A Tour of Inspection of China-
town.

VIGILANCE IS THE KEYNOTE.

The Removal of Garbage - Leaky
Water Pipes - Cesspools in Dining
Rooms - A Place That Needs At-
tention - Dredger Work on Nuanu.

One of the most interesting
topics of discussion in the Board
of Health meeting yesterday was
the inspection of the Chinese dis-
trict for the purpose of having the
place as free from causes of disease
as possible.

The resignation of G. W. R. King
as health inspector was, to a cer-
tain extent, the cause which led up
to the discussion.

What is known as Chinatown
takes in the Ewa side of Nuanu
street and runs from the sea to
Beretania street, and it was within
these borders that the citizens'
committee, during the cholera
scare, worked hardest to keep clean.

While known as Chinatown, a visit
to the district will show that the
population is nearly equally di-
vided between Hawaiians and
Asiatics.

The difficulty in keeping this
section of the city in good sanitary
condition was explained to an
ADVERTISER representative by Med-
ical Inspector Wayson while
going the rounds yesterday. In
nearly every building the closets
and cesspools are in such close
proximity to the living rooms that
unless they are kept absolutely
clean and fumigated they will, at
least, develop certain diseases, if
not contagious ones.

A restaurant on Nuanu street,
south of King, has a closet within
a half dozen feet of a dining table
and directly adjoining the pantry.
In another the closet was so con-

venient to the kitchen and the
street that it was ordered closed
up, and another, a few feet further
off, was opened up.

Some of the stores and dwellings
in this section are of two stories,
the upper floors being occupied by
one family and the lower floor by
another, tenement fashion and it
is in these where the greatest
difficulty is encountered. The pipes
leading to the top floors are often
of poor material and make and the
drippings from these pipes keep
the ground below in a moist state
at all times. In the absence of
pipes for carrying away waste
water, the occupants of these
houses throw the water from the
upper verandas to the ground with-
out considering the danger or res-
pecting the comfort of the persons
below.

Among these people there is
more or less trouble in the matter

of garbage. Their receptacles for
holding kitchen refuse and sweep-
ings is limited, and their observ-
ance of the regulation hours for
depositing containers in places
where the drivers of the garbage
wagons can have access to them is
spasmodic.

Occasionally they manage to get
their boxes and baskets on the
sidewalks before the wagons get
around but usually they are an
hour or two late, and the stuff re-
mains exposed to the sun and
passes through a limited period of
putrefaction before the driver gets
around the next day. Every one
of these baskets containing refuse
so exposed is a precursor of dis-
ease which follows in their wake.

In the main the premises are

and back of the tumble down shed
shown in the sketch was a house
in which there were several cases
of cholera during the siege last
summer. All that remains of the
house now is a few charred sticks.
One or two of the houses in the
group are unoccupied by orders of
the Board of Health and this
branch of the Government has
supplied the people with homes
since then at a considerable
expense pending the time the own-
ers of the property would have
the place filled up. At yesterday's
meeting of the Board the secretary
was ordered to notify the owners to
put the place in proper condition
or it would be done by the Board
and the expense charged to them.

Another place that has caused

considerable uneasiness among the
people in the vicinity is on King
street, where the dredger-pipe dis-
charges into the old bed of Nuanu
stream. Yesterday the pipe, as
shown in the sketch, was discharg-
ing quantities of dirty water and
mud, but it was absolutely odorless
and its danger as a fever producer
is not apparent.

Under the new assignments this
district will be under the super-
vision of N. P. Jacobson who has
proven a valuable acquisition as
an inspector of the districts on the
Ewa side of Nuanu stream. It
will be arranged so that he can
visit the crowded section once daily
and the country districts less
frequent.

That the Board of Health can
keep the city free from disease in a
section as crowded as this, where
the law governing cubic space al-
lowed to each individual is prom-
inent in its absence, and where
there is absolutely no sewerage sys-
tem, borders on the miraculous.

CLEVELAND FAVORS IT.
Nicaragua Canal Measure Meeting
With General Approval.

WASHINGTON, Jan. 21.-The
House Committee on Commerce to-
day voted to report to the House
the resolution introduced yesterday
by Doolittle of Washington request-
ing the President to transmit to
Congress the report of the commit-
tee which investigated the Nicara-
gua canal last summer. A clause
was inserted, "If not incompatible
with the public interests."

Members of the House who have
talked with President Cleveland
upon the canal within a week, as-
sert that he favors the general pro-
ject, but wants an arrangement by
which the government's risk of
financial loss will be minimized.

The largest battleship in the
world will soon be launched at
Blackwall, England. It has been
built for the Japanese Government,
and will be called the Fuji, instead
of Fusi Yama, as originally intend-
ed. It is 400 feet long, 73 feet
broad and 44 feet deep, and is pro-
tected by Harveyized armor plates.

STRAWS AND RELICS.

Incidents in the Life of a Montana Lawyer.

DISBARRED FROM THE COURTS.

He Seeks Fame and Coffee in Hawaii.
Record Follows After—Brought Out by His Misrepresentation of Kindly Offices of Government Officials.

The editor of this paper received by Wednesday's mail from Hilo a second letter from E. E. Richards, secretary of the Hilo Tribune Company. Extracts from this letter are given as follows:

"The Hilo Tribune of this date (February 1st) is out with an editorial headed 'A Relic of Monarchy' which should never have been published, as it is not the opinion of anyone in Hilo outside the editor himself and possibly one other party. The Hilo people were glad to have the thing here, and it was thoroughly enjoyed by everybody, and the officers and stockholders of the Hilo Tribune regret that the above-mentioned article should have appeared in their paper."

As this and the previous letter previously published give very good proof that the man passing by the name of Payson Caldwell, editor of the Hilo Tribune, is solely responsible for the articles mentioned, a representative of this paper cast about to discover the history of this new Moses to whom general interest is so suddenly directed.

Payson Caldwell first set foot on Hawaiian soil May 26, 1895. He came down on the Australia as a tourist. Later, he appeared somewhat interested in the coffee industry. He said he was a lawyer from Montana of considerable wealth, having made and lost three fortunes. He was introduced to members of the legal fraternity by Judge Cooper and Senator J. A. McCandless. A few days later these same gentlemen, for a reason not stated, visited their friends and withdrew any guarantee they might have given of the man's legal introduction.

