THE BIG SCHOOL

Lectures and Lessons Before the Teachers.

SPEAKERS AND THEIR SUBJECTS

Col. Parker on Sound—Many Questions—Pronunciation and Grammar—Evening Talk.

The lectures of Col. and Mrs. Parker in Progress hall yesterday morning were quite informal. They had to deal with articulation, particularly in speaking. When the subject of the Hawaiian language sounds was reached a large number of those present entered the discussion. Questions came freely, and a number of experts in the language were asked to explain the sounds. Professor M. M. Scott, C. H. Dickey, J. F. Scott, Inspector General Townsend and others took an active interest in the discussion.

Beginning the discussion Col. Parker said that every teacher should be skillful in the mechanism of sound, both in making them and in determining them. Sounds should be made easily, without tension. Taking the letters of the alphabet, they were given as the row of expression, sounded and explained. The class was required to follow the sounding.

During the lesson the subject of Hawaiian sounds and pronunciations came up. Professor Scott was asked for the correct pronunciation of the word "Hawaii"—the same old question of whether it is a "v" or "w." Following that Col. Parker remarked that the Hawaiian child learned sixteen sounds at school. After that, in studying English, it was necessary to learn thirty more.

To teach the sounds the speaker suggested a chart representing them. To teach or impart sounds correctly it was necessary to know them. To know them one must hear them. First, master the sounds; then become able to use them easily. Have a little exercise with the children daily.

The speaker could not sanction the teaching of words arranged phonetically as a means of imparting sounds. Mrs. Parker's subject was "Nature Study in Its Relation to Oral Reading." Mechanical reading is one of the worst of habits. The speaker referred at some length to the study of a subject by the use of relative subjects and books of literature bearing thereon. Speaking of teaching a Hawaiian child Mrs. Parker said that she would not attempt to make one read until he understood English, understood the thought. She would wait ten years first.

A good reader has the power of concentration. The reason so many find it difficult to study is that they have dissociated the thought and word. In expression the thought is intensified. Every good teacher should be a good reader.

The speaker had great faith in human nature. The general inclination was toward God and good. Men went to the saloons for the lack of better places to go.

In answer to a question Mrs. Parker said there was no comparison in cities between children who come into the schools from the kindergarten and those who had not attended it. The former were advanced, keen and ready to go to work; the others were dull and new.

Col. Parker resumed his talk. He said English was a grammatical language. It was a language that shaped itself through usage and was still doing so. Let the necessity grow out of the usage. Of all the messes in school work the grammar is the worst. For the first few years of the work leave grammar alone. He said that when he comes to Hawaii next October he hopes to find no technical grammar in the schools.

Mr. Townsend remarked that technical grammar was not generally used in the Islands, to which Col. Parker added: "The Lord be praised. We are thankful for small blessings. That beats Chicago." A child should not write unless there is something to write about, concluded the speaker.

At 1:30 in the afternoon Commissioner of Agriculture Byron O. Clark continued the discussion in the High school building on the subject of the propagation of plants. He had numerous pots of various sizes, containing plants, with which he illustrated his remarks. There was first a word about the soil in the pots and then planting of the seeds. From that point the subject was followed to setting out and cultivation of the tree.

While Mr. Clark dealt directly with

the practical parts of the subject he introduced several matters of pure detail. Among them was the question of soils for different plants, moisture, etc. The speaker closed with a short, instructive note on trimming trees.

Colonel Parker spoke to a large and cultured audience in Progress hall last night on "Man and His Environment in Nature." He began by saying that the influence of nature is always a source of lasting good. True manliness is the furnishing of manliness to men. Man may pollute the imagination or exalt it to Heaven. What then must be his influence upon the child? It is the old story of environment.

Man is a born lover. Love is the easiest thing in the world to cultivate. Selfishness is cultivated systematically. Children are trained into sordid selfishness by very old methods. Burying the child with tid-bits, or compliments, is the first step. The selfishness learned then becomes fixed. In the Sunday school the child is rewarded for studying the story of love. It is the same in the schools. There the child is led to feast his eyes on the glittering bauble of per cent. It is not learning he is after, but per cent.

Ambition is to do more good today than you did yesterday. Our ambition leads to selfishness.

The old way to treat a child was flogging. Then came bribery. Now is per cents. Why do we mark? Because there must be some purpose before the pupil you say. Yes, the child must have something ahead that will move it; and selfishness will accomplish that quicker than any one thing else. This lack of a sound purpose shows a failure of our whole system. We must get out of it. A higher idea must be aroused.

Every child is a born worker. In the kitchen, the yard or elsewhere, however young, they want to help. If I had my way every yard in the world would be converted over with white sand. In them the children would build houses, castles and mudhousers. Their natural inclination to do something, to make something, would find full expression. Through it the mind, the soul would be developed and grow. The best men of the world owe their education to the farm and work shop. The aristocracy of the future will be an aristocracy of workers. I am glad to see manual training in the schools of Hawaii. It is the beginning of the foundation of the prosperity of the future.

