

CUPID SENDS KANGAROOS

THE PRINCE VISITING IN SOUTH SEA ISLANDS.

Consigned Small Sized Menagerie on The Ventura This Trip—Is Expected Home in Short Time.

Prince Cupid and wife are now in New Zealand. They evidently have completed their Egyptian trip for they were passengers on the Ventura from Sydney to Auckland this trip. It is their intention to return to Honolulu, either on the Sierra or the next trip of the Sonoma. Prince Cupid sent a fore-runner however, in the shipment of a small sized menagerie by the Ventura. He shipped no less than five cases of animals and birds. The most interesting part of his collection is a pair of kangaroos. They are good sized fellows and stood the trip from Sydney very well. In addition to these animals, there is a pair of Australian possums, a cockatoo, a number of small birds and a cage of parrots complete the collection.

The collection was secured by Prince Cupid while in Australia. The menagerie was sent to the Pacific Club where it was on exhibition this morning. Prince Cupid did not state the use to which he proposed to put his pets. His friends all regret that they were not notified of the coming of the collection for they might have arranged with Captain Berger to go over to the Oceanic dock and play the famous Kangaroo march as the steamship came alongside with Cupid's pets. However, the captain may compose a special march entitled "The Kangaroo Parade" and dedicate it to Prince Cupid.

The arrival of Cupid and his wife is being anxiously awaited by their friends. Evidently, he does not propose to engage in Diamond mining for the present. He may perhaps, have decided to become a second P. T. Barnum and begun to collect animals for his circus.

WONDERFUL FISHING BANK

JAPANESE MAKE RICH HAULS IN SHORT TIME.

Caught 234 Fish in Twenty Minutes Last Week—Grounds Located Off From Barber's Point.

A remarkable fishing bank has been discovered by some Japanese about four miles out to sea from Barber's Point and about 17 miles west of the harbor. The catches reported there last week were marvelous.

During five days of fishing last week no less than 735 fish were caught. The Japanese took four boats which they had Young Brothers tow down to the fishing banks. It is only about noon that the fish begin to bite. A quantity of small fish were thrown overboard and when the wind rose the fish seem to come to the surface and remain there about half an hour. Only an ordinary spoon bait was used with hook and line but so fast did the fish bite that one day's record was 234. The fishing lasted for about twenty minutes and then Young Brothers were sent back to Honolulu with the catch in order that it could be placed on sale in the market.

The fish caught was the aku. The fishing was interrupted for two days however out of the five for a large school of sharks made its appearance and scattered the aku. Three large sharks and 1 tuna were caught by the Japanese however.

The Japanese have not fished for a couple of days but will probably resume this week.

THE VENTURA VS. CHINA

CRACK OCEAN LINERS MAY RACE TO COAST.

Pacific Mail Vessel got Four Hours Start Over Oceanic Boat—Latter to be Forced Ahead.

There was more excitement on the Water Front yesterday than has been known in a long time. Two of the crack liners left port within a few hours of each other and the prospects for a race to San Francisco are very good. The China arrived in the morning from the Orient and got away at 8 o'clock in the evening. While the Ventura lay at the wharf, the Ventura from the Colonies passed her. The vessels exchanged signals. The Ventura brought a number of passengers and a little freight for this port. She was given a hurried dispatch and left for the Coast at midnight. Both vessels took large crowds of passengers.

While in Sydney, the Ventura went on the dry dock for two days and was scraped and given new propellers. Her old propellers, which measured 18 feet 6 inches, were changed for larger ones measuring 22 feet. It is thought that they will enable her to make increased speed. The chief engineer said that he expected the vessel would have no difficulty in rapping off 17 knots. She made only 15 knots on the run up but the officers said she would be driven on the run to San Francisco.

The China, expected to reach San Francisco Monday morning and the Ventura, according to the Ventura people, was to get into San Francisco some time before noon of the same day. In this event the running time of both vessels will be so close that they can well be regarded as having a friendly race. The only drawback to such a contest is the fact that the Pacific Mail Company limits its captains to a minimum amount of coal, whereas the Oceanic people are more liberal in this matter, and Captain Hayward may decide to test the speed of his boat. It is more than likely that the Ventura will make a new record for the Oceanic fleet.

Large crowds were present when each vessel departed. The Ventura was delayed a little in getting away, as half a dozen of her firemen had gone to town and gotten drunk. The crowd appeared just as the gangway was being lowered, dirty and happy, singing at the top of their voices. A number of young men and women rowed over to the Ventura and serenaded the departing crowd.

The Ventura and China were given very quick discharges the local dockmen deserving much credit for the speed with which they got their respective boats away. The Ventura left Sydney August 12, and Auckland, 17. She carries \$2,500,000 in gold.

The two steamers coming in at the respective times they did, and leaving when they did made it very hard on the customs force, especially the inspectors. They were on duty for about eighteen consecutive hours.

FRANK PAHIA SUEB NOW

RESULT OF HIS RELEASE FROM CONTEMPT.

Charge That He Got a Deed for Puhpaka Malama's Land by Fraud and Undue Influence.

Suit was filed today against Frank Pahia to compel him to cancel the deed which Judge Gear ordered him to cancel, and on account of which, when he refused to alter the order of the court, he was committed for contempt. The Supreme Court discharged Pahia on the ground that Gear had no jurisdiction to make the order. This morning Attorney George A. Davis filed a suit in behalf of Puhpaka Malama Guerrero, from whom Pahia got his deed, asking that the deed be cancelled and that Pahia be compelled to give an accounting for rents, etc., received while he held the property.