Some weeks later a letter was received from Chief Justice Pemberton of Bozeman, Gallatin county, Montana, stating that the description of Payson Caldwell tallied exactly with the personal appearance of E. P. Caldwell, against whom seventeen indictments had been found in the Montana courts and who was finally disbarred from the bench owing to gross fraud. Mr. Pemberton also added that E. P. Caldwell was known to be in Hawaii and that wherever he was he was a menace and a disgrace to the legal fraternity.

Turning to the fortieth number of the Pacific Reporter, page 176, the searcher of records found the decision of Chief Justice Pemberton in the disbarment proceedings on the relation of Charles S. Hartman and others against E. P. Caldwell given in the Supreme Court of Montana on May 6, 1895.

Among the charges brought against E. P. Caldwell was on which, that on the 6th of February, 1893, Caldwell purchased property and duly received the certificate of sale. This was deposited with a bank as security for the payment of a debt at the bank. Later this was attached for the payment of a promissory note. Caldwell then took the certificate of sale from the bank and fraudulently indorsed thereon the date of assignment [to the bank] as March 2, 1893. Still another charge was that on October 1, 1892, D. F. Grogan & Co., who had retained Caldwell as attorney, placed \$100 in his hands to settle an account with the McCormick Harvesting Machine Company. Caldwell kept the money, with the result that the suit was pressed and resulted in judgment for \$324.06 against the Grogans. Again on May 23, 1892, Caldwell endeavored to erase his name from a stipulation made with other attorneys "to take the deposition of one Jesse Butler, a notary public," in connection with a divorce case of Worsham vs. Worsham.

On June 28, 1893, Caldwell appeared as attorney for Barbara Spieth against D. F. Grogan and J. P. Grogan. The jury was waived and the case was tried before Judge Armstrong, who made certain findings of fact and required the attorneys to prepare a decree. Caldwell prepared a decree, submitted it to the attorneys for the defense, who agreed that it was a fact, handed the copy to Caldwell, who retained it and refused to file it until ordered to do so by the court. While the decree was in Caldwell's possession it was altered by interlineations, which changed the whole tenor of the decree. These alterations were discovered when the decree was being recorded by the clerk. After Caldwell had been discharged by Barbara Spieth he made a motion, as her attorney, to "affirm, vacate and modify" the said decree "so as to make the same correspond with the findings of the court."

So it goes on till all the cussedness which a lawyer may get into seventeen different cases is placed before the public. When the matter came before the court only two of the charges were taken under consideration. A review of the case is made as follows:

1. On an issue in disbarment proceedings as to whether respondent changed a decree after it was signed, the two opposing counsel in the case in which the decree was rendered testified that there were no interlineations therein when it was presented to the court. Respondent denied this, and another attorney testified that he advised certain charges, which respondent interlined, and that respondent then went to judge's office and returned, saying that the decree was signed; but there was evidence that this witness, stated on learning that

the decree was rendered in open court, that he could do nothing for defendant. Defendant retained the decree for two years, and only filed it in response to a peremptory order. Held that a finding that respondent inserted the interlineation after the decree was signed was proper.

2. A client of respondent in order to avoid costs in a criminal case against him, at respondent's suggestion made to him certain notes secured by a mortgage, and these notes, with the exception of one for \$600 were deposited with a bank by respondent. This client testified that when he asked for the notes, respondent promised to return them when he got them from the bank, but that he thereafter failed to do so, and subsequently claimed that the \$600 note was given to him for his services, and respondent so testified, though he had given to said client a receipt in full for his services at the time of the receipt of the notes. Held that a finding that none of the notes were delivered to respondent in payment of his services was proper.

3. The fact that respondent in disbarment proceedings was enabled to defraud his client by reason of a corrupt scheme entered into by them to defraud the county does not prevent the client from testifying as to such scheme.

4. Conviction of a crime is not a prerequisite to the disbarment of an attorney.

5. An attorney altering a decree, with a corrupt purpose, after it has been signed by the court, and also defrauding a client by negotiating notes entrusted to him by the client for safekeeping, should be disbarred.

There are papers in the possession of officials in this country which show that E. P. Caldwell, the disgraced lawyer of Gallatin county, Montana, and Payson Caldwell of Hawaii are one and the same person.

Band Concert To-night.

Prof. Berger will lead the band boys to success at Thomas Square at 7:30 tonight. In the programme given tonight it will be noticed that there are four new pieces. Of these the polka "Hanna," the professor considers one of the finest melodies ever played here. It was performed yesterday at the Executive grounds for the first time and scored a success. The other compositions are also very fine and will be well received.

Following is the program in detail:

- PART I.
1. March—"March, March Away" (new)..... Ackerman
 2. Overture—"Zampa"..... Herold
 3. Duet—"Excelsior" (new)..... Balfe
 4. Selection—"Hibernian Banquet" (new)..... Kappey
- PART II.
5. Selection—"Melodies of Northern Europe"..... Kuhnner
 6. Polka—"Hanna" (new)..... Kuhnner
 7. Waltz—"El Dorado" (new)..... Royle
 8. Quadrille—"Scotch Melodies"..... Wood
- "Hawaii Pono!"

There will be a special sale of Dr. Jaeger's Sanitary Wool Underwear at Tracey's, to reduce stock. Prices will be \$3 per suit for regular sizes, and \$3.50 per suit for extra large sizes.

Ladies' suits, all sizes, white and natural, at \$3 per suit. Do not let this opportunity pass to get these goods at much less than their value. As the sale will only last till stock is reduced.

CORNER KING AND BETHEL STS.

KING

OF ALL

ALL

WHEELS.

The Tribune.

The recent Field Day given at Kapiolani Park by the Honolulu Athletic Club demonstrated beyond a doubt the superiority of the Tribune Bicycles over all others. Here is the official report of the races won by the different wheels with the TRIBUNE a big winner:

Tribune 3 firsts 3 seconds
Columbia 2 " 1 "
Stearns 1 " 1 "
Rambler 1 " 2 "

There's no better guide when buying a wheel than this famous name--TRIBUNE. It identifies the KING OF WHEELS--it's a guarantee of strength, speed and reliability. The best bicycle it is possible to produce.

Hawaiian Hardware Co.,

4213-1w SOLE AGENTS.

NOTICE.

The HAWAIIAN GAZETTE COMPANY requests that all bills up to the 31st of December, 1895, not already presented, be presented immediately.

PACIFIC HARDWARE COMPANY.

We carry in stock the following

Oils:

Vacuum Oils.