There is music in the soul of every child. Every child must be taught to sing. There is a consonance with nature in it. The brook babbles, birds sing, and the sea rolls in a rhythmic swell. The child is a part of the great world of music, moves in rhythm, and must sing. Rhythm pervades everything, even the movements of the body. Calisthenics are necessary. There the consonance is again reached. Music is the most practical thing in all the world. Tell a child "Sing at your work."

Heretofore we have gone on by tradition without looking at the child. There was a time when we thought a child was born in wickedness and must go through certain processes. We now know the power of the child in the early days of constructive activity. But we do not yet appreciate the possibilities of the child. We must go further. The New Testament contains the most complete doctrine of education of any book in the world. For three years Christ kept his little class together. Look at the teaching. Look at the sermon on the Mount.

STABBED IN THE BACK.

Clerk Joe Dias the Victim of a Late Night Assault.

Joe Dias, the young Portuguese clerk at Fairchild's shoe store, was assaulted and stabbed in the back by Joe Fraga about 11 o'clock last night. Dias had just left the car and was walking up Punchbowl street. Fraga was hidden behind a telephone pole. As Dias passed he jumped out and stabbed him. The knife landed between the shoulders, cut the coat and gashed the flesh for about six inches. The wound is an ugly one, though not dangerous.

It came out after the assault that Dias was not the man Fraga intended to cut. He was lying in wait for the other man and mistook Dias for him. Fraga was brought to the station house by Dias and Sylvester. He was too drunk last night to make much explanation of his conduct.

The Gazette company will send by mail tomorrow nearly 4,000 copies of the Third Expedition Boys in Blue special paper. The Gazette company donated the papers and as well pays the postage. Honolulu people who desire copies of the edition may obtain them at this office ready for mailing.

OREGON LIKED IT

Webfoot Soldiers Give Great Praise to Honolulu.

ACCOUNT OF THE RECEPTION HERE

Portland Men Now in Hawaii Are Remembered—Feast—Music—Letter Writing.

Ed Dekum has a Portland "Oregonian" of the 29th of June which contains an excellent account of the visit here of the Second Oregon Regiment of U. S. Volunteers, Col. Summers. The "Oregonian's" account is illustrated with a fine view of Fort street and a facsimile of the original Boys in Blue badge. Following are extracts from the correspondence:

Following the Peking was the Australia. As she approached her dock at which she was wont to land white on the run between San Francisco and Honolulu, the crowd recognized her. A few Oregonians, probably a score, who have taken their residence in Honolulu, led the rush to the Australia's dock, where a scene of wildest enthusiasm prevailed. These few men from the Webfoot state were a host in themselves. The boys on the Australia never thought that they would come in for even a small portion of the attention that might be bestowed, as Oregon is not in such close touch with the Islands as California is. High over the throng soon appeared a dozen black umbrellas with the word "Oregon" painted in great white letters. This was a surprise, which was increased when a few minutes later there were cheers for Oregon. As the Australia drew nearer, the familiar face of Edward Dekum was discerned in the front. He sent up the Multnomah Club yell, which created pandemonium on board. The yell was taken up from bow to stern, and Mr. Dekum was given cheer after cheer. Then C. F. Schermerhorn and A. St. M. Mackintosh, old Portlanders, were made out and cheered. A. W. Pearson, formerly with Staver & Walker; E. R. Adams, R. C. Geer, cousin of Hon. T. T. Geer; C. E. Smith, recently from Eugene; P. R. Helm, formerly with the Golden Rule Bazaar; Otto Bierbach, formerly with Woodward, Clarke & Co., and hospital steward in the O. N. G.; John Effinger, an old K company man; Professor Cook, Arthur Mackintosh and F. C. Wells were in turn picked from the crowd. On the Peking such strict discipline was maintained that the greeting was comparatively cold. It was soon announced that the commissioned officers would be permitted to leave the Australia and Sydney during the evening, and the next day the privilege would be granted the troops. The enthusiastic Oregonians had established headquarters for the Oregon soldiers at the store of A. W. Pearson and the office of Ned Adams. There cigars were packed by the box, fruit was stored and every convenience provided. For two weeks Honolulu had been waiting for the troops. Chickens and meats had been stored in cold-storage rooms, fruit brought from the surrounding country and committees formed for the work. A subscription fund started was soon raised to \$9,000, while contributions of other kinds flowed in. Soda water fountains were rented by the day, and the owners instructed to supply every man in blue uniform. Fruit was heaped at convenient places. Cigars (Manilla brand) were given out by the dozen. Flowers were strewn in garlands, or "leis," as the natives call them. Barbers were told to do whatever was asked of them, without charge. In many stores purchases made by the troops were donated. Soldiers were met on the street by strangers and invited to fine meals, where much-needed fruit of every kind known to the tropics were plentiful. Honolulu was given to the soldiers, and no return whatever was permitted. This was accomplished by general committees and subcommittees. The Oregon men directed their attention particularly to Oregon soldiers. The officers were dined and wined the first evening. The next day, when the men went ashore, the Oregon boys found themselves favorites wherever the influence of the little ring of Oregonians was felt, and it must be admitted that was felt. Mr. Dekum and some of his friends hired rigs, and drove the boys through the beautiful streets of the city, pointing out the finer attractions. Enough was never reached by the ardent former residents of Oregon. Night and day they

quit their work whenever it was possible to do something for the Oregon Boys in Blue. To a few of them there were thoughts they could not express, and, indeed, words were not needed when one could behold the former members of the First regiment, O. N. G., look with moistened eyes that beamed burning pride, on the lines of the Oregon regiment. Emblems suggestive of the State were all about. On a great flag hung over the street at the headquarters was a large umbrella and a pair of gum boots.

