Most Desperate Fighting In History Marks the Present Battle. Gen. Orloff Killed.

A HALT IN THE FIELD.

-Illustrated London News.

(Associated Press Cablegrams.)

ST. PETERSBURG, Sept. 4 .- It is feared that Gen. Stakelberg's corps is lost. General Orloff was seriously wounded at Liaoyang. The fighting has been the most desperate in history. Bayonet contests were frequent. The Russian artillerymen have suffered terribly, one battery having forty killed and the remainder wounded. The condition of the soldiers on both sides is pitiable. Japanese prisoners are starving and almost naked.

## OAHU COLLEGE PROMISES TO HAVE PROSPEROUS YEAR

12. There is every prospect of a large attendance. The advance registration the East, Mr. Howland of the Commerin all departments is unusually heavy and in the Boarding Department every room is taken:

Ther, will be but two changes in the teaching staff at the college this year. Mrs. Helene Tietjens, who is a well known teacher in the city, will have charge of the French and German in the absence of Miss Hasforth who is spending a year in study abroad. For the place of Latin teacher, left vacant by the resignation of Mr. Forbes to take up the study of law, Mr. Charles A. Stiles has been secured. Mr. Stiles was one of many candidates interviewed by Mr. Griffiths on his recent trip East. He is a graduate of Williams College and, in addition to having made Latin his specialty in college, he has had four years' experience in teaching Latin in the Williamstown High School. His experience in basketball and baseball will also make him

a useful member of the corps. Practically all of the teachers are now here ready for the opening of school. Mr. and Mrs. Gerard Barton will return on the Allen to take up which had such a phenomenal success last year. The Manual Training Deworking and carpentry in all its oversight,

Chairman Crabbe called the convention to order in Spreckels' Hall at 10.30 a. m. this morning and at once requested a roll-call by districts.

The space assigned to the convention was filled while the spectator-section vas not lacking in numbers. On the stage were a number of prominent citizens of Hilo and Secretary "Jack" Atkinson of Honolulu.

The roll-call developed a large number of proxies in the pockets of members present. Sixty-eight actual votes were

PERMANENT CHAIRMAN,

H. L. Holstein of Kohala was elected permanent chairman on motion of J. L. Silva of Kauai, and on taking the chair said he did not intend to make a speech, as the convention needed to have its work expedited and there was no time for speech making. He stated that there was a distinguished gentleman in the hall who should sit on the platform as a guest of honor, as a man who had done a great deal for Hilo and for the Republican party. named Admiral Beckley, who was escorted to the platform by Col. Sam Parker and ex-Gov. Baker amid thunderous applause and cheers.

ADMIRAL HONORED.

The admiral thanked the convention for the honor. He hoped that everything would move along to a successful issue and that all would vote for Kuhio. When the delegates went home they should tell the people to vote only for Kuhio, so that Hilo would in time get its breakwater, postoffice and jail (laughter and applause) and Mooheau Park improvements.

M. K. Nakuina was elected secretary W. J. Coelho, interpreter, and W. H. Crawford the sergeant-at-arms.

The platform was adopted unanimously.

#### KUHIO NOMINATED.

The chair then called for nominations for Delegate to Congress and gave the First District the cherished opportunity to make the initial nomination with Stephen L. Desha as spokesman. He spoke in Hawaiian, placing Prince Kuhia Kalanianaole in nomination. In matchless oratory in his native tongue, leading up to his subject gradually and with ever-increasing feeling in his voice, Mr. Desha reached the climax in his oration when he mentioned the name of Kuhio. The names of Senator J. T. Brown and David Kalauokalani, opio, as notable examples of men who had left the Home Rule party and cast their fortunes with the Republican party were the signals for ovations. When he actually named Kuhio as his candidate the convention went wild sixty proxies represented. In calling with excitement, cheering and applauding for several minutes.

THOMPSON SECONDS.

The Second District yielded to the Fourth District, and Frank E. Thompson was given the honor of seconding the nomination. His speech aroused intense enthusiasm. Mr. Thompson's speech was as follows:

Mr. Chairman, Gentlemen of the Convention: Oahu esteems it a pleasure and an honor to raise her voice and pledge her votes in support of the name presented to this convention by Ha-

Oahu does this not because the nominee resides upon her shores; not because he belongs to any faction, clan or schism; not because he is a prince among men; but because he is a man among princes.