The Vacuum Oil Company was the first house to manufacture Mineral Oils of any value for Lubricating purpose. The oil is reduced under complete uniformity of temperature with out atmospheric pressure and a perfect result is secured without charring the oil. This cannot be done by any other process. It is claimed that these oils are actually cheaper in use, at the prices charged than any other oils. You are sure of getting the same oil every time you order. You can save money, as you get better goods at less price, quality considered.

600 W Cylinder Oil.

This Oil, we claim stands alone. It is a unique product, with many imitations, but without a rival at any price.

Our 600 W Cylinder Oil is the outgrowth of over twenty years experience in the manufacture of oils, and we guarantee it absolutely in every particular. We will cheerfully send you a barrel on approval, not to be returned unless it suits.

Vacuoline Engine Oil.

Many of our patrons have wanted an oil at moderate price for all uses, except cylinder lubrication, of heavy body and great endurance, which could be depended upon absolutely anywhere and everywhere. We cannot speak too highly in its praise. It is one of the most remarkable oils ever manufactured. For all places where an oil must do a great deal of work on a small quantity, we can guarantee this oil against any other article. If you had a hard working machine, or a bearing that gives you trouble, try this oil. You cannot find its counterpart anywhere. It is a rich wine color. The best substitute for lard oil ever produced.

Arctic Engine Oil.

This is an Oil for electric light, centrifugal and general high speed work, adapted for the Edison system, being used by the Edison Company and recommended by them. It is indestructible in quality, and can be filtered and used over and over again. It is a perfect dynamo oil.

Vacuum Marine Engine Oil.

The only oil that meets all the requirements of Marine Engine lubrication. Better than lard oil and cheaper.

Heavy Dark Lubricating Oil.

For common shafting, exposed machinery, car journals, etc. Has no equal for cart axles.

MARSHAL'S SALE.

BY VIRTUE OF A WRIT OF EXECUTION issued out of the First Circuit Court, on the 29th day of November, A. D. 1895, against Kalaolu, plaintiff, in favor of Kekukahiko, defendant, for the sum of \$64.50, I have levied upon and shall expose for sale at the Station House, in the District of Honolulu, Island of Oahu, at 12 o'clock of WEDNESDAY, the 15th day of February, A. D. 1896, to the highest bidder, all the right, title, and interest of the said Kalaolu, plaintiff, in and to the following property, unless said judgment, interest, costs and my expenses be previously paid.

List of property for sale:
All that piece of property or real estate situated in Honolulu, Mau, known as the land of Papanui, and described in Royal Patent No. 6276 (Kuleana Hele 2505), to Opale, containing an area of 46-100 of an acre, more or less.

H. R. HITCHCOCK,
Deputy Marshal, Republic of Hawaii,
Honolulu, Oahu, January 8, A. D. 1896.

The Beauty

OF SOME PIANOS

Is only "case deep." It is much easier to make a handsome case than it is to put music into it. A tolerant mechanic can do the one—the other requires the best thought of a musical artist. The

Kroeger Pianos

All have handsome, tasteful, durable cases, but in their factory constant, careful, studios attention is given to the production of a perfect and lasting tone. The beauty and honesty of a Kroeger begins with the finish on the case and goes straight through to the iron plate that holds the strings. We'd like to show you the inside of a Kroeger.

FOR HAWAIIAN GIRLS.

Opportunities Offered Them in the Kindergarten.

INFLUENCING FUTURE GRANDMAS

What May be Done for the Nation.
Childish Minds Early Taught to
Seek Proper Paths—Careful Work
as Well as Constant Prayer.

(Concluded.)

We cannot, and need not, in the very nature of the case, require as high an educational standard of admission from them as is being required more and more now in America, but we believe that if Froebel's idea is good for any part it is good for the whole race, and therefore may be adapted to this part of it, which is yet in the childhood period of development.

We desire then, as soon as practicable, to make the normal class certificate a passport of admission to our future training class. As educational work advances in Hawaii we hope that higher standards may be developed along the line of our special branch of it, but we must have patience—remembering that Rome was not built in a day.

Our training class finished its first year's work at Christmas term, 1895. It is at a standstill just now, but the vital importance of it calls for its early resumption, not only that it is a necessary factor to the success of the kindergartens, but because we feel as never before how much may be done for this Hawaiian race through its agency. With this end in special view we are now considering how best to accomplish it and the others as well.

Much earnest thought has been bestowed upon this matter, and out of it has come the conviction that this work for the girls would better be done in connection with educational work at the seminaries, where it is practicable.

It is essential that they should be under protecting influences during their training to ensure the best results for them and for their practice work in the kindergartens.

It is essential also that the main effort of the trainer be concentrated upon them, and we believe that this can be more fully accomplished in the seminary environment than outside of it.

If this work is done in the seminary it will lend an important influence to the other work there. That the trainer will be a very helpful member of the faculty goes without saying.

Being with the girls in their homes, she will feel a personal responsibility about them as they go to and from their work each day, for she will be supervisor of the kindergartens, in which they will act as assistants.

Thus she will be able to shield them from some measure of their presence or her influence from the insults from white-knives, but dark-hearted, men which they are too often subjected to as they walk through our streets. She cannot remove these temptations, but through the opportunity of her daily life she can help them to resist and overcome what they cannot avoid.

We might mention other reasons why the incorporation of this training work into the seminary curriculum will be of inestimable advantage in the working out of the Hawaiian problem that confronts us there, but we do not need. Enough has been said to invite thought, and we are all of one mind as to the desired end. We hope it may be proved by actual experience some day.

The natural place for the inception of this work as a part of the educational scheme for Hawaiian girls would seem to be at the Kamehameha Girls School, for it would be a most fitting conclusion to the graded system that is being inaugurated there. The young women could pass from the normal into the training class room in the natural order of things and for the indispensable practice work of the course. Surely the thickly populated district of Palama could furnish material enough for a kindergarten annex which might be established within the spacious grounds of the seminary.

We do most earnestly hope and pray that it will not be long ere the financiers of that great institution will realize the paramount importance of this branch of work for Hawaiians, and that no monument of wood or wood or stone can be as lasting or of as great moment to any country as the preservation of the life-blood of the nation. What we do for this remnant of a most interesting and lovable people must be done speedily, and the power to do it lies in the hands of that magnificently-endowed enterprise at Kamehameha as in no other.