It is alleged in the complaint that Pahia obtained the deed by fraud and undue influence. Malama was only 16 years old, it is stated, when she made the deed and she was under the care of J. Kamio as guardian. It was the fact that she was under guardianship and the consent of the guardian was not obtained, that caused Gear to adjudge Pahia guilty of contempt.

Malama alleges that she was ignorant and unaccustomed to business, and that by pressure brought to bear on her husband, Pahia obtained a deed to the land for the sum of \$400, when in fact he knew it was worth at least \$1500. She never got the money. Attorney Poeppoe receiving and paying it into court on Gear's order. Gear's order was that Pahia take the cash and deed back the land.

The money is now in the hands of the court and will remain there until the matter is settled. The land involved is at Hecla.

NEW WITS ARE SECURED

TWO PETITIONS BEFORE JUDGE GEAR.

Chida Manabaro and George Wade Make Applications—Gear and the Supreme Court's Rulings.

The habeas corpus petitions of Chida Manabaro and George Wade were before Judge Gear this morning. The two applications were discussed together, Attorneys Andrews, Brooks, Billing and Andrade appearing for the prisoners and Cathcart appearing as attorney general.

The petitions are on the ground that there is an order of the court by which the prisoners were ordered discharged, and that in spite of the order they are held in custody. It is held that the Supreme Court's decisions in the other cases do not affect these cases, which are undecided in the higher court.

Cathcart made a motion to quash the writs, on several technical grounds. Judge Gear held with him on the ground that the petitions did not properly plead the former judgment of the court, but he allowed the petitioners to amend. The matter will be heard on Friday morning.

The legal questions involved will be discussed at length. Attorney General Cathcart holds that Judge Gear is bound to follow the decision just given by the Supreme Court in the Ah Ohi case, but it is a question whether he will do so.

George Wade and Chida were both in court. Both are under sentence for manslaughter. Wade's head showed the mark of where Harry Evan's bullet struck him at the time of his arrest on board the Australia.

It is not unlikely that a new release of the prisoners may give them freedom. High Sheriff Brown was in court this morning, but he had not sworn to new warrants.

JAMES LOVE A FREE MAN

JUDGE GEAR TERMINATES THE TRUST.

Says There Never Was Reason for Placing the Old Man Under Guardianship as a Spendthrift.

James Love is a free man again, at liberty to spend all he wants and to go where he pleases. This morning Judge Gear made an order terminating the spendthrift trust and discharging the guardian J. A. Magoon, as asked for in the petition of Love. A written decision will be filed later.

After six years of guardianship on \$4 a week spending money, which has resulted in the piling up of a larger estate than Love ever had before, the old man now finds himself once more at liberty to work as he wishes. He may indulge in back rides now, can change his \$7 a week boarding place for one where more luxuries abound and may even indulge in his pet amusement of going to auction sales and buying everything in sight. According to some of the witnesses, James Love ought to work a revolution in the auction business and win the everlasting friendship of the auctioneers. There are to be no more cheap pick-ups at auction sales in Honolulu, it would appear, for Love will drop in wherever there is a sale and outbid everyone. It was one of his favorite sports in the good old days, and now he is free to do it again.

"There never was any reason for creating a trust in this case and there is no reason now for continuing it," said Judge Gear in making the order. "James Love never came within the terms of the statute providing for creation of spendthrift trusts. The court will terminate the trust, and order the guardian discharged, and a written decision in the case will be filed later."

KAUAI TERM OF COURT.

Attorney J. T. de Bolt will go to Kauai next week to attend and represent the attorney general's department at the term of the Fifth Circuit court. There will be two courts in session here as Judge Little is to sit as well as Gear, hearing cases in which Gear is disqualified, and J. W. Cathcart, the acting attorney general, will not be able to attend the term on Kauai.

GARNISHMENT ISSUED.

A garnishment issued this morning against the Waikiki Beach Company for the amount of \$750, at the instance of May and Company for groceries delivered. The papers were served early this morning upon the various members of the company and the bank accounts of the corporation.

The president and chief stockholder is H. N. Almy who is the manager of the Waikiki Inn, which property represents the investment of the company. All of the guests at the Waikiki Inn were also sued, as garnishees, and the papers in the case were served on each one. They are F. J. Ranier, A. Gantenberg, Miss Ella McInerney, Mrs. A. J. Rasmussen, J. M. Davidson, E. C. Brown, J. E. Fenton, L. B. Kerr, H. Easton, J. C. Evans, Miss Rickett, Miss Colliers, Mr. White, M. T. Harrison. The First National bank is also sued as a garnishee.

IT SAVED HIS BABY.
"My baby was terribly sick with the diarrhoea, we were unable to cure him with the doctor's assistance, and as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. J. H. Doak, of Williams, Ore. "I am happy to say it gave immediate relief and a complete cure." For sale by all dealers. Benson, Smith & Co., general agents, Hawaiian Islands.

WILL LAST THREE WEEKS.
L. B. Kerr & Co. have closed their Hilo branch and the big stock of "not" has been brought to Honolulu and will be sold at clearing prices. The list includes goods in all lines. The sale will continue for three weeks.

PRIMITIVE PAGO-PAGOANS

VISIT TO THE REMOTE ISLAND OF MANUA.

Two Ohio Men Entertained by a King at a Samoan Hookup—Naval Station Work at Pago-Pago.

Judge C. W. Dustin and Dr. C. H. Humphreys of Ohio, arrived by the Ventura yesterday from a month spent at Pago Pago and considerably more time spent in the South Seas.

"Government work, in the shape of elaborate coal sheds and wharves, is being pushed day and night," says Judge Dustin. "The twenty-four hours of Sunday being the only lapse in the continual labor. \$100,000 worth of buildings are already in place the labor consisting chiefly of white help imported for the purpose and some natives working at the rate of \$1 per day. There is at present a small custom house erected and appropriations have been asked for the building of barracks and a governor's house for the comfort of the natives who are extremely friendly and willing to work at such labor as they can perform."