All the individual hospitality shown the soldiers by Honolulu was but leading up to the grand climax of Friday. The city's distinguished residents had united in a committee of 100 to direct the movement. The Executive building, where the state officers have headquarters, and which was formerly the palace of the royal family, was fixed as the place for a grand feast, in true Hawaiian style. The superb grounds about the palace, covering an area of eight acres, were ranged with tables to seat approximately 3,000 men. The First California, Second Oregon, Fourteenth Infantry of regulars, detachment of California heavy artillery, and nearly 500 sailors from the Charleston, Bennington and cutters in the bay, were the guests.

The feast was commenced at 10 a. m., when the Fourteenth Infantry was marched to the grounds, and lasted until 2 p. m. The Honolulu band, 40 strong, furnished music during the meal, interspersed by quartets singing native songs. The three military bands of the troops also took part in the entertainment. Nothing was formal. The two companies of the Hawaiian Guard on duty, and all the military and civic officers, joined with the multitude in serving the soldiers and promoting their pleasure. President Dole mingled with the throng, shaking the hands of the officers and then going through the ranks of the men, greeting them in turn and conversing as easily as if with his Cabinet.

An act of courtesy by the administration was done Friday, and it was highly appreciated. While the feast was in progress, the offices of the palaces were thrown open for the boys to write letters. Such a jam of letter-writers was never seen in Honolulu. Every desk, shelving, ballustrade and table was crowded, and many of the boys lay on the floor, utilizing to the best advantage the loads of stationery, pens and ink furnished. The Government agreed to mail every letter written by the boys while in port, providing such postage as was required and seeing that all were sent with dispatch. This seems a small thing, but the avidity with which the boys took hold of the offer was evidence of their appreciation.

The crowd at the water front to bid farewell to the boys was almost as great as the multitude that welcomed the first invasion to Hawaiian soil. Bands played and there was much cheering. Gifts were showered on the departing guests and alohas were many and hearty. Hundreds of the men had made acquaintances during their brief stay, and these new friends seemed like comrades of old standing. The ladies were on hand Saturday morning, and bestowed leis and flowers on the expedition members.

Government Garnishment.

Auditor-General Laws says that the question of whether or no salaries of Government employes may be garnished under the new audit act must be settled by the Supreme Court. The official expects a test case to arise very soon. Garnishments that were pending in cases where a change of paymasters was made by the new law terminated as of June 30.

Goes for Taro.

The steamer Iwa sailed late yesterday for Kalaiala, Kauai, taking up 3,000 feet of lumber for natives in the valley. She will return with a load of taro, which is quite plentiful in Kalaiala. The agents of the Iwa wish to contradict a report that they lost money on the last importation of taro by the little steamer.

IN KOHALA.

Social Life at Least is Active in the Fertile District.

KOHALA, July 17.—Mrs. Henry Renton gave a lunch party on the 7th to a number of friends and visitors. Everyone had a nice time.

The afternoon of Wednesday, the 6th, was very pleasantly spent at the house of Mrs. E. C. Bond.

Mrs. Howard Bryant is still in Kona, visiting her mother.

Mrs. R. Hind gave a lunch party on the 8th in honor of Mrs. Brobrant, of Honolulu.

We have had the pleasure of hearing the Rev. C. Hill, in the pulpit of the Foreign church, for the past few Sundays.

The July meeting of the King's Daughters was held at Mrs. John Hind's on Tuesday. Business matters were discussed.

Mrs. C. S. Bond is still in the East, where she is rapidly recovering her health.

Rev. V. H. Kitecat conducted the services in the Episcopal church on Sunday. Mrs. Kitecat is here also.