That place is too remote, perhaps, from our kindergarten work in Honolulu to be available as a supply for our needs on account of the expense of daily transmission by car of the ten or twelve assistants whom we could use in our various departments; and there are other objections also, but we hope to see an independent work going on there at an early day which will be a great blessing to the present generation of young women and to the coming generations in general by the necessary enlargement of the kindergarten work in that neighborhood.

This cannot be done too soon to meet the exigencies of the case. As an adjunct to the Free Kindergarten work, Kawaiahae Seminary, on account of its central location, is the most practicable place for the establishment of our training class. The pupils could more readily and without expense reach the different kindergartens in the city, where they would act as assistants, and the trainer, who would also be our superior, could more profitably attend to that branch of her work. It is possible that the pupils who graduate from the normal class at Kamehameha will be unwilling to come afterwards to Ka-

waihae to enter the training class there, but if so we hope their objections could be overcome. We cannot now tell how this will be. If they are not available it might be that our standard of admission would have to be lowered somewhat for a time at least. We must do the best we can and hope to work up to higher planes gradually. This factor in our problem we feel to be a serious one, and it is not yet clear how it may best be solved, but something must be done and light will surely come.

The work of the Free Kindergarten Association must of necessity be a limited one in our small community.

We have five departments well established, the running expenses of which, for this year, are estimated at about \$3500. The regular income for this year, at the present showing, is \$3439. Three hundred dollars of the expense this year is for pay of assistants and helpers. This work will be done by pupils in the training class when we have one again and that amount can then go towards the salary of the trainer, the balance of which is yet to be raised from some quarter—just where it is to come from is not yet apparent.

Since beginning this article our thought has been turned to the first time towards this society of cousins, who are directly interested in the work for Hawaiian girls and who have for many years been contributing towards their support in the boarding schools of the land. Can it enlarge these contributions? If the way is not clear to do this, will it, between now and the close of the year in June, look over the ground and consider whether it is putting its fund for Hawaiian work where it will give the best returns.

A good business man considers most carefully the nature of an enterprise before he invests his money in it, especially does he do this in the handling trust funds. This year the society is paying out \$800 for the support of pupils in the different Hawaiian boarding schools. This provides at least sixteen individuals with educational advantages superior because of the home atmosphere to what they can get in our government common schools which we know, however, are generally excellent and increasing rapidly.

The question we would bring before the society now is, "Will this fund be better invested in a branch of work which may reach fewer individuals, on the whole, in our generation, but cannot fail to multiply results in the next in a far larger ratio than any thing we are doing now?"

It is so natural to measure our success by the numbers we reach.

There is a tendency in our human make up to be satisfied that we are doing a great work if our churches are full to overflowing, if our boarding schools are crowded, if we are covering a great deal of ground in any line of effort. Quantity appeals more to the general mind than quality. Will not our society take up this matter and consider carefully whether that \$800 we now pay out for the direct benefit of sixteen individuals will not be better invested by endowing a training class department at Kawaiahae?

We know that this suggestion is open to the ready objection that it is contrary to the policy of the society, which seeks to divide its funds as much as possible amongst the various branches of work on the different islands and that such concentration of funds on work in Honolulu will not meet the approval of the contributors to the society on the other islands who are interested in work in their special localities. We cannot believe, however, that there is anything in this objection. Does Honolulu belong to the people who live in it? No, indeed! Every inhabitant of this group owns a share in its capital city. Every cousin by birth or by affiliation who is really interested in this Hawaiian people, and contributes to the support of work for them, desires first and most that their money shall be invested where it will do the most for the people they love and wish to help; it matters not to them whether the work is done in their special district or some other, they only care that it shall be done in the best place and in the best way, and we call upon all of them from Hawaii to Nihoa, from California to Boston, (for many have gone back to the fatherland, yet have not forgotten the dear land of their birth.) We call upon all of them to consider this question, for it is a vital one, one for which we shall be held responsible by our Lord when he shall call upon us, his stewards of the talents he has entrusted to us for investment, not for ourselves but for all of his children whom we can reach in this and the generations to come—for humanity!

Whether our portion be the two talents or the ten, one responsibility to Him, whose they are, is the same. Let us put our best thought, one most careful judgment into the investigation of this question now, and be ready when we come to lay out the work for the new year to do it in a way that will secure the most far-reaching and permanent results for the race.

Let us consider again and well the inspired needs which we have quoted: "The destiny of nations lies in the hands of women" and remember also that "The hope of the world is in the children."

WALLACE R. FARRINGTON, - - EDITOR.

THURSDAY, FEBRUARY 6, 1896.

We note with pleasure the active interest which the citizens of Honolulu have taken in the endeavor of this paper to bring about some sort of a renovation in the districts inhabited by the lower classes, but which are, unfortunately, streets frequented by business men and their families. The suggestion of placing the matter before the Board of Health and obtaining an official investigation, the returns of which shall be placed before the Legislature, is a good one. The people who are willing to put their shoulder to the wheel and assist in working out this problem will find that they will receive the moral, if not active, support of the entire business community. There is a power for reform at their command if they will use it.

WHO IS THIS CRITIC?

When in the course of human events a newly arrived individual in this, or any other, country finds himself called upon to set up a damnifying, mischief-making throne of his own and spread therefrom literature that partakes of the nature of his Ebenezer of corruption and misrepresentation, the first question, and a very proper one too, that is asked is: "Who is this new Moses who would lead us into greater dissension and arouse public distrust?" In Biblical times Saul was selected as a leader because he was head and shoulders above the people of his nation. This is sometimes true at the present time, but, unfortunately, there are those who endeavor to attract attention by waving the red flag above their heads. Since Hawaii was put down on the sailing route of the steamship lines it has been subjected from time to time with a class of men not unlike the tin-horn gambler type, who speak of their past history in a peculiar, many-thousand-miles-away tone and pass by on the other side.

So long as these men keep quiet and endeavor to lead a new life from that which has characterized their never-to-be-mentioned past, the public will keep quiet with them and assist them in their efforts to create a new record. But when they plant the seeds of discord, water them with the bile of the miserable malcontent, and endeavor to propagate a political vegetation that is a rank menace to established institutions, then the public has a right to demand with whom they are dealing.