"It has been the policy hitherto," said Judge Dustin, "to allow the natives to govern themselves to a certain extent under civil rule. For example there is a native council at a nominal salary of about \$15 per month, and native judges who act as associate judges of the court, the head of which is a white lawyer from Apia, Judge Edwin G. Gurr. This court makes a regular circuit through the group at stated intervals."

There was held a short time ago a native Congress the jurisdiction of which has not yet been approved by congress," continued the judge, "and I have promised to use what influence I have to forward the recognition of the matter."

There is at present a duty of from two to two and a half, I forget the exact amount, of ad valorem duty on incoming goods at the port of Pago Pago; a small amount just sufficient to pay the port expenses and not present any great encouragement to smuggling."

"While at Pago Pago, which is pronounced as if there was an 'n' before the 'g,' as sounding as n in that dialect, the flag was saluted by the British cruiser Plymouth with a salvo of 21 guns, replied to by the American collier Abanda then in the harbor."

"The harbor is a magnificent one and the country most interesting and picturesque the natives being in a very primitive state as far as their dwellings and requirements are concerned. Their physique is splendid and their personal appearance attractive. While in the group Judge Dustin and Dr. Humphreys visited the island of Manua a part of the American territory situated about sixty miles from Tutuila and were there lavishly entertained by King Mauga, a donation party being given in their honor to which pigs coconuts and other indigenous dainties were offered by the natives. There is a boys' school on the island in flourishing condition which was also visited."

"In the opinion of Judge Dustin the islands of Tutuila and Manua are, while ready and possessing the necessary possibilities, not likely to develop for some time owing to a law instituted by Commandant Tiley, which though a wise provision for the native population, will prohibit development for some time. This regulation does not allow any native to sell his land, nor to lease it for more than forty years which leaves subject to the inspection of the authorities. These leases may be granted upon the carrying out of certain improvements thus providing for the possibility of the erection of some houses in course of time. Were it not for this provision the galleons nature of the natives would be readily imposed upon by adventurers. It is said."

Judge Dustin and Dr. Humphreys will stay in these islands for a short visit, taking in the volcano before they return to the States.

MIOUERA FROM COLONIES.

The Miuwera arrived this morning from the Colonies after an uneventful trip. She left Sydney August 12 and Brisbane, August 14. She brought two passengers for this port. DISPUTE OVER A CHILD

FOSTER MOTHER AGAINST RIGHT PARENTS.

Little Girl Wept Bitterly When Thought She Was to be Given Back to Her Mother.

A story of human interest was told at the police station this morning. The cause of the affair being made public was the attempt upon the part of a father and mother to secure possession of their offspring whom it is claimed they had practically deserted for the last six years.

About 9 o'clock a Chinese woman carrying a baby on her back and leading a little boy and girl came into the office of Deputy High Sheriff Cullingworth and begged to weep bitterly. Deputy Harry Aossman was present but as his linguistic accomplishments do not include the Chinese tongue he was at a loss to understand the reason for the woman's sorrow. Officer Apana was about the building so he was instructed to learn what had brought the woman and her children to the place.

Between her sobbings, the woman told a very pitiful story. The little girl who was with her, was to be taken away by her parents. The Chinese woman stated that about six years ago when the child was a year old the father of the little girl had given her over to her care and she had paid him \$15. Ah Moy was the name of the father and the mother was the native wife of Ah Moy. For six years the Chinese woman had carefully reared the child and given her the same home that she gave to her own flesh and blood. During all of that time the native mother had called but twice to inquire for the little girl.

The other day at the end of six years, when the child was about seven years old, the father approached the Chinese woman and offered to take the child back. He wanted to pay \$40 for the care and trouble which had been bestowed upon the girl. The Chinese woman rejected the offer and when she heard that an attempt was to be made to compel her to surrender the child, she hurried with it and her other children to the police station.

The Chinese woman showed real sorrow and when she spoke of parting with the little girl she sobbed as if her heart would break. The child herself, seated almost as much as affected by her foster mother. The little fellow who had evidently been the girl's playmate since the children were infants, sat on the edge of a chair and emitted the most doleful howls that probably had ever been heard in the police station. Deputy Aossman was present and tried to lock himself in the office safe but not having the combination he was forced to swear and bear the noise. By some wild gestulations as furious as those of Toma Abe interpreting, Apana succeeded in quieting the crowd and learning the cause of their trouble.

The woman was advised that it was a civil case and not within the province of the police, so she went away. The Supreme Court has, it is said, ruled that in a case like the present one the foster mother is forced to surrender the child on demand and recover in the courts for its care. It is possible that the Chinese woman may consider however that she purchased the child from its father when she paid him the \$15 and she is its owner in spite of the demands of the father and mother for its possession.

GOT WRONG ANCHOR.

While dragging for the lost anchor of the battleship Oregon this week, the Iroquois hauled up a 3,000 pounds anchor which had evidently been on the bottom for 16 to 17 years. The chain had rusted so as to be worthless, although the anchor was in fairly good condition. No trace of the Oregon's anchor has been found yet.

HE PARTS WITH HIS IDOL

SELS IT TO THE BISHOP'S MUSEUM.

The Ancient Hawaiian God Discovered At Waipahu a Year Ago Has Been Sold by A. L. C. Atkinson.

Atkinson is separated from his idol. He has sold it to the Bishop museum. This was an ancient Hawaiian idol which was found in a swamp near Waipahu something over a year ago. At the time the discovery created considerable stir among the superstitious natives and a good deal of interest among archaeologists. Pictures of it with accounts of its discovery and attempts to determine its place in Hawaiian theology were published in England and on the mainland as well as here.