Mrs. B. D. Bond gave a Mother Goose and Fancy Dress party on the 15th, the occasion being the fifty anniversary of her small daughter Alice. The little tots looked very sweet in the various costumes: Miss Alice Bond, Queen of Hearts; Howell Bond, Tom Tucker; Dorothy Brobrant, Mother Hubbard; Alfred Alexander, Old Man; Wilson Carter, King Cole; Leland Carter, Taffy; Sydney Fraser, —;

Henry Hughes, Jack the Giant Killer; Dorothy Kemper, Little Red Riding Hood; Alfred Kay, Prince Charming; Alex. Lindsay, Humpty Dumpty; Annabelle Low, Mother Hubbard; Elsie Meinecke, Bo-Peep; Albert McDougall, —;

Murray McKenzie, —; Maude Olding, Baby Bunting; Kara Patton, Bo-Peep; Amy Patton, Mistress Mary; Ruth Renton, Miss Muffet; Mary Stuart Renton, Red Riding Hood; George Renton, Old King Cole; Lewis Renton, Prince Charming; Walter Renton, Little Boy who had a Little Gun; Allan Renton, One of Babes in the Wood; Leslie Lulloch, Goosey, Goosey, Gander; Pattie Tulloch, Miss Muffet; Fred Walker, Bachelor; Miss Julia Bond, Mother Goose; Rev. C. Hill, Goose. The children danced and played in the lanai; refreshments were served on the broad verandahs. About 100 people attended. Mrs. Bond was, as usual, a very charming hostess.

Mrs. John Hind entertained a few friends at dinner on the 14th. The Kohala Literary Society met at the home of Mrs. B. D. Bond on Friday evening, the subject being "The Crusaders." Very excellent papers were read by Mrs. John Hind, Mrs. B. D. Bond, Rev. C. Hill and Dr. Shorey. Characters were cleverly acted and the evening ended in chorus singing.

AUGUST TERM JURORS.

EMINENT DOMAIN.

It Rests Only With Companies Privileged.

By unanimous decision of the Supreme Court the Hawaiian Commercial Company comes out winner in one of its several legal contests with the Kahului Railway Company. The finding of Judge Stanley, of the Circuit Court is reversed. He had held that the railway act of '78 was a general statute and gave the right of eminent domain to common carrier and like corporations. The Supreme Court says that the right of eminent domain can be exercised only by such corporations as have an express contract to that effect with the Government through the Minister of Interior.

This case arose from the desire of the Kahului Company to condemn certain water front land on Maui owned

by or under the control of the Hawaiian Commercial Company.

The Supreme Court decision is by Justices Frear and Whiting and W. R. Castle, the latter sitting for the Chief Justice, disqualified.

"The Battle Hymn of the Republic" was sung at the opening of the Summer school yesterday morning.

Remington Standard Typewriter!

WHAT IS IT?

A simple, compact, and durable machine, which successfully performs the work of the pen, with a tremendous saving of time and exertion.

WHAT WILL IT DO?

It produces, with speed and certainty, in clearly legible printed characters, one or many copies of any kind of writing, excepting such as must be done in books.

TO WHOM IS IT USEFUL?

To every one who has writing to do. In business circles its desirability is assured. Lawyers and journalists cannot do without it. Professional and scientific men realize its worth to them. The author and thinker find it invaluable. It conserves the most potent kind of energy—that of the brain—by reducing to a minimum the mechanical labor of writing, and distributing it among all the fingers of both hands. Writer's cramp disappears where it is used. It presents the printed appearance of the work to the mind at once.

WHO CAN OPERATE IT?

Any one of ordinary intelligence. A very few trials enable any one to write upon it readily. Thereafter it is only a matter of practice.

A CLEAR REPORT

Brief Resume of Work of
Red Cross Society.

Generosity and Willingness Shown.
Expenditures Kept Down.
Thanks Returned.

When the Red Cross Society of Honolulu was organized it was with little apprehension of the volume of work there would be to do or the gravity of some of the cases it would be called upon to care for.

That generous hands were extended on all sides; that help poured in from already heavily taxed purses, from commercial stores and private lenders, only testifies to the need of the organization and to the quick sympathy of the community in its aim.

Since the doors of the little improvised hospital at the Beretania Street Child Garden were opened June 24 to receive its first inmate, unconscious and desperately sick, eleven patients have been cared for under its roof. Seven were sent to the Queen's hospital and two, because of their malady, consumption, were placed in Dr. Burgess' care at his home.

When the S. S. City of Rio de Janeiro left June 29th, six men from the expedition had sufficiently recovered to be returned to San Francisco. One, the first patient, died without regaining consciousness, and one seriously ill with measles remained, necessitating placing the hospital in quarantine. Unfortunately it was impossible to remove the embargo until after the third expedition arrived, but those unfortunate enough to require a shelter on shore were temporarily provided for by the hospital committee in an improvised ward at the Sailors' Home, and were removed to the Red Cross Hospital after its thorough disinfection.

Six of the present inmates are sufficiently convalescent to return to San Francisco on the S. S. Mariposa, and one hopes to be able to rejoin the troops at Manila.

Two of those sent to the Queen's Hospital are still very ill, and one died July 17, of typhoid fever.

Most of the furniture and supplies of the Red Cross Hospital and of the headquarters on Nuuanu street, were donated, so that only \$314.05 have been paid out, leaving to the credit of the Society at the bank the sum of \$1,718.15, out of the \$2,032.20 received into the treasury from benefit entertainments, donations, monthly pledges and membership fees.

Besides the hospital work the Society has furnished bandages to the fleet surgeons who were not sufficiently supplied, has sent stores to tea, sugar, biscuit, jellies and other delicacies to the ships for the comfort of the sick.