Oahu joins hands with Hawaii beause Oahu's Republicans believe that the laborer has been worthy of his hire; because they believe that it is unwise to slough off the old and tried and take on the new and untried; because they believe that Hawaii's nominee, like the party he is called to represent, will move on with years, meet the requirements of today, and advance with the requirements of tomorrow.

The result of the coming November election places the Territory of Hawall in the Republican or non-Republican, the Democratic or non-Democratic list, and the Republicans of this Territory demand of this nominating convention a leader who can scatter the thin skirmishing lines of Democracy, capture the citadel of the Home Ruler and march the youngest Territory squarely into the ranks of that grand old party upon every page of whose record is engrossed a history of the prosperity and progress of a country, which is at once the admiration and the envy of all

The success of the Republican party n the coming presidential election is in sullen and silent sadness conceded

# The Pacific Hardware Co., ISLANDS THAT DISAPPEAR

Captain Reginald Nicholson, U. S. N. has just returned from what may be described as a marine wild-goose chase. He was sent by the Navy Department to locate a mysterious rock in the midst of the Pacific, which, though uncharted, was reported by several navigators and was feared as a menace to ships. But Captain Nicholson sailed all over the region inquestion, searching it back and forth, and found no trace of the alleged islet. This does not mean, however, that

there never was an islet there. Islands have a way of popping up and down in the ocean, especially in such waters as these to the south of Japan.

Thus, a skipper may be puzzled at failing to discover a long-familiar landmark, or worse yet he may run upon a brand-new piece of territory which has sprung up out of the waves since he last went that way. The islands that pop up thus unexpectedly are impelled to such doings by volcanic disturbances under the sea. Off our own shores, in the neighborhood of the Aleutian chain, a remarkable phenomenon of this kind has been under observation for a long time. Two lofty mountains, called Bogislof and Grewingk have lifted themselves out of the ocean, and having slowly grown to great size, now are gradually disappearing. It is evident that before long they will vanish altogether, and only a blank expanse of ocean will remain where once they loomed gigantic in the pathway of ships.

apex and numerous fissures. Thus

came into being the island of Grew-

long time was connected with old Bo-

gislof by a sort of isthmus of sand.

The first landing upon it was made in May 1884, by the officers of the reven-

be about eight hundred feet high,

though since that time it has shrunk

to less than seven hundred feet. As

late as 1890 the roar of the escaping

#### THE SCHOOL FOR SCANDAL.

Sheridan's great comedy, which depicted with acute wit and humor the scandal-mongering tendencies of his age, is familiar to the social world. Hackreyed quotations against the innumerable phases of gossip and scandal, from the days of Spencer to the present age, are repeated by every educated woman or man, who has even skimmed the surface of perpetuated literature. Modern civilization has advanced to a point, where the ends of the earth are brought together and nine-tenths of the people who are engaged in labor, material, intellectual, moral or religious, have no time to waste on the abstract occupation of watching and judging their neighbors or individuals who attain prominence, but fill up their brief leisure by attention to themselves and to the facts and principles that enter into their own lives.

Scandal, however, has always existed and, in some of its most virulent phases, is still rampant. When communities were scattered and isloated, its circle was narrow and its movements restricted but effective. Families munched little or serious delinquencies for a generation. Villagers chewed the cud of peccadilloes and impurities as luscious morsels until they were reduced to a pulp. Poor Hester Prynne, with the struggle of pride and repentance tearing the fibres of her heart, not only had to wear the Scarlet Letter but to suffer from the expanding narratives of her Puritan critics, until her soul was plunged into unfathomable gloom. The rhymed story of Mr. Brown and Mrs. Jones was typical in its day. The first in the alphabetical list of gossipers correctly stated that Mrs. Jones "bought" her goods from Brown; the second that she "got" her goods from Brown; the third that she "took" her goods from Brown; and the fourth that she "stole" her goods from Brown. For centuries the enforced provincialists of the globe fed upon reputation through deepening grades of venon and mendacity.