The idol was of wood about four feet high and in general aspect reminded one of a totem pole. It was found by some natives from whom A. L. C. Atkinson secured it. The news of its discovery brought hundreds of natives to Mr. Atkinson's office, and almost everyone of them had a different name to give it, and each gave assurance that it was his family's family idol.

The idol was discovered just about the time the plague broke out, and to many Hawaiian minds it seemed that the scourge of the plague coming at the time this idol was discovered was an indication that the old Hawaiian gods were rousing and demanding that they be worshipped.

Several museums and collectors have sought to purchase it but Mr. Atkinson preferred to dispose of it to the Bishop Museum, as thereby it would become a part of the Hawaiian antiquities permanently preserved here.

MANY JAPANESE STILL COME.

The Japanese still continue to come to these islands. Yesterday 80 more arrived on the China. They are laborers and if they have as good credentials as the others, they will be permitted to land.

SONOMA NOT SIGHTED.

At 2:30 p. m. today the Sonoma from San Francisco had not been reported. Evidently the delay has been caused by either the strike in San Francisco or the delay in the arrival of the British mails on the coast.

Mr. Erwin called on the Ventura last night for California where he expects to give some illustrated talks from material gathered in Hawaii.

NINEPENNY UMBRELLAS.

The umbrella has taken a firm hold upon the native of India, or at any rate upon the Bengali. No less than 3,000,000 umbrellas are imported into the country every year. The quality of these umbrellas is not described, but as those imported from England (about three-fourths of the whole) are sold wholesale at one rupee apiece, and those from foreign countries at eight annas apiece, something may be left to the imagination.—Lahore Civil and Military Gazette.

The American ship, Emily F. Whitney will leave for Kahului tomorrow to load sugar for San Francisco.

World's Entertainers.

Reports from the Antipodes are that the Lee Vaudeville Company that recently played here under the title of the World's Entertainers have made a big hit in Australia.

A. M. Canby who came by the Ventura, witnessed a performance in Melbourne before the Ventura left and states that the enthusiasm exceeded anything that has greeted vaudeville performances for a long time.

Sweet, the musical burglar caught the crowd in great shape. James Love who has been associated with several theatrical enterprises that have visited Honolulu is acting as business manager for the combination.

Will take inoculations.

DENVER, Colo., August 12.—In view of the interest taken in the question of whether or not animal tuberculosis can be communicated to human beings, T. L. Monson, state dairy commissioner of Colorado, offers himself as a subject for a thorough test of the matter, provided a suitable annuity for his family is assured in case of fatal results.

Dr. Monson has made a study of the matter and is a strong believer in Dr. Koch's theory.

Will raise freight rates.

The Wilder and Inter-Island Steamship companies will shortly increase their freight rates to the other islands.

This decision has been reached as the result of conferences between the managers of the two companies. The schedule has not been agreed upon as yet nor has the date when it will go into effect.

Between Men's and Boy's Clothing...

We make no difference in this case and furnish all attention to detail. There is no sweat-shop work on any of our suits. Is not this worth the thoughtful consideration of mothers? Isn't it worth paying a trifle more to have your boy's suit made in a proper manner. If the wife were consulted, wouldn't she insist that the husband avoid wearin' sweat-shop clothing?

We have just received a new line of STAR WAISTS, with and without collars. Just the thing for the school season.

Also a fine line of EXTRA PANTS FOR MEN AND BOYS.

Extraordinary efforts have been made by us to find and prepare the things needful for your good appearance and comfort—the very best SUITS FOR MEN AND BOYS; SHIRTS, HATS, OUTFITTING FLANNELS, ETC.

All these are worthy of your attention, being fashionable in cut and stylish in appearance.

Fainting Spells

Always indicate a weak heart. They usually follow palpitation or fluttering, shortness of breath, irregular or intermittent pulse. When the heart muscles are overworked or exhausted they relax, the flow of blood to the brain is interrupted, and unconsciousness follows. Should relaxation continue completely for two or three minutes, sudden death is the result. The surest and best remedy for overworked and debilitated hearts is

DR. MILES' Heart Cure.

"My heart trouble began several years ago with palpitation, shortness of breath and smothering. Then I began to have fainting spells and would fall over on the street or wherever I happened to be. I was unable to attend to my business, and dare not venture away from home. The doctors failed to help me, and seeing an advertisement of Dr. Miles' Heart Cure I bought a bottle. The first few doses stopped the fainting spells and in a few weeks my heart was working all right."

Dr. Miles' Heart Cure is sold at all druggists on a positive guarantee. Write for free advice to Dr. Miles Medical Co., Elkhart, Ind.

WARRANT OUT FOR EGRY

IN THE HANDS OF THE CROWN PROSECUTOR.

Was Sworn Out by a Hotel Proprietor for a Hotel Bill of Thirty-seven Pounds Sterling.

EDITOR STAR: An article which appeared recently in a Honolulu paper did so much injustice to an honest man and a charming woman, that I feel that someone should take up the cudgels in their behalf. I crave the liberty of your columns to set forth briefly the truth of the matter.

I refer to the outrageous interview which Paul Egrý gave to one of your papers.

The man's statements were a tissue of falsehoods from beginning to end, and his suggestions and innuendoes were worse.

Commencing with the night we left Honolulu on the Sierra and continuing without intermission until the day he disappeared, Egrý's condition varied from mild intoxication to absolute beastly drunkenness.

He was treated with every consideration by the management of this company, in point of fact, he received far better treatment than his merits or his behavior warranted. In return, he left the company without a violinist, and at the time of his departure from Auckland he owed Mr. Hallam a considerable sum for advance on salary.