A portion of the few hours General Merritt spent on shore he devoted to personally visiting the sick men of his army. The result is the establishment of an American hospital temporarily at Independence Park Pavilion. The great hall will be divided into necessary wards and rooms. A separate building in the rear will accommodate any measles patients and as the work is being pushed it is hoped it will be ready for occupancy in two weeks. A hospital equipment of army surgeons and nurses will arrive in time, but until they do the Red Cross Society will be in charge, after which it will present to the army authorities its accumulated property and devote its labor to genuine Red Cross work.

The ladies of the Society wish to take this opportunity to thank all those who have so generously helped them, either by personal services or donations.

Mrs. H. M. Sewall presided at a meeting of the ladies of the Red Cross Society held in the Y. M. C. A. hall yesterday morning. Reports were received, and the Society was found to be in most excellent condition.

MORE WATER FRONT.

A Long Wharf Strip Acquired By Government.

The Government now holds title, through successful condemnation proceedings, to the Youmans estate water front land around Lime Kiln point on the town side of the harbor and up Nuuanu stream to a point a short distance above the King street bridge. Settlements for eleven-twelfths of the land were made yesterday by Attorney-General Smith for the Republic of Hawaii with W. R. Castle for Caroline Newton Clarke of Cleveland, O., and with General Hartwell for Geo. H. Newton of Richmond, Conn. The remaining one-twelfth is owned by a minor residing abroad. The paper title for this fraction may arrive in the mail today. The price paid by the Government for the whole was \$21,780.

HAWAIIAN COTTON.

Liverpool Offers Twice American Value for it.

W. B. Starkey, interested on Maui, has just received from Liverpool a quotation on Hawaiian Islands cotton. He submitted a sample, grown on his place without much care, direct to brokers. They replied that it was worth a fraction over sixteen cents a pound, against eight for the upland product of the United States. Had the sample been carefully matured, harvested and ginned the quotation would doubtless have been all of a fourth more.

Mr. Starkey is greatly encouraged

by the cotton outlook and will immediately take steps to cultivate it in large quantities at Pukoo.

A gin and appliances have been ordered from England for the preparation of the staple for market. A press will be built here.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by all druggists and dealers. Benson, Smith & Co. wholesale agents for H. I.

WEDNESDAY : : : JULY 20.

INJUSTICE TO CERTAIN JAPANESE.

Minister Cooper naturally resents the criticism of the Advertiser upon the conduct of the Government in cruelly turning back 1,150 Japanese immigrants last year. As the United States will now pay the penalty, if one is adjudged by arbitration, the matter is one that is now of historical interest with a significant comment in it on the morals of a Nation.

Minister Cooper does not state the case frankly or correctly in his interview contained in the Star.

The Governments of Japan and Hawaii entered into a Convention (in force and effect a treaty) in 1886, which embraced the emigration of the subjects of the Japanese Emperor to Hawaii, not only those who had emigrated, but "those who may thereafter emigrate thither."

Hawaii agreed to keep an agent (Article III) in Yokohama, who should ask for laborers when they were needed, and Japan agreed to furnish them, through an agent of its own. All that Hawaii had to do was to obey the rule laid down in the Convention, and she had an absolute grip over emigrant laborers for the future. There could be no emigration excepting through the machinery provided by the Convention.

That Convention was a living, legal, and binding instrument until annexation terminated it last week with all other treaties whatsoever.

But Hawaii deliberately and willfully refused to keep an agent in Yokohama; she refused to comply with this treaty, because her planters found a cheaper way of getting immigrants than they could through the agent. As Mr. Cooper says in his interview: "The immigration of Japanese under the Convention was abandoned principally at the suggestion of the planters." This is perfectly true. But the Convention was left in full force, and never terminated, as it might have been, on six months' notice. Because the planters suggested it, the Government stopped the agency, and so abandoned a plan for absolutely controlling all immigration.

But the Convention remained in full force all the time, and the Government by simply sending an agent to Japan, as it agreed to do, could have prevented an "invasion," or the departure of a lot of ignorant and industrious people who were doomed to a terrible disappointment.

So the planters got behind the Convention, because they "could do better," and the Government failed to live up to the terms of the Convention. When the planters' "invasion" threatened the life of the land, which is "Righteousness," the Government did not forthwith put its agent in Yokohama and control the "invasion," but permitted 1,150 industrious peasants to sell out their little holdings, borrow money, and cross the ocean, only to be driven back by the force of our domestic laws of which they were ignorant. If the Government had discharged its duty, under the Convention, all this would not have happened. For this reason, we have described the act of turning back these immigrants as unjust and cruel. The Advertiser has never approved of it, and on the other hand, has believed that the Arbitrator would probably find judgment against Hawaii. We shall see.

We have sincerely believed in firmly establishing American civilization here, but have believed that it could be done, while doing justice to all.

The error, if there has been one, is not wholly that of the Government, but as well of the community behind the Government.