The primitive and coarser forms of scandal are virtually out of date. They have been succeeded by the propagation and anonymous circulation of veiled indelicacies and falsehoods, often spread over thin films of truth, and for that reason the more subtle and the more wicked. "Can you fancy," said Thackeray in his wonderful delineation of The Newcomes, "a moonlight conclave, and ghouls feasting on the corpse of a reputation: the gibes and sarcasm, the laughing and the gnashing of teeth? How they tear the dainty limbs, and relish the tender morsels!" The language is hyperbolical, but the moral true. Beside and surrounding the noble figure of Colonel Newcome, the very concentration of the gentlestab purity, simplicity and honor under the fifth rib. How the human heart is touched by the over-manifested resentment of Ethel Newcome against the insi- banded together to make me eat a miserable, dry, tasteless imitation of fruit that dious and undermining venon of the drawing-room! "Let this great maxim be my virtue's guide-In part she is to blame who has been tried. He comes too near who comes to be denied."

In these days, scandal is effectively disseminated by two sections of the leisured class, which does not comprise the hundredth part of society-the "uncorighteous" and the fast set, of which each sex furnishes representatives. Our the pioneer work for bananas which Mr. Well's has done for papaias? modern Pharisees, who are not blessed with the necessity for daily work, are figure-heads in the pews, and the austere critics in the churches. Having attained a paraded spirituality, which is only skin-deep, they have ceased to inspect their own interiors and devote themselves to the obscure imperfections of others. Their frosty zeal in the light of the Aurora Borealis, which they substitute for the Southern Cross, developes many lines of sin and imperfection, which they deepen with their steel-pointed chisels until they often become indelible.

> "Thus prudes by characters o'erthrown Imagine that they raise their own."

Meanwhile the mass of Christians, glowing with the love and inspired by the Ider.ls that have come down from the Cross, touch the hearts and uplift the souls of the poor, the repentant, the despairing yearners for a better life and draw them into the warmth and beauty of that righteousness which, on earth at least, is the home of social purity and of fraternal union.

There is a class of club men, antiquated and almost forsaken, whose mental achievements are restricted to the promulgation of scandals and "the last good thing." Major Pendennis, not destitute of strong points, was of this class, of which, however, more complete illustrations will occur to travelled readers. These old men are done with life, in its stir and movement, and bask in reminiscences and in the collection of floating stories, for which they have a trained aptitude. Perhaps a greyhead, plying this social trade, with a brain stored with veiled crimes and family specters, and with no interest in the present or the future beyond meanness, ridicule and satire, is the most pitiable object on earth. It is a proof of progress that the species is almost extinct, and that age, with its white crown and its furrowed visage, responds to the energy, the toleration and the aspiration of a rejuvenated and broadened civilization.

The most hardened and the most viperous specimens of the scandal-mongers however, exist and thrive in the fast set, of which even the staid inhabitants of Hawaii, if not by personal observation, at any rate by information, may have some knowledge. In this companionship the Becky Sharps of the Twentieth Century revel in the mist of their own exudations. It is a revelation, not inviting repeti tion, to meet women who:

> "Convey a libel in a frown And wink a reputation down."

They excite antagonism by the malice they cannot wholly conceal, attract listeners through the curiosity they excite, and enforce temporary recognition through fear and the desire for peace.

Humanity has not entirely outgrown scandal, but its circles are lessening and its power diminishing. Some years ago, it seemed destined to a renovated vitality through personal journalism, which was defined and proved to be "a despotism tempered by assassination." There are still periodicals devoted, not to social news, the publication of which is legitimate and useful, but to the exposure of family or personal weaknesses and troubles within the seclusion of American aristocracy, and to the compensated ventilation of individual grievances and jealousies and the gratification of individual resentments. The influence of these journals, however, is fast waning and the tone of newspapers, throughout the come, however, when, after a conversational rehash of scandalizing rumors, the the right sort, whether it be canary, colley, monkey or parrot. deduction of Lord Byron may not be often repeated.

Hawaii is judged abroad by the people who represent it and now, as the Advertiser pointed out the other day, it is to be sized up with McCoon Stewart, who has obtained a job as campaign speaker on the mainland. Over there many people don't know much about us and understand that few islanders are more than half white anyway. They are quite prepared, when we send a cake-walking Ethiopian stump-speaker among them to group us all in the same class, just as the sight of a long-haired, buckskin-clad showman in the East convinces people that the West he came from is full of such adventurers. In the past it has been one of Hawaii's strong cards to send its best men on political missions; now a negro carpet-bagger, late a worker for Tammany Hall, is given a job which he will use to advertise himself as a representative citizen of Hawaii. One can almost hear the surge of brag which will roll from his lips: "My friend, Governor Carter, suh;" "My suppohters in the Legislature;" "My political following, suh, in Honolulu." After that the tourist, with handkerchief to his nose, will cut Hawaii off his itinerary. Africa is not popular with the pleasure-seeking and investment

BY DANIEL LOGAN.