Yesterday the Crown Prosecutor of New Zealand received a warrant for his arrest, which had been obtained in Auckland by the proprietor of the Prince Arthur Hotel, to whom Egrý owed £37 for board and borrowed money.

The man was never anything but a disgrace and humiliation to the company, but he received at the hands of Mr. Hallam and Miss Stanton the same kind treatment which we have all received.

In twenty-two years of professional life I have never been better treated or happier in a theatrical organization. I feel that I owe it to the sterling, truthful, just man who is my manager, and to the sweet, lovable woman whose name the company bears, to bear public testimony to our position.

We left New York five months ago and have traveled over twelve thousand miles. In all that time and distance, and with all the trials and disappointments of theatrical management, the kind hearted good nature of Mr. Hallam, and the sweet womanliness of Miss Stanton have never for a moment deserted them.

In a strange land, among a new people we have fought our way step by step, and I am more than happy to be able to state that in every city we have visited in New Zealand our last week's business has been double that of the first.

We are just turning back to retrace our steps over the same ground which we have come, and will play return engagements in every city we have thus far visited before proceeding to Australia.

I do not wish to fatigue you with reiteration, and I beg your indulgence for this lengthy statement. When a woman is honestly fighting her way upward and when a word of encouragement means so much to her the honest men of the world do not withhold it.

I think we all left small portions of our hearts in Honolulu, and I for one am free to say that beautiful, sunny Oahu won me completely. It is our intention to return there some day, and we beg that you will treat our short-comings with charity, and if we have even one small merit give it credit.

Above all, don't permit drunken adventures to handle a woman's reputation without gloves.

Thanking you for past courtesies, and begging future favors, I am,
ARTHUR C. PELL,
Musical Director Josephine Stanton Opera Co.
Dunedin, N. Z., August 1, 1901.

PUT BACK IN DISTRESS.

While off the Molokai light house Monday night about 8:30 o'clock, the fore and main top masts of the little schooner Ka Moi broke and came tumbling down on the decks, letting both the sails fall. Nobody was injured. The vessel put back to this port and her cargo is being transferred to the Mo'i Wahine which will take the other vessel's trip to Paauilo.

GOOD MEDICINE FOR CHILDREN.

If you have a baby in the house you will wish to know the best way to check any unusual looseness of the bowels, or diarrhoea so common to small children. O. P. M. Holliday of Deming, Ind., who has an eleven months' old child, says: "Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach. His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he 'rot better at once.' For sale by all dealers. HOODLUMS.

The hoodlum question is constantly coming up before us. Yesterday a set of young hoodlums who had been misbehaving themselves outside of the carriage shop of W. W. Wright on King street, appeared in court and were punished by fine of Judge Wilcox. But these young rascals are not deterred by fine, they can manage to let the money out of their parents or relatives and friends and are as ready to go on with their misconduct as ever. The only thing that will alter them is a spell of work upon the roads or in the stone quarries, and when such opportunity comes, it is to be hoped that Judge Wilcox will not hesitate to make the most of it.

There are several gangs of these young rascals and budding criminals in town. One infests the upper part of Emma street and the slopes of Punchbowl. This is composed entirely of Portuguese. These youths through continual immunity are waxing bolder and bolder. Ordinary passers by are very apt to be hustled and their ears are certain to be insulted by the language these young blackguards use. Little children, entrusted by their parents to run over to the small shops which are to be found on the skirts of Punchbowl are waylaid and their nickels or ten cent pieces taken from them. Woe betide any Chinaman who goes along that vicinity towards dusk, he will be mobbed and stoned to a certainty by these noble representatives of the Caucasian race.

This may seem a highly colored picture, but let any one go round Punchbowl any evening, but preferably Saturday or Sunday evening, and there will be found to be no exaggeration. It may be said, why do not the police break up the gang, but as a rule the sight of a policeman sends them scurrying through the alley ways and sagging off that region, and it is like looking for a needle in a hay stack. If a drunk enough half a dozen or a dozen may make an attack upon a policeman, as they did some months ago, but it is only if they think that they can come off with whole skins. The hoodlum is always a coward.

Another gang is to be found Palama way, its depredations being specially leveled against the Chinese, some of whom they fairly tyrannize over, but the small store keepers do not complain because they think that if they do they would lose the custom of the parents. It is not an uncommon thing for a Palama Chinaman to come to the police station and request Charlie Chillingworth or some policeman to come out and frighten the boys, but not to arrest them. The Palama contingent of hoodlums is a mixed one, several races uniting to form that bouquet of blackguardism.

Then there is a select posse of hoodlums who congregate in the neighborhood of Wiley street. These are mostly natives and part-Hawaiians. They devote themselves chiefly to gambling, but they can be abusive to passers by upon occasion. This is the gang that always has pickets out to give notice of the approach of any one who might break up their game. It is also a curious gang in this way, that it attends Sunday school and the afternoon church services held in the Chapel, and then proceeds with its game as unconcernedly as ever.

The harm that such gangs of hoodlums do is not confined to themselves. Enough mischief is wrought among themselves, it is true, and from their ranks come the graduates in crime, but there is a deeper and a more subtle danger. The members of these gangs are looked up to by the idle small boys as veritable heroes, and the said small boys copy his manners, his oaths, and hopes in time to emulate his vices. It is in this that more danger lies than in the actual acts of the hoodlum.

The hoodlum in a community is like a subtle poison and hoodlumism keeps spreading. Something, probably a very great deal, can be done to counteract this influence by the establishment of industrial schools. But industrial schools can only deal with the budding hoodlum. The full fledged hoodlum there seems to be nothing to do with unless we can get some self devoted man to go among the class, win confidence and then lead to better things. Such men are rare. They are not professional philanthropists, they are made of very different fiber. So rare are they that there are not sufficient to go round even one of our great cities. We have not yet developed one here.