The directors of the Hilo Tribune have declared that the sentiments expressed in their paper of Feb. 1, are those of the editor of the Tribune and possibly one other resident of Hilo, but they know of no one else in the whole island who holds the same views. The directors of the Hilo Tribune are honorable men and we believe they speak the truth. Consequently our attention is turned to the man who is solely responsible for the expressions that appear in the editorial columns of the Hilo Tribune. We refer to Payson Cadwell. He tells us that the time was when enthusiasm was fired by stirring music, little realizing possibly that the tintinabulations of his editorial column would stir up the searching spirits and lead to an investigation into the relics of the past, in order to note the straws which give evil character to the imprecations implied in his insinuations against Government officials. We agree with him that "we have no war," that "people are endeavoring to pursue peaceable avocations and to earn honest livings as a result of daily toil." Why then, we would ask, should there be allowed in

Hilo this relic of a lawyer whose lack of integrity has been proven? We refer to Payson Cadwell. "Why should our people be enticed away from their new way by a showing"—a gross misrepresentation—conjured by one who found the legal atmosphere too warm for comfort in Montana? "Why should our people have placed before them an object lesson" of what pure cussedness and ability of vilification may exist in one man's mind, "especially at this time, when our necessities" for peace and quiet are so surely being realized? Why should this man, who dare not make application to practice in the courts of Hawaii for fear of his past record becoming known, be allowed to endeavor to pervert the minds of the people of this country by publishing articles in which are contained the very essence of political corruption and disorder? We agree with our evening contemporary that he is not the only one in the business, but we will give the others attention at a later day.

Again we ask: Who is our critic? We find, after careful investigation, that by taking off a little here and adding a little there, E. P. Cadwell of Montana, has become Payson Cadwell of Hawaii. We find that Barbara Spieth's attorney who altered a decree; that the man who fraudulently indorsed a certificate of sale; that D. F. Grogan & Co.'s attorney who received \$100 and refused to pay it to the McCormick Harvesting Machine Company; that the attorney who passed a promissory note held by St. John Liddell into the hands of Rachael Creek and refused to account for the action; that the man whom Chief Justice Pemberton disbarred from the courts of Gallatin county, Montana, and the party responsible for the tirade published in the Hilo Tribune are one and the same. This is our critic.

We leave the people of this country to judge for themselves whether such men shall be allowed to continue to spread their sentiments about the country without question.

Will Assert Its Authority.

NEW YORK, Jan. 26. — The Herald's St. Petersburg cable says: A dispatch to Novoe Vremya from Vladivostok says that the Japanese Government wishes to assert its authority over the western half of the Pacific ocean, and also that it has decided to retain Corea within the sphere of its influence.

W. W. DIMOND.

THE OPENING will be on the 15th and then you will have an opportunity to see elegant goods in an elegant store and at low prices. We do not mean low prices for inferior goods, but for as fine articles as were ever shown in Honolulu.

The impression prevails that because our store in the Von Holt block is to be the finest in the city that purchasers must pay high prices in order that we may keep up appearances. A greater mistake was never made; good stores may mean high prices in some places, but not with us.

The conveniences in the new store are perfect, even to the smallest details. Not a point has been overlooked in fitting up the various departments so that purchasers may select goods without getting weary.

The store will be open and the goods marked in plain figures on February 15. On that day and every other day shoppers will be as welcome as buyers. We want shoppers, because they learn the difference between our prices and those charged in the smaller establishments.

We will show the largest assortment of goods ever seen in Honolulu, and it will comprise Crockery, Glassware of every description, Filters, Lamps, Cutlery, Platedware, Woodenware and Refrigerators, Hardware, Agateware, Tinware, Stoves and Ranges and a large assortment of the latest novelties in household utensils.

We propose in the conduct of this business to introduce new ideas, new methods and new goods. We will show you that first-class articles may be imported here and sold by us at lower prices than is asked by Chinese dealers on Nuuanu street.

Goods delivered daily to all parts of the city including Waikiki.

And we want your trade.

W. W. Dimond

THE BOARD OF HEALTH.

A Record of Yesterday Afternoon's Meeting.

PETITION ABOUT FISH DENIED.

Maunakea Street Free from Fish Stalls.
The Late Dr. Williams—Father Conrady's Request Denied—Poisoned Pineapples at Settlement—Leprosy.

The Board of Health held a regular weekly session at 3 o'clock yesterday, W. O. Smith (president) in the chair. There were present Doctors Emerson, Day and Wood, T. F. Lansing and David Kellogg; members, Doctors Wayson and Mousarrat, Charles Wilcox and C. B. Reynolds, executive officer.

The usual routine was followed in reading the minutes of the last meeting and receiving reports from the various city officials connected with the Board.

President Smith read extracts from pamphlets received from English authorities on the subject of cholera. From these it is shown that in countries where the disease is epidemic less attention is paid to quarantine matters and more to stamping out the disease once it makes its appearance. Passengers on vessels from infected places are allowed to land and are closely watched for the ensuing five days, during which period the germs, if there are any, are in a state of incubation.

A petition, signed by 300 persons, asking for permission to sell fish on Maunakea street, from King street to the sea, was read by President Smith. Mr. Smith asked that the matter be considered, as the petition contained the names of a number of persons from the western section of the city, who found the location of the new market inconvenient.

The board as a body objected to granting the permission, as the new market was occupied today simply through the old one becoming a microbe centre. If the permission asked was granted Maunakea street south of King would be in a sanitary condition similar to the old one.

Mr. Lansing suggested that the matter had better come up through the Interior office.

Mr. Smith said that would do if the petition was for a new market, but it was not, it was simply a request for permission to sell fish in a certain prohibited locality.

Mr. Lansing asked if Maunakea street was ever used by fish dealers?

Mr. Smith replied that it had not. Years ago there were certain days in the week when the locality of the bell tower was used by marketmen, but it had been stopped, and for the past twenty years the dealers had been going to the market by common consent.

In response to a question by Dr. Emerson, Mr. Smith said the practice of selling fish elsewhere had never been prohibited by law.

Dr. Wood thought that it was within the province of the Board of Health to see that market places did not become nuisances. The new market had been built with concrete floors and marble top stands were used for the purpose of keeping the place in good sanitary condition. He objected to the petition and would favor, rather, the establishing of a new market on Maunakea street.

Mr. Smith said it was not a question of markets, they were simply to decide whether or not fish could be sold on Maunakea street from King street to the sea.

The petition was denied by a unanimous vote.