So far as the stock sheets reveal there has been nothing whatever doing on the Exchange boards or between them during the past week. Blank responses are also received to personal inquiries of brokers. From the inside the reason given for the inactivity in securities-in contrast to the buzz about Hawaiian stocks in San Francisco-is that "the people haven't got the money." On the outside the complaint is of dearth of information regarding the status of particular enterprises listed on the Exchange. There is also the same talk as was reported in a former article, finding fault with the suppression of the facts in a large proportion of stock transactions that do take place. The news from San Francisco has been stimulating enough, from day to day, to cause some i ciprocating movement here if there are no local circumstances preventing, and that not a ripple has apeared on the surface of things here for a weak may almost be accepted as proof that some mysterious influences are operating on the home market. Both, the inside and the outside reasons mentioned above are probably correct, but each only to a limited extent. To make up for the blank in stock transactions, the following dividend list of August 31 served a good turn: C. Brewer & Co., 2 per cent; Ewa Plantation, 1/2 per cent; Waimanalo, 1 per cent; Haiku, 1 per cent; Paia, I per cent; Hawn, Electric Co., 1/2 per cent; Inter-Island S. N. Co., I per cent; Honomu, 1 per cent; Wailuku, 11/2 per cent; Onomea (S. F., Sept. 5), 1 per cent; Pacific Sugar Mill, 5 per cent.

CONDITIONS ALL RIGHT.

That the prospects for Hawaiian sugar plantations are better than in years past is apparent from the statistical position of the market, which with such information of our different securities listed in San Francisco as may be available there doubtlessly forms the basis of the active demand there with steadily rising quotations. Raw sugar of the standard we furnish persists at 4.255 cents in New York, now for several weeks. That the price does not recede is due to conditions promising of an advance in the near future, probably between the marketing of the last of our present crop and the shipping of the first of our next crop. The stopping of the recent advance in the market is explained by mail advices with facts that do not portend a retrograde movement for at least another twelvemonth. Wllett & Gray's circular of August 18 states that refineries have stocked up in advance to an extent that does not require eagerness on their part, for the present, to absorb immediate arrivals. They will need all that is coming their way, however, in good time if the figures for all over signify anything. For the week reported in the circular the total stocks in the four ports of the United man of all ages, there is the coterie of both sexes, with nothing to do except to the body. It is caused by the fact that I am a lover of fruit, good ripe juicy fruit,

States, was reduced 10,000 tons and stood at 136,972 tons, or less than one-half of the supply held at that time last year. The Cuban crop was practically ended. In Europe the weather was unfavorable for the growing crop of beets, and taking it altogether the condition of the crop was very uneven.

#### AN INTERESTING DISCUSSION.

Nothing in a long time has excited more public interest than the discussion of the results of annexation led by Messrs. P. C. Jones and Wm. G. Irwin, in the order named, through the medium of the Advertiser. Mr. Jones gave figures showing an immense expansion of our chief industry since Hawaii was annexed to the United States. In 1899, for instance, the production of sugar was 282,807 tons and in 1903 it was 437,991 tons. There was great peril, on the eve of annexmarket the ripe fruit, for a fruit with good golden pulp can now be bought instead ation, that the reciprocity treaty under which our sugar entered the American of the white-meated shriveled and tasteless thing which did duty for papaia before market free of duty would shortly be abrogated. Had the islands not been annexed and had the treaty been lost, the cost in sugar duties to Hawaii on the quantity shipped until now Mr. Jones estimated at \$52,000,000. Mr. Irwin argued, with reference especially to our field labor supply, that Hawaii was virtually a colony which should have special consideration. Mr. Jones, in explaining the recent depression, mentioned the excessive speculation of the boom times on the heels of annexation as one cause. In the discussion an anonymous correspondent has produced the interesting calculation that the Chinese and Japanese residents paid two-thirds of the \$900,000 customs duties collected in Hawaii in 1903, resarding which complainers about the times have made a good deal of talk to show that hawaii is giving more than it receives as a member of the Union. It may easily be imagined by anyone who "knows the town" that the response from many to this exhibit of our Asiatic fellow-residents as public burden-bearers will be that the Orientals ought to contribute a still greater proportion of the revenue as an offset to the million a month they remit to their native lands. This would not be an unjust remark to make with regard to Territorial taxes, if it is correct what the writer was informed the other day by a business man. This was that there are scores of Japanese storekeepers in Honolulu-probably also in the country-who carry stocks just safely within the exemption limit of \$300 fixed by the tax law. The aggregate of merchandise that thus escapes taxation-at the same time that it is being sold in competition with the goods of citizens which are being taxed up to the handle-must be very great.