COMING TROUBLE.

The Seamen's Union keeps the water front in a very undesirable ferment, and other circumstances have made this a most undesirable place for the captains and officers of ships. The result, in time, will be that the ship-owners will take the matter in hand and will use some pressure here in order to make matters have a better complexion so far as their interests are concerned.

Being out in mid-ocean and having no telegraphic communication the ships that touch here are very much at the mercy of the Seamen's Union. Sailors are proverbially like sheep, and they follow the lead of the smooth tongued runner of delegate, most readily. Moreover the personnel of the sailor is and

has been deteriorating for a very long time. The forecastle of a sailing ship contains very few true sailors, but it contains an omnium gathrum of all nationalities and of every variety of loafer. The true sailor has almost ceased to exist.

In former days sailors became attached to a line of vessels or to a particular captain and used to work year in and year out, taking a pride in their vessel, and in its success. Among these the American sailor stood high. He was experienced, skillful and thoroughly interested in his work. From the forecastle he expected to reach the quarter-deck, and he very frequently succeeded. But this hardy race has practically disappeared. No one would think of choosing an officer from the gang of loafers which now occupy the forecastle.

Of course there are reasons for this. The big ocean steamers present desirable berths and have absorbed the better and more educated class of seamen. Captains can take little interest in sailors who are discharged at the first home port they touch at. The men supplied to ships before sailing are nine times out of ten green hands who want to leave the place they are in for some foreign shore, the reason being that their continued residence where they are located might lead them into difficulties with the civil authorities.

Into this mess throw the efforts of the Sailors' Union, and you have as pretty a mess as you need. We have it here, and it will do considerable injury to our shipping industry and give an ill name to our port.

Governor Schroeder made close connection with the China in order to reach Washington in time for the Schley investigation. This will be one of the most sensational naval trials of modern time. Schley does not lack for friends and most enthusiastic supporters. Sampson does not inspire such enthusiasm. In Lawyer Wilson, Admiral Schley has the ablest jurist in Washington to help him in his trial.

The Civil Service examinations have shown the joints in the armor of some of those who presented themselves. There are one or two whose names appear in the lists in far lower classes than they ought to be. A man holding a good position should see that he is well prepared before launching himself into competition with men who are not holding as good a place as he does. Examinations do not show all qualifications, but they show a very large number.

The recent visit to Bird Island or Nihoa did not prove so disastrous to the feathered inhabitants as it was undertaken some years ago. On that occasion some mischievous tourist set the dry scrub on fire and a large number of young birds were roasted in their nests. However from the account brought up from the island, it has recovered from the conflagration and the birds seem to be as thick as ever. The scrub will probably have been improved by the burning off.

It is said that corporations have no souls, but the action of the Sock Yards Company towards their employee Silva, who worked so hard to save the property of the company that he allowed his own to be destroyed with out an effort to save it, does not bear the smart saying out. Silva is to have a furnished cottage, rent free in future. This is not the only instance of appreciation or gratitude by local corporations. Something of Hawaiian kindness seems to animate them here. They are more human and less machine like.

No one can deny that Francis Murphy, however he may be regarded by Mrs. Gougar and Carrie Nation and their section of the prohibition party, has done a great deal of good. He may have lost some of the fire and spontaneity of speech which he possessed twenty years ago, but his words have a strong moral effect, and he has great influence over certain classes of minds. Not all people do good in the same way. Mr. Murphy reaches people that Mrs. Gougar or Mrs. Nation would never reach. It is a pity, where people have the same end in view, to see criticism of the action of fellow workers. It must be said to the credit of Mr. Murphy that though the criticisms upon him were very severe and seemingly very uncalculated for, he has not returned the criticism in kind. Mr. Murphy has a strong hold here, and is accepted at his true worth as an honest, straightforward, plain man working in a worthy cause.

There is to be an International Congress of Historical Science held at Rome in the spring of 1902, and invitations for delegates to the Congress have been received by the United States Government. The congress will take up the following subjects: (1) Classical archaeology; (2) numismatics; (3) history of oriental and classical antiquity; (4) history of ancient literature; (5) history of ancient law; (6) mediaeval and modern, general and diplomatic history—diplomatic and archivist science; (7) history of mediaeval and modern literature; (8) history of mediaeval and modern art; (9) history of modern law; (10) history of economical and social science; (11) history of philosophy and of pedagogy; (12) history of religion; (13) history of geographic exploration and discovery—historical geography; (14) history of mathematical, physical, natural, and mediaeval science; (15) history of musical and dramatic art; (16) teaching of history. Our Territory should be represented by Professor Alexander.

HAS SHIPWRECKED CREW

SURVIVORS OF LOST HELEN N.
KIMBALL ON VENTURA.

Trading Schooner Wrecked on Fanning Island Last June—Mate Has Probably Died of Injuries.

Seven shipwrecked seamen are passengers on the Ventura for San Francisco. They are the members of the crew of the little schooner Helen N. Kimball which was lost on Fanning Island, June 26. No lives were lost but the first mate sustained such bad injuries that he had to be left on Fanning Island in care of some of the natives of that place. In all probability he has succumbed to his injuries by this time. From the statements of members of the crew, the schooner was lost while trying to recover a lost anchor.

The Kimball sailed from San Francisco, May 12, with a load of railroad ties for Kahului. She reached the Maui port May 26, and after discharging her cargo proceeded to Washington Island and thence to Fanning Island, which was reached June 22. On the night of the arrival, Captain H. J. Hansen started to enter the atoll which is accomplished through a very narrow passage. He lost one of his anchors just about the time that he was getting ready to start in. On the following day one of the natives marked the location of the anchor with a buoy and the Kimball proceeded to take a load of copra.