The language we use is much less severe than that of the Supreme Court of the United States in commenting upon the action of Congress in the "Chinese Exclusion Act."

PAST HISTORY.

A chapter in the history of American political literature has now closed, with the passage of the joint resolution of annexation. This literature covered a period beginning with the 17th of January, 1893, and ending with the 7th of July, 1898. Some day a student in the growth of political institutions will take the trouble to trace the growth of ideas in the American mind on the special subject of Hawaiian annexation. A source of information on public matters, of the highest value, is the current opinions of the Press. A few years ago, it was a matter of great patience and labor to obtain these opinions. The creation of the bureaus of Press clippings, however, brought together with rapidity, and in the most serviceable form, the printed views of public men, in every part of the country.

The Advertiser has, for many months, traced the opinions of the Press writ-

ers, on the Mainland, regarding annexation, through many hundreds of these clippings. These are to be preserved, and given to the Honolulu Library. In time, they will have a great value to students of history.

In looking over the clippings secured since the war with Spain was declared, and the naval action near Manila, it is surprising to notice the sudden change of argument on the annexation matter.

The general argument, the stereotyped argument covering the possible need of strategic points in the Pacific gave way suddenly to the immediate needs of the hour. There could be no better illustration of the political maxim that democratic nations make up their policies at the dictation of present events.

The Monroe doctrine, so conspicuously representing the foreign policy of our country, was the creation of the English Minister Canning, who suggested it to the Government at Washington, in order to head off the triple alliance of the European sovereigns. A democracy could not create it.

The word "annexation" now ceases to have any value here, excepting as describing a past historical incident. The clipping of the papers now become the valuable evidences of the growth of an idea.

It is now safe to say, that so far as we have been able to judge from imperfect data, the majority of newspapers have been against annexation. The Kansas City Journal recently stated that it stood alone, west of the Mississippi river, in persistently advocating annexation. This statement is not true, however. But out of the 7,000 daily and weekly papers issued on the Mainland, the majority were either indifferent, or even opposed to it.

From the time the Commissioners reached Washington in 1893, until the passage of the joint resolution, the number of Senators favoring annexation decreased rather than increased.

The explanation may now be safely given. Annexation was a policy in advance of the average political thought of the American democracy. The statesmen who favored it were in advance of the people. While annexation was inevitable in the end, the average thought of the people moved slowly. Annexation was an interesting question but not one of the hour. It could wait.

What reason and speech could not do, was done with powder and ball at Manila. The question at once became one of the hour, and was settled at once.

Spanish ignorance, and cruelty moved the hands of the clock forward. The trembling fingers of the successor of Ferdinand and Isabella blindly reached out and set the tropical jewel of Hawaii on the brow of America, before American democracy was ready to do it. The hands of the clock will never be turned backward. The hand that fixed the jewel cannot remove it.

The Bishop of Honolulu has engaged in a painful discussion with the Advertiser, in a letter published in one of the local papers, on the subject of dress. The far reaching consequences, in the world beyond the grave, of changing the fashion of dress, can only be seriously considered, when the present political excitement has abated somewhat. We will then, after the flag is up, consider this vital question.

THE PASSING HOUR.

The Summer school goes marching on in a fashion that must delight the projectors.

A glorious record is being made by the Red Cross Society here. It is gratifying to note that it is receiving most cordially the hearty and substantial support that its purposes invite.

These two comprehensive and philosophical sentences have been described as "a wise remark." If you want a long war, prepare for a short one. If you want a short war, prepare for a long one.

The flag raising is about the most difficult thing to "program" that the local arrangement men have yet encountered. It is quite safe to predict,

however, that the mighty affair will be carried out "decently and in order."

The native will have a number of glaring consolations under the new regime. One will be that he can revel in as murky an understanding of several of the continuous "issues of the day" as a quite good many of his fellow voters from abroad.

It was an observable thing in the Western territories that the gentlemen aspiring to local appointments were required to make frequent and expensive pilgrimages to Washington and likewise to "assist" the National Committee when called upon.

It is hoped that all the transport passengers have received as good an impression as did the Oregon contingent. Such correspondence as was sent from here to the Portland paper is eloquent and effective advertising with a most striking air of originality and feeling about it.

Nahoku, a young native, created some excitement at the Board of Health office yesterday by walking in and taking charge. He is believed to be insane and is held at the police station for examination by Dr. Emerson.

PAY TOO LITTLE

Strong Argument on an
Important School Point.

Should Be More Than Meager Livelihood in the Profession—Order of Ability Required.

The great truths touching the education of children and so ably presented by Colonel Parker at the Summer School in his talks to large and interested audiences are everywhere not only surely working their way into the minds of those teachers who regard it a duty to grow, but are being in a measure grasped by many people in this and other lands.

One of the most serious problems, confronting us as we stand ready to enter the open door of the twentieth century, is: What kind of an education and how much ought to be attempted in the schools?

The quality and quantity now provided do not meet the requirements and fall far short of laying a foundation which will equip the future citizen for the duties and activities of life.