#### GOLDEN ADVICE.

Reverting to the discussion initiated by Mr. Jones, the following passages from his communication are reproduced as worthy of being framed by every patriotic citizen and kept constantly in view:

"What of the future? It seems to me the future looks bright for us. We have many advantages here in this fair land, that no other part of the United States enjoys. Among them is a climate unequalled in any part of the world; we are free from great and disastrous floods, tornadoes and other things that cause se much disaster in other parts of the land; we have valuable sugar estates that have paid liberally in the past, are now paying reasonable dividends, and will continue to pay for years to come so long as they are honestly managed as they have been in the past, and are now being managed; we are enjoying good prices for our main product and the prospects look very bright for the future in many ways. We have good honest men here and lots of them in every department of tradeand our mechanics compare favorably with those of the best on the mainland, but we want more good men to come in and settle among us.

"The future of these Islands will be just what we ourselves make it. Wewant to do more than encourage tourists to visit us; we want, as your paper has been advocating, men with families to come in and take up our unoccupied lands and settle permanently in the Islands. For one I feel greatly encouraged about our future. Our native Hawaiian citizens are fast grasping the idea of American citizenship, and I feel satisfied they are as anxious to have good men in office as any, and the next election in November will prove this."

bordered on the ludicrous, and one of the characters committed suicide in the last minutes of the play in order to make it possible for the hero and heroine to stand virtuously hand in hand as the curtain fell. The provincial playgoing public, which, like other publics elsewhere, heartily dislikes anything in the least unconventional, laughed, wept, shuddered and went away happy. Mr. Saxemundum forsook Virginia cigarettes in favor of threepenny cigars, and the world went very well.

Before the arrival of the new leading man, Enid had begun to lose her enthusiasm for the stage. The constant association with good-natured but uneducated and unwashed people, the bare, poky dressing-rooms in fifth rate theaters, the sordid lodgings in towns composed mainly of factories totally unrelieved by trees or gardens, were beginning to tell. Until the arrival of Blyton, the romance which her imagination had invested in the stage had been very far to seek. The man who had played the hero was a cockney of the most common-place type. He was most kind and most thoughtful, but the constant dropping of h's wears away tolerance. Blyon's arrival was very welcome to Enid. She found herself listening to his voice and watching his clean-built, well-set-up figure with delight. Never had the part, she thought, been played before, and there were a tenderness and a respect in his way of making love on the stage which made the evening's work a company? And if so, how much do you made a point of choosing her rooms. He filled them with flowers before she ar-In Mr. Saxemundum's eyes there came rived. Only this morning, my landlady's brother, who's the special correspondent of the 'Era,' 'He's supposed to be a lord,' he says, 'therefore,' he says, 'why don't he dress it like a lord?' he says. 'He comes on in quiet clothes, for all the world like a J. P. or an ordinary gentleman. Where's the pink shirt and the diamond pin?' he says, 'and the white spats?'

Enid picked up her brush slowly, and glanced at the bunch of flowers on her dressing-table with eyes filled involun-

#### SLEEPING.

BY P. MAURICE McMAHON.

Our souls are sleeping-mine and thine! Voices call from heaven eternally, But our dull ears are bending to the earth, And heaven's raptured sounds are lost to thee and me.

Heaven lies close to us, could we but wake: Glory of daybreak, sunset trees and flowers, Glory of sparkling, azure-tinted sea, Mountains, streams and vales, sun, moon and stars, Joys of the passing hours.

Last night my soul for one brief moment woke, And all was changed on earth, Oh! wondrously; An angel whispered to me in my sleep "Seek thou but love, and heaven will compass thee." Too long I've slept! Oh, love, for thy sweet sake, I will awake!