In the discussion on the subject of fish inspection the members decided it was good policy to follow the plan permanently. Mr. Smith stated that he had received several complaints regarding the severity of Mr. Kellogg's method. He had personally investigated several of the complaints, but found no cause for action. From a Portuguese woman he had a complaint that the inspector was lax in attending to his duty. In this latter case a dealer had sold her some back number fish, which, to her, seemed to ripen quickly on her way home.

Mr. Smith read a communication from Father Conrady (who was present) asking permission to reside at the settlement and stated that patients in some of the homes had died without having any one to look after their physical needs. He offered his services free in the capacity of helper.

Mr. Smith remarked, after reading the request, that he had told Father Conrady that he would recommend it to the Board. He then asked the reverend gentleman if there was anything he would like to explain to the Board in connection with the matter. Receiving a negative reply, Mr. Smith suggested that he leave the room and call on the clerk today for the answer.

In the discussion on the subject it was shown that the services of Father Conrady were not desirable, for the reason that he was constantly stirring up strife at the settlement and meddling with affairs which did not concern him as spiritual adviser.

Mr. Smith reported that from Hawaii, last lot of lepers brought from Hawaii, all but three of the known lepers on that island were in the hands of the authorities. These exceptions were ready to come to the hospital, but the weather was too rough to bring them off.

Incidentally the president mentioned that the Government physician report little or no trouble in getting the lepers to Honolulu to be extending the leprosy. He believed this aimed for leprosy had been reached through the improvements that had

been made at the settlement. Hawaiians who had objected to leaving their homes had been captured and sent to Molokai. These people had written to their friends of the excellent treatment they had received, and the information had been circulated among other lepers. He cited the case of the Kalaupuan. Some of them had expressed great satisfaction at the methods, and regretted not going before.

Mr. Meyers, superintendent, had several communications on the table which were read. One of them related to the distribution of the funds raised by benefits for Christmas presents. It was decided to have the money divided in small sums and distributed without delay. Another letter referred to some pineapples sent him from Honolulu in a half ripe state, which had decayed at the top through poison being placed on the shoots, in order to prevent other persons from propagating that particular brand.

The matter was referred to Medical Inspector Wayson for investigation.

Another complaint from the same source related to landing lepers at night. Steamship Co. ordered to stop this practice.

Complaints were read regarding pools of stagnant water on mauka side of Queen street, extension under houses in vicinity of places where cholera was rampant last summer.

Secretary Wilcox was instructed to notify owners to have place filled in or it would be done by the board at their expense.

An investigation was ordered of the reports that children in Fort Street school refuse to be vaccinated.

Mr. Smith read a letter dated January 27th from Dr. Williams at Hilo, in which he stated his reports would follow on the next steamer. The reports have not yet been received. Mr. Smith stated the trouble he had met in his efforts to secure reports from Dr. Williams. He has sent none since last May when he transmitted a batch for the year previous, with a promise to be more prompt in the future.

Mr. Lansing said that if the board was not good enough to recognize it, it was not good enough to work for, and recommended asking for the doctors' resignation.

Doctors Day and Wood suggested milder methods, and it was decided to invite Dr. Williams to visit Honolulu at his own expense and confer with the board, as to getting the reports here once in a while.

G. W. R. King's resignation as health inspector was accepted and it was decided not to fill the vacancy at present. Mr. Jacobson, who had proven a very efficient inspector would have charge of Mr. King's district in the future.

On the strength of a letter received from the Hawaiian Carriage Company, Mr. Lansing advised securing prices from different dealers or manufacturers when work was to be done for account of the board.

C. B. Reynolds reported on the condition of the Nuuanu reservoirs and it is probable an appropriation will be asked for a new one.

The question of a new cemetery site was not disposed of. Mr. Smith stated that the most suitable place he had found was the Punahou back pasture. He had done nothing concerning it.

Adjourned.

Opium Case.

R. W. Davis, charged with having opium in possession, was on trial in the Circuit Court nearly all of yesterday.

Davis is the bumboat man who with one or two others were arrested when leaving the Olympia one day in last autumn. He was tried in the District Court and convicted. Judge Perry sentenced him to a fine of \$250 but the decision was appealed from and ex-Judge Magoon defended him yesterday.

Judge Carter's charge to the jury was fair and impartial and the jury in a very few minutes returned a verdict of not guilty.

Ballots Examined.

The box containing the ballots cast in the recent election on Hawaii was opened yesterday in the presence of Chief Justice Judd, upon the request of W. A. Kinney, attorney for Alexander Young, one of the candidates. Lorin A. Thurston, attorney for H. L. Holstein, was also present.

The ballots were casually examined by the attorneys presumably with a view to ascertain what, if any, possible grounds there were for a contest.

Good Thing to Have.

In demand first, last and all the time, Rainier beer. Light in color, a malt of perfect brewing, and a delight to the epicure. Recommended for its purity, delicious aroma and health giving properties. Sold at the Criterion saloon.

IN THE BEGINNING

Of the new year, when the winter season of close confinement is only half gone, many find that their health begins to break down, that the least exposure threatens sickness. It is then, as well as at all other times, and with people even in good health, that the following facts should be remembered, namely: That Hood's Sarsaparilla leads everything in the way of medicines; that it accomplishes the greatest cures in the world, and requires the least building in the world devoted exclusively to the preparation of the proprietary medicine. Does not this conclusively prove, if you are sick, that Hood's Sarsaparilla is the medicine for you to take?

A REMARKABLE RAILROAD SYSTEM.

People Who Go to the St. Louis Convention Will Ride in Fine Street Cars.
(Special Correspondence.)

St. Louis, Jan. 7.—This city has the finest street car system in the world. People who come to the convention next June may be prepared to see and enjoy something unique in street railroad equipment. They will ride in palace cars propelled by electricity, and they can ride from one end of the city to another and around it, 12 miles in all, for 5 cents.

St. Louis was a long time waking up to the demand for rapid transit. I can recall the sensation it created here not very many years ago by the report of the starting of the wonderful cable cars in Chicago. San Francisco had rapid transit long before Chicago, and Chicago was far ahead of St. Louis. But that should not be a subject of reproach. The plodding car horse is still a feature of the landscape in Washington and New York.

When St. Louis awoke to the need of quick transit, there was a long delay while the railway owners debated the relative advantages of cable and electric propulsion. A cable road was the first started, and the opposition to the trolley kept electricity in the background for a long time. But sufficient inducements were offered the members of the city assembly after a time, and franchises were granted. Before many years the city was gridironed with trolley lines. Boston's system is more complicated and clumsy, but it is not so far-reaching in its usefulness. Fortunately for St. Louis, the street cars are not centered in one or two of the business streets. Every street leading to the business center has one or more car lines on it, however.