There is a wide-spread demand that all school work be made more intensely useful and interesting; that the dead traditional school accretions of the great past, which have come to us largely by inheritance, must go; that the terrible wastage of time and energy of the children, the many years they are in school on work which does not assist them to become self-supporting intelligent men and women, must go.

Public opinion would have the common school indeed "The bulwark of the Nation." It would begin reforming, proceed reforming and go on reforming forever. It would spare no expense in erecting commodious up-to-date school houses, with interior embellishments of an historical nature, and surrounded by an extended and attractive ground. It would have the public school a notable institution, a leading factor in molding its pupils physically, intellectually and morally, thus insuring their becoming better citizens.

This growing opinion would have experienced, cultured, liberally-educated, successful instructors in the schools at all points. It would have them leaders in social affairs and ever ready by word and deed to be a pillar of strength in all worthy works, a real power in their respective communities. With this pressing demand for a fuller realization of the foregoing high expectation and qualifications, as well as many more, yet this same public sentiment views with pronounced disfavor any movement looking to encouraging those having a high order of natural ability to enter the profession of teaching and make it a life work, or to retain even those teachers found competent, by liberally compensating the tried and competent ones, so as to enable them to acquire at least a small competence for old age which under the prevailing universal scale of extremely low salaries will be in no degree possible. Teachers handicapped by salaries which provide simply for the actual necessities of a common plain existence are mentally incapacitated for delving into the problems of the real purpose of a school education.

FUNERAL HELD.

Remains of Theo. P. Severin in Nuuanu Cemetery.

The funeral of the late Theo. P. Severin was held at 3 o'clock yesterday afternoon and was attended by quite a number of friends of the young man to whom death came in such an unfortunate manner. It was a Masonic burial. Services were held by the Brethren of the Mystic Tie both at the Temple at the corner of Hotel and Alakea and at the grave in Nuuanu cemetery. Clarence M. White, the presiding officer of Lodge Le Progres led in the beautiful and impressive ritualistic ceremonies. The pall-bearers were Masons and Odd Fellows as follows: J. D. McVeigh, T. B. Murray, W. P. Johnson, Fred. Waldron, Louis Reynolds and Mr. McNichol.

Floral offerings sent to adorn the casket and grave were numerous and of varied design. The emblems of the Masons and Odd Fellows were seen. There was a large D from D Company of the N. G. H. and many other offerings.

The brother of the late Mr. Severin was overcome with grief and fainted at the grave. Ed. A. Williams directed the funeral.

Regiments vs. Hilo.

By the Kinohi yesterday Captain James Gorman of the Regiment baseball team received a challenge from the Hilo league to play a series of three games against a picked team from the big island in this city. The challenge will be accepted by return mail. Hilo and Oahu have some first class ball men and the contest with the Regiments must be of general interest.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Pumps, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.

The best at the lowest price at HOPP'S.

Our prices apparently conflict with our qualities.

Our prices always seem too low. People cannot understand it. They have been used to paying so much more that they cannot believe that we give the same qualities at less prices. "But seeing is believing." Come and see for yourself. Examine the goods as critically as possible. Ask all the questions you wish. Put us under oath. We tell you beforehand that, go where you will, you cannot find Furniture prices to equal ours.

OUR SPECIAL FEATURE

For this week is a new table known as the COMBINATION DINING TABLE.

The reason they are called Combination lies in the fact of their being compact. All extra leaves are stored under the table proper—no running around looking for extra leaves when wanted, just pull out one end of the extension and by an upward movement add as many leaves as desired. That's the feature.

A new line of DINING ROOM CHAIRS

have just been received. It will be worth your while to examine them while looking at the tables.

AT A NOON HOUR

Perhaps the Flag Goes Up Tomorrow to Stay.

Program Has Been Outlined—A Simple Ceremony—Parade Before Hoisting.

If all turns out as is now expected the Stars and Stripes will be raised over the Executive building at noon tomorrow. Minister Sewall feels sure that Admiral Miller and staff will arrive by the Alameda this morning with the flag. He has had advice to that effect from San Francisco. The reason the Admiral would probably take the Alameda is the uncertainty as to the sailing of the Philadelphia and the likelihood that she would get away two or three days later than the Alameda.

If the ceremonies do occur at noon tomorrow, about the following program will be carried out:

The First Regiment, N. G. H., will assemble under arms, blue blouses, white trousers, leggings and white gloves, at the drill shed at 10:30. Headed by police and band the line of march will be extended through the streets to the boat landing, where the troops from the Mohican will be received. The parade will then continue to the front grounds of the Executive building, where a place in the general line will be taken. The sixteen companies of the Citizens' Guard will assemble in a body at 11 o'clock in rear of the Judiciary building, facing Queen street, in black coats and hats, no arms. The regulation caps will not be worn. There a line will be formed with Company A. Captain Fritz Rowland, on the right, Captain F. B. McStocker will direct the march into the grounds of the Executive building. Each member of the Guard will be presented with a badge to be worn on the lapel of the coat.