There was not much excitement at the athletic grounds. The exercises re- out at first. Gleason hit safely to third. sembled a funeral more than a couple of baseball games.

\*\*\*\*\*\*\*\*

The first game was between the Honolulus and the Punahous and the former hit into leftfield letting Gleason and out. Grady hit to third and was out. proved themselves the better club to the tune of 11 runs to 4.

The Honolulus are heavy hitters and yesterday they batted Castle all over ing the score 11 to 0 in favor of the ki hit to first who missed the ball and the field. In the eighth inning the Punahous brought Desha in from the field to H. A. C.'s. the pitcher's box, but the Honolulus kept right on scoring just the same.

The Punahous were further weakened yesterday by the loss of Captain Steere, who is absent on a trip to the other islands.

Warren, who played right field for the Punahous, did some fair fielding, but

badly needs some coaching in his batting methods.

The one bright spot in the game was in the ninth inning when the Punahous came to the bat with a goose egg score to their credit. After two men were out, McCorriston got in a safe hit, Castle did the same; Williams rapped out a safe fly just over short stop's head, bringing McCorriston and Castle home.

Then Tucker waked up and astonished the natives by a little of his old-time ing Williams and Tucker home. Then Campbell took a hand and singled game at 11 to 4 in favor of the H. A. into left bringing both runners home. By this time the fans were all on end yelling like pirates; but the Honolulu's lead was too great to make even a four run inning dangerous, and the next man at the bat fanned out. The Punahous at least saved themselves the ignominy of being shut out completely.

The second game, between the Kamehamehas and the Mailes, was like unto the first-slow and one sided. When it was all over the score read, Kamehameha 10; Maile Ilima 1.

The Kams were in their usual good form. Richards is not a brilliant pitcher, and is decidedly slow in throwing to bases, but he was too much for the Maile batsmen.

Sam Leslie played behind the bat for the Kams and did the best throwing to second that has been seen on the diamond in some time. He is quick, throws swiftly, accurately and at a good height. The Mailes have some good base stealers, but they all ran up against the real thing when they tried to commit larceny with the second base-Policeman was right on to them every time, doing such good detective work that he fairly bluffed the whole Maile team into being good, for after the first few innings the few who got to first stayed close under Reuter's wing.

The Mailes made several changes in their in-field, putting Wren on first. His peculiar giraffe like stride and antics struck the funny bone of the grand stand, and they tried to chaff him, but his good nature was too much for the

#### WEEK'S REVIEW OF SHIPPING

The past week has been marked by numerous arrivals of sailing vessels in contrast to the previous one, which was a week of unusual activity in steamer kept the Fearless hustling to bring them into port. Outside of the island steamers there have only been two steam vessels arriving during the entire week, the Hawaiian returning from Kahului and Hilo and the Alameda from San Francisco. This week, however, will show a large number of steamers, the Korea, Manchuria, Sherman, Thomas and Nevadan being among those due. The majority of the tonnage arriving and departing during the past week has been under the American flag in contrast to the preceding week when the British flag floated over most of the vessels. None of the cargoes arriving from the coast were heavy but the coal ships arriving all had full meda was very heavy, showing that week. the summer exodus to the coast and the fair has ceased and that travel has begun to set in this way.

"Jack" Lucas gave his proxy as a member of the Republican Territorial Convention to F. E. Thompson. While tonight. in Hilo some of Jack's good friends thought it their duty to put the proxy to some substantial use and to that end sent a wireless message from Hilo to "Jack" in care of Martin's Tailoring and Gossip Exchange, to this effect: 'Have spent forty dollars on your proxy. What is limit? (Signed) Crabbe." The answer was anxiously awaited. On Friday the wireless people at Hilo notified Mr. Crabbe that a wireless message awaited him and he planked down \$1.40 as charge on the same. This is what he read: "Jack does not understand your message. Please explain fully. (Signed) Holloway." Crabbe collected the \$1.40 from Frank Thompson as the original conspirator and then sent another message to Lucas, charging same to Martin, as follows: "Have already spent forty dollars for you and have receipted bills Waiakea, 3000; Olaa, 974; Hawail from Demosthenes, How much mone can we spend?"

The Kinau sailed before the answer came, but the "boys" at Hilo wagered that "Jack" was fanning his head.
