certainly the Pink of Perfection. H. Hackfeld & Co., are the agents. See ad on page 5.

### MYRTLES CELEBRATE.

The smoker given last evening at the Myrtle Boat Club in honor of the fourteenth anniversary of the birth of the club, was a thoroughly enjoyable affair. President Robertson gave an excellent review of the history of the club.

### UNCLE OATCAKE EXPLAINS.

But His Explanation Puzzles His Little Nephew From the City.

"Say, Uncle Oatcake," said the little boy who was staying at the farm, "what makes you go to bed now?"

"The time was a quarter past 8 on a winter's evening, and Farmer Oatcake, according to his lifelong custom, having wound up the kitchen clock, thrown the cat out into a snowdrift and read a chapter from Huzekiah, was preparing to go to bed."

"What makes me go to bed now?" repeated the agriculturist in blank amazement. "Why, so I can get up early."

"But, uncle, now that there is no work on the farm, what is there to do so early?" "God bless the boy!" said Farmer Oatcake. "Do! Why, light the fire, to be sure."

"But what do you want the fire for so early?"

"Har, har!" laughed the farmer. "Well, now, don't that beat all! If you don't have no fire, how are you going to get breakfast?"

"But, uncle," persisted the boy, "what is the good of having breakfast so early?" "The good of it!" cried Uncle Oatcake. "By gosh, sonny, if you was to get up at 4 on a winter's morning you wouldn't want to be kept waiting round for breakfast! No, street!"

"But you said you only got up to light the fire?"

"That's it," assented the farmer. "And you only light the fire so as to get breakfast?"

"That's right."

"And you only have to get breakfast because you're up so early? Aren't you arguing in a circle?"

"Aren't I which?" said the farmer. "Arguing in a circle—a vicious circle!"

"See here, bub," said Uncle Oatcake sternly. "I've been working hard on this place for nigh 40 years, and, by gum, I ain't going to have a young whippersnapper like you telling me my life's vicious. I git up because I've got to git up, and don't let me hear no more d—d fool questions!"

Saying which, Farmer Oatcake took down his bootjack from its hook and retired.—Stephen Leacock in Truth.

I have given Chamberlain's Cough Remedy a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.—Geo. E. Wolff, Clerk of the Circuit Court, Fernandina, Fla. Sold by all druggists and dealers. Benson, Smith & Co., wholesale agents for H. I.

DENY IT WHO WILL!

It is an absolute fact that buyers at Kerr's save from 25 to 50 per cent on every dollar spent. Kerr's has become a household word, which goes to prove that the ladies are well pleased with their bargains, and TALK about them.

Weekly Star, \$4 per year.

**NEW ADVERTISEMENTS.**

Hawaiian Lodge No. 21, F. & A. M.

**Pink of**

**Perfection.**

Among the '97 Remington Bicycles is a ladies' wheel finished in a beautiful shade of pink—with full nickel wheel and chain guards—and handsome sterling silver-mounted handle grips. It is certainly the "Pink of Perfection," as far as ladies' wheels are concerned, for it is the most elegant and artistic wheel ever exhibited. Our salesman will be glad to explain the special features of this beautiful "mount" to all who call, whether an immediate purchase is made or not.

Prices for '97 models Remington are as follows: Tandems, \$130; Road, Ladies' and Racing Wheels, \$100.