The Sharpshooters will assemble in their hall in the Judiciary building at 11 o'clock. The uniform will be black coats, linen hats wrapped with the American flag, no arms. Each member will wear a badge. Captain Dodge is very anxious to have every man out.

At the Executive Building there will be addresses by President Dole and Minister Sewall, and also by L. A. Thurston if he returns today; reading of President McKinley's annexation proclamation, and perhaps a few remarks by Admiral Miller.

Between the speeches the Hawaiian flag will be hauled down, amid a salute of 21 guns and the singing of "Hawaii, Pono!" by all present. Soon after the American flag will go up and the same ceremony, save that the song will be "Star Spangled Banner," will be repeated.

At 7 o'clock at night the pyrotechnic display will take place and at 8 o'clock the grand State ball, given in honor of the event, will begin.

At a meeting yesterday noon of the Annexation club officers, representatives of a number of organizations were present. All were agreed to make the flag day celebration memorable. The G. A. R. and the Fire Department will be prominent in the parade. The police and the mounted reserve will be on hand.

One proposal made yesterday was that for the purpose of hoisting the American flag a halyard be spliced to extend several hundred feet and that many persons thus be permitted to actually assist in raising Old Glory over the Executive Building.

Capt. Walter Dillingham presided at a meeting last evening held by the Mounted Reserve. The cavalry company voted unanimously to turn out in full force for admission day ceremonies. The officers are in communication with nearly all the members and there will be a drill this afternoon.

A FAMILY AFFAIR.

James McQueen Sues His Mother in Equity for an Accounting.

Yesterday James McQueen, a workman in Gus Schuman's shop, by his attorneys, W. A. Henshall and Charles Creighton, filed a bill in equity against his mother, Mrs. Frances E. Jackson, for an accounting and injunction. The papers were served about noon.

McQueen is the only son of respondent. It is alleged in the complaint that both together were entitled, after a certain trust, to all the estate of Z. Y. Squires. They did not wish to wait, so parted with their interests for the sum of \$15,000. Payment was made to Mrs. Jackson in Ewa, Honokaa and Makaweli sugar stock, which, it is claimed, has since increased in value to about the sum of \$25,000.

McQueen alleges that his mother has refused and still refuses to recognize his interest in the money, and holds all of the principal and dividends which have since accrued.

Bargain in Shoes.

We hear the expression used constantly. So much so that in nine cases out of ten it really has no significance in connection with facts.

A bargain in shoes represents standard value, at the right price and at the right time.

The cheapest is not always the best neither is the best always the cheapest. Buy a good article and you will get satisfactory wear out of it in the long run. Buy a cheap article and it will keep you on the jump continually to duplicate, then you might buy shoes on this basis every week in the year and never get your money's worth. Turn over a new leaf and buy an honest shoe at an honest price. This is the kind of values we offer you.

A Baby's Skin

Is the most delicate of all delicate things, and is more subject to external influences than a grown person's.

The quality of the soap used in the baby's bath is of great importance, because it means a happy, healthy child or a fretful one, with skin full of irritation caused by the excessive alkali in the soap.

Curative-Skin Soap means much to the mother. It is as pure as it is possible to make a toilet soap. It will not cause skin blemishes, but possesses a soothing effect; it cleans but does not irritate. Try a cake. It is its own best advertisement. Made in America, too. Get it of

Hobron Drug Company.

Birth Certificates.

The office of the bureau of the Department of Foreign Affairs was crowded all during business hours yesterday and has had a rush for several days. Mr. Girvin, the head clerk is one of the very busiest of Government employees. All the callers are accompanied by male children and "affidavit men." The purpose of the visits is to secure certificates to the effect that the children presented were born in Hawaii. The Chinese trust thus to reserve American citizenship for their boys.
Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy—G. M. Law, Keokuk, Iowa. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for H. I.

WHARF AND WAVE.

A battalion from the U. S. S. Mohican had drill on shore yesterday morning.

The bark Diamond Head has been chartered for coal from Departure Bay to Honolulu.
The steamer Maui is up and loading for Olowalu, Mahukona, Kakaia, Oahu, Lanipahoehoe and Papeete, to sail this afternoon at 5 o'clock.
The pumps of the bark Topgallant were kept busy yesterday and from the appearance of the steam that came from her she stands in need of some caulking.

Ookala Popular.

It is stated that all of the \$200,000 of new Ookala plantation stock that was allotted to Honolulu has been subscribed and that local people will make quite an inroad into the \$100,000 of stock that it was planned to place in San Francisco. It was a bit slow with Ookala up to two or three days ago, when all at once there developed a sharp demand for the stock. Practical and reliable men say that the outlook for the plantation is excellent.

MARRIED.

SCANLON-WHITNEY—At the Roman Catholic Cathedral, Honolulu, H. I., July 19, 1898, Miss Gertrude Whitney, youngest daughter of Capt. Benj. Whitney, to M. J. Scanlon. The ceremony was performed by the Bishop of Honolulu, assisted by Rev. Fr. Valentin. San Francisco papers please copy.