June 26, Captain Hansen started out of the atoll and stopped to pick up his anchor. The chain parted and before he could let go the other anchor a strong current swept the vessel toward the shore. He ordered the other anchor dropped but it did not hold. The schooner dragged the anchor and within a few minutes was piled bow on the beach. She was kept stern to the waves, however, while the captain and crew worked trying to get lines out and haul her off. On the next day, however, the waves increased in force and the vessel could not be held against them. They caught her up and dashed her broadsides onto the beach still higher beyond the first point where she struck.

From the time that she received the second shock, Captain Hansen saw that she was doomed. The waves dashed over the vessel and she began to go to pieces within a short time. The crew took to the boats with what belongings they could hastily gather. In making the beach, one of the boats was upset and the mate's right leg pinned to the ground. He was rescued by Henry Hansen, the brother of the captain but the injuries of the man proved very bad. His right leg was broken in a number of places, the bone evidently having been crushed. He was made as comfortable as possible by the natives, an attempt being made to set the limb. He suffered great agony during the thirteen days that the crew was marooned on Fanning Island.

The natives did all in their power to aid the men. Finally the little British tramp steamer Isabel, was signalled by the crew and she took all of them but the mate to Pago Pago. They waited there twenty days before they could catch a steamer back to San Francisco. In addition to Captain Hansen those accompanying him were his brother, second mate Henry Hansen, able seamen, A. F. Rustad, M. B. Donner, S. Benesen Hans, J. Johnson and A. Simonsen.

The Kimball was of 182 tons register and was the property of Charles Nelson of San Francisco. She is a total loss.

JEAN GERARDY.

Violoncellist Arouses Intense Enthusiasm in Australia.

Jeau Gerardy arrived on the Ventura yesterday in good trim for the concert on Thursday evening. Mr. Canby, his manager, states that after the first concert in Melbourne, the immediate enthusiasm aroused over the musician has not yet subsided. Gerardy was obliged to give afternoon as well as evening concerts to satisfy the popular demand, the box office of the theater being torn down in the rush for seats.

Every effort was made to arrange for a third continuation of Gerardy's tour, impracticable on account of previous engagements. Mr. Canby is confident that the first concert by Gerardy will call for a repetition, having never failed to find the artist creating a furor whenever and wherever he appears.

The full program will be published tomorrow. Mrs. Tenny Peck will be the accompanist of the evening, having been working on the scores of the selected numbers for some time. Gerardy plays several numbers which will be infallibly greeted by encores. Mrs. Whitney will also render a piano solo

during the evening in relief to the cellist.

The violoncello, valued at \$10,000, which Gerardy plays, will be displayed in a local store window some time today. The sale of seats is still going rapidly and promises to find few vacant chairs by tomorrow night.

THE ORIENTAL LIFE INSURANCE CO., LIMITED.

A CHARTER GRANTED

To the First Life
Insurance Company
for the Islands—A
Home Institution.

The purpose of the Oriental Life Insurance Company of Honolulu is to do a general life insurance business on the Hawaiian Islands and in the Orient. The company's home office will be at Honolulu, with branch offices at Shanghai, Tientsin, Chefoo, Foo Chow, Amoy, Hongkong, in China; at Manila, Philippine Islands; and at Singapore, Straits Settlements.

Leading American companies are issuing policies on people of every nation at all treaty ports of China, and other Oriental countries, the rates charged being adjusted by the actuaries of the companies according to climatic conditions. British life companies have been doing business in China for sixty years and American companies for about thirty years.

The Legal Reserve or "Old Line" system of life insurance has been by far the most successful of all, and the companies organized under legal reserve laws within the past ten or fifteen years in the United States have been without exception highly successful. An example the Conservative Life Insurance Company of Los Angeles, Cal., began business in 1900 with a paid in capital of \$100,450, and in that year issued over 2,000 policies. The Oriental Life Insurance Company begins business with a limit of \$3,000 upon one life and will maintain the limit until such time as the premium income, and mortuary reserve fund will justify an increase of amount at risk. A large capital is not at all necessary, the only object or advantage in having any capital to begin with is that the company may be able to meet any possible death claims during the first year of business, and to open its offices at points desired.

The Oriental Life Insurance Company of Honolulu will invest its funds in approved island securities and hopes to, have the hearty support of the citizens of the Territory; and such support when given will redound to the advantage of the islands in that the thousands of dollars annually paid for new insurance in outside concerns would remain and be distributed here at home.

The Oriental Life Insurance Company will have as president Mr. J. P. McCoy, formerly of the Mutual Life Insurance Company of New York, whose insurance experience dates from 1889, when as a solicitor he began work in Illinois, and later in Wisconsin. In 1898 Mr. McCoy made an extended trip to the Orient in the interests of the Mutual Life Insurance Company of New York. Having resided fourteen years in China, and speaking the Mandarin dialect fluently, Mr. McCoy is peculiarly fitted to ably serve the new company in China, and its immediate success in that country seems certain.

Mr. Bruce Whitney, at present assistant superintendent of the Domestic Agencies Department of the Mutual Life Insurance Company of New York at that company's home office, will act as secretary of the new company. The company is extremely fortunate in securing the services of this experienced officer. He has been connected with the offices of the Mutual Life Insurance Company of New York for over fifteen years at Detroit, Milwaukee, Peoria, Ill., and at the home office in New York City.

The new enterprise is launched under most favorable auspices, is on a firm basis, and backed by substantial men who are determined to push it forward to the highest possible success.