Within the city limits are 320 miles of single track. The stranger who comes here to see the city from a street car must be prepared to do a good deal of riding. The gross annual receipts of the different companies are \$5,000,000, which would represent 100,000,000 passengers carried in a year, not counting dead-weights or making allowance for children who ride at half fare. The 5 cent fare prevails here everywhere, and no tickets are sold. There is a very elaborate system of transfers, which makes it possible to reach almost any part of the city from any other part for 5 cents.

To carry these 100,000,000 passengers there are 920 motor cars, 160 grip cars and 849 "trailers." These cars, if placed in a line, would cover nearly 20 miles of streets. The four great systems are the Missouri railway, which controls 25 miles of electric and 10 miles of cable road; the Lindell, which controls 62 miles of electric; the Union Depot company, which controls 75 miles of electric, and the National railway, which has 43 miles of electric and 10 of cable line. The first three are owned in St. Louis; the fourth is the property of a Chicago syndicate.

The aggregate capital of the street railroads of the city is \$21,700,000, and they have a bonded indebtedness of \$17,150,000. St. Louis was the city which inaugurated the mail car system. It came from a suggestion by John B. Harlow of the St. Louis postoffice, now civil service commissioner at Washington. The system has been in operation over lines running north, south and west for several years. Boston took up the idea, and now conservative New York and Washington have street railway mail cars.

The express car system was introduced first on St. Louis railways. An express car now runs on a fixed schedule from South St. Louis to the heart of the city, and before summer comes all the lines in the city will probably be doing an express business. In time, no doubt, the delivery system of the shops will be revolutionized. Delivery cars will be loaded with bundles for different sections, and delivery wagons will cover short routes from general warehouses in these sections.

The first street car ambulance was built in St. Louis and used over the Union Depot lines from the center of the city to the City hospital. It was equipped with every necessary appliance for performing a surgical operation, if necessary, en route. The railway company built this car and operated it for a time, but it is out of use just now because the city made no provision for paying operating expenses or putting in switches at the hospital grounds.

The funeral car is a novelty, founded on the French funeral train, which has had some serious consideration. The objection to it lies in the fear that the line running to the cemetery might become known as the "funeral line." The funeral car has been planned—a combination car, with a place for the corpse in front and seats for the mourners behind. Such a car could be switched from one end of the city to another from track to track. It would cheapen funerals about one-half.

The living and not the dead are the chief solicitude of the companies now, however, and St. Louis people have reason to congratulate themselves. The cars on almost all the lines are mounted on heavy springs, and they ride with the ease of a railroad coach. They are equipped with double seats of wicker on each side of a broad aisle, and in the winter months they are warmed by stoves. St. Louis street cars were the first in the country to be warmed in winter. Push buttons at intervals give passengers a means of communicating with the conductor, which is a great improvement on the old hand waving, which sometimes attracted the conductor's attention and sometimes missed him entirely. Many of the cars have smoking compartments. Only one thing the St. Louis street car system needs to make it perfect. The cars should stop before crossing the street. This is the Baltimore idea, and it is spreading rapidly to other communities.

Indurine

A Cold Water Paint Especially
Designed for Inside Work on
Factories and Public
Buildings.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER, and can be applied by any one and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.

It will last for years and is unaffected by gases. One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface and for all classes of work, even for the finest decorating.

Outside Indurine.

This Is for Outside Work.

Such as Fences, Outbuildings and Laborers' Quarters. It is a thick paste to be diluted with cold water; stands rain and exposure, as well as oil paint, and costs but a fraction as much.

COLD WATER KALSOUMINE

Adapted for Dwellings, Offices and Public Buildings, or any other place where KALSOUMINE is used. It will not rub, discolor or scale off.

LUCOL.

A new Paint Oil. It comes raw and boiled; is superior to linseed, and covers with one-third less lead and pigment to the gallon.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pumps, Centrifugals, Elevators, Plows, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.

Electric power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and all Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.

THE BAND KICKED.

Objections to Quality of Food on Kinau—Rectified by Mr. Wight.

A member of the Hawaiian band has complained of the treatment accorded them while on the Kinau, en route to Hilo. The objection was to the quantity and quality of the food, which the musician states, "was not as good as that supplied the Japanese laborers on the way to the plantations." The matter has been investigated by a representative of this paper with the following results:

The complaint as stated above was made to Professor Berger by one of the white members of the band, and the professor in turn reported it to C. L. Wight, president of the Wilder S. S. Co. who was on board.

Mr. Wight inquired of the steward and was informed that he had not received notification from the office that the band boys were to have food different from any other deck passengers. Mr. Wight regretted the circumstances, but said it could not be remedied. Professor Berger told him he would be obliged to take his men ashore at the first stopping place if provisions were not made.

Before reaching Mahukona, Mr. Wight gave instructions to the steward to go ashore and procure all the fresh meat and food necessary, and feed it to the men. When this was done the complaints ceased, and the band boys waxed fat.

Professor Berger states that the trouble was all caused through the fact of the unusual number of passengers on the steamer that trip, and compliments Mr. Wight on his promptness in remedying the cause for complaint.

A Slippery Thief.

Kaanaana, one of the sailors of the W. G. Hall, tried to turn himself into a dairyman at an early hour, but he was cut short in his calculations by Health Agent J. D. McVeigh. He was seen trying to sell butter to Fred Johnson. Mr. McVeigh suspected something wrong of a man that chose 4:30 o'clock in the morning to sell butter and immediately made the arrest. Kaanaana was brought up for trial in the police court a few hours later and sentenced to six months imprisonment at hard labor. He saw no loophole and pleaded guilty. Kaanaana has been an employee of the I. I. S. N. Co. for quite a while. He said he was sorry he had committed the offense but the qualms of conscience arrived too late.

Threw Away His Canes.

Mr. D. Wiley, ex postmaster, Black Creek, N. Y., was so badly afflicted with rheumatism that he was only able to hobble around with canes, and even then it caused him great pain. After using Chamberlain's Pain Balm he was so much improved that he threw away his canes. He says this liniment did him more good than all other medicines and treatment put together. For sale at 50 cents per bottle by all druggists and dealers. HENSON, SMITH & Co., agents for H. I.

FOR SOUTH AFRICA.

Syndicate of Honolulu Builders—A Good Scheme If It Works.