The morning of life is the time of
abundance, provision, strength, vigor,
growth. When the sun begins to sink,
when the midday of life is past, then
the hair begins to fade and the silvery
gray tells of approaching age.

Sunrise or sunset? Which shall
your mirror say? If the former, then
it is rich and dark hair, long and heavy
hair; if the latter, it is short and fall-
ing hair, thin and gray hair.
The choice is yours,—for

Ayer's Hair Vigor

always restores color to gray hair,
stops falling of the hair, and makes
the hair grow long and heavy.

This is something you have been
looking for, isn't it? And it is some-
thing you can have confidence in, for
it is no experiment; people have been
using it for half a century. We do not
claim it will do everything, but we do
claim it is the best hair preparation
ever made.

NORWAY SOON DEFORESTED

LUMBERMEN AND PULP MANU-
FACTURERS THE CAUSE.

Resources of That Country Will be
Destroyed With 50 Years at the
Present Rate.

The forest wealth of Norway is being rapidly diminished by the savage assaults of lumbermen and pulp manufacturers. An expert commission appointed by the government not long ago made an alarming report showing that three trees were cut down annually for every one that grew by nature or by planted by human hands, and in this climate it takes a hundred years for a pine tree to grow big enough to furnish a lot twenty-five feet long and ten inches in diameter, which is the minimum available for the sawmills. At one time Norway was covered with timber, but the devastation of the forests has been going on without intermission since the fourteenth century. Formerly there was an abundance of oak in the southern part of the kingdom. Now there is none. All of the old buildings in southern Norway erected before the eighteenth century are of oak from the foundation to the ridgepole, and an abundance of rich old oak furniture is to be found among the wealthy families. Sometimes rare pieces are to be seen in the kitchens of peasants, who cling to them with a full knowledge of their value and cannot be persuaded to yield to the temptations of the curio dealers. The few oak trees that remain are merely ornaments. That class of timber has practically disappeared from the trade with all other hard woods, and the pine and spruce are going rapidly.

It was shown by the last census that the standing timber in the kingdom had been reduced to 68,179 square miles, or 21 per cent of the entire area, whereas in 1855, 55 per cent of the country was covered with forests. The lumbermen are doing an immense amount of damage, but the pulp manufacturers are doing more, because they destroy the small trees only. There are now in Norway 383 sawmills, employing 12,073 people, and 196 pulp mills, employing 7,739 people, with at least 35,000 other persons engaged during the winter season in stripping the mountains and turning the forest land into deliberate wastes. They take everything. The big trees go to the sawmills and the little ones to the pulp factories. It is estimated that within the next half-century the timber resources of Norway will be practically exhausted at the present rate of destruction.—Chicago Record-Herald.

CONTRACT WAS ALTERED

ABLES MAKES SENSATIONAL
CHARGE.

Hagey Cure Case Still on Trial—The
Jag-Cure Formula a Great Medical
Discovery.

The evidence in the Harrison-Magoon
case took a somewhat sensational turn
yesterday afternoon, with L. C. Aables
on the stand. Aables swore that the
contract he had made with Harrison
had been altered since he signed it.
He declared that an entire page had
been typewritten over again, for the
purpose of inserting the following
clause, which appears in the contract
now in court as an exhibit of plaintiff:
"That if at or before the expiration
of a period of six months from the date
of the departure of the said Gilmore
or the said Harrison from New Zealand
to Tasmania, the said Gilmore or the
said Harrison is not satisfied with the
condition of the said partnership busi-
ness in Tasmania, the said company
will give the said Gilmore or the said
Harrison stock of the market value
equal to the amount paid by him of the
2500 pounds."

Under examination by McClanahan
and cross-examination by Robertson
Aables told much of the Hagey cure
business in Auckland, and a lot of re-
spondence was introduced. It ap-
peared that the Honolulu Hagey peo-
ple had become dissatisfied with Aables'
work as well as that of the others while
he was in Auckland, and there had
been vigorous kicks from Magoon
against a contract made by the agents
Coward and Kirkpatrick with Auck-
land investors, guaranteeing them 10
per cent. The following letter from
Magoon to Ruby Dexter, who was em-
ployed from Honolulu to investigate
the financial affairs of the Auckland
institute, shows that the parties had
the greatest confidence in the cure,
even after the failure of the Honolulu
institute:

"The business here has entirely col-
lapsed. It seems to me to be mislead-
ing in view of what we have written
to you to state that 5 per cent a month
is paid. It is true that two dividends
were paid of 5 per cent each but that
is all. I do not wish to be put in a
position of endorsing anything that is
not literally true. The formula is un-
doubtedly one of the best things in the
way of medical discoveries known and
does not require any misleading state-
ments to bolster it up. In addition to
the reluctance that I have to father a
misleading statement, it certainly
would be a damaging thing for you to
ask the people of Auckland to believe
you when it is absolutely certain that
within a short time they will find out
the true facts, namely that the cure is
not infallible."

Merit in ..
Kodak . Work

When customers send films
from California to us for de-
veloping and printing they must
be more than ordinary merit in
the class of work we turn out.
They claim that they cannot
get the same excellent results
in San Francisco, and are willing
to send 3000 miles and be sure
of having good Kodak pictures.
That's why we get the business
merit.

We turn out uniformly good
work. Every roll of film receives
the treatment that skill and
experience can give it.

Our Photographic Department
is full of work, but we are able
to turn out work when promised,
and no order is neglected.

Our popular prices will save
you a dollar for the amateur—
that's another reason for you to
bring us your work.

Remember we are headquar-
ters for Kodaks, fresh films,
plates, printing papers—every-
thing in the photographic line.
Let us have your next roll
and we will demonstrate our
claims for excellent and careful
photo work.