An attempt will soon be made to colonize South Africa by a few Honolulu residents whose training in profitable trades is almost a guarantee of their becoming wealthy.

John Bowler, E. B. Thomas, T. M. Lucas, T. B. Walker and T. W. Rawlins have canvassed the situation and decided upon a plan which, if carried out, will no doubt bring them substantial results.

Their idea is to purchase a vessel in Port Townsend, if possible, and load it with sash, blinds, doors and lumber which they will take to the nearest seaport near Johannesburg. The cargo will then be taken overland to the principal town and disposed of. It is expected that the vessel will call here for the members of the syndicate and then go directly to South Africa. The vessel will load diamonds and Barney Bonato bank shares for return cargo to Honolulu.

Mr. Thomas said to an ADVERTISER reporter yesterday that an agent for the syndicate was now in Port Townsend trying to secure a vessel, and unless something unexpected should happen, the craft would arrive here in six weeks. He will not go with the party, but will remain here for some months longer looking after certain matters connected with his business.

Made Her Feel Well.

The physician was surprised to find the head of the household at the door with a shotgun.

"Why, what's the matter?" stammered the doctor.

"That there Seattle beer you give my wife, she says is makin' her feel like a new woman, and I want you to understand that no new woman business goes in this house. Just thing I know she'll be out makin' speeches."

The Birth Stone for February is the Amethyst.

You Read

A good deal now-a-days about the cheapness at which you can purchase certain lines of goods.

You generally find upon investigation that the cheapness is only in the bare statement of the dealer, and is not borne out by fact.

Is It Not A Fact

That you cannot purchase first-class goods at prices for which third-rate goods are sold?

How temptingly the cheap plated stuff is made up and how fluently the dealer stuffs you about it being JUST AS GOOD.

How often you make the sad mistake to take his bare word for it, purchase something, and in so very short a time you find that it was not quite as good as his word, in fact no good at all.

It Is Not Reasonable

To suppose that a dealer who knows his business, who knows values, as no novice can know them, would charge you for his knowledge. Knowledge of goods makes it easy for him to purchase right; and to sell right.

We claim to carry the best goods known in our various lines, and quality considered sell them lower than most houses in our line of trade.

It is quality we brag on; it is the backing we give our goods which make them right to you, for there is no question but what our guarantee means ABSOLUTE RELIABILITY.

H. F. WICHMAN

Have you seen the new silverware pattern? It's fine.

WANTED.

ONE SECOND-HAND DELIVERY Wagon to carry about 2000 pounds. Address P. O. Box 84.

Will you walk into my workshop?
Says the Woven Wire Man;
You may not have much time to stop,
Yet, enough to see the plan
Of a clean bed
To lay your head
Upon.

You can't keep clean a bed of wood;
Then get a Bed of Iron.
Fit it with "Duplex" Wire you should,
For that's the bed to lie on.
No bugs or fleas
You then will tease—
Not One.

An iron bed enameled white,
Or done in black and gold,
Suited for ONE that's not too light,
Or TWO, now the weather's cold,
Of four hundred pounds,
May be found,
And More.

A meeting of the Leilani boat club was held last night. Resignations were received and new members elected. Arrangements are being made to occupy a portion of the late King's boat house.

"Murmurs from the Pacific," a reverie for piano, Prof. E. Cook, now teaching music here, composer, has been received. This composition has had a big sale on the Coast. It is brilliant and effective.

Ensign Robison, of the U. S. S. Boston, was a visitor on the courts of the Pacific Tennis Club yesterday and indulged in several sets of tennis with various members. Mr. Robison is a good player, and shows excellent handling of the racquet.

Fred Whitney, son of H. M. Whitney, will leave on the Monowai for his home in Montana. He came to Hilo on a sailing vessel and spent some days visiting his sister Mrs. Goodale. He is engaged in mining operations and has been away from the islands for ten years.

The regular monthly meeting of the Myrtle boat club was held at the room of President Robertson last night. The following new members were elected: S. L. Rumsey, Ed. Lofquist, Ed. Giffard and Leslie Scott. Yesterday was the 13th anniversary of the birth of the Myrtle boat club.

At a meeting of Company D last night there were some fifty members present. Officers of other companies were also present. Six new members were elected and five applications reported. No drill was indulged in. Other business matters were attended to. Company D now has seventy-five members.

A warden of the Episcopal church denies that there is any probability of any minstrel show being given for the benefit of the Second Congregation. However, a minstrel show will be got up and given after Easter by young men of the Second Congregation of the

Episcopal church. The proceeds will be given for some charitable purpose.

The old Chinaman reported as hanging around the station house, apparently without an object, is a homeless individual who is receiving assistance from the boys around the station. He has had nothing to eat for two days and is worthy of attention.

The February Paradise.

The February number of The Paradise of the Pacific was issued yesterday. The current number contains a story on Kawaiahao Church; a description of the Sailor's Home; a story on inter-island navigation and a sketch of the life of Hon. W. H. Rice. The pictures are excellent and altogether it is a very good number.

Pens and Books Free.

For a limited time the Hobron Drug Company will give away Angier's card of pens, and two interesting little books, one entitled "Astrology" and the other "Health." This is an opportunity that should be taken advantage of, as the articles are useful and instructive, showing as well the generosity of the Hobron Drug Company.

Sachs' Weather Bulletin.

"What Charlie Says."

DIAMOND HEAD.
FEBRUARY 5 1896.
Weather thick; wind high northeast.

Why Treat Your Friends

better than yourself? Why advise friends to take something for their coughs when you neglect yours? There's no positive cure for consumption in advanced stages. Nip the cough with a dose of

Putnam's Cherry Cough Comfort

continue with a few more and cure it.

Treat yourself generously and thoughtfully, as you do your friends. Pleasant to take for old or young, and should always be in the Family Medicine Chest.

SOLD IN 25c. and 50c. BOTTLES.

Hobron • Drug • Co.

EXCLUSIVE AGENTS

Scribner's pills are for biliousness, bilious headache, dyspepsia, heartburn, torpid liver, dizziness, sick headache, bad taste in the mouth, coated tongue, loss of appetite, yellow skin, etc., when caused by constipation, and constipation is the most frequent cause of all of them.

Scribner's pills are purely vegetable. The genuine are pink and have a soluble coating of sugar which makes them easy to take. Sold in glass bottles only at 25 cents each; 5 for \$1.
